

# Community Engaged Leaders

CENTER FOR  
SERVICE AND LEADERSHIP

UNIVERSITY of WASHINGTON | TACOMA

# Community Engaged Leaders

*"Life's most urgent and persistent question is, 'What are you doing for others?'"*  
- Dr. Martin Luther King Jr.

The Community Engagement Leadership program is an opportunity for you to gain real-world experience working within the community to address needs and issues important to you. You will develop relationships at UW Tacoma and within the community that will provide support and foster personal growth throughout the program.

This program goes a step beyond the LEAD certificate program and asks you to consider a larger commitment to community action that works from a sustainability lens of community engagement. The goal of CEL is to instill and practice a life-long dedication to community action for social change. For more information and registration please visit the link below.
