

Instructions for filling out UWT Timesheets in Hardcopy
Part-time Professional Staff

1. Fill in your name: Last, First, MI
2. Indicate your home department.
3. The standard workweek has been completed for you. UWT will use a standard workweek: the workweek begins on Monday at 12:00 am and ends Sunday at 11:59 pm. Do not change it unless you have attained advance approval from the UWT HR Manager.
4. Indicate the Full Time Equivalent % for your position and the number of hours worked for a regular week. (Example: 50% and 20 hrs/wk)
5. Fill in the date for each day.
6. For each day, indicate the total number of hours worked. Add up your hours worked for the entire week in the last column.
7. For each day, indicate the total number of hours of Comp Time used. Add up Comp Time hours for the entire week in the last column.
8. For each day, indicate the total number of pre-approved hours used for Annual Leave. Add up Annual Leave hours for the entire week in the last column.
9. For each day, indicate the total number of hours used for Sick Leave. Add up Sick Leave hours for the entire week in the last column.
10. If you used one of the "Other" types of leave [Military Leave (M), Civil Leave (C), Bereavement Leave (B), Shared Leave (SH), Personal Holiday (PH)], indicate the type of leave used in the space provided in the first column. Then, for each day of the workweek, indicate the total number of hours of that leave used. Add up "Other" Leave hours for the entire week in the last column.
11. For each day that was a UW Holiday, enter your prorated hours (8 hours adjusted by your FTE%) for the Holiday. If a holiday is worked, enter your prorated hours for the holiday and record the hours worked in the Hours Worked row for the same day. Add up holiday hours for the entire week in the last column.
12. Add up your paid hours for each day. Add up paid hours for the entire week in the last column and verify this value with the total for the last column. This is your **Total Hours Paid**.
13. Shift Differential: For each day, check the box if the majority of your shift was between 5 pm and 7 am.
14. For each day, indicate the total hours of Leave without Pay. Add up hours for the entire week in the last column.
15. To calculate Overtime, subtract 40 from the **Total Hours Worked**. Allocate the desired number of your **Overtime Hours** to be paid and the remaining hours to Compensatory Time. Multiply Comp Time hours by 1.5 to determine the number of hours to be recorded as Comp Time.
16. To calculate Additional Straight Time, subtract the number of hours in your regular workweek and any Overtime Hours from your **Total Hours Paid**. Allocate the desired number of Straight Time hours to be paid and the remaining hours to Comp Time.
17. Total your Comp Time from the Additional Straight Time Section (15) and the Overtime Section (16). This is the total amount to be recorded as Comp Time on your Work & Leave Record (Form 220).
18. Sign and Date the timesheet.
19. Have Supervisor Sign and Date the timesheet.
20. Timesheets are to be retained in your departmental files. **Submit to Payroll only if you have Additional Straight Time, Overtime, Shift Differentials and/or Leave w/o Pay.**
