About this catalog

The material in this catalog has been compiled and organized to provide the reader with a comprehensive view of the programs and courses at the University of Washington Tacoma. It includes academic requirements and procedures necessary for admission and graduation. Because UW Tacoma's programs and policies are rapidly evolving, changes will occur during the period this catalog is in circulation. Students should assume the responsibility to contact their advisers or program for the most current information.

The Registration website (tacoma.uw.edu/register) gives information on courses offered, class hours and classroom locations and has the latest calendar dates, fees and details on registration.

The content of this catalog is subject to change without notice and does not constitute an agreement between the University of Washington Tacoma and the student.

General information

The University of Washington Tacoma serves the South Puget Sound region by offering baccalaureate, certificate and graduate-level programs of the highest academic quality. The various courses of study at UW Tacoma produce highly knowledgeable and capable graduates who go on to make impressive contributions in their careers and in their communities.

Mission

The University of Washington Tacoma educates diverse learners and transforms communities by expanding the boundaries of knowledge and discovery.

Values

Our fundamental purpose is to educate students for life as global citizens. UW Tacoma is a distinctive expression of the University of Washington that provides access to an exceptional education for citizens who choose to live and learn in the South Puget Sound region.

We recognize that an excellent education connects knowledge across disciplines. At UW Tacoma, excellence is founded on integrity, dedication and collaboration. We believe that learning is a vehicle that advances students toward fulfilling lives and meaningful careers.

Our community of learners is strengthened by a diversity of voices. Listening to the UW Tacoma community, we have identified four core values that guide us: Excellence, Community, Diversity and Innovation. We share these values and strive to live them.

Excellence

UW Tacoma …

■ commits to excellence in teaching, scholarship, research and service;
■ offers a curriculum that balances core knowledge and skills with responsiveness to student and community need;
■ embraces an interdisciplinary approach to knowledge that instills problem-solving and critical thinking skills for meaningful lives;
■ engages minds by connecting knowledge with experience, fostering wisdom;
■ infuses global and local awareness into its thinking and actions;
■ encourages student-faculty-staff interaction and a reciprocal exchange of knowledge;
■ nurtures a community of learners and develops the whole person by offering opportunities to learn and grow both inside and outside the classroom;
■ provides an environment where students can succeed.

Community

UW Tacoma …

■ celebrates the success of its people;
■ fosters an atmosphere in which individuals work together to make their best contributions;
■ preserves a culture of connection and collaboration as it grows;

partners with communities to improve the human condition;
- cultivates mutually supportive relations with educational partners;
- contributes knowledge that serves diverse communities;
- honors the cultural and civic heritage of its community;
- serves as a catalyst for economic, technological and community development.

Diversity
UW Tacoma ...
- promotes an environment where diverse perspectives and experiences are expected;
- seeks out and supports individuals who may experience barriers in gaining access to college;
- stimulates a vibrant learning community by presenting lectures, events and performances that inspire new views;
- encourages and rewards intercultural competence;
- aligns its values with its actions in support of justice and fairness;
- attracts and retains a community of people and ideas representing diverse cultures and experiences.

Innovation
UW Tacoma ...
- generates new knowledge and embraces varied ways of knowing;
- perpetuates the pioneering spirit of UW Tacoma's beginnings;
- seeks new ways to create opportunity;
- inspires creative ways of seeing and solving problems;
- expands resources and makes thoughtful use of existing ones;
- lives in harmony with the environment and is a wise steward of natural resources;
- grows stronger through the collective wisdom of its community.

Vision
Within the next 10 years, UW Tacoma will become a more comprehensive institution that will respond with distinction to the needs of the region, state, nation and the world. UW Tacoma will achieve distinctiveness as an urban campus of the University of Washington through its commitment to three principles:
- Access to an exceptional university education
- An interdisciplinary approach to knowledge and discovery in the 21st century
- A strong and mutually supportive relationship between the campus and its surrounding communities

As the campus grows, UW Tacoma will strengthen its learning culture, research, institutional structures, and academic and co-curricular programs necessary to embody these three commitments and to uphold the standards of excellence, shared governance and academic freedom that are hallmarks of the University of Washington. It will also develop and implement assessment plans that serve as measurable benchmarks for institutional progress.

The core values of the institution—excellence, community, diversity and innovation—will shape the specific goals and methods UW Tacoma chooses to address these commitments and build its distinction as a campus.

Degrees
The University of Washington Tacoma confers the following degrees:
- Bachelor of arts (B.A.)
  Computer Science and Systems
  Criminal Justice
  Healthcare Leadership
  Interdisciplinary Arts and Sciences
  Social Welfare
  Sustainable Urban Development
  Urban Studies
- Bachelor of science (B.S.)
  Computer Engineering and Systems
  Computer Science and Systems
  Environmental Science
  Information Technology and Systems
- Bachelor of science in nursing (B.S.N.)
- Master of Accounting (M.Acc.)
- Master of arts (M.A.)
  Interdisciplinary Studies
- Master of business administration (M.B.A.)
- Master of education (M.Ed.)
- Master of nursing (M.N.)
- Master of science (M.S.)
  Computer Science and Systems
- Master of social work (M.S.W.)

Selected academic programs of study at the University of Washington Tacoma are approved by the Higher Education Coordinating Board’s State Approving Agency (HECB/SAA) for enrollment of those eligible or receive benefits under Title 38 and Title 10, U.S. Code.

State Board of Education Certificates
The University of Washington Tacoma is authorized by the State Board of Education to offer professional certificate programs in education for administrators and teachers. UW Tacoma prepares and recommends individuals for the following state certificates:
- Initial Teaching Certificate (K-8)
- Educational Administrator Certificate (for principals and program administrators)

Accreditation
The University of Washington Tacoma is accredited as a unit of the University of Washington by the Northwest Association of Schools and Colleges. Individual academic programs may have other accreditations as well (see individual program sections).

Key Bank Professional Development Center
The mission of the KeyBank Professional Development Center is to expand access to the resources of the University of Washington Tacoma by offering advanced, non-degree education to individuals and organizations in the South Puget Sound region. For more information, please contact the center at 253-692-4618 or visit tacoma.uw.edu/keypdc.

Financial Aid

Approximately 60 percent of students attending the University of Washington Tacoma receive federal, state or institutional financial aid to help them pay for their education.

There are four basic types of aid:

- **Grants:** Federal, state and institutional grants do not require repayment.
- **Loans:** Must be repaid, generally beginning six months after a student graduates or leaves school. Loans require repayment with interest (the rate varies depending on the program) accruing during the repayment period.
- **Work-Study:** Students can be employed either on or off campus, with the primary focus being that students enhance their field of study by working part-time in a career-related position.
- **Scholarships and Tuition Waivers:** Awards are based on financial need, academic achievement and in some cases the quality of the personal essay that is submitted as part of the scholarship application process.

What is Financial Need?

For most aid programs, financial need is defined as the difference between what it costs to attend school and what the student can afford to pay. The amount a student should be able to pay is determined by a standard, federally mandated need-analysis method. The method establishes whether a student is financially independent (unmarried students under the age of 24 years may be considered dependent and in that case must provide parent information) or financially dependent on his or her parents and takes into account past earnings and benefits, a percentage of net assets and all other sources of support.

There is no income standard or other simple method of determining whether a student will qualify for need-based financial aid. Any student who thinks he or she needs help should apply.

If a student has additional medical, transportation, child-care, or other unusual expenses not covered by the living allowance, the student may, by submitting a revision request with documentation (physician’s statement, child-care, or baby-sitter bills, etc.), ask the Office of Student Financial Aid to consider the additional costs in his or her budget.

### Eligibility for Financial Aid

To qualify for federal financial aid, a student must:

- Be a U.S. citizen, permanent resident or other eligible noncitizen
- Be admitted to the university in an approved program and meet minimum enrollment requirements (most distance learning, correspondence and nonmatriculated students are not eligible for financial aid)
- Not be in default on a previous student loan or owe a repayment on a grant or loan for which the student was not eligible
- Be registered with the Selective Service (if required)
- Be making satisfactory academic progress (The definition of satisfactory progress differs with different kinds of aid. In general, undergraduate students are required to register for and complete 12 credits per quarter; graduate students, 10 credits per quarter. Check with the financial aid staff for detailed information.)
- Provide financial information (including parents’ information, where required)
- Be free of any federal or state drug-related convictions while you were receiving federal student aid

Eligible students are considered for funding based on three things: need, class level and state residency status. Need determines priority for those programs within the class level. Students with the fewest resources are given first priority for all aid funds.

### Application and Important Dates

The Free Application for Federal Student Aid (FAFSA) is the basic application for most types of financial aid.

Students must complete and submit their FAFSA information directly to the federal processor online. Students must apply for a personal identification number (PIN) in order to complete the online FAFSA. PINs can be obtained by registering through www.pin.ed.gov. To access FAFSA on the Web, go to www.fafsa.ed.gov. Applications are also available from the Office of Enrollment Services.

Students should complete their FAFSA for the upcoming year (defined as summer through spring quarters) beginning in mid-December or early January.

A student who wishes to apply for financial aid to support study during summer quarter must submit a separate application.

### Priority dates

For priority consideration, the FAFSA must be received by the federal application processor by Feb. 28 of each year. Students who submit their FAFSAs after the priority date, fifth-year students and part-time students may be eligible to borrow funds through the Federal Stafford Loan or the Federal PLUS Loan Programs. Undergraduates may qualify for a Federal Pell Grant.

Because the priority date falls before the income tax deadline, students and parents can use estimated income figures if their tax information is not prepared. Tax and asset documents may be requested at a later date to verify information provided on the initial application.
Students who apply for financial aid should remember to keep copies of financial documents used in completing the FAFSA, should stay in touch with the financial aid counselor and should notify the Office of Enrollment Services of any change in address.

**Consortium Agreements**

UW Tacoma students will occasionally need to enroll at a community college to complete admission deficiencies. The credits at the community college may be counted toward the student’s total quarter enrollment credits using a financial aid consortium agreement. Both UW Tacoma and the community college must approve consortium agreements. If approved, consortium agreements enable the student to receive financial aid based on the total credits being taken at both institutions. Agreements must be submitted to the Office of Student Financial Aid no later than three weeks prior to the start of the quarter.

**Student Tax Information**

Student Fiscal Services in Seattle monitors student tax information at the University of Washington. This information includes data for use in claiming educational tax credits and deductions that you have paid for tuition and fees. In addition, the UW provides information to help you determine if your scholarships, fellowships, grants or tuition reductions are taxable. The UW cannot provide individual tax advice. If you have questions, you should consult your tax adviser about your specific circumstances.

Scholarships, fellowships, grants and tuition reductions are not considered taxable income if they are used solely for qualified educational expenses. Any amount used for personal or non-qualified expenses are subject to tax. For more details refer to the IRS Publication 970: Scholarships and Fellowships.

Washington State’s Guaranteed Education Tuition (GET) program is a 529-qualified tuition program according to IRS regulations. This program allows individuals to prepay for students’ college educational expenses. Funds from the GET program are used to reduce qualified educational expenses. The amounts used to pay these expenses are not taxable or reported to the IRS on the 1098T forms that the UW provides students for filing their tax returns.

Go to f2.washington.edu/fm/sfs/tax to find links to the following topics:

- Education tax credits and tax deductions (IRS Form 1098T)
- Print your 1098T information
- Nonresident alien student tax (IRS Form 1042S)
- Employees’ tuition exemption tax withholding
- Canadian tax information

For questions, please email taxquest@u.washington.edu or call 206-221-2609 for assistance.
Tuition and Fees

The cost of a student’s education at the university varies with individual circumstances. The amount charged for resident undergraduate tuition and fees is set by the state and is indexed to the cost of instruction. Tuition and fees for non-residents and graduate students are set by the University of Washington Board of Regents. Because inflation increases costs, tuition rates generally increase each year. Since university costs are supported by the state, the rates charged to students who are not residents of Washington state are higher than the rates for residents. Please refer to the Registration, Academic and University Policies sections for information regarding residency classification. Tuition charges are based on the student’s classification (undergraduate or graduate) rather than on course level. See chart on next page for tuition rates. Rates are subject to change without notice.

Tuition and Fee Payment

Students incur an obligation to pay tuition and fees in U.S. dollars when they register. Students receive email notification once tuition charges are available on MyUW. No matter which payment option the student chooses, payment in full of tuition is due by 5 p.m. on the third Friday of the quarter.

Nonpayment of tuition and fees by the due date results in a charge of $50 for balances of $50 to $250 and $120 for balances in excess of $250. Students with an overdue balance will not be allowed to register for the next quarter.

Options for Tuition Payment

Web check

Tuition and related charges may be paid online by web check from a checking or savings account. This service is accessible from the Tuition Charge Statement on MyUW. A bank routing number, account number and UW student ID number are required to complete the transaction. Payments post immediately and there is no fee for this service.

Check or money order (in-person)

Payment may be made by personal check or money order to the UW Tacoma Cashier or mailed to the UW Tacoma Cashier’s Office, Campus Box 358433, 1900 Commerce Street, Tacoma, WA 98402. Payment may also be placed in the drop box located next to the Cashier’s Office. Checks should be payable to “UW Tacoma” and include either the student’s ID number or Social Security number in the memo field.

Credit card

Credit card payments may be made online only through MyUW. Sign in at MyUW and select the “Credit Card Payment” option. Credit cards cannot be used to pay tuition in person at the Cashier’s Office. There is a significant convenience charge assessed when using this option.

Tuition installment plan

The tuition payment plan allows students to pay their quarterly tuition in three installments. There is a $10 service fee for participating that is due with the first payment. Students must enroll for this option each quarter with the UW Tacoma Cashier during the first week of the quarter. One third of the tuition plus the $10 service charge is due by the first Friday of the quarter. The remaining balance of tuition is due in two equal payments on the third and fifth Fridays of the quarter.

To qualify for the installment plan all payments must be made on time. The second and third payments are subject to late fees as shown on page 12. Payments must be made by check or money order to the UW Tacoma Cashier in person on through the drop box outside the Cashier’s Office.

Specifying Payments

When the payment received is not in conformance with the tuition and fee billing, specific instructions on how the payment is to be applied must accompany the payment. In the absence of instructions, the university makes a reasoned interpretation of the student’s intent and accounts for the funds accordingly. The student number or Social Security number must be specified on all payments.

Tuition Forfeiture

When students drop or withdraw from courses after the first week of the quarter and the drop results in lower tuition, the university reserves the right to collect one-half the tuition through the 30th calendar day of the quarter for the dropped course or courses and full tuition after the 30th calendar day of the quarter. In some circumstances students may petition the registrar to have the tuition forfeiture waived. Details are available in the Office of the Registrar (see Request to Waive Tuition Forfeiture or Registration Fees, this page).

Request to Waive Tuition Forfeiture or Registration Fees

If a student feels that he or she has been charged a tuition forfeiture or registration fee in error or wishes to contest a forfeiture or fee, he or she may complete a request to waive tuition forfeiture or registration fees form. Failure to check your tuition balance on MyUW does not nullify a student’s responsibility for payment by the tuition due date and is not an acceptable justification for a waiver. Please refer to the form for appropriate guidelines for granting these requests.

Petitions must be received by the UW Tacoma registrar no later than the last day of instruction.

Tuition and Fee Refund

When a fee payment is made by check, a waiting period is required before a refund can be authorized. An application for refund may be refused unless it is made during the quarter in which the fees apply. A student who withdraws for disciplinary reasons forfeits all rights to refund or cancellation of any portion of his or her fees.
## 2012-2013 Quarterly Tuition Rates*
Tuition rates are subject to change without notice.

* Tuition rates shown include activity and technology fees.
** For tuition rates at enrollment over 18 credits, please check online at tacoma.uw.edu/tuition.
Other Fees

Explanation of fees where necessary follows. All fees are subject to change without notice.

Application Fees

There is no reduction in fees for auditors.
Undergraduate..........................$ 60
Undergraduate International .......... $ 75
Undergrad. Returning Students ..... $ 60
Graduate ............................................$ 75

Late Payment of Tuition
If balance exceeds $250...................... $120
If balance is $50 – $250.................... $ 50
If balance is less than $50 ............... $ 0

Registrar’s Office Service Fees

Late Registration
First through 10th day of class ........ $ 25
After 10th day of class .................... $ 75

A late registration service charge of $25 is assessed when a student has not registered for any credits before the first day of the quarter. The fee is in effect through the 10th day of the quarter. Students whose first registration occurs after the 10th day of the quarter will be assessed a $75 fee. If circumstances warrant, waiver of the fees or service charge may be petitioned to the UW Tacoma Registrar using the request to waive tuition forfeiture or registration fees form.

Change of Registration .................. $ 20

Only charged after the first week of the quarter

On the first day of the second week of classes, a $20 change-of-registration fee is assessed for any number of add, drop or change transactions (including change of grading option) made on a given day. The fee is a transaction/service charge, not a penalty, and is in addition to any change in tuition or forfeiture as a result of adds, drops or changes. There is no charge prior to or during the first week of classes.

Duplicate diploma with paper cover ..................................... $ 10
Replacement of Student ID Card ........ $ 15
Transcript (Official)......................... $ 9

Special Course and Laboratory Fees

Some courses have extraordinary expenses associated with them and, in such cases, the university may charge additional fees in amounts that approximate the added instructional or laboratory costs.

Technology Fee

This fee is to recover, in whole or in part, the costs of providing and maintaining services to students that include, but are not limited to, the following: access to the Internet, email, computer and multimedia workstations and laboratories, computer software and dial-up telephone services. Part-time students (those paying less than full-time tuition) are charged on a prorated basis. The fee is included on the quarterly tuition billing.

Financial Obligations

The Office of Student Fiscal Services is authorized to place an administrative hold on the records of any student who fails to pay amounts due to the university. Until this hold is cleared, the university does not release the student’s record or any information based on the record, does not prepare transcripts or certified statements, and denies registration as well as graduation from the university.

Tuition and fees (including parking and library fines) not paid by the end of the academic quarter are subject to an interest charge of 1 percent per month, or fraction thereof (12 percent APR), beginning the month following the end of the quarter.

An administrative hold may also occur when a student has not complied with university rules, followed university procedures or satisfied student obligations. The hold may be placed on the student’s record by the authorized university office responsible for enforcement of the rule, procedure or obligation involved. The student is not permitted to register for any subsequent quarter or to obtain a transcript of his or her record or a certified statement except on the written release of the office that placed the hold.

Tuition Exemption

Eligible university and state of Washington employees may enroll for and receive a tuition exemption for up to six credits each quarter, provided they enroll on a space-available basis. Eligible students are allowed to enroll for more than six credits and will be charged tuition accordingly for the additional credits. All students participating in the tuition-exemption program will be assessed a quarterly $30 registration fee and must pay other applicable fees, including the technology fee. A participating student may not register for any course, including the credits beyond six that the student will be paying for, prior to the student’s assigned space-available registration day, or the exemption will be canceled. Matriculated students desiring a higher registration priority to facilitate course enrollment may choose to cancel their exemption for the quarter, register early and pay regular tuition rates. Space availability applies to degree programs as well as courses, and fully enrolled programs may not have space to accommodate students using the tuition exemption.

Eligible students must hold one of the following statuses on the day the exemption form is approved, and must be in that status on the first day of the quarter for which the exemption was granted. To be eligible a student must be:

■ A University of Washington employee: permanent classified or contract classified staff who are employed half-time or more with six months or more of continuous service prior to the first day of the quarter and faculty/professional staff employed half-time or more on the first day of class.

■ A non-University of Washington permanent classified or contract State of Washington employee employed half-time or more.

■ A permanent classified or exempt paraprofessional employee of a technical college employed half-time or more.

■ A non-academic employee or member of the faculty or instructional staff employed half-time or more at a state institution of higher education other than the University of Washington.

■ K-12 instructors qualified to teach or seeking valid endorsement and assignment in a state-identified shortage area.

A note of caution: A UW employee pursuing a graduate program or graduate-level course work claims the amount of the quarterly exemption as income on the federal income tax return unless his or her supervisor has certified that the program or course work is job related. If it is determined that the course is not job related, the value of the exemption will be considered income and subject to withholding.

Qualifying Courses

Courses that involve intensive one-on-one interaction between faculty member and student (such as independent study, research and some fieldwork courses) do not qualify under the definition of “space available.” Tuition-exempt students may be required to pay full tuition to enroll in these courses. See the quarterly Registration Guide for details. All 600- and 700-level courses are excluded from the tuition exemption program.
Admission Status

Individuals who wish to participate in the tuition exemption program must apply for admission to the University of Washington Tacoma. Applicants are subject to the same priority application dates as other new students. Individuals wishing to apply as matriculated students or as graduate nonmatriculated students to a UW Tacoma academic program, should contact the specific program office for details regarding the application process and space availability in the program. New nonmatriculated students should submit applications for admission to the Office of Admissions.

Because tuition exempt paperwork must be received no later than two weeks prior to the start of the quarter, new applicants are encouraged to submit their tuition exemption paperwork regardless of their pending application status.

Program participants who are former UW Tacoma students returning in the same classification or as nonmatriculated students should submit their application online at tacoma.uw.edu/apply.

Registration and fees

The Office of the Registrar accepts tuition exempt paperwork for the next quarter beginning the Monday after the 10th day of the current quarter. Paperwork must be submitted each quarter and must be received no later than two weeks prior to the first day of the quarter in which attendance is planned. UW Tacoma strictly adheres to this deadline. Paperwork must be complete, including required signatures, or it will be returned. Paperwork that has been returned must be completed by the same deadline noted above.

Actual registration for courses begins through MyUW on or after the appropriate eligibility dates. Registration dates are posted on the Registration Guide website at tacoma.uw.edu/register. Under the tuition exemption program, tuition-exempt students must pay the quarterly technology fee. They will be billed this fee, and any other applicable fees, plus the $30 tuition exemption registration fee once they have registered for a course.

UW faculty/staff ID cards may be used for library services. Participating state of Washington employees may obtain student ID cards for library services from the Office of the Registrar.

More information and the quarterly required tuition exemption form are available on our website or in the Office of the Registrar.
Registration Eligibility
Continuing University of Washington Tacoma students who remain in good scholastic standing are guaranteed the opportunity to register each quarter at UW Tacoma as long as they maintain continuous enrollment (excluding summer quarter) or satisfy the guidelines of the quarter-off policy. Continuation must be in the same classification (undergraduate, post-baccalaureate or graduate) and at the same campus. After a student has earned a baccalaureate degree, he or she must apply for readmission as a post-baccalaureate, nonmatriculated or graduate student before being allowed to register.

Newly admitted students and students readmitted to the same or a new classification (undergraduate, post-baccalaureate or graduate) or admitted to a different university campus are eligible to register during a specified time period. See Registration Periods on page 15.

Exceptions to the guarantee of registration eligibility include students under disciplinary action, students with a financial hold on their records and students failing to meet conditions of admission or not meeting program or university satisfactory progress policies. Additionally, continuing students who withdraw during the first week of two consecutive quarters (summer quarter not included) will not be eligible to register as continuing students for the third quarter and must reapply as former students returning to continue enrollment (excluding summer quarter) at the University of Washington. If an undergraduate does not meet the previous requirement, they may be allowed to register.

Quarter-Off Policy
Undergraduate students who have completed a quarter at the University of Washington Tacoma, may take the following quarter off and remain eligible to register during Registration Period I for the subsequent quarter without reapplying as a returning student. Any quarter from which a student has completely withdrawn does not constitute a completed quarter. Summer quarter enrollment is not required to maintain continuous registration eligibility. The quarter-off policy is not available for graduate students; please see Graduate Student On-Leave Status.

Graduating Senior Priority
Graduating seniors or post-baccalaureate students who have submitted a graduation application may register on the first day of Period I for their final two quarters. Students who postpone their graduation may save their priority quarters by not registering before their regular senior or post-baccalaureate priority day. When students have used their graduating senior priority for two quarters, their registration priority reverts to the regular senior or post-baccalaureate schedule. Students may not register for classes in any quarter beyond the quarter for which they have applied to graduate (except summer quarter).

Registering at Other UW Campuses
Undergraduate students who have completed at least 15 credits and freshmen who have completed at least 25 credits at the Tacoma campus are eligible to register for up to five credits per quarter at one of the other UW campuses during Registration Period II. Eligible students may register cross-campus using MyUW. Undergraduate students are limited to a total of 45 credits through cross-campus registration.

For more information on cross-campus registration, please go online to: www.washington.edu/uaa/advising/registration/ccregi.php

Dropping a Course
Students dropping a course during the first two weeks of a quarter shall have no entry on their permanent academic transcript unless they do a complete withdrawal from the university. If a student drops all his or her courses, a complete withdrawal date is recorded on the transcript. A course drop made during the third through the seventh week of the quarter will be recorded on an undergraduate student's transcript with a W grade and a number designating the week of the quarter in which the course was dropped. Students may drop only one course each academic year (autumn through summer quarters) from the third through the seventh week of the quarter. This is referred to as the "annual drop".

To drop a course officially, a student must complete the transaction electronically using MyUW or submit a drop card in the Office of the Registrar. Students who drop a course unofficially (only through the instructor or adviser, for example) is given a grade of 0.0. Students receiving or applying for financial aid should check with the financial aid counselor before dropping a class because it may affect financial aid eligibility. Students should be aware that dropping a course may affect their student account. Please see the Tuition and Fees section of this catalog.

During summer quarter, the timeline for dropping a course is abbreviated due to the shortened session. Please consult the Important Dates page on the Registration website for specific dates at tacoma.uw.edu/register.

Hardship Withdrawal Policy
Students may petition the UW Tacoma registrar in writing for a hardship withdrawal if they are unable to complete a course due to physical or mental debilitation or unusual or extenuating circumstances beyond their control that may have arisen and prevented them from completing the course during the seventh week. Petitions must be filed promptly after the occurrence of the event that gave rise to the need for dropping, preferably prior to the end of the quarter. Only in rare circumstances will petitions be accepted after the close of the quarter in which the withdrawal is being petitioned. Students who have completed the requirements for the course are generally not eligible for a hardship withdrawal.

The petition for hardship withdrawal should be completed by the student and submitted to the UW Tacoma registrar. Supporting documentation as detailed on the petition form must accompany the petition. The
Withdrawal for Military Service

Students who are conscripted into the U.S. armed forces or called to active military duty may withdraw through the end of the seventh week of instruction and receive a full refund but no academic credit. A copy of the student's military orders is required. If a student withdraws after that date, the student may receive either a full refund or academic credit and no refund.

Students who withdraw for military reasons will be allowed to return to the university without having to pay another application fee. Documentation in the form of military orders will be required. Please consult with the Office of the Registrar for complete details.

Important Dates

Each quarter, the Office of the Registrar publishes a list of important dates for the upcoming quarter online on the Registration website at tacoma.uw.edu/register. This page contains links to the schedule of classes, academic calendar, final examination schedule, registration period dates, deadlines (including graduation application deadlines), information about tuition and fees, and registration and withdrawal procedures. It is the responsibility of the student to know and understand these procedures and deadlines.

Registering for Classes

Students register for classes online using MyUW. Before registering:

- Review the important dates on the Registration Guide website.
- Talk with an adviser before selecting courses. Academic advising is highly recommended.
- Obtain entry codes from the appropriate program office for any courses requiring entry codes.
- Take care of all university financial obligations. The system will not permit students to register if there is a hold on their registration.

Once initially registered, students can log in to MyUW as often as they want to check the status of sections, list their confirmed schedule, add or drop courses or check account balances.

How to Register

Students can access MyUW directly at myuw.washington.edu or through the UW Tacoma homepage at tacoma.uw.edu. A UW NetID and password are required.

Each quarter when registering, students are required to verify their current address, indicate their interest in being a member of ASUWT and select the U-PASS option.

Registration links are found under the "Academics" tab in MyUW. If a content box labeled "Registration, Tacoma" is not shown, use the Add Content link at the top of the page and choose the "Registration, Tacoma" box.

Checking course availability

Beginning Period I, students can check course availability via the online time schedule at myuw.washington.edu.

Registration Periods

Registration consists of three registration periods. For the most complete information, including the exact dates for each registration period, please visit the Registration Guide website at tacoma.uw.edu/register.

Registration period I

Open to currently registered, matriculated students and those eligible to register under the quarter-off policy. Occurs during the latter half of the quarter preceding the quarter for which the student is registering. (For example, currently enrolled students registering for autumn quarter do so in spring quarter.) Actual registration dates are based on your class standing and the last digit of your student number.

Undergraduate students cannot register for more than 19 credits prior to the beginning of the quarter.

Registration period II

New graduate students and returning students register during Period II. New undergraduate students register at New Student Orientation, which takes place during Period II.

Registration period III

Open to all students for late registration, course adds and drops. This period is also when all nonmatriculated students register. Occurs during the first week of the quarter. Certain fees and tuition charges may apply. Please see the Tuition and Fees section.

Late add period

Open during the second week of the quarter. An entry code is required to add any class. A $20 fee is charged for each additional day add transactions are processed. This fee is in addition to any tuition increase or forfeiture as a result of the change. At UW Tacoma, students may not add classes or increase credits after the second Friday of the quarter.
Unrestricted drop period
Continues through the second week of the quarter. Courses dropped during this period do not appear on the academic transcript. A $20 fee is charged for each additional day drop transactions are processed. This fee is in addition to any tuition decrease or forfeiture as a result of the change.

Late course drop period/annual drop
Students may drop one course each academic year (autumn through summer quarters) from the third through the seventh week of the quarter. A “W” and a number indicating the week in which the course was dropped will follow the course title on the academic transcript. A $20 fee is charged for the day that the drop transaction is processed. This fee is in addition to any tuition decrease or forfeiture as a result of the change.

Full-Time and Half-Time Status

<table>
<thead>
<tr>
<th></th>
<th>Full-Time</th>
<th>Half-Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate........</td>
<td>12 cr.</td>
<td>6–11 cr.</td>
</tr>
<tr>
<td>Graduate .............</td>
<td>10 cr.</td>
<td>5–9 cr.</td>
</tr>
</tbody>
</table>

To be classified as a full-time student by the University of Washington Tacoma, an undergraduate student must register for and complete at least 12 credits per quarter. A graduate student must register for and complete at least 10 credits per quarter.

To be classified as a half-time student by the university, an undergraduate must register for and complete at least six credits per quarter. A graduate student must register for and complete five credits per quarter.

Please note that financial aid and tuition rates do not necessarily correspond to the above credit requirements.

Military Personnel
Active-duty military personnel stationed in the state of Washington, their spouses and dependent children are eligible for resident (in-state) tuition. Please request a military exemption form from the Office of the Registrar.

Access Program for Older Adults
UW Tacoma allows Washington residents 60 years of age or older to audit certain courses on a space-available basis. Registration for Access students begins the third day of the quarter. Students who attend the university under the Access program are limited to two courses per quarter. There is a nominal registration fee, but Access students do not pay tuition. As auditors, students do not receive credit, participate in discussions, complete laboratory work or take examinations.

Auditing a Course
Students who intend to audit a course must first register for the class through MyUW and then go in person to the Office of the Registrar to elect the audit grade option. The deadline to change to audit status is listed on the important dates page each quarter on the registration website. A $20 fee may be imposed depending on the timing of the transaction. Permission to audit is granted by the course instructor and is generally allowed only for lecture classes. Auditors may not participate in discussion or laboratory work.

Summer Quarter
Students should note that due to the shortened session, deadlines for fee payment and registration transactions may vary from those of the regular academic year. See the important dates page on the registration website for specific dates each summer.
Academic and University Policies

Academic Policies

UW Tacoma uses a numerical grading system. Instructors may report grades from 4.0 to 0.7 in 0.1 increments and the grade 0.0. The number 0.0 is assigned for failing work or unofficial withdrawal. Grades in the range 0.6 to 0.1 may not be assigned. Grades reported in this range are converted by the registrar to 0.0. Numerical grades may be considered equivalent to letter grades as shown in the chart at right.

The following letter grades may also be used:

CR: Credit awarded in a course offered on a credit/no-credit basis only or in courses numbered 600, 601, 700, 750 and 800. The minimum performance level required for a CR grade is determined, and the grade is awarded directly by the instructor. CR is not computed in GPA calculations.

NC: Credit not awarded in a course offered on a credit/no-credit basis only or in courses numbered 600, 601, 700, 750 and 800. The grade is awarded directly by the instructor and is not included in GPA calculations.

S: Satisfactory grade for courses taken on a satisfactory/not-satisfactory basis. An S grade is automatically converted from a numerical grade of 2.0 or above for undergraduate classes and 2.7 for graduate classes. No credit is awarded for courses in which an NS grade is received.

I: Incomplete given only when the student has been in attendance and has done satisfactory work until within two weeks of the end of the quarter and has furnished proof satisfactory to the instructor that the work cannot be completed because of illness or other circumstances beyond the student's control. To obtain credit for the course, an undergraduate student must convert an I into a passing grade no later than the last day of the next quarter. The student should never re-register for the course as a means of removing the Incomplete. For undergraduate students, an I grade not made up by the end of the next quarter is converted to a grade of 0.0 by the Office of the Registrar unless the instructor has indicated when assigning the I grade that a grade other than 0.0 should be recorded if the incomplete work is not completed. The I is not removed from the permanent record and appears on the transcript with the completed grade. An instructor may approve an extension of the Incomplete removal deadline by contacting the Office of the Registrar no later than the last day of the quarter following the quarter in which the Incomplete grade was assigned. Extensions, which may be granted for up to three additional quarters, must be received before the I has been converted into a failing grade. In no case can an I received by an undergraduate be converted to a passing grade after the lapse of one year. For graduate students, an I grade does not automatically convert to 0.0 but remains a permanent part of the student's record. To obtain credit for the course, a student must successfully complete the work and the instructor must submit a grade. In no case can an I received by a graduate student be converted to a passing grade after a lapse of two years or more.

</tr>
</tbody>
</table>
W: Official Withdrawal or drop from a course from the third week through the seventh week of the quarter for undergraduates. A number designating the week of the quarter is recorded with the “W” when a course is dropped. It is not computed in GPA calculations.

HW: Hardship Withdrawal grade assigned when a student is allowed to withdraw from a course after the 14th calendar day of the quarter (see Hardship Withdrawal Policy on page 14). It is not computed in GPA calculations.

N: Indicates that the student is making satisfactory progress and a final grade will be given at the end of the quarter the work is completed. Used only for hyphenated courses (courses not completed in one quarter) and courses numbered 600, 601, 700, 750 or 800.

Grade point average (GPA)
The cumulative GPA includes credits granted for courses taken in residence at all campuses of the University of Washington and those with a “DL” (Distance Learning) suffix taken through UW Educational Outreach (UWEO).

The UW transcript also reflects grades for other UWEO courses that are not residence credit and grades for credit by examination. These latter grades do not affect the student’s UW cumulative GPA.

Computation of GPA
The grade point average for graduation is computed by dividing the total cumulative grade points by the total credits attempted for courses taken in residence at the university. Grade points are calculated by multiplying the number of credits by the numeric value of the grade for each course. The sum of the grade points is then divided by the total credits attempted. Courses elected on an S/NS basis are counted as follows: Satisfactory grades are printed on the permanent record as an S and do not count in the quarterly or cumulative grade point average, but they do count as credits earned toward graduation. Not-satisfactory grades (NS) do not count in the quarterly and cumulative grade point averages and do not count as credits earned toward graduation.

Example 1:

Course | Credits | Grade | Points
--- | --- | --- | ---
TIAS 498 | 3 | 0.0 | 0.0
TSMIN 300 | 5 | 2.9 | 14.5
TCSIUS 445 | 5 | 3.2 | =16.0

Total credits earned toward graduation: 10
Total graded credits attempted: 13
Grade point average = 30.5 ÷ 13 = 2.35

The total graded credits attempted, not the credits earned toward graduation, are used in computing the GPA.

Example 2:

Course | Credits | Grade | Points
--- | --- | --- | ---
TBUS 300 | 5 | 2.3 | = 11.5
TBUS 310 | 5 | 2.9 | = 14.5
TBUS 320 | 5 | I | = .0

Total graded credits attempted: 15
Grade point average = 26.0 ÷ 10 = 2.60

The student attempted 15 credits, but only 10 are graded; the I is not computed in the grade point average. If the work in TBUS 320 is not made up by the end of the quarter, the I will convert to a numeric grade of 0.0 and the grade point average will be recomputed.

Repeating Courses
With the approval of the academic program offering the course, a student may repeat a course once. Both the original grade and the second grade will be computed in the grade point average, but credit will be allowed only once. Veterans receiving benefits must receive approval from the veterans coordinator in the Office of Veteran and Military Services before a course is repeated.

Duplicate Courses
To protect the student’s investment of educational effort and the value of the degree, UW Tacoma will not award credit for courses that repeat work done elsewhere. It is the responsibility of students who have earned credit at other colleges for determining whether courses they plan to take at UW Tacoma would duplicate any previously earned credit. Duplicate credit will not be awarded for courses that are equivalent to courses previously passed. Students who are in doubt should consult an adviser before registering.

Class Attendance
The University of Washington Tacoma reserves the right to drop students who have not attended class during the first week of the quarter to make space for other students waiting to enroll. However, students should not assume that they will automatically be dropped from a course if they do not attend. It is the student’s responsibility to drop the course through MyUW. Students who are registered for a course section but do not attend will be assigned a failing grade by the instructor.

Grading Procedures
Change of grade
Except in case of error, an instructor may not change a grade that he or she has submitted to the registrar. A student who finds administrative omissions or errors in a grade report must make application for a review not later than the last day of the student’s next quarter in residence. Grades used to meet graduation requirements cannot be changed after the degree has been granted. Students are not automatically notified of grade changes posted after the first of the quarter.

Grade appeal procedure
A student who believes he or she has been improperly graded first discusses the matter with the instructor before the end of the following academic quarter. If the student is not satisfied with the instructor’s explanation, the student may submit a written appeal to the director or the dean of the program that offered the course, with a copy of the appeal also to the instructor. This must be done no later than 10 class days after his or her discussion with the instructor.

The director consults with the instructor to ensure that the evaluation of the student’s performance has not been arbitrary or capricious. Should the director believe the instructor’s conduct to be arbitrary or capricious and the instructor declines to revise the grade, the director, with the approval of the voting members of his or her faculty, shall appoint an appropriate member, or members, of the faculty of that program to evaluate the performance of the student and assign a grade. The UW Tacoma vice chancellor for Academic Affairs and the University of Washington provost should be informed of this action.

Once a student submits a written appeal, this document and all subsequent actions on this appeal are recorded in written form for deposit in the student’s file.

Grade Reports
The University of Washington does not mail grade reports. Students access their grades online using MyUW.
**Transcripts**

Official transcripts are available from the Office of the Registrar or the Cashier’s Office. Transcripts may be ordered using a request form or by written request from the student. The request must include name; Social Security number or student identification number; current phone number; date of birth; address to which the transcript should be sent and student signature. Additional helpful information includes dates of attendance and former name.

Because the signature of the student is required, email requests cannot be accepted. Payment of $9 per transcript is required at the time of the request by check or money order. Current students may have the charge added to their tuition bill. The transcript request form is available online at [www.tacoma.uw.edu/ordering-transcripts](http://www.tacoma.uw.edu/ordering-transcripts). Allow three to five working days for processing. Same-day requests are available for an additional $15 fee. Transcripts may be picked up in the Office of the Registrar with picture identification or mailed to a third party, per student request. Each transcript will include all course work taken at the University of Washington, with indication of the campus where the credits were earned.

Students can print out an unofficial transcript online at [myuw.washington.edu](http://myuw.washington.edu).

**Scholarship**

**Academic Standards**

Students are expected to meet the traditional standards of honesty and truthfulness in all aspects of their academic work at UW Tacoma. In particular, all work submitted to an instructor in fulfillment of course assignments, including papers and projects, written and oral examinations, and oral presentations and reports, must be free of plagiarism. Plagiarism is using the creations, ideas or words of someone else without formally acknowledging the author or source through appropriate use of quotation marks, references and the like. Student work in which plagiarism occurs will not be accepted as satisfactory by the instructor and may lead to disciplinary action against the student submitting it. Any student who is uncertain whether his or her use of the work of others constitutes plagiarism should consult the course instructor for guidance before formally submitting the work involved.

**Satisfactory Progress**

The university requires students to declare a major by the time they have earned 105 credits. Students are urged to meet with an adviser in the Academic Advising Center for advising toward a major. A registration hold will be placed on students who have reached 105 credits and have not declared a major. In rare cases, a student who has met with an adviser will be granted a pre-major extension.

The university’s satisfactory progress policy requires that students complete their undergraduate degree within 30 credits beyond the minimum required for the degree. Because most degrees require 180 total transfer and UW credits, students generally must complete their programs by the time they earn 210 credits.

Undergraduates who have completed more than 210 credits will be notified by the end of the third week of the quarter that a hold is being placed on their registration due to lack of satisfactory progress. Students are encouraged to meet with their academic advisers to prepare a graduation plan or complete a graduation application to avoid this situation.

**Low Scholarship**

**Academic warning**

An undergraduate student whose grade point average falls below 2.00 in his or her first quarter at the university receives an academic warning. If a cumulative grade point average of at least 2.00 for courses earned in residence at the university is not achieved by the end of the next quarter, he or she is placed on academic probation.

**Academic probation and dismissal for low scholarship**

An undergraduate student is placed on academic probation at the end of any quarter (except for the first quarter at the university, when an academic warning is issued) in which his or her cumulative grade point average falls below 2.00. Once on probation, the student must attain at least a 2.50 for each succeeding quarter’s work until the cumulative grade point average is raised to a 2.00 or the student is dropped for low scholarship.

**Reinstatement**

An undergraduate student who has been dropped for low scholarship will be readmitted to the university only at the discretion of the academic program and, in some cases, may be required to sit out one quarter. A student readmitted after being dropped under these rules reenters the university on academic probation and may be required to re-apply to their academic program. The student’s GPA is the same as when dropped from the university, and the student may not use grades from other colleges or universities to raise his or her UW grade point average. A readmitted student is dropped if he or she fails to attain either a 2.50 grade point average for the following quarter’s work or a cumulative UW grade point average of 2.00 at the end of that quarter. The student is removed from probation at the end of the quarter in which a cumulative grade point average of 2.00 or better is reached. The petition for reinstatement form is available from the Office of the Registrar or the student’s academic program.

**Please note:** The University of Washington transcript is comprised of course work and grades from all three campuses. Students who are dropped for low scholarship from one campus and reinstated at another will remain on academic probation until their cumulative grade point average reaches 2.0.

**Senior in final quarter**

A senior who has completed the required number of credits for graduation, but whose work in what would normally be his or her final quarter places him or her on probation does not receive a degree until removed from probation.

**Dean’s List**

**Quarterly dean’s list**

The quarterly high scholarship list includes the names of matriculated undergraduate students who have attained a quarterly grade point average of 3.50 in the final grades for at least 12 graded credits. Appropriate high-scholarship entries are made on the student’s permanent academic record.

**Annual dean’s list**

The yearly award for high scholarship is recorded on the academic transcript of undergraduate students enrolled for three quarters of the academic year (summer through spring) and who earned a quarterly GPA of 3.50 in 12 or more numerically graded credits each quarter. It is also recorded for students enrolled for four quarters who met the standard just mentioned and also earned a quarterly GPA of 3.5 or better in the fourth quarter if enrolled for 10 or more credits.

**Annual dean’s list certificate**

Annual Dean’s List certificates are awarded to students in the senior class who have high scholastic records for their junior year. The honors committee on the University of Washington Seattle campus determines the grade point average required for the awarding of certificates. Students receive a certificate and a letter of congratulations from the UW Tacoma chancellor.
Baccalaureate Honors

Baccalaureate honors (summa cum laude, magna cum laude, cum laude) are awarded only to recipients of a first baccalaureate degree. These honors are earned by those students who have completed no fewer than 90 residence credits at this institution. At least 60 of the 90 credits must have been acquired on a graded basis.

The university's honors committee determines annually the grade-point requirement for each baccalaureate honor. In recent years, approximately 10 percent of the students have been awarded baccalaureate honors. Credits earned by extension courses are not counted toward honors eligibility.

August graduates who wish to participate in the preceding June Commencement should contact their academic adviser regarding recognition of honors at the June ceremony.

Faculty Honors

At the University of Washington Tacoma, faculty honors are awarded to those students receiving their first baccalaureate degree whose GPA is in the upper 10 percent of their program and who have earned between 43 and 89 graded credits at the UW.

Chancellor’s Medal

The Chancellor’s Medal, which is conferred at Commencement, recognizes the graduating senior who has the most distinguished academic record. Only students who have earned at least 90 credits (45 credits for nursing students) in residence at the University of Washington Tacoma may be considered.
College Academic Distribution Requirements (CADRs)

Students are required to complete a minimum level of preparation in six subject areas in high school. More information about each of these requirements is available online at tacoma.uw.edu/admissions.

Minimum CADRs

<table>
<thead>
<tr>

<td>Fine, visual, performing arts</td>
<td>0.5 credits</td>
</tr>
<tr>
<td>Academic electives</td>
<td>0.5 credits</td>
</tr>
</tbody>
</table>

Using College Course Work to Complete CADRs

Almost all applicants will have satisfied these requirements through high school course work, which is generally defined as that completed in grades 9-12. However, there are several ways to satisfy CADRs at the college level. In general, five quarter credits (or three semester credits) at the college level equals one credit of high-school study. If you completed a portion of these requirements in high school, you can pick up in college where you left off in high school. For example, if you completed three credits of English in high school, you can use one college English composition or literature course to bring your total to four credits. For details, please see tacoma.uw.edu/freshman/cadr.

Grading Restrictions

To satisfy the college academic distribution requirements, a passing grade, including a D, is acceptable in either high school or college work for most courses. Intermediate algebra taken at the college level must be completed with a C (2.0) or better. Also acceptable is a grade of Pass in a course taken on a Pass/Not Pass basis.

However, if you are completing CADRs through college course work, you are strongly encouraged to take courses for a letter/numerical grade, because you may later want to apply this course work towards requirements for your major or university or college graduation requirements, for which grading restrictions pertain.

Submission of Final High School Transcript

Newly admitted freshmen are required to submit their final high school transcript no later than July 1. Failure to successfully complete course work reported in the application for admission or dramatic changes in reported GPA could cause your offer of admission to be revoked.

Dual Enrollment

The University of Washington Tacoma has partnered with Tacoma Community College to offer a Dual Enrollment program. Students can attend both schools at once, and it’s easy to gain access to a wide variety of degree and certificate programs.

On campuses just six miles apart, students will benefit from coordinated advising to help them make the best choices to meet their educational goals. Students enjoy a seamless transition between lower- and upper-division course work on the path to earning their bachelor’s degrees.

The dual enrollment program allows eligible Tacoma Community College students to take up to 25 credits at the University of Washington Tacoma before submitting a complete UW Tacoma application. To be eligible, you must first complete 15 transferable, college-level credits at TCC with a 2.75 GPA or higher and complete a college-level English composition course with a grade of 2.0 or higher.

Undergraduate Admissions

The University of Washington Tacoma considers each applicant as they apply, based upon their own merits, coursework and documents. Our admission process is both competitive and holistic, giving each applicant an opportunity for a comprehensive and individual review. Applicants who apply early have the best chance for full university and program consideration.

For information about application deadlines, including priority scholarship deadlines, please visit our website: tacoma.uw.edu/admissions/important-dates.

Freshman Admission Requirements

*Senior Year Math-Based Quantitative Course: During the senior year of high school, students must earn a credit in a math-based quantitative course. This requirement may be met through enrollment in one of the three required math courses listed; or by completing a math-based quantitative course like statistics, applied math, or appropriate career and technical courses; or by completing an algebra-based science course during the senior year.

Note: The senior-year math requirement does not mean a fourth credit of math is required, nor does it require a higher level of math; the intent is for seniors to take meaningful math.

Exception: Completion of higher-level math prior to the senior year exempts students from the senior-year quantitative course requirement (e.g., pre-calculus, math analysis, or calculus).

**One credit must be an algebraic-based lab science.
Current UW Tacoma students who wish to take a course at TCC may also participate in the dual enrollment program.

For more information go to tacoma.uw.edu/admissions/dual-enrollment-program or call the Dual Enrollment adviser at 253-692-4743 or 253-460-4468.

Transfer Admission Requirements

Students who have attended college or university after graduating from high school may be admitted to the University of Washington Tacoma as transfer students. Applicants who have completed fewer than 45 college credits are also required to submit their high school transcripts and standardized SAT or ACT test scores. The minimum cumulative grade point average for all college course work must be at least 2.0 for admission consideration. Additional university requirements are outlined below.

Transfer students may apply to a school or program at the same time they apply to the university or at a later quarter. Note that not all majors admit for all quarters. Whenever students choose to apply to a school or program, they must meet the program's application deadline and admission requirements. Admission to some programs is selective and not all qualified students will be accepted.

General University Requirements

Foreign language

All applicants must complete instruction in a single foreign language, either through two sequential years of high school or through the second-quarter level of college coursework (e.g., Spanish 102). The study must be devoted to a single foreign language and must be in sequence, with no repetition of any prior term of study. Any foreign or World language other than English that has been formally studied may be used to satisfy this requirement, including languages no longer spoken, such as Latin and ancient Greek. American Sign Language (AMESLAN, the language of the deaf community in America) will also meet this requirement. However, other forms of deaf signing and computer languages are not acceptable. The foreign language requirement will be considered satisfied for applicants who had instruction through seventh grade (outside the United States) in a language other than English.

Mathematics

All applicants must complete either three years of high school mathematics through intermediate (second-year) algebra or complete intermediate algebra or higher in college with a 2.0 grade or better. Higher-level mathematics, specifically pre-calculus, calculus or business calculus completed with a passing grade will also fulfill this requirement.

Applicants may also satisfy the mathematics admissions requirement by completing a quantitative course that has a prerequisite of intermediate algebra, provided the grade earned is at least a 2.0.

Guaranteed Admission through the Direct Transfer Agreement (DTA)

UW Tacoma guarantees general admission to Washington state residents who earn an approved transfer degree at a Washington state community college with at least a 2.75 GPA and meet admission requirements. To qualify for guaranteed admission, students must:

- Complete the transfer application by the application deadline for the quarter. Eligible students who apply after the application deadline will be admitted on a space-available basis until transfer admission is closed for the quarter. In the event that space is not available, students eligible for Guaranteed Admission may be admitted for a future quarter as designated by the Office of Admissions.
- Earn an approved transfer degree, as determined by UW Tacoma's Office of Admissions.
- Have a cumulative 2.75 GPA or better in all transferable academic course work (at all colleges attended).
- Transfer directly from a Washington state community college.
- Be a Washington state resident.

The Direct Transfer Agreement (DTA) ensures admission only to pre-major status and does not promise admission to any school or program nor to any particular major within the university. Additional program or university requirements must be met for completion of a baccalaureate degree. Students are responsible for checking specific program requirements.

You may apply to a school or program at the same time you apply to the university or in a later quarter. Whenever you choose to apply to a school or program, you must meet the program’s application deadline and admission requirements. Admission to some programs is selective and not all qualified students will be accepted.

Undergraduate Transfer Credit

To students pursuing a first bachelor’s degree, UW Tacoma awards transfer credit according to the guidelines listed below. It reserves the right to accept or reject credits earned at other institutions of higher education. In general, it is university policy to accept credits earned at institutions fully accredited by the regional accrediting association provided that such credits have been earned through university-level courses (see exceptions below) appropriate to the student’s degree program.

For courses taken at a Washington state community college, UW Tacoma follows the list of transferable courses published in the UW Equivalency Guide for Washington Community and Technical Colleges (admit.washington.edu/Requirements/Transfer/Plan/EquivalencyGuide).

Notable Restrictions on Transfer Credit

Lower-division college credit

At the time of admission, a maximum of 90 lower-division (100- or 200-level courses) quarter credits can be awarded toward the student’s degree. Depending on the degree program, students may be allowed to petition the academic program for additional lower-division credits. Under no circumstances will students be awarded in excess of 135 lower-division credits. Some transfer courses labeled 100 and above are not actually college-level and will not be accepted for credit (e.g. Math 100 is developmental math on many campuses).

Upper-division credits (300- or 400-level courses) from other four-year institutions may apply to some program requirements. For some programs, there is a seven-year limit on upper-division transfer credits that are applied toward required core or concentration courses. Please consult with an adviser for details.

UW Extension distance learning

If permitted by the degree program, up to 90 credits earned in correspondence courses offered by the Distance Learning division of UW Extension may be applied toward a UW degree. However, 45 of the student’s final 60 credits must be taken in residence at UW Tacoma to meet the final-year residency requirement (see page 29).

Extension credit from other schools

No more than 45 credits earned as extension credit from other schools may be applied toward a UW degree. Military credit, discussed below, is included in the 45 extension credit limit.
Courses receiving no transfer credit include:
- Courses below college level (usually numbered below 100)
- Repeated or duplicate courses
- Course work taken at an institution that is not accredited by the regional association
- Courses that provide instruction in a particular religious doctrine
- Mathematics courses considered below college level, including basic math, business math, beginning and intermediate algebra
- Courses offered for non-credit continuing education units
- Remedial English (e.g., reading, vocabulary development, grammar, speed reading, or any courses that are preparatory to an institution's first English composition course)

Out-of-sequence courses
Credit is not awarded for prerequisite courses completed after a more advanced-level course has been completed. For example, students will not be awarded credit for Spanish 102 if it was taken after Spanish 103.

Physical education
No more than 3 quarter credits will be allowed for physical education activity courses.

Vocational-technical courses
A maximum of 15 transfer credits will be awarded for a wide range of college-level courses that are vocational-technical, rather than academic, in content (e.g., bookkeeping, electronics, physical therapy technician). These credits may apply only to the elective component of a baccalaureate degree.

Alternative credit
The University of Washington Tacoma does not award general credit for work or life experience.

Courses Receiving No Credit
Courses receiving no transfer credit include (but are not limited to):
- Courses providing instruction in English as a Second Language (100-level or above)
- Remedial courses in any academic discipline
- Any course in the following categories:
  - aeronautics/aviation/pilot training
  - air conditioning/heating-refrigeration
  - allied health (optics)
  - auto mechanics
  - beginning typing
  - carpentry/construction methods
  - cooking/baking
  - cosmetology
  - custodial training/maintenance
  - diesel mechanics
  - fire science
  - graphics reproduction
  - horse-shoeing
  - replacement parts
  - stationary steam engineering
  - study skills
  - water science technology
- College-Level Examination Program (CLEP): The university does not accept or award credit for CLEP general or subject examinations. Any such credit awarded by other institutions, or through independent testing, will not be transferred to the university. Note: This policy is currently under review; an update regarding transferability of CLEP credit will be provided by October 2012.

Applicability of Transfer Credit to Degree Requirements
The Office of Enrollment Services has the authority to make decisions approving transfer credit to the university and application of transfer credits to fulfill university requirements. The individual academic program offices have the authority to determine application of transfer credits to fulfill major requirements.

By the first quarter of enrollment, a student should meet with an academic adviser to plan a program of study. The Academic Advising Center is located in Joy 214, 253-692-4857.

Quarter vs. Semester Credits
Colleges and universities that operate on a semester system award semester credit. The University of Washington Tacoma awards quarter credit. One semester credit is equivalent to 1.5 quarter credits; one three-semester-credit course is equivalent to 4.5 quarter credits. Sixty semester credits are equivalent to 90 quarter credits.

Transfer GPA
In calculating the transfer GPA, the following guidelines apply:
- Grades from all transferable academic courses attempted, from all accredited colleges the student has attended, in which the student has received grades between 0.0 and 4.0 on a 4.0 grading scale are included in the calculation.
- If a student had repeated a course, the most recent grade for the repeated course is used in the transfer GPA. (Note: This method is different from that used in calculating the UW Tacoma GPA for UW Tacoma courses that have been repeated.) To protect the students' investment of educational effort and the value of the degree, UW Tacoma will not award credit for courses that repeat work done elsewhere. It is the responsibility of students who have earned credit at other colleges to determine whether courses they plan to take at UW Tacoma would duplicate any previously earned credit. Duplicate credit will not be awarded for courses that are equivalent to courses previously passed. Students who are in doubt should consult an adviser before registering for a UW Tacoma course.
- All transferable academic credit from two-year colleges is included in the calculation, even if it exceeds the 90 credits awarded.
- Transfer course work completed after a student matriculates must be graded on a numerical or letter-grade basis.

The following are not included in the transfer GPA:
- Courses considered by UW Tacoma to be below college level
- Math courses equivalent to MATH 098 (formerly MATH 101 Intermediate Algebra)
- Certain religion courses that teach from a particular doctrinal perspective or that teach preparation for the ministry
- Developmental or remedial courses
- Courses in study skills
- English as a Second Language courses
- Vocational/technical courses
- Courses recorded with a grade of Incomplete
- Courses recorded with a grade of Pass or Satisfactory
- P.E. activity credits in excess of 3 quarter credits
Other Admission Types

Post-baccalaureate students
Post-baccalaureate students are those who have completed one or more bachelor’s degrees and are working toward another bachelor's degree or completing prerequisite courses for a graduate program. Post-baccalaureate is a matriculated status at the University of Washington Tacoma. The application of a student’s previous course work toward graduation requirements will be determined by program faculty and advisers.

Nonmatriculated students
A student attending the University of Washington Tacoma as a nonmatriculated student cannot earn a degree. However, a grade is earned and full credit is awarded and recorded on a UW transcript. The credits earned as a nonmatriculated student usually transfer to other institutions. If a student later applies and is accepted as a matriculated student, up to 45 credits earned as a nonmatriculated student may be applied towards an undergraduate degree with some restrictions. Students attending as nonmatriculated may accrue no more than 45 credits in that status (some exceptions may be allowed). The number may vary by program.

A nonmatriculated student who wishes to become a degree-seeking student must submit a regular undergraduate admission application, as well as all required transcripts and test scores. Students considering applying as a matriculated (degree-seeking) student are encouraged to do so as soon as possible, as 45 of the last 60 credits of a baccalaureate degree must be earned as a matriculated student in residence at University of Washington Tacoma.

Non-UW Tacoma students applying to the Geographic Information Systems (GIS) and Nonprofit Management certificate programs should apply as nonmatriculated students. Please review the program requirements for guidance in making a successful application and completing additional program application requirements (www.tacoma.washington.edu/gis).

Returning former students
A UW Tacoma undergraduate student who has not been enrolled for more than one quarter (not including summer) is required to submit a Returning Student Application and pay a $60 application fee by the application deadline. Returning students who left in good academic standing and wish to return must return to the same academic program they were enrolled in when they left. Students who wish to apply to another major may do so after re-admission by submitting a change of major form.

Auditors
An individual who wishes only to audit university courses should apply as a nonmatriculated student. Attendance in courses as an auditor is by consent of the instructor and only as space permits. Permission to audit is ordinarily granted for lecture classes only. An auditor may not participate in class discussion or laboratory work, and the auditor's registration may be canceled at the discretion of the instructor. No record of audited courses is kept. Regular tuition and fees are charged. To receive credit for an audited course, the student must register for the class for credit and complete the course requirements in a subsequent quarter.
Students who require a student visa (F-1 or J-1) to study in the U.S. are considered international students for admission to UW Tacoma.

A student should apply as a freshman if any of the following statements describe them:

- Plan to enter UW Tacoma immediately after graduating from high school.
- Enrolled in the Running Start program and plan to enter UW Tacoma right after graduating (regardless of how many college credits earned).
- Have never attended college since leaving high school (regardless of age or whether they ever graduated).

A student who has completed one or more years of study (at least 45 credits) at an accredited higher education institution in the U.S. or in another country should apply as a transfer student.

Applying as an International Freshman Student

Freshmen are currently admitted for autumn and winter quarters only.

To complete the international freshman student application process, the following should be submitted:

- Application for freshman admission
  A complete University of Washington Tacoma application for international freshman admission should be submitted, along with the nonrefundable US$75 application fee. The application is online and the fee can be paid with a credit or debit card or an electronic check.

- Transcripts
  Obtain an official copy of your academic record first and then upload it with your application as instructed in the application. Transcripts must be original or copies stamped as official by the school and must include an official English translation. Transcripts should be submitted from all schools attended, both in the U.S. and outside the U.S. Students who are still enrolled in secondary school should submit transcripts that include grades or marks received in the 9th, 10th, and 11th years.

If a student has attended a college or university outside of the U.S., then an official course-by-course evaluation from an educational credentialing service (AACRAO or a NACES-approved service) must be ordered, and the results forwarded directly to the Office of Admissions at the University of Washington Tacoma. The student is responsible for ensuring that these processes are accomplished and documentation is forwarded.

- English proficiency exam scores
  All applicants must submit proof of meeting the English proficiency requirement. See the information on the next page regarding the minimum English proficiency standards. Test scores, such as TOEFL or IELTS test results, must be sent directly from the testing agency to the university; unofficial reports or photocopies will not be accepted.

Applying as an International Transfer Student

International students can be admitted as transfer students in any quarter for which the university is accepting transfer applications. Students can apply to be admitted directly to their major, or can apply as undeclared or pre-major students. Note that not all majors admit unofficial reports or photocopies will not be accepted.

- Transcripts
  Original transcripts must be received from all schools attended, both in the U.S. and outside the U.S., along with an official translation if the original transcript is not in English. Credentials must be original documents or photocopies stamped as certified-true copies by school officials or other educational authorities. High school transcripts are not required for transfer applicants who have completed 45 credits or more at the college or university level.

If a student has attended a college or university outside of the U.S., then an official course-by-course evaluation from an educational credentialing service (AACRAO or a NACES approved service) must be ordered, and the results forwarded directly to the Office of Admissions at the University of Washington Tacoma. The student is responsible for ensuring that these processes are accomplished and documentation is forwarded.

- English proficiency exam scores
  All applicants must submit proof of meeting the English proficiency requirement. See the chart on the next page regarding the minimum score requirements. Test scores, such as TOEFL or IELTS test results, must be sent directly from the testing agency to the university; unofficial reports or photocopies will not be accepted.

- Departmental requirements
  Academic departments may have supplemental materials or admissions requirements beyond those listed above for students who are applying for direct admission to a major. Students should check with the program offices for the most current information.
English Proficiency

Undergraduate applicants to the University of Washington Tacoma can fulfill the English language proficiency requirement in one of four ways:

1. **Submit official TOEFL or IELTS scores at or above the minimum scores shown in the table above.**

   - TOEFL (paper-based) required for admission
   - TOEFL (computer-based) required for admission
   - TOEFL (Internet-based) required for admission

   The TOEFL institution code for University of Washington Tacoma is 9965.

2. **Submit official SAT or ACT scores at or above the following minimum scores:**
   - SAT: Critical Reading (SAT CR) or Writing (SAT W) minimum score of 500
   - ACT: Combined English/Writing (ACT E/W) minimum score of 22

3. **Transfer students can fulfill the English proficiency requirement based on classes if ALL of the following apply:**
   - Enter as a transfer student at UW Tacoma with at least 30 credits from another accredited U.S. higher education institution;
   - Earned a 2.75 or higher overall grade point average (GPA);
   - Completed two college-level English composition classes with a GPA of 3.0 or higher.

4. **Successful completion of University of Washington Intensive English Program:**
   - Achieved a minimum grade of 80 percent for each upper-division academic preparation course; AND
   - Obtained recommendation from the senior director of the UW International and English Language Programs.

   Students may also be considered to have met the English language proficiency requirement in cases where they have studied for at least two years in an accredited high school, community college or four-year university where the official language of instruction is English. Students must have achieved a minimum overall GPA of 2.75 and a minimum GPA of 3.0 in two English courses (English as a Second Language courses do not count towards this requirement). Applicants are required to submit official documentation from their school verifying that the language of instruction is English if the school is located outside of the U.S., Great Britain, Australia, New Zealand or the English-speaking provinces of Canada.

   The university reserves the right to request TOEFL or IELTS scores in cases where the admissions office determines that more information regarding an applicant's English language proficiency is needed.

After Admission

Once an international student has been admitted, the student must show proof of financial resources in order to be issued the I-20 or DS-2019 document necessary to obtain an F-1 or J-1 student visa. Students should work closely with the International Student Services office after they have been admitted to UW Tacoma for information regarding this and other visa-related requirements.

Visit the ISS website for further information at tacoma.uw.edu/iss, or call 253-692-4695.

Applying as an International Graduate Student

Not all UW Tacoma graduate programs can accept international applicants. For more information on international graduate admissions, please contact the graduate adviser for the academic program.
Advising

The primary purpose of academic advising at UW Tacoma is to assist students in the development of meaningful educational plans that will expand the boundaries of knowledge and discovery. The Academic Advising Center collaborates with the campus community to provide resources and support services to all undergraduate students. At UW Tacoma, academic advising is based on a system of shared responsibility between student and adviser.

An academic adviser can:

- Assist with class registration and course selection
- Provide guidance in developing academic goals and choosing a major
- Offer support or appropriate referrals if a student experiences academic difficulty
- Clarify university requirements and academic policies
- Help complete the graduation application

Students’ contribution to academic advising:

- Make an appointment with an adviser when required or when in need of assistance
- Prepare for advising sessions and bring relevant materials
- Recognize that advising is a shared responsibility and accept final responsibility for all decisions
- Become acquainted with available resources, academic policies, procedures and requirements

Admission Deficiencies

Any student who is admitted to the University of Washington Tacoma with an admission deficiency is required to complete that deficiency within one year of being admitted. Students who fail to do so may have a hold placed on their registration. Students who fail to complete an admission deficiency cannot receive a UW Tacoma degree.

Class Standing

A student’s initial class standing is determined by the total number of transfer credits awarded by the University of Washington Tacoma, not by the number of years of college study or completion of an associate degree. The following table lists the required credits for each class:

- Freshman: few than 45 credits
- Sophomore: 45-89 credits
- Junior: 90-134 credits
- Senior: 135 credits or more

Students should note that satisfying UW Tacoma graduation requirements depends not only on the number of credits completed (a minimum of 180) but also on completion of all program requirements.

Declaring a Major

A major is the academic subject area, such as business or environmental science, in which a student will take the majority of her or his upper-level courses and in which she or he will earn a bachelor’s degree.

Most transfer students are admitted directly to a major. Students admitted as freshmen or general university transfers will need to declare a major.

When to Declare a Major

Students are able to declare a major as soon as they have met the minimum credits required for the major. Students are expected to have declared a major by the time they have accumulated 105 credits. Failure to do so will result in a hold on registration. Students who have not been admitted into an academic program are strongly encouraged to make an appointment to meet with an adviser in the Academic Advising Center. Some majors have prerequisites, and students who wait too long to meet with an adviser run the risk of accumulating more credits than they need and still not satisfying the major prerequisites.

If a student is not able to declare his or her intended major by the time the student has earned 105 credits, he or she may be able to request a pre-major extension through their adviser. Pre-major extensions are usually granted if there is a reasonable chance of being accepted into the intended major.

Students who haven’t yet decided on a major and need some guidance can consult Career Development and Education for help.

What Majors are Available?

UW Tacoma offers 17 majors with a variety of concentrations. Review the academic program sections of this catalog for details.

How to Declare a Major

Once the admission requirements of a major, if any, have been met, a student can declare the major by following these steps:

- Download and complete the request to declare/change major form.
- Take the completed change of major form to an adviser in the Academic Advising Center in Joy 214. The adviser is required to sign the form.
- Students declaring a competitive major will need to submit any supplemental forms or other required documents directly to the program office of the new major.
Students will be notified of acceptance into the new major and their adviser will forward the approved form to the Registrar's Office, where the student's major code will be changed.

Students who are not accepted into their requested majors may consult with their adviser or submit additional forms to declare a different major.

Changing a Major
Students can change their majors at any time using this same process. Students should meet with an adviser first.

Declaring a Double Major or Double Degree
Using the same process outlined above, students may complete the requirements of two majors as either a double major or a double degree.

Students who complete the requirements of two majors and accumulate a minimum of 180 credits will be awarded one bachelor's degree with two majors, called a "double major."

Students who complete the requirements of two majors and accumulate 225 credits (180 + 45) will be awarded two bachelor's degrees, called a "double degree." The student will receive two diplomas.

If the two degrees are offered by different schools (i.e., the Milgard School of Business and IAS) or if one of the majors is a B.A. and the other is a B.S, the student must complete a double degree.

Second baccalaureate degree
A second baccalaureate degree may be granted, but a student must earn a minimum of 45 credits beyond the number required for the first degree. These credits usually must be earned in residence, with the granting of exceptions to the residency rule being the responsibility of the college, school or campus awarding the degree. The student must achieve no less than a 2.0 cumulative grade point average in the credits required for the second degree.

Students completing a second baccalaureate degree are not registered in the Graduate School, but in the academic division of the university with jurisdiction over the degree sought.

Degrees with two majors
The student's application for a baccalaureate degree with two majors must show both majors and be approved by the advisers of both programs. Requirements of both majors must be met. Both majors appear on the transcript.

Two baccalaureate degrees concurrently
Students who complete 225 credits and complete the requirements of two majors will be awarded two bachelor's degrees only if the actual degree is different. For example: A student with a major in psychology and a major in social welfare will receive one Bachelor of Arts degree with a double major. A student with a major in psychology and a major in finance will receive a Bachelor of Arts and a Bachelor of Arts in Business Administration because the two degrees are different.

Declaring a Minor
A minor is an optional program of study (usually 25 to 35 credits) built around a particular subject or skill, for example, nonprofit management or applied computing. Minors can be helpful in two ways: They allow students to focus their degree by choosing a minor related to their major or students can broaden their degree by taking an unrelated but complementary minor (for example, a business student taking a computing minor). The minor will also show up on the student's transcripts.

Students who have declared a major and accumulated at least 45 credits can declare a minor by using the same request to declare/change major form and submitting it to their adviser. Minors do not have prerequisites and do not require any additional application materials.

Students are eligible to complete as many as three minors providing they are completing their first undergraduate degree.

More information on minors available at UW Tacoma can be found beginning on page 144.

Certifying Completion of a Minor
Minors are posted on the student's transcript. A minor must be awarded at the same time the student's first bachelor's degree is awarded. This means:

A student who doesn't graduate cannot be awarded a minor.

A student cannot earn a minor after graduation.

University Graduation Requirements for the Baccalaureate Degree
Beginning in autumn 2011, all UW Tacoma undergraduate students will be required to complete five credits of English composition with a minimum grade of 2.0. Any student who has not completed an English composition course with this grade will be required to complete either TCORE 101 or TWRT 112 or an equivalent course with a 2.0 within their first two quarters at UW Tacoma or s/he will not be allowed to register for additional course work at UW Tacoma.

To graduate with a bachelor's degree, a student must meet minimum general education and basic skills requirements in addition to the requirements of their academic program. This section outlines only the general education and basic skill requirements. Graduation requirements for the individual degree programs are explained in each program's section in this catalog.

Earn a cumulative grade point average of at least 2.0 for all work done in residence at the university. The graduation grade point average is computed when the student has completed all work for the degree and includes only credits earned while in residence at the university.

Complete a minimum of 180 academic credits to include:

- No fewer than 40 credits of general education courses, to include a minimum of 10 credits in each of three areas of study: Natural World, Individuals and Society and Visual, Literary and Performing Arts
- A minimum of 15 credits of writing to include 5 credits of English composition and 10 credits of writing-intensive courses
- A minimum of 5 credits of Quantitative/Symbolic Reasoning course work
- A minimum of 10 credits of study in a single foreign language (or two years in high school). The study must be devoted to a single foreign language and must be in sequence, with no repetition of any prior term of study. Any foreign or World language other than English that has been formally studied may be used to satisfy this requirement, including languages no longer spoken, such as Latin and ancient Greek. American Sign Language (AMESLAN, the language of the deaf community in America) will also meet this requirement. However, other forms of deaf signing and computer languages are not acceptable. The foreign language requirement will be considered satisfied if you had instruction (outside the United States) through seventh grade in a language other than English.
Final-Year Residency Requirement

Students are required to complete 45 of their final 60 credits as matriculated students in residence at UW Tacoma. Some degree programs may have stricter residency requirements.

To seek an exception to the residency requirement the student needs to submit a graduation petition to the UW Tacoma Registrar for review by the Academic Policy Committee. See details in the “Waiver of Graduation Requirements” section. If an exception is granted, the student still must present a minimum of 45 credits taken in residence as a matriculated student to be awarded a UW degree.

Catalog for Graduation Requirements

With the approval of his or her program adviser, a student may choose to graduate under the requirements of either the current catalog or the catalog in effect at the time he or she entered the program from which he or she is to graduate.

If the student graduates more than 10 years after enrolling in the program, the current catalog must be used for graduation purposes. Exceptions to this rule cannot be made without official approval.

Waiver of Graduation Requirements

To request a waiver of any graduation requirement a student must submit a Graduation Petition. Students should confer with their adviser before completing the petition. Review is done by the academic program faculty committee or director/dean, as procedures specific to each academic program dictate.

If the student is requesting to waive a university requirement (e.g., residency or the minimum grade for composition) or admission requirement the petition will be submitted to the UW Tacoma Registrar for review by the Faculty Assembly’s Academic Policy Committee. Once a determination has been made by the committee, the Registrar will notify the student and the graduation evaluator.

To ensure a determination is made in time for graduation, petitions must be submitted at least one quarter before the student’s graduation date.

The decision of the Academic Policy Committee is final. An exemption from a university graduation requirement becomes void at the end of two calendar years from the date the exemption was granted if all degree requirements have not been completed by that date.

Filing a Graduation Application

The student must make an appointment with her or his adviser to complete an application for graduation. The application may be filed as early as three quarters before the expected date of graduation. The absolute deadline for filing an application is the Friday of the second week of the quarter in which the student intends to graduate.

Students who will complete their degree requirements in summer quarter but wish to participate in the preceding spring commencement must adhere to the spring deadline.

It is the student’s responsibility to apply for a degree; degrees are not automatically awarded when requirements have been satisfied.

If a student declared a minor but it does not appear on the graduation application, the graduation evaluator will remove it. On the other hand, if a student does list a minor on the degree application, the student must complete that minor or drop it officially, or she or he will not graduate. This protects the student from being graduated when the actual intent is to continue on in order to complete the minor.

Adding minors after applying to graduate

A student who wants to add a minor after the graduation application has been submitted must see his or her adviser, who will update the application and notify the graduation evaluator.

Commencement

Formal Commencement exercises are conducted at the close of spring quarter, on the second Friday in June. Information on participating in Commencement is posted on the UW Tacoma website at tacoma.uw.edu/commencement.

Students who graduated the previous August, December or March and those who anticipate graduating in June or August of the current year are eligible to participate if they have filed a graduation application. It is the student’s responsibility to apply for graduation by the deadline (see Filing a Graduation Application).

Diploma distribution

Diplomas are produced approximately 12 - 16 weeks after the end of the quarter in which they are earned and are mailed directly to the graduate. Students do not receive their diploma at the Commencement ceremony.

Student Rights and Responsibilities

It is the responsibility of the student to become familiar with all academic and administrative regulations and procedures relating to his or her course of study at UW Tacoma.

Student Conduct Code

The UW Board of Regents has adopted a Student Conduct Code, which applies to both academic and nonacademic conduct for students while in attendance at UW Tacoma. The University of Washington Student Conduct Code obligates students to:

■ Maintain high standards of academic and professional honesty and integrity.
■ Respect the rights, privileges and property of other members of the academic community and visitors to the campus.
■ Refrain from actions that would interfere with university functions or endanger the health, safety or welfare of other persons.
■ Comply with the rules and regulations of the university, its schools, colleges and departments.

Violations of these standards may result in a variety of disciplinary actions, including suspension or permanent dismissal from the university. The code specifies standards of conduct, jurisdiction for hearing disciplinary matters and due process. Students may obtain copies from the Office of Student Affairs or online at www.washington.edu/students/handbook/conduct.html.

Individual academic and professional programs may have standards and expectations beyond those explained in the Code of Conduct. Please contact the program office for details.

Computer Use and Software Copyright Policy

All faculty, staff and students are responsible for using university computer resources in an ethical and legal manner. For example, it is not appropriate to share computer accounts or use them for commercial purposes, to send unwanted email, or to distribute copyrighted software, music or images. Those who do not follow the rules could lose their UW computing privileges. For detailed information, see the UW Information Technology website at www.washington.edu/itconnect.
Equal Opportunity

The University of Washington, as a standing policy, does not discriminate on the basis of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam-era veteran. Any discriminatory action can be a cause for disciplinary action. This policy applies to all university programs and facilities including, but not limited to, admissions, educational programs, employment, and patient and hospital services. Such discrimination is prohibited by Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, Age Discrimination in Employment Act Amendments of 1978, Vietnam Era Veteran's Readjustment Assistance Act of 1974, Americans with Disabilities Act of 1990, State of Washington Gender Equity in Higher Education Act of 1989, other federal and state statutes and regulations, and university policy.

Coordination of the compliance efforts of the University of Washington with respect to all of these laws and regulations is under the direction of Torrey Tiburzi, director of the University of Washington's Office of Equal Opportunity and Affirmative Action, 442A Gerberding Hall, Seattle, Washington 98195, 206-543-1830, eoaa@u.washington.edu.

Student Education Records

As a general rule, the university will not release a student's education records to a third party without the written consent of the student.* This includes tuition account information. The complete university policy on student education records and the location of such records may be found in the Washington Administrative Code under WAC 478-140. Manuals containing the code are available at reference stations on campus (including in the Office of the Chancellor and in the campus library) and at the University of Washington Visitor's Information Center in Odegaard Undergraduate Library on the UW Seattle campus. The policy covers such items as accessibility, review and expunging of inaccurate records, and costs to be charged for copies of student records. Information release forms for tuition accounts information only may be obtained from Student Fiscal Services, 129 Schmitz Hall, Seattle.

Release of Student Directory Information

The Family Educational Rights and Privacy Act of 1974 (FERPA) protects the privacy of student educational records. However, the following information is considered public or directory information and may be released to anyone unless the student requests otherwise: name, telephone number, email address, place of birth, major, dates of attendance, degrees and awards received, full- or part-time enrollment status, most recent previous educational institution attended, and for athletes, date of birth, weight and height.

If a student chooses not to authorize release of directory information, he or she can restrict this information using MyUW (myuw.washington.edu) or by completing a form in the Office of the Registrar. Except under provisions of the USA Patriot Act of 2001, no information will be released on students who have restricted release of directory information, including degrees awarded and dates of attendance. To change authorization and allow release, students must present, in person, a request in writing to the Office of the Registrar substantiated by photo identification.

Complete details regarding FERPA and students’ rights concerning educational records are available from the Office of the Registrar.

Sexual Harassment Complaint Procedure

Students, staff and faculty members and other users of university services who have a concern or complaint regarding sexual harassment may contact either the director of Human Resources at UW Tacoma, the Ombudsman at 253-692-4476 or the University Complaint Investigation and Resolution Office at 206-616-2028. Personnel in these offices provide assistance in resolving concerns and complaints. Also, UW Tacoma staff may contact the director of Human Resources at UW Tacoma about sexual harassment concerns.
UW Tacoma offers first-year students a Core curriculum that emerges from best practices across the country and research on what helps students succeed. According to this research, a “cohort” model results in higher academic achievement, a lower attrition rate, and greater student satisfaction than other models.

In our expanded cohort model, undergraduates take courses with many of the same students throughout their first year. This helps students, faculty, advisers, staff and librarians create a learning community. Teaching and learning as a community (rather than with entirely different students in every class) means that students make friends faster and learn to work together as colleagues.

Best practices and research also tell us that interdisciplinary core courses prepare first-year students for success. That is why one Core course often includes more than one field of study. Today’s challenges, after all, are complex and require educated citizens to approach them from more than one perspective.

In the first year, students meet many of their general education graduation requirements in classes with a student-to-faculty ratio of 25 to 1. Discussion, lectures, reading, writing and project assignments broaden students’ perspectives, not only about what they are studying, but also about the world in which they live.

Beyond the Core curriculum, students select courses each quarter from a range of electives that will allow them to explore and prepare for potential majors.

**Mission**

The Office of Undergraduate Education offers undergraduate students the opportunity to discover their intellectual, creative and professional passions by introducing them to many interconnected areas of knowledge. The Core program prepares students for academic success by focusing on campus-wide learning goals: communication and self-expression, civic engagement, critical inquiry, global perspectives, diverse cultural views and the ability to solve problems.

**Learning Objectives**

As the foundation of a student’s academic career at UW Tacoma, the cohort model strives to foster the following learning objectives:

**Communication/Self-Expression**

- Formulate an original thesis-driven argument and sustain it in both written and verbal communication.
- Express ideas clearly in writing and speaking in order to synthesize and evaluate information before presenting it.
- Enter/place themselves into an existing dialogue (intellectual, political, etc.).
- Identify, analyze and summarize/represent the key elements of a text.

**Global Perspective**

- Think outside of cultural norms and values, including their own perspectives, to critically engage the larger world.
- Analyze the ethical implications of actions on the part of individuals and institutions.
- Recognize the value of obtaining a historical perspective of events as being relevant and useful to guide future decision-making.

**Inquiry and Critical Thinking**

- Self-assess personal strengths (personal, academic, social) and how they can help overcome weaknesses.
- Approach complex issues by taking a large question and breaking it down into manageable pieces.
- Make meaningful connections among assignments and readings in order to develop a sense of the “big picture.”
- Collect, evaluate and analyze information and resources to solve problems or answer questions.
Areas of Knowledge (AoK)

Core courses are designed to fulfill the general education requirements set forth by the UW. Within the first academic year, full-time first-year students can expect to earn approximately 45 credits towards the university’s distribution requirement, including 15 - 20 credits earned within the Core program. The AoK are as follows and provide foundational learning for all academic majors and programs:

- 15 credits in writing to include no fewer than 5 credits in English composition (C) and 10 additional credits in writing-intensive [W] courses
- 5 credits in quantitative/symbolic reasoning [Q]

40 combined credits of areas of knowledge that include no fewer than 10 credits in each are of study:

- Visual, Literary and Performing Arts (VLPA) [V]
- Individuals and Societies (I&S) [I]
- Natural World (NW) [N]

Courses taken to fulfill the writing [W], reasoning [Q] and academic major requirements may also apply to the areas of knowledge requirements.

Advising

The primary purpose of academic advising at UW Tacoma is to assist students in the development of meaningful educational plans that will expand the boundaries of knowledge and discovery. The Office of Undergraduate Education collaborates with the Academic Advising Center and other members of the campus community to provide resources and support services to all first-year Core and undeclared students.

Core students are required to participate in quarterly advising sessions. (See page 27 for more information about the Academic Advising Center.)

Academic Standards

Undergraduate Education adheres to UW Tacoma's academic standards as outlined by the Office of the Registrar within this catalog. However, if a first-year student has been dropped for one quarter due to deficient satisfactory academic progress, the student is strongly encouraged to attend a community college in the interim quarter. This process encourages students’ academic progress and provides them an opportunity to improve their academic performance before petitioning the university for reinstatement. First-year and undeclared students who are dropped from the university are required to meet with their academic adviser to discuss satisfactory academic progress policy and reinstatement procedures at least three weeks prior to the beginning of the petitioned quarter.

Core Course Numbering

All Core courses are lower-division, 100-level courses. With the exception of composition—which is numbered 101 regardless of the quarter—the middle digit of the course corresponds with the quarter the course is offered: Autumn = 0, Winter = 1, Spring = 2. The last digit represents the designated AoK:

1 = Composition (C)
2 = Natural World (NW)
3 = Individuals and Societies (I&S)
4 = Visual Literary & Performing Arts (VLPA)

For example, TCORE 104 is a (VLPA) course offered autumn quarter, TCORE 122 is a (NW) course offered spring quarter.

Course Descriptions

Below are sample course descriptions. Core courses change based on the faculty that are teaching each quarter. For information on Core courses currently being offered, check the online Time Schedule.

TCORE 101
Blog me! Writing in the Digital Age
This course introduces students to writing academic argument papers while exploring the theme of blogging to consider how this digital medium is participating in social change and writing practices. Students will also write, share, and analyze blogs to come to conclusions about writing in the digital age.

TCORE 113
Barbie vs. GI Joe: Gender in Society
What would happen if Mattel released a talking Barbie that shouted “Vengeance is mine!” and GI Joe sweetly said “Let’s plan our dream wedding”? In this class, we will investigate the ways in which gender is constructed in society and the methods by which we learn appropriate gender behavior. Through an examination of media and popular culture, we will explore the consequences of gender socialization in society.

TCORE 114
The King of Pop: Reading Michael Jackson
No matter what you may think of Michael Jackson, he is one of the most recognized and celebrated global icons in the world. This course will explore why through examining his popular cultural context: Jackson the boy and the man, his artistic and cultural influences and his impact/legacy, as well as the corresponding affect fame seems to have had on him. “Don’t stop ‘til you get enough!”

TCORE 122
The Science of Secrecy
For thousands of years, sending covert messages has been important for military and security reasons. It has become even more critical in the age of the Internet, e-commerce, and electronic voting. Together, we will explore cryptography, the study of secret writing, from theoretical, computational, historical, and ethical perspectives.

Faculty

While the faculty that teach Core curriculum courses come from a variety of academic programs on campus, they teach to a common set of student learning objectives with a developmental approach that emphasizes the foundational skills necessary to succeed in college courses. Faculty collaborate with others in the Core Learning Community (including peer advisers and staff) to design and teach classes that build on the cohort model while introducing students to academic writing, the sciences, the social sciences, and the humanities.
MILGARD SCHOOL OF BUSINESS
BACHELOR OF ARTS IN
Business Administration

The mission of the Milgard School of Business is to offer high-quality undergraduate and graduate education for citizens of the state of Washington, especially in the South Puget Sound region. We seek to integrate innovative teaching, relevant scholarship and proactive service into our business and academic communities. We also are committed to advancing and disseminating business knowledge and theory and to cultivating collaborative relationships with the community.

Accreditation
The Milgard School of Business at the University of Washington Tacoma has earned accreditation by the Association to Advance Collegiate Schools of Business (AACSB), as determined by the Board of Directors of AACSB International. AACSB was founded in 1916, AACSB International is the longest serving global accrediting body for business schools that offer bachelor's, master's, and doctoral degrees in business and accounting.

About the degree program
The Business Administration degree program is designed to prepare students for entry into professional positions in business and government. The curriculum, which leads to a bachelor of arts in business administration, emphasizes critical learning outcomes needed by students to succeed in the business environment of the 21st century. Students will learn and apply the specific skills associated with each learning outcome in the core courses, refine and practice those learning outcomes in their study option, and use and demonstrate the outcomes in additional course work as they fine-tune skills for their professional careers. The learning outcomes are as follows:

Strategic thinking
Students will be able to think critically, diagnose organizational problems, and design effective solutions.

Ethics and business in society
Students will be able to identify ethical standards and evaluate the societal implications of business decisions.

Global awareness
Students will be able to understand the global environment of business decisions.

Teamwork
Students will be able to work effectively within an interdependent group to achieve common goals.

Technology
Students will be able to utilize technology to formulate business solutions.

Professionalism
Students will be able to communicate professionally in organizational settings and deal with others in a manner that displays integrity and personal credibility.

Formal Options
At the Milgard School of Business, options are formalized programs of study that require completing certain course work. A student admitted to an option has registration priority for upper-division classes in that area and has successful completion of an option noted on his or her transcript upon graduation.

There are four formal options in the Business Administration degree: Accounting, Finance, Management and Marketing.

Accounting
The Accounting option is designed to prepare students for successful careers in public accounting, industry, or government, and to provide the basis for continuing professional development. Students develop skills to work in organizations and be effective decision-makers with a focus on the accounting aspects of business. Areas stressed within the accounting discipline include recording and reporting of financial data under generally accepted accounting standards.
principles, understanding tax law and its
effect on business decisions, auditing financial
statements using generally accepted auditing
principles, understanding accounting
information systems, understanding the
composition of consolidated financial
statements, and gathering and using cost
data for planning and control decisions.
Electives provide further study in forensic
accounting, international accounting, public-
sector accounting, taxation, auditing and
other areas.
Students who wish to pursue a career in
public accounting and be eligible to sit
for the CPA exam are required to have an
additional 45 quarter credits (30 semester
hours) beyond the undergraduate degree
requirement. The Milgard School offers these
students an opportunity to take additional
undergraduate and graduate business course
work. Other programs at the university
can provide additional non-business learning
opportunities.

Finance
The finance sector is a high-growth industry
in the Pacific Northwest. Students in the
Finance option acquire a solid background in
financial theory and practices enabling
them to work in a wide range of business
professions. In addition, students develop
a broad array of analytical skills, attain a
thorough understanding of the finance
function in different types of organizations, and sharpen their awareness of how financial
institutions and markets function in a global
economy.
The Finance option at the Milgard School of
Business provides not only solid academic
education in finance but a practical, hands-
on preparation for a career in the financial
sector. The structure of the program allows
students to prepare for the Level 1 exam of the
Chartered Financial Analyst (CFA) program,
the most respected professional designation
in the industry.
The Finance option prepares students to begin
a career in portfolio management, financial
planning, investing, banking and other
related industries. Domestic and international
career opportunities in the financial services
industry are rapidly expanding. The Puget
Sound area is well represented by successful,
progressive financial firms with a high
demand for professionals in all areas of
finance.

Management
The Management option addresses the
ability to lead other people, fostering the
skills of planning, organizing, motivating,
controlling and decision making at all levels
and areas in the organization. Courses in
the Management option emphasize how
the tools and theories of management
can help accomplish organizational goals.
In addition, this option also fosters the
development of skills that can be used to foster
individual and organizational efficiency and
effectiveness through the study of leadership,
team and individual behavior, and human
resources. The option prepares students for
career opportunities in numerous areas:
employee relations, training, production and
operations, strategic planning, purchasing,
consulting, administration, information
management, human resources, financial
services, hotel and retail management, project
management, organizational development,
sales, and leadership in business, industry
or government and nonprofit management.

Marketing
The Marketing option provides knowledge
that encompasses the dynamic environment
of economic, social and cultural conditions,
consumer behavior, role of marketing in an
organization, nuances of managing the
marketing mix, importance of innovations,
legal and ethical issues.
The courses in this option examine consumer
behavior, channels of distribution, marketing
research, pricing, advertising, product
development, promotion, international
marketing, industrial marketing and sales
administration. The option prepares students
for responsibilities in domestic business
firms, including private and publicly held
firms, multinational companies as well as
governmental agencies and nonprofit
organizations. Marketing careers may
involve specializations such as product or
brand management, advertising, retailing,
marketing research and sales.

Informal Options
Students may choose to concentrate in
General Business or International Business
and follow course work and guidelines set by
the department. These options are informal
and are not noted on the student’s transcript.

General Business
The study of business is truly interdisciplinary,
drawing from such varied fields as economics,
political science, psychology, sociology and
anthropology. The General Business option
is designed for the student interested in a
broad perspective that draws from multiple
disciplines. General Business gives students
the opportunity to explore a wide range of
business disciplines, including management,
marketing, accounting, finance and
international business. Students completing
the General Business option will be well-
prepared to work in small businesses where
their work will span multiple functional
areas or in large organizations where they
will be involved with cross-functional
projects or teams. Students interested in
entrepreneurship will also benefit from this
option, as it allows them to customize the
curriculum while exposing them to all critical
aspects of business.

International Business
The international business option provides a
focused course of study from the perspective
of trade and international business. Courses
in the option are designed to emphasize the
social, procedural and competitive reality
of the global marketplace and the effective
strategic analyses and management of
businesses and organizations in this global
economy. The option prepares students for
careers in international marketing or
management, international logistics or
project management, strategic planning or
administration across a variety of
economic arena: import-export businesses,
multinational corporations, national or
international governmental agencies and
non-governmental organizations. It can
also be a pathway for those wishing to enter
careers in international commercial and
investment banking, international corporate
or environmental law and entrepreneurial
ventures of an international nature.

Admission Requirements

Educational Qualifications

■ A cumulative GPA (grade point average)
of at least a 2.75 in all college course
work.

■ A cumulative GPA of at least a 2.75
in all accounting, business, math and
economics course work.

■ Prerequisite course work must be
completed by the time students expect
to start in the program. At least four
of the prerequisite courses listed below
(with the exception of psychology,
sociology or anthropology) must be
completed before applying. Business
prerequisites must be graded. The
minimum acceptable grade in a business
prerequisite is 2.0.

■ 5 credits each of calculus, statistics,
macroeconomics, microeconomics,
business law and 5 additional
credits in psychology, sociology or
anthropology. (Finance students are
required to earn a 2.5 or better in
calculus.)
9-15 credits of accounting course work to include Introduction to Financial Accounting, Financial Accounting and Managerial Accounting. (Accounting students are required to earn a 3.0 grade or better in each accounting prerequisite course.)

Completion of a minimum of 60 college-level credits. A maximum of 105 college-level transferable credits may be applied to the degree.

Effective Autumn 2012, applicants must also complete five (5) credits of English composition prior to beginning the Business program.

Admission Process

The Milgard School of Business admits students for autumn and winter quarters. Applications for admission into the Business School are considered complete when the following have been received:

- UW Tacoma undergraduate application and application fee
- Business School application and personal statement
- Transcripts from all previous institutions
- Results of Writing Skills Assessment (WSA) or proof of English proficiency (for international F-1 students)

Business School Application and Personal Statement

In addition to completing a Business School application, a written personal statement is required from all applicants. Both are used by the Milgard School Admissions Committee to assess applicants. When writing the personal statement, applicants should refer to the current Milgard School application packet for specific instructions. Additional application information can be found online at tacoma.uw.edu/business.

Writing Skills Assessment or Proof of English Proficiency (for international F-1 students)

All applicants to the Milgard School of Business are required to complete the Writing Skills Assessment (WSA). International applicants with an F-1 Student Visa have the option to submit Proof of English Proficiency instead of taking the WSA. International applicants can opt to take the WSA (or submit scores from both the TOEFL and WSA). The assessment provides the Admissions Committee with quantitative measures in addition to grade-point averages upon which to base admissions decisions. The assessment is completed only once and scores from UW Seattle or UW Bothell can be transferred to UW Tacoma. WSA scores are valid for two years.

Selection Criteria

Admission is competitive, and candidates will be evaluated on the following criteria:

- Completion of all Business prerequisite courses
- Previous academic performance (cumulative and business GPA)
- Results of the Writing Skills Assessment (WSA) or proof of English proficiency (for international students)
- Likelihood of success in the degree program
- Demonstration of the relationship between academic opportunities and the candidate’s professional career goals

Admission decisions are made by the Business School Admissions Committee.

Curriculum

The bachelor of arts in business administration curriculum consists of:

- 30 credits of required core courses
- 30-35 credits of option courses
- 5 credit capstone course
- 5-25 credits of electives

Students are expected to complete most of the business administration core before progressing to more advanced option courses. The 300-level core courses will usually be completed during the student’s first year as a business student at UW Tacoma.

Business Policy and Strategic Management (TBUS 400) is the capstone course and may be taken only when a student has completed all core courses and has applied to graduate. TBUS 301 and TBUS 330 or TACCT 330 may be taken concurrently.

General Electives

Twenty to 25 credits of general electives are required to complete the Business degree. When selecting electives, a student should focus on courses that emphasize broad-based critical thinking. Students are encouraged to select electives that support career interests and provide opportunities for lifelong learning. Students may use the elective credits to develop more depth in one business discipline or to explore other areas of interest in business, health, liberal arts, computing and urban studies. General electives may be filled by transfer credits from other accredited institutions that grant baccalaureate degrees.

Students with more than 90 transfer credits may be able to apply additional credits towards general electives. See an adviser for more information.

Internship and independent study credits fulfill general elective requirements.

Academic Standards

The following standards apply to all students in the Milgard School of Business. These standards may be in addition to other academic standards at the University of Washington Tacoma.

- Students must satisfactorily complete all upper-division Business courses at UW Tacoma by achieving a minimum 1.7 grade. If a grade below 1.7 is received in a required core or option course, the student will need to repeat the course.

Courses in the Business core and option may not be taken through distance learning.

Courses in the Business core and option may not be taken S/NS (satisfactory/not satisfactory).

Students may transfer up to two classes and apply them toward the core, and one class applied toward the formal or informal option. TBUS 300 and TBUS 400 must be completed in residence.

Upper-division business courses completed at other accredited four-year institutions may not be more than seven years old in order to substitute for a course in the Business Administration major. If a course is more than seven years old, the student will be required to repeat the course at UW Tacoma. Credit will not be awarded twice for an equivalent course. There is no time limit on prerequisite course work.

Upper-division business courses used for transfer credit are held to the 1.7 grade standard required for all courses by the Milgard School of Business.

Students changing to Business Administration from other majors will be required to meet current program and academic performance requirements in force at the time the major is changed.
Removal from Program

Students are notified in writing of academic warning, probation or drop as soon as practicable after receiving the previous quarter’s grade reports; each notice of academic warning or probation is noted in the student’s file.

Students removed from the Milgard School who wish to re-enter the program must re-apply for admission and/or submit a petition for reinstatement. The Milgard School evaluates the student’s file, statement requesting re-admission and any extenuating circumstances, and then recommends action.

Graduation Requirements

To qualify for graduation with a Bachelor of Arts in Business Administration from the University of Washington Tacoma, a student must:

- Be a matriculated Business student in good academic standing with the University of Washington Tacoma and the Milgard School of Business.
- Satisfy all of the prerequisites for entrance into Milgard School of Business.
- Complete all of the required and elective courses in the Business degree and your formal or informal option:

  Accounting option
  - 30 credits of core courses to include TACCT 330 Accounting Information Systems
  - 35 credits of Accounting courses to include:
    - TACCT 301 Intermediate Accounting I
    - TACCT 302 Intermediate Accounting II
    - TACCT 303 Intermediate Accounting III
    - TACCT 311 Cost Accounting
    - TACCT 411 Auditing Standards and Principles
    - TACCT 451 Individual Income Taxation
    - TACCT elective (5 credits)
  - 5-credit capstone course
    - TBUS 400 Business Policy and Strategic Mgmt.

  Finance option
  - 30 credits of core courses
  - 35 credits of Finance courses to include:
    - TBECON 424 Managerial Economics
    - and 30 credits of Finance electives
  - 5-credit capstone course
    - TBUS 400 Business Policy and Strategic Mgmt.

  General Business option
  - 30 credits of core courses
  - 30 credits of upper-division Business courses (TBGEN 311, TBUS 468 and 469 do not apply)
  - 5-credit capstone course
    - TBUS 400 Business Policy and Strategic Mgmt.

  International Business option
  - 30 credits of core courses
  - 20 credits of International Business courses to include:
    - TACCT 485 International Accounting
    - TACGMFT 478 International Business
    - TACGMFT 480 International Management
    - TMKTG 480 International Marketing
  - 5 credits of approved IAS electives
  - 10 credits of additional upper-division Business courses
  - 5-credit capstone course
    - TBUS 400 Business Policy and Strategic Mgmt.

  Management option
  - 30 credits of core courses
  - 30 credits of Management courses
  - 5-credit capstone course
    - TBUS 400 Business Policy and Strategic Mgmt.

  Marketing option
  - 30 credits of core courses
  - 30 credits of Marketing courses to include:
    - TMKTG 450 Consumer Marketing
    - TMKTG 475 Marketing Strategy
    - TMKTG 460 Research Methods
  - 15 credits of Marketing electives
  - 5-credit capstone course
    - TBUS 400 Business Policy and Strategic Mgmt.

- Satisfy all of the general university graduation requirements, including five credits of English composition with a minimum grade of 2.0.
- Complete 45 of the last 60 credits in residence at the University of Washington Tacoma.
- Apply for graduation with an adviser by the application deadline posted by the Business School for the expected date of graduation, and prior to registration for the Business capstone.

Course Descriptions

For the most current course information, please consult the Milgard School of Business website at tacoma.uw.edu/business.

Core Courses

TBUS 300 Managing Organizations
5 credits
Examines the profession of management, and nature of organizations. Focuses on the key managerial functions and organizational processes needed to plan, organize, lead and control contemporary organizations. Activities provide opportunities to improve communication, strategic thinking, teamwork, integrations and professional capacities. Prerequisite for most Business courses. [I]

TBUS 301 Quantitative Analysis for Business
5 credits
Provides statistical tools to analyze business problems and enhance decision-making. Utilizes an applied approach to organize, explore and analyze data, design experiments and surveys, understand estimations and significance tests and use quantitative methods. [N][Q]

TBUS 310 Effective Managerial Communications
5 credits
Focuses on developing and using oral and written communication skills in an organizational environment. Provides students with opportunities to communicate clearly and concisely in writing, make persuasive presentations, listen to the ideas and opinions of others, and provide and receive constructive feedback. Students will utilize and further develop abilities to function as productive team members and to appreciate and understand diversity in the work place. Emphasizes communication and professionalism. [I][IV]
TBUS 320
Introduction to Marketing Management
5 credits
Introduces the major principles and practices that are used by marketing managers in analyzing marketing problems and developing appropriate solutions. A primary goal is to understand how marketing operates within the global, social and economic environment. Designed to begin to develop competencies in teamwork, integrated business knowledge and strategic thinking. [I]

TBUS 330
Introduction to Information Technology
5 credits
Introduces techniques that managers use to locate, organize, distribute, and use information for decision making and strategic advantage. Tools for managing information are addressed, including computer hardware, software, telecommunication networks and various information system components. Includes a computer laboratory component in which students address organizational and managerial information requirements.

TBUS 350
Business Finance
5 credits
Focuses on understanding the sources, uses, costs and control of funds in business organizations. Key topics include managing cash flow, evaluating the time value of money, capital budgeting, evaluating stocks and bonds, and determining the financing mix. Consideration is given to the organizational, ethical and economic consequences of financial decisions. Designed to begin to develop competencies in strategic thinking and professionalism. Business majors or permission of instructor.

TBUS 400
Business Policy and Strategic Management
5 credits / Prerequisites: TBUS 300, TBUS 310, TBUS 320 and TBUS 350; TBUS 301, TBUS 330 (for non-accounting) or TACCT 330 may be taken concurrently
Focuses on the integration and application of knowledge and competencies developed by Business Administration students. Major components of the course include the preparation of a career-related portfolio, participation in a team-based computer simulation, and composition of a paper reflecting and analyzing the student’s competency development.

TACCT 230
Managerial Accounting
5 credits / Prerequisite: TACCT 220
Provides an introduction to management accounting concepts in the context of business decisions. Explores management accounting’s roles in the decision making process and how managers and other internal uses rely on the information to make better business decisions that benefit an organization.

TACCT 301
Intermediate Accounting I
5 credits / Prerequisites: Completion of Business Program accounting prerequisites Concepts and principles of financial accounting. Analysis of controversies and problems related to the measurement of enterprise income, and asset and liability valuation.

TACCT 302
Intermediate Accounting II
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 301
Continuation of TACCT 301.

TACCT 303
Intermediate Accounting III
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 302
Continuation of TACCT 302. There is additional emphasis on special topics in income determination.

TACCT 311
Cost Accounting
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 301
Focuses on the development and use of cost data for external reporting and internal planning. Students examine cost accounting theory and procedures involving cost determination, analysis, and control through the application of such skills as allocations, budgeting, job order and process costing, and quantification of various business processes.

TACCT 330
Introduction to Accounting Information Systems
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 301
Examines key accounting elements tied to underlying business processes. Examines issues of maintaining the integrity of accounting information systems. Integrates the accounting function with information technology. Introduces the basic structure of database systems.

About Fulfilling Admission Requirements
Students may fulfill requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description: [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.
TACCT 401
Forensic Accounting
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 303
Explores the nature, detection and prevention of fraudulent financial reporting. Investigates types of fraud, how fraud is committed and ways to prevent fraud in corporations.

TACCT 404
Advanced Financial Accounting
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 303
Explores accounting and reporting for business combinations (mergers, acquisitions, partnerships and joint ventures), foreign currency transactions and translations, reporting for business segments, and corporate and partnership liquidations and reorganizations. Emphasizes linking theory to practice through the use of current financial statement reviews.

TACCT 411
Auditing Standards and Principles
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 303 and TACCT 330
Intensive introduction to the attest function in society today. The environment, the process and the report of the public auditor are analyzed. Potential extensions of the attest function are examined.

TACCT 421
Tax Effects of Business Decisions
3 credits / Prerequisite: Minimum grade of 1.7 in TACCT 302
Issues in taxation, including tax considerations in business decision making, tax effects of business transactions, taxation of compensation, fringe benefits, capital gains, fixed asset transactions, disposition of business distribution from corporations.

TACCT 431
Financial Statement Analysis
5 credits / Prerequisite: TBUS 350
Enhances the understanding of accounting principles and techniques used to prepare financial statements and methods an analyst might employ to increase the relevance of financial information. Demonstrates the use of financial statement data in the valuation of firms.

TACCT 451
Individual Income Taxation
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 303
Covers U.S. Federal income taxation for individuals, including compliance requirements and the role of taxation in personal decisions. Topics include: wage, business and investment income; personal and personal business deductions; and property transactions.

TACCT 453
Advanced Business Taxation
5 credits / Prerequisite: minimum grade of 2.5 in TACCT 451
Examines Federal income taxation of business entities, including corporations, partnerships and subchapter S corporations. Topics include: the tax effects of entity formation, distribution of profits, and entity dissolution; and related impact on individual taxpayers.

TACCT 468
Cooperative Field Experience
1-5 credits; max. 5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 301
Provides opportunities to gain experience and apply concepts taught in the accounting concentration. Involves learning skills and applying knowledge through practical experience working cooperatively with professionals in the field. Application and completed contract with faculty permission is required.

TACCT 469
Undergraduate Research
1-5 credits; max. 5 / Prerequisite: Minimum grade of 1.7 in TACCT 302
Provides students opportunity to explore a specific accounting topic, idea, project or research interest that extends previous knowledge and broadens experience. Proposals and course criteria must be developed in cooperation with specific faculty members prior to course registration.

TACCT 471 Internal Auditing
3 credits / Prerequisite: Minimum grade of 1.7 in TACCT 411
Independent appraisal function established within an organization. Role and nature of internal auditing; intensive review of internal control; management effectiveness audits; and financial audits from the point of view of the internal auditor.

TACCT 480
Accounting for Not-for-Profit Organizations
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 303
Explores the unique accounting models used in reporting the financial results of governmental and not-for-profit entities. Examines financial reporting under these models from the user perspective, while cultivating an understanding of the accounting system requirements needed to meet this perspective.

TACCT 485
International Accounting
5 credits
Enhances understanding of international accounting issues. Examines the impact of accounting diversity on global capital flows and explores the convergence of global accounting standards. Covers accounting for changing prices, goodwill and other intangibles, as well as social and environmental reporting, geographic segment disclosure practices and financial reporting in developing economies.

TACCT 490
Special Topics in Accounting
1-6 credits; max. 6 credits
Special topics of current concern to faculty and students. Offered only when faculty is available and student interest is sufficient. Class is announced in advance of scheduled offerings.

TACCT 490
Cooperative Field Experience
1-5 credits; max. 5 / Prerequisite: Minimum grade of 1.7 in TACCT 301
Provides opportunities to gain experience and apply concepts taught in the accounting concentration. Involves learning skills and applying knowledge through practical experience working cooperatively with professionals in the field. Application and completed contract with faculty permission is required.

TACCT 471 Internal Auditing
3 credits / Prerequisite: Minimum grade of 1.7 in TACCT 411
Independent appraisal function established within an organization. Role and nature of internal auditing; intensive review of internal control; management effectiveness audits; and financial audits from the point of view of the internal auditor.

TACCT 480
Accounting for Not-for-Profit Organizations
5 credits / Prerequisite: Minimum grade of 1.7 in TACCT 303
Explores the unique accounting models used in reporting the financial results of governmental and not-for-profit entities. Examines financial reporting under these models from the user perspective, while cultivating an understanding of the accounting system requirements needed to meet this perspective.

TACCT 485
International Accounting
5 credits
Enhances understanding of international accounting issues. Examines the impact of accounting diversity on global capital flows and explores the convergence of global accounting standards. Covers accounting for changing prices, goodwill and other intangibles, as well as social and environmental reporting, geographic segment disclosure practices and financial reporting in developing economies.

TACCT 490
Special Topics in Accounting
1-6 credits; max. 6 credits
Special topics of current concern to faculty and students. Offered only when faculty is available and student interest is sufficient. Class is announced in advance of scheduled offerings.

General Business Courses

TBGEN 200
Introduction to Statistics in Business
5 credits
Introduces the major principles and practices utilized in basic statistical analysis. Focuses on descriptive statistics, inferential statistics, probabilistic reasoning, correlation, regression, and hypothesis testing. [N][Q]

TBGEN 210
Computer-Based Business Problem Solving
5 credits
Explores uses of Excel to analyze and solve business problems through manipulation and analysis of data. Reviews pivot tables, what-if analysis, solver, and Excel-based management analyses, such as optimization, data mining, customer analysis, data organization, and presentation.

TBGEN 218
Introduction to Business Law
5 credits
Explores the impact of the changing legal environment on business decision making. Examines legal issues that organizations confront to establish appropriate strategies for effective functioning and developing compliance guidelines. Utilized specific tools to access legal resources for proactively recognizing, framing and analyzing business opportunities, and problems in the legal environment. [I]

TBGEN 311
Professional Business Writing
5 credits
Addresses various techniques of business writing to improve students' overall skill set in written communication. Explores standard components of business documents and rhetorical strategies for organizing and presenting information in various written formats to achieve business objectives. Covers various forms of business writing, including standard correspondence, proposals, and formal reports.

TBGEN 412
Ethical Issues in Business
5 credits / Prerequisites: TBUS 300 and TBUS 320 or permission of instructor
Examines the role of ethics and ethical decision making within organizations. Identifies ethical issues and explores strategies for handling them. Examines ethical principles and community standards by which businesses are judged and assesses the impact management decisions have on the business and on society. Focus is on the conflict between the economic performance of the firm and the social performance of the firm. Emphasizes communication, integrated business knowledge and strategic thinking. [V]

TBGEN 490
Special Topics
1-5 credits
Advanced course offerings designed to respond to faculty and student interests and needs. Topics will vary.
Finance Courses

TBECON 220
Introduction to Microeconomic Theory
5 credits
Introduces microeconomic theory applied to individual decision-making, analysis of markets and the role of prices. Specific topics include consumer demand, production, exchange, resource allocation and government intervention.

TBECON 221
Introduction to Macroeconomic Theory
5 credits
Involves the study and analysis of the aggregate economy. Topics include the determination of the national income, inflation, business fluctuations, unemployment, monetary systems, the federal budget and international trade.

TFIN 420
Visual Basic Programming of Excel-based Financial Models
5 credits / Prerequisite: Finance student of senior standing

TFIN 422
Investment Valuation
5 credits / Prerequisite: TBECON 424
Examines the valuation of financial assets including stocks, businesses, bonds and real assets. Focuses on discounted cash flow, risk, option pricing theory and models, market efficiency, dividend discount models, and real options theory.

TFIN 423
Macroeconomics and the Global Economy
5 credits / Prerequisite: TBECON 424
Focuses on the use of intermediate economic theory to understand how financial markets are affected by macroeconomic variables. Specific emphasis is placed on international markets and how to assess the impact of different macroeconomic policies.

TBECON 424
Managerial Economics
5 credits / Prerequisite: T BUS 301; T BUS 350; minimum grade of 2.5 in either MATH 112, MATH 124, TQS 124 or TQS 211
Applies tools of intermediate microeconomic theory to issues of particular interest to business students. Topics include market processes, consumer theory, firm behavior in competitive and imperfectly competitive markets, product pricing, and strategic behavior.

TFIN 425
Finance and Investment
5 credits / Prerequisites: TBUS 350
Introduces students to all facets of finance and investment including personal financial planning, budgeting and investment. Emphasis is placed on preparing students to develop strategies and manage finances and investments in an efficient, profitable manner to accomplish financial goals. Emphasizes strategic thinking and integrated business knowledge. Business majors only or permission of instructor.

TFIN 426
Portfolio Management
5 credits / Prerequisites: TFIN 422, TBECON 424
Focuses on in-depth analysis of investing, portfolio analysis and financial markets. Students analyze and manage a stock portfolio, investigate domestic and international financial markets, explore the local income property real estate market and spend time in a local brokerage house.

TFIN 427
Derivatives
5 credits / Prerequisites: TBUS 301, TBUS 350
Examines the characteristics and valuation of derivative instruments including forward and futures contracts, options and swaps. Focuses on the role of these instruments in risk management and portfolio management.

TFIN 428
Financial Markets and Institutions
5 credits / Prerequisite: TBECON 424
Examines the economic role of modern financial institutions and their relationship to the money and capital markets of developed economies. Topics covered include the financial system, the Federal Reserve System, monetary policy, international financial relationships and interest rate theory.

TFIN 431
Financial Statement Analysis
5 credits / Prerequisite: TBUS 350
Enhances the understanding of accounting principles and techniques used to prepare financial statements. Examines the methods analysts can employ to increase the relevance of financial information. Demonstrates the use of financial statement data for analyzing firms. For non-accounting students only.

TFIN 483
Econometrics for Finance
5 credits / Prerequisite: TFIN 428
Examines the statistical tools that are used to study financial and economic data, including multiple regression, regression diagnostics, time series models, stationarity and cointegration. Applies these tools using modern statistical software.

Management Courses

TMGMT 312
Capture Your Audience: Presentation Skills for Success
3-5 credits
Combines knowledge and experience in the preparation, development and delivery of public presentations. Emphasis is placed on enhancing essential speaking skills, including audience analysis, the arrangement and organization of material, speaking mode/style, the use of visual aids, and the use of rhetorical techniques and principles. Emphasizes communication and professionalism. [V]

TMGMT 314
Interpersonal Skills
5 credits
Emphasizes interpersonal dynamics in the workplace and improving interpersonal skills. Topics include major dimensions of interpersonal communication, interpersonal decision making and strategic analysis of interpersonal dynamics in organizations. Students will learn to make better choices in interpersonal communication, develop positive working relationships in organizations and improve quality of workplace outcomes. Emphasizes communication and professionalism. [I][V]

TMGMT 418
Legal Issues for Business
3-5 credits; max. 10
Explores the impact of the changing legal environment on managerial decision making and issues that business managers confront to establish appropriate managerial strategies to function effectively and develop compliance guidelines. Utilizes specific tools to access legal resources for proactively recognizing, framing and analyzing opportunities and problems and developing solutions. [I]

TMGMT 420
Managing Corporate Responsibility
5 credits / Prerequisites: TBUS 300, TBUS 320
Focuses on strategic and dynamic issues that are key to building high-performing organizations with a sense of ethics, civic engagement and social responsibility. Provides a theoretical and practical understanding of what role organizations should play in society.

TMGMT 430
Managing the Work Force
5 credits / Prerequisites: TBUS 300, TBUS 320
Focuses on managing employees as a human resource function in the organization. Examines skills critical for attracting, developing and maintaining an effective work force. Planning, forecasting, job analysis, training, performance appraisal, wage and salary administration, compensation, legal requirements and disciplinary functions are explored. Emphasizes communication, teamwork and strategic thinking.
TMGMT 433 Managing Organizational Diversity
5 credits / Prerequisites: TBUS 300, TBUS 310
Focuses on key behavioral, social and organizational requisites needed to cultivate competency in managing diversity. Provides experiential opportunities to discover and improve understanding about the self and others. Key interests include skills and strategies needed to manage and support increasingly diverse organizations. [I]

TMGMT 440 Production and Operation Management
5 credits / Prerequisite: TBUS 300 and TBUS 320
Examines how a firm transforms resources into products and services. Focuses on the decisions which must be made concerning the transformation process and the importance of choosing decision alternatives which support a firm's overall business strategy. Uses mathematical and computer models to explore the operation of both service and manufacturing processes. Emphasizes problem solving and strategic thinking skills.

TMGMT 452 Dynamics of Leadership
5 credits
Examines leadership as a process by focusing on a repertoire of practical and theoretical leadership principles. Examines contemporary leaders and their complex roles in managing organizational issues and provides an opportunity to learn and apply leadership skills. Emphasizes communication, strategic thinking and professionalism. Business majors and minors or permission of instructor. [I]

TMGMT 455 Managing and Motivating Work Teams
5 credits
Concentrates on interpersonal and management skills necessary to create and maintain effective groups that make real contributions to the continuing success of the total organization. Focuses on interpersonal skills assessment, conflict management, interdependency, collaborative relationships, norms, feedback, reward systems, goal setting and self-management. Emphasizes teamwork, communication, strategic thinking and professionalism. Business majors and minors or permission of instructor. [I]

TMGMT 457 Negotiation and Conflict Management
5 credits
Designed to help students learn to respond to personal and organizational conflicts more effectively. Theories emphasized include cooperative conflict theory and interest-based negotiation. Course activities build skills in assessing conflict, identifying conflict styles, negotiation planning and mediation. Emphasizes communication, strategic thinking and professionalism. [I]

TMGMT 465 Board Governance I
2 credits / Prerequisites: TCORE 101, TWRIT 112 or ENGL 131
Introduces nonprofit board membership and governance. Students serve as apprentices with nonprofit organizations and act as nonvoting board members. Provides experiences in gathering and assessing information and materials related to nonprofit governance practices.

TMGMT 466 Board Governance II
5 credits / Prerequisite: TMGMT 465 and TCORE 101, TWRIT 112 or ENGL 131
Examines theories of nonprofit governance related to planning, organization design, leadership, financial management, and culture that are applicable to both non-profits and businesses. Students apply this knowledge to their continuing apprenticeship experience. Builds skills in teamwork, communication, meeting management, assessment, analysis, and providing feedback.

TMGMT 474 Small Business Development
5 credits / Prerequisite: 1.7 grade or better in TBUS 300, TBUS 320 and TBUS 350
Examines the startup of small businesses including developing a business plan and obtaining financing. Focuses on the management of existing small businesses emphasizing strategic planning for the future. Student projects provide hands-on experience in the development of a small business. Emphasizes strategic thinking, flexibility, teamwork and communication skills.

TMGMT 475 Creating, Leading and Implementing Change
5 credits / Prerequisites: TBUS 300, TBUS 310
Explores the repertoire of concepts, ideas, tools and techniques for understanding the dynamics of change and how successful leaders learn to create, implement and manage change. The course provides opportunities to examine and experience change management in contemporary organizations. Emphasizes strategic thinking. Business majors and minors or permission of instructor.

TMGMT 478 International Business
5 credits / Prerequisites: TBUS 300, TBUS 320
Concentrates on global business issues and the challenges facing managers in an international environment. Examines differences among the world's countries including monetary systems, strategies and structures of international businesses, and competitiveness across firms and countries. Provides an understanding of how cultural, economic and political differences affect management style, decisions, business opportunities and challenges. Emphasizes communication, integrated business knowledge and strategic thinking. Business majors and minors or permission of instructor. [I]

TMKTG 348 Social Marketing
5 credits / Prerequisites: TBUS 300, TBUS 320
Focuses on the preservation or enhancement of individual and social well-being. Applies marketing principles within a social context to public agencies and nonprofit institutions. [I]

TMKTG 355 Professional Sales
5 credits / Prerequisites: TBUS 300, TBUS 320
This course presents the modern way to sell via a relationship process, emphasizing skills for success as a field sales representative. The steps in the selling process are analyzed in detail and students gain hands-on experience. This course is designed to develop competencies in strategic thinking and communication.

TMKTG 425 Advertising
5 credits
Designed to acquaint students with the creative processes used in the field of advertising. Topics include advertising, copywriting, art direction, production and media selection. Provides exposure to advertising theory with a focus on practical application in the industry. Emphasizes communication, strategic thinking and teamwork. Business majors and minors or permission of instructor.

TMKTG 440 Business Marketing
5 credits / Prerequisites: TBUS 320
Examines the process by which businesses are served by other businesses. Includes analyzing existing business relationships to identify problems and opportunities, developing and modifying products, establishing and managing relationships, setting prices, and undertaking promotional efforts, especially personal selling. Presents a strategic focus from a managerial perspective. Emphasizes communication and strategic thinking. Business majors or permission of instructor.
TMK TG 445  
Services Marketing  
5 credits / Prerequisite: TBUS 320  
This course introduces new marketing tools and ideas specifically applicable within the service industry, where organizations require a distinctive approach to the development and execution of marketing strategies. Designed to develop competencies in strategic thinking and communication.

TMK TG 450  
Consumer Marketing  
5 credits  
Examines social science and consumer behavior research for concepts and principles that marketers can use to better understand customers and meet their needs. Insights gained from the disciplines of sociology, anthropology and psychology are applied to real-world marketing situations. Emphasizes communication and strategic thinking. Business majors or minors or permission of instructor.

TMK TG 460  
Research Methods  
5 credits / Prerequisites: TBUS 320  
Explains the research process including problem definition, research design, questionnaire construction, sample selection, interviewing and data analysis. Involves field application of course knowledge along with written and oral reports. Emphasizes teamwork, integrated business knowledge, and strategic thinking. Business majors or minors or permission of instructor.

TMK TG 471  
e-Commerce  
5 credits / Prerequisites: TBUS 320, TBUS 330  
Examines how internet technologies transform the conduct of business both within and between organizations. Introduces the technical architecture and business principles that underlie the e-commerce phenomenon. Explores the implications of the evolving technologies for managerial decision making, organizational strategies, industry structures and public policy.

TMK TG 475  
Marketing Strategy  
5 credits / Prerequisites: TBUS 300, TBUS 320  
Provides a comprehensive framework for the development of competitive marketing strategies that achieve organizational objectives and build competitive advantage. Students develop a marketing plan, including implementation, evaluation, and control of a firm's marketing dynamics. Provides the opportunity to apply marketing knowledge in a real-world setting.

TMK TG 480  
International Marketing  
5 credits / Prerequisites: TBUS 320  
Extends basic marketing knowledge by examining the marketing strategies and tactics of companies that do business across borders. Covers topics related to how firms research, identify, and enter international markets, and develop global marketing strategies.

Assistant Professor; Accounting; Ph.D., University of Texas at Dallas, 2006

Douglas T. Wills  
Associate Professor; Economics; Ph.D., Texas A&M University, 1995
The major in Criminal Justice offers a multidisciplinary understanding of crime and justice within the framework of broader social processes within our society. It looks at all major aspects of the justice system from an ecological systems approach rather than a specialization in one narrow content area. The curriculum provides a theoretical understanding of the discipline, combined with an understanding of the scientific method as it applies to criminal justice.

The Criminal Justice curriculum will allow students to expand their education by learning to evaluate broader aspects of the criminal justice system and develop theoretical and analytical knowledge and skills. The course delivery will incorporate a social justice lens on each course.

This includes an emphasis on sensiization of students to the human impact of crime including differential impacts of race/ethnicity, social class, gender, sexual orientation, religious creed and physical and developmental disabilities. For example, the program will expose students to the latest research regarding marginalized groups disproportionately represented in our prison system and also to evidence-based approaches for working with families of victims and perpetrators of crime.

The criminal justice curriculum is positioned to provide knowledge and skills to students who plan to seek employment with agencies that provide services for the children and families of the incarcerated as well as law enforcement and correctional settings. Rooted in a social work program with expertise in working with children, youth and families, this program will offer a unique focus on criminal justice from an ecological and social justice perspective allowing students to implement evidence-based models in a variety of criminal justice settings. Graduates of this major may decide to continue on for advanced degrees in disciplines such as social work, law or criminal justice.

**Minor in Criminal Justice**

A minor in Criminal Justice is available to undergraduate students in other degree programs. Please see the "Minors and Certificates" section for details.

---

**Program Goals**

- Using an interdisciplinary approach, students will be prepared to enter the criminal justice field as competent professionals with an ecological systems approach to understanding crime and the consequences of crime.
- Demonstrate an ethical and just professional use of self and the ability to use supervision and consultation.
- Demonstrate understanding and appreciation for differences based on gender, age, ethnicity, race, religious creed, sexual orientation, class and physical, mental and developmental disabilities.
- Practice effectively within agencies and delivery systems and identify, plan and pursue needed agency and system changes aimed at promoting social justice.
- Gain an understanding of crime and justice within the framework of broader social processes within our society.
- Analyze the impact of social policies on people (both clients and workers) agencies, communities, service systems and nations including the American Indian and Alaska Tribal Nations.
- Understand and critically apply theoretical frameworks to understand individual development and behavior across the lifespan, the interactions among individuals and social systems and their relationship to crime and justice.
- Gain understanding of criminal justice as an applied science where there is an integration of theory, scientific method and practical application.
- Understand and use evidence based practice skills to work with those who involuntarily become connected to the criminal justice system, including victims of crime and their families and the families of those who have been perpetrators of crime.
- Understand, use and promote evidence-based methods to work with special populations in the criminal justice system such as sexual offenders, domestic violence offenders, substance
abusers, the mentally ill, offenders affiliated with the military, and elderly incarcerated.

- Use effective oral and written communication skills with a range of client populations, colleagues and members of the community.

Admission Requirements

The Criminal Justice major admits each quarter (except summer). Applicants must complete all university and major admission requirements or have a plan in place to complete requirements prior to admission. To be considered for admission all applicants must meet the following minimum qualifications:

- Meet all admission requirements for the University of Washington Tacoma
- Completion of a minimum of 60 college-level credits
- A minimum cumulative GPA of a 2.0 in all college course work
- A minimum grade of a 2.0 in each prerequisite course:
  - Introduction to Political Science or American Government
  - Introduction to Sociology
  - English composition

How to Apply

Applicants should have all required forms and transcripts submitted on or before the application deadline to be considered on time. Applications received after the application deadline will be reviewed on a space-available basis and may be placed on a wait list. All applicants will be evaluated on the following criteria:

- Previous academic performance
- Completion of prerequisite requirements
- Personal goal statement describing interest in criminal justice

Application

Current UW Tacoma students must complete a Declare/Change of Major form. Transfer students must submit the application for transfer admission and pay the corresponding application fee.

Transcripts

Transfer students must submit official transcripts reflecting all previous academic course work. High school transcripts should be submitted if intermediate algebra or foreign language was completed in high school. Current UW Tacoma students seeking to change or declare the major in Criminal Justice should submit an unofficial UW transcript printed from MyUW to the program office.

Personal Goal Statement

The personal goal statement is an important element in the review of each applicant’s qualifications. Applicants are encouraged to use this writing sample to point out relevant aspects of their life that may not be evident from their academic record. The following items should be addressed in a two-page maximum, typed, double-spaced document.

- Describe interest in criminal justice/ reasons for pursuing a criminal justice major, and
- Desired educational outcomes

Curriculum Objectives

- Gain an understanding of criminal behavior, including society’s responses to crime and delinquency and the consequences of crime for our society.
- Be exposed to the moral and ethical dimensions of the various careers within criminal justice and learn the guidelines for appropriate professional conduct, including boundaries between workers and clients.
- Become sensitized to the human impacts of criminal justice, including differential impacts of race/ethnicity, social class, age, gender, religious creed, sexual orientation and physical, mental and developmental disabilities.
- Gain an understanding of agencies and delivery systems of the criminal justice system and how to effect change to bring about social justice. Students will work effectively as change agents in a variety of criminal justice settings.
- Identify ways in which oppression, privilege, discrimination, and social and economic disadvantage contribute to complex human welfare problems that are ultimately evidenced in the criminal justice system.
- Be grounded in theoretical and empirical knowledge, values and skills related to criminal justice.
- Understand a variety of research methods to collect and analyze data, in order to develop and evaluate interventions in criminal justice delivery systems.
- Gain an understanding of the dynamics and treatment approaches for those who are victims of crime, including crisis and trauma interventions, as well as effective approaches to work with families of victims. Gain understanding of the needs of families of the incarcerated, especially as it relates to parent-child relationships and effective approaches to effect better outcomes.

- Have knowledge and skills to use evidence-based methods to work with special populations in the criminal justice system, such as sexual offenders, domestic violence offenders, substance abusers, offenders with mental illnesses, offenders affiliated with the military and elderly incarcerated.

- Be able to write at a beginning professional level to produce reports, letters and other forms of communication likely to be required in the criminal justice and social services arenas.

- Be able to conduct a satisfactory oral presentation.

Course of Study

The Criminal Justice major is a 65-credit program comprised of core courses (45 credits) in five content areas—administration of justice, corrections, criminological theory, law adjudication, and research and theoretical methods—plus core electives (20 credits) drawn from multiple disciplines. Through the core courses and electives, students will be able to augment their interest in specific aspects of criminal justice.

All courses are five credits unless otherwise noted.

Criminal Justice Major Core Courses (45 credits)

To include the following courses:

- T CRIM 200 Introduction to Criminal Justice
- T CRIM 271 Introduction to the Sociology of Deviance and Social Control
- T CRIM 361 Addictions and Mental Illness in Criminal Justice
- T CRIM 370 Police and Society
- T CRIM 371 Helping Skills in Criminal Justice
- T CRIM 372 Adult Corrections
- TSOCSF 390 Introduction to Social Welfare Research
- T CRIM 440 Fundamentals of Criminal Law
- T CRIM 441 Senior Seminar: Professionalism and Ethical Issues in Criminal Justice

Approved Criminal Justice Major Core Electives (20 credits)

For a complete list of approved core electives, visit tacoma.uw.edu/social-work/criminal-justice-curriculum.
Degree Information

A Bachelor of Arts degree in Criminal Justice is earned upon the completion of at least 180 college quarter credits. These credits must include major core courses (45 credits), major core electives (20 credits), course work in certain basic skills, and the fulfillment of general education requirements. In the freshman and sophomore years, students should fulfill as many of the general education requirements as possible. Those requirements consist of language skills (English composition and foreign language), reasoning and writing skills, and areas of knowledge. The courses needed to meet the requirements for a degree will not always total the 180 credits needed to graduate. The additional credits needed to total 180 credits are called "general electives." Students may choose from a variety of disciplines outside their major to fulfill general electives.

Completion of all general education requirements is not required for admission to the Criminal Justice major. However, students with deficiencies must meet with an academic adviser to discuss completion of these requirements prior to graduation.

Graduation Requirements

To qualify for graduation with a Bachelor of Arts degree in Criminal Justice from the University of Washington Tacoma, a student must:

- Be a matriculated Criminal Justice major in good academic standing with the University of Washington Tacoma.
- Satisfy all prerequisite and admission requirements for entrance into the Criminal Justice program.
- Complete a minimum of 180 credits.
- Earn a minimum grade of 2.0 in each required Criminal Justice core course.
- Earn a minimum cumulative 2.0 GPA for all UW Tacoma course work at graduation.
- Complete 65 credits required for the Criminal Justice major (45 credits of core courses and 20 credits of core electives) to include 45 credits at the upper-division level:
  - T CRIM 200 Introduction to the Criminal Justice System (5)
  - T CRIM 271 Introduction to the Sociology of Deviance and Social Control (5)
  - T CRIM 361 Addictions and Mental Illness in the Criminal Justice System (5)
  - TSOCWF 390 Introduction to Social Welfare Research (5)
  - T CRIM 370 Police and Society (5)
  - T CRIM 371 Helping Skills in Criminal Justice (5)

- Complete 20 credits from approved list of Criminal Justice core electives
- Apply for graduation with a program adviser in the Academic Advising Center by the deadline posted by the University for the expected quarter of graduation.

Other Academic Policies

- Students may be allowed to petition the academic program for additional lower-division credit if it advances them toward a degree. No more than a total of 105 lower-division transfer credits and no more than 30 upper division transfer credits may be applied for Criminal Justice majors. Please see the Criminal Justice academic adviser for details.
- Due to the innovative nature of the Criminal Justice major housed in Social Work, the following courses must be taken at UW Tacoma so that the social justice lens can be adequately applied to major content. The courses are: T CRIM 361 Addictions and Mental Illness in Criminal Justice (5 credits), TSOCWF 390 Introduction to Social Welfare Research (5 credits), T CRIM 371 Helping Skills in Criminal Justice (5 credits) and T CRIM 441 Senior Seminar: Professionalism and Ethical Issues in Criminal Justice (5 credits). If a student believes they have this upper-division content in other transfer course work, an exception may be granted by faculty through a program petition for course substitution process.
- A minimum of 45 credits out of the 65 credits required for the Criminal Justice major must be completed in residence at UW Tacoma.
- Students who have a 100-200 level transfer course that is considered similar in content to a 300-400 level course within the major will not repeat content, however they will be required to select a 300-400 level course from the Criminal Justice major approved elective list. In all cases a program petition for a course substitution will be submitted for formal review and approval.

Course Descriptions

For the most current course information, please consult the Criminal Justice website at tacoma.uw.edu/social-work.

T CRIM 200 Introduction to Criminal Justice 5 credits
Introduction to the American criminal justice system. Includes the present structure, philosophy, and procedures of the criminal justice system, with specific attention directed towards policing, the courts, and corrections. Explores the many diverse views that shape the contemporary criminal justice system. [I]

T CRIM 271 Introduction to the Sociology of Deviance and Social Control 5 credits
Examination of deviance, deviant behavior, and social control. Deviance as a social process; types of deviant behavior (e.g., suicide, mental illness, drug use, crime, “sexual deviance,” delinquency); theories of deviance and deviant behavior; nature and social organization of societal reactions; and social and legal policy issues. [I]

T CRIM 352 Women in the Criminal Justice System 5 credits
Explores the history, societal impact, and future of women within the U.S. criminal justice system. Focuses on factors which contribute to female incarceration including poverty, physical and sexual victimization, chemical dependency, and major mental illness. Gender-responsive strategies designed for advocacy and empowerment address major economic and social justice issues.

T CRIM 360 Youth and Juvenile Justice Systems 5 credits
Focuses on juveniles as both legal offenders and crime victims from an ecological perspective. Emphasizes juvenile criminal offense theories, the continuum of legal responses, and the consequences on youth, families, and society.

T CRIM 361 Addictions and Mental Illness in Criminal Justice 5 credits
Examines mental illness and addictions as they manifest in criminal justice systems. Focuses on the prevalence of mental illness and addictions in prisons, as well as best practices for treatment. Examines prison culture as it relates to substance abuse and mental illness. Offered jointly with TSOCWF 361. [I]

T CRIM 370 Police and Society 5 credits
Examines the role of law enforcement offices within American society, emphasizing history, public perceptions, administration, organizational culture, ethics and police deviance. [I]
T CRIM 371
Helping Skills in Criminal Justice
5 credits / Prerequisites: T CRIM 200; T CRIM 271
Focuses on skills needed to establish a constructive helping relationship with individuals involved directly and indirectly in the criminal justice system. These skills include empathy, active listening, boundary setting, maximizing strengths, positive conformation and challenges, and the basics of cognitive and systemic change. [I]

T CRIM 372
Adult Corrections
5 credits / Prerequisite: T CRIM 200
Focuses on the history, structure, operations, and problems within the corrections component of the criminal justice system. Examines the interaction between ethics and criminal justice practice, including application of ethical theory to criminal justice issues. Topics include ethical response to police brutality and corruption in criminal justice systems, development of professional identity, and promotion of professional conduct. [I]

T CRIM 373
Criminal Evidence and Investigation
5 credits
Examines scientific crime detection, techniques for case management and documentation, the concept of proof, the impact of emergent technology on the investigative process, interacting with victims and witnesses, and interviewing suspects. Emphasizes the investigation of particular crimes, such as, homicide, sex offenses, child abuse and hate crimes. [I]

T CRIM 427
Disproportionality Across Systems
5 credits
Examines disproportionate representation of people of color in the child welfare, criminal justice, economic, education, health, juvenile justice, and mental health systems. Focuses on how each of these systems interacts with the criminal justice system where disproportionality is a particularly serious problem. Offered jointly with TSOCWF 427. [I]

T CRIM 430
Children of Incarcerated Parents
5 credits
Examines the impact of parental incarceration on the psychological, social, physical, and biological development of children. Focuses on issues of loss, trauma, attachment, and ways to address such issues. Offered jointly with TSOCWF 430. [I]

T CRIM 433
Crisis and Trauma Interventions with Crime Victims
5 credits
Provides an overview of victimology and teaches practice skills for working with victims of crime and their families. Examines the efficacy and application of interventions that try to alleviate the impact of crime on victims, facilitate victims’ mental health recovery, and assist in system navigation. Offered jointly with TSOCWF 433. [I]

T CRIM 435
Terrorism and the U.S. Criminal Justice System
5 credits
Assesses terrorism and counterterrorism organizations from an American criminal justice perspective. Explores the nature of terrorism, motivations of terrorists, and the tactics utilized by terrorists while detailing strategies used by law enforcement to counter these individuals and groups. Analyzes social factors of terrorism and of terrorism threats in contemporary society. [I]

T CRIM 440
Fundamental of Criminal Law
5 credits / Prerequisite: T CRIM 200
Examines the historical, constitutional, and legal principles applicable to substantive criminal law. Analyzes the definition of criminal law, elements of major crimes, general principles of criminal responsibility, punishment, and the conditions that may excuse an individual from criminal liability or mitigate punishment. [I]

T CRIM 441
Senior Seminar: Professionalism and Ethical Issues in Criminal Justice
5 credits / Prerequisite: T CRIM 371; TSOCWF 390
Examines the interaction between ethics and criminal justice practice, including application of ethical theory to criminal justice issues. Topics include ethical response to police brutality and corruption in criminal justice systems, development of professional identity, and promotion of professional conduct. [I]

Professor; Feminist Social Work Practice, Education and Administration, Human Diversities, Qualitative Research; Ph.D., University of Denver, 1990

Eric Madfits
Assistant Professor; Sociology and Criminal Justice; Ph.D., Northeastern University, 2012
Global Honors

Global Honors is an interdisciplinary upper-division honors program open to all majors and served by internationally reputed faculty from programs across campus. Global Honors provides pathways to academic excellence, adding distinction to the degree. Small core seminars, community outreach, study abroad, and internship and professional development opportunities, prepare high-achieving students for the challenges of a globalizing world. The diverse and closely-knit learning environment facilitates in-depth exploration of complex issues facing our interconnected world. Students graduate to careers in law, medicine, business, technology, arts, and education; more importantly, they graduate with awareness and compassion to lead and serve in our global community.

Students typically enter Global Honors at the start of their junior year. Sophomores are invited to explore eligibility. Students must be accepted into UW Tacoma and enrolled in a major before applying to Global Honors. Priority is given to applicants with a minimum cumulative GPA of 3.5. Demonstrated interest in global understanding and experiential learning will be given serious consideration.

Once admitted into the program, students are eligible for a Global Scholar merit award of up to $1,500 for the entire course of study.

Curriculum

The Global Honors curriculum is interdisciplinary and globally focused. Courses are taught in seminar style and the small faculty to student ratio allows for in-depth exploration of a wide range of topics. Emphasis is on the development of critical thinking, writing, research and leadership skills. Classes may include presentations, individual or group projects, research papers, and peer reviews. Students are expected to maintain an overall GPA of 3.3 in all course work at UW Tacoma.

First Year

Students take an introductory course that orients them to basic concepts in globalization. The course also outlines the expectations of the Program and the myriad resources available to support students through graduation. In addition to the introductory course, two of the three core seminars are completed in the first year. Each seminar includes extensive reading lists, substantive writing and research assignments and the expectation of active participation by students.

T GH 300 Re-Orienting the Global (2 credits)
T GH 301 Global Interactions (5)
T GH 302 Global Imaginations (5)

Second Year

Students who decide to study abroad generally do so in the summer before their senior year. In the autumn, Global Honors seniors take the last core seminar. In the winter, they take a research seminar in preparation for the capstone project which could be a thesis, a study abroad reflection/thesis, or an internship reflection/thesis. During the spring, students work with a faculty adviser of their choice to write the thesis or reflection essay. As a final requirement for graduation with Global Honors seniors present their work at the annual Global Honors Research Colloquium, a widely publicized and well-attended event.

T GH 303 Global Challenges (5 credits)
T GH 304 Global Challenges (5 credits)
T GH 490 Research Methods (2)
T GH 494 Thesis (5)*
T GH 495 Reflection Essay (2)*
T GH 496 Experiential Learning (5)

*Thesis / reflection essay

Students who complete a study abroad experience (minimum 3 weeks) may choose to write the two-credit senior reflection essay in lieu of their five-credit senior thesis. All other students must write a five-credit thesis that is international in scope. Capstone projects are presented at the spring Global Honors Research Colloquium.

Director
Divya McMillin

Adviser
Paul Carrington

Program Assistant
Linda Gilbert
Study abroad

Strongly encouraged but not required.

Students may study in another country with an accredited university study abroad program. Options range from programs of three weeks to one quarter or more. Students have access to UW Tacoma and UW Seattle study abroad programs.

Admission

Global Honors is a competitive program. Successful applications include a record of strong academic performance and a clear indication of the candidate’s knowledge and interest in global issues, as well as the ability to actively contribute to a dynamic learning community. Global Honors is not a degree-granting major. Students must be admitted to UW Tacoma and enrolled in a major before applying to Global Honors. Core seminars may count toward major requirements.

Application materials include the following:

- A one- to two-page cover letter that addresses the following:
  1. Your interest and qualification for the Global Honors Program. Here you may comment on your GPA, your exposure/interest to global issues, and/or your overseas travel experience (2-3 paragraphs).
  2. Your strengths and skills that will contribute to the collaborative Global Honors community. Here you may include volunteer or community service experience, leadership training, professional expertise, and/or political participation, to name a few examples (1-2 paragraphs).
  3. Your commitment to stay in this two-year, upper-division enrichment Program. Each student in the Program is highly valued and many resources are invested to guide you to higher levels of academic excellence and leadership. Your stated intention to complete the Program and graduate with the prestigious Global Honors designation, will be a factor in determining admission to the Program (1-2 paragraphs).

- Names, titles and contact information (address, phone number and email) for two references. Referees, typically college professors, should be able to speak to your academic abilities and your potential for success in the Global Honors Program.

Applications may be completed online through the link on the program website at tacoma.uw.edu/global-honors, or submitted in hard copy to:

Global Honors Program
UW Tacoma
Attn: Admissions
Campus Box 358436
1900 Commerce Street
Tacoma, WA 98402-3100

An interview is scheduled when all application materials have been received and reviewed.

Applications are accepted until August 31 for enrollment in the autumn quarter and until October 15 for admission in the winter quarter. Applications are processed as soon as they are received. Admission is competitive and seats are limited. Interested candidates are strongly advised to contact the Global Honors program before submitting an application.

Course Descriptions

For the most current course information, please consult the Global Honors website at tacoma.uw.edu/globalhonors.

T GH 300
Re-Orienting the Global
2 credits
Prepares Global Honors scholars for core seminars in the Program. Provides historically grounded introduction to such concepts as cultural imperialism, colonialism, postcolonialism, capitalism and globalization. Examines relevance of concepts in current global affairs. Provides information on study abroad and service-learning opportunities, as well as expectations of the Global Honors Program.

T GH 301
Global Interactions
5 credits
Examines major ideological and intellectual movements that shaped the human experience in the 20th century. Focuses on historical contexts of nationalism, imperialism, fascism and communism.

T GH 302
Global Imaginations
5 credits
Accommodates the study of major themes, concepts, trends or techniques that permeate world literature, arts, and/or other cultural forms. The specific art forms and issues to be examined in any given offering of the class will vary. In addition to works considered to be “masterpieces” by critics, the class may also consider marginalized forms of aesthetic expression and their relation to meaning and value.

T GH 303
Global Challenges
5 credits
Examines major challenges facing the world in the 21st century. Covers such contemporary issues as economic development, poverty and the distribution of resources, ecological concerns, public health, globalization and national identity, and international human rights.

T GH 490
Research Methods
2 credits / Prerequisite: T GH 300; T GH 301; T GH 302; T GH 303
Methods seminar required for seniors in the Global Honors program who are preparing for their capstone project.

T GH 494
Thesis
5 credits / Prerequisite: T GH 300, T GH 301; T GH 302; T GH 303; T GH 490
Research and completion of a globally-focused thesis approved and supervised by a full-time UW Tacoma faculty member on a significant scholarly topic, for students admitted to the Global Honors program.

T GH 495
Independent Study or Reflection Essay
1 – 5 credits
Individual work with a faculty member on directed readings, research or reflection essay with an emphasis on global topics. Pre-approval required.

TGH 496
Experiential Learning
5 credits / Prerequisite: T GH 300, T GH 301; T GH 302; T GH 303; T GH 490
Includes globally-focused experiential learning projects such as internships, community service to locally-based international and/or immigrant populations, or related work intended to develop an appreciation of the processes of globalization. Integrates experience with theoretical understanding of globalization and global citizenship. Experiential learning projects will require both a site supervisor and faculty adviser.

Faculty

Global Honors courses are taught by internationally-renowned faculty from academic programs across campus.
Bachelor of Arts

Healthcare Leadership

The University of Washington Tacoma’s bachelor of arts degree with a major in Healthcare Leadership provides opportunities for students interested in leadership positions across a spectrum of healthcare settings. The program is designed to utilize an interdisciplinary approach that prepares students for careers in leadership positions across a spectrum of healthcare settings. This degree will prepare students in South Puget Sound with the critical thinking processes and experiential learning necessary to become leaders in organizations ranging from healthcare systems to government agencies.

Philosophy of Undergraduate Education

The Healthcare Leadership faculty believe that the purpose of university-based undergraduate education is to prepare healthcare professionals whose practice is informed by theory and research. Preparation for various roles requires knowledge of the arts, sciences and humanities, together with content and processes specific to leadership. An interdisciplinary emphasis engages students in a broad range of ideas and knowledge.

The members of the faculty believe that their teaching styles need to take into account the diverse nature of how students learn. We are a community of learners and scholars—a community that is created in collaboration with students.

Program Overview

The bachelor of arts with a major in Healthcare Leadership curriculum focuses on critical thinking and analysis, communication, and diversity. The baccalaureate degree enables individuals to assume leadership roles in a range of positions. Graduates collaborate with interdisciplinary teams in complex organizational systems to improve health care access, cost, and quality.

Students in the BA in healthcare leadership program include those who have completed a minimum of 60 credits; students may have a career interest or work experience in a healthcare or related setting. Courses are scheduled to enable students to continue employment while enrolled in the program, but does include both daytime and evening courses.

What Makes the Program Unique?

- Offers courses designed to apply content to healthcare leadership
- Works for both part-time and full-time students
- Provides opportunities to explore interests and be creative

In addition to the major, opportunities exist to obtain a minor or a certificate in other disciplines (see page 144).

Students have community partnership opportunities culminating in a four-credit fieldwork experience in which the students participate in real-world learning experiences in a healthcare organization in the community. These learning opportunities serve as a bridge to future employment opportunities for the students.

Program Goals

- Use multiple communication strategies that enhance positive human relationships considering both clients/customers and work force personnel.
- Demonstrate the ability to integrate both theoretical and experiential knowledge relevant to leadership in the healthcare environment.
- Integrate ethical behaviors into leadership practice.
- Demonstrate knowledge of the healthcare environment that includes awareness of cost, access, and quality challenges and the ability to generate solutions to these challenges.
- Demonstrate basic budgeting, outcome measurement, and informatics abilities.

To support and document progress toward accomplishing these goals, each graduating student is required to submit a portfolio of work completed during the student’s residence at UW Tacoma.

Admission Requirements
Applicants to the program must meet the following requirements prior to enrolling:

- Cumulative GPA of at least 2.5 for all college course work
- Five credits of English composition with a minimum grade of 2.0 on a 4.0 scale
- Minimum 60 quarter credits completed
- Currently licensed Washington State healthcare providers must provide proof of unrestricted license status (does not apply to non-licensed applicants)
- Minimum grade of 2.0 in each of the following prerequisite courses:
  - Introductory statistics
  - Human biology OR anatomy and physiology OR equivalent course (contact program regarding alternative courses)

Application Process
The UW Tacoma Healthcare Leadership program has an annual admission process and admits students for autumn quarter only. Applications that meet the priority application deadline are assured a review for admission in the upcoming academic year. Subsequent reviews are completed on a space-available basis.

Applications for admission into the Healthcare Leadership program are considered complete when the following have been received:

Transfer students:
- UW Tacoma Application for Transfer Admission and application fee
- Official transcripts for all college-level coursework (high school transcripts are required only if foreign language or intermediate algebra requirements were completed in high school)
- Healthcare Leadership Program Application and Supplemental Materials Kit (see Healthcare Leadership website)

Current UW Tacoma students:
- Healthcare Leadership Program Application and Supplemental Materials Kit (see Healthcare Leadership website)

Any applicant receiving an offer of admission is required to complete an online criminal background check through Verified Credentials, Inc. before beginning HCL course work. Please note there is a separate fee for this service.

After admission to the program, students are required to complete a health history and have required immunizations, and a current CPR certification. Students will be required to complete the UW HIPAA Compliance course. Students are responsible for their own transportation to and from fieldwork course work.

Satisfactory Progress
Students are required to maintain satisfactory progress in their pursuit of the BA degree with a major in Healthcare Leadership, defined as achieving a minimum grade of 2.0 in all healthcare leadership, healthcare leadership-related and required courses. Students must also achieve a 2.0 grade in any repeated course. Currently licensed Washington state healthcare providers must provide proof of unrestricted license status (does not apply to non-licensed applicants) before enrolling in any clinical course.

Students must meet all of the Essential Behaviors for Admission, Continuation and Graduation (see details at tacoma.uw.edu/healthcare-leadership/essential-behaviors-admission-continuation-graduation).

Graduation Requirements
The Healthcare Leadership curriculum requires 90 upper-division credits to earn the bachelor of arts degree as outlined below.

55 credits of core courses
- THLEAD 350 Critical Analysis and Writing (3 credits)
- THLEAD 360 Healthcare Leadership Strategies (5)
- THLEAD 380 Healthcare Budgetary Analysis and Financial Decision Making (5)
- THLEAD 400 Introduction to Research in Healthcare (3)
- THLEAD 407 Diversity, Health and Inequities (3)
- THLEAD 410 Ethical Issues in Healthcare (3)
- THLEAD 420 Healthcare Accreditation and Legal Issues (5)
- THLEAD 430 Interpersonal Communication (3)
- THLEAD 440 Tobacco Prevention (3)
- THLEAD 450 Initial Connected Learning (1)
- THLEAD 480 Healthcare Leadership Fieldwork* (4)
- T HLTH 310 Health, Illness and Society (5)
- T HLTH 320 Promoting Health Through Social Marketing (5)
- T HLTH 440 The Business of Healthcare (5)
- T INST 311 Database Management and Data Analysis (5)

20 credits of health electives or minor courses
Students must complete 20 credits of approved health-related elective courses or courses in their selected minor.

15 credits of upper-division electives
Students must complete an additional 15 credits of upper-division elective courses.

General requirements

- Be a matriculated Healthcare Leadership student in good academic standing with the University of Washington Tacoma.
- Complete 180 credits, of which at least 90 must be upper-division (300-400 level) course work, including 15 credits of Individuals and Society course work (may be completed at UW Tacoma), 15 credits of Visual, Literary and Performing Arts course work (may be completed at UW Tacoma) and 15 credits of Natural World course work.
- Complete the final 45 credits in residence at the University of Washington Tacoma.
- Satisfy all of the general university graduation requirements, including five credits of English composition with a minimum grade of 2.0 (see page 22).
- Apply for graduation with an adviser by the application deadline posted by the Graduation and Academic Records Office for the expected date of graduation.

Course Descriptions
For the most current course information, please consult the Healthcare Leadership website at tacoma.uw.edu/healthcare-leadership/courses.

THLEAD 350 Critical Analysis and Writing
3 credits
Focuses on critical thinking and writing relevant to learning and practice in nursing and healthcare. Applies critical analysis to health related issues. Offered jointly with T NURS 350.

THLEAD 360 Healthcare Leadership Strategies
5 credits
Emphasizes essential healthcare leadership competencies by focusing on communication, collaboration, change mastery, and conflict resolution. Provides essential theoretical leadership foundation and review evidence for specific leadership style. Provides opportunity to discover one’s own leadership abilities with respect to each of the discussed competencies.

*Additional immunization and criminal history documentation may be required before enrolling in these courses.
THLEAD 380 Healthcare Budgetary Analysis and Financial Decision Making
5 credits
Focuses on budgets commonly encountered in healthcare including operating and capital budgets. Provides methods to analyze financial status including productivity measures, variance analysis, break-even analysis, and evaluation of financial documents as well as introduction to cost effectiveness and cost/benefit analysis strategies. Examines insurance as a revenue source in healthcare budgets. [Q]

THLEAD 403 Introduction to Research in Nursing and Healthcare
3 credits / Prerequisite: Either THLEAD 350 or T NURS 350; one of T HLTH 305, TMATH 110, or one 100- to 300-level STAT course
Describes the systematic steps of the research process. Introduces approaches, frameworks, and concepts used in investigating healthcare and nursing problems. Emphasizes integration of research findings to establish evidence-based healthcare and nursing practice. Offered jointly with T NURS 403. [Q]

THLEAD 407 Diversity, Health and Inequities
3 credits
Examines how difference, discrimination, marginalization, power, and privilege relate to health, illness, and health care. Attends to historical and structural manifestations of oppression and inequity. Addresses health inequities. Offered jointly with T NURS 407. [I][V]

THLEAD 410 Ethical Issues in Healthcare
3 credits
Identifies ethical issues relevant to healthcare and the profession of nursing. Identifies, describes, and analyzes, multiple ethical perspectives, selected ethical dilemmas relevant to professional practice, the delivery of health care, and the health of individuals and populations. Offered jointly with T NURS 410. [I]

THLEAD 420 Healthcare Accreditation and Legal Issues
5 credits
Examines critical accreditation and legal issues commonly occurring in healthcare organizations. Focuses on specific accreditation processes and quality issues. Examines patient privacy, access and consent requirements, security requirements, safety challenges, organizational legal issues, and personnel legal issues. [I]

THLEAD 430 Interpersonal Communication
1-3 credits, max. 3 credits / Prerequisite: THLEAD 350
Addresses communication skills, patterns and practices. Examines nonverbal and verbal modes of communication. Explores communicating in a variety of contexts pertinent to healthcare, for example, cultural, personal, professional, group, conflict, and leadership. Applies conceptual models in interpersonal processes. Offered jointly with T NURS 430. [I]

THLEAD 450 Initial Connected Learning
1 credit
Assists students with transition into their role as a Healthcare Leadership student and with the development of portfolios. Emphasis on problem solving for purposes of synthesizing, integrating and deepening understanding about material students are learning in current courses. Opportunity to address mechanics of upper-division academic standards. Offered jointly with T NURS 450.

THLEAD 480 Healthcare Leadership Fieldwork
4 credits / Prerequisite: THLEAD 560; THLEAD 380; THLEAD 403; THLEAD 420; THLEAD 430; and T HLTH 440
Provides an opportunity to apply theory to a work environment in a healthcare organization associated with future career goals. Provides experiential opportunities to demonstrate professional behaviors.

T HLTH 310 Health, Illness and Society
5 credits
Introduction to societal factors influencing health both locally and globally, utilizing perspectives from diverse disciplines. Examines topics such as the social construction of health and illness, the meaning of health and illness in cultural context, the social determinants of health, and issues in health care delivery and access. [I]

T HLTH 320 Promoting Health Through Social Marketing
5 credits
Examines strategies to promote health both locally and globally. Covers social marketing principles. Applies a range of social marketing techniques to develop a campaign to promote health at a population level. [I]

T HLTH 440 Business of Healthcare
5 credits
Explores the forces driving the changes in the evolving U.S. healthcare system to include resource allocation and cost-containment strategies. Emphasizes the examination of key economic concepts, e.g., outputs, supply, demand and markets as they relate to the healthcare industry.

Course offered by other department
T INST 311 Database Management and Data Analysis
5 credits
Covers methods for transforming data into information through a database management system, how to query it interactively, how to visualize it in a meaningful way, how to share it on the Internet and how to analyze it. Not open to CSS majors. [Q]

Faculty
Sharon Gavin Fought
Director and Associate Professor
Nursing and Healthcare Leadership; RN; Ph.D., The University of Texas, 1983

Katie Adamson
Assistant Professor, Nursing and Healthcare Leadership; Ph.D., Washington State University, 2011

Jane Cornman
Senior Lecturer, Nursing and Healthcare Leadership; Ph.D., University of Washington, 1998

Marjorie Dobratz
Professor, Nursing and Healthcare Leadership; RN; D.N.Sc., University of San Diego, 1990

Kathleen Shannon Dorcy
Senior Lecturer, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 2011

Denise Drevdahl
Associate Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 1996

Robin Evans-Agnew
Assistant Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 2011

About Fulfilling Admission Requirements
Students may fulfill requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description: [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individual and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.
Kären Landenburger  
Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 1987

June S. Lowenberg  
Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of California San Diego, 1985

Joane Moceri  
Assistant Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 2006

Sondra Perdue  
Senior Lecturer, Nursing and Healthcare Leadership; Dr.P.H., University of California, Los Angeles, 1985

Janet Primomo  
Associate Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 1989

Ruth Rea  
Associate Professor, Nursing and Healthcare Leadership; RNC.; Ph.D., University of Texas at Austin, 1987

Christine Stevens  
Associate Professor, Nursing and Healthcare Leadership; RN; M.P.H.; Ph.D., University of Washington, 2004

Cathy Tashiro  
Professor Emeritus, Nursing and Healthcare Leadership; RN; Ph.D., University of California San Francisco, 1998

Alexis Wilson  
Senior Lecturer, Nursing and Healthcare Leadership; RN; Ph.D., Union Institute Graduate College, 1977
The Institute of Technology at the University of Washington Tacoma was created to rapidly develop high-technology academic programs to serve the state of Washington. The Institute serves as the home for computer science, computer engineering and information technology programs. Through innovative partnerships with area companies, the Institute helps students gain practical work experience and meets continually changing industry needs. The Institute also provides services to attract and support students from diverse educational, economic and ethnic backgrounds.

The Institute of Technology was launched in 2001 through a combination of state and private investments. The Institute’s strong support—initially more than $5 million—from private citizens, corporations and the community has contributed to building facilities, classrooms and labs for the Institute, enhancing what the Institute’s state funding can provide in support of degree programs.

The Institute’s partnership with industry and professional leaders enhances what it offers students. As part of their degree programs, Institute students have opportunities for internships that expand their academic experience. Targeted elective courses are taught by practicing professionals bringing particular expertise and experience in the field.

Mission

The mission of the Institute of Technology is to provide the highest quality computing, engineering, science and technology education for a diverse population and engage in research and innovation that benefits the community by fostering social mobility and economic development.

Vision

The Institute of Technology is a unique public-private partnership in higher education that serves as a catalyst for generating energy and interest in computing science and engineering disciplines by:

- Addressing the need for well-educated bachelor’s and master’s-level computing and engineering professionals in numbers sufficient to support and fuel the growth of Washington’s high-tech industries.
- Providing Washington citizens access and opportunity to prepare for, and advance in, outstanding and rewarding technology careers.

Degree Programs

The Institute of Technology offers four undergraduate degrees:

- B.S. in Computer Engineering and Systems (see page 53)
- B.S. in Computer Science and Systems (see page 57)
- B.A. in Computer Science and Systems (see page 57)
- B.S. in Information Technology and Systems (see page 63)

and one graduate degree:

- M.S. in Computer Science and Systems (see page 165)

The Institute also offers two minors for students from other majors:

- Minor in Applied Computing (see page 144)
- Minor in Computer Science and Systems (see page 145)
Computer engineering began as a combination of computer science and electrical engineering but has evolved over the past three decades as a separate engineering discipline. At the University of Washington Tacoma, Computer Engineering and Systems integrates software and hardware engineering into a unified curriculum. The ABET-accredited program focuses on the design, development and testing of embedded systems applications.

Computer engineering is grounded in the theories and principles of computing, mathematics, science and engineering. These theories and principles are applied to solve technical problems involving the design of computing hardware, software, networks and processes.

**Mission**

The Computer Engineering and Systems program will educate each student to be a responsible and productive computer engineer who can effectively apply emerging technologies to meet future challenges.

**Program Objectives**

Objectives, as defined by the Accreditation Board for Engineering and Technology (ABET), are the abilities, skills and accomplishments expected of graduates within a few years of graduation. Accredited programs are required to assess their graduates’ accomplishments to determine if the objectives have been achieved. Since the objectives are typically broad, it is not expected that every graduate will achieve every objective. However, within three to five years of graduation from the CES program, it is expected that many graduates will have:

- Developed a product or process by applying their knowledge of mathematics, computing, systems and development tools
- Participated effectively as a member of a multi-disciplinary development team and undertaken a leadership role when appropriate
- Taken graduate courses or continuing education classes to improve their skills and abilities
- Made positive contributions to their community and society by applying skills and abilities learned during their undergraduate program in computer engineering and systems
- Made decisions related to their work that demonstrate an understanding of the importance of being an ethical engineering professional
- Applied their communication skills to effectively promote their ideas, goals, or products

**Program Educational Outcomes**

Outcomes are assessed periodically in a number of courses to determine if students are demonstrating proficiency in the ABET outcomes listed below:

a) Ability to apply knowledge of math, science and engineering
b) Ability to design and conduct experiments as well as to analyze and interpret data
c) Ability to design a system, component or process to meet desired needs
d) Ability to function on multi-disciplinary teams
e) Ability to identify, formulate and solve engineering problems
f) Understanding of professional and ethical responsibilities
g) Ability to communicate effectively
h) The broad education necessary to understand the impact of engineering solutions in a global and societal context
i) Recognition of the need for, and an ability to engage in, life-long learning
j) Knowledge of contemporary issues
k) Ability to use the techniques, skills and modern engineering tools necessary for engineering practice

**Lower-division Course Work**

During the first two years in the CES program, students are expected to complete the following courses:

- Calculus I, II and III; Differential Equations, and Matrix/Linear Algebra.
- 10 credits of Visual, Literary and Performing Arts (Humanities) course work.
- 10 credits of Individuals and Societies (Social Science) course work; microeconomics recommended.
- Minimum of 18 credits of lab-based science (Natural World) coursework to include calculus-based Physics I and II. Physics III is recommended but chemistry or biology may be substituted with adviser approval. If Physics I, II and III are completed and 18 credits are not achieved, the remaining credits may be satisfied by any lab-based science course.
- Two Object-Oriented Programming courses.
- 13 credits of engineering course work to include Introduction to Engineering I, II and III, Electrical Circuits and Introduction to Logic Design.

With adviser approval, transfer students may substitute science, engineering or mathematics courses for the Introduction to Engineering courses.

Students with previous baccalaureate degrees or extensive work experience should meet with an adviser to discuss options.
**Admission Requirements**

To qualify for admission to the Computer Engineering and Systems program, the following standards must be met:

- UW Tacoma students should have:
  - Completed a minimum of 40 college-level credits total
  - Cumulative GPA of at least 2.5 in all college course work
  - GPA of at least 2.5 in all college mathematics, science, computer science or engineering course work

- Transfer students who have earned 40 or more transferable college-level credits should have:
  - Cumulative GPA of at least 2.5 in all college course work
  - GPA of at least 2.5 in all college math, science, computer science or engineering course work

Students transferring from a community college to this program are strongly encouraged to follow the Associate of Science Transfer Track 2.

**How to Apply**

To apply to the Computer Engineering and Systems program, students must complete the online application (tacoma.uw.edu/apply).

**Transcripts**

Students must submit an official transcript from every college or university attended to the Office of Admissions. A high school transcript must be submitted only if a foreign language taken in high school is being used to meet the foreign language requirement.

**Curriculum**

The CES curriculum combines elements of electrical engineering and computer science in addition to mathematics and science. This combination of courses gives students the theoretical and practical foundations needed to solve problems in most aspects of computing.

**Computer Science Fundamentals**

- TCSS 305 Programming Practicum
- TCSS 342 Data Structures
- TCSS 360 Software Development and Quality Assurance Techniques

**Electrical Engineering Fundamentals**

- TCES 215 Electrical Circuits
- TCES 312 Electronics and Analog Systems

**Computer Systems**

- TCSS 371 Machine Organization
- TCSS 372 Computer Architecture
- TCSS 422 Computer Operating Systems

**Math / Theory**

- TCSS 321 Discrete Structures I
- TCES 310 Linear Systems and Transforms
- TMATH 390 Probability and Statistics

**Ethics and Society**

- TCSS 325 Computers, Ethics and Society

**Computer Engineering**

- TCES 101 Introduction to Engineering I
- TCES 102 Introduction to Engineering II
- TCES 103 Introduction to Engineering III
- TCES 230 Introduction to Logic Design
- TCES 330 Digital System Design
- TCES 430 Advanced Digital System Design
- TCES 455 Devices and Controls
- TCSS 465 Embedded Real-Time Systems
- TCES 481 Senior Design Project I
- TCES 482 Senior Design Project II

**Elective**

- 5 credits (may include TCES, TCSS, 500 level TCSS, directed reading, directed research or internship course)

The Computer Engineering and Systems degree program has fewer elective choices than most because both computer science and electrical engineering courses are required. It is important for students enrolled in this program to meet regularly with a program adviser and plan course work carefully.

**Research and Internship Opportunities**

Research, directed reading and internship opportunities allow senior-level students to explore their unique areas of interest complemented by the expertise of the faculty and industry. Industry partner internships at hardware and software development companies can give students a paid or unpaid work experience that complements the curriculum and often provide on-ramps to permanent employment in the high-tech workforce. While applying the theoretical and conceptual classroom knowledge to the practical work environment, the student creates relationships and gains a greater depth of understanding of his or her course work.

**Academic Standards**

The following standards apply to all students in the Computer Engineering and Systems program. These standards may apply in addition to other academic standards at the University of Washington Tacoma.

- Each English composition, math and science prerequisite course as well as each required CES and CSS course must be completed with a minimum grade of 2.0 before advancing to the next course. If a grade below 2.0 is earned, the course must be repeated. Course credit will be awarded only once, but both grades will be used in computing the grade point average.

- If a student does not achieve the required grade of 2.0 after repeating a required CSS or CES course, the student must request permission to take the course a third time. The petition to repeat a course and instructions are located on the Institute of Technology website at: www.tacoma.washington.edu/tech/docs/pet_sub_course.pdf.

- Students must complete all general education requirements other than English composition, math, science and CES courses with a minimum grade of 1.7. If a grade below 1.7 is received, the course does not have to be repeated but will not count towards graduation.

- Courses in the Computer Engineering and Systems program may not be taken by correspondence (distance learning) without prior approval of the associate director.

- Courses in the Computer Engineering and Systems program may not be taken as S/NS (satisfactory/not satisfactory).

*Applicants who fall below the GPA requirements will still be considered for conditional admission. Please contact an academic adviser for further information.*
To substitute a course in the major, Computer Engineering and Systems courses completed at other accredited four-year institutions may not be more than seven years old. If a student wishes to substitute a course, he or she must submit a Petition to Substitute a Course form (tacoma.uw.edu/institute-technology/undergraduate-resources) and supporting documents to an academic adviser for approval. If a course is more than seven years old, the student will be required to repeat the course at UW Tacoma. Credit will not be awarded twice for the same course.

Upper-division courses used for transfer credit are held to the 2.0 grade standard required for all courses for Computer Engineering and Systems.

Students changing to a Computer Engineering and Systems major from another major are required to meet program and academic performance requirements in effect at the time the major is changed.

Low Scholarship
Any undergraduate Computer Engineering and Systems student who is dismissed from the university for low scholarship will be removed from the Computer Engineering and Systems major.

After being removed from the Computer Engineering and Systems major, a student must re-apply for admission in order to continue as a CES student in any status, matriculated or otherwise. The Admissions Committee will evaluate the student’s application requesting re-admission, and any extenuating circumstances and will then recommend action.

Computing Labs
The Institute of Technology has dedicated laboratories containing specialized equipment to support its programs. These laboratories are accessible to admitted Institute of Technology students via assigned key card 24 hours a day, seven days a week.

Graduation Requirements

- Be a matriculated Computer Engineering and Systems student in good academic standing with the University of Washington Tacoma.
- Complete all Computer Engineering and Systems prerequisite and required course work with a minimum cumulative grade point average of 2.5 in those courses.
- Complete 180 credits. At least 85 credits must be upper-division (300–400 level) course work.
- Complete a minimum of 30 credits of CES required courses in residence at the University of Washington Tacoma.
- Complete 75 percent of CES elective courses in residence at the University of Washington Tacoma.
- Complete the final 45 credits in residence at the University of Washington Tacoma.
- Satisfy all of the general university graduation requirements, including five credits of English composition with a minimum grade of 2.0 (see page 22).
- Have a minimum cumulative grade point average of 2.0 in all UW Tacoma classes.
- Apply for graduation with an adviser by the application deadline posted by the Graduation and Academic Records Office for the expected date of graduation.

In addition to the general requirements for graduation, students earning the bachelor of science degree must also:

- Complete the specified 95 credits of required courses in the Computer Engineering and Systems major.

Students who are admitted to the Computer Engineering and Systems program with a baccalaureate or master’s degree must complete all required courses with a minimum grade of 2.0 and a total of 95 credits to qualify for a second bachelor’s degree. Elective credit requirements are waived. Please see University policy on transfer credit on page 22.

Students may petition the faculty, using the petition to substitute a course located online at tacoma.uw.edu/institute-technology/undergraduate-resources, for permission to use previous course work in place of courses. The waiver does not guarantee that credit will be awarded for a course; the petitioning student may be required to complete additional course work in place of the waived requirement.

Course Descriptions

For the most current course information, please consult the Institute of Technology website at tacoma.uw.edu/tech.

TCES 101
Introduction to Engineering I 1 credit
Introduces the product development life-cycle. Demonstrates how to use hardware and software development tools. Teaches how the components of an embedded system are controlled. Give experiences working as members of a development team.

TCES 102
Introduction to Engineering II 1 credit / Prerequisite: TCES 101 or permission of instructor
Introduces specification and design of engineering project by paring with seniors working on capstone projects. Provides experience participating in peer review of engineering documents. Gives more experience working on product development teams.

TCES 103
Introduction to Engineering III 1 credit / Prerequisite: TCES 102 or permission of instructor
Introduces implementation of engineering project by paring with seniors working on capstone projects. Introduces testing techniques for microprocessor-bases systems. Gives more experience working on product development teams.

TCES 215
Electrical Circuits 5 credits / Prerequisites: Minimum grade of 2.0 in TMATH 126 and TESC 122

TCES 230
Introduction to Logic Design 5 credits / Prerequisites: Minimum grade of 2.0 in either TCSS 142 or CSE 142
Examines Boolean algebra and logic simplification, design of combined logic for decoders and multiplexers, and design of sequential devices including registers, and counters. Analysis of devices for logic networks including, three-state, CMOS, programmable logic devices. Uses tools for schematic capture and circuit simulations. Introduction to state machines. Laboratory required.

TCES 310
Linear Systems and Transforms 5 credits / Prerequisite: Minimum grade of 2.0 either TCES 215 or E E 215
Extends circuit analysis technique to include dependent sources, power calculations, network topology, natural and forced response for RLC circuits, complex frequency, poles and zeros. Introduces Fourier series and Fourier, Laplace and z-transforms. Analyzes filters with z-transforms and difference equations.
TCES 312
Electronic and Analog Systems
5 credits / Prerequisites: Minimum grade of 2.0 in either TCES 215 or E E 215
Physics, characteristics, applications, analysis, and design of circuits using semiconductor diodes and field-effect transistors with an emphasis on large-signal behavior and digital logic circuits. Introduction to operational amplifiers, frequency analysis and response, and filters.

TCES 330
Digital Systems Design
5 credits / Prerequisites: Minimum grade of 2.0 in TCES 230 and TCSS 143
Examines digital system design fundamentals using programmable logic devices (PLDs). Uses Verilog to analyze and design complex digital systems based on field programmable gate arrays (FPGAs). Uses testing techniques to verify design and introduces operation of digital systems.

TCES 390
Undergraduate Seminar in Computer Engineering and Systems
(2 credits, max. 12)
Enhances problem-solving skills. Includes lectures and problem sessions in mathematics, programming, problem solving and CES applications. Credit/no credit only.

TCES 430
Microprocessor System Design
5 credits / Prerequisite: Minimum grade of 2.0 in TCES 330
Introduces hardware and software design techniques for microprocessor-based systems. Gives experience designing and implementing a system using current technology and components. Provides the opportunity to interface microprocessors to external devices. Gives experience using state-of-the-art development systems and procedures.

TCES 455
Devices and Controls
5 credits / Prerequisites: Minimum grade of 2.0 in TCES 310, TCES 312 and TCES 330
Teaches how to control motors and other physical actuators by delving into their theories of operation. Examines automatic control theory and provides experience using computers to control devices. Requires team projects in the laboratory.

TCES 481
Senior Project I
4 credits / Prerequisite: 2.0 in TCES 430 and TCES 455
Teaches how to prepare plans for the senior project. Explains parts of plan including: project definition, project requirements, preliminary design, and work schedule. Explains the need for addressing human factors, safety, reliability, maintainability, and customer cost. Provides experience preparing and presenting oral and written reports.

TCES 482
Senior Project II
5 credits / Prerequisite: Minimum grade of 2.0 in TCES 481
Focuses on design and implantation, testing, and demonstration of the capstone design project.

TCES 490
Special Topics
1-5 credits, max. 10
Examines current topics and issues associated with computing engineering and systems. Course open to declared Institute majors or minors only. Must be senior standing or obtain instructor permission.

TCES 497 *
Internship
1-10 credits, max. 10 / Prerequisite: TCES 330
Gives experience working in real-world engineering environment. Demonstrates how engineering processes are conducted within an organization. Course open to declared Institute majors or minors only. Must be senior standing or obtain instructor permission.

TCES 498 *
Directed Readings
1-10 credits, max. 10 / Prerequisite: TCES 330
Facilitates pursuit of knowledge in a specific area through readings of technical publications as specified in an agreement with the faculty supervisor. Course open to declared Institute majors or minors only. Must be senior standing or obtain instructor permission.

TCES 499 *
Undergraduate Research
1-10 credits, max. 10
Provides opportunities to pursue research in an area that is of interest. Gives experience specifying, designing, implementing, and evaluating a research project. Course open to declared Institute majors or minors only. Must be senior standing or obtain instructor permission.

* No more than 5 credits of any one of these courses may count toward graduation. No more than 5 total credits of independent study (TCES 497, TCES 498, and TCES 499) may count toward graduation.
The Computer Science and Systems (CSCI) program prepares students to enter the field of computer software design, development and maintenance. It provides students the theoretical grounding to promote lifelong evolution in the field while also preparing them to become effective innovators and entrepreneurs. The program also provides opportunities for the practicing professional to stay abreast of emerging theory and applications and is designed to accommodate students with previously earned degrees and work experience. It offers partnerships with leading software companies and professionals to advance the field through collaborative ventures, forums, research and internships.

Mission

The mission of the Computer Science and Systems program is to offer a high-quality undergraduate and graduate education to meet the needs of a diverse population of citizens and employers in Washington, especially in the South Puget Sound region.

Educational Objectives

Objectives are the abilities, skills and accomplishments graduates are expected to demonstrate within a few years of graduation. Program faculty assess their students’ accomplishments to determine if the established objectives have been achieved.

The Computer Science and Systems program has six objectives for its BS and BA graduates. The career path a graduate takes will affect the accomplishments they achieve but within three to five years after graduation they should have accomplished some of the following:

- Developed a product or process by applying knowledge of mathematics, computing, systems and development tools.
- Participated effectively as a member of a development team and undertaken leadership roles when appropriate.
- Taken graduate courses or continuing education classes to improve skills and abilities.
- Made positive contributions to community and society by applying skills and abilities learned during undergraduate program in computing.
- Made decisions related to work that demonstrate an understanding of the importance of being an ethical computing professional.
- Applied communication skills to effectively promote ideas, goals, or products.
- Ability to use current techniques, skills, and tools necessary for computing practice

Admission Requirements

To qualify for admission to the Computer Science and Systems program, applicants must meet the following standards:

- Completion of a minimum of 40 college-level credits.
- Cumulative GPA of at least a 2.0 in all college course work
- GPA of at least a 2.5 in all college math, science, computer science*

How to Apply

To apply to the Computer Science and Systems program, students must submit the online application which includes the following program documentation:

Personal Statement

Please address the following in the personal statement section of the online application:

- Reasons for pursuing this degree including interests and academic goals.
- Personal strengths and experiences that will contribute to your effectiveness in the program.
- If you have had any previous academic difficulties, please explain why they occurred and the steps you have taken to make sure you are successful in the future.

Transcripts

Students must submit an official transcript from every college or university attended. A high school transcript must be submitted only if a foreign language taken in high school is being used to meet the foreign language requirement.
**Minors**

Minors in Applied Computing and Computer Science and Systems are available to undergraduate students in other degree programs. Please see the “Minors and Certificates” section beginning on page 144.

**Bachelor of Science**

The bachelor of science in Computer Science and Systems emphasizes the theoretical foundation and practical experience necessary for a career in the challenging and rewarding profession of software development. The curriculum emphasizes the latest paradigms, languages and techniques of today’s practitioners while building a strong base to support lifelong learning in the field. It also prepares students to pursue graduate studies and provides continuing education to current professionals. Industrial partnerships provide opportunities for a wide variety of practical experiences that complement classroom teaching and research projects.

**Curriculum**

**Lower Division Course work**

Required for both BA and BS in CSS students.

- 15 credits of science and mathematics
- 5 credits each of calculus, statistics, and lab-based science (Physics recommended)
- 10 credits of Visual, Literary and Performing Arts course work.
- 10 credits of Social Science course work.
- 10 credits of Object-Oriented Programming (Java I & II)

Students with previous baccalaureate degrees or extensive work experience should meet with an adviser to discuss options. Please see university policy on transfer credit on page 22.

**Required courses**

- TCSS 305: Programming Practicum
- TCSS 321: Discrete Structures I
- TCSS 322: Discrete Structures II
- TCSS 325: Computers, Ethics and Society
- TCSS 342: Data Structures
- TCSS 343: Design and Analysis of Algorithms
- TCSS 360: Software Development and Quality Assurance Techniques
- TCSS 371: Machine Organization
- TCSS 372: Computer Architecture
- TCSS 422: Computer Operating Systems

**CSS senior electives**

Students must complete 25 credits of 400-level courses chosen from the Computer Science and Systems program; see course descriptions for listing. Students may also take up to 5 credits of a 400-level TINST, TINFO, TCES or 500-level TCSS course to count towards the total 25 credits of CSS electives.

**General electives**

Students must complete 15 credits of upper-division (300 or 400 level) general electives. The electives are expected to consist solely of courses outside the CSS program.

**Research and Internship Opportunities**

Research, directed reading and internship opportunities allow senior-level students to explore their unique areas of interest complemented by the expertise of the faculty and industry. Industry partner internships at software development design and implementation companies are dedicated to the students of the Institute and provide work experience, which complements the curriculum and can serve as on-ramps to the high tech workforce. While applying the theoretical and conceptual classroom knowledge to the practical work environment, the student creates relationships and gains a greater depth of understanding of his or her course work.

**Bachelor of Arts**

The bachelor of arts degree provides the student with an opportunity to experience more breadth in the academic experience, and to apply the fundamental concepts and technologies of computer science to another academic discipline. The main goal of this program is to provide an educational option for students who want a thorough and rigorous grounding in the principles of computing and technology, but will be “informed consumers” rather than “aggressive primary builders” of the technology.

**Curriculum**

**Required courses**

- TCSS 305 Programming Practicum
- TCSS 321 Discrete Structures I
- TCSS 325 Computers, Ethics and Society
- TCSS 342 Data Structures
- TCSS 360 Software Development and Quality Assurance Techniques

**BA required minor**

Students pursuing a bachelor of arts degree in CSS are required to choose a minor from one of UW Tacoma’s other academic programs. Minors consist of 20-30 credits in a focused area of study. Students will need to work closely with an academic adviser to map out a feasible schedule.

See the “Minors and Certificates” section starting on page 144.

**Academic Standards**

The following standards apply to all students in the Computer Science and Systems program. These standards apply to all major curricula and exist in addition to other academic standards at the University of Washington Tacoma.

- All required prerequisite and major courses (including TCSS 142 and 143) must be completed with a minimum grade of 2.0 before advancing to the next academic level. If a lower grade is received, the student must repeat the course. Course credit will be awarded only once but both grades are averaged together to compute the cumulative grade point average.

- If after repeating a required CSS course a student does not achieve the required grade of 2.0, the student must request permission to take the course a third time. The Petition to Repeat a Course form and instructions are located on the Institute of Technology website at: [tacoma.uw.edu/institute-technology/undergraduate-resources](http://tacoma.uw.edu/institute-technology/undergraduate-resources).

*Applicants who fall below the GPA requirements will still be considered for conditional admission. Please contact an academic adviser for further information.*
Students must complete all non-prerequisite general education courses outside the CSS major with a minimum grade of 1.7. If a grade below 1.7 is received in a non-prerequisite elective course, the course will not count towards graduation but the student is not required to repeat the same course.

Courses in the Computer Science and Systems program may not be taken by correspondence (distance learning) without prior approval of the program coordinator.

Courses in the Computer Science and Systems program may not be taken S/NS (satisfactory/not satisfactory).

Upper-division Computer Science and Systems courses completed at other accredited four-year institutions may be substituted for required major courses but may not be more than seven years old. If a course is more than seven years old, the student will be required to repeat the course at UW Tacoma. Credit will not be awarded twice for the same course.

Upper-division courses used for transfer credit are held to the 2.0 grade standard required for all courses in the Computer Science and Systems major.

Students changing to a Computer Science and Systems major from another major will be required to meet program and academic performance requirements in effect at the time the major is changed.

Low Scholarship
An undergraduate Computer Science and Systems major who is dismissed from the university for low scholarship is removed from the Computer Science and Systems major.

After being removed from the Computer Science and Systems major, a student must re-apply for admission to continue as a CSCI student in any status.

Computing Labs
The Institute of Technology has dedicated laboratories containing specialized equipment to support its programs. These laboratories are accessible to admitted Institute of Technology students via assigned key card 24 hours a day, seven days a week. Access to facilities is also available through Internet connections.

Graduation Requirements
To qualify for graduation with a baccalaureate degree in Computer Science and Systems from the University of Washington Tacoma, a student must:

- Be a matriculated Computer Science and Systems student in good academic standing with the University of Washington Tacoma.
- Complete all Computer Science and Systems prerequisite and required course work with a minimum cumulative grade point average of 2.5 in those courses.
- Complete 180 credits. At least 85 credits must be upper-division (300-400 level) course work.
- Complete a minimum of 30 credits of CSCI required courses in residence at the University of Washington Tacoma.
- Complete 75 percent of CSCI elective courses in residence at the University of Washington Tacoma.
- Complete the final 45 credits in residence at the University of Washington Tacoma.
- Satisfy all of the general university graduation requirements, including five credits of English composition with a minimum grade of 2.0 (see page 22).
- Have a minimum cumulative grade point average of 2.5 in all UW Tacoma classes.
- Apply for graduation with an adviser by the application deadline posted by the Graduation and Academic Records Office for the expected date of graduation.

In addition to the general requirements for graduation, students earning the bachelor of science degree must also:

- Complete the required courses in the Computer Science and Systems major.
- Complete 25 credits of 400-level Computer Science and Systems senior electives.
- Complete 15 credits of upper division (300 or 400 level) general electives. The electives are expected to consist solely of courses outside the CSS program.

In addition to the general requirements for graduation, students earning the bachelor of arts degree must also:

- Complete the specified 30 credits of required courses in the Computer Science and Systems bachelor of arts major.
- Complete 20 credits of 400-level Computer Science and Systems senior electives.
- Satisfy the requirements for a declared UW Tacoma minor.

Post-baccalaureate students who are admitted to the Computer Science and Systems program are required to complete the required and senior elective courses with a minimum cumulative grade point average of 2.5. Elective credit requirements are waived. Students may petition the faculty, using the petition to substitute a course located online at www.tacoma.washington.edu/tech/docs/pet_sub_course.pdf, for permission to use previous course work in place of required courses. Courses may not be more than seven years old. The petition does not guarantee that credit will be awarded for a course; the petitioning student may be required to complete additional course work in place of the waived requirement.

Course Descriptions
For the most current course information, please consult the Institute of Technology website at tacoma.uw.edu/tech.

TCSS Courses
TCSS 142
Introduction to Object-Oriented Computer Programming
5 credits / Prerequisite: Minimum grade of 2.0 in either MATH 120, MATH 121, or MATH 120, a score of 154-163 on MPT-AS test, or a score of 2 on AP exam
Introduces the design and implementation of computer programs. Includes an introduction to program structure, data types, and object-oriented design. [N][Q]

TCSS 143
Fundamentals of Object-Oriented Programming Theory and Application
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 142 or CSE 142
Develops fundamental concepts and techniques for analysis, design, and implementation of computer programs using an object-oriented language. Includes recursive techniques and simple data structures. [N][Q]

TCSS 305
Programming Practicum
5 credits / Prerequisites: Minimum grade of 2.0 in TCSS 143 or CSE 143
Provides a practicum in program design and development. Programming practice on a medium-scale, object-oriented application, consolidating prior programming principles and expanding knowledge of application design. [N][Q]

TCSS 321
Discrete Structures I
5 credits / Prerequisites: Minimum grade of 2.0 in either TCSS 143 or CSE 143
Introduces definitions and tools for reasoning about discrete mathematical objects useful for computer professionals, including set theory, propositions and predicates, Boolean algebra, sequences, enumeration, algorithms, methods of proof, and relations. [N][Q]
TCSS 322 Discrete Structures II
5 credits / Prerequisites: Minimum grade of 2.0 in TCSS 321
Covers advanced topics in discrete mathematics including advanced counting techniques, relations, graphs, trees and models of computation such as finite state machines and Turing machines. [N][Q]

TCSS 325 Computers, Ethics and Society
5 credits / Prerequisites: Minimum grade of 2.0 in either TCSS 143; CSE 143; T INFO 300; T INST 311; or T INST 312; 10 credits of writing coursework
Analyzes social, political, and ethical implications of computer and information technologies. Covers Western ethical theories, professional ethics, and diverse topics in computer ethics. Emphasizes writing and the construction of ethical arguments. [I][V]

TCSS 342 Data Structures
5 credits / Prerequisites: TCSS 305; a minimum grade of 2.0 in TCSS 321
Covers abstract data types, design and complexity analysis of data, and usage of generic data structure libraries in high-level programming languages. Includes sequential and linked lists, binary trees and balanced binary trees, B-trees, hash tables, and heaps.

TCSS 343 Design and Analysis of Algorithms
5 credits / Prerequisites: Minimum grade of 2.0 in TCSS 322; a minimum grade of 2.0 in TCSS 342; a minimum grade of 2.0 in either TMATH 124 or MATH 124
Develops competencies associated with problem solving, algorithms and computational models. Explores developing reusable, object-oriented software using design patterns, and practices applying them. Also explores algorithm analysis and design, and computational complexity. Includes efficient algorithms, models of computation, correctness, time and space complexity, NP-complete problems and undecidable problems.

TCSS 360 Software Development and Quality Assurance Techniques
5 credits / Prerequisites: Minimum grade of 2.0 in TCSS 342 and 10 credits of writing course work
Covers how to build quality software using standard development practices and representations. Includes writing and using requirements, designing and representing computational units, rigorous program testing, reviews and inspections, and working effectively in teams.

TCSS 371 Machine Organization
5 credits / Prerequisite: Minimum grade of 2.0 in either TCSS 143 or CSE 143
Develops the hardware basis for computing systems, and the relationship between hardware and software. Covers number representations, digital logic, machine organization, instruction set architecture and assembly language programming. Includes an introduction to the C programming language and its translation into machine instructions.

TCSS 372 Computer Architecture
5 credits / Prerequisites: minimum grade of 2.0 in TCSS 371; TCSS 342, which may be taken concurrently
Covers the micro architecture level of machine design and advanced architecture features for performance enhancement. Subjects include bus, memory and CPU design, hardware support for operating systems, CISC/RISC architectures, and parallelism.

TCSS 390 Undergraduate Seminar in CSS
2 credits (max. 12)
Enhances problem-solving skills. Topics and approaches vary. Includes lectures and problem sessions in mathematics, programming, problem solving, and CSS applications. Credit/no credit only. Credit does not satisfy CSS degree requirements.

TCSS 422 Computer Operating Systems
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 342 and TCSS 372
Examines the fundamental concepts of operating systems and how they function. Includes process management, memory management, file systems, concurrency, inter-process communication, graphical interfaces, and security.

TCSS 430 Networking and Distributed Systems
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 360 and 422
Computer network architectures and protocol layers, including LANs, MANs and WANs, OSI protocol TCP/IP, routing, congestion, and flow control; data compression; interface between the network and the program (e.g., sockets, ports, mailboxes), security issues (including authentication and authorization, encryption), distributed file systems and remote procedure calls.

TCSS 431 Network Security
5 credits / Prerequisites: Minimum grade of 2.0 in TCSS 321, TCSS 325 and TCSS 371
Covers cryptographic methods including public and private key algorithms. Examines protocols that utilize such methods, such as secure email, digital signatures, authorization, e-voting and electronic cash. Includes lab component for demonstration of security techniques such as firewalls, intrusion detection systems and virtual private networks.

TCSS 435 Artificial Intelligence and Knowledge Acquisition
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 360
Introduction to the uses of intelligence theories, techniques, and tools. Foundational material includes search, knowledge representation, machine learning, and planning. Artificial intelligence techniques applied to practical problems in areas such as control systems, optimization, scheduling, and classification.

TCSS 437 Mobile Robotics
5 credits / Prerequisites: Minimum grade of 2.0 in either TCSS 360 and TCSS 422
Covers the theory and practice of developing algorithms for motion control, navigation, obstacle and avoidance and mobile autonomous robotic devices. Using robotic construction kits, students build and program sophisticated mobile robots. Introduces principles of designing and programming embedded, real-time systems.

TCSS 440 Formal Models in Computer Science
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 343
Covers languages, finite automata, regular expressions, context-free grammars, and other automata such as pushdown store machines and Turing machines. Includes models of computation, computable and non-computable functions, non-determinism, space and time complexity, tractable and intractable functions, non-determinism, space and time.

TCSS 445 Database Systems Design
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 360
Fundamental concepts, system organization, and implementation of database systems. Methods for obtaining requirements and designing database systems; differences between hierarchical, relational, and network database designs; file organizations and data structures; structured query language (SQL); query optimization; database design; concurrency control; security; issues involving distributed database systems.
TCSS 452  
Human-Computer Interaction  
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 342  
Examines human-centered design of interactive systems. Focuses on understanding user needs, brainstorming, sketching, choosing from among design alternatives, prototyping, usability testing, representing, communicating, and critiquing designs.

TCSS 458  
Computer Graphics  
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 342  
Introduction to the main concepts in image synthesis, modeling and animation. Topics include displays, drawing and rendering algorithms, geometric transformations, 2-D and 3-D viewing, objects representation and computer animation. [N]

TCSS 460  
Client/Server Programming for Internet Applications  
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 360  
Examines the languages and techniques for internet client/server application programming. Includes languages like CGI, Perl, XML, JavaScript, and DHTML, and topics like scripts, queries, forms, data access, redirection, firewalls, proxies, hypermedia, cookies, and gateways.

TCSS 465  
Embedded Real-Time System Programming  
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 422  
An examination of theory and practice in designing software embedded in electronic devices and controllers. Includes clocks, threads, multitasking, critical sections, monitors, scheduling, on-chip and external device interfacing, communications and fault tolerance.

TCSS 466  
Computer-Mediated Communications  
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 325 and TCSS 360  
Examines the uses of computer and communications technologies, including application implementations, for supporting human-to-human communications in both personal and social contexts. Includes topics from sociological and psychological aspects needed to design effective systems.

TCSS 470  
Software Re-engineering  
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 360  
Examines concepts and techniques for re-engineering software systems to meet new requirements without performance risk. Includes comparisons of agile processes, CASE (Computer-Aided Software Engineering) tools, refactoring, defensive design techniques and software tools for software evaluation. [Q]

TCSS 480  
Comparative Programming Languages  
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 342  
Study and comparison of several programming languages in regards to data structures, operations, notation and control. Examines programming paradigms, implementation strategies, programming environments and programming style.

TCSS 481  
Computer Security  
5 credits / Prerequisites: Either T INST 312, which may be taken concurrently, or a minimum grade of 2.0 in both TCSS 342 and TCSS 325  
Discusses the theoretical and practical issues surrounding computer security and data protection. Explores formal models of encryption and authentication; operating system and network security; programming and vulnerabilities analysis.

TCSS 490  
Special Topics  
5 credits, max. 10  
Examines current topics and issues associated with computing and software systems. Course open to declared Institute majors or minors only. Must be senior standing or obtain instructor permission.

TCSS 491  
Computational Worlds  
5 credits / Prerequisite: Minimum grade of 2.0 in TCSS 458  
Development of large-scale software project in advanced imaging involving computational intelligence and artificial life applied to such fields as game development or virtual reality. Students work in interdisciplinary teams that integrate several computer science areas. Advanced topics: game programming, artificial life, virtual humans and computer animation.

TCSS 497 *  
Internship in CSS  
1-10 credits, max. 10 / Prerequisites: TCSS 360 or permission of instructor  
Completion of project as delineated in a contract among student, faculty adviser and community sponsor.

TCSS 498 *  
Directed Readings in CSS  
1-5 credits, max. 10 / Prerequisites: TCSS 360 or permission of instructor  
Readings in Computer Science and Systems as specified in a contract with faculty member.

TCSS 499 *  
Undergraduate Research  
1-10 credits, max. 10 / Prerequisites: TCSS 360 or permission of instructor  
Design and implementation of a research study as specified in a contract with a faculty member.

T INST 100  
Fluency in Information Technology  
5 credits  
Introduces skills, concepts and capabilities necessary to effectively use information technology. Includes logical reasoning, managing complexity, operation of computers and networks, and contemporary applications such as effective Web searching and database manipulation, ethical aspects and social impacts of information technology. Not available for credit to students who have completed TCSS 142. [Q]

T INST 207  
Living and Working in a Virtual World: Technologies of the World Wide Web  
3 credits  
Explores some of the important technological principles underlying the World Wide Web as it pertains to the creation and maintenance of virtual communities and the access to information. Provides a deeper understanding of how these principles can empower one to live effectively in a virtual community. [I]

T INST 310  
Computational Problem Solving  
5 credits  
Covers the fundamental framework for developing computational solutions to a variety of problems encountered in the world. Explores methods of analyzing and characterizing problems, and of developing a computational solution. Introduces computer programming and explores and compares various types of programming methods. Not open to CSCI majors. [Q]

T INST 311  
Database Management and Data Analysis  
5 credits  
Covers methods for transforming data into information through a database management system, how to query it interactively, how to visualize it in a meaningful way, how to share it on the Internet and how to analyze it. Not open to CSCI majors. [Q]

T INST 312  
Computer Networks and the Internet  
5 credits / Recommended: T INST 310  
Presents the impact of network computers on society. Introduces a variety of Web development technologies for producing dynamic websites. Provides a practical approach to solve Web development problems in a wide range of application areas. Not open to CSCI majors. [Q]

* No more than 10 credits of any one of these courses may count toward graduation. No more than 15 total credits of independent study (TCES 497, TCES 498, and TCES 499) may count toward graduation.
T INST 401  
Technology in the Service of Society: Integration of Technology and Social Interests  
5 credits  
Explores the use of technologies as one essential component in solving globally important problems. Emphasis may vary to focus on such issues as the global commons, economic inequities and population dynamics. Examines public policies that impact technological development. [I]

T INST 475  
Entrepreneurship in Computer Science and Systems  
5 credits / Prerequisite: Either TCSS 360 or T INST 310; may not be repeated after achieving a minimum grade of 2.0  
A study of the process of developing a product or service in the field of Computer Science and Systems, preparing a plan for commercialization, and implementing that plan.

T INST 490  
Special Topics in Applied Computing  
5 credits  
Examines current topics and issues associated with applied computing.

T INST 493 Technology and Society: A Global Perspective Study Abroad  
12 credits  
Examines and analyzes the complex relationship between technology and society in both global and historical perspectives. Specific topics include the technological achievements of Ancient Rome, subsequent technological developments in Asia, Europe and America, the Industrial and Information Revolution, and the challenges presented by the world's new economic order. Study abroad in Italy. [I][IV]

T INST 498  
Directed Readings in Applied Computing  
1-5 credits / Prerequisite: T INST 310  
Readings as specified in agreement with a faculty member. Consultation with a professor in a student's major is encouraged.

T INST 499  
Research in Applied Computing  
1-5 credits / Prerequisite: T INST 310  
Design and implementation of a research study as specified in a contract with a faculty member.

Faculty

Robert Friedman  
Director and Associate Professor  
Institute of Technology; Ph.D., City University of New York, 1993

Menaka Abraham  
Lecturer, Institute of Technology; Computer Science; MS., Wright State University, 1998

Matthew Alden  
Lecturer, Institute of Technology; Computer Science; PhD., University of Texas at Austin, 2007

Yan Bai  
Assistant Professor, Institute of Technology; Computer Engineering; Ph.D., University of British Columbia, 2003

Orlando Baiocchi  
Professor, Institute of Technology; Electrical Engineering; Ph.D., University College in London, 1976

Senjuti Basu-Roy  
Assistant Professor, Institute of Technology; Computer Science; Ph.D., University of Texas at Arlington, 2011

Donald Chinn  
Associate Professor, Institute of Technology; Computer Science; Ph.D., University of Washington, 1995

Sam Chung  
Associate Professor, Institute of Technology; Computer Science; Ph.D., University of South Florida, 1995

Larry A. Crum  
Professor Emeritus, Institute of Technology; Electrical Engineering; Ph.D., Marquette University, 1971

Ling Ding  
Assistant Professor, Institute of Technology; Computer Science; Ph.D., University of Texas at Dallas, 2012

Barbara Endcott-Popovsky  
Adjunct Research Associate Professor, Institute of Technology; Computer Science, Computer Security; Ph.D., University of Idaho, 2007

Alan Fowler  
Lecturer, Institute of Technology; Computer Science; MS., University of Washington 2008

John Mayer  
Lecturer, Institute of Technology; Computer Science; Ph.D., University of Michigan, 1990

George Mobus  
Associate Professor, Institute of Technology; Computer Science; Ph.D., University of North Texas, 1994

Moshe Rosenfeld  
Professor Emeritus, Institute of Technology; Mathematics; Ph.D., Hebrew University of Jerusalem, 1967

Jie “Jenny” Sheng  
Assistant Professor, Institute of Technology; Electrical Engineering; Ph.D., University of Alberta, 2002

Victoria Stoddard  
Lecturer, Institute of Technology; Information Management; MS., University of Washington, 2007

Josh Tenenberg  
Professor, Institute of Technology; Computer Science; Ph.D., University of Rochester, 1988

Ankur Teredesai  
Associate Professor, Institute of Technology; Computer Science; Ph.D., University at Buffalo, State University of New York, 2002

Daniel Zimmerman  
Senior Lecturer, Institute of Technology; Computer Science; Ph.D., California Institute of Technology, 2002
The Information Technology and Systems (ITS) program provides an educational pathway for students who want to focus on computing technology that addresses the needs of the end user.

There is an urgent need for specialists who develop new information technologies and systems. There is a high demand for professionals who understand the importance of information workflow; how to use existing systems and tools to gather, manipulate, store, retrieve and manage information in all types of settings.

Information technology is the newest computing discipline recognized by the ACM, ABET, and IEEE. The ITS program differs from the existing CSCI and CES programs in the following ways:

- ITS places a greater emphasis on application, deployment, configuration and development than on the theory and principles of computing.
- The technology that manages information changes quickly as practitioners address real-world problems in industry, government and research. This program actively responds to the changes that reflect current trends in the information technology field.
- Our learning environment fosters independent critical thinking and problem solving skills, and emphasizes the need for the ability to analyze the impact of technology on individuals, organizations and society including ethical, legal and public policy issues.
- Every ITS graduate will gain valuable industry experience by participating in a mandatory internship. This provides students with real-world experiences of what to expect when they join the workforce and helps graduates “hit the ground running.”
- The ITS programs seeks students who are active learners, passionate about current trends in technology, and capable of achieving the goals of managing and supporting information technology systems.

### Mission

The mission of the Information Technology and Systems (ITS) program is to educate students to analyze, design, integrate and manage information systems using information technology. The ITS program will prepare graduates for meaningful professional careers to serve their local, state and national communities.

### Educational Objectives

The Information Technology and Systems program will produce graduates who are able to achieve the following objectives:

(a) Gain fundamental knowledge regarding technical concepts and practices in information technology and information systems.

(b) Gain a broad background across fundamental areas of information technology along with a depth of understanding in a particular area of interest within the domain of information systems.

(c) Demonstrate independent critical thinking and problem solving skills, with an ability to analyze the impact of technology on individuals, organizations and society including ethical, legal and public policy issues.

(d) Collaborate in teams to accomplish a common goal by integrating personal initiative and group cooperation.

(e) Gain skills to communicate efficiently with technical and nontechnical people in the information technology field using written and oral communication as well as gain skills and strategies for facilitating group projects and activities in collaboration with peers.

(f) Identify and evaluate current and emerging technologies and assess their applicability to address the users’ needs and recognize the need for continued learning throughout their career.

(g) Determine how information is inferred from data, and how decisions are made rationally on the basis of that information and ensure that data integrity and privacy is maintained as the organization processes information and acts on it.

(h) Prepare for graduate studies in information security, information systems, telecommunications, and other related information technology areas.

### Curriculum

The curriculum consists of three parts: Program prerequisites, a series of required core courses and senior ITS program electives.

#### Program Prerequisites

- TCSS 142 Introduction to Object-Oriented Programming (Java) (5)
- Mathematics requirement (5)
  - One of the following:
    - TMATH 124 Calculus with Analytic Geometry (5)
    - Pre-Calculus I & II at a community college

#### Core Courses (40 credits)

- TINFO 230 Foundations of Web Design and Programming (5)
- TINFO 250 Foundations of Information Networking (5)
- TINFO 300 Programming II for Information Technology and Systems (5)
- TINFO 310 Foundations of Information Management (5)
- TINFO 320 Foundations of Hardware and Software Systems (5)
The following standards apply to all students in the Information Technology and Systems program. These standards may apply in addition to other academic standards at the University of Washington Tacoma.

Each English composition, math and science prerequisite course as well as each required ITS course must be completed with a minimum grade of 2.0 before advancing to the next course. If a grade below 2.0 is earned, the course must be repeated. Course credit will be awarded only once, but both grades will be used in computing the grade point average.

If after repeating a required ITS course a student does not achieve the required grade of 2.0, the student must request permission to take the course a third time. The Petition to Repeat a Course form and instructions are located on the Institute of Technology website at: tacoma.uw.edu/institute-technology/undergraduate-resources.

Students must complete all general education requirements other than English composition, math, science and ITS courses with a minimum grade of 1.7. If a grade below 1.7 is received, the course does not have to be repeated but will not count towards graduation.

Courses in the Information Technology and Systems program may not be taken by correspondence (distance learning) without prior approval of the associate director of the program.

Courses in the Information Technology and Systems program may not be taken S/NS (satisfactory/not satisfactory).

To substitute a course in the major, Information Technology and Systems courses completed at other accredited four-year institutions may not be more than seven years old. If a student wishes to substitute a course, he or she must submit a Petition to Substitute a Course form (tacoma.uw.edu/institute-technology/undergraduate-resources) and supporting documents to an academic adviser for approval. If a course is more than seven years old, the student will be required to repeat the course at UW Tacoma. Credit will not be awarded twice for the same course.

Upper-division courses used for transfer credit are held to the 2.0 grade standard required for all courses for Information Technology and Systems.

Students changing to an Information Technology and Systems major from another major will be required to meet program and academic performance requirements in effect at the time the major is changed.

Graduation Requirements

To qualify for graduation with a bachelor of science degree in Information Technology and Systems from the University of Washington Tacoma, a student must:

Be a matriculated Information Technology and Systems student in good academic standing with the University of Washington Tacoma.

Complete 180 credits, of which at least 85 must be upper-division (300-400 level) course work.

Complete a minimum of 45 credits of the required ITS courses in residence at the University of Washington Tacoma.

Satisfy all of the general university graduation requirements, including five credits of English composition with a minimum grade of 2.0 (see page 22).

Have a minimum cumulative grade point average of 2.0 in all classes and a minimum cumulative grade point average of 2.5 in all ITS and CSS classes.

Apply for graduation with an adviser by the application deadline posted by the Graduation and Academic Records Office for the expected date of graduation.

In addition to the general requirements for graduation, students earning the bachelor of science degree must also:

Complete the specified 80 credits of required courses in the Information Technology and Systems major.

Students who are admitted to the Information Technology and Systems program with a baccalaureate or master’s degree must complete all required courses with a minimum grade of 2.0 and a total of 95 credits to qualify for a second bachelor’s degree. Elective credit requirements are waived. Please see University policy on transfer credit on page 22.

Students may petition the faculty, using the petition to substitute a course located online at www.tacoma.washington.edu/tech/docs/pet_sub_course.pdf, for permission to use previous course work in place of courses. The waiver does not guarantee that credit will be awarded for a course; the petitioning student may be required to complete additional course work in place of the waived requirement.

Course Descriptions

For the most current course information, please consult the Institute of Technology website at tacoma.uw.edu/tech.

T INFO 230 Foundations of Web Design and Programming
5 credits / Prerequisite: TCSS 142
Examines selected topics in technology for web design and programming, paying particular attention to client interactions on the World Wide Web. Studies unique concepts and technologies in developing client-side of a web-based information system such as XHTML, CSS, JavaScript, DOM, XML, AJAX, JSON and Web 2.0. [NI][Q]

T INFO 250 Foundations of Information Networking
5 credits
Explores computer networking and telecommunications fundamentals including LANs, WANs, intranets and the World Wide Web. Studies data communication concepts, models, and protocols. Practices installation, configuration, systems integration, and management of infrastructure technologies.

T INFO 300 Programming II for Information Technology and Systems
5 credits / Prerequisite: TCSS 142
Examines programming using traditional and visual development environments to learn event-driven, object-oriented design with emphasis on software development best practices for effective software maintenance and modernization. [NI][Q]

T INFO 310 Foundations of Information Management
5 credits
Covers fundamental data modeling and database implementation concepts. Topics include: Data modeling process, basic relational concepts, normalization, relational algebra, SQL, and guidelines for mapping a data model into a relational database. [Q]
T INFO 320 Foundations of Hardware and Software
5 credits
Examines functions of hardware and software systems. Topics include CPU, memory, registers, addressing modes, busses, instruction-sets, multi processors versus single processors; peripherals: Hard-disks and storage, display, device controllers, input/output; operating systems functions and types; process, memory and file system management; and examples and contrasts of hardware architecture and operating systems. [Q]

T INFO 340 Foundations of Information Assurance
5 credits
Studies the need for information security policies, standards, and procedures. Topics include: Trust models; security policy design and incident response; and tools and techniques to defend against, react to, and recover from a cyber attack.

T INFO 360 Foundations of Information Systems Analysis and Design
5 credits
Examines concepts and techniques for analyzing and designing software systems to meet maintenance and modernization requirements such as changes of business logics, integration, and computing paradigms. Topics include software aging, re-engineering, modeling, pattern, process, and cases.

T INFO 390 Undergraduate Seminar in Information Technology and Systems
2 credits, max. 12 credits
Enhances problem-solving skills. Includes lectures and problem sessions in mathematics, programming, problem solving, and ITS applications. Credit/no credit only. May not be used as TINFO elective credit.

T INFO 420 System Administration
5 credits / Prerequisite: ITS core courses
Examines system administration topics, focusing on platform integration, directory, authentication, user support services, and security issues. Examines concepts and utilize techniques in user and group administration, directory services, electronic system update and maintenance, backup and restoration strategies and techniques, integrated mass storage technologies, and alternative client technologies. [N][Q]

T INFO 431 Server Side Web Applications
5 credits
Examines selected topics in technology for client/server application, paying particular attention to client/server interactions on the WWW. Studies topics like multi-tier architecture, application server, database server, database middleware, forms, client-side programming, server-side programming, Component-Based Design (CBD), database programming for web application, rich client programming, and web services. [Q]

T INFO 441 Network Security
5 credits / Prerequisite: T INFO 340
Covers cryptographic methods including public and private key algorithms. Examines protocols that utilize secure email, digital signatures, authorization, e-voting and electronic cash. Examines the fundamentals of security issues arising from computer networks. Includes lab component for demonstration of security techniques such as firewalls, intrusion detection systems, and virtual private networks. [Q]

T INFO 442 Computer Security
5 credits / Prerequisite: T INFO 340
Discusses the theoretical and practical issues surrounding computer security and data protection. Explores formal models of encryption and authentication. Examines operating system and program security with vulnerabilities analyses. Includes a lab component for demonstrating computer security techniques such as malware analysis, and access control. [N][Q]

T INFO 445 Digital Forensics
5 credits / Prerequisite: T INFO 340
Explores the many facets of computer forensics and network security. Examines intrusion detection, evidence collection and presentation, network auditing, and network security policy design and implementation. Examines the issues and facilities available to the intruder and data network administrator and incorporates hands-on exercises. [N][Q]

T INFO 451 Routing and Switching
5 credits / Prerequisite: minimum grade of 2.0 in both T INFO 320 and T INFO 350
Examines design and implementation methods of TCP/IP internetworks. Demonstrates techniques for connecting computers in a network and connecting separate networks to form an inter-network. Investigates bridging and switching concepts as well as routing protocols and algorithms.

T INFO 453 Wireless Networking
5 credits
Examines the fundamental principles underlying wireless communications and networking. Topics include wireless transmission principles, protocols, satellite communications, cellular wireless networks, cordless systems, mobile IP, and wireless networking technologies, including IEEE 802.11 and Bluetooth standards.

T INFO 481 Senior Project I
5 credits / Prerequisite: T INFO 340
Under faculty supervision, each student prepares a plan for his/her capstone design project. The plan includes project definition, project requirements, preliminary design, and work schedule. Requirements and design address human factors, safety, reliability, scalability, and customer cost. Requires oral and written reports.

T INFO 482 Senior Project II
5 credits / Prerequisite: T INFO 481
Focuses on detail, implementation, testing, deployment, maintenance, and demonstration of the capstone design project. Requires written and oral reports and creation of a final project binder.

T INFO 490 Special Topics in Information Technology and Systems
1-5 credits, max. 10 credits
Examines current topics and issues associated with information technology and systems.

T INFO 497 * Internship
1-5 credits, max. 10 credits / Prerequisite: T INFO 340
Gives experience working in a real-world information technology environment. Demonstrates how the life cycle of information technology and systems such as maintenance, modernization, replacement, etc. is conducted within an organization. The topics should be carried to Senior Project II in ITS.

T INFO 498 * Directed Readings
1-5 credits, max. 10 credits
Examines current topics and issues associated with information technology and systems.

* No more than 10 credits of any one of these courses may count toward graduation. No more than 15 total credits of independent study (T INFO 497, T INFO 498, and T INFO 499) may count toward graduation.

About Fulfilling Admission Requirements
Students may fulfill requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description: [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.
T INFO 499 *
Undergraduate Research
1-5 credits, max. 10 credits / Prerequisite: TINFO 340
Provides opportunities to pursue research in a specific area that is of interest. Gives experience specifying, designing, implementing, and evaluating a research project.

Faculty

Robert Friedman
Director and Associate Professor
Institute of Technology; Ph.D., City University of New York, 1993

Yan Bai
Assistant Professor, Institute of Technology; Electrical and Computer Engineering; Ph.D., University of British Columbia, 2003

Orlando Baiocchi
Professor, Institute of Technology; Electrical Engineering; Ph.D., University College in London, 1976

Senjuti Basu-Roy
Assistant Professor, Institute of Technology; Computer Science; Ph.D., University of Texas at Arlington, 2011

Sam Chung
Associate Professor, Institute of Technology; Computer Science; Ph.D., University of South Florida, 1995

Marc Dupuis
Lecturer, Institute of Technology; Information Science; M.S., University of Washington, 2011

Stephen Rondeau
Lecturer, Institute of Technology; B.S., Computer Science, Clarkson University, 1981

Josh Tenenberg
Professor, Institute of Technology; Computer Science; Ph.D., University of Rochester, 1988

Ankur Teredesai
Associate Professor, Institute of Technology; Computer Sciences; Ph.D., University at Buffalo, State University of New York, 2002
Interdisciplinary Arts and Sciences is an evolving, culturally relevant course of study grounded in a respect for diversity and responsive to the needs and desires of the communities around us. We create an atmosphere in which we promote academic excellence by encouraging students to think, write and speak in ways that enhance their own development, their sense of community and their ability to deal with problems of injustice and equality, as well as their dedication to positive change.

About the degree program

Interdisciplinary Arts and Sciences offers three degrees:

- Bachelor of arts degree
- Bachelor of science degree in Environmental Science
- Master of arts degree in Interdisciplinary Studies

The Interdisciplinary Arts and Sciences curriculum is a program of study in the humanities, social sciences and natural sciences. The focus of the curriculum is the comparative study of peoples, groups, societies, cultures and environments within the United States and selected regions of the world. To provide an interdisciplinary and comparative basis for the study of different groups, societies and cultures, the Interdisciplinary Arts and Sciences curriculum is organized around three general dimensions: Culture and Ideas (Fine Arts and Humanities), Society and the Individual (Social Sciences) and The Natural World (Natural Sciences).

The goals of the Interdisciplinary Arts and Sciences curriculum are to help students:

- Develop proficiency in skills such as writing and critical thinking that are needed for productive careers and gain mastery of a broad curriculum in the humanities, social sciences and environmental science
- Achieve knowledge of the theories, concepts and methods of cross-cultural analysis
- Understand the complexity of relations between groups, societies, cultures and natural environments, the history of these relations and the forces of social change
- Gain a knowledge and appreciation of cultures other than their own while exploring the expression of cultural identity, thought and beliefs through literature and the other arts
- Build experience in the analysis of environmental issues and their scientific basis

Bachelor of Arts

Interdisciplinary Arts and Sciences offers a bachelor of arts degree with majors in:

- American Studies
- Arts, Media and Culture
- Communication
- Environmental Studies
- Ethnic, Gender and Labor Studies
- Hispanic Studies
- History
- Interdisciplinary Arts and Sciences
- Law and Policy
- Politics, Philosophy and Economics
- Psychology
- Writing Studies: Creative Writing Track

IAS policy on multiple majors

Students wishing to pursue multiple majors with a bachelor of arts degree must complete 45 unique credits in each IAS major. If a course can count in more than one major, students may choose which major it should count under.
Concentrations
The bachelor of arts in Interdisciplinary Arts and Sciences is also offered with concentrations in:

- Global Studies
- Individually-Designed Concentration

Minors
Interdisciplinary Arts and Sciences offers minors in the following areas:

- Asian Studies
- Economics
- Education
- Environmental Studies
- Hispanic Studies
- Human Rights
- Law and Policy
- Mathematics
- Museum Studies
- Nonprofit Management
- Politics
- Public History
- Restoration Ecology

Certificates are offered in:

- Geographic Information Systems (GIS) (offered jointly with Urban Studies)
- Nonprofit Management
- Restoration Ecology

For more information, please see the “Minors and Certificates” section beginning on page 144.

Admission Requirements
Interdisciplinary Arts and Sciences admits students with:

- General University Requirements (see page 22)
- Completion of mathematics through intermediate algebra with a 2.0 GPA for transfer students
- Completion of a minimum of 45 transferable college-level credits
- Minimum 2.0 GPA

The psychology, Hispanic studies, writing studies and communication majors have additional prerequisite course work that must be completed before declaring these majors. The prerequisite courses can be taken at UW Tacoma. Please see the major sections for details.

How to Apply
When Interdisciplinary Arts and Sciences is fully enrolled and there are more qualified applicants than can be accommodated, admission will be competitive and applicants will be evaluated on three principal criteria:

- Appropriateness of academic preparation for the degree program
- Likelihood of success in the degree program
- Relationship between the degree program and academic or career plans and opportunities

Applicants should submit completed applications by the application deadline for the quarter. Early applications are encouraged.

A completed application includes the Application for Transfer Admission, application fee, one official transcript from each college or university attended (and a high school transcript if using high school credit to fulfill admission requirements), a personal statement including life and career goals and how the IAS degree will help advance those goals. Each personal statement is reviewed carefully and is an important component of the IAS holistic admission review. Personal statements should be a reflection of an applicant’s best writing.

Transferring to UW Tacoma
Most of the majors and concentrations in IAS blend well with a broad base of courses in the first two years, similar to what an associate in arts or science degree from a Washington state community college would provide.

Review the individual major/concentration requirements in the following pages to learn more about specific prerequisites. Psychology, Communication, Writing Studies and Hispanic Studies have prerequisites that must be fulfilled before declaring these majors.

Advising
Students are strongly encouraged to meet with an adviser in the Academic Advising Center (Joy 214) or a faculty adviser early in their careers at UW Tacoma. Advisers can:

- Help students select a concentration and determine a plan of study
- Provide guidance on selection of courses
- Offer advice about resources available to help students succeed academically
- Assist students in identifying career and educational goals
- Help students plan internships and independent studies and apply for graduation.

In addition, the IAS program is growing rapidly, and an appointment with an adviser can help determine if new courses are applicable to the student’s concentration requirements.

Independent Study Courses

Independent study courses are intended for students to do advanced work in a special area of study normally not offered in the regular curriculum. Students may enroll in these courses only after receiving written permission from the instructor who has agreed to supervise the student’s work. A total of no more than 15 credits of internships, senior thesis, directed readings and undergraduate research may be applied toward the bachelor of arts degree requirements. (A maximum of 10 credits of internships may count toward the bachelor of arts degree.)

Graduation Requirements

To be eligible for graduation with the bachelor of arts degree, each student enrolled in the program must meet the UW Tacoma scholastic standards (2.0 UW GPA), credits required (minimum 180) and the final-year residency requirement outlined on page 29, and complete the following program requirements:

- Complete all general education requirements not met with transfer courses. See adviser for details.
Complete a minimum of 45 credits of Interdisciplinary Arts and Sciences course work. Some majors or concentrations may require more.

Complete a minimum of 45 credits of upper-division course work, including transfer courses and UW Tacoma courses.

Complete 5 credits of English composition with a minimum 2.0 grade. This must be completed in a student’s first two quarters at UW Tacoma.

Complete the requirements for a major or concentration (minors are optional).

No more than 15 elective credits can be taken for a Satisfactory/Not Satisfactory grade. See adviser for details.

Complete at least 45 of last 60 credits in residence at the University of Washington Tacoma.

Compile a portfolio of work completed during the course of the student’s residence at UW Tacoma and submit it for review during the second week of the student’s last quarter of enrollment.

Meet with an adviser to complete a graduation application no later than the second week of the quarter in which the student plans to graduate.

Interdisciplinary Arts and Sciences Honors

IAS seniors may apply to graduate “with honors” in IAS. To begin the process, students should talk to an IAS staff or faculty adviser. The IAS honors option is different from, but can be pursued alongside, other UW Tacoma honors distinctions such as baccalaureate and faculty honors and various honor societies.

To qualify to graduate with honors in IAS, a student must:

- Have earned a 3.7 cumulative GPA at the time of application and at graduation.
- Submit a formal application to the IAS office.
- Meet all program and major or concentration graduation requirements.
- Write a graded senior honors thesis (10 credits, typically over two quarters—research the first quarter, writing the second). The honor thesis is to be arranged between the student and any full-time IAS faculty member.

Study Abroad

Interdisciplinary Arts and Sciences faculty lead a number of study-abroad trips each year to places like Cuba, Mexico, Rome, Costa Rica, Italy, Russia, the United Kingdom and the Far East. Students tour museums, visit historical sites, learn about art and culture, study language, attend lectures and workshops, carry out research projects and experience daily life in a different culture. These programs range in length from one week to one month, and satisfy requirements in numerous majors.

For details, visit the International Programs website at tacoma.uw.edu/travel or talk to an academic or faculty adviser.

majors and Concentrations

The bachelor of arts degree is offered with the choice of the following majors and concentrations.

Major in American Studies

American Studies students can pursue a variety of subjects and themes within an American context. American Studies allows students to examine cultural, artistic, political and economic patterns in the United States and explore diverse aspects of American experience. Students may also focus on specific subjects such as ethnicity or religion, or on particular modes of inquiry, such as those found in social science, history, or the study of literature, media and the arts.

American Studies is recommended for students interested in careers in media, education, government, business, nonprofit agencies and law. Depending on the focus students choose, they may pursue graduate studies in related disciplines.

Graduation requirements

Requires 55-65 credits total including a minimum of 30 credits of upper-division major course work. Overall, 45 upper-division credits and 45 credits of IAS courses are required to graduate.

- 10 credits of Core Courses:
  - T HIST 200 American History I: 1607-1877
  - T HIST 201 American History II: 1877-present
  Must be completed during first 45 UW Tacoma credits.

- 40 credits of American Focus courses
  - Minimum one Individual and Society (I&S) and one Visual, Literary and Performing Arts (VLPA) course
  - T ANTH 363 North American Indian Traditions
  - T ANTH 464 Native American Cultural Areas
  - T ARTS 210 Africa Diaspora Through Music: The Rhythm, the Blues and Beyond

T ARTS 311 History of Rock and Roll
T ARTS 315 Music and Crisis
T ARTS 411 History of Jazz
TCOM 201 Media and Society
TCOM 257 Ethical Issues in Mass Communication
TCOM 258 Children and Television
TCOM 353 Critical Approaches to Mass Communication
TCOM 354 Communication History
TCOM 444 Gender, Ethnicity, Class, and the Media
TCOM 454 Communications Law
TECON 416 Current Issues in US Public Policy
TECON 420 Economics of Education
TECON 421 Environmental Policy
TECON 422 Economics of Sports
TESC 247 Maritime History and Science in the Pacific Northwest
TESC 343 The Atmosphere and Air Pollution
TESC 345 Pollution and Public Policy
TESC 434 Biology, History, and Politics of the Salmon in the Pacific Northwest
TFLM 485 Media Genres
TGEOG 403 Geography of the USA and Canada
T HISP 238 Hispanics in the United States
T HIST 220 African American History 1619-1865
T HIST 221 African American History 1865-1945
T HIST 222 African American History 1945-Present
T HIST 226 American Architecture
T HIST 315 Industrialization and Reform
T HIST 320 Asian American History
T HIST 322 American Labor Since the Civil War
T HIST 333 Early American Music, Art, Literature, and Theater
T HIST 336 Black, Labor, and Protest Music in Historic Perspective
T HIST 340 History of the United States - American Indian Relations
T HIST 341 African American History
T HIST 349 Minorities in Higher Education in American History
T HIST 377 Art of the Americans
T HIST 410 Early American Politics, Constitution and Law
T HIST 411 History of Religion in American
T HIST 412 Civil Rights, Civil Liberties
T HIST 416 Life and Thought: Martin Luther King, Malcolm X, Angela Davis
T HIST 417 United States History 1865-1945
T HIST 419 African American Culture and Consciousness
T HIST 420 African American Religious History
T HIST 430 Introduction to Public History
T HIST 437 Doing Community History
T HIST 440 Black Labor in American
T HIST 441 Black Freedom Movement in Perspective
T HIST 442 History of African American Education
T HIST 444 The Pacific Northwest
T HIST 445 History of Tacoma
T HIST 456 North American Regions

**Student learning outcomes**

- Cultivate the insight unique to human beings, and be able to identify and explain interrelations among texts of apparently disparate discourses: literature, film, visual arts, and media.
- Acquire the interpretive skills necessary to analyze individual texts of various kinds—literary, filmic, artistic, televisual, musical—closely and critically. Students will be not just literate but visually or audiovisually literate.
- Understand the importance of history and culture as they shape and are in turn shaped by arts and media.
- Gain practical experience in the creative processes of one of the arts or media studied in the major.
- Be able to express the knowledge and experience described in the items listed above in clear, concise and persuasive writing.

**Graduation requirements**

Requires 60 credits total including a minimum of 30 upper-division division credits. An additional 5 credits of Natural World is required. Students choose one track.

Overall, 45 upper-division credits and 45 credits of IAS courses are required to graduate.

**Track I: Literature**

- 10 credits, Historical Context (List A)
- 5 credits, Cultural Context (List B)
- 5 credits, Core/Interpretive course in literature: TLIT200, 251, 252, or 253

**Track II: Film / Media**

- 10 credits, Historical context (List A)
- 5 credits, Cultural Context

**Major in Arts, Media and Culture**

This major focuses on how the broadly defined fields of art and media operate within culture, as well as how they transform it. Students study formal, aesthetic and sociocultural ways of understanding literature, arts, and media in cultural and historical contexts. Students are introduced to a range of fields and gain experience working in both American and international frameworks, while at the same time specializing to some degree in a particular field such as visual and performing arts, film/media, literature or comparative arts.
Courses in this list set the study of arts. This list provides broad historical contexts in which to understand the arts, media, and culture. Students in all tracks: 10 credits

- 5 credits, Core/Interpretive course in Film/Media: TFILM 272 or TCOM 201
- 10 credits (5 upper-division TWRT credits plus 5 additional credits from list D)
- 25 credits in Film and Media (List F)
- 5 credits in Literature or Visual/performing arts (List E, G)

**Track III: Visual and Performing Arts – Studio Arts**

- 10 credits, Historical context
- 5 credits, Cultural context
- 5 credits - TARTS 200
- 10 credits (5 upper-division TWRT credits plus 5 additional credits from list D)
- 25 credits in studio art
- 5 credits in Literature or Film/Media

**Track IV: Comparative Arts**

- 10 credits, Historical context
- 5 credits, Cultural context
- 10 credits, Core/interpretive courses in different tracks
- 10 credits (5 upper-division TWRT credits plus 5 additional credits from list D)
- 25 credits from Lists E – G (at least 5 credits from each list).

*GH courses are restricted to Global Honors students*

**Historical Context (List A)**

This list provides broad historical contexts in which to understand the arts, media, and culture. Students in all tracks: 10 credits

- T GH 301 Global Interactions*
- THIST 150 World History I: Prehistory to 1500
- THIST 151 World History II: 1500 to Present
- THIST 200 American History I, 1607-1877
- THIST 201 American History II 1877-present

**Cultural Context (List B)**

Courses in this list set the study of arts and media in broad cultural or social contexts. Students in all tracks: 5 credits

- TARTS 314 Rap Music, Identity, and Culture
- T ARTS 315 Music and Crisis
- TCOM 201 Media and Society
- T HISP 238 Hispanics in the US
- T HISP 462 Women in Latin America
- T HIST 451 Renaissance Europe

- T HIST 477 Reformation and Counter-Reformation Europe
- T HIST 478 Revolution, Industrialization and Modernity in European Culture (1780-1900)
- T HIST 479 Modern European Culture
- TPHIL 355 Mind of Modernity
- TPHIL 357 The Greek Mind and Imagination
- TPHIL 358 History of Philosophy: Medieval and Modern
- TPHIL 360 History of Philosophy: Modern and Contemporary
- TPHIL 361 Ethics and Society
- TPHIL 362 The Beautiful and the Good: Philosophy’s Quest for Value and Artifacts
- TPHIL 451 The Enlightenment
- TPHIL 466 Modernity and Its Critics
- TPOL S 251 Cultural Studies
- TRELIG 235 Religion in the Modern World
- TRELIG 366 Islam

**Interpretive Courses (List C)**

This list includes courses that provide language and concepts for the critical study of texts and objects. (Courses taken in this list cannot be double-counted to satisfy other requirements)

- TARTS 200 Studio Foundation I: Contemporary Art Strategies
- TCOM201 Studio Foundation I: Contemporary Art Strategies
- TCOM 247 Television Studies
- TFILM 272 Film Studies
- TGH 302 Global Imaginations *
- THIST 470 The Material World: Art and Artifacts
- TLIT 200 Understanding Literature
- TLIT 251 Ancient Literature of Western Civilization
- TLIT 252 Medieval Literature of Western Civilization
- TLIT 253 Modern Literature of Western Civilization
- TCOM347 Television Criticism and Application
- TWOMN 251 Popular Culture and Gender

**Practice / Studio (list D)**

- TARTS 200 Studio Foundation I: Contemporary Art Strategies
- TARTS 240 Landscape in Contemporary Art
- TARTS 280 3-D Art & Contemporary Approaches to Sculpture
- TARTS 336 Glass Arts
- TARTS 366 The Artist as Visionary
- TARTS 367 Ideas Through Objects: A Conceptual Approach to Art
- TARTS 386 Contemporary Art and Studio Drawing
- TARTS 390 Site Specificity in Art
- TARTS 391 Reconstructing Self in Art
- TARTS 395 Community Arts Practice
- TARTS 402 Eco-Art: Art in Response to Environmental Crisis
- TARTS 403 Body Image and Art
- TARTS 404 Art in a Time of War
- TARTS 405 Cultural Identity and Art
- TARTS 406 Labor, Globalization and Art
- TARTS 407 Art and the Public
- TARTS 460 Human Figure in Contemporary Art

- TCOM 348 Nonfiction Writing for Television
- TCOM 349 News Writing
- TCOM 351 Video Production
- TCOM 470 Documentary Production and Critique

**Creative Writing**

- TCOM 486 Feature Writing for Print & Media
- TWRT 200 Introduction to Creative Writing
- TWRT 330 Written and Visual Rhetoric
- TWRT 370 Introduction to Writing Poetry
- TWRT 380 Introduction to Creative Writing: Fiction
- TWRT 382 Writing Popular Fiction
- TWRT 387 Writing Creative Non-Fiction
- TWRT 470 Advanced Poetry Writing
- TWRT 480 Advanced Fiction Writing

*Note: Priority access to TCOM courses is often limited to majors in TCOM*

**Visual and Performing Arts (List E)**

- TANTH 464 Native American Cultural Areas
- TARTS210 The African Diaspora through Music: The Rhythm, the Blues and Beyond
- TARTS 311 History of Rock ‘n’ Roll
- TARTS 314 Rap Music, Identity and Culture
- TARTS 281 Art and Culture in India
- TARTS 282 Art and Culture in China
- TARTS 283 Art and Culture in Japan
- TARTS 284 Art and Culture in the Pacific
- TARTS 335 History of Photography
- TARTS 360 Women Artists from the Renaissance to the Present
- TARTS 385 South Sound Contemporary Art
- TARTS 386 The Material World: Art and Artifacts
- TARTS 411 The History of Jazz
- THISP 465 Latin American Visual Arts
- THIST 226 American Architecture
- THIST 333 Early American Music, Art, Literature and Theater
- THIST 377 Art of the Americas
- THIST 379 Modern Architecture
- THIST 430 Introduction to Public History
- THIST 470 The Material World; Art and THIST 478 Revolution, Industrialization and Modernity in European Art (1780-1900)

- THIST 479 Modern European Culture

**Film and Media (List F)**

- TARTS 314 Rap Music, Identity, and Culture
- TCOM 201 Media and Society
- TCOM 230 Globalization and Media
- TCOM 247 Television Studies
- TCOM 257 Ethical Issues in Mass Communications
- TCOM 258 Children and Television
- TCOM 310 Contemporary Environmental Issues and the Media
- TCOM 347 Television Criticism and Application
- TCOM 353 Critical Approaches to Mass Communications

See the IAS website for the most current concentration options.

Major in Communication

Students in the Communication major gain theoretical knowledge and practical skill in the mass media through an interdisciplinary and multicultural curriculum. Students will learn about the social, cultural, economic, political and historical context within which media operate. This major focuses on the full range of communication media — including radio, television, newspapers, magazines, film, advertising, public relations and the Internet—and how it pervades every aspect of our society. Students will study the considerable power media wield in mobilizing public opinion, in cutting across the boundaries between private and public life, and the strong role they play in national development.

Students have the option of a Research track or a Professional track. Under the Research Track, students take a series of courses in U.S. and international media theory. Under the Professional Track, students take a series of courses in either print or broadcast media. Given the Communication major curriculum, transfer students should anticipate needing two years to complete all requirements.

Prerequisites

Students wishing to declare the Communication major must first complete one of the following 5-credit courses with a minimum grade of 2.0:

- TCOM 201 Media and Society
- TCOM 230 Media Globalization and Citizenship

Graduation requirements

Requires 60 credits total including 50 credits of upper-division course work in major.

Professional Track

The Print and Television options of the Professional Track take an integrated approach to the study of media criticism and media writing and production. They are predicated on the belief that the development of the practical skills needed to produce and write materials for media outlets such as television, newspapers, magazines, and public relations firms is enhanced through a critical examination of cultural products and an understanding of multiple theoretical frameworks. At the same time, the ability to critique cultural products is furthered through the development of practical skills, since this advances an understanding of various factors that influence how media products are developed and distributed.

5 credits Communication Foundation:

One of the following theory and methods courses:
- TCOM 353 Critical Approaches to Mass Communication
- TCOM 444 Gender, Ethnicity, Class and the Media

Communication Core (List A): 20 credits with a minimum of 10 credits of 300- and 400-level courses required

- TCOM 201 Media and Society
- TCOM 230 Media Globalization and Citizenship
- TCOM 247 Television Studies
- TCOM 257 Ethical Issues in Mass Communication
- TCOM 258 Children and Television
- TCOM 310 Contemporary Environmental Issues and the Media
- TCOM 353 Critical Approaches to Mass Communication
- TCOM 354 Communication History
- TCOM 388 Russian Media Studies
- TCOM 430 Global Networks, Local Identities
- TCOM 440 Advertising and Consumer Culture
- TCOM 444 Gender, Ethnicity, Class, and the Media
- TCOM 454 Communications Law
- TCOM 460 Communication and National Development
- TCOM 461 Media and Identity in Asia
- TCOM 470 Documentary Production and Critique

  - TCOM 470 Documentary Production and Critique
  - TCOM 482 Investigative Reporting
  - TCOM 486 Feature Writing for Print Media
  - TCOM 490 Communication Capstone Internship
  - TWRT 365 Literary Editing and Publishing
  - TWRT 382 Writing Popular Fiction
  - TWRT 387 Creative Non-Fiction Writing

- **Natural World:** 5 credits: Courses with a TESC prefix or an environmental science transfer course; see adviser for applicable transfer courses

- **Research Track**

  The Research Track, through courses on media criticism and methods, media ethics, media law and regulation, media history, political economy of mass media, international and development communication, film studies, and cultural studies, provides a critical overview of the political, economic, historic, social, and cultural contexts of the mass media. In each course, students are encouraged to interrogate the relationship among media, culture, and power, and think critically about the correspondence between processes of media production and consumption. The Research Track prepares students for further graduate studies or for careers in media research; the wealth of theoretical courses in this track is an asset to any student interested in communication theory or practice.

- **Communication Foundation:** 10 credits
  - One of the following writing courses:
    - TWRT 211 Argument and Research in Writing
    - TWRT 331 Advanced Disciplinary Writing: Humanities, Natural Sciences and Social Sciences
  - One of the following theory and methods courses:
    - TCOM 353 Critical Approaches to Mass Communication
    - TCOM 444 Gender, Ethnicity, Class and the Media

- **Communication Core (List A):** 30 credits (minimum of 20 credits of 300- and 400-level courses required)

  - TWOMN 345 Women and Work in the U.S.
  - TWOMN 347 History of Women in the United States
  - TWOMN 420 Women in the Global Economy
Preparatory courses must have been completed within the last five years. If they were completed before that time frame, please consult an IAS adviser. See a faculty adviser, or website for specific transfer courses that are acceptable.

Graduation requirements
Requires 70 credits for major + 25 credits for preparatory courses = 95 credits

16 credits minimum: Environmental Science Core (all four courses required)
- TESC 310 Environmental Research Seminar – to be taken in the first quarter of enrollment in the junior year (3)
- TESC 232 Issues in Biological Conservation (5) - OR - TESC 322: Conservation Biology in Practice (6)
- TESC 345 Pollution and Public Policy (5/6)
- TESC 410 Environmental Science Senior Seminar – to be taken in the last quarter of enrollment after or concurrent with Capstone experience (3)

5 credits: Environmental Writing Core (choose one from the following list)
- TWRT 211 Argument and Research in Writing
- TWRT 291 Technical Communication in the Workplace
- TWRT 331 Advanced Disciplinary Writing: Humanities, Natural Sciences and Social Sciences
- TWRT 431 Studies in Writing: Writing for Social Change

3 credits minimum: Capstone Experience (TESC 497 Senior Thesis, TESC 499 Internship, TESC 496 Internship, TESC 499 Undergraduate Research, or the complete GIS or Restoration Ecology certificate program. Planned with faculty adviser; may span more than one quarter.)

16 credits minimum: Environmental Science Electives
[TESC courses (200-level and above), at least one of which must be a laboratory course (6 credits) or a field course (7 or more credits). Some courses are not offered as labs every time (5/6 credit courses); check the Registration Guide for credits. Other 200-level or above TESC courses are applicable here, but are not included in this list because they require additional lower-division prerequisite courses. If an Environmental Studies student meets the prerequisites for these other TESC courses, they can count here. Courses are five credits unless otherwise noted.]

5 credits: Environmental Foundations (choose one from the following list)
- T LIT 437 Nature and Environment in American Literature
- T PHIL 363 Philosophical Perspectives on the Environment
- T PHIL 364 Topics in the Philosophy of Science
- T PHIL 456 Environmental Ethics

Natural World: 5 credits: Courses with a TESC prefix or an environmental science transfer course; see adviser for applicable transfer courses
See the IAS website for the most current major options.

Major in Environmental Studies
For information on the bachelor of science degree in Environmental Science, please see page 88.

The bachelor of arts in Environmental Studies offers students an interdisciplinary perspective on environmental problems. While receiving a strong background in environmental science, students will be exposed to a broad range of interdisciplinary course work that examines the legal, economic, social, literary, historical and philosophical perspectives on both local and global sustainability issues. This major will prepare students interested in pursuing diverse and contemporary careers such as environmental law, policy, management, planning and teaching in the public, private, academic and nonprofit sectors. An important component of the Environmental Studies major is a capstone experience that emphasizes service to the community while exposing the student to potential future employers and positions.

Two required “bookend” seminars, taken by entering juniors and graduating seniors, introduce students to scientific research, writing and funding processes. The senior capstone experience allows students to get practical experience in individual or team research or internship positions.

Preparatory courses
25-28 credits depending on where credits were earned. These can be taken at UW Tacoma or transferred from another school. UW Tacoma courses that fulfill this preparatory course work are listed below:

Course | Min. grade | UWT equiv.
--- | --- | ---
One quarter ecology-focused biology with lab | 1.5 | TESC 120
One quarter chemistry with lab | 1.7 | TESC 141 or TESC 131
One quarter geosciences with lab | 2.0 | TESC 117 or TESC 241
One quarter statistics | 2.0 | TMATH 110
One quarter pre-calculus | 2.0 | TMATH 120

Additionally, students must be computer literate, which is defined as the ability to use word processing, spreadsheet, presentation and communication software. Workshops are available for students with deficiencies in any of these areas.
5 credits: Communication of Science and Environmental Issues (choose one from the following list, in addition to Environmental Writing Core)
T ARTS 402 Eco-Art: Art Created in Response to the Environmental Crisis
T ARTS 406 Labor, Globalization and Art
T ARTS 402 Eco-Art: Art Created in Response to the Environmental Crisis
T ARTS 407 Art and the Public
TBUS 310 Effective Managerial Communications
TCOM 275 Writing, Reporting and Editing for the Mass Media
TCOM 310 Contemporary Environmental Issues and the Media
T COM 347 Television Criticism and Application
T COM 348 Non-fiction Writing for Television
T COM 349 News Writing
T COM 350 Editing and Design for Print Media
T COM 387 Writing for Public Relations

TURB 450 Planning for Sustainability
TURB 479 Planning and Development in the Puget Sound Region (3-12 cr)

See the IAS website for the most current majors.

Major in Ethnic, Gender and Labor Studies
This major focuses on class, ethnicity, and gender to explore how communities form and are transformed. Students also explore categories such as nationality, religion, and citizenship. These areas are explored in the context of important questions such as: What are the sources of wealth and poverty, of racial and ethnic conflict, of gender differences? Students also explore historical roots of various communities and analyze movements for social change and group empowerment. Students of this major pursue careers in a range of public and private service organizations, the corporate world, unions, and community organizations. This major prepares students for graduate study in law, education, public administration and urban policy, history, sociology, political science and anthropology.

Graduation requirements
Requires 60 credits total. Plus an additional 5 credits of Natural World/Science.

4 courses from the core courses (List A – 20 credits)

4 courses from one chosen track (Labor Studies (List B) or Gender Studies (List C) or Ethnic Studies (List D) – 20 credits)

2 courses from each of the other tracks (20 credits)

Courses cannot be double-counted to fulfill multiple requirements within the major.

Overall, 45 upper-division credits and 45 credits of IAS courses are required to graduate.

Core Courses List A (20 credits):
One of:
T HIST 200 American History I: 1607-1877
T HIST 201 American History II: 1877-present

One of:
T WOMN 100 Introduction to Women's Studies
T WOMN 250 Feminist Approaches to Service Learning

One of:
T SOC 165 Introduction to Sociology
T CORE 103, 113 or 123 Introduction to Social Science
T SOC 266 Introduction to Labor Studies

One of:
T HISP 238 Hispanics in America
T HIST 220 African-American History 1619-1865
T HIST 221 African American History 1865-1945
T HIST 222 African American History 1945-present
T LIT 230 Multi-Ethnic American Literature
T SOC 265 Race and Ethnicity in the U.S.

In addition to the above requirements, students choose one of three separate tracks:

Labor Studies Track (List B)
The Labor Studies track offers courses on the experience of work and workers in modern market economies. Courses focus on the political, economic, and social developments that shape working life, along with workers’ impact on society. Topics include unions and the labor movement, social class and inequality, the changing nature of...
work, international political economy, and workplace culture. Labor Studies takes an interdisciplinary approach to understanding these issues, and emphasizes the connections between race, class, and gender in an economic context.

To fulfill this track, you must take four courses from the list below, as well as two additional courses from the Gender Studies track and two additional courses from the Ethnic Studies track.

T ARTS 406 Labor, Globalization and Art
TCOM 444 Gender, Ethnicity, Class and the Media
TECON 313 Theories of Economic Development and Social Change
T ECON 320 Gender and Development
TECON 328 Third World Problems and Prospects
T GEOG 349 Geography of International Trade
THIST 322 American Labor Since the Civil War
T HIST 440 Black Labor in America
TPOLS 314 Twentieth Century Revolutions
TPOLS 410 Labor Rights & Human Rights
TPOL S 456 Community and Labor Organizing: Multicultural Perspective
T PSYCH 320 Race, Class, and Gender Contexts of Child Development
T SOC 266 Introduction to Labor Studies
T SOC 335 Social Class and Inequality
T SOC 434 Women, Race and Class
TSOC 435 Migration and the Modern World
T WOMN 345 Women and Work in the United States
T WOMN 420 Women and the Global Economy

Gender Studies Track (List C)

The Gender Studies track offers courses that focus on gender roles and gender identity from a variety of theoretical approaches. These courses not only investigate the concepts of gender and sexuality, but also explore the ways in which these concepts intersect with such diverse phenomena as society, politics, literature, globalization, music, economics, art, poverty, communication, race, film, work and popular culture. Gender Studies includes Women's Studies, Men's Studies and Gay, Lesbian, Transgender Studies, and emphasizes interdisciplinary scholarship.

To fulfill this track, you must take four courses from the list below, as well as two additional courses from the Labor Studies track and two additional courses from the Ethnic Studies track.

TARTS 360 Women Artists from the Renaissance to Present
TCOM 444 Gender, Ethnicity, Class and the Media
TECON 320 Gender and Development
TEST 211 Women in Science
T FILM 486 Feminist Perspectives in Film and Literature
TFLLM 488 Gender and Sexuality in Film
T GEOG 420 Women in Science and Culture
T HISP 462 Women in Latin America
T HISP 476 Latin American Women Writers
T LIT 324 African American Women's Literature
T LIT 388 Cross Cultural Studies in Women's Literature
T LIT 431 Contemporary Native American Women's Literature
T LIT 476 American Women's Lit: 19th & 20th Century
TPSYCH 202 Human Sexuality
TPSYCH 320 Race, Class, and Gender Contexts of Child Development
TPSYCH 349 Sexual Identities
TPSYCH 400 Psychology of Women
TPSYCH 403 Psychology of Black Women
T SOC 347 History of Women in the United States
T SOC 434 Women, Race and Class
TSOCWF 354 Sexual Orientation and Gender Identity
TURB 314 Gender and the Urban Landscape
T WOMN 100 Introduction to Women's Studies
T WOMN 205 Introduction to Masculinities
T WOMN 250 Seminar in Service Learning: A Feminist Approach
TWOMN 251 Gender and Popular Culture
TWOMN 302 Feminist Research Methods
TWOMN 345 Women and Work in the United States
TWOMN 347 History of Women in the United States
TWOMN 420 Women in the Global Economy
T WOMN 434 Women's Voices: Third World Testimonials
TWOMN 455 Sociology of Gender

Ethnic Studies Track (List D)

The Ethnic Studies track allows students the opportunity to study race and ethnicity though an interdisciplinary lens. Students interested in this track take courses using an ethnic specific approach (i.e. African American, Chicano/Latino, Asian American, Native American) as well as courses using a comparative approach to examining the contributions of people from diverse racial and ethnic groups to various areas of study including economics, gender studies, history, literature, politics, and sociology within global and local contexts.

To fulfill this track, you must take four courses from the list below, as well as two additional courses from the Labor Studies track and two additional courses from the Gender Studies track.

TARTS 314 Rap Music, Identity, and Culture
T HISP 238 Hispanics in the United States
T HISP 323 Making of Mexico
T HISP 400 Afro-Hispanic Culture
T HISP 441 Mexican Cinema and Society
T HISP 476 Latin American Women Writers
T HIST 220 African American History 1619-1865
T HIST 221 African American History 1865-1945
T HIST 222 African American History 1945-present
T HIST 320 Asian American History
T HIST 341 African-American History
T HIST 349 Minorities and Higher Education in American History
T HIST 416 Life and Thought: Martin Luther King Jr., Malcolm X, and Angela Davis
T HIST 419 African American Culture and Consciousness
T HIST 420 African American Religious History
T HIST 440 Black Labor in America
T HIST 441 Black Freedom Movement in Perspective
T HIST 457 Anti-Semitism and the Holocaust
T HIST 495 The Metropolis
T LIT 230 Multi Ethnic American Literature
T LIT 331 Immigrant and Ethnic Literature
T LIT 332 Asian American Literature
T LIT 334 African American Women's Literature
T LIT 338 African American Literature from Slavery to the Present
T LIT 425 Literature of the Harlem Renaissance
T PSYCH 320 Race, Class, and Gender Contexts of Child Development
TSOC 265 Race and Ethnicity in US
T SOC 434 Women, Race and Class

5 credits Natural World/Science: Courses with a TESC prefix or an environmental science transfer course; see adviser for applicable transfer courses.

See the IAS website for the most current major options.
Concentration in Global Studies

Students in the Global Studies concentration study a variety of subjects and themes in an international context, including artistic, cultural, political and economic patterns among and within other nations. Advanced language study is an integral component of global studies. Students may choose to focus their studies on one or more world regions or specific themes.

Students of Global Studies pursue careers in government, business, nonprofit management, the media, education and international law. Depending on the focus students choose, they may pursue graduate studies in related world areas or disciplines.

Graduation requirements

Requires 50 credits minimum total—depending on foreign language competency with 30 credits of upper division in concentration. Reminder: 45 upper-division credits and 45 credits of IAS courses are required for graduation from IAS.

- 5 credits International or Global Interactions Core:
  - T GH 301  Global Interactions
  - T HIST 150  World History I
  - T HIST 151  World History II

- Of the credits below, at least 5 credits from two interdisciplinary areas:
  1. Visual, Literary and Performing Arts (VLPA) and Individual and Society (I&S).
  2. Foreign Language (to demonstrate competency) 0-10 Credits

Option one: 10 credits of upper-division (300- or 400-level) foreign language

Option two: Two years of college-level lower-division (100- or 200-level) foreign language in a Western-European language

Option three: One year of college level Asian, Slavic or non-Western language

Option four: Non-native English speakers are exempt from this requirement; a student is considered a “native speaker” of a foreign language if that language was the language (or one of the languages) spoken at home during the first 6 years of childhood AND if it was the language in which the student received instruction in elementary school through the seventh grade. Students not meeting this standard have the option to demonstrate competency through testing if desired.

- 40 credits International: 30 credits to be upper division (300- or 400-level)
  - Foreign study, up to 15 credits (see adviser for details)
  - T ANTH 354  History of the Concept of Culture
  - T ARTS 210  The African Diaspora Through Music: The Rhythm, the Blues, and Beyond
  - T ARTS 281  Art and Culture in India
  - T ARTS 282  Art and Culture in China
  - T ARTS 283  Art and Culture in Japan
  - T ARTS 284  Art and Culture in the Pacific
  - T ARTS 406  Labor, Globalization and Art
  - T ARTS 480  Contemporary Art and Society 1945-Present
  - T CHIN 101  First-Year Chinese
  - T CHIN 102  First-Year Chinese
  - T CHIN 103  First-Year Chinese
  - T CHIN 201  Second-Year Chinese
  - T CHIN 202  Second-Year Chinese
  - T CHIN 203  Second-Year Chinese
  - T COM 230  Media Globalization and Citizenship
  - T COM 388  Russian Media Studies: From Communism to Democracy
  - T COM 430  Global Networks, Local Identities
  - T COM 461  Media and Identity in Asia
  - T ECON 328  Third World Problems and Prospects
  - T ECON 332  Rise of East Asia
  - T ECON 340  International Economics
  - T ECON 350  Economic History of Europe
  - T ECON 360  Poverty in Developing Countries
  - T ECON 394  Comparative Economic Development
  - T ECON 417  Political Economy of India
  - T ECON 425  Contemporary Issues in International Political Economy
  - T ECON 440  Global Economic Challenges
  - T ECON 460  China’s Rise and its Global Economic Implications
  - TFFILM 386  Silent Cinema
  - TFFILM 420  Contemporary World Cinema
  - TFFILM 474  Russian History and the Soviet Film
  - TFFILM 481  Film Theory and Analysis
  - TFFILM 484  French Cinema
  - TFFILM 486  Feminist Perspectives in Film and Literature
  - TGEOG 349  Geography of International Trade
  - TGEOG 352  Cultural Geography
  - TGEOG 435  Contemporary Geopolitics
  - T HISP 277  Latin American Literature
  - T HISP 323  Making of Mexico
  - T HISP 325  Mexico: Problems and Perspectives
  - T HISP 376  Latin American Film
  - T HISP 377  Spanish Film

Major in Hispanic Studies

Students in the Hispanic Studies major will be able to develop intercultural competence necessary to participate in a diverse and increasingly complex world. Hispanic Studies is interdisciplinary in focus, with a strong emphasis on the contemporary culture of Latin America, and it offers practical skills-based language classes for students who want to pursue careers in a variety of fields.

Acquire competence necessary for employment in a variety of fields related to the Spanish language and literary and cultural studies, and/or a graduate program in Spanish or Latin American Studies.

Prerequisites for the Hispanic Studies Major

For acceptance into the major, students must demonstrate through a placement exam or coursework proficiency at the 300-level in the Spanish language. Students interested in pursuing a Hispanic Studies major are strongly encouraged to take a variety of interdisciplinary courses dealing with Spanish and Latin American culture in preparation for the major.

Graduation Requirements

The Hispanic Studies major consists of 60 upper division credits, in addition to other university requirements for graduation. Of these 60 credits, 35 are core requirements, and 25 credits are required 300–400 level electives from Spanish language and Hispanic culture classes in Spanish.

Student Learning Objectives

Students who major in Hispanic Studies will:

- Develop oral, writing, and reading proficiency in Spanish at the Advanced Level as defined by American Council for the Teaching of Foreign Languages (ACTFL) standards.
- Become knowledgeable about the complexity of cultures in the Spanish-speaking world and be able to engage in ongoing critical debate about them.
- Acquire proficiency in the 5 Cs (communication, cultures, connections, comparisons, communities) for language studies in Spanish as defined by the National Foreign Language Standards.
- Learn terminology and concepts from at least two of these fields: literature and literary criticism; film and film criticism; cultural studies and cultural theory, and be able to apply the terminology and concepts to the critical analysis of works from Spain, Spanish America, and US Latinos.
- Become global citizens, able to interact compassionately, intelligently, and insightfully with other cultures, particularly those of the Spanish-speaking world, and to engage in the scholarship and activism that constitute Hispanic Studies in the U.S.
At least 5 credits from List A must be 
Total 10 credits (minimum) 
5 credits (minimum) at 400 level

We define a native speaker of Spanish as a person who learned Spanish at home as his or her first language, and who lived in a Spanish-speaking home for the first six years of childhood. In addition, a native speaker has some formal instruction (at least through 7th grade) in schools where Spanish was the primary language. (Example: A person who was born in Mexico to Mexican parents, who lived in Mexico until age 14, and completed 7th grade there, is a native speaker of Spanish.)

We define a heritage speaker of Spanish as a person who was raised in a home where Spanish was spoken at least 50% of the time during that person’s childhood and adolescence. Heritage speakers may not have had formal instruction in Spanish, but they are to some degree bilingual in both Spanish and English.

The Foreign Study credits must be in a program that offers at least 50% of the instruction in Spanish in a Spanish-speaking country. Students may combine credits from two programs, if desired. The Experiential Learning must be in a Spanish-speaking community, where at least 50% of the work the student does is in Spanish.

Required Electives
(Minimum of 25 credits of 300-400 level Spanish courses)
• At least 5 credits from List A must be at the 400-level
• At least 5 credits from List B must be at the 400-level

List A: Spanish Language classes (300- and 400-level) 
5 credits (minimum) at 300 level
5 credits (minimum) at 400 level
Total 10 credits (minimum)

List B: Literature, film or culture in Spanish (300 and 400 level) 
5 credits (minimum) at 300 level
5 credits (minimum) at 400 level
Total 15 credits (minimum)

We define a native speaker of Spanish as a person who learned Spanish at home as his or her first language, and who lived in a Spanish-speaking home for the first six years of childhood. In addition, a native speaker has some formal instruction (at least through 7th grade) in schools where Spanish was the primary language. (Example: A person who was born in Mexico to Mexican parents, who lived in Mexico until age 14, and completed 7th grade there, is a native speaker of Spanish.)

We define a heritage speaker of Spanish as a person who was raised in a home where Spanish was spoken at least 50% of the time during that person’s childhood and adolescence. Heritage speakers may not have had formal instruction in Spanish, but they are to some degree bilingual in both Spanish and English.

The Foreign Study credits must be in a program that offers at least 50% of the instruction in Spanish in a Spanish-speaking country. Students may combine credits from two programs, if desired. The Experiential Learning must be in a Spanish-speaking community, where at least 50% of the work the student does is in Spanish.

Required Electives
(Minimum of 25 credits of 300-400 level Spanish courses)
• At least 5 credits from List A must be at the 400-level
• At least 5 credits from List B must be at the 400-level

List A: Spanish Language classes (300- and 400-level) 
5 credits (minimum) at 300 level
5 credits (minimum) at 400 level
Total 10 credits (minimum)

List B: Literature, film or culture in Spanish (300 and 400 level) 
5 credits (minimum) at 300 level
5 credits (minimum) at 400 level
Total 15 credits (minimum)

The History major provides a foundation in American and world history along with options in U.S. History, European History, Asian History or in a Self-Designed History track. Students will learn how to gather information from primary and secondary sources, cull and analyze that information and identify its most significant aspects, reach conclusions based on that analysis, and produce well-written narratives and oral presentations relating the contents and results of their work. History teaches basic comprehension of chronology and cause and effect reasoning, and is thus a discipline that students need to succeed in all fields of research.

As Pierce County and the entire South Sound region continue to grow, individuals with training in History will find increasing opportunities in the fields of education, records management, museum curation, government service, heritage tourism, journalism, and other professions. History also provides an excellent foundation for graduate study in law, education and many other areas.

Graduation Requirements
The History BA degree requires 65 credits. These will include Core courses and courses in one of four selected History tracks with elective options. Reminder: 45 upper-division credits and 45 credits of IAS courses are required for graduation from IAS.

Note: IAS students may earn a maximum of 15 independent study (undergraduate research, directed reading, senior thesis or internship) credits. Internships may account for 10 of these credits.

Required Core Courses (30 credits):
• 10 credits World History
  T HIST 150 & 151
• 10 credits American History
  T HIST 200 & 201
• 5 credits Research Methods
  TIAS 380
• Humanities and Social Science Research and Writing Seminar
• 5 credits Senior Thesis
  T HIST 497 (Prerequisite: TIAS 380 and approval of thesis proposal)
• IAS Portfolio Requirement

Required Track Courses (35 Credits from one of the following tracks: United States, European, Asian, or Self-designed Track. 25 credits must be upper-division courses.)

35 Credits of History Track Courses in either United States, European, Asian, or Self-designed Tracks. 25 of these credits must be upper division.

Suggested Course Sequence:
Freshman Year: T HIST 150 & 151
Sophomore Year: T HIST 200 & 201 & TIAS 380
Junior Year: 20 credits Track Courses
Senior Year: T HIST 497 & 15 credits Track Courses

*We recommend that students take TSPAN 301, 302 and 303 in sequence, but it’s not obligatory. A student can begin 300-level coursework in 302 or 303, as long as he/she has reached that level of proficiency via placement exam or coursework prerequisites.

**TSPAN 311, 312 and 313 are courses that are under development.

**TSPAN 302 is not open to NATIVE speakers or HERITAGE speakers of Spanish. See definitions provided above. Native and Heritage Speakers can substitute any other Spanish class at the 300-400 level in place of 302.

† TSPAN 492 will be developed during the 2012-13 academic year. Only majors with senior status can enroll in the internship. The study abroad option can be taken during the summer or during the academic year, at any point in the student’s program of study for the major.
Track Courses

United States History

T HIST 212 The Military History of the United States from Colonial Times to the Present
T HIST 220 African American History 1619 – 1865
T HIST 221 African-American History, 1865-1945
T HIST 222 African-American History, 1945-Present

T HIST 464 Modern China
T HIST 465 Modern Japan
T HIST 466 Modern Korea
T HIST 474 Imperial China
T HIST 484 Pacific War
T HIST 486 Contemporary Chinese Culture and Society
TIAS 496 Internship
TIAS 498 Directed Readings
TIAS 499 Undergraduate Research

Self-Designed History Track

This track is for students who (1) choose to pursue a topical approach to History—e.g., art and architecture, economic, environmental, ethnic, military, gender, labor, religious, etc.; or, (2) students who, before we make our projected hires, choose to study Ancient, Latin American or African History. Students must have the advance approval and continual counsel of their History faculty adviser for all of the following coursework:

- Selected History Courses (above)
- Selected History-Related Elective Courses (see list below)
- UW Bothell History Courses
- UW Seattle History Courses and Distance Learning Courses
- TIAS 498/499 Undergraduate Readings and Research

History-Related Courses for Self-Designed Track

T ARTS 281 Art and Culture in India
T ARTS 282 Art and Culture in China
T ARTS 283 Art and Culture in Japan
T ARTS 284 Art and Culture in the Pacific
T ARTS 311 History of Rock and Roll
T ARTS 411 History of Jazz
T COM 354 Communication History
T ESC 243 Maritime History and Science of the Pacific Northwest
T HIST 379 Modern Architecture
TIAS 496 Internship
T PHIL 355 The Mind of Modernity
T PHIL 357 The Greek Mind and Imagination
TPOL S 224 Modern Latin America
TPOL S 260 American Political Theory
TPOL S 310 Modern European Political Theory
TPOL S 326 Modern Brazil
TPOL S 314 20th Century Revolutions

Students will also need to fulfill IAS graduation requirements that include credits in Visual, Literary and Performing Arts (VLPA) and Natural World (NW). See the IAS website for the most recent updates in the major.

Individually-Designed Concentration

This concentration is an individually-designed option for students who wish to create a program of study by combining selected courses from a range of possibilities within IAS and, potentially, from other undergraduate programs at UW Tacoma. Students are required to identify a central organizing theme for their concentration and design it under the guidance and supervision of an IAS faculty member, IAS adviser and the concentration coordinator. A five-credit thesis is required at the end of the senior year.

Graduation requirements

An individually-designed concentration consists of 55 credits of individually-designed core and 5 credits of TIAS 497 (Senior Thesis). Reminder: 45 upper-division credits and 45 credits of IAS courses are required for graduation from IAS.

At least 5 credits must be taken from each of the following interdisciplinary areas:

- VLPA (Visual, Literary and Performing Arts) courses
- Individuals and Society courses
- Natural World courses (TESC prefix)
To propose an individually-designed concentration, students must do the following:

1. Consult with the concentration coordinator to ensure you understand the requirements of the individually-designed concentration. Continue working with the coordinator throughout the proposal process.
2. Identify the unifying interdisciplinary theme of the concentration. Consider what faculty would be appropriate as mentors and consult with them as needed during development phase.
3. Identify the courses taken or planned. This list should comprise 55 credits, plus the 5-credit thesis. Meet with an IAS academic adviser for assistance. This is essential for transfer students.
4. Draft a two- to three-page proposal that includes a brief descriptive title, the rationale for the proposed concentration, a general description of the concentration, a rationale and discussion of the interrelationships among the courses chosen and a complete course list.
5. Secure the support of at least one IAS faculty member to be the sponsor for the concentration. The faculty sponsor attests to the intellectual soundness of the proposal and agrees to provide whatever guidance she or he and the student may jointly decide is needed. The sponsor may also suggest changes in the previously approved written proposal or list of courses.
6. Choose one IAS staff adviser to work with to help you keep track of your progress towards graduation.
7. Add the Agreement and Declaration page to the proposal and have it signed by the faculty sponsor and academic adviser.
8. Submit the proposal for approval to the concentration coordinator by the end of the junior year.

Once your proposal has been approved, continue working with the concentration coordinator, faculty sponsor and academic adviser to ensure the concentration is completed appropriately.

See the IAS website for the most current concentration options.

### Major in Interdisciplinary Arts and Sciences

The major in Interdisciplinary Arts and Sciences is a degree that provides broad exposure to key areas of knowledge within the arts and sciences, while stressing their interconnectedness. Based on core courses covering history, environmental science, literature/arts, social science and an introduction to Interdisciplinary Arts and Sciences, this major allows students to maximize the potential of interdisciplinary studies, gaining the skills they need to function successfully in a rapidly changing society and world. Interdisciplinary Arts and Sciences students pursue careers in a number of areas, including but not limited to education, business, government, the non-profit sector, and other professions. Many students planning to earn a post-baccalaureate certificate in elementary education choose this major because it allows them to gain a broad base of knowledge useful for their future classroom curricula. Students may pursue graduate studies in a range of disciplines.

### Graduation Requirements

67 credits total for major in Interdisciplinary Arts and Sciences

- **List A: Foundational/Core Courses:**
  - 5 credits from one of the following four courses:
    - T HIST 150 World History: Prehistory to 1500
    - T HIST 151 World History II 1500-Present
    - T HIST 200 American History I, 1607-1877
    - T HIST 201 American History II 1877-Present

- **List B: 5 credits from one of the following courses:**
  - TESC 100 Introduction to Environmental Science
  - TESC 211 The Science of Sustainability

- **List C: 5 credits from one of the following courses:**
  - T ARTS 200 Studio Foundation I: Contemporary Art Strategies
  - T LIT 200 Understanding Literature
  - T FILM 272 Film Studies

### Elective Courses:

- **List D: 5 credits from one of the following courses:**
  - TECON 100 Understanding Economics
  - TPOL S 202 Introduction to American Politics
  - TPOL S 2XX Civics (to be developed)

- **List E: Scientific Thinking**
  - TESC 100 Introduction to Environmental Science
  - TESC 211 The Science of Environmental Sustainability
  - TESC 213 Physical Forces in the Natural World
  - TESC 227 Earth History
  - TESC 239 Energy and the Environment
  - TESC 243 Geography of the Physical Environment
  - TESC 304 Tropical Ecology and Sustainability
  - TESC 319 Water Quality Concepts and Watershed Studies
  - TESC 341 Climate Change
  - TESC 402 History and Ecology of Biological Invasions
  - TESC 422 Evolution
  - TMATH 110 Introductory Statistics with Applications
  - TMATH 120 PreCalculus
  - TMATH 124 Calculus with Analytic Geometry I
  - TMATH 214 Analytical Thinking
  - TMATH 310 Statistics for Environmental Applications
  - T PHIL 456 Environmental Ethics

- **List F: Humans and Their Environment**
  - TESC 236 Sustainable Agriculture
  - TESC 240 Human Biology and Environmental Interactions
  - TESC 232 Issues in Biological Conservation
  - TESC 247 Maritime History and Science in the Pacific Northwest
  - TESC 303 Sustainable Development in Africa - Study Abroad
  - TESC 317 Geology, Landscape, and Culture
  - TESC 345 Pollution and Public Policy
  - TESC 370 Genetics and Society
  - TESC 404 Costa Rica Field Studies: Ecology and Community
  - TESC 434 Biology, History, and Politics of Salmon in the Pacific Northwest
**Cannot receive credit for both T PHIL 363 and courses.**

Major in Law and Policy

The Law and Policy major develops students' theoretical reasoning and analytical skills as applied to critical assessments of current topics in law and policy. This major provides a solid liberal arts foundation for thinking analytically about the public action component of current legal and policy concerns associated with health care, social policy, and international development. The Law and Policy major also links curricular content with opportunities and challenges facing Tacoma, South Puget Sound and Washington State.

Graduates of this program will be prepared to pursue a wide range of careers, such as those directly or indirectly related to government and politics; public policy analysis and management; nongovernmental organizations; policy analysis think tanks; local, state and federal government; the law and legal administration (e.g., probation and parole); law enforcement (FBI, police); rights advocacy; and teaching. In addition, graduates will be prepared to begin graduate programs in law, policy studies, public policy, politics, public administration, management, education, and community advocacy.

Student Learning Objectives

The specific student learning objectives of this major are:

- Develop effective and persuasive analytical, writing and communication skills, and apply these skills to complex contemporary social and legal problems.
- Acquire substantive knowledge and understanding about the institutions and beliefs embedded in legal practices and specific public policies.
- Critically examine legal, political, and economic institutions as they relate to social and policy choices.
- Critically evaluate theories and methods used to examine tradeoffs in policy and legal decisions.
- Analyze, display and interpret data to explain social and policy issues.
- Understand the role of ethics and the ethical dimension of laws and policy making.

Graduation Requirements

Law and Policy requires a total of 70 credits as outlined below:

- Core Requirements (40 credits)
  - Law (5 credits)
  - TPOLS 363 Law in Society (5 credits)
  - TPOLS 320 American Constitutional Law (5 credits)
  - Domestic Politics (5 credits)
  - TPOLS 202 American Politics (5 credits)
  - TPOLS 382 State Government (5 credits)
  - T URB 345 Urban Government and Organizations (5 credits)
- International Politics (5 credits)
  - TPOLS 204 Comparative Politics (5 credits)
  - TPOLS 203 International Relations (5 credits)
- Economics (5 credits)
  - TECON 200/TBECON 220 Microeconomics (5 credits)
  - TECON 201/TBECON 221 Macroeconomics (5 credits) (required for International Policy track)
  - TECON 100 Understanding Economics (5 credits)
- Ethical and Philosophical Reasoning (5 credits)
  - TPOLS 240 Introduction to Ethics (5 credits)
  - TPOLS 361 Ethics in Society (5 credits)
- Statistics and Methods (10 credits)
  - TMATH 110 Introduction to Statistics (5 credits)
  - Public Policy Analysis (5 credits) (to be developed)
- Writing (5 credits)
  - TWRT 211 Argument and Research in Writing (5 credits)
  - Choice Area Concentration (25 credits)
  - At least 15 credits must fall within one category (5 credits each)
- Area: Health Policy
  - T HLTH 310 Health and Society
  - T HLTH 372 Environmental Health: Local to Global
  - T HLTH 440 Business of Health Care
  - T HLTH 470 Challenges and Controversies in U.S. Health Care
  - T HLTH 485 Critical Issues in Global Health
  - THLEAD 380 Healthcare Budgetary Analysis and Financial Decision Making
  - THLEAD 410 Ethical Issues in Clinical Practice
  - THLEAD 420 Healthcare Accreditation and Legal issues

- Area: Legal Studies
  - TPOLS 314 Philosophy of Crime and Punishment
  - TPOLS 414 Philosophy of Law
  - TPOLS 320 American Constitutional Law
  - TPOLS 361 U.S. Courts and Civil Liberties
  - TPOLS 363 Law and Society
  - TPOLS 367 Comparative Law and Courts
  - TPOLS 368 The Politics and Law of International Human Rights
  - TPOLS 422 International Humanitarian Law
  - TPOLS 438 Environmental Law
  - TPOLS 452 Minorities and the Law
  - TPOLS 465 Law and Public Policy
- Capstone Seminar or Internship (5 credits)
  - Law and Policy Capstone (5 credits) (to be developed)
  - Internship in Law and Policy (5-15 credits) (to be developed)
Major in Politics, Philosophy and Economics

Politics, Philosophy and Economics draws from political science, philosophy, economics, policy and law. This major provides students with an in-depth interdisciplinary foundation in the analysis of politics and economics and in the study of philosophical and ethical issues related to political, economic, and public policy issues. Special emphasis is placed on developing critical thinking and writing skills.

Students in this major are prepared for careers in government, law, public agencies, business, nonprofit management, diplomacy, community work, or journalism. It also prepares students for advanced studies in law, journalism, international relations, public policy, international development and other social sciences.

Graduation requirements

Requires 60 credits total. Reminder: 45 upper-division credits and 45 credits of IAS courses are required for graduation from IAS.

Core courses (20 credits):
- TECON 200 Introduction to Microeconomics (or TBECON 220)
- TECON 201 Introduction to Macroeconomics (or TBECON 221)
- TPOL S 201 Introduction to Political Values and Ideas
- TPOL S 202 Introduction to American Politics
- TPOL S 203 Introduction to International Relations

Methods course (5 credits)
- TMATH 110 Introductory Statistics with Applications
- TMATH 122 Calculus and Its Practical Applications
- TMATH 124 Calculus with Analytic Geometry
- TMATH 214 Analytical Thinking
- TPSYCH 330 Inquiry and Research in the Social Sciences

Seminar course (5 credits)
- TPOL S 480 Politics, Philosophy and Economics Seminar
- TPOL S 496 Internship (must be approved)
- TPOL S 497 Internship in State Government (offered winter quarter only)

In addition to the above requirements, students choose between one of three separate tracks:

Politics and Philosophy Track

Combines political science with philosophy, sociology, history, economics and policy studies. It provides an in-depth study of political theory, political and social interactions, relations between states and capital, and the history of relationships between governments and citizens. The program also aims to develop skills needed for an informed and effective citizenship.

To fulfill this track, you must take four classes from the list below, as well as two additional classes from either the Law and Policy or Economics tracks.

- TECON 417 Political Economy of India
- T GEOG 435 Contemporary Geopolitics
- T GEOG 349 Geography of International Trade
- T GEOG 440 Political Geography: Territory, State and Society
- T GH 301 Global Interactions
- T GH 303 Global Challenges
- T HIST 322 American Labor Since the Civil War
- T HIST 350 Modern Germany Since 1848
- T PHIL 200 Introduction to the Philosophy of Human Rights
- T PHIL 240 Introduction to Ethics
- T PHIL 350 Mind of Modernity
- T PHIL 358 History of Philosophy Medieval and Modern
- T PHIL 360 History of Philosophy Modern and Contemporary
- T PHIL 361 Ethics in Society
- T PHIL 363 Philosophical Perspectives on the Environment
- T PHIL 364 Philosophy of Science
- T PHIL 414 Philosophy of Law
- T PHIL 451 The Enlightenment
- T PHIL 456 Environmental Ethics
- T POL S 204 Introduction to Comparative Politics
- T POL S 251 Cultural Studies
- T POL S 260 American Political Theory
- T POL S 305 Campaigns and Elections
- T POL S 310 Modern European Political Theory
- T POL S 311 International Human Rights
- T POL S 312 19th Century Revolutions and Revolutionaries
- T POL S 321 American Foreign Policy
- T POL S 328 International Organizations
- T POL S 340 Middle East Politics
- T POL S 346 The Politics and Law of International Human Rights
- T POL S 400 American Presidency
- T POL S 405 Advanced Campaigns and Elections
- T POL S 410 Labor Rights and Human Rights
- T POL S 440 American Foreign Policy in the Middle East
- T POL S 450 Contemporary Theories of Culture
- T POL S 453 Political Theory of Human Rights
- T POL S 456 Community and Labor Organizing: A Multicultural Perspective
- T POL S 460 Political Economy of the European Union
- T RELIG 310 Religious Diversity in America
- T RELIG 321 Comparative Religion
- T RELIG 366 Islam
- T RELIG 467 Philosophy of Religion

Law and Policy Track

Students in the Law and Policy track specialize in the more applied areas of politics and economics. The program focuses on understanding the role of law as an instrument of public policy. The program also provides classes in policy analysis skills applied to particular areas such as the environment and federal public policies. While this track focuses primarily on domestic law and policy, it also provides a more philosophical understanding of the role of law in society, and a comparative understanding of the role of law in different societies.

To fulfill this track, you must take four classes from the list below, as well as two additional classes from either the Politics and Philosophy or Economics tracks.

- TCOM 454 Communications Law
- TCOM 480 Political Economy of the Media
- TCOM 481 Communication Regulation and Policy
- T CRIM 431 Terrorism and the U.S. Criminal Justice System
- T CRIM 440 Fundamentals of Criminal Law
- TECON 360 Poverty in Developing Countries
- TECON 410 Economics of Public Policy
- TECON 416 Current Topics in U.S. Public Policy
- TECON 420 Economics of Education
- TECON 421 Environmental Policy
- TESC 345 Pollution and Public Policy
- T HIST 410 Early American Politics and Law
- T PHIL 414 Philosophy of Law
- TPOL S 305 Campaigns and Elections
- TPOL S 311 International Human Rights
- TPOL S 320 American Constitutional Law
- TPOL S 325 Issues in Local Government
- TPOL S 328 International Organizations
- TPOL S 340 Middle East Politics
- TPOL S 361 United States Courts and Civil Liberty
- TPOL S 363 Law in Society
- TPOL S 368 The Politics and Law of International Human Rights
- TPOL S 382 State Government
- TPOL S 405 Advanced Campaigns and Elections
- TPOL S 422 International Humanitarian Law
- TPOL S 425 Comparative Social Policy
- TPOL S 438 Environmental Law
- TPOL S 440 American Foreign Policy in the Middle East
- TPOL S 452 Minorities and the Law
- TPOL S 465 Law and Public Policy in the United States
- T URB 345 Urban Government and Organization
- T URB 420 Cities and the Constitution
- T WOMN 420 Women In the Global Economy
Economics Track
Emphasizes economic theory and reasoning. It provides a solid foundation for understanding how the interplay of economics and politics shape our everyday lives. Particular emphasis is placed on analytical and critical thinking skills and problem solving.

To fulfill this track, you must take four classes from the list below, as well as two additional classes from either the Politics and Philosophy or Law and Policy tracks.

TECON 424 Managerial Economics
TECON 313 Theories of Economic Development and Social Change
TECON 320 Gender and Development
TECON 332 Rise of East Asia
TECON 340 International Economics
TECON 350 Economic History of Europe
TECON 360 Poverty in Developing Countries
TECON 394 Comparative Economic Development
TECON 401 Topics in Economic History
TECON 410 Economics of Public Policy
TECON 416 Current Issues in U.S. Public Policy
TECON 417 Political Economy of India
TECON 420 Economics of Education
TECON 425 Contemporary Issues in International Political Economy
TECON 440 Global Economic Challenges
TECON 460 China's Rise and its Global Economic Implications
TPOL S 270 Introduction to Political Economy
TPOL S 330 International Political Economy of Latin America
TPOL S 460 Political Economy of European Union

5 credits Natural World/Science: TESC prefix or environmental science transfer. See adviser for applicable transfer courses.

See the IAS website for the most current major options.

Major in Psychology
Psychology is the scientific study of the psychological, biological, and contextual determinants of human behavior. The Psychology major at UW Tacoma is shaped by the concept that psychology is a liberal art as well as a rigorous social science. As a program we value the philosophical, historical and cultural traditions that inform psychology, including feminism, existentialism, hermeneutics, psychoanalysis, and critical theory. We are also firmly committed to interdisciplinarity, meaning that students should be able to synthesize material across disciplines. The curriculum is designed for students who plan to work as professional psychologists and thus need a sound preparation for graduate study; for students who plan a career in any field dealing primarily with people, such as nursing, teaching, social work, guidance, and human resources; or for those who desire a well-rounded education and thus need a basic knowledge and understanding of human experience and behavior.

Prerequisites
The following lower-division prerequisites (100- or 200-level) are necessary before declaring the Psychology major. A minimum grade of 2.0 is required for each prerequisite course.

- One introductory statistics course
- One general or introduction to psychology course
- Two psychology foundation courses in any of the following areas:
  1. Developmental psychology (Lifespan or child development)
  2. Abnormal psychology
  3. Social psychology
  4. Human cognition

Graduation requirements
Requires 60 credits total, excluding prerequisites. Reminder: 45 upper-division credits and 45 credits of IAS courses are required for graduation from IAS.

- 5 credits Research Methods
  TPSYCH 330 Inquiry and Research in the Social Sciences

- 15 credits Core Courses with at least one each from Clinical Core and Developmental Core
  TPSYCH 310 Controversies in Clinical Psychology
  TPSYCH 311 Personality Theories
  TPSYCH 340 Mental Illness Across Cultures

- 15 credits of Advanced Topics Courses
  TPSYCH 400 Psychology of Women
  TPSYCH 401 Family Violence
  TPSYCH 403 Psychology of Black Women
  TPSYCH 404 Psychology of Food and Culture
  TPSYCH 405 Body Image and the Psychology of Appearance
  TPSYCH 406 Chemical Dependency
  TPSYCH 407 Cultural Context of Child Development
  TPSYCH 409 Group Counseling and Dynamics
  TPSYCH 410 Existential Psychology
  TPSYCH 411 Psychology and the Arts
  TPSYCH 412 Women and Health: Power and Inequality
  TPSYCH 414 Psychology of Contemporary African American Culture
  TPSYCH 415 Issues in Social Psychology: Hip Hop Culture
  TPSYCH 416 Freud and His Critics
  TPSYCH 420 Attachment and Interpersonal Relations
  TPSYCH 421 Social Psychology, Law, and Society
  TPSYCH 422 Psychology and the Legal System
  TPSYCH 431 Sexual Deviance
  TPSYCH 432 Sex Crimes and Sexual Violence
  TPSYCH 462 Human Memory
  TPSYCH 466 Psychology of Judgment and Decision Making

Courses under development:
Current Issues in Psychology
Applied Statistics for Psychology

- 20 credits from upper-division courses (other than psychology):
  5 credits – Visual, Literary and Performing Arts – VLPA (V)
  5 credits – Individuals and Society – I&S (I)– (TPSYCH not allowed)
  10 additional credits from VLPA/I&S/NW (no restrictions on NW for these 10)

See course descriptions for designations V, I, N.
Major in Writing Studies

Students in the Writing Studies major learn to write effectively in a range of genres, and to think critically and creatively. Writing Studies prepares students to be verbally and visually literate in a manner that encourages their growth as learners, citizens, and professionals. Students also receive a well-rounded liberal arts education in the sciences and the humanities. The major in Writing Studies provides students with solid skills for seeking employment involving writing, including careers in education, publishing, public relations, grant writing, and marketing. Currently there is a track in creative writing and in the future the major will expand to include other tracks.

Creative Writing Track

The creative writing track offers the opportunity for focused study of literary and popular forms of creative writing with supportive faculty who publish in these genres, and provides a strong base for students wishing to pursue a Master of Fine Arts. Our creative writing track takes a distinctive interdisciplinary approach to creative writing: students choose classes in more than one genre (poetry, nonfiction, and fiction), a wide-range of literature courses from multiple perspectives, as well as professional/technical writing courses that can prepare them for writing jobs in a variety of fields. In addition, the creative writing track reflects the curricular guidelines of the Association of Writing Programs (AWP), the national professional organization in creative writing.

Students can gain professional experience as editors and writers of Tahoma West, UW Tacoma’s student-run literary and arts magazine, as well as the school newspaper, The Ledger. Students also have opportunities to engage in the vibrant literary community of the Puget Sound and are encouraged to apply for internships at local arts and publishing organizations.

Student learning outcomes

As a student in the Creative Writing track within the Writing Studies major, you are expected to:

- Write effectively in a range of genres.
- Think critically and creatively.
- Be verbally and visually literate in a manner that encourages your growth as learners, citizens and professionals.
- Acquire a well-rounded liberal arts education in the sciences and the humanities.
- Acquire solid skills for seeking employment involving writing, including careers in education, publishing, public relations, grant writing and marketing.
- Acquire a strong base with which to pursue a Master of Fine Arts in Creative Writing.
- Be prepared for writing jobs in a variety of fields.
- Use technology integral to a writing profession.

Prerequisites for the Writing Studies Major (10 credits)

Students must earn credit in the following courses, each with a minimum of a 2.0 grade.

- TCORE 101 or TWRT 112 Introduction to Academic Writing
- TWRT 211 Academic Research and Argument

Graduation Requirements

The Writing Studies Major Creative Writing Track requires 65 credits. Reminder: 45 upper-division credits and 45 credits of IAS courses are required for graduation from IAS.

- List A: Creative Writing Foundation (10 credits)
  - TWRT 200 Introduction to Creative Writing
  - TLIT 200 Understanding Literature

- List B: Creative Writing Core (20 credits).
  - Must include 5 credits at the 300 level in a chosen genre, 10 credits at the 400 level in that genre and 5 credits at the 300 level in an alternative genre.
  - TWRT 370 Poetry Writing
  - TWRT 380 Introduction to Fiction Writing
  - TWRT 387 Creative Nonfiction Writing
  - TWRT 470 Advanced Poetry Writing (repeatable once)
  - TWRT 480 Advanced Fiction Writing (repeatable once)
  - TWRT 487 Advanced Creative Nonfiction Writing (repeatable once)
  - TWRT 499 Advanced Topics in Creative Writing (repeatable)

- List C: Literature (15 credits)
  - TLIT 390 Varieties of Literary Criticism (5 credits)
  - 10 credits at the 300-400 level in literature

- List D: Technical/Professional Communication (15 credits). Students choose three courses from the following list:
  - TCOM 387 Writing for Public Relations
  - TCOM 486 Feature Writing
  - TWRT 291 Technical Communication in the Workplace
  - TWRT 330 Visual and Written Rhetoric
  - TWRT 331 Writing in the Natural Sciences
  - TWRT 365 Literary Editing and Publishing
  - TWRT 3xx Writing in New Media (to be developed)
  - TWRT 431 Writing Studies: Writing for Social Change
  - TWRT 4xx Advanced Visual Rhetoric (to be developed)
  - TWRT 4xx Internship (to be developed)

- 5 credits of Natural World: TESC prefix or environmental science transfer; see adviser for applicable transfer courses.

See the IAS website for the most recent updates in the major.
Environmental Science

Interdisciplinary Arts and Sciences offers five options for studying environmental science:

- Bachelor of science degree in Environmental Science
- Bachelor of arts in Environmental Studies (see page 75)
- Minor in environmental studies
- Certificate in Restoration Ecology
- Certificate in Geographic Information Systems (GIS) jointly offered with Urban Studies

Bachelor of Science

The bachelor of science degree in environmental science provides students with a strong science background focused on the environmental issues of the future.

Through lecture, lab, and field classes, students get hands-on experience with biology, chemistry, the geosciences, physics, and math, and learn how to draw connections between them in order to solve the complex, interdisciplinary environmental problems facing the local community and society at large. The Environmental Science program is embedded in the Interdisciplinary Arts and Sciences, allowing our students to synthesize diverse approaches to the environment in the social sciences and humanities as well.

Course work and independent study will allow students to develop the tools needed for scientific research, technical writing and grant preparation. Students are prepared to begin working in the sciences or continue their education upon graduation through a culminating capstone experience that gives students the opportunity to work with a scientist on their own undergraduate research project or to intern with a community group to gain practical experience.

Students have the option of completing a biology or a geoscience track within the BS in Environmental Science degree. See page 90 for details.

Two required “bookend” seminars, taken by entering juniors and graduating seniors, introduce students to scientific research, writing and funding processes. The senior capstone experience allows students to get practical experience in individual or team research or internship positions.

Students will be prepared to enter government, academic, private or nonprofit careers, or to continue their education in a variety of scientific disciplines.

Admission Requirements

The Environmental Science program considers applications for admission from students with more than 45 college-level credits. Students with less than 45 credits apply to UW Tacoma as freshmen.

All transfer applicants are expected to meet the minimum standards for freshman admission, have a 2.0 GPA and complete English composition and intermediate algebra with a 2.0 before applying. As a B.S. degree, Environmental Science has preparatory courses that should be taken during the freshman and sophomore years.

For students who would like to transfer this course work to UW Tacoma, or for UW Tacoma freshmen who would like to prepare for entrance into Environmental Science, the list below is a guideline to help select appropriate courses.

Preparatory courses

These can be taken at UW Tacoma or transferred from another school. UW Tacoma courses that fulfill this preparatory course work are listed in parentheses.

- Completion of General University Requirements (see page 22)
- 15 credits of college biology (majors sequence with lab) (TESC 120, 130, 140) – 1.5 minimum grade in each
- 15 credits of college chemistry (majors sequence with lab) (TESC 141, 151, 161) – 1.7 minimum grade in each
- 5 credits of physical geology with lab (TESC 117) – 2.0 minimum grade
- 5 credits of college physics (mechanics with lab) (TESC 121) – 2.0 minimum grade
- 5 credits of calculus course (TMATH 122 or 124) – 2.0 minimum grade
- 5 credits of statistics (TMATH 110) – 2.0 minimum grade

Additionally, students must be computer literate, which is defined as the ability to use word processing, spreadsheet, presentation and communication software. Workshops are available for students with deficiencies in any of these areas.

Preparatory courses must have been completed within the last five years. If they were completed earlier, please consult an IAS adviser.

Graduation Requirements

To be eligible for graduation with a bachelor of science in environmental science, students must meet the UW Tacoma scholastic standards (2.0 UW GPA), credits required (minimum 180), and the final-year residency requirement and complete the following program requirements:

- Complete a minimum of 45 credits of upper-division course work and a minimum of 45 credits in Interdisciplinary Arts and Sciences.
- Completion of all general education requirements not met with transfer courses. See adviser for details.
- Complete the B.S. degree preparatory courses and requirements (above). Minors and certificates are optional. No more than 15 elective credits can be taken for a Satisfactory/Not Satisfactory grade; see adviser for details.
- Complete five credits of English composition with a minimum grade of 2.0.
- Complete at least 45 of last 60 credits in residence at the University of Washington Tacoma.
- Compile a portfolio of work completed during the course of the student’s residence at UW Tacoma and submit it for review during the second week of the student’s last quarter of enrollment.
- Meet with an academic adviser to complete a graduation application no later than the second week of the quarter in which the student plans to graduate.
- 6 credits: two required “bookend” courses
  TESC 310  Environmental Research Seminar (3)
  TESC 410  Environmental Science Senior Seminar (3)
- 3-10 credits: Capstone experience (internship, research, etc.) Planned with faculty adviser; may span more than one quarter.
- 12 credits: Environmental science core courses:
  TESC 333  Environmental Chemistry (6)
  TESC 340  Ecology and Its Applications (6)
29 credits minimum – five additional TESC courses to include at least one biological science (B) course and one physical science (P) course. Of these remaining five courses, at least two must be laboratory (L) courses (6 credits) and one must be a field (F) course (7 credits). Some courses designated as labs on this list are not offered as labs every time; check the Time Schedule for credits.

Note: If a course below is taken to fulfill prerequisite courses, it is an elective. TESC 100, 107, 110, 111 and 213 are electives for the B.S. degree.

TESC 202  Plant Biology and Ecology (B)
TESC 211  The Science of Environmental Sustainability (P)
TESC 215  Meteorology (P, if 6 cr- L)
TESC 227  Earth History (P)
TESC 232  Issues in Biological Conservation (B)
TESC 236  Plants and People: The Science of Agriculture (B)
TESC 238  Human Interactions with Marine Invertebrates (B)
TESC 239  Energy and the Environment (P)
TESC 240  Human Biology and Environmental Interactions
TESC 241  Oceanography (P, if 6 cr- L)
TESC 243  Geography of the Physical Environment (P)
TESC 247  Maritime History and Science in the Pacific Northwest (P)
TESC 251  Organic Chemistry I (P)
TESC 302  Ecology of Mt. St. Helens (B/P/F)
TESC 303  Sustainable Development in Africa - Study Abroad (B,P,F)
TESC 304  Tropical Ecology and Sustainability (B)
TESC 315  Applied Physics with Environmental Applications (P/L)
TESC 316  Pacific NW Geology (P)
TESC 317  Geology, Landscape and Culture (Field course to England) (P/F)
TESC 318  Biogeography (P/B, if 6 cr- L)
TESC 319  Water Quality Concepts and Watershed Studies (P/L)
TESC 321  Soils and Environmental Applications (P)
TESC 326  Pacific NW Geology Field Trip (If TESC 316 taken; P/L)
TESC 332  Conservation Biology in Practice (B/L)
TESC 337  Environmental Geology (P/L)
TESC 341  Global Climate Change (P)
TESC 343  The Atmosphere and Air Pollution (P/L)
TESC 345  Pollution and Public Policy (P)
TESC 349  Research at Sea (P/B/F)
TESC 362  Introduction to Restoration Ecology (B/F)
TESC 370  Genetics and Society (B)
TESC 378  Environmental Microbiology (B/L)
TESC 402  History and Ecology of Biological Invasions (B)
TESC 404  Costa Rica Field Studies: Ecology and Community (B/F)
TESC 405  Introduction to Biochemistry (if 6 credits,P)
TESC 408  Marine Plankton (B/L)
TESC 415  Sedimentology (P/L)
TESC 417  Field Geology (P/F)
TESC 422  Evolution (B, if 6 cr- L)
TESC 426  Ecological History Field Studies (R,P,F)
TESC 430  Environmental Modeling (B/P/L)
TESC 431  Water Resources and Pollution (P/F)
TESC 432  Forest Ecology (B/F)
TESC 433  Pollutant Fate and Transport (P/L)
TESC 434  Biology, History/ Politics of Salmon in the Pacific NW (B, if 6 cr- L)
TESC 435  Limnology (P/F)
TESC 437  Stream Ecology (P/L)
TESC 438  Environmental Biology: Marine Invertebrates (B/L)
TESC 439  Analytical Chemistry with Environmental Applications (P/L)
TESC 440  Environmental Entomology (B/L)
TESC 442  Marine Ecology (B/F)
TESC 445  Estuarine Field Studies (B/P/F)
TESC 452  Plants, Insects and their Interactions (B/F)
TESC 490  Special Topics: Ecological History Field Studies (B/F)
T GIS 311  Maps and GIS (P/L)
TMATH 310  Statistics for Environmental Applications (B,P)

5 credits: Environmental Law/Policy course (TECON 421 does not count)
TEST 333  Environmental Policy Application and Compliance Analysis
TEST 335  Environmental Impact Analysis
TPOL S 438  Environmental Law

5 credits: Environmental Ethics course
T PHIL 363  Philosophical Perspectives on the Environment
T PHIL 364  Topics in the Philosophy of Science
T PHIL 456  Environmental Ethics

5 credits: Social Science/environmental focus
T ANTH 418  Interpreting Enigmatic India
T ANTH 464  Native American Cultural Areas
TCOM 310  Contemporary Environmental issues and the Media
TCOM 351  Video Production
TCOM 470  Documentary Production and Critique
TECON 421  Environmental Policy
TESC 107  Geohazards and Natural Disasters
TESC 304  Tropical Ecology and Sustainability
TESC 318  Biogeography

5 credits: Humanities course/environmental focus:
T ANTH 464  Native American Cultural Areas
T ARS 402  Eco-Art: Art in Response to Environmental Crisis
T ARTS 284  Art and Culture of the Pacific
T HIST 379  Modern Architecture
T HIST 226  American Architecture
T LIT 437  Nature and the Environment in American Literature
T LIT 431  Contemporary Native American Women's Literature
T GH 303  Global Challenges
T PHIL 235  Religion in the Modern World
T PHIL 353  The End of the Modern World
T PHIL 361  Ethics in Contemporary Society
T PHIL 362  The Beautiful and the Good: Philosophy's Quest for Value

TECON 421  Environmental Policy
T GEOG 403  Geography of the USA and Canada
T GEOG 435  Contemporary Geopolitics
T GEOG 440  Political Geography
T GH 303  Global Challenges
T HIST 445  History of Tacoma
T HIST 456  North American Regions
T HIST 487  Technology in the Modern World
T HIST 488  Urbanization and the Environment
T HIST 490  Medieval Technology
T HIST 495  The Metropolis
TLHIT 410  Environmental Justice
TLHIT 472  Human and the Environment
TIAS 443  Ethnicity and the Urban Landscape
T INST 401  Technology in Service of Global Society
TNPRFT 431  Community Organizations in the Nonprofit Sector
TNPRFT 451  Essentials of Grant Writing and Fundraising
TPOL S 326  Modern Brazil
TPOL S 342  Third World Cities
TPOL S 435  Popular Movements in Latin America
T SOC 436  Rural Societies and Development
T SUD 240  The City and Nature
T SUD 323  Sustainable Urban Development Policies
T SUD 445  Urban Ecology
T URB 205  Images of the City
T URB 210  Urban Society and Culture
T URB 220  Introduction to Urban Planning
T URB 301  The Urban Condition
T URB 312  Race and Poverty in Urban America
T URB 321  History of Planning, Theory and Practice
T URB 322  Land Use Planning
T URB 326  Climate Change within the Urban Context
T URB 330  City Worlds
T URB 345  Urban Government and Organizations
T URB 410  Environmental Equity
T URB 450  Planning for Sustainability

Interdisciplinary Arts and Sciences  |  2012-2013 Catalog  |  University of Washington Tacoma 89
T PHIL 363 Philosophical Perspectives on the Environment
T PHIL 364 Topics In the Philosophy of Sciences
T PHIL 367 Utopias
T PHIL 451 The Enlightenment
T PHIL 455 Medicine and Morality: Biomedical Ethics
T PHIL 458 Ways of Knowing
TRELIG 367 East Asian Religions: Zen and Taoism
TRELIG 463 God: East and West
TWRT 211 Argument and Research in Writing
TWRT 291 Technical Communication in the Workplace
TWRT 331 Advanced Disciplinary Writing: Natural Sciences
TWRT 387 Creative Nonfiction Writing
TWRT 431 Writing for Social Change

Graduation Requirements for BS in Environmental Science with the Biology Track

To be eligible for graduation with a bachelor of science in environmental science, students must meet the UW Tacoma scholastic standards (2.0 UW GPA), credits required (minimum 180), and the final-year residency requirement and complete the following program requirements:

- Complete a minimum of 45 credits of upper-division course work and a minimum of 45 credits in Interdisciplinary Arts and Sciences.
- Completion of all general education requirements not met with transfer courses. See adviser for details.
- Complete the B.S. degree preparatory courses and requirements (above). Minors and certificates are optional. No more than 15 elective credits can be taken for a Satisfactory/Not Satisfactory grade; see adviser for details.
- Complete five credits of English composition with a minimum grade of 2.0.
- Complete at least 45 of last 60 credits in residence at the University of Washington Tacoma.
- Compile a portfolio of work completed during the course of the student’s residence at UW Tacoma and submit it for review during the second week of the student’s last quarter of enrollment.
- Meet with a program adviser to complete a graduation application no later than the second week of the quarter in which the student plans to graduate.

| 6 credits: two required “bookend” courses |
| TESC 310 Environmental Research Seminar (3) |
| TESC 401 Environmental Science Senior Seminar (3) |

| 3-10 credits: Capstone experience (internship, research, etc.) Planned with faculty adviser; may span more than one quarter. |
| TESC 333 Environmental Chemistry (6) |
| TESC 340 Ecology and Its Applications (6) |

| Five additional TESC courses to include one physical science (P), at least two labs (L) courses (TESC 380 and one more from List A or B) and one field (F) course. |
| TESC 100/300, 107/317, 110, 111 and 213/313 not allowed. |

| TESC 380 Molecular Biology (L) |
| Three courses from List A or B (at least one course from each): |
| List A: Organismal, Molecular, Genetics |
| TESC 240 Human Biology and Environmental Interactions |
| TESC 370 Environmental Microbiology (L) |
| TESC 405 Evolution |
| TESC 408 Marine Plankton (L) |
| TESC 438 Environmental Biology: Marine Invertebrates (L) |
| TESC 440 Environmental Entomology (L) |

| List B: Ecology, Conservation Biology |
| TESC 202 Plant Biology and Ecology |
| TESC 223 Issues in Biological Conservation |
| TESC 236 Plants and People: The Science of Agriculture |
| TESC 304 Tropical Ecology and Sustainability |
| TESC 332 Conservation Biology in Practice (L) |
| TESC 362 Introduction to Restoration Ecology (F) |
| TESC 402 History and Ecology of Biological Invasions |
| TESC 404 Neotropical Field Studies: Ecology and Community (F) |
| TESC 432 Forest Ecology (F) |
| TESC 442 Marine Ecology (F) |
| TESC 434 Biology, History/Politics of Salmon in the Pacific |
| TESC 437 Stream Ecology (PL) |

| TESC 452 Plants, Insects and their Interactions (F) |
| TESC 430 Environmental Modeling (P) |
| T MATH 310 Statistics for Environmental Applications (P) |

One additional course from lists A-C to complete this portion of the degree requirements.

| List C |
| TESC 211 The Science of Environmental Sustainability (P) |
| TESC 215 Meteorology (P if 6 cr- L) |
| TESC 227 Earth History (P) |
| TESC 238 Human Interactions with Marine Invertebrates (B) |
| TESC 239 Energy and the Environment (P) |
| TESC 241 Oceanography (P if 6 cr- L) |
| TESC 243 Geography of the Physical Environment (P) |
| TESC 247 Maritime History and Science in the Pacific Northwest (P) |
| TESC 302 Ecology of Mt St. Helens (B/P/F) |
| TESC 303 Sustainable Development in Africa (B/P/F) |
| TESC 315 Applied Physics with Environmental Applications (P/L) |
| TESC 316 Pacific Northwest Geology (P) |
| TESC 317 Geology, Landscape and Culture (England) (P/F) |
| TESC 318 Biogeography (P/B, if 6 cr- L) |
| TESC 319 Water Quality Concepts and Watershed Studies (P/L) |
| TESC 321 Soils and Environmental Applications (P) |

| 5 credits: Environmental Law/Policy course (TECON 421 does not count) |
| TEST 333 Environmental Policy Application and Compliance |
| TEST 335 Environmental Impact Analysis |
| TPOL S 438 Environmental Law |

| 5 credits: Environmental Ethics course |
| T PHIL 363 Philosophical Perspectives on the Environment |
| T PHIL 364 Topics in the Philosophy of Science |
| T PHIL 456 Environmental Ethics |

| 5 credits: Social Science/environmental focus |
| T ANTH 418 Interpreting Enigmatic India |
| T ANTH 464 Native American Cultural Areas |
| TCOM 310 Contemporary Environmental Issues and the Media |
| TCOM 351 Video Production |
| TCOM 470 Documentary Production and Critique |
| TECON 421 Environmental Policy |
| TESC 304 Tropical Ecology and Sustainability |
| TESC 318 Biogeography |
| TEST 211 Women in Science |
| TEST 221 Environmental History: Water |
Graduation Requirements for BS in Environmental Science with the Geosciences Track

To be eligible for graduation with a bachelor of science in environmental science, students must meet the UW Tacoma scholastic standards (2.0 UW GPA), credits required (minimum 180), and the final-year residency requirement and complete the following program requirements:

- Complete a minimum of 45 credits of upper-division course work and a minimum of 45 credits in Interdisciplinary Arts and Sciences.
- Completion of all general education requirements not met with transfer courses. See adviser for details.
- Complete the B.S. degree preparatory courses and requirements (above). Minors and certificates are optional. No more than 15 elective credits can be taken for a Satisfactory/Not Satisfactory grade; see adviser for details.
- Complete five credits of English composition with a minimum grade of 2.0.
- Complete at least 45 of last 60 credits in residence at the University of Washington Tacoma.
- Compile a portfolio of work completed during the course of the student’s residence at UW Tacoma and submit it for review during the second week of the student’s last quarter of enrollment.
- Meet with a program adviser to complete a graduation application no later than the second week of the quarter in which the student plans to graduate.

- 6 credits: two required “bookend” courses
  - TESC 310 Environmental Research Seminar (3)
  - To be taken in the first quarter of enrollment (sophomore or junior year)
  - TESC 410 Environmental Science Senior Seminar (3)
  - To be taken in the last quarter of enrollment after or concurrent with capstone experience

- 3-10 credits: Capstone experience (internship, research, etc.) Planned with faculty adviser; may span more than one quarter.

- 12 credits: Environmental science core courses:
  - TESC 333 Environmental Chemistry (6)
  - TESC 340 Ecology and Its Applications (6)

- Five additional TESC courses to include one biological science (B) at least two lab (L) courses (TESC 337 and one more from List G or H) and one field (F) course.
  - TESC 100/300, 107/317, 110, 111 and 213/313 not allowed.
  - TESC 337 Environmental Geology (L)

- Three courses from List G:
  - TESC 315 Applied Physics with Environmental Applications (L)
  - TESC 316 Pacific Northwest Geology + (TESC 326 PNW Geology Field Trip (L))
  - TESC 317 Geology, Landscape, and Culture (F)
  - TESC 319 Water Quality Concepts and Watershed Studies (L)
  - TESC 321 Soils and Environmental Applications
  - TESC 341 Climate Change
  - TESC 343 The Atmosphere and Air Pollution (L)
  - TESC 415 Sedimentology (L)
  - TESC 417 Field Geology (F)
  - TESC 430 Environmental Modeling (B)
  - TESC 433 Pollutant Fate and Transport in the Environment (L)
  - TESC 435 Limnology (F)
  - TESC 437 Stream Ecology (L)
  - TESC 445 Estuarine Field Studies (F)
  - TGIS 311 Maps and GIS (L)
  - TMATH 310 Statistics for Environmental Applications (B)
List H

One additional course from List G or H.

TESC 202  Plant Biology and Ecology (B)
TESC 211  The Science of Environmental Sustainability
TESC 232  Issues in Biological Conservation (B)
TESC 236  Plants and People: The Science of Agriculture (B)
TESC 238  Human Interactions with Marine Invertebrates (B)
TESC 240  Human Biology and Environmental Interactions (B)
TESC 302  Ecology of Mt St. Helens (B/F)
TESC 303  Sustainable Development in Africa (B/F)
TESC 304  Tropical Ecology and Sustainability (B)
TESC 318  Biogeography (B, if 6 cr- L)
TESC 322  Conservation Biology in Practice (B/L)
TESC 335  Pollution and Public Policy
TESC 349  Research at SEA (B/F)
TESC 362  Introduction to Restoration Ecology (B/F)
TESC 370  Genetics and Society (B)
TESC 378  Environmental Microbiology (B/L)
TESC 380  Molecular Biology (B/L)
TESC 402  History and Ecology of Biological Invasions (B)
TESC 404  Neotropical Field Studies: Ecology and Community (B/F)
TESC 405  Introduction to Biochemistry I (if 6 cr, L)
TESC 408  Marine Plankton (B/L)
TESC 422  Evolution (B/if 6 cr- L)

Course Descriptions

See the Interdisciplinary Arts and Sciences website for the most current course information at tacoma.uw.edu/ias.

Anthropology

T ANTH 100  Introduction to Anthropology 5 credits
Introduction to the sub-fields of archaeology, biocultural anthropology, and sociocultural anthropology through the examination of selected problems in human physical, cultural, and social evolution. Not recommended for students who have had other courses in anthropology, archaeology or biocultural anthropology. [I]

T ANTH 201  Principles of Biological Anthropology 5 credits
Evolution and adaptation of the human species. Evidence from fossil record and living populations of monkeys, apes, and humans. Interrelationships between human physical and cultural variation and environment; role of natural selection in shaping our evolutionary past, present, and future. [I]

T ANTH 354  History of the Concept of Culture 5 credits
Investigation of the history of the concept of culture, from its origins in the 19th-century notions of "race" and "evolution," through its later development in 20th-century popular and anthropological usages. [I]

T ANTH 365  North American Indian Traditions 5 credits
A comparative exploration of the major traditional practices developed in Native North America. Special attention is given to world view, religious expression, the problems of change, and the contemporary viability of core elements associated with these traditions. [I]

T ANTH 453  Health, Illness and Culture 5 credits
This course will explore meanings of health and illness in contemporary American culture. We will also consider historical, cross-cultural and literary examples. Conversely, health, illness and therapeutic and preventive practices provide crucial insights into aspects of American culture and society. [I]

T ANTH 454  Seminar on Health and Culture 5 credits / Prerequisite: Permission of instructor
Historical, anthropological and sociological approaches to the meaning of health in modern and contemporary cultures. Exploration of how the expansion of medical, political and educative discourses about health and health hazards have shaped consciousness, identity and social practice. Seminar format (discussion-based class sessions and presentation of library research). [I]

T ANTH 480  Linguistics Method and Theory 5 credits
Examines major linguistic theories in phonology, syntax and semantics, linguistics analysis and argumentation. [II][V]

Arts

TARTS 100  World Voices Vocal Ensemble I 1 credit, max 5 credits
Introductory study in singing and musicianship. Performance of different types of choral music ranging from Gospel to Call and Response, contemporary and historic music of world cultures, as well as popular style. Open to all University of Washington students, faculty, staff, and community. Credit/No Credit only. [V]

TARTS 101  World Voices Vocal Ensemble II 1 credit, max 5 credits / Co-requisite: TARTS 100
Extended study in singing and musicianship. Explores advanced repertoire in different types of choral music ranging from Gospel, to Call and Response, music of world cultures both contemporary and historic, along with personal vocal study. Open to all students. Concurrent enrollment in TARTS 100 required. Credit/No Credit only. [V]

TARTS 110  Music in Culture 1 credit, max. 3 credits
Explores music and social expression through innovative and collaborative projects. Investigates roles of music in addressing issues of social justice and resistance, issues of cultural identity and history, and popular culture. [V]

About Fulfilling Admission Requirements

Students may fulfill requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description: [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.
T ARTS 200
Studio Foundation I: Contemporary Art Strategies
5 credits, max. 15 credits
Provides hands-on experience in studio art with a variety of visual and performative strategies while introducing them to narrative and symbolic forms. Explores how to use images, objects and interventions in time and space, and learn skills for conceptually-based art marking. Additional art materials will need to be purchased by the student for this course. One visit to the Tacoma Art Museum may be required outside of the regular class meeting times. Course may be repeated with instructor permission. [V]

T ARTS 210
The African Diaspora through Music: The Rhythm, the Blues and Beyond
5 credits
Traces the evolution of the blues from its African indigenous roots, through slavery in the American South, and the cultural assimilation of various elements that influenced its development. Examines the impact on U.S. and global culture, and explores the contemporary African immigrant population in our region. [I]

T ARTS 240
Landscape in Contemporary Art
5 credits
Develops skills in drawing, composition and alternative means of expression during a concentration of art production on a single theme. Examines the changing role of landscape in art and the part environmentalism, politics and global culture have played in those changes. [V]

T ARTS 280
Three-Dimensional Art and Contemporary Approaches to Sculpture
5 credits
Examines three-dimensional images and explores innovations and trends in contemporary sculpture. Covers formal design elements and historic and cultural meaning. Includes studio projects, process book, reading and discussion, and research project. May be repeated with instructor permission. [V]

T ARTS 281
Art and Culture in India
5 credits
Examines contemporary India in historical and comparative contexts. Emphasizes production of diverse material objects and how they produce and represent value and significance for South Asian conceptions of self, society and the real world. [II][V]

T ARTS 282
Art and Culture in China
5 credits
Examines major aspects of contemporary Chinese culture in broad historical and comparative contexts. Emphasis on family, self-cultivation, virtues, and artistic refinement in the constitution of unequal social power in China. Examines modern faith systems in relation to Daoist, Confucian, Buddhist, and popular folk conceptions of life and reality. [II][V]

T ARTS 283
Art and Culture in Japan
5 credits
Examines material production of value and meaning for contemporary Japanese people. Examines a framework for interpreting the present in relation to the past, and recognizing common cultural strategies for cultivating a respected self in Japanese culture. Includes topics of family, gender, work, business, and aesthetics as they relate to various identities. [II][V]

T ARTS 284
Art and Culture in the Pacific
5 credits
Examines the personal, social, economic, and political predicaments of selected modern island nations in relation to their ancient and colonial histories. Examines complex adaptations and rejections of European ways, migrations, contemporary sovereignty movements, and vigorous re-assertions of local mana (modes of power, knowledge, and prestige). [II][V]

T ARTS 311
History of Rock and Roll
5 credits
In-depth look at the musical, social, and political history of rock and roll. Begins with pre-rock era of the 1940s through the fragmented rock styles of the 1990s and beyond. Recorded examples and video clips underscore the tremendous changes in American popular music and culture brought by rock and roll. [V]

T ARTS 314
Rap Music, Identity, and Culture
5 credits
Explores rap music and how it has shaped our society. Examines musical aspects of rap, the culture in which it originated, and the culture that it has created. [II][V]

T ARTS 331
Rap Music, Identity, and Culture
5 credits
Explores rap music and how it has shaped our society. Examines musical aspects of rap, the culture in which it originated, and the culture that it has created. [II][V]

T ARTS 335
History of Photography
5 credits
Surveys the history of photography from 1839 to the present with an emphasis on various dimensions of the medium from art to advertising, journalism, photographic documentary, surveillance and pornography. Analyzes the photograph in the context of technological advancement, aesthetics, social and cultural influences, critical and theoretical discourses. [V]

T ARTS 360
Women Artists from the Renaissance to the Present
5 credits
Explores the painting, printmaking, photography, sculpture and new art forms of women from the Renaissance to the present, placing their work in artistic and cultural contexts. Situates women artists in the framework of general art history to provide an overview of women artists’ careers and production. [V]

T ARTS 366
The Artist as Visionary and Dreamer
5 credits
Explores art that investigates dreams including dream journals and work with collage, painting, drawing, and photography. Focuses on reading of the artist as visionary and utopian thinker as well as contemporary dream theory as a tool for social change and healing. Concludes with a collaborative, community-based project. [V]

T ARTS 367
Ideas Through Objects: A Conceptual Approach to Art
5 credits
Explores the metaphorical possibilities within objects through various contemporary art-marking techniques. Emphasis on the development of meaning through the creation or manipulation of objects. Instruction in both formal and conceptual art making. [V]

T ARTS 368
Human Figure in Contemporary Art
5 credits
Examines major aspects of contemporary art and sculpture. Covers formal design elements and historic and cultural meaning. Includes studio projects, process book, reading and discussion, and research project. May be repeated with instructor permission. [V]

T ARTS 386
Contemporary Art and Studio Drawing
5 credits
Focuses on concepts of sight and place through contemporary art-making procedures. Includes instruction in both formal and conceptual approaches to site-specific installation. Emphasis on creating connections and dialog between place, artist, audience. [V]

T ARTS 390
Site Specificity in Art
5 credits
Focuses on concepts of site and place through contemporary art-making procedures. Includes instruction in both formal and conceptual approaches to site-specific installation. Emphasis on creating connections and dialog between place, artist, audience. [V]

T ARTS 391
Reconstructing Self in Art
5 credits
Examines the personal, social, economic, and political predicaments of selected modern island nations in relation to their ancient and colonial histories. Examines complex adaptations and rejections of European ways, migrations, contemporary sovereignty movements, and vigorous re-assertions of local mana (modes of power, knowledge, and prestige). [II][V]

T ARTS 395
Community-Based Arts Practice
5 credits
Investigates community-based art through experiential learning and exposure to contemporary art theory and history. Students create a community-based art project and work with local artists who are developing projects in the community. [V]
T ARTS 402
Eco-Art: Art Created in Response to the Environmental Crisis
5 credits
Investigates how art can address the environmental crisis. Experiment with contemporary art practices, creating work that reflects concerns about the environment. Discussions focus on the ways contemporary artists define eco-art, the history of the art that looks at nature, the landscape, and current ecological theory. [V]

T ARTS 403
Body Image and Art
5 credits
Explores questions about body image through contemporary art making strategies. Examines how the human body is portrayed in popular visual media, considers relevant art history, and uses drawing, photography, and site-specific projects to investigate the students’ stories about the body. [V]

T ARTS 404
Art in a Time of War
5 credits
Examines art that addresses the topics of war and peace. Analyzes contemporary popular media and how they frame war and violence. Students create art, read and discuss how art might prompt our society to visualize new ways of resolving conflict. [V]

T ARTS 405
Cultural Identity and Art
5 credits
Examines the concept of cultural identity and fear of difference. Through reading, analysis of contemporary media and art, and studio artwork, students make art pieces that explore cultural identity using digital photography and text, photocollage, site-specific installation, and community-based art. [V]

T ARTS 406
Labor, Globalization and Art
5 credits
Explores issues of labor and globalization through the art process. Experiments with contemporary art practices, making projects that examine work histories and that follow the global journey of a commodity. Discussions focus on the history of labor art and how art is intersecting the global justice movement. [V]

T ARTS 407
Art and the Public
5 credits
Explores issues associated with the creation of public art. Investigates the individual’s role in community establishment, cultural politics, memorialization, and visual response to social and political events that shape our communities. Studio course, personal supplies and art display permission required. [V]

T ARTS 411
History of Jazz
5 credits
Presents a broad survey of the primary periods and styles of jazz during the 20th century in the United States. Exposes students to the most innovative jazz musicians and their music as well as their contributions to American culture through the use of extensive audio and video examples. [V]

T ARTS 469
Art Theories, Methods and Philosophies
5 credits
Studies theories, methodologies and philosophies that have shaped the practice, analysis and criticism of art such as aesthetics, formalism, Marxism, structuralism, semiotics, psychoanalysis, feminism and postcolonialism. [V]

T ARTS 471
Culture and Meaning in the Visual Arts
5 credits
Considers various ways of exploring the relationship of "art" to its cultural contexts. Specific topics may take either a U.S. or International focus, depending on student interests. [V]

T ARTS 480
Contemporary Art and Society: 1945 to Present
5 credits
Studies major artists and creative trends since World War II within the framework of popular culture. Investigates contemporary modes of creative expression within regional, national and international art scene. Frames discussions within context of historical conceptions and critical debates. Current exhibitions serve as case studies. Participation in field trips required. [I]

Chinese

TCHIN 101
First-Year Chinese
5 credits
Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese.

TCHIN 102
First-Year Chinese
5 credits / Prerequisite: minimum grade of 2.0 in TCHIN 101
Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese.

TCHIN 103
First-Year Chinese
5 credits / Prerequisite: minimum grade of 2.0 in TCHIN 102
Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese.

TCHIN 201
Second-Year Chinese
5 credits / Prerequisite: minimum grade of 2.0 in either TCHIN 103
Continuation of CHIN 103. Advanced grammar and vocabulary expansion stressed. Aural and oral practice and structural drills continued. [V]

TCHIN 202
Second-Year Chinese
5 credits / Prerequisite: minimum grade of 2.0 in TCHIN 201
Advanced grammar and vocabulary expansion stressed. Oral practice and structural drills continued. [V]

Communication

TCOM 201
Media and Society
5 credits
Explores theoretical perspectives and core issues in the relationship between the media and society, including the production and reception of both news and entertainment. Evaluates the historical, cultural, political and economic contexts of media industries, representations, and audiences. [I]

TCOM 230
Media Globalization and Citizenship
5 credits
Introduces key concepts in international communication and global media studies such as cultural imperialism, electronic colonialism, and media globalization. Through case studies from around the world, students evaluate their positions as global citizens and explore opportunities for activism. [I]

TCOM 247
Television Studies
5 credits
Introduces the study of television as a social, cultural, and political force. Examines the production, distribution, and reception of television texts of different genres, including news and entertainment; evaluates how television reflects and influences different societies and groups; explores television in different historical periods and through various technologies. [I]

TCOM 257
Ethical Issues in Mass Communication
5 credits
Critically examines the relationship between the mass media and American society. Focuses on the individual journalist as a link between the two. Through a study of ethical theories, and of the social, political, and economic context of the media, evaluates the professional and ethical dilemmas of the journalist. [I][V]

TCOM 258
Children and Television
5 credits
Examines the historical, sociological, and psychological context of children watching television. Brings together scholarship from child psychology, television criticism, and reception studies. [I]
TCOM 275  
Writing, Reporting and Editing for the Mass Media  
5 credits  
Introductory skills course on writing, reporting, editing for print and broadcast media. Helps students develop a concise writing style, passion for thorough, accurate reporting, and a sensitivity to various audiences’ needs and interests. Focuses on standard news practices in various news organizations, and on methods to effectively combine visual elements with the written word. Emphasizes strategies for gathering information effectively and for developing skills in interviewing, note-taking, and observation.  [V]  

TCOM 310  
Contemporary Environmental Issues and the Media  
5 credits  
Explores the complex relationship between contemporary environmental issues and the media. Examines how environmental issues are framed and represented in various media, from corporate-owned new organizations to Hollywood films.  [I]  

TCOM 320  
Principles of Web Design  
5 credits  
Examines the theories and techniques of visual and design rhetoric central to web design. Discusses how purpose, audience and context affect the development of web pages and other electronic documents. Explores principles of web-based document design, creation, layout, editing, publishing, and maintenance through web design practices.  

TCOM 347  
Television Criticism and Application  
5 credits  
Explores narrative structures and production techniques utilized in television in an integrated manner. Analyzes and discusses critical approaches to television texts and techniques, including use of camera angles, lighting design, sound effects, editing. Explores the application of basic production techniques in a hands-on manner.  [V]  

TCOM 348  
Nonfiction Writing for Television  
5 credits  
Explores non-fiction styles of writing for television, including news writing and documentary writing, with a focus on the development of stories from a proposal to a script. Issues and conflicts that arise with the linking of visual images and spoken words in non-fiction television genres will also be addressed.  [V]  

TCOM 349  
News Writing  
5 credits  
Covers principles of news writing and reporting, including lead writing, Associated Press style conventions, news judgment, and ethical and legal issues.  [V]  

TCOM 350  
Editing and Design for Print Media  
5 credits  
Covers elements of print media editing and design including: selection and editing of news copy; headline writing; typography; selection, sizing and cropping of photos; functions of layout; principles of publication design and their practical applications. Students also complete several page design projects as teams.  [V]  

TCOM 351  
Video Production  
5 credits  
Examination of principles of visual and audio communication, including telling stories using image, movement, spoken words and other sounds in an integrated manner. Discusses critical approaches to television production and utilizes them in a hands-on manner to develop production skills.  [V]  

TCOM 353  
Critical Approaches to Mass Communication  
5 credits  
Critically examines the role of mass communication in producing and reproducing cultural meaning in contemporary U.S. society. Studies various media, including print, sound and film recording, broadcast, and new media.  [I]  

TCOM 354  
Communication History  
5 credits  
Considers communication history as a complex matrix of patterns, systems, and technologies that are central to human history. Includes development of different forms of communication and the intertwining of the history of mass communication with the history of other social institutions.  [I]  

TCOM 357  
Writing for Public Relations  
5 credits  
Explores aspects of public relations writing, including news releases for print and broadcast media, advertising copy, speeches, newsletters, and crisis communication. Emphasizes writing for clarity and interest, simplifying complex issues, and conducting effective media relations.  [V]  

TCOM 358  
Russian Media Studies: From Communism to Democracy  
5 credits  
Examines the unfolding of this new quasi-democratic media system, starting first with a general history of the Russian media and following with a focus on the media under Gorbachev, Yeltsin and Putin. Raises questions concerning if and how a democratic press can operate in contemporary society.  [I]  

TCOM 430  
Global Networks, Local Identities  
5 credits  
Explores historical and contemporary debates on globalization, cultural imperialism, national identity, and global consumerism. Examines structure and content of such transnational networks as Star TV and CNN, and evaluates the impact of these networks on local identities.  [I]  

TCOM 440  
Advertising and Consumer Culture  
5 credits  
Explores the past, present, and future of advertising as a form of communication by examining television commercials, political campaigns, billboards, movie trailers, and magazine ads. Also explores the industry that creates these materials, the consumption practices they encourage, and their impact on contemporary culture.  [I]  

TCOM 444  
Gender, Ethnicity, Class and the Media  
5 credits  
Discusses the media’s powerful sites for the construction and promotion of ideologies of gender, ethnicity, and class. Studies the socio-historical origins of these ideologies, using methods of media analysis to examine their presence in contemporary print and broadcast media.  [I]  

TCOM 454  
Communications Law  
5 credits  
Examines issues surrounding freedom of expression in the United States and citizens’ and the media’s legal rights in gathering and disseminating news and information. Explores the freedoms afforded by the First Amendment and shows how those protections are still evolving in the twenty-first century.  [I]  

TCOM 460  
Communication and National Development  
5 credits  
Focuses on controversial origins of development communication and the evolution of this field into grassroots development communication. Examines case studies of grassroots development and entertainment-education in Asia, Latin America, and Africa. Draws connections between remote and local case studies of grassroots development through student-produced video documentaries.  [I][IV]  

TCOM 461  
Media and Identity in Asia  
5 credits  
Explores dynamics of television production and consumption of non-western countries within their postcolonial and neocolonial contexts. Examines case studies from such countries as India, Indonesia, Singapore, China, and Malaysia. Addresses programming hybridity, audience resistance and adaptation, and the impact of transnational media networks on local cultural identities.  [I]
TCOM 470
Documentary Production and Critique
5 credits / Prerequisite: TCOM 351
Examines theoretical and ethical issues involved in the production of non-fiction genres while shooting and editing short-form, community-based documentaries. [V]

TCOM 480
Political Economy of the Media
5 credits
Examines the historical evolution and economic structure in which media industries are embedded and develops theoretical and analytical tools for the evaluation of media industries. Survey of patterns of ownership and control, government policies and other issues in media industries, including newspapers, magazines, television, motion pictures, and recorded music. [I]

TCOM 481
Communication Regulation and Policy
5 credits
Examines the theoretical foundation and historical evolution of communication regulation in the United States with the broadcast industries, television and radio, the primary focus. Surveys the current state of regulation in various communication industries in the aftermath of the Telecommunications Act of 1996. [I]

TCOM 482
Investigative Reporting
5 credits
Investigative reporting is demanding, intellectually, emotionally, and physically. Prepares students to undertake quality in-depth journalism. Includes interviewing, researching, and writing lengthy investigative news articles. [I]

TCOM 486
Feature Writing for Print Media
5 credits
Explores the news feature writing, with emphasis on developing story ideas, gathering materials, and writing in clear, compelling fashion. Intended for students who wish to contribute articles to The Ledger, community newspapers, or specialty publications. Also covers writing for the freelance market. [V]

TCOM 490
Communication Capstone Internship
5 credits / Prerequisite: approval of internship proposal
Communication or media related internship in the public or private sector, supervised by a Communication faculty member. Credit/no credit only.

TCOM 495
Communication Capstone Thesis
5 credits / Prerequisite: approval of thesis proposal
Plan and carry out a significant scholarly communication or media studies independent research project under the direction of a Communication faculty member.

Economics

TECON 100
Understanding Economics
5 credits
Examines fundamental concepts of economic analysis with application to contemporary problems. Cannot be taken for credit if credit has already been earned for a 200-level TECON or equivalent/higher-level economics course. [I][Q]

TECON 150
Quantitative Preparation for Economics and Business
5 credits
Introduces students to the kinds of quantitative analysis used in economics and business courses. Uses practical examples to build skills in graphical analysis, use of algebra, basic probability, introductory computer use, and quantitative reasoning. [N][Q]

TECON 200
Introduction to Microeconomics
5 credits
Analysis of markets: consumer demand, production, exchange, the price system, resource allocation, government intervention. [I][Q]

TECON 201
Introduction to Macroeconomics
5 credits / Prerequisite: TECON 200
Analysis of the aggregate economy: national income, inflation, business fluctuations, unemployment, monetary system, federal budget, international trade and finance. [I][Q]

TECON 320
Gender and Development
5 credits
Applies economic concepts to examine the role of gender in economic and social change. Examines critical debates surrounding households, particularly decisions about land, labor, resource allocation, bargaining power, and education; and the role of internal organizations, laws, and corporations in women’s access to economic opportunity and political power. [I]

TECON 328
Third World Problems and Prospects
5 credits
Examines contemporary issues and problems faced by the developing world. Considers economic development, resource use, and aspects of neocolonialism. Discusses selected topics relevant to individual Third World regions and presents case studies. [I]

TECON 332
Rise of East Asia
5 credits
Compares the cultural, economic and political development of the countries of East Asia. Topics may include political institutions, religion, business, economic development, trade and finance, science and technology, and arts and literature. [I]

TECON 340
International Economics
5 credits
Examines theory, institutions, and case studies in international economics. Covers theory of international trade and international finance, and analyses of government trade and finance policies. Analyzes role of international institutions. [I]

TECON 350
Economic History of Europe
5 credits / Recommended: either TECON 200, TBECON 200, TECON 201 or TBECON 201
Examines the transformation of Europe from an agricultural to an industrial economy. Utilizes a theoretical understanding of the economic processes to explain economic history and economic development. [I]

TECON 360
Poverty in Developing Countries
5 credits
Examines the economic, social, and political factors that explain extreme poverty around the world. Examines patterns of extreme poverty, the relationship between domestic policies and poverty, and the role international factors play in contributing to and alleviating poverty in developing countries. [I]

TECON 394
Comparative Economic Development
5 credits
Introduces a variety of issues affecting Third World economies in a framework that emphasizes their particular and varied post-colonial histories. Draws on economic theory, cultural and economic anthropology, literature, and other sources to understand institutions and sources of change in these economies. [I]

TECON 401
Topics in Economic History and Analysis
5, max. 10 credits / Prerequisite: either TECON 200, TBECON 200, TECON 201 or TBECON 201
Selected economic studies. Possible topics include history of monopoly and antitrust policy, economic regulation, structural change in the U.S. economy, labor economics and the Industrial Revolution. [I]

TECON 410
Economics of Public Policy
5 credits / Prerequisite: Either TECON 200 or TBECON 220
Applies economic analysis to public issues, policies, and programs. Provides a theoretical understanding of markets and government policies to examine existing and alternative public policies. Analyzes case studies of government policies, and evaluates and critiques current public policies and alternatives. [I]
TECON 416 Current Issues in U.S. Public Policy
5 credits
Develops student's analytical and conceptual understanding of current key federal public policy issues and reform proposals. Examines the economic role of the government versus the private sector in the U.S. economy, and analyzes issues surrounding the appropriate size and role of the public sector. [I]

TECON 418 Urban Problems and Policies
5 credits
Develops and applies economic analyses to an understanding of the dynamics and underlying structure of urban economies and urban problems. Draws examples from the local economy and local problems. [I]

TECON 420 Economics of Education
5 credits
Examines topics in the economics of education including how schools are financed and why; what determines the amount and distribution of individual educational obtaining; debate over school vouchers; and the economic returns to education. [I]

TECON 421 Environmental Policy
5 credits / Prerequisite: either TECON 200, TBECON 200, TECON 201 or TBECON 201
Examines tradeoffs between the formal economy and the environment, and assesses current environmental policy. Places particular emphasis on examining and understanding local environmental issues. [I][N]

TECON 422 Economics of Sports
5 credits
Explores sports economics. Uses economic theory and analysis to examine issues central to professional sports such as the determination of salaries and the public subsidization of stadiums. [I]

TECON 425 Contemporary Issues in International Political Economy
5 credits / Prerequisite: either TECON 200, TBECON 200, TECON 201, or TBECON 201
Investigates pressing issues confronting both industrialized and underdeveloped societies. Includes topics such as the international debt crisis, the changing international division of labor, poverty and inequality in the world economy, liberation movements, internationalization of production and regional disruptions in the U.S. [I]

TECON 440 Global Economic Challenges
5 credits / Prerequisite: either TECON 200, TBECON 200, TECON 201 or TBECON 201
Develops the contextual and analytical background necessary to understand and evaluate a number of major economic challenges facing citizens and nations throughout the world. Topics include global financial crises, energy and environmental security, global financial imbalances, global inequality and poverty, and the emergence of new economic powers. [I]

TECON 460 China’s Rise and its Global Economic Implications
5 credits / Prerequisite: either TECON 200, TBECON 200, TECON 201 or TBECON 201
Explores and evaluates the implications of China’s growth and management of its economy for both Chinese citizens as well as the global economic system. Develops the analytical background necessary to understand the recent rapid emergence of China. [I]

Environmental/Natural Science

TESC 100 Introduction to Environmental Science
5 credits
Provides an overview of physical and biological processes affecting the environment and exploration of current environmental issues. Topics may include earth system science, population and community ecology, evolution, conservation biology, water and air quality, natural resource management, and case studies relevant to the Pacific Northwest. Includes laboratory. Does not fulfill degree requirements for Environmental Science or Studies majors. [N]

TESC 107 Geohazards and Natural Disasters
5 credits
Provides a scientific foundation and understanding of the basic natural and physical processes driving what we perceive as geohazards and natural disasters. Does not fulfill degree requirements for Environmental Science or Studies majors. [N]

TESC 110 General Biology
6 credits
Provides a comprehensive overview of biological science, including cell and molecular biology, genetics and evolution, the diversity of life, and ecology. Covers the complexity of life from molecules to ecosystems, with a combination of lecture and hands-on laboratory exercises. Intended for non-science majors and environmental studies majors. [N]

TESC 111 Introduction to Astronomy
5 credits / Prerequisite: either TQS 098, TMATH 122 or 124 (3 years of high school mathematics including intermediate algebra)
Provides a unified account of contemporary astronomy beginning with Earth and move outward through our solar system and beyond to the stars of the Milky Way and into the realm of galaxies. Introduces methods and techniques commonly employed in astronomy and their application in astronomical research. Does not fulfill degree requirements for Environmental Science or Studies majors. [N][Q]

TESC 117 Physical Geology
6 credits
Examines the fundamental geological processes that govern how the earth works. Includes plate tectonics, the rock cycle, volcanism, seismicity, surface processes and earth resources. Includes required lab. [N]
TESC 140
Introductory Biology III
6 credits / Prerequisites: 1.5 in TESC 130; 1.7 in TESC 151
Focuses on plant and animal physiology and anatomy, in conjunction with applicable chemical processes. Third in a series of introductory biology courses for science majors. Includes required lab. [N]

TESC 141
General Chemistry I
6 credits
Provides a basic background in the structure of matter, stoichiometry, chemical reactions, gases, chemical equilibrium, acids and bases and aqueous equilibria, as well as how these chemical processes affect biological mechanism. First in a series of general chemistry courses for science majors. Includes required lab. [N]

TESC 151
General Chemistry II
6 credits / Prerequisite: 1.7 in TESC 141; TQS 120/TMATH 120, which may be taken concurrently
Provides a basic knowledge in thermodynamics, electrochemistry, quantum mechanics and chemical bonding, as well as how these chemical processes affect biological organisms. Second in a series of general chemistry courses for science majors. Includes required lab. [N]

TESC 161
General Chemistry III
6 credits / Prerequisite: 1.7 in TESC 151; 2.5 in TQS 120/TMATH 120
Provides a basic knowledge in covalent bonding, chemical kinetics, liquids and solids, solutions, and groups of elements, as well as how these chemical processes affect biological organisms. Third in a series of general chemistry courses for science majors. Includes required lab. [N]

TESC 200
Environmental Seminar
1 credit, max. 6 credits
Provides exposure to current scientific research and policy initiatives. Includes presentations by researchers, discussion of recent literature, and participation in educational workshops. [N]

TESC 202
Plant Biology and Ecology
5 credits
Explores the biology of plants from the individual to ecosystem level. Topics include plant anatomy, physiology, reproduction, development, and adaptation; plant population and community dynamics, and plant responses to climate change. [N]

TESC 211
The Science of Environmental Sustainability
5 credits
Introduces the science of sustainability. Includes an overview of the origins of the concept of environmental sustainability and the development of sustainability science as an independent discipline and investigates the methodologies used by scientists to develop sustainable systems. [N]

TESC 213
Physical Forces in the Natural World
5 credits
Focuses on physical principles with environmental applications. Explores physical processes that shape and form the environment. Studies the forces of nature and the properties of matter. Includes demonstrations and develops hands-on experiential skills. Does not fulfill degree requirements for Environmental Science or Studies majors. [N]

TESC 215
Meteorology
5/6 credits
Introduces the processes that determine weather and climate. Provides an overview of basic meteorological principles and explore the cause of extreme weather conditions and air pollution problems locally and globally. [N]

TESC 227
Earth History
5 credits
Provides a scientific understanding of the physical and biological processes that have shaped the Earth over its 4.6 billion year history and relates this to issues facing society today. [N]

TESC 228
Issues in Biological Conservation
5 credits
In this course we will consider some biological and social issues associated with species conservation in a world that is growing increasingly degraded biologically. It serves as an overview of the inter-disciplinary field of conservation biology. Additionally, one or more case studies (e.g. the cleanup of Lake Washington, the Exxon Valdez oil spill, federal listings of northern spotted owls and local salmon runs) from the Pacific Northwest will form fodder for our discussions as we explore the scientific and human elements of biodiversity decision making. [N]

TESC 236
Plants and People: The Science of Agriculture
5 credits
Explores the benefits and costs of technological advances in global food production. Topics will include the origins of agriculture, plant and insect ecology, integrated pest management, genetic engineering and environmental risk assessment. [N]

TESC 238
Human Interactions with Marine Invertebrates
5 credits
Considers myriad human interactions with marine invertebrates throughout history and across cultures. Reviews biology of major marine phyla and classes of animals without backbones. Addresses human-invertebrate interactions in ancient and modern aquaculture, aesthetic and culinary arts, experimental biology, bioeconomics, advertising, economics, anthropology, archaeology, and other spheres. [N]

TESC 239
Energy and the Environment
5 credits
This course provides an overview of various renewable and nonrenewable energy resources, their distribution, availability, patterns of use and impact on the environment. It will evaluate relative energy efficiencies as well as political and economic impacts on energy use. [N]

TESC 240
Human Biology and Environmental Interactions
5/6 credits
Introduces human biological systems with a focus on environmental influences. Explores the structure and function of the major body systems (cardiovascular, endocrine, pulmonary, nervous, and excretory), and the scientific and social issues implicit in addressing human health and environmental issues. [N]

TESC 241
Oceanography
5-6 credits / Prerequisite: TESC 300, TESC 310 or equivalent
A study of the evolution, composition, structure, behavior and residents of the world’s oceans. This survey course covers all aspects of oceanography including the study of chemical, physical and biological properties of the ocean, as well as the geological characteristics of the basins in which the oceans reside. Required lab section includes hands-on activities, computer simulations, discussion, student presentations and field trips. Offered either with a required lab section (6 credits) or without a lab (5 credits). [N]

TESC 243
Geography of the Physical Environment
5 credits
Investigates the physical and chemical processes that lead to Earth’s diverse, dynamic landscapes. Introduces a geographic perspective on topics including climate and climate change, plate tectonics, mountain building, soils, hydrology, and coastlines, with a focus on the relationship between natural landscapes and habitats of living things, including humans. [N]

TESC 247
Maritime History and Science in the Pacific Northwest
5 credits
Examines the Pacific Northwest maritime cultural heritage and investigates the scientific principles that affect ocean resources. Explores topics including the Northwest indigenous seagoing peoples, early American and European explorers, current maritime trade and policy and all aspects of oceanography. [N]

TESC 251
Organic Chemistry I
5 credits / Prerequisite: minimum grade of 1.7 in TESC 161
Introduces organic chemistry, including principles on structure, classification, bonding, nomenclature, and reactions.
TESC 261
Organic Chemistry II
6 credits / Prerequisite: Minimum grade of 1.7 in TESC 251
Introduces spectroscopy and the reactions of alkyls, alkynes, conjugated species, and aromatics. [N]

TESC 271
Organic Chemistry III
6 credits / Prerequisite: Minimum grade of 1.7 in TESC 261
Emphasizes mechanisms and reactions of carbonyl species and polyfunctional compounds.

TESC 301
Sustainability in Action
3 credits
Introduces students to the challenges of planning for and implements environmental sustainability on campus. Applies sustainability theory to the design of effective action. Develops valuable organizational and interpersonal skills transferable beyond the university.

TESC 303
Sustainable Development in Africa - Study Abroad
12 credits
Serves as an intensive examination of sustainable development concepts in Africa through a study abroad experience. Investigates agriculture, water resources management, and wildlife management, including scientific, social, political, and economic viewpoints.

TESC 304
Tropical Ecology and Sustainability
5 credits
Explores biological and cultural aspects of tropical ecosystems. Integrates concepts from environmental science, ecology and evaluation in order to gain an understanding of tropical ecology. [N]

TESC 310
Environmental Research Seminar
3 credits
Covers essential skills and tools needed to succeed in upper-division environmental science courses. Includes scientific ways of thinking, investigating, reading, and writing. Explores future employment and graduate school options and opportunities. Environmental Science and Studies majors only. [N]

TESC 315
Applied Physics with Environmental Applications
6 credits / Prerequisite: TESC 121 or equivalent
Focuses on physical concepts, with an emphasis on the application of physics and its underlying mathematics, including an exploration of current physical research within environmental contexts. Applied physical concepts include: Newtonian mechanics, work, heat and energy, systems of particles, collisions, and waves. Utilizes experimental skills with weekly lab activities. [N]

TESC 316
Pacific Northwest Geology
5 credits
Explores the rocks, plate tectonics, and other geologic features, and evolution of the Pacific Northwest, including the Cascades, Columbia Plateau, Olympic Mountains, and Yellowstone. Laboratory includes rock identification, and interpretation of topographic and geologic maps of the Northwest. [N]

TESC 317
Geology, Landscape and Culture
12 credits
Explores major concepts and ideas in geology and the connections between geology, landscape, and culture through field studies of an area of outstanding geological interest. Includes study abroad, location varies. [N]

TESC 318
Biogeography
5 or 6 credits
Study of the distribution of plants and animals, as controlled by climate, geologic history and geographic location, dispersion, colonization, and invasion. Examines changes over time in distribution patterns as related to evolution, climate change, and human activities. Incorporates many disciplines including biology, ecology, anthropology, history, GIS, statistics, and geological sciences. [N]

TESC 319
Water Quality Concepts and Watershed Studies
5 or 6 credits
Investigates components needed to conduct a successful water quality study within the focus of a watershed. Covers design concepts for environmental studies, goals and approaches to sample collection, and aspects of data review and analysis. Includes field sampling and laboratory exercises involving commonly measured properties in water studies. Offered either with a required lab section (6 credits) or without a lab (5 credits). [N]

TESC 321
Soils and Environmental Applications
5 credits
Discusses interactive aspects of soil composition and properties and their influence on the environment. Covers soils and hydrologic cycle, soil ecology and nutrients, soil erosion and aquatic sediments. Includes hands-on analysis of soils and field studies of soil properties. [N]

TESC 326
Pacific Northwest Geology Field Trip
1 credit / Prerequisite: TESC 316
One week field trip exploring rocks, plate tectonics, and evolution of the region, to include the Puget Sound, Cascades, Columbia Plateau, the Olympic Mountains. Includes rock identification, application of tectonic principles, and interpretation of geologic maps. [N]

TESC 332
Conservation Biology Practice
6 credits / Prerequisite: minimum grade of 1.5 in either TESC 110 or TESC 120
Examines biodiversity and its protection through the exploration of local case studies. Lab and field exercises provide context for conservation biology theory and an in-depth study of current local issues. [N]

TESC 333
Environmental Chemistry
6 credits / Prerequisite: minimum grade of 1.5 in each of TESC 120, TESC 130, and TESC 140; minimum grade of 1.7 in each of TESC 141, TESC 151, and TESC 161; minimum grade of 2.0 in TMATH 110, TMATH 120, or TESC 121; and TESC 310, which may be taken concurrently. This course is designed to give students a background in basic environmental chemistry, with emphasis on practical applications for understanding aquatic systems. We will cover carbon, nitrogen, phosphorus, and sulfur cycles; gas exchange; alkalinity; and reduction/oxidation reactions. [N]

TESC 337
Environmental Geology
6 credits / Prerequisite: TESC 117 or TESC 217 (with lab); 6 credits
Investigates the complex interactions between humans and their geologic environment. Examines environmental aspects of natural hazards, surface processes, geologic resources, and local geology. Required lab section includes hands-on activities, computer activities, student presentations, and field trips. [N]

TESC 340
Ecology and its Applications
6 credits / Prerequisite: minimum grade of 1.5 in each of TESC 120, TESC 130, and TESC 140; minimum grade of 1.7 in each of TESC 141, TESC 151, and TESC 161; minimum grade of 2.0 in TMATH 110, TMATH 120, or TESC 121; and TESC 310, which may be taken concurrently. Ecology is the scientific study of the distribution and abundance of organisms and considers how they interact with each other and with their environments. This class focuses on key processes and interactions (e.g. population growth and regulation, competition, predation, various symbioses) needed for an understanding basic and applied ecology. Discussion of theory and data from a variety of habitats will be augmented by a lab section to include student presentations, primary literature analysis, computer simulations and/or field trips. [N]

TESC 341
Climate Change
5 credits
Provides a scientific background to climate change. Emphasizes current global warming using examples of climate change from the geological record. Considers the impact of global warming together with policies and practices that address issues of global warming. [N]
TESC 343 The Atmosphere and Air Pollution
6 credits / Prerequisite: TESC 300 or equivalent or an introductory meteorology course or permission of instructor
This course serves as an introduction to the processes that determine weather and climate and investigates how these phenomena relate to air pollution. An overview of basic meteorological principles will be presented and applied to understanding global and local air pollution issues such as the greenhouse effect, the ozone hole, acid rain, photochemical smog and urban heating. Required lab section includes hands-on activities, computer simulations, discussion, student presentations and field trips. [N]

TESC 345 Pollution and Public Policy
5 credits
Examines issues in environmental contamination using case studies from the Pacific Northwest and elsewhere. Addresses relevant scientific information as well as public perception and policy aspects. Through written and oral assignments students gain the knowledge necessary to act as informed public stakeholders. [N]

TESC 349 Research at Sea
10 credits / Prerequisite: either TESC 241 or TESC 247
Explores current issues in oceanography of the Pacific Northwest. Students plan, design, and implement scientific research projects, work collaboratively in small research teams in a field setting, and present the results of their investigation at a scientific colloquium following the required cruise. [N]

TESC 362 Introduction to Restoration Ecology
7 credits / Prerequisites: TESC 300, TESC 310 or equivalent AND permission of instructor
Introduces ecological restoration of damaged ecosystems. Covers philosophical base of restoration as well as the social, biological and political forces that affect the success of any restoration project. Includes lectures, readings, case studies and field trips. [N]

TESC 370 Genetics and Society
5 credits
Covers key advances and principles in genetics and molecular biology, providing background to critically evaluate controversial topics in biotechnology facing contemporary society. In considering the social impact of genetic and genomic technology, includes areas of agriculture, forensics, industry, medicine, and reproduction. [N]

TESC 378 Environmental Microbiology
6 credits / Prerequisite: TESC 340
Explores microbial diversity and the applied effects of microorganisms on the environment and human welfare. Topics include metabolic diversity, ecological interactions, biogeochemistry, microbial habitats, and waste treatment and bioremediation. [N]

TESC 380 Molecular Biology with Environmental Applications
6 credits / Prerequisite: Minimum grade of 1.5 in TESC 140; minimum grade of 2.0 in TMATH 120; and a minimum grade of 1.7 in TESC 161
Focuses on advanced principles of gene expression at the molecular level, emphasizing transcription and translation. Provides hands-on experience applying molecular biology techniques to isolation and characterization of genes from various organisms in research-driven projects. [N]

TESC 402 History and Ecology of Biological Invasions
5 credits / Recommended: Prior course work in the biological sciences
Examines the population dynamics and ecological impacts of non-indigenous species, their prevention and control, and the ways that exotic species threaten biodiversity and regional and global economies. Examines the rapidly advancing science of invasion biology in its historical and public policy contexts. [N]

TESC 404 Neotropical Field Studies Abroad: Ecology and Community
12 credits, max. 24
Integrates natural science, culture, and socioeconomic aspects of the neo-tropics with hands-on field experience in tropical ecology research. During four weeks of intensive field study abroad in the neotropics plus pre- or follow-up sessions, students explore culture, sustainability, and biodiversity and complete an independent field project negotiated with the instructor. [I][N]

TESC 405 Introduction to Biochemistry I
5 or 6 credits / Prerequisite: a minimum grade of 1.7 in TESC 130 or BIOL 200; minimum grade of 1.7 in either TESC 251 or CHEM 237
Covers structure and function of biologically relevant molecules such as proteins and carbohydrates. Also discusses metabolism and enzyme regulation. [N]

TESC 406 Introduction to Biochemistry II
5 or 6 credits / Prerequisite: TESC 405
Discusses the structure and function of lipids and nucleic acids. Covers the processes involved in the flow of information in biological systems. [N]

TESC 408 Marine Plankton
6 credits
Investigates marine phytoplankton, marine zooplankton, and their interaction with each other and the environment. Includes field sampling and lab analysis of plankton, and oceanographic biological conditions. Examines plankton taxonomic characteristics related to plankton life-styles and estuarine biological processes and dynamics. [N]

TESC 410 Environmental Science Senior Seminar
3 credits / Prerequisites: TESC 310; either TESC 496, TESC 497, TESC 499 or TESC 462, which may be taken concurrently
Synthesizes environmental research methodologies and oral and written presentation skills in group projects developing grant proposals responding to published Requests for Proposals. Includes research presentation of individual environmental science capstone experiences in culminating course for the B.S. degree in Environmental Science. [N]

TESC 415 Sedimentology
6 credits / Prerequisite: TESC 117 or 337
Detailed and comprehensive analysis of the field of sedimentology including surface processes, sedimentary petrology, sedimentary environments, and stratigraphy. Includes lab and field trips. [N]

TESC 417 Field Geology
7 or 12 credits / Prerequisite: TESC 117 or 337 and instructor permission required
Field-based knowledge of the geological environment of a specific region and an introduction to geological field techniques. 7 credit offerings are local, requiring in-class and 2 overnight field trips. 12 credit offerings will be based partially off-campus (may include international travel). [N]

TESC 422 Evolution
5 or 6 credits
Examines the implications of Dobzhansky's statement that “Nothing in biology makes sense except in the light of evolution.” Examines the idea and mechanisms of evolutionary change by evaluating the biological and geological evidence that makes organic evolution a unifying theme in the natural world. Discusses evolutionary issues in medicine, agriculture, biodiversity conservation and human affairs. Offered either with a required lab section (6 credits) or without a lab (5 credits). [N]

TESC 426 Ecological History Field Studies
7 credits
Studies human-ecosystem interactions over time. Includes both human-induced and naturally occurring forces. Emphasizes field sampling, integration of cartographic data, archival research, analytic skills, and synthetic writing. Includes required field trips to libraries, archives, and research sites in Washington state. [I][N]

TESC 430 Environmental Modeling
6 credits / Prerequisite: TMATH 125 / Recommended: TMATH 126
Provides the background and skills to understand and use basic mathematical modeling approaches to solving environmental problems. Covers basic models and case studies, and applies models to data using basic mathematical and software programming approaches. [N][Q]

<th>Prerequisites</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>TESC 432</td>
<td>Forest Ecology Field Studies</td>
<td>7 or 12</td>
<td>TESC 310, TESC 340, TMATH 110 and instructor</td>
<td>Introduces forest ecology, examining forest communities, soils, disturbance and succession, forest pests, and sustainability, emphasizing field sampling and data analysis. Local option (7 credits) includes three required 2-3 day field trips. Off-site option (12 credits) requires one two-week intensive field study plus on-campus meetings.</td>
</tr>
<tr>
<td>TESC 433</td>
<td>Pollutant Fate and Transport in the Environment</td>
<td>6</td>
<td>Two or three quarters TESC 300 or TESC 310 or</td>
<td>An introduction to the hydrological processes involved in the transport of contaminants in surface water and groundwater, and the factors that affect the fate of these pollutants in the environment (e.g., retardation, degradation and chemical reactions). Using case studies, the complex issues involved in remediation will also be examined.</td>
</tr>
<tr>
<td>TESC 434</td>
<td>Biology, History and Politics of Salmon in the Pacific</td>
<td>5 or 6</td>
<td>Two or three quarters TESC 310, TMATH 110 and</td>
<td>Explores issues such as the biology of salmon, habitat degradation and the impact of salmon loss on biological and social systems through the study of history and political economy. Offered either with a required lab section (6 credits) or without a lab (5 credits).</td>
</tr>
<tr>
<td>TESC 435</td>
<td>Limnology</td>
<td>7</td>
<td>TESC 310, which may be taken concurrently</td>
<td>Introduces students to sampling methods, analytical tools, and scientific concepts related to the study of freshwater lakes and streams and the impacts of natural and anthropogenic processes on these water bodies. Topics of study include physical processes, biological systems, and aquatic chemistry, focusing on human-impacted water bodies.</td>
</tr>
<tr>
<td>TESC 437</td>
<td>Stream Ecology</td>
<td>6</td>
<td>TESC 310, TMATH 120; either TESC 310 or TESC</td>
<td>Provides a comprehensive overview of stream ecology, including watershed hydrology, stream hydraulics, applied chemistry, biology, and ecosystem processes. Explores concepts by evaluating local Puget Sound streams. Emphasizes activity-based learning.</td>
</tr>
<tr>
<td>TESC 438</td>
<td>Environmental Biology: Marine Invertebrates</td>
<td>6</td>
<td>TESC 310, which may be taken concurrently</td>
<td>Examines the structure, function, life histories, ecology and evolution of major groups of marine invertebrate animals. Lectures, discussions, images and library research are augmented by laboratory work with live organisms whenever possible. Integrates details of biodiversity with issues and concepts from ecology and environmental science.</td>
</tr>
<tr>
<td>TESC 439</td>
<td>Analytical Chemistry with Environmental Applications</td>
<td>6</td>
<td>TESC 161, TMATH 110</td>
<td>Focuses on the measurement of pollutant concentrations in various environmental matrices, including soil, water, air, and biological tissues, emphasizing analytical theory, instrumentation, and methodology. Allows students to gain hands-on experience using modern analytical instrumentation.</td>
</tr>
<tr>
<td>TESC 440</td>
<td>Environmental Entomology</td>
<td>6/7</td>
<td>TESC 140</td>
<td>Explores structure, function, ecology and evolution of terrestrial arthropods, focusing primarily on insects. Integrates concepts from environmental science, ecology and evolution in order to gain an understanding of insect biology.</td>
</tr>
<tr>
<td>TESC 442</td>
<td>Marine Ecology</td>
<td>7</td>
<td>TESC 340 or TESC 438, an introductory biology</td>
<td>This field-intensive course will be a hands-on exploration of the natural history of and interactions among marine organisms, emphasizing cold-water intertidal invertebrates and seaweeds. In all-day and weekend-long field trips to Friday Harbor, Washington's Outer Coast, and around Puget Sound, students will become acquainted with the organisms, species interactions and research methods of marine ecology. Special topics lectures may include biology of coral reefs, kelp forests, estuaries, marine fisheries and marine conservation.</td>
</tr>
<tr>
<td>TESC 445</td>
<td>Estuarine Field Studies</td>
<td>7</td>
<td>TESC 140, which may be taken concurrently</td>
<td>Investigates saltwater estuarine systems with a focus on Pacific Northwest water-related issues. Uses intensive field studies to explore various aspects of the physical, chemical, biological and geologic conditions in a range of local saltwater environments in Puget Sound.</td>
</tr>
<tr>
<td>TESC 446</td>
<td>Plants, Insects and their Interactions</td>
<td>7</td>
<td>TESC 140, which may be taken concurrently</td>
<td>Emphasizes hands-on exploration of the natural history and ecology of plants and insects and interactions amongst them. A series of all-day field trips will focus on biological issues relevant to resource management and agricultural production in different sites around Puget Sound.</td>
</tr>
<tr>
<td>TESC 447</td>
<td>Restoration Ecology Capstone: Introduction</td>
<td>2</td>
<td>TESC 362, which may be taken concurrently</td>
<td>The first of a three-course capstone sequence in restoration ecology. Reviews and assesses project plans and installations. Meets with members of previous capstone classes to review projects. Offered jointly with BES 462/ESRM 462.</td>
</tr>

TEST 211  
Women in Science  
5 credits  
Examines the contribution of women in science and technology throughout history and the impact these women have made on society. Emphasizes the effects of institutions, work, family, and mentors on the development of women in science and technology. [I]

TEST 213  
History and Science of Space Exploration  
5 credits  
Examines the past, present, and future challenges of space exploration and the impact the space program has on society. Includes the history, politics, science, and technology associated with space travel and the challenges inherent in the colonization of other planets. [N]

TEST 221  
Environmental History: Water  
5 credits  
Examines the historical relationship between water and fire, irrigation, grazing, mining, deforestation, and urbanization upon the regional and global environment. Using case histories based on water, emphasizes the sources and methods historians use to study environmental change over time. [I][N]

TEST 332  
A Natural History of Garbage  
5 credits  
Examines past and present practices of disposing of civilization’s detritus. Uses methods of historical inquiry and environmental studies to get at the roots of one of the fundamental issues confronting the industrialized world: the disposal of waste. Research-based and includes field work. [I][N]

TEST 333  
Environmental Policy Application and Compliance  
5 credits  
Covers practical environmental regulatory compliance. Develops, through hands-on experience, an understanding of the systems, procedures and forms required for routine environmental compliance. Explores how business, government and the private citizen interact with environmental regulations. [I]

TEST 335  
Environmental Impact Analysis  
5 credits  
Introduces the applied science principles and legal frameworks of environmental impact analysis. Provides an overview of the origins of federal and state environmental policy act laws and regulations, and covers scientific and policy approaches to evaluating a project’s impacts on environmental media and natural resources. [I][N]

Film Studies  

T FILM 272  
Film Studies  
5 credits  
Introduction to the languages and forms of cinema. Topics include narrative and non-narrative film; mise-en-scene, cinematography, and editing; the soundtrack; film directors, genres, and historical movements. [V]

T FILM 348  
Film and Human Values  
5 credits  
Examines contemporary and classical films in order to explore how they might disclose different dimensions of human meaning, value, virtue or their opposites. Analyzes how film has become a major part of twentieth-century existence, experience and expression. Views, discusses and analyzes selected films. [I]

T FILM 420  
Contemporary World Cinema  
5 credits  
Study of trends in current international cinema: genres, geographical areas, technology, economics, and criticism. [V]

T FILM 440  
Writing Film Criticism  
5 credits / Prerequisite: One 300- or 400-level film class  
Explores the practice of film criticism through intensive reading and discussion of films and through writing and peer reviewing. Builds an understanding of the differences between film reviewing and criticism, and the importance of audience, style and approach. [V]

T FILM 474  
Russian History and the Soviet Film  
5 credits  
Examines the major events of the Russian past by using Russian and Soviet films as primary resources. Provides an opportunity for a dialogue between the facts of Russian history and the esthetic and ideological views of Russian and Soviet cinema. [I]

T FILM 481  
Film Theory and Aesthetics  
5 credits  
An introduction to the ways in which the 20th century's major film theorists have conceived of the raw materials, forms, and values and effects of the film medium. Consideration of what critical theory adds to the understand and enjoyment of film. Covers a wide range of commercial and experimental films which exemplify—sometimes challenge—the ideas presented in readings.

T FILM 483  
Film Directors  
5 credits  
Examination of the idea of film authorship: does film, most often an industrial and collaborative medium, allow for the director’s “individual” expression? Can we speak of a Woody Allen film in the same way that we speak of a Shakespeare play or a Jane Austen novel? Through investigation of one or two major director's films, this course will explore not only consistencies of film style and thematic treatment through a director's work, but also important contemporary debates on film aesthetics. May be repeated for credit with instructor's approval. [V]

T FILM 484  
French Cinema  
5 credits  
Overview of the art of film in France from 1895 to the present. Readings and screenings will place the study of French film culture in its historical, economic, social, political, philosophical, and aesthetic contexts. [V]

T FILM 485  
Media Genres  
5 credits, max. 10 credits  
Study of genre, the thematic classification of films (e.g. westerns, musicals) and television programming. Specific topics will vary, but might include comedy, news/documentary, musical, and social-problem melodramas. [V]

T FILM 486  
Feminist Perspectives in Film and Literature  
5 credits  
Feminist literary and film criticism asks questions about distinctions between male and female readers/viewers. From a perspective that considers gender and power relations, students will explore a variety of literary works and films by women, as well as a selection of relevant essays in feminist criticism. [V]

T FILM 488  
Gender and Sexuality in Film  
5 credits  
Examines the intersection of gender, sexuality, and film to consider how cinematic representations shape and reflect ideas about masculinity, femininity, heterosexuality, and homosexuality, as well as social identities that fall outside these categories. [V]

Geography  

T GEOG 100  
Introduction to Geography  
5 credits  
Broad introduction to the field of geography within the context of globalization. Topics include the relationship between humans and their environment, the role of culture in landscape change, economic development, geopolitics, and urban systems. [I]

Interdisciplinary Arts and Sciences | 2012-2013 Catalog | University of Washington Tacoma 102
T GEOG 349
Geography of International Trade
5 credits
Introduces theories, policies, geographic patterns, and practices of international trade and foreign direct investment. Topics include: trade theory and policy; economic integration; currency markets and foreign exchange; trade operations and logistics; the international regulatory environment; and marketing, location and entry, and finance, accounting, and taxation. [I]

T GEOG 352 (formerly TIBCIN 352)
Cultural Geography
5 credits
Cultural components and the analysis of the role of culture in the formation of landscape patterns and the development of a sense of place. Emphasizes issues and problems generated by globalization. [I]

T GEOG 403 (formerly TEST 403)
Geography of the United States of America and Canada
5 credits
Regional study of the United States and Canada based upon physical and cultural features. Examines continental and regional variations in terrain, climate, vegetation, economic, and social life of the United States and Canada, with emphasis on geographical principles, sources of data, and techniques of investigation. [N]

T GEOG 420
Gender, Space and Culture
5 credits
This course considers gender differences in experiences of space and place; the relationships between gender, geopolitics, the geographies of cities, regions, nation-states, and other social institutions; and gender differences in "making place" and interacting with environments. It considers multiple and competing theoretical perspectives, but especially feminist and queer ones. [I]

T GEOG 435
Contemporary Geopolitics
5 credits
This course explores geopolitical concepts and relates them to contemporary global issues and debates. It examines both the influence of geography on politics and the geography of politics. [I]

T GEOG 440
Political Geography: Territory, State and Society
5 credits
Introduction to political geography from the perspective of political economy and the politics of difference. Discusses both critical approaches to human geography and geographical interpretations of the state. Emphasizes spatial dimensions of capitalist development as mediated by urban, national and global politics. [I]

Hispanic Studies

T HISP 238
Hispanics in the United States
5 credits
Provides overview of the diverse groups of people who are called "Hispanic" in the U.S., with emphasis on the significant cultural, political and economic influence that Hispanics have had on U.S. society. Examines literature, film, television shows, internet sites, popular magazines, music and folk art as forms of cultural expression, and discusses how they reflect and interact with political issues. [I][V]

T HISP 277
Latin American Literature
5 credits
Introduction to Latin American literature in English translation, with emphasis on how literary texts reflect culture. Includes works of fiction, non-fiction, poetry, and drama from Mexico, the Caribbean, and Central and South America. [V]

T HISP 323
The Making of Mexico
5 credits
Considers the principal historical, social, and cultural forces that have been at work in creating the Republic of Mexico. Examines the country’s pre-Columbian past, the colonial era, the movement for independence, the Mexican Revolution, and the period of construction during the middle decades of the 20th century. Films, music, and slides supplement the lectures and discussions. [I]

T HISP 325
Mexico: Problems and Perspectives
5 credits
Examines Mexico’s present-day predicament in the light of its past. Explores major current issues of unemployment, environmental pollution, education, and political pluralism by comparing them with Mexico’s historic experiences. Incorporates sociological, economic, cultural, and political analysis in a historical context. [I]

T HISP 376
Latin American Film
5 credits
Examines the ways in which Hispanic film reflects history, society, class, and gender issues. Provides an understanding of different aspects of culture in the Spanish-speaking world and of film as an art form. No knowledge of Spanish is required. [V]

T HISP 377
Spanish Film
5 credits
Examines the ways in which Peninsular Spanish film reflects history, society, class, and gender issues. Develops understanding of film as an art form within a specific cultural context. Films in Spanish with English subtitles. No knowledge of Spanish is required. [V]

T HISP 378
The Magical Land: A Cultural Exploration of Latin America
5 credits
Focuses on Latin American history and culture, and is designed to help students improve written and oral communication skills as well as oral comprehension. Taught in Spanish. [V]

T HISP 390
Preparation for Study Abroad
1-5 credits; max. 5 credits
Prepares students for extended study abroad experiences by examining the history, culture, politics, arts of the host country. Encourages reflection on and preparation for intercultural experience through a psycho-social lens. [I][V]

T HISP 400
Afro-Hispanic Culture
5 credits
Uses literary texts in translation, film, music and art as a basis for exploring the importance of Afro-Hispanic in the development of the cultural richness of Latin America. Focus on issues of race, gender, self-representation and nationalism from an interdisciplinary perspective. [V]

T HISP 410
Caribbean Basin: Selected Topics
5 credits
Covers selected themes concerning the region comprised of the Caribbean Islands, Central America, Venezuela, and Colombia. The course will focus on a different topic or micro-region each quarter. May be repeated for credit with instructor's approval. [I]

T HISP 441
Mexican Cinema and Society
5 credits
Examines development of Mexican cinema in its historical and social context. Covers how films reflect history, society, class, and gender issues. Provides an understanding of Mexican culture, and of film as an art form. No knowledge of Spanish is required. [I][V]

T HISP 461
Contemporary Mexican Culture
5 credits
Uses contemporary literary texts in translation, film, music and art as a basis for exploring ways Mexicans see themselves and the world around them. Focuses on class, race and gender issues from an interdisciplinary perspective. Taught in English. Topics vary. [V]

T HISP 462
Women in Latin America
5 credits
Uses memoirs, letters, histories, biographies, literary texts in translation, film and music as a means of exploring the lives of women in Latin America. It examines a variety of gender issues from an interdisciplinary perspective. No knowledge of Spanish required. [I][V]
T HIS 463
Contemporary Cuban Culture
5 credits
Examines contemporary Cuban literature in English translation, film, music, dance and the visual arts in Cuba as a representation of cultural identity. Focuses on class, race and gender issues from an interdisciplinary perspective. Includes work by Cubans on the island and in exile. No knowledge of Spanish required. [V]

T HIS 464
The Arts, Cultures and History of Mexico
10 credits
Uses literature, film, art, architecture, music and history to explore the cultures of Central Mexico. Develops Spanish conversational skills through immersion experience in Mexico. Fieldwork, lectures, small group activities. Topics vary. Taught in English and Spanish. [II][V]

T HIS 465
Latin American Visual Arts
5 credits
Uses visual art as a basis for exploring different cultural/historical issues in Latin America in the twentieth century. Focuses on issues of colonization, self-representation, nationalisms, globalization, and cultural appropriation from an interdisciplinary perspective. [V]

T HIS 476
Latin American Women Writers
5 credits
Examines novels, short stories, poetry, drama and essays by contemporary Latin American women writers. Includes themes such as dictatorship, political and sexual repression, colonialism, racism, class issues and the obstacles faced by women writers in a society where they are often considered second-class citizens. [V]

T HIS 490
Contemporary Spanish Culture
5 credits
Uses contemporary literary texts in translation, film, music, and art as a basis for exploring the way Spanish people construct their identity and relate to the outside world. Focuses on issues of gender, immigration, racism, terrorism and nationalisms form an interdisciplinary perspective. Taught in English. [V]

T HIS 491
Society and Culture in Cuba
15 credits
Examines the history, culture, language, and politics of Cuba, as well as the psychological experiences and processes of living and studying abroad. Classes held at the University of Cienfuegos, Cuba. [II][IV]

History

T HIST 111
The Ancient World
5 credits
Origins of Western civilization to the fall of Rome. [I]

T HIST 112
The Medieval World
5 credits
Political, economic, social, and intellectual history of the Middle Ages. Cannot be taken for credit toward a history major if HSTAM 331 or 332 or 333 previously taken. [I]

T HIST 113
Europe and the Modern World
5 credits
Political, economic, social, and intellectual history of modern Europe. Cannot be taken for credit toward a history major if HSTEU 302 or 303 previously taken. [I]

T HIST 150
World History: Prehistory to 1500
5 credits
Surveys the social, political, economic, and cultural history of the world from Prehistory to the 15th century. May not be taken if credit earned for TSMIN 100 or TCXG 230. [I]

T HIST 151
World History II 1500 to Present
5 credits
Surveys the social, political, economic, and cultural history of the world from the end of the 15th century to the present. May not be taken if credit earned for TSMIN 101 or TSMIN 200. [I]

T HIST 200
American History I: 1607-1877
5 credits
Introduces, surveys, and analyzes American history from 1607-1877. Traces political, economic, social, and cultural trends of America’s Colonial, Revolutionary, Early National, Antebellum, Civil War, and Reconstruction eras. [I]

T HIST 201
American History II: 1877-present
5 credits
Introduces, surveys, and analyzes American history from 1877-present. Traces the major political, economic, social, and cultural trends of the American eras of Industrial Revolution, Progressivism, 1920s, FDR and the New Deal, World War II, Cold War, 1960s, and Reaganism to the present day. [I]

T HIST 212
The Military History of the United States From Colonial Times to the Present
5 credits
Development of American military policies, organizational patterns, tactics, and weaponry, from beginnings as a seventeenth-century frontier defense force to the global conflicts and military commitments of the twentieth century. Interaction and tension between need for an effective military force and concept of civilian control of that force. [I]

T HIST 220
African American History: 1619-1865
5 credits
Examines the social, political, economic and cultural history of African Americans in the United States from 1619-1865. Covers West African origins, the trans-Atlantic slave trade, slavery in the Americas, African American identities, and Black life in the Antebellum era. [I]

T HIST 221
African-American History: 1865-1945
5 credits
Examines construction of the “Jim Crow” system of racial segregation in the United States, from the Supreme Court’s Plessy v. Ferguson decision legalizing segregation in 1896 to the court’s Brown v. Board of Education decision overturning it in 1954. Examines African-American history, culture, and resistance to segregation in this period. [I]

T HIST 222
African-American History: 1945-Present
5 credits
Examines African-American history from 1945 to present. Focuses on African-American culture, racial identity, social consciousness, political thought, oppression and resistance, and the confluence of race, class and gendering in shaping Black culture, politics and society. Examines U. S. history through the lens of African Americans. [I]

T HIST 226
American Architecture
5 credits
Examines the architecture of the United States from early Native American structures to late 20th-century buildings. Through slide lectures, readings and field trips, we will focus on issues concerning style, technology, regionalism, functions and reform to address the diverse forces that have shaped and continue to shape American architecture. [V]

T HIST 228
Empires and Imperialism in World History
5 credits
Examin...
T HIST 271
Modern East Asia
5 credits
Examines Modern East Asia, focusing on China, Japan, Korea and Vietnam from the mid-eighteenth century to the present. Considers social, cultural, political, economic and intellectual developments within a historical framework. [I]

T HIST 280
German Cultural History
5 credits
Examines German cultural and social history from the Middle Ages to the post-unification era of the 21st century. Traces the broad development of German civilization through popular culture, literature, art, theater, film, music, and modern media. [V]

T HIST 315
Industrialization and Reform
5 credits
Examines the development of industrial capitalism and its effects on government, social institutions, workers and the environment, and on efforts to bring about reform. Provides a historical context for considering current debates about free markets versus planned or regulated economies. [I]

T HIST 320
Asian American History
5 credits
Examines the histories, cultures, and literatures of Chinese, Japanese, Filipinos, Koreans, East Indians and Southeast Asians in America from 1850 to 2009. Focuses on struggles of individual groups confronting widespread hostility and poverty. Explores how they established viable communities that continue to flourish to the third, fourth and fifth generations. [I]

THIST 322
American Labor Since the Civil War
5 credits
Provides a history of workers and labor institutions from the era of industrialization to the post-industrial era, focusing on labor-management conflict, the rise and fall of unions, and on the role of government, the media, and other forces in determining events. Concludes with an assessment of labor today. [I]

T HIST 333
Early American Music, Art, Literature and Theater
5 credits
Examines the cultural life of Americans from Colonial times to the eve of the Civil War. Topics will include, but are not limited to, Anglo/Celtic and Afro folk and church music, landscape and genre painting, regional and frontier literature, newspaper humor, popular culture, circus, Chautauqua and minstrel shows. [V]

T HIST 336
Black, Labor and Protest Music in Historical Perspective
5 credits
Presents distinctive musical traditions of African-American, labor and protest movements. Uses folk and protest music as a way to access and understand submerged elements of the American experience that are often ignored or lost to history. Reviews folk traditions embodied in American popular culture. [I][V]

T HIST 340
History of United States-American Indian Relations
5 credits
Examines the interrelations between Native Americans and European immigrants since 1500. Explores conflicts and problems in Indian-White relations in a historical context. Includes an analysis of Indian policy and major legislation, with a special focus given to the consequences generated for contemporary Indian education and religion. [I]

T HIST 341
African-American History
5 credits
Considers some of the major themes and periods in African-American history, as well as the history and present-day manifestations of racial oppression and stereotyping in American life. Includes history texts, classics of African-American literature, films and music, and intensive classroom discussion. [I]

T HIST 343
Vietnam and the 1960s
5 credits
Examines the dissent and radicalism of the 1960s stemming from the Vietnam War, as well as civil rights and other causes. Explores various political questions pertinent to the 1960s through readings, films, music, and intensive discussion. [I]

T HIST 350
Modern Germany Since 1848
5 credits
Explores the history and the modern German nation state from the nineteenth century to the present, the rise of nationalism and the 1848 Revolution; the Bismark era, Imperial Germany, World War I, the Weimar Republic, the Nazi Regime, World War II, divided Germany, the post-war era, reunification, and Germany today. [I]

THIST 356
History of Christianity
5 credits
Examines Christian religion, including doctrine, practice, and church organization, from the time of Jesus Christ to the present, examining the religion’s influence on culture, politics, and society. [I]

T HIST 365
Making of Russia
5 credits
Considers historical, social, and cultural forces creating the Russian Empire. Examines Russia’s Kievan past, Mongol era, rise of Moscow, the country’s transformation under Peter the Great and his heirs, and social and political movements that resulted in the tsarist system’s collapse. Films, music, and slide supplement lectures and discussions. [I][IV]

T HIST 366
Europe in the 20th Century
5 credits
Examines major political, social, and cultural developments in 20th century Europe. Explores the two world wars, fascism and communism as alternatives to parliamentary democracy, the Cold War, and the post-war Integration of Europe, with the support of primary sources including cultural artifacts. [I][IV]

T HIST 372
Comparative Perspectives on East Asian and Latin American Development
5 credits
Focuses on two important regions of the world, broadly comparing historical, cultural, and social experiences and relating these differences in experiences in specific Pacific Rim and Latin American countries. Examines how internal dynamics of these regions has shaped their standing in the world economy despite external political and economic constraints. [I]

T HIST 375
British Empire
5 credits/Prerequisite: One of the following: T HIST 150, T HIST 151, or T HIST 260
Examines origins, expansion, and decline of British imperialism at home and abroad. Analyzes culture, society, economics, and politics of British imperialism using scholarly, popular, and primary sources from imperialists, anti-imperialists, colonists, and the colonized. [I]

T HIST 377
Art of the Americas
5 credits
The art of the United States, Mexico and Canada is united by common historical events. This course will explore the painting, sculpture and architecture of these three countries in the context of indigenous cultures, conquest and colonization, revolution, independence, and the search for national identity. [V]

T HIST 379
Modern Architecture
5 credits
Examines twentieth-century architecture and its origins. Focuses on issues concerning style, technology, urbanism, regionalism, function, and reform to address the diverse forces that have shaped modern architecture. [V]
T HIST 385
Russian Civilization
5 credits
Examines aspects of Russian culture from the perspective of individual Russian cultural figures. Includes: Andrei Rublev and Russian Orthodoxy; the Age of Pushkin; Turgenev and the Populist Tradition; Chaikovsky and the Development of a Russian National Music; the Cinema of Eisenstein; and Socialist Realism from Gorky to Rybakov. [I][IV]

T HIST 410
Early American Politics and Law
5 credits
Examines American political history from a variety of perspectives. Topics vary, including the American Revolution, Constitution and Bill of Rights, political party systems, Jacksonian democracy, nationalism and sectionalism, the Civil War and American laws and lawyers. May be repeated for credit with instructor's approval. [I]

T HIST 411
History of Religion in America
5 credits
Examines the significance of religion in American society from European colonization to the twentieth century. Topics include Puritanism, revivalism, women, slavery, ethnicity and immigration and pluralism. [I]

T HIST 413
Civil Rights, Civil Liberties
5 credits, max. 10 credits
Examines the historic personal and community rights, or lack thereof, embodied in the Constitution and Bill of Rights. Focuses on the history of efforts to preserve, extend or undermine these rights and on the status of these rights today. May be repeated for credit with instructor's approval. [I]

T HIST 416
Life and Thought: Martin Luther King, Malcolm X and Angela Davis
5 credits
Explores the experiences and thinking of three well-known leaders of African-American protest in the 1960s. Interprets black radicalism in that era and the relationship of these three analysts and activists to their times and to the present. [I]

T HIST 417
United States History: 1945 to the Present
5 credits
Examines U.S. history from 1945 to the present. Examines the social, political and economic history of the nation. Focuses on the role of culture, social consciousness, political thought and the confluence of race, class and gender in shaping U.S. history. Focuses on new developments in American life. [I]

T HIST 419
African-American Culture and Consciousness
5 credits
Examines African-American culture and consciousness from slavery to the present. Readings focus on the construction of African-American culture, racial identity, social consciousness, political thought, oppression and resistance and the confluence of race, class and gender in shaping cultural expressions such as blues, jazz, hip-hop and aesthetics. [I]

T HIST 420
African-American Religious History
5 credits
Examines African-American religious practices from slavery to the present. Focuses on the role of religion in African-American culture, racial identity, social consciousness, political thought, oppression and resistance, and the confluence of race, class and gender in shaping Christianity, Islam and traditional forms of African worship. [I]

T HIST 430
Introduction to Public History
5 credits / Prerequisite: Either T HIST 200 or T HIST 201
Introduces students to the major issues and questions addressed by historians who work in the public sphere. Includes the interpretation of history, the role of history in popular culture, issues and aims in exhibiting history, the politics of public history, and historic preservation. [I]

T HIST 437
Doing Community History
5 credits
Involves the student in researching the history of the community, with particular focus on ethnic diversity. Includes primary research in libraries; interviewing residents; transcribing/ editing oral memoirs; and writing history. Covers research skills, as well as sensitivity to community values and concerns. May be repeated with instructor's permission. [I]

T HIST 440
Black Labor in America
5 credits
Provides an overview and a detailed consideration of the contributions of the black working class to the making of America. Examines historic racial-economic barriers which have held back development of African-American communities, and the continuing causes and possible solutions to the economic crisis affecting black working people today. [I]

T HIST 441
Black Freedom Movement in Perspective
5 credits
Explores the historical roots and present-day manifestations of movements against racial oppression and for empowerment in the African-American community, focusing heavily on the period since the 1950s. Includes films, music and popular as well as academic literature. [I]

T HIST 442
History of African American Education
5 credits
The education sought by African Americans and the education provided to African Americans have seldom corresponded. Examines the educational aspirations of black communities from slavery to present; the forms of schooling African Americans have created; the forms that have been provided by the state or by private groups; and the forms of black schooling as related to contemporary expressions of schooling for other groups. [I]

T HIST 444
The Pacific Northwest
5 credits
Examines the history and society of the Pacific Northwest—that region encompassing modern Washington, Oregon, Idaho, western Montana, British Columbia and Alaska. Includes topics such as native peoples, exploration and settlement, natural resources, economic development, government, folk culture, ethnicity and modern problems. [I]

T HIST 445
History of Tacoma
5 credits
Surveys of the history and fabric of Washington state's second largest urban center. Topics will include early settlements, Tacoma as the Pacific terminus of the Northern Pacific Railroad, commercial and social currents in the era of populism, ethnic, and political struggle as recurring forces, the development of regional institutions such as Fort Lewis, the Port of Tacoma, local governments, and locally based corporations. Emphasizes architecture, urban planning and growth, and the physical, built environment of the City of Destiny. [I]

T HIST 451
Renaissance Europe
5 credits
Development of Renaissance humanism and its influence on culture, politics and society in 14th, 15th and 16th century Europe and beyond. [I]

T HIST 452
Art, Culture and History of the Eternal City
10 credits
Uses Rome as a laboratory to understand the role of art, history, and urbanism in the development of Western culture. Addresses the many facets of the cultural development of Rome and Italy, including geography, history, urban design, art, and architecture. Research-based and includes extensive fieldwork. [I]

T HIST 456
North American Regions
5 credits
Examines the various regions of North America in comparative fashion. Topics may include the characteristics of the New England, Southern, frontier, Mississippi Valley, Canadian, Pacific Northwestern, and Southwestern regions of North America. [I]
T HIST 457  
Anti-Semitism and the Holocaust  
5 credits  
Historical, cultural, psychological, philosophical and artistic approaches to understanding the Holocaust, including an examination of the role of anti-Semitism, Nazism, eugenics, bureaucracy; technology, attitudes and participation of “ordinary Germans,” and the role of army and police units in its formation and execution. Explores implications of the Holocaust for contemporary life. [I]

T HIST 462  
History of Vietnam  
5 credits  
Examines Vietnamese history, culture and society from the earliest days through the 1980s. [I]

T HIST 463  
Premodern Japan  
5 credits  
Explores how, from its prehistory to the 17th century, Japan has blended native traditions with continental Chinese influences to create its own civilization. Examines the political, economic, social, and intellectual factors that have shaped Japan in the premodern age. Provides a background to understanding the development of modern Japan. [I]

T HIST 464  
Modern China  
5 credits  
Traces the 19th and 20th century Chinese experience through China’s struggles to modernize, its revolutionary experience, and the establishment and continuation of communist rule. Examines China’s transformation from imperial rule to “People’s Republic” by exploring political and economic change, and social, cultural, and intellectual change in an historical framework. [I]

T HIST 465  
Modern Japan  
5 credits  
Traces the transformation of Japan from a feudal country under Tokugawa military rule in the 19th century to an economic super-power in the 20th century. In addition to historical and political issues, addresses social and cultural topics, as well the clash of traditional Japan with the modern, industrialized West. [I]

T HIST 466  
Modern Korea  
5 credits  
Traces Korea’s transition from traditional Asian state to modern nation emerging on the world economic scene. Because of its geographic location, Korea has suffered chaotic change in the modern period. Course will cover Korean society, culture and politics, looking at Korea’s period as a Japanese colony, the division of Korea, the Korean war and recent developments. [I]

T HIST 467  
Siberia and the Russian Far East  
5 credits  
Examines the geography and natural resources, peoples, history, literature, culture, and economic development of Siberia and the Russian Far East from their beginnings to the present day. Recommended prerequisite: previous study of Russian or Soviet history, politics, or culture. [I]

T HIST 470  
The Material World: Art and Artifacts  
5/7 credits / Prerequisite: Either T HIST 200 or T HIST 201  
Examines material culture, that is, artifacts created and used by human beings to cope with the physical world. The course will employ interdisciplinary methods drawing from, among other fields, art history, anthropology and museum studies. The combination of these and other methods, known as material culture studies, will be used with hands-on study of everyday objects, such as tools, clothing and buildings, as a means of understanding the world around us. [V]

T HIST 474  
Imperial China  
5 credits  
Surveys the social, political, economic and intellectual history of Imperial China from the earliest times to the 17th century. Provides a background to understanding the development of Asia in general and modern China in particular. [I]

T HIST 475  
Twentieth-Century Britain  
5 credits  
Examines twentieth century British history, interpreting Britain’s global role in the nineteenth century, its decline in the twentieth, and its re-emergence as a Western leader in the twenty-first century. Covers history from the Boer Wars to the 7/7 London bombings. Focuses on Britain in two world wars, the decline of British imperialism, and the effects of both in a globalized world. [I]

T HIST 477  
Reformation and Counter-Reformation in Europe  
5 credits  
Explores the Reformation and Counter Reformation and their impact on institutions, governments, and individuals from the 16th through the 17th centuries. Examines politics, religion, culture, and intellectual thought in a socioeconomic context. Considers changing emphases, such as Papal Rome, the European courts, and the Dutch Republic. [V][I]

T HIST 478  
Europe in the 19th Century  
5 credits  
Examines major political, social, and cultural developments in 19th century Europe, such as the Industrial Revolution, class struggle, nationalism, political freedom, and military conflicts. Emphasizes the analysis of social, economic, and political conditions as key influences on cultural production and its expression of the experience of modernity. [V]

T HIST 479  
Modern European Culture  
5 credits  
Surveys the history of modern European culture from 1870 through 1945. Explores the intersection between the arts, popular culture, intellectual thought and politics with a focus on individual representatives of the avant-garde. [V]

T HIST 480  
Eastern Europe in Transition, 1940-2000  
5 credits  
Examines the peoples and nations of Eastern Europe in times of fundamental change. Includes the impact of the Second World War, the imposition of Stalinism, attempts at liberalization in Hungary and Czechoslovakia, transformation associated with the Gorbachev era, and the region’s economic, social, and political future. [I]

T HIST 484  
The Pacific War  
5 credits  
Traces the Pacific War, examining the emergence of modern Japan, the sources of conflict in Asia and between Japan and the United States, the battles that comprised the war, the home fronts of the involved nations and the war’s end and its impact on Asia and the world. [I]

T HIST 486  
Contemporary Chinese Culture and Society  
5 credits  
Examines cultural life in China since the founding of the People’s Republic of China in 1949. Includes political rituals (e.g., struggle sessions), socialist policies (e.g., household registrations, work units), post-Mao social classes and consumerism and family relations and cultural practices such as gift-giving and relationship building. [I]

T HIST 487  
Technology in the Modern World  
5 credits  
Examines social, cultural and historical studies of the role of technology in the modern world. Themes include: the unintended consequences of new technologies; the relationship between technology and the environment; production and consumption; and technology’s role in forming divisions along lines of race, class and gender. [I]

T HIST 488  
History of Urbanization and the Environment  
5 credits  
Addresses the environmental impact of ancient, medieval, and modern cities. Includes the evolution of urban infrastructure and relations between city and countryside. [I]

T HIST 490  
Medieval Technology  
5 credits  
Examines the nuts and bolts of medieval urban life while exploring larger themes of the gendering of labor, the rebirth of cities, the uneasy relationship to Islamic civilization, and the destruction of the natural world. [I]

<td>American Literary Movements, Genres and Historical Periods</td>
<td>5, max. 10</td>
<td>Studies movements (Transcendentalism, Modernism, the Harlem Renaissance, etc.); genres (poetry, fiction, drama, essay); historical periods (American Renaissance, the '20s, etc.); and investigates the literature of ethnic, political, and/or regional groups. May be repeated for credit with instructor's approval. [V]</td>
</tr>
<tr>
<td>T LIT 320</td>
<td>African-American Literature from Slavery to the Present</td>
<td>5</td>
<td>Readings, films, lectures, and class discussions will focus on constructions of racial identity, social consciousness, race, class, and gender relations as reflected in novels, short stories, essays, and poetry by African-American authors. [V]</td>
</tr>
<tr>
<td>T LIT 324</td>
<td>African-American Women's Literature</td>
<td>5</td>
<td>Examines female slave narratives and novels from the Harlem Renaissance, social protest movements, and the contemporary period. Examines how black women illustrate social constructions and intersections of race, gender, and class. Readings, lectures, and films will explore the political motivation and public response to black women's writing. [V]</td>
</tr>
<tr>
<td>T LIT 328</td>
<td>Cross-Cultural Studies in Contemporary Women's Literature</td>
<td>5</td>
<td>Examines novels and short stories concerned with race, politics, feminism and the representation of women. Issues addressed include minority discourse, autobiographical modes, myth, storytelling, definitions of womanhood and cultural identification. [V]</td>
</tr>
<tr>
<td>T LIT 330</td>
<td>Themes in American Literature</td>
<td>5</td>
<td>Studies major themes addressed by writers in America. Includes topics such as: individualism, identity and community; sex, love and marriage; justice and injustice; industrialization, technology and the city; authenticity and egaliitarianism; and race relations. May be repeated for credit with instructor's approval. [V]</td>
</tr>
<tr>
<td>T LIT 332</td>
<td>Asian American Literature</td>
<td>5</td>
<td>Examines major works of Asian American literature and the &quot;double burden&quot; of Asian American writers in both creating art and representing a group. Compares this &quot;burden&quot; to those of writers of other ethnicities. Includes historic themes and represents voices of marginalized groups commenting on themselves and on mainstream society. [V]</td>
</tr>
<tr>
<td>T LIT 338</td>
<td>Writing in the Pacific Northwest</td>
<td>5</td>
<td>Examines the way place or region provides a context for writing. Compares several kinds of writing from the Pacific Northwest (e.g., history, journalism, fiction, nature writing) and analyzes how writing is made more effective by awareness of audience, setting and occasion for writing. [V]</td>
</tr>
<tr>
<td>T LIT 343</td>
<td>Shakespeare</td>
<td>5</td>
<td>Examines selected works of English playwright William Shakespeare. Students read plays and engage in class discussion and textually supported interpretations in writing. Covers historical background of Shakespeare's England and play settings, as well as relevant theology, philosophy, and natural science. [V]</td>
</tr>
<tr>
<td>T LIT 351</td>
<td>American Poetry</td>
<td>5</td>
<td>An examination of different types of American poetry. Emphasis will be on writers from a variety of backgrounds. Poems will be approached from formal, thematic and historical perspectives. [V]</td>
</tr>
<tr>
<td>T LIT 380</td>
<td>Myth and Literary Sagas in Creative Expression</td>
<td>5</td>
<td>Explores the creative depictions of mythological themes, legendary heroes, and literary sagas. Special attention given to myth, legend, and literature in traditional cultural expression and their dramatic transformation in cinema. Themes include &quot;the hero of many faces,&quot; and &quot;love and tragedy.&quot; [V]</td>
</tr>
<tr>
<td>T LIT 388</td>
<td>Contemporary Women's Literature</td>
<td>5</td>
<td>Examines novels and short stories concerned with race, politics, feminism and the representation of women. Issues addressed include minority discourse, autobiographical modes, myth, storytelling, definitions of womanhood and cultural identification. [V]</td>
</tr>
<tr>
<td>T LIT 390</td>
<td>Cross-Cultural Studies in Contemporary Women's Literature</td>
<td>5</td>
<td>Examines novels and short stories concerned with race, politics, feminism and the representation of women. Issues addressed include minority discourse, autobiographical modes, myth, storytelling, definitions of womanhood and cultural identification. [V]</td>
</tr>
</tbody>
</table>
T LIT 406  
Children's and Young Adult Literature  
5 credits  
Examines the variety and richness of contemporary children's and young adult literature. Discusses current trends and issues, and explores multi-ethnic literature and literature from other countries. [V] 

T LIT 425  
Literature of the Harlem Renaissance  
5 credits  
Examines the images, themes, and characteristics in literature written by African-Americans during the Harlem Renaissance. Writers include Johnson, Hughes, Larsen, Hurston, Cullen, Fauset, Thurman, White and McKay. [V] 

T LIT 431  
Contemporary Native American Women's Literature  
5 credits  
Examines novels, short stories and poetry by contemporary American Indian women authors. Addresses racial and gender oppression, reservation life, acculturation, political and social emergence, as well as the leadership role of Native American women. Writers include Erdrich, Silko, Hogan, Tapahonso and Harjo. [V] 

T LIT 437  
Nature and Environment in American Literature  
5 credits  
Examines the aesthetic and cultural meanings of nature in American literary works—nature as antagonist, nurturer, resource, divinity, commodity. Consideration of how writers achieve authority for their visions of the natural world. [V] 

T LIT 438  
American Folklore  
5 credits  
Examines types of American folklore and the techniques of the folklorist. Includes topics such as: American folk heroes, folklore vs. fakelore, Southern and New England archetypes, the rural mystique, sexism, violence and racism in folklore, printed folktales, and modern folk heroes. [V] 

T LIT 439  
Western American Literature  
5 credits  
Studies Western American writers and their contribution to understanding the Western landscape. Focuses on selected topical areas and/or cultural themes characteristic to the West. 

T LIT 453  
Ancient Greek Tragedy  
5 credits  
Examines selected tragedies of Aeschylus, Sophocles and Euripides. [V] 

T LIT 455  
Medieval Quests  
5 credits  
Examines important works of literature and literary theology from the medieval era, broadly construed. Special attention to the theme of the “quest.” Texts include Augustine's Confessions, Beowulf, The Quest of the Holy Grail, Sir Gawain and the Green Knight, and Don Quixote. [V] 

T LIT 458  
Modern Novel  
5 credits  
Examines Cervantes' Don Quixote and 20th-century works inspired by it. May include Don Quixote, Kafka's Castle, Borges' Labyrinths, and Nabokov's Pale Fire. [V] 

T LIT 476  
American Women's Literature: 19th- and 20th-Century Texts  
5 credits  
Examines primarily novels and short stories by American women authors from the 19th and 20th centuries. Explores women's work, women's education, women's activism, marriage, motherhood and crimes committed against and by women. Addresses the construction of female identity and how American women authors revise American history and literature. [V] 

T LIT 481  
Postcolonial Fiction  
5 credits  
Examines selected works of fiction by postcolonial authors while building a foundation in postcolonial history. [V] 

T LIT 485  
Comparative Mythology  
5 credits  
Examines selected mythologies: specific studies may be topical, or thematic. Includes the exploration of mythography, critical examination of the form, context, and function of mythology, particularly in its expression of world view and attended values. 

T LIT 487  
African Folklore and Literature  
5 credits  
Examines oral and written traditions in Africa. Emphasizes how the aesthetics of storytelling and dialogue shape the production of narrative in contemporary African contexts. Explores anthropological, literary and historical approaches in viewing the aesthetic qualities of African folklore and literature. [I] 

Mathematics  

TMATH 098  
Intermediate Algebra  
0 credits  
Intermediate algebra equivalent to third semester of high school algebra. Extra fee required. 

TMATH 110  
Introductory Statistics with Applications  
5 credits / Prerequisite: TMATH 098 or score of 35-120 on the ACC-CL placement test; may not be taken if credit earned in TQS 110 
Addresses introductory statistical concepts and analysis in modern society. Includes descriptive statistics, graphical displays of data, the normal distribution, data collection, probability, elements of statistical inference, hypothesis testing, and linear regression and correlation. Practical examples used to demonstrate statistical concepts. [N][Q] 

TMATH 120  
Precalculus  
5 credits / Prerequisite: Minimum grade of 2.0 in TMATH 098 or score of 35-120 on the ACC-CL placement test; cannot be taken for credit if credit earned in TMATH 110. 
Examines polynomial, rational, exponential, and trigonometric functions. [N][Q] 

TMATH 124  
Calculus with Analytic Geometry I  
5 credits / Prerequisite: Either 2.0 in TMATH 120, score of 68% on MPT-A placement test, score of 75% on MATHEC placement test, or score of 2 on AP test. Cannot be taken for credit if credit earned in TMATH 121. 
First quarter in calculus of functions of a single variable. Emphasizes differential calculus. Emphasizes applications and problem solving using the tools of calculus. [N][Q] 

TMATH 125  
Calculus with Analytic Geometry II  
5 credits / Prerequisite: Either 2.0 in TMATH 124, score 3 on AB advanced placement test, or score 3 on BC advanced placement test. 
Second quarter in the calculus of functions of a single variable. Emphasizes integral calculus. Emphasizes applications and problem solving using the tools of calculus. [N] 

TMATH 126  
Calculus with Analytic Geometry III  
5 credits / Prerequisite: Either 2.0 in TMATH 125, score of 5 on AB advanced placement test, or score of 4 on BC advanced placement test. 
Third quarter in calculus sequence. Sequences, series, Taylor expansions, and an introduction to multi-variable differential calculus. [N] 

TMATH 210  
Intermediate Statistics with Applications  
3/5 credits, max / Recommended: TMATH 110 or its equivalent 
Investigates intermediate concepts of statistical inference and testing using statistical software for analysis. Analyzes datasets and examples from a variety of disciplines such as environmental and social science. Includes critical review of scholarly reports. [Q]
TMATH 214 Analytical Thinking
5 credits
Develops problem-solving skills, decision-making methods, and precise written formulation of ideas through elementary mathematics. Emphasizes logical thinking and precise formulation of statements rather than mathematical formulas and theorems. Analyzes real life problems and situations; examines optimal decisions/solutions. No specialized mathematical skills required. [Q]

TMATH 307 Introduction to Differential Equations
3 credits / Prerequisite: 2.0 in TMATH 125 or MATH 125
Introductory course in ordinary differential equations. Includes first- and second-order equations and Laplace transform. [N]

TMATH 308 Matrix Algebra with Applications
3 credits / Prerequisite: either 2.0 in TMATH 126
Systems of linear equations, vector spaces, matrices, subspaces, orthogonality, least squares, eigenvalues, eigenvectors, applications. For students in engineering, mathematics, and the sciences. Credit allowed for only one of MATH 308 or MATH 318. [N]

TMATH 310 Statistics for Environmental Applications
5 credits / Prerequisite: TMATH 110
Investigates concepts of statistical inference specific to the environmental sciences. Includes sampling design, t-tests, ANOVA, multiple comparisons, regression, transformations, principle component analysis, chi-squared tests, and non-parametric tests, using statistical software for analysis. [N][Q]

TMATH 390 Probability and Statistics in Engineering and Science
4 credits / Prerequisite: TMATH 126
Concepts of probability and statistics. Conditional probability, independence, random variables, distribution functions. Descriptive statistics, transformations, sampling errors, confidence intervals, least squares and maximum likelihood. Exploratory data analysis and interactive computing. Students may receive credit for only one of TMATH 390, STAT/ECON 481, and ECON 580. [N]

TMATH 402 Introduction to Abstract Algebra
4 credits / Prerequisite: Either TMATH 308 or TCSS 321
Focuses on group theory with a brief introduction to rings and fields. Emphasizes proofs. Topics include cosets, Lagrange's theorem, homomorphisms, normal subgroups, quotient groups, the isomorphism theorems, cyclic and symmetric groups, Cauchy's theorem, automorphisms, and elementary properties of rings and fields. [N]

TMATH 408 Numerical Methods
2 credits
Covers basic numerical methods and techniques. Topics include: error analysis, Newton's method, interpolation, numerical integration, Runge-Kutta methods, iterative methods for solving linear systems, discrete least squares approximation. [N][Q]

Nonprofit Public Affairs

TNPRFT 348 Leading the Nonprofit Organization in the 21st Century
5 credits
Examines all aspects of management of the nonprofit including board development and governance, strategic planning, lobbying, marketing, government contracting, volunteer resources, fundraising, outcome measures, fund-raising and grant writing, and accounting. Offered jointly with T MGMT 348. [I]

TNPRFT 431 Community Organizations and the Nonprofit Sector
5 credits
Examines issues specific to the nonprofit sector, including community organizations, service learning, nonprofit management, and community development. Human service agency leaders will be brought in to share their expertise with the class. [I]

TNPRFT 432 Organizational Development
5 credits
Explores theory and research regarding developmental stages in the life of organizations, the role of structure from bureaucracy through modern down-sized, entrepreneurial forms, the relationship of management style and practices to growth in organizations, and the role of the human relations and organizational development practitioner. [I]

TNPRFT 433 Organizational Structures and Sociocultural Systems in Nonprofit Environments
5 credits
A study of organizational culture, focusing on identifying archaic and ineffectual organizational principles, and assessing new and innovative approaches to organizational challenges and change in the context of the effects of emerging technologies. [I]

TNPRFT 448 Cultural Administration and Policy
5 credits
Examines the social, cultural, economic, and creative foundations of cultural management and policy. Emphasizes critical and creative thinking in evaluating the role and function of nonprofit arts institutions within the complex fabric of contemporary society. Examines municipal, state, and federal spheres of influence on public policy. [I]

TNPRFT 449 Museum Studies
5 credits
Introduces the history, philosophy, organization, administration and practice of museums. Covers the changing emphases on the role of museums in cultural, socioeconomic and political contexts; collection management, exhibition and program planning, education, cultural tourism, community outreach, and marketing. [I]

TNPRFT 451 Essentials of Grant Writing and Fundraising
5 credits
Studies fundraising for nonprofit organizations. Provides an overview of the best practices, systems, and management principles underlying successful fundraising programs. Includes primary development vehicles and techniques, developing an annual plan and a case statement, and grant writing. [I]

TNPRFT 457 Nonprofit Capstone
5 credits
Builds on a project or interest developed by students during the nonprofit management minor internship in a nonprofit organization. Includes work on some professional nonprofit management area. Produces a demonstrable example of expertise and interest, such as a personnel manual, strategic plan, or annual fund development plan. [I]

Philosophy

T PHIL 100 Introduction to Philosophy
5 credits
Major philosophical questions relating to such matters as the existence of God, the foundations of knowledge, the nature of reality, and the nature of morality. Approach may be either historical or topical. [I]

T PHIL 200 Introduction to the Philosophy of Human Rights
5 credits
Introduces and discusses different philosophical views on humanity, good, rights, universality, and other concepts that have influenced our understanding of human rights. [I]

T PHIL 240 Introduction to Ethics
5 credits
Critical introduction to various philosophical views of the basis and presuppositions of morality and moral knowledge. Critical introduction to various types of normative ethical theory, including utilitarian, deontological, and virtue theories. [I][V]
T PHIL 314 Philosophy of Crime and Punishment
5 credits
Examination of philosophical theories regarding criminal habits and punishment and the philosophical problems connected with specific topics in criminal law. Examines proper subject matter of criminal law (drug use, pornography, euthanasia); limits of criminal sanctions; crime and privilege (corporate crime, white-collar crime, blackmail); justifications for punishment; mercy; and execution. [I]

T PHIL 350 Contemporary Search for Meaning
5 credits
Examines the search for human meaning and value as it has emerged in the writings of modern philosophy, psychology and literature. Explores how the quest for different forms of meaning has developed and how that quest has been answered. [I]

T PHIL 353 The End of the Modern World (1600-2000)
5 credits
Investigates the origin, influence and definition of the modern period. Explores the fundamental images and assumptions of this period and discusses the forces that are undermining them. Concludes with a consideration of what may replace these images and assumptions in the next few decades. [I]

T PHIL 354 American Modes of Thought and Experience
5 credits
Explores the roots of the American experience in its European intellectual and cultural background. Focuses on the peculiarly American angle of vision and value in the development of its cultural heritage. Examines the contribution of tradition and change to that experience and to subsequent philosophical reflection upon it. [I]

T PHIL 355 The Mind of Modernity
5 credits
Looks at how since the 16th century, new and competing ways of understanding ourselves, the natural and human worlds, and our place in them, have defined European modernity. Materials are a selection of original artistic, scientific, philosophical and literary texts. Reading, discussion and writing will be emphasized. [I]

T PHIL 356 Themes in American Philosophy
5 credits; max. 10 credits
Examines the origins, development, and present status of movements in American philosophical. Includes thinkers such as James, Dewey, Pierce, Royce, Whitehead, Santayana, Rorty, and others. May be repeated for credit with instructor’s approval. [I]

T PHIL 357 The Greek Mind and Imagination
5 credits
Explores what makes the contribution of the Greeks so unique in the formation and heritage of Western Civilization. Examines some of their major human expressions and achievements in art, philosophy, literature, and history. Attends to the continuing influence of these ideas, values, and institutions on the world today. [I]

T PHIL 358 History of Philosophy: Medieval and Modern
5 credits
Explores continuity in the concerns of thinkers from different places and eras, including such medieval and early modern philosophers as Augustine, Aquinas, Descartes, Hume, and Kant. Examines how they address questions about reality, thought, and the beautiful and the good. [I]

T PHIL 359 Themes in Existentialism
5 credits
Examines the human predicament as treated in the writings of existentialist philosophers and writers such as Nietzsche, Kierkegaard, Dostoevsky, Marcel, Heidegger, and Sartre. Examines historical origins, development, and present forms of existentialism. Assesses existentialism’s impact on psychology, religion, literature, and the arts. May be repeated for credit with instructor’s approval. [I]

T PHIL 360 History of Philosophy: Modern and Contemporary
5 credits
Examines idealism, pragmatism, and existentialism in historical context to discover ways in which they are responses to past ideas and ways in which they are new. Focuses on the way issues in philosophy remain the same even as ways of thinking about them change. [I]

T PHIL 361 Ethics in Society
5 credits
Examines the meaning, nature, legitimacy, criteria, and foundations of moral judgment. Explores ethics as a branch of philosophy while focusing on particular ethical problems, such as war, race, abortion, justice, sexuality, medical issues of life and death, the environment, and the transactions of the business world. [I][IV]

T PHIL 362 The Beautiful and the Good: Philosophy’s Quest for Value
5 credits
Examines ideas about the beautiful and the good in the history of philosophy. Includes ideas of early thinkers and how they were adopted, transformed or rejected by later thinkers. Studies different ideas from the history of philosophy about what the beautiful and the good are, how we know them and how we achieve them. [I]

T PHIL 363 The Greek Mind and Imagination
5 credits
Explores what makes the contribution of the Greeks so unique in the formation and heritage of Western Civilization. Examines some of their major human expressions and achievements in art, philosophy, literature, and history. Attends to the continuing influence of these ideas, values, and institutions on the world today. [I]

T PHIL 364 Topics in the Philosophy of Science
5, max. 10 credits / Prerequisite: One T PHIL course
Study of one or more current topics in philosophy of science such as scientific realism, explanation, confirmation, causation. Cannot be taken if T PHIL 363 already taken. [I]

T PHIL 410 Social Philosophy
5 credits
An examination of topics pertaining to social structures and institutions such as liberty, distributive justice, and human rights. [I]

T PHIL 414 Philosophy of Law
3 credits
Nature and function of law. Relation of law to morality. Legal rights, judicial reasoning. [I]

T PHIL 451 The Enlightenment
5 credits
Examines the Enlightenment as historical epoch, philosophical attitude, and social and political project. Explores ideas of selected thinkers (e.g., Jefferson, Montesquieu, Rousseau, Kant, Hume, Voltaire) and the reactions they inspire. Highlights themes such as liberalism, human rights, rationalism, republicanism, and neoclassicism. [I]

T PHIL 455 Medicine and Morality: Issues in Biomedical Ethics
5 credits
Provides students with knowledge of ethical theory which is then applied to questions in medicine such as right to die, allocation of scarce medical resources, informed consent and patient confidentiality. [I][IV]

T PHIL 456 Environmental Ethics
5 credits
Critical exploration of selected philosophical and literary texts pertinent to ethics attending the natural environment. Topics for consideration may include animal and nature rights, social ecology, natural value (instrumental, inherent, intrinsic), anthropocentrism versus deep ecology, and environmental aesthetic theory. [I][IV]

T PHIL 458 Ways of Knowing
5 credits
Investigates key concepts and problems involved in the analysis and appraisal of human knowledge and critical thought. Emphasizes discerning the difference between truth and falsity, knowledge and opinion, correct and incorrect judgment and how these are critically grounded. Analyzes different theories of knowledge. [I]
T POL S 202 Introduction to American Politics
5 credits
Institutions and politics in the American political system. Ways of thinking about how significant problems, crises, and conflicts of American society are resolved politically. [I]

T POL S 203 Introduction to International Relations
5 credits
The world community, its politics, and government. [I]

T POL S 204 Introduction to Comparative Politics
5 credits
Political systems in a comparative framework. Traditional and contemporary approaches to the study of governments and societies in different countries. [I]

T POL S 224 Modern Latin America
5 credits
Provides multi-disciplinary examination of Latin America with social science emphasis. Discusses history of the region, sociological analysis of various Latin American institutions (the Church, the military, the labor movement). Considers migration issues and developments, economics, including a brief section on culture. Examines of contemporary Latin American political and social issues. [I]

T POL S 229 Making of Modern Africa
5 credits
Examines how African societies came to be and as they are today. Examines aspects of the experience of five centuries of the African Diaspora as they affected Africa and its peoples. [I]

T POL S 251 Cultural Studies
5 credits, max. 10 credits
Selected themes in American and occasionally other modern and contemporary cultures. Themes and readings may include: advertising and consumer culture; class and culture, gender and sexuality, identity, and post-9/11 culture. [I]

T POL S 260 American Political Theory
5 credits
Considers major issues and traditions in American thinking about democracy, citizenship, membership, and justice. Focuses on works by important thinkers from the Founding to the twentieth century. Includes conflicting visions and tensions associated with the demands of newly rising social groups, and American identities. [I]

T POL S 270 Introduction to Political Economy
5 credits
Political economy as a tool for understanding and evaluating the political world. Combines theory, methods, and insights derived from economics and political science and applies them to a range of substantive issues. [I]

T POL S 305 Campaigns and Elections
5 credits
Analyzes local, state, and federal elections to examine the role of election rules and organizations on political outcomes. Also evaluates the role of political parties, candidates, the media, financing, political strategies, and various interest groups on who gets elected and how. [I]

T POL S 310 Modern European Political Theory
5 credits
Examines the emergence and development of modern European political thought through selected works by some of its most important exponents. Analyzes answers to questions about the nature of a political community, about citizenship and rights, about the evolving meaning of freedom, equality and democracy. [I]

T POL S 311 International Human Rights
5 credits
Team-oriented research of the historical origins, theories, basic documents, personalities, institutions, and legal and political processes which have promoted international human rights as a widely accepted legal and moral foundation for a just world order. [I]

T POL S 312 19th Century Revolutions and Revolutionaries
5 credits
Examines the major revolutionary events and ideologies of the 19th century: liberalism, socialism, nationalism, and anarchism. Emphasizes discussion of political theories, movements, and their relationships to underlying historical processes. Ends with consideration of how these revolutions and revolutionaries helped define the political agenda for 20th century. [I]

T POL S 314 Twentieth-Century Revolutions
5 credits
An interdisciplinary look at four major 20th-century revolutions: Russia, China, Cuba, and Nicaragua. Begins with political theories of revolution, then discusses the historical process which accomplished each of the four revolutions, and ends with a discussion of how these revolutions established political legitimacy and culture. [I]

T POL S 320 American Constitutional Law
5 credits
Covers fundamental principles of U.S. Constitution with emphasis on current and future controversial issues such as sex and race discrimination, free speech including the entertainment industry, privacy rights, rights of the criminally accused, Roe v. Wade, and separation of church and state. Discusses significant Supreme Court cases. [I]

T POL S 321 American Foreign Policy
5 credits
Constitutional framework; major factors in formulation and execution of policy; policies as modified by recent developments; the principal policymakers-President, Congress, political parties, pressure groups, and public opinion. [I]

T POL S 325 Issues in Local Government
5 credits
Examines a particular topic that confronts local governments. Topics include fiscal/budget issues, education policy, safety or intergovernmental relations. [I]

T POL S 326 Modern Brazil
5 credits
Traces the development of modern Brazil from independence to the present. Emphasizes populism, the evolution of the military, the economic miracle, and contemporary social issues. [I]
TPOL S 328  International Organizations  
5 credits  
Explores historical, theoretical, and empirical aspects of the United Nations, its specialized agencies, and other international organizations, both governmental and nongovernmental. [I]

TPOL S 330  International Political Economy of Latin America  
5 credits  
Exploration of politics underlying Latin America’s economic development. Topics covered include import-substituting industrialization, mercantilism, the debt crisis, neoliberalism, market integration, and poverty. Review of major theoretical perspectives such as modernization theory, dependency, and the new political economy. [I]

TPOL S 340  Middle East Politics  
5 credits  
Investigates crises that plague the Middle East. Critically examines a wide range of viewpoints on these issues.

TPOL S 342  Third-World Cities  
5 credits  
Studies growth of selected Third World cities and the spatial, ethnic and class divisions within them. Introduces their historical legacy, previous ties to colonial rules, and pressures to remain centers of capitalist production. Examines urban “bias” and subsequent concentration of economic, political, and cultural power in terms of political and survival struggles. [I]

TPOL S 361  United States Courts and Civil Liberty  
5 credits  
Cases and literature bearing on protection of constitutionally guaranteed private rights, with particular reference to the period since 1937. [I]

TPOL S 363  Law in Society  
5 credits  
Inquiry into how law matters in social practice. Examines general theories of law, the workings of legal institutions, and the character of legally constituted practices and relationships in diverse terrains of social life. [I]

TPOL S 367  Comparative Law and Courts  
5 credits  
Introduces comparative judicial politics, focusing on the relationship between law and politics in cross-national perspective, as well as the function of supranational and international legal entities in the international system. [I]

TPOL S 368  The Politics and Law of International Human Rights  
5 credits  
Studies the international human rights movement in its legal and political context. Focus on institutions which influence, enable, and constrain the international promotion of human rights. [I]

TPOL S 382  State Government  
5 credits  
Focus on the structures, processes, and policy outputs of state governments in the United States. [I]

TPOL S 400  The American Presidency  
5 credits  
Examines the American presidency, its evolution, its occupants, and its place within the American system. Topics include presidential character, war, elections, the economy, and the Constitution. [I]

TPOL S 405  Advanced Campaigns and Elections  
5 credits/Prerequisite: TPOL S 305  
Provides advanced analysis of local, state, and Federal elections and political campaigns as applied to specific political campaigns, initiatives, or election-related issues. Involves independent applied research. [I]

TPOL S 410  Labor Rights and Human Rights  
5 credits  
Examines labor in western society, exploring the historical emergence of various concepts of labor rights and developing an analysis of labor and human rights in contemporary world order. Topics include slavery, labor and liberalism, individualism and collective labor rights under capitalism, economic security, and labor rights in a global economy. [I]

TPOL S 411  Human Rights and Violence in the Third World  
5 credits  
Examines political violence and human rights concerns in under-developed regions. Establishes broad, inclusive definitions of violence and human rights. [I]

TPOL S 420  Theories of Political Violence  
5 credits  
Establishes broad, inclusive definitions of violence. Reviews the theoretical discourse on the nature of violence as a political phenomenon. Themes include terrorism (both non-authoritative and state-sponsored), civil conflicts, and “tools” or calculated manifestations of violence (torture, massacres), the relationship between violence and development, and the relationship between culture and violence. [I]

TPOL S 421  Human Rights in Emerging Democracies: Eastern Europe and Latin America  
5 credits  
Examines the role of human rights in the context of democratization. Compares emerging democracies in Eastern Europe with counterparts in Latin America, and develops an understanding of the relationship between the two phenomena. [I]

TPOL S 422  International Humanitarian Law  
5 credits  
Investigates International Humanitarian Law (sometimes called the Law of Armed Conflict), the field concerned with rules developed by civilized nations to protect the victims of armed conflict, including the Geneva Conventions. Case studies include the conflict between Israel and the Palestinians, as well as developments in Afghanistan and Iraq. [I]

TPOL S 423  International Law  
5 credits  
Origin and present status of efforts to make rules of conduct for sovereign states; simulation of a treaty-drafting conference, with students playing roles of legal advisers to foreign governments. [I]

TPOL S 425  Comparative Social Policy  
5 credits  
The nation-state system and its alternatives, world distributions of preferences and power, structure of international authority, historical world societies and their politics. [I]

TPOL S 431  International Relations in the Middle East  
5 credits  
Study of domestic sources of foreign policy in the Middle East; politics of oil; the East-West rivalry in the arena; and conflict and collaboration among the local powers. [I]

TPOL S 435  Popular Movements in Latin America  
5 credits  
Examines popular movements in Latin America, including historical background of modern popular organizations, an analysis of the evolution of the discourse surrounding the terms “popular movement,” “social movement,” and “civil society.” Discusses contemporary trade unionism, grass-roots peoples’ initiatives, cooperative movements, guerrilla organizations, human rights groups, and feminist movements. [I]

TPOL S 438  Environmental Law  
5 credits  
Examines the historical and policy framework of major environmental laws and regulations. Takes a case law approach to evaluate laws in biological conservation, energy, land use, mineral rights, air and water quality, and other complex environmental arenas, and how courts (primarily in the United States) have interpreted such laws. [I]
TPOL S 440  
American Foreign Policy in the Middle East  
5 credits / Recommended: either TSMIN 200, TPOL S 203, or TPOL S 321  
Examines the Middle East through the lens of US foreign policy objectives, focusing on the developments of US policy towards the Middle East from 1945 to the present. [I]

TPOL S 448  
Human Rights in Latin America — Argentina Study Abroad  
5 credits / Prerequisite: T SPAN 102  
Examines the history, theory, and practice of international human rights in Latin America. Explores human rights from human rights lawyers and activists, while living, studying, and working in Argentina. Taught in English at the Association of International Studies in Buenos Aires. [I]

TPOL S 450  
Contemporary Theories of Culture  
5 credits, max. 10 credits  
Studies recent anthropological theory and contemporary cultural theory. Includes topics such as cultural theory, British cultural studies, critical theory, and post-modernism; or ideology, culture, and cultural resistance; ethnocentrism, relativism; class and race; the social body; self and other; gender and sexuality. May be repeated for credit with instructor's approval. [I]

TPOL S 451  
Human Rights and the Use of Force  
5 credits  
Covers both the history and sources of international law, including the system of treaties and emerging principles of customary law. Examines the conditions under which military force is justified, looking specifically at the war against terrorism, and world events since September 11, 2001. [I]

TPOL S 452  
Minorities and the Law  
5 credits  
Examines the 20th century evolution of equal protection and due process. Particular focus placed upon the case law, its societal context, and its impact upon persons of color. [I]

TPOL S 453  
Political Theory of Human Rights  
5 credits  
Examines understandings and influence of idea of human rights. Considers conflicts and contradictions between human rights claims and national sovereignty, cultural difference, democracy. [I]

TPOL S 456  
Community and Labor Organizing: A Multicultural Perspective  
5 credits  
Explores current community and labor organizing issues through intersections of gender, race, class, and immigration. Discussions of labor movements, community and environmental coalitions, living wage, social justice, and anti-sweatshop campaigns, in context of globalization. Case studies and issues vary. [I]

TPOL S 460  
Political Economy of the European Union  
5 credits / Prerequisite: either TECON 200, TBECON 200, TECON 201 or TBECON 201  
Historical foundation of the European Economic Community; major phases of its development; theoretical explanations for European development. [I]

TPOL S 465  
Law and Public Policy in the United States  
5 credits  
Relationship between law and public policy, with particular attention to problems of social, economic, and political change. Considers legal and constitutional processes as they relate to such problems of public policy as race relations, the environment, and the economy. [I]

TPOL S 480  
Politics, Philosophy and Economics Seminar  
5 credits  
Provides in-depth treatment of topics in politics and philosophy; political economy; law and policy; economics and policy and ethics and economics. Emphasizes analysis of methodological issues and developing students' research and writing skills. [I]

TPOL S 496  
Politics, Philosophy and Economics Internship  
5-10 credits  
Internships in federal, state and local government; international organizations; non profit and lobbying organizations; and research and advocacy organizations. [I]

TPOL S 497  
Political Internship in State Government  
5 credits, max. 20  
Students serving in approved internship program with state government agencies.

Psychology

TPSYCH 100  
Introduction to Psychology  
5 credits  
Surveys major areas of psychological science, including human social behavior, personality, psychological disorders and treatment, learning, memory, human development, biological influences, and research methods. Related topics may include sensation, perception, states of consciousness, thinking, intelligence, language, motivation, emotion, stress and health, cross-cultural psychology, and applied psychology. [I]

TPSYCH 202  
Human Sexuality  
5 credits / Prerequisite: either TPSYCH 100 or TPSYCH 101  
Surveys biological, psychological and social determinants of human sexuality and sexual behavior. Topics include cultural diversity, sexual development (physical and psychological), sexual health, reproduction (pregnancy, contraception, abortion), development of sex, gender orientation, adult sexual bonding, sexual abuse and assault. [I]

TPSYCH 210  
Abnormal Psychology  
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101  
Historical and current definitions, theory and research concerning abnormal psychological behavior. Major categories of psycho-pathology, including related treatment approaches. Assignments include: illustrative case studies, written critical perspectives of course materials, and interpretative analysis of major topics in field. [I]

TPSYCH 212  
Child Abnormal Psychology  
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101  
Examines historical and current definitions, theory, and research concerning child and adolescent abnormal behavior. Covers major categories of psychopathology, including related treatment approaches. Includes illustrative case studies, written critical perspectives of course materials, and interpretative analysis of major topics in field. [I]

TPSYCH 220  
Lifespan Development  
5 credits / Prerequisite: TPSYCH 100 or PSYCH 101  
Explores human cognitive and psychosocial development across the lifespan. Covers theories, methodologies, and research findings using a lifespan approach, which examines continuity and change from conception to death and the interaction of biological, psychological, and social aspects of development. [I]

TPSYCH 230  
Educational Psychology  
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101  
Explores individual learning and the educational process. Emphasis on theories of cognition, personal/social/moral development, learning differences, and motivation. Covers cultural/community influences on the learner and educational process. Includes overview of teacher roles, classroom management, educational assessment. [I]

TPSYCH 240  
Social Psychology  
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101  
Surveys the major areas of social psychology, the science of human behavior in social situations. Emphasizes an understanding of the important methods, terms, theories and findings in social psychology. [I]

TPSYCH 250  
Human Cognition  
5 credits / Prerequisite: TPSYCH 100  
Surveys cognitive psychology related to the mental processes associated with acquiring, storing, transforming, and using knowledge. Topics include perception, attention, learning, memory, metacognition, imagery, language, problem solving, and decision-making. Emphasizes identifying these concepts in everyday situations and application to educational and criminal justice fields. May not be taken for credit if TPSYCH 355 already taken. [I]
TPSYCH 300 History and Systems of Psychology 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines historical, current and theoretical systems in psychology, such as psychoanalysis, behaviorism and existentialism. Offers a critical and philosophical examination of the field of psychology and its relationship to other disciplines. [I]

TPSYCH 301 Psychology of Adjustment 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Covers research and theory about how people cope with change and adjustment. Focuses on change in theories of human development, the ways in which change is assumed to occur, strategies for managing change at the personal, organizational and societal level and the relationship between stress or social disorder and change. [I]

TPSYCH 310 Controversies in Clinical Psychology 5 credits / Prerequisite: TPSYCH 210 or TPSYCH 212
Examines controversies and social issues in mental health assessment, treatment, and diagnosis in advanced abnormal psychology. [I]

TPSYCH 311 Personality Theory 5 credits / Prerequisite: TPSYCH 100 or PSYCH 101
Covers the major theories of personality within the field of psychology. Students compare and contrast theoretical models, gain understanding of their development within the context of the theorists' lives, and apply the theories to their own life experience. [I]

TPSYCH 320 Race, Class and Gender Contexts of Child Development 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Explores how cultural contexts that include racism, classism, and sexism, as well as other contexts, such as school, family, and neighborhood, differentially shape the experiences of children. Applies these contexts to specific topics, such as cognitive development, identity, moral development, families, peers, and media. [I]

TPSYCH 321 Adolescent Psychology 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Explores the multiple contexts of adolescents' lives, including the interactions of biology, psychology, and sociocultural aspects of development. [I]

TPSYCH 322 Adult Development 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines adult development, beginning with the transition to adulthood through young, middle and old adulthood. Special attention is placed on examining diverse individual experiences and social/contextual factors in the United States and their effect on the changes, choices, opportunities, and paths through adulthood. [I]

TPSYCH 323 Parenting Practices and Parent-Child Relationships 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines current theory, research and training concerning parenting practices and parent-child relationships, as well as diverse parenting beliefs and practices. Considers how parenting and parent-child relationships are shaped by contextual factors such as culture, socioeconomic class, race, ethnicity, gender and sexual identity. [I]

TPSYCH 330 (formerly TCSIG 330) Inquiry and Research in the Social Sciences 5 credits / Prerequisite: either TMATH 110, T HLTH 305, TSOCWF 351, STAT 220 or STAT 311
Forms of inquiry from empirical laboratory or bench research to field work and phenomenological methods discussed in relationship to types of problem and research questions. Discusses quantitative and qualitative methods for gathering and reporting data as well as design, control, and the problem of interpretation and bias. [I]

TPSYCH 340 Mental Illness Across Cultures 5 credits / Prerequisite: TPSYCH 210 or 212
Examines how mental illness is understood by different cultures and in different historical periods. [I]

TPSYCH 349 Sexual Identities 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Explores the lives and current issues facing lesbian, gay, bisexual, and transgender (LGBT) persons, with particular attention to developmental, community, and political issues and their intersections. Emphasizes current areas of consensus and discord among members within, across and outside these communities. [I]

TPSYCH 350 Human Memory 5 credits/Prerequisite: TPSYCH 250
Covers research and theory in key areas of memory. Issues include information processing theory, the link between memory processes and their biological underpinnings, autobiographical memory, implicit memory, and the effect of emotion on memory. [I]

TPSYCH 351 Psychology of Adjustment 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Covers research and theory about how people cope with change and adjustment. Focuses on change in theories of human development, the ways in which change is assumed to occur, strategies for managing change at the personal, organizational and societal level and the relationship between stress or social disorder and change. [I]

TPSYCH 401 Family Violence 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Family violence is a pervasive social problem. This course offers a comprehensive interdisciplinary investigation of this topic. We will explore the history, theoretical explanations, causes and consequences of family violence, including intimate-partner violence, date and marital rape, elder abuse, and child physical and sexual abuse. [I]

TPSYCH 403 Psychology of Black Women 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Applies a psychological and feminist framework to the examination of black women's lives and development. Emphasis on the coping techniques used by black women throughout history. Topics include mental health, violence, male-female relationships, and cross-racial friendships. [I]

TPSYCH 404 Psychology of Food and Culture 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Covers a global look at the social, symbolic and political-economic roles of food and eating. Examines cultural, ethnic and gender issues in relation to the production and consumption of food, as well as the neurobiological effects of certain foods on brain activity. [I]

TPSYCH 405 Body Image and the Psychology of Appearance 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines the individual and social forces that shape body image, and psychological and physical correlates of body image. Influence of physical appearance on social perception will be covered, and adaptation to social/psychological appearance demands in terms of both problems, such as eating disorders, and resistance. [I]

TPSYCH 406 Chemical Dependency 5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines the biological, psychological, social and cultural factors involved in drug dependency and their influences on families. Explores theoretical concepts and practical situations related to family roles resulting from drug dependency. Examines prevention, intervention, treatment and 12-step programs including those related to various ethnic and cultural groups. [I]
TPSYCH 407
The Cultural Context of Developmental Psychology
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Extends understanding of basic child development by critiquing and placing in cultural context Western models of development and methodologies used to search for universal development. Explores importance of culture to understanding developmental processes and the political nature of developmental psychology. [I]

TPSYCH 409
Group Counseling and Dynamics
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines group work, group processes, patterns of communication, group and individual goal-setting, leadership, personal control, decision-making, self-esteem, and cultural factors. Includes role-playing and simulations and group participation.

TPSYCH 410
Existential Psychology
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines the philosophical and literary movement of existentialism and its impact on clinical psychology. [I]

TPSYCH 411
Psychology and the Arts
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines psychological theories and research related to creativity and the mind using literature, film, music and empirical research. [I]

TPSYCH 414
Psychology of Contemporary African-American Culture
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines issues of contemporary African-American culture using an interdisciplinary approach and a psychological perspective. Topics include arts and media representations, political involvement, language, identity development, and personal relationships. Emphasizes social context as a way to better understand the psychological functioning of individuals of African-American descent. [I]

TPSYCH 416
Freud and His Critics
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines the work of Sigmund Freud, its impact on clinical psychology, and historical and contemporary criticisms of this theoretical school. [I]

TPSYCH 420
Attachment and Interpersonal Relations
5 credits / Prerequisite: TPSYCH 311
Takes a historical approach examining infant and adult attachment from its interdisciplinary origins, through the development of the methods used to test the theory, to its current status. May also cover topics at the boundaries between attachment and other areas, such as culture or neuroscience. [I]

TPSYCH 421
Social Psychology, Law, and Society
5 credits / Prerequisite: TPSYCH 240
Examines the interaction of social psychology and the law and the role both play in the development of legal policy. Considers selected topics at the forefront of psych-legal inquiry, such as eyewitness testimony, confession evidence and implicit bias. [I]

TPSYCH 422
Psychology and the Legal System
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Focuses on the application of psychological research methods and knowledge to contemporary issues in the legal system. Topics include psychology of policing, criminal profiling, serial killers, criminal investigations, pretrial publicity, competency/insanity, scientific jury selection, juror decision making, sentencing/death penalty, and the social scientist as an expert witness. [I]

TPSYCH 431
Sexual Deviance
5 credits / Prerequisite: either TPSYCH 202 or TPSYCH 210
Examines various psychological, sociological, and biological theories that purport to explain the causes, consequences, and cure for atypical sexual behaviors, including fetishism, exhibitionism, sexual addiction, pedophilia, and erotopathy (lust murder). [I]

TPSYCH 432
Sex Crimes and Sexual Violence
5 credits / Prerequisite: either TPSYCH 100 or PSYCH 101
Examines sexual criminality, its nature, characteristics, dimensions, and ramifications in American society and internationally. Topics include, sexual assault, sex offenders and survivors of childhood sexual abuse, and sexual predatory crimes, such as sex trafficking, prostitution, and child pornography. [I]

TPSYCH 466
Psychology of Judgment and Decision Making
5 credits / Prerequisite: TPSYCH 355
Human information processing in judgment and decision making, especially the interface between cognitive theories and normative and prescriptive theories of decision making. [I]

TPSYCH 471
Applied Issues in Cognition
5 credits / Prerequisite: 2.0 in TPSYCH 330
Considers human performance factors in the design of tools/equipment, tasks/jobs, and work and living environments. Emphasizes the importance of human perception, memory, attention, motor control, and social context for understanding ways to optimize the relationship between people and technology. [I]

Religion
TRELIG 235
Religion in the Modern World
5 credits
Examines intellectual questions raised by thinkers such as Darwin, Marx, and Freud which were complemented by social and political movements to privatize religion. Considers both the intellectual and social transformation of religion in the modern Western milieu. Examines the contrasting situation in less secular non-Western societies. [I]

TRELIG 310
Religious Diversity in America
5 credits
Examines the pluralities of religions in modern American, introducing the history, sociology, and beliefs of Buddhists, Christians, and Muslims in the United States. Discusses problems of solutions to human dilemmas, the nature of ultimate reality, and the role of its founder from the perspective of each of these religions. [I]

TRELIG 320
Confucianism and East Asian Modernity
5 credits
Examines elements of the Confucian tradition which have left a distinctive imprint on the social, political, and economic life of modernized, but not “Westernized,” East Asian societies. [I]

TRELIG 321
Comparative Religion
5 credits
Examines comparative approaches to religious experience and belief with emphasis on conceptual issues such as ritual, symbolism, identity, ecstatic experience, and revitalization movements in the context of globalization. Addresses criteria of both similarity and difference in the comparative work.

TRELIG 365
Hinduism and Buddhism
5 credits
Examines Hinduism and Buddhism, two of the world’s most ancient religious traditions - both originated in India, and claim well over half a billion followers in the modern world. Presents the radically different (from conventional Western) perspectives they offer on the context and meaning of human existence. [I]

TRELIG 366
Islam
or
3 credits
Examines the history and forms of Islam, the predominant religion of the Middle East. Particular attention devoted to understanding values, views, and assumptions that are often quite different from those familiar in the secular societies of the West. [I]

TRELIG 367
East Asian Religions: Zen and Taoism
5 credits
Examines Taoism as a characteristic East Asian world view and of Zen as an East Asian reshaping of Indian Buddhism. Includes readings and discussion of Taoist and Zen materials. [I]
TRELIG 461 Religion and Church in Latin America
5 credits
Provides an interdisciplinary examination of the political, social, and cultural implications of religion in Latin America. Covers four major themes: the history of the Catholic Church and its influence on politics and socioeconomic structures, religious syncretism, liberation theology, and changes occurring in contemporary Latin American Christianity. [I]

TRELIG 463 God: East and West
5 credits
Investigates both western and eastern approaches to understanding “God” (a personal Supreme Being who created the world) and examines ramifications for the way humans have thought. [I]

TRELIG 465 God and the New Physics
5 credits
Examines multiple theories and interpretations of physical reality. Explores how new ways of thinking about the world are paralleled by new ways of thinking about God. Examines some new theories and reflects on religious and theological questions. [I]

TRELIG 467 Philosophy of Religion
5 credits
Selected topics and problems in the philosophy of religion, such as: arguments for the existence of God; the problem of evil; atheism; faith; religious experience and revelation; the attributes of God; miracles; immortality; and the relation between religion and morality. [I]

Sociology

T SOC 165 Introduction to Sociology: Developing the Sociological Imagination
5 credits
Surveys social issues such as race, social class, and gender using sociological theories and perspectives. Introduces sociological methods and the relationship between research and public policy. Examines how individuals and organizations have used sociological theories to institute social change. [I]

T SOC 265 Race and Ethnicity in the United States
5 credits
Introduces issues of race and ethnicity in the United States, particularly the social construction of race, and its effects on policies throughout history. Examines social movements (from the mid-1800s to the present) and explores how ideas of racial justice and equality are articulated in relation to economic, political, and cultural contexts. [I]

T SOC 266 Introduction to Labor Studies
5 credits
Examines the role of labor in the contemporary United States and in the global economy. Explores the nature of work within market economies, forms of worker organizing, and the interaction between race, gender, and class within the workplace. [I]

T SOC 335 Social Class and Inequality
5 credits
Examines the problem of persistent urban poverty in the United States. Explores the differential risk of poverty experienced by racial and ethnic groups and by women and children in the context of the major theories of class stratification. Also discusses the factors that lead to extreme-poverty neighborhoods, how these environments affect the life chances of residents, survival strategies of the poor, and public policy implications. [I]

T SOC 346 The History of Childhood and the Family in the United States
5 credits
Examines changing experiences and forms of childhood and family life over the course of U.S. history. Relates those experiences and forms to their political and economic contexts, considers explanations for historical alterations, and explores social and ideological implications of contemporary childhood and family life as mediated by class and ethnicity. [I]

T SOC 369 Diversity in Adulthood
5 credits
Assesses the diversity of personal styles within the class (emotional patterns, personality, learning, and behavior) using various psychological instruments that identify patterns or styles. Utilizes individual differences to illustrate problems of communication and conflict resolution between persons of different styles, backgrounds, and worldviews. [I]

T SOC 432 Schooling in the United States
5 credits
Explores the history of formal education in the U.S. with special consideration of the forms and content of schooling for working people, women, and minority populations. Examines specific forms of schooling, educational reform, changes in pedagogy and structure, and the relationships between schooling and other features of the historical landscape. [I]

T SOC 433 Household and Family in Comparative Perspective
5 credits
Explores cross-cultural changes and continuities in family life and household organization in selected societies. Examines creation of various family and household forms and their relation to wide-scale economic, political, and social change. Studies the impact of power relations (gender, generation, class, ethnicity/race, etc.) within and beyond the family. [I]

T SOC 434 Women, Race and Class: Identity and Intergroup Relations
5 credits
Explores interlocking effects of race, ethnicity, class, gender, and sexuality on the life experiences of women in the U.S. Includes: impact of race, ethnicity, and racism on social institutions; women’s experiences of racism; struggles of anti-racist women; relationship between racial, class, and sexual identities and feminism, development of dialogue and coalitions between women. [I]

T SOC 435 Migration in the Modern World: Migrants, Immigrants, and Refugees
5 credits
Examines the dynamics of international migration in the modern world, with a focus on selected sending and receiving societies (western and non-western). Investigates both macro-economic and political influences on migration, as well as the involvement of social networks and households. Explores the diversity of population movements in historical perspective and in the context of competing theories of migration, settlement, and adaptation. [I]

T SOC 436 History of Social Welfare Policy in the United States
5 credits
Explores welfare policy in the United States from the colonial era to the present. Covers history of individual and governmental relief efforts; changing definitions of the poor and poverty; and the origins of our current welfare system. [I]

T SOC 437 Immigration Today
5 credits
Examines changing causes and patterns of post-1965 immigration from global and interdisciplinary perspectives. Topics may include: role of immigrants in changing global economy; interactions between immigrants and residents in communities, schools, workplaces; challenges of adaptation for immigrant children; new forms of citizenship and national identity. Compares Europe and United States. [I]

T SOC 439 Fieldwork and Interviewing in Communities
5 credits
Assists students in developing skills as qualitative researchers in communities, particularly fieldwork and in-depth interviewing. Explores theoretical, ethical, and methodological dimensions. Includes reading and discussing examples of fieldwork and carrying out students’ own projects in the field. [I]
T SOC 446
Family Relationships and Diverse Family Forms in the United States
5 credits
Explores cross-cultural changes and continuities in family life and household organization in selected societies. Explores development of family and household forms and their relation to wide-scale economic, political, and social change. Studies impact of power relations within and beyond the family. [I]

T SOC 447
AIDS and American Society
5 credits
Examines the impact of the AIDS epidemic on American society, including the lives of persons with AIDS and people who are HIV-positive; the gay community, minority communities, and the American public, more broadly; Americans' concepts of health, illness, and sexuality; and the medical care system and public-health policy. [I]

T SOC 455
The Sociology of Gender
5 credits
Explores biological and social bases of gender differences; ways in which changing social definitions of womanhood and manhood affect self-perceptions, opportunities, and behaviors. Examines social movements and theories which challenge traditional roles of men and women in U.S. society, and those which question the benefits of liberation. [I]

T SOC 456
Rural Societies and Development
5 credits
Explores Third World development issues (economic, political, and social) which are particular to rural societies. Addresses topics such as: food production and distribution, rural labor markets, migration, rural development strategies, rural poverty, the "Green Revolution," export agriculture, the proletarianization of peasants, and rural politics. [I]

Spanish
TSPAN 101
Elementary Spanish I
5 credits / Prerequisite: score of 0-15 on SP100A placement test
5 credits / Prerequisite: score of 0-15 on SP100A placement test or score of 76-145 on SP200A placement test
 Reviews Spanish grammar structures and concepts required for advance reading, writing, and oral proficiency. [V]

TSPAN 102
Elementary Spanish II
5 credits / Prerequisite: either SPAN 101, or score of 16-44 on SP100A placement test
5 credits / Prerequisite: either SPAN 102, SPAN 110 or score of 45-69 on SP100A placement test
 Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. [V]

TSPAN 103
Elementary Spanish III
5 credits / Prerequisite: either SPAN 102, SPAN 110 or score of 45-69 on SP100A placement test
 Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. [V]

TSPAN 110
Basic Spanish Review
5 credits / Prerequisite: score of 10-44 on SP100A placement test
 Covers the equivalent of 101 and 102 to prepare for 103. May not be taken in addition to 101 or 102.

TSPAN 121
Spanish Immersion I
5 credits / Prerequisite: score of 0-15 on SP100A placement test if Spanish is language of admission
 Covers the equivalent of elementary Spanish (SPAN 101, 102, 103) through an alternative "planned immersion" method.

TSPAN 122
Spanish Immersion II
5 credits / Prerequisite: TSPAN 121
 Covers the equivalent of elementary Spanish (SPAN 101, 102, 103) through an alternative "planned immersion" method.

TSPAN 123
Spanish Immersion III
5 credits / Prerequisite: TSPAN 122
 Covers the equivalent of elementary Spanish (SPAN 101, 102, 103) through an alternative "planned immersion" method.

TSPAN 124
Intensive First-Year Spanish
15 credits
Equivalent of 121, 122, 123. Employs "planned immersion" method. Not open for credit to students who have taken TSPAN 121, 122, 123 or 102, 103.

TSPAN 199
Foreign Study: Elementary
2-16 credits, max. 16
Elementary instruction in approved foreign study program. Further study at 200 level subject to placement test score. [V]

TSPAN 201
Intermediate Spanish I
5 credits / Prerequisite: either SPAN 103, SPAN 123, SPAN 134, score of 70-100 on SP100A placement test, minimum score of 51 on SP TL placement test, or score of 0-75 on SP200A placement test
 Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. [V]

TSPAN 202
Intermediate Spanish II
5 credits / Prerequisite: either SPAN 201 or score of 76-145 on SP200A placement test
 Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. [V]

TSPAN 203
Intermediate Spanish III
5 credits / Prerequisite: either SPAN 202, SPAN 210, or score of 146-165 on SP200A placement test
 Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. [V]

TSPAN 204
Accelerated Intermediate Spanish
5 credits / Prerequisite: either TSPAN 103, 123, or 134
Merges TSPAN 201 and TSPAN 202. Designed to build listening, speaking, reading, and writing skills and to expand knowledge of culture and literature of the Spanish-speaking world. [V]

TSPAN 299
Foreign Study: Intermediate
2-16 credits, max. 16
Intermediate instruction in approved foreign study program. Further study at 200 level subject to placement test score. [V]

TSPAN 301
Spanish Grammar and Lexicon
5 credits, max. 10 credits / Prerequisite: either TSPAN 203, TSPAN 210, TSPAN 299, or score of 166-175 on SP200A placement test
Reviews Spanish grammar structures and vocabulary to develop students' capacity to understand and express themselves in Spanish with more accuracy. Helps students master concepts required for advance reading, writing, and oral proficiency. [V]

TSPAN 302
Spanish Conversation
5 credits, max. 10 credits / Prerequisite: either TSPAN 203, TSPAN 210, TSPAN 299, or score of 166-174 on SP200A placement test
Emphasizes oral proficiency and listening comprehension using film, television, music, journalistic, and literary texts as a way to understand linguistic and cultural diversity within the Spanish-speaking world. [V]

TSPAN 303
Spanish Stylistics and Composition
5 credits / Prerequisites: TSPAN 210, TSPAN 203, TSPAN 299 or score of 166-175 on SP200A placement test or by instructor permission
Develops writing skills for a wide variety of purposes, with activities to build vocabulary and strengthen knowledge of grammar. Includes pre-writing exercises, peer-editing and revision of texts, plus introduction to translation. [V]

TSPAN 351
Introduction to Hispanic Literary Studies
5 credits / Prerequisite: one TSPAN 300-level course
Introduces techniques of literary analysis, as applied to examples of narrative, poetry, and theater from Spain, Spanish American, and U.S. Latino culture. Taught in Spanish. [V]
Women's Studies

TWOMN 100  
Introduction to Women's Studies  
5 credits  
Surveys the roles and status of women in the US; the process of gender socialization; the intersection of gender with identities such as race, class, and sexual orientation; the history and experience of women; and feminist theory and practice. [I]

TWOMN 205  
Introduction to Masculinities  
5 credits  
Examines the key concepts of masculinities studies, analyzes the roles that men adopt, and explores how these roles are implicated in the development of male identity. Also explores the diversity of masculinities within American society. [I]

TWOMN 250  
Seminar in Service Learning: A Feminist Approach  
5 credits  
Introduces students to a variety of different Tacoma agencies and requires them to participate in service projects that connect feminist theory to work being done in the community by local organizations. Uses blogs, wikis, and other new media to facilitate online reflection and class discussion. [I]

TWOMN 251  
Popular Culture and Gender  
5 credits  
Introduces the ways in which masculinity and femininity are produced through popular culture. Analyzes cultural product such as movies, advertisements, images, books, toys, etc. to understand how gender is constructed, how these constructions become cultural norms, and how these popular assumptions about gender impact our own lives. [I]

TWOMN 302  
Research Methods in Women Studies  
5 credits  
Explores appropriate research methodologies for interdisciplinary work in women studies. Examines current debates and issues in feminist methodologies and critiques of methodology. Use of historical documents and theoretical texts. Computer applications in research in women studies. [I]

TWOMN 339  
Psychology of Women  
5 credits / Prerequisite: TPSYCH 100  
Focuses on psychological and feminist framework to the examination of women's lives and development. Emphasis on how gender and sexism interact with ethnicity, class, and age to influence women's understanding of themselves. Topics include gender differences, images of women, motherhood, and violence against women. [I]

TWOMN 345  
Women and Work in the United States  
5 credits  
Study of fundamental changes and continuities in women's work lives in the context of U.S. economic development. Examines multiplicity and diversity of women's work contributions, both paid and unpaid. Highlights the commonalties among women's work experiences and the differences with regard to life-cycle stage, occupation, and race/ethnicity. [I]

TWOMN 347  
History of Women in the United States  
5 credits  
Surveys the history of women in the United States from the 1600s to the present. Explores social, political, and economic forces that have shaped women's lives, and the diversity of women's experiences rooted in class, race, and ethnicity. Considers the contributions of women's history to the larger discipline of history. [I]

TWOMN 420  
Women in the Global Economy  
5 credits  
Explores impact of “modernization” and “development” on the status and roles of women in selected Western and non-Western societies. Critical analysis of assumptions about women's responses to social change which have guided research and development planning. Examines cultural practices, economic arrangements and government policies in order to understand opportunities and obstacles confronting women in developing countries today. [I]

TWOMN 434  
Women's Voices: Third-World Testimonials  
5 credits  
Explores the “testimonials” of women from selected regions in Africa, the Middle East, and Latin America. Examines women's voices in testimonial, autobiographical, biographical, ethnographic, and fictional literature. Discusses historical and sociological significance of women's “testimonials.” Explores issues of race/ethnicity, class, and gender. [I]

Writing Instruction

TWRT 111  
Discourse Foundations  
2 credits  
Helps improve academic writing skills. Students must enroll concurrently in another writing course. Teaches reading skills to comprehend and analyze complex texts, review and analyze grammar structures as they appear in academic writing, and build advanced vocabulary skills. [V]

TWRT 112  
Introduction to Academic Writing  
5 credits  
Continues introduction to the principles of argument, including critical thinking, analytical reading skills, and research and writing skills needed for academic writing. Also covers skills for managing the writing process and how to transfer learning to other disciplinary contexts of writing. [C]

TWRT 200  
Introduction to Creative Writing  
5 credits  
Introduces several genres and explores the creative writing process and terminology of imaginative expression. [V]

TWRT 211  
Argument and Research in Writing  
5 credits / Prerequisite: minimum 2.0 grade in either TWRT 112, T CORE 101, or ENGL 131  
Focuses on writing critical analyses of texts in the arts and sciences. Emphasizes close reading, critical thinking, and developing well-supported arguments as well as advanced library research skills. Stresses managing the writing process so that good work can be produced within given time constraints. Prepares students for upper-division writing tasks. May not be taken if credit earned for TCXG 272. [C]

TWRT 291  
Technical Communication In the Workplace  
5 credits / Prerequisites: 2.0 in TCORE 101, TWRT 112, TWRT 211  
Teaches objective-oriented and audience-centered communication for the workplace, while focusing on key genres of technical communication—reports, proposals, manual, and document design—essential for success in the professional world. [C]

TWRT 311  
Writing Center Theory and Practice  
2 credits  
Investigates current theories and practices of writing pedagogy, emphasizing the pedagogical assumptions of individual instruction. Students learn to respond constructively to writers and to texts. They also gain expertise as writers and teachers. [V]

TWRT 330  
Written and Visual Rhetoric  
5 credits / Prerequisite: Minimum grade of 2.0 in TWRT 211  
Explores the principles and practices of written and visual rhetoric to learn to employ both effectively in print-based and electronic texts. [V]

TWRT 331  
Writing in the Natural Sciences  
5 credits / Prerequisite: Minimum grade of 2.0 in either TWRT 112 or TWRT 291  
Studies communications and rhetorical principles for sharing scientific knowledge in professional meetings with other scientists and with general audiences. Focuses on three most common genres: scientific paper (including literature review and abstract writing), research proposal, and scientific poster. [C][V]
TWRT 365
Literary Editing and Publishing
5 credits / Recommended: one course each of upper-division writing and literature
Explores practices of literary editing, magazine design, and literary small press publishing. Readings examine history, aesthetics, funding, promotion, layout, and other issues faced by literary journals in print and in emerging online media. Student assignments reflect practices of literary editors. Credit/no credit only. [V]

TWRT 370
Poetry Writing
5 credits / Recommended: courses in upper-division writing and literature
Introduces students to the craft and process of poetry writing from initial draft to advanced revision. Explores current writing styles, poetic forms, and various aesthetic issues. Students discuss craft, assigned writings, and share work with other class members. [V]

TWRT 380
Introduction to Fiction Writing
5 credits / Recommended: at least one writing/literature course
Introduces the process and techniques of fiction writing. Readings familiarize students with various writing styles and strategies of other writers. Students discuss craft, the assigned readings, and share work with other class members. [V]

TWRT 382
Writing Popular Fiction
5 credits
Teaches students to write popular fiction. Explores questions of narrative, characterization, action, form, formula, and code in popular genres. Uses primary and secondary texts to study mystery, romance, spy thriller, western, horror, and science fiction. Emphasizes per review, revision, assessment, and reflection as methods of producing excellent written work. [V]

TWRT 387
Creative Non-fiction Writing
5 credits / Recommended: TWRT 200
Builds narrative and descriptive skills in several genres of creative nonfiction, including the personal essay, feature articles for general trade magazines, or the literary essay. Includes reading of models and writers’ workshops to provide feedback on drafts. [V]

TWRT 431
Writing for Social Change
5 credits / Prerequisite: Minimum 2.0 grade in either TWRT 211 or TWRT 2912
Analysis and development of texts designed to influence public opinion and advocate for social causes. Includes volunteer work in a nonprofit agency and writing for that agency. [C][V]

TWRT 464
Teaching Writing
5 credits / Prerequisite: minimum grade of 2.0 in either TCXG 272 or TWRT 272
Studies theories and practices of writing education and the history and challenges of writing assessment. Explores learning communities. Emphasizes pedagogical questions of social class, ethnicity, multilingualism, gender, sexual orientation, disability, and nationality. [V]

TWRT 470
Advanced Poetry Writing
5 credits, max. 10 / Prerequisite: Minimum grade of 2.0 in TWRT 370
Builds upon foundational skills in writing both traditional and contemporary poetry. Includes reading of models and writers’ workshops to provide feedback on drafts. Students develop a portfolio of polished writing by the end of the course. [V]

TWRT 480
Advanced Fiction Writing
5 credits, max. 10 / Prerequisite: Minimum grade of 2.0 in TWRT 380
Builds upon foundational skills in fiction writing such as dialog, narration, theme, language, and character. Includes reading of models and writers’ workshops to provide feedback on drafts. Students develop a portfolio of polished writing by the end of the course. [V]

TWRT 487
Advanced Creative Nonfiction
5 credits, max. 10 / Prerequisite: TWRT 387
Builds on beginning creative nonfiction skills in several genres: personal or lyric essay, literary journalism, the nonfiction “short”, or prose poetry. Includes reading of models and writers’ workshops to provide feedback on drafts. Students develop a portfolio of polished writing by the end of the course. [V]

TWRT 499
Advanced Topics in Creative Writing
5 credits
Builds on beginning creative writing skills. Includes reading of models and writers’ workshops to provide feedback on drafts. Students work on developing a portfolio of published writing. [V]

Faculty

Lawrence M. Knopf Jr.
Director and Professor
Interdisciplinary Arts and Sciences;
Geography; Ph.D., University of Iowa, 1989

Luther Adams
Associate Professor, Interdisciplinary Arts and Sciences; History, Ph.D., University of Pennsylvania, 2002

Dolores Alcaide Ramirez
Associate Professor, Interdisciplinary Arts and Sciences; Spanish, Ph.D., Purdue University, 2006

Michael Allen
Professor, Interdisciplinary Arts and Sciences; American History and Folklore; Ph.D., University of Washington, 1985

Katie Baird
Associate Professor, Interdisciplinary Arts and Sciences; Economics of Social Issues, Public Economics; Ph.D., University of Massachusetts, 2000

Joel Baker
Professor and Port of Tacoma Endowed Chair, Interdisciplinary Arts and Sciences; Environmental Engineering Sciences; Ph.D., University of Minnesota, 1988

John Banks
Associate Director and Professor, Interdisciplinary Arts and Sciences; Applied Ecology, Agroecology, Mathematical Biology, Plant-Animal Interactions; Ph.D., University of Washington, 1997

Anne Beaufort
Professor, Interdisciplinary Arts and Sciences; Composition and Writing, Ph.D., Stanford University, 1995

Bonnie Becker
Assistant Professor, Interdisciplinary Arts and Sciences; Marine Ecology, Ph.D., University of California, San Diego, 2005

Jeffrey Begun
Lecturer, Interdisciplinary Arts and Sciences; Economics; Ph.D., University of Washington Seattle, 2009

Nicole Blair
Lecturer, Interdisciplinary Arts and Sciences; Marine Ecology, Ph.D., University of Tennessee, 1989

James E. Brown
Professor Emeritus, Interdisciplinary Arts and Sciences; Philosophy; Ph.D., New York University, 1974

Tyler Budge
Senior Lecturer, Interdisciplinary Arts and Sciences; Three-Dimensional Art, Sculpture; M.F.A., Illinois State University, 2002
Ryan Card
Lecturer, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., University of Washington Seattle, 2009

Alison Cardinal
Lecturer, Interdisciplinary Arts and Sciences; Composition; M.A., Western Washington University, 2009

Kima Cargill
Associate Professor, Interdisciplinary Arts and Sciences; Clinical Psychology, Ph.D., University of Texas at Austin, 2002

Edward Chamberlain
Lecturer, Interdisciplinary Arts and Sciences; Comparative Literature and American Studies; Ph.D., Indiana University, 2012

Leighann Chaffee
Lecturer, Interdisciplinary Arts and Sciences, Psychology, M.A., Northern Arizona University, 2008

Erica Cline
Assistant Professor, Interdisciplinary Arts and Sciences; Microbiology, Ph.D., University of Washington, 2004

Jane Compson
Assistant Professor, Interdisciplinary Arts and Sciences; Comparative Religion; Ph.D., University of Bristol, UK, 1998

David Coon
Assistant Professor, Interdisciplinary Arts and Sciences; Communication and Culture, Indiana University, 2008

Robert Crawford
Professor, Interdisciplinary Arts and Sciences; American and Cultural Studies; Ph.D., University of Chicago, 1974

Katherine Siân Davies-Vollum
Associate Professor, Interdisciplinary Arts and Sciences; Geology; D. Phil., St. Peter’s College, University of Oxford, 1994

Linda Dawson
Senior Lecturer, Interdisciplinary Arts and Sciences; Aeronautical and Astronautical Engineering; M.S., George Washington University, 1973

Chris Demaske
Associate Professor, Interdisciplinary Arts and Sciences; Communication and Society; Ph.D., University of Oregon, 2002

Steve DeTray
Senior Lecturer, Interdisciplinary Arts and Sciences; Political Science, Third World Development, Nonprofit Studies; Ph.D., University of Washington, 1995

Vanessa de Veritch Woodside
Assistant Professor, Interdisciplinary Arts and Sciences; Spanish and Portuguese; Ph.D., University of New Mexico, 2012

Joanne Clarke Dillman
Lecturer, Interdisciplinary Arts and Sciences; Cultural Studies, Film, Women’s Studies; Ph.D., George Mason University, 2009

Joyce Dinglasan-Panlilio
Assistant Professor, Interdisciplinary Arts and Sciences; Chemistry; Ph.D., University of Toronto, 2008

Cynthia Duncan
Professor, Interdisciplinary Arts and Sciences; Spanish, Portuguese and Latin American Literature; Ph.D., University of Illinois, 1983

Julia Eaton
Assistant Professor, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., University of Washington Seattle, 2010

John Finke
Assistant Professor, Interdisciplinary Arts and Sciences; Chemistry and Biochemistry; Ph.D., University of California San Diego, 2001

Michael Forman
Associate Professor, Interdisciplinary Arts and Sciences; Modern European Thought and Culture; Ph.D., Rutgers University, 1995

Kelly Forrest
Assistant Professor, Interdisciplinary Arts and Sciences; Cognitive Psychology; J.D., Seattle University School of Law, 1988; Ph.D., University of Washington, 1998

Robert Friedman
Director, Institute of Technology; Associate Professor, Interdisciplinary Arts and Sciences (joint with the Institute of Technology); Ph.D, American Literature, City University of New York Graduate Center, 1993

James Gawel
Associate Professor, Interdisciplinary Arts and Sciences; Environmental and Aquatic Chemistry, Civil and Environmental Engineering; Ph.D., Massachusetts Institute of Technology, 1996

Claudia Gorberman
Professor, Interdisciplinary Arts and Sciences; Film Studies, Comparative Literature, Women’s Studies; Ph.D., University of Washington, 1978

Cheryl Greengrove
Associate Professor, Interdisciplinary Arts and Sciences; Geoscience, Oceans, Atmospheres; Ph.D., Columbia University, 1986

Mary Hanneman
Associate Professor, Interdisciplinary Arts and Sciences; Asian History, Pacific Rim Studies; Ph.D., University of Washington, 1991

James William Harrington, Jr.
Vice Chancellor for Academic Affairs and Professor, Interdisciplinary Arts and Sciences Geography; Ph.D., University of Washington, 1983

Jennifer Harris
Lecturer, Interdisciplinary Arts and Sciences; Psychology; Ph.D., Seattle Pacific University, 2012

Jutta B. Heller
Lecturer, Interdisciplinary Arts and Sciences; Biology, Biophysics; Ph.D., Johns Hopkins University School of Medicine, 2001

Michael Honey
Professor, Interdisciplinary Arts and Sciences; American History, Labor and Ethnic Studies; Ph.D., Northern Illinois University, 1988

Peter Horak
Professor, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., Comenius University, Slovakia, 1980

Cynthia Howson
Lecturer, Interdisciplinary Arts and Sciences; Sociology; Ph.D., University of Illinois at Urbana-Champaign, 1998

Talitha Ikeda
Lecturer, Interdisciplinary Arts and Sciences; English; M.A., Western Washington University, 2009

Natalie Jolly
Lecturer, Interdisciplinary Arts and Sciences; Sociology and Women’s Studies; Ph.D., The Pennsylvania State University, 2007

Beth Kalikoff
Associate Professor, Interdisciplinary Arts and Sciences; Composition Studies, Writing Pedagogy; Ph.D., Indiana University, 1983

Michael Kalton
Professor Emeritus, Interdisciplinary Arts and Sciences; Comparative Religion, East Asian Languages and Civilization; Ph.D., Harvard University, 1977

Turan Kayaoglu
Associate Professor, Interdisciplinary Arts and Sciences; International Politics; Ph.D., University of Washington, 2005

Michael Kucher
Associate Professor, Interdisciplinary Arts and Sciences; History; Ph.D., University of Delaware, 2000

Michael S. Kula
Assistant Professor, Interdisciplinary Arts and Sciences; Creative Writing; M.F.A., Emerson College, 1999

William Kunz
Associate Professor, Interdisciplinary Arts and Sciences; Broadcast Communication; Ph.D., University of Oregon, 1998

Hyoun Suk Lee
Assistant Professor, Interdisciplinary Arts and Sciences; Health Psychology; Ph.D., University of Texas at El Paso, 2010

Erik McDonald
Lecturer, Interdisciplinary Arts and Sciences; Biology; M.S., Central Michigan University, 2008

Augustus Machine
Lecturer, Interdisciplinary Arts and Sciences; Spanish and Spanish Literature; M.A., University of Iowa, 2004
Julie Masura  
Lecturer, Interdisciplinary Arts and Sciences; Physical Sciences; M.S., Washington State University, 1998

William McGuire  
Assistant Professor, Interdisciplinary Arts and Sciences; Economics and International Economics; Ph.D., The Ohio State University, 2012

Nita McKinley  
Associate Professor, Interdisciplinary Arts and Sciences; Developmental Psychology, Ph.D., University of Wisconsin-Madison, 1995

Divya McMillin  
Professor and Director of Global Honors, Interdisciplinary Arts and Sciences; Communications; Ph.D., Indiana University, 1998

Janie Miller  
Lecturer, Interdisciplinary Arts and Sciences; Creative Writing; M.F.A., University of North Carolina Wilmington, 2008

Lauren M. Montgomery  
Lecturer, Interdisciplinary Arts and Sciences; Psychology; Ph.D., University of Washington Seattle, 1988

Ellen Moore  
Lecturer, Interdisciplinary Arts and Sciences; Communications; Ph.D., University of Illinois, Urbana-Champaign, 2009

David Morris  
Emeritus Associate Professor, Interdisciplinary Arts and Sciences; American Literature; Ph.D., University of Washington, 1984

Beverly Naidus  
Associate Professor, Interdisciplinary Arts and Sciences; Two-Dimensional Art, Painting, Drawing and Digital Imaging; M.F.A., Nova Scotia College of Art & Design, 1978

Amós Nascimento  
Associate Professor, Interdisciplinary Arts and Sciences; Philosophy, Dr.Phil., Universität Frankfurt, 2002

Julie Nicoleta  
Professor, Interdisciplinary Arts and Sciences; Art History, Public History; Ph.D., Yale University, 1993

Sushil Oswal  
Assistant Professor, Interdisciplinary Arts and Sciences; Technical Communication and Rhetoric; Ph.D., University of Cincinnati, 1994

Samuel Parker  
Associate Professor, Interdisciplinary Arts and Sciences; Anthropology, Art History, Asian Studies; Ph.D., University of Chicago, 1989

Jennifer Quinn  
Professor, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., University of Wisconsin-Madison, 1993

Deirdre Raynor  
Associate Professor, Interdisciplinary Arts and Sciences; American Literature, African-American Literature; Ph.D., University of Washington, 1997

Johann Reusch  
Associate Professor, Interdisciplinary Arts and Sciences; History of Arts and Culture, European History; Ph.D., University of California, Los Angeles, 1994

Stephen Ross  
Assistant Professor, Interdisciplinary Arts and Sciences; Psychology; Ph.D., University of Texas at El Paso, 2008

Peter Selkin  
Assistant Professor, Interdisciplinary Arts and Sciences; Earth Sciences; Ph.D., Scripps Institution of Oceanography, University of California, San Diego, 2003

Emmett Joseph Sharkey  
Associate Professor, Interdisciplinary Arts and Sciences; Comparative Literature; Ph.D., University of California, Davis, 1998

Haley Skipper  
Lecturer, Interdisciplinary Arts and Sciences; Mathematics and Statistics; M.S., University of North Dakota, 2007

Cynthia Stanich  
Lecturer, Interdisciplinary Arts and Sciences; Chemistry; Ph.D., University of Washington Seattle, 2012

Jeffrey R. Stephens  
Lecturer, Interdisciplinary Arts and Sciences; Chemistry; Ph.D., University of Montana, 1989

Huatong Sun  
Assistant Professor, Interdisciplinary Arts and Sciences; Communication and New Media Studies; Ph.D., Rensselaer Polytechnic Institute, 2004

Elizabeth Sundermann  
Lecturer, Interdisciplinary Arts and Sciences; History; Ph.D., University of California Davis, 2009

Riki E. Thompson  
Assistant Professor, Interdisciplinary Arts and Sciences; Composition and Rhetoric; Ph.D., University of Washington, 2007

Ruth Vanderpool  
Lecturer, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., University of Oregon, 2009

Tanya Velasquez  
Lecturer, Interdisciplinary Arts and Sciences; U.S. Race and Ethnic Studies; M.A., Interdisciplinary Studies; University of Washington Tacoma, 2011

Jack Vincent  
Lecturer, Interdisciplinary Arts and Sciences; Biology; Ph.D., University of Washington Seattle, 2007

Ingrid Walker  
Associate Professor, Interdisciplinary Arts and Sciences; American Literature; Ph.D., University of California, Santa Cruz, 1992

Carolyn West  
Associate Professor, Interdisciplinary Arts and Sciences; Clinical Psychology; Ph.D., University of Missouri-St. Louis, 1994

Charles Williams  
Assistant Professor, Interdisciplinary Arts and Sciences; U.S. Politics; Ph.D., University of California, Berkeley, 2005

Michael Zbaraschuk  
Lecturer, Interdisciplinary Arts and Sciences; Religion; Ph.D., The Claremont Graduate School, 2002
Students admitted to the BSN program are registered nurses who have completed the initial phase of their education through an associate degree or diploma nursing program.

The Nursing program focuses on the discovery and dissemination of knowledge that promotes health. The curriculum emphasizes and fosters the integration of teaching, inquiry and service within a community of learners. Partnerships with the community assist the program in providing learning environments in which learners build upon their skills and knowledge to strengthen their understanding of local, national and global health issues.

**Philosophy of Undergraduate Education**

The Nursing faculty believes that the purpose of university-based undergraduate nursing education is to prepare professional nurses whose practice is informed by theory and research. The philosophy of the undergraduate curriculum is rooted in values of excellence, diversity, community, social justice, integrity and creativity. Preparation for the various roles in practice requires knowledge of the arts and sciences, together with content and processes foundational to the discipline. An interdisciplinary emphasis engages students in a broad range of ideas and knowledge. Ultimately, professional nursing requires a commitment to scholarly inquiry, social equity, advocacy and life-long learning.

**Program Overview**

The BSN curriculum focuses on critical thinking, responses to health and human functioning, nursing intervention and person-environment interaction within a context of cultural diversity. The curriculum also includes all the essential elements of baccalaureate education for professional nursing practice as defined by the American Association of Colleges of Nursing (AACN). An interdisciplinary emphasis encourages an understanding of a broad range of ideas, knowledge and methods of study.

Most students in the UW Tacoma Nursing program are employed in a variety of healthcare settings, so courses are scheduled to enable students to continue employment while enrolled in the program of study. A BSN from UW Tacoma enhances the graduate's ability to contribute to his or her community’s institutions and to the health of citizens of Washington state, particularly during this period of rapid change in health care.

**Accreditation**

As part of the top-ranked University of Washington School of Nursing at the Seattle campus, UW Tacoma’s Nursing program shares accreditation by the Commission on Collegiate Nursing Education (CCNE).

**Program Goals**

Opportunities are provided to enable the learner to develop professionally and to meet the Nursing program goals, which are for graduates to:

- Integrate concepts from the Arts and Sciences in promoting health and managing complex nursing care situations.
- Apply leadership concepts, skills, and decision making in the provision, and oversight of nursing practice in a variety of settings.
- Translate principles of patient safety and quality improvement into the delivery of high quality of care.
- Appraise, critically summarize and translate current evidence into nursing practice.
- Integrate knowledge, processes, and skills from nursing science; information and patient care technologies; and communication tools to facilitate clinical decision-making, and the delivery of safe and effective nursing care.
- Describe the effects of health policy, economic, legal, political, and socio-cultural factors on the delivery of and advocacy for equitable health care.
- Demonstrate effective professional communication and collaboration to optimize health outcomes.
- Deliver and advocate for health promotion and disease prevention strategies at the individual, family, community and population levels.
Students with 50–90 transferable credits may be considered. Please contact an adviser for more information.

Provisional admission may be offered to students in the final year of an associate degree in a nursing program.

The UW Tacoma BSN program has an annual admission process and admits students for summer and autumn quarters only. For pre-major admission for a quarter other than summer or autumn, contact the BSN adviser before applying.

Applications that meet the priority application deadline are assured a review for admission in the upcoming academic year. Subsequent reviews are completed on a space-available basis.

Applications for admission into the Nursing program are considered complete when the following have been received:

- UW Tacoma Application for Transfer Admission and application fee
- Official transcripts from all previous institutions attended
- Nursing Program Application and Supplemental Materials Kit (see Nursing website)
- Any applicant receiving an offer of admission is required to complete an online criminal background check through Verified Credentials, Inc. before beginning BSN course work. Please note there is a separate fee for this service. A repeated criminal background check may be required prior to enrolling in practicum courses.

After admission to the program, students are required to complete a health history and have required immunizations, a current CPR certification and an unrestricted RN license. Students will be required to complete the UW HIPAA Compliance course. Students are responsible for their own transportation to and from practicum course work.

To qualify for graduation with a bachelor of science in nursing from the University of Washington Tacoma a student must:

- Satisfy all BSN admission requirements.
- Complete all required nursing courses.
- Complete 10 credits in upper-division electives at UW Tacoma.
- Complete a minimum of 180 credits distributed as follows:
  - 90 transfer credits
  - 45 advanced placement credits via RN licensure examination
  - 45 graded credits in residence at UW Tacoma:
    - 35 credits in required Nursing course work (minimum 2.0 grade in each course):
      - T NURS 340 Clinical Nursing Phenomena (3)
      - T NURS 345 Genetics and Nursing Practice (1)
      - T NURS 350 Critical Analysis and Writing (3)
      - T NURS 402 Families and Chronic Conditions Across the Life Span (3)
      - T NURS 403 Introduction to Research in Nursing and Healthcare (3)

Scholarships

The Nursing program offers scholarships for new and continuing Nursing students. The scholarships are awarded to students who demonstrate both financial need and outstanding academic achievement. Check the Nursing program website for more information.

Satisfactory Progress

Students are required to maintain satisfactory progress in their pursuit of the BSN degree, defined as achieving a minimum grade of 2.0 in all nursing, nursing-related and required courses. Students must also achieve a 2.0 grade in any repeated course and provide proof of valid RN licensure in the state of Washington before enrolling in any clinical course.

Students must meet all of the Essential Behaviors for Admission, Continuation and Graduation.

Admission Requirements

Applicants to the UW Tacoma BSN program must meet the following requirements:

- Current unrestricted licensure as a registered nurse in the state of Washington*
- One year of clinical practice (preferred, but not required to include associate degree nursing school clinicals)
- A cumulative GPA of at least 2.0 on a 4.0 scale in all college course work
- A minimum of 90 credits with a grade of 2.0 or better on a 4.0 scale in prerequisite course work to include: **
  - 5 credits of English composition and 10 additional credits of writing-intensive required Nursing course work
  - 15 credits of Individuals and Society course work (may be completed at UW Tacoma)
  - 15 credits of Visual, Literary and Performing Arts course work (may be completed at UW Tacoma)
  - 5 credits of chemistry (CHEM 100 or 101)
  - 10 credits of anatomy and physiology (may be met via examination)
  - 3 credits of microbiology (may be met via examination)
  - 5 credits of advanced math (may be petitioned)
  - 5 credits of UW School of Nursing-approved statistics (may be taken at UW Tacoma); see approved courses at son.washington.edu/admissions/stats

- Forty-five (45) advanced placement credits are earned through successful completion of RN licensure examination.
- Agreement to adhere to the Essential Behaviors for Admission, Continuation and Graduation (see website: tacoma.uw.edu/nursing/essential-behaviors-1).

Application Process

Applicants to the UW Tacoma BSN program must meet the following requirements:

- UW Tacoma Application for Transfer Admission and application fee
- Official transcripts from all previous institutions attended
- Nursing Program Application and Supplemental Materials Kit (see Nursing website)
- Any applicant receiving an offer of admission is required to complete an online criminal background check through Verified Credentials, Inc. before beginning BSN course work. Please note there is a separate fee for this service. A repeated criminal background check may be required prior to enrolling in practicum courses.

After admission to the program, students are required to complete a health history and have required immunizations, a current CPR certification and an unrestricted RN license. Students will be required to complete the UW HIPAA Compliance course. Students are responsible for their own transportation to and from practicum course work.

Full-Time vs. Part-Time

The BSN program can be completed in four quarters on a full-time plan (10 to 14 credits per quarter) or seven or more quarters on a part-time plan (four to nine credits per quarter). Students who plan to work while attending UW Tacoma are encouraged to attend part-time or complete required electives and prerequisites before beginning required nursing course work.

* Provisional admission may be offered to students in the final year of an associate degree in a nursing program.

** Students with 50–90 transferable credits may be considered. Please contact an adviser for more information.
T NURS 407 Diversity, Health and Inequities (3)
T NURS 410 Ethical Issues in Healthcare (3)
T NURS 412 Health Care Systems (3)
T NURS 414 Health, Communities and Populations (5)
T NURS 430 Interpersonal Communication (3)
T NURS 433 Nursing Leadership (3)
T NURS 450 Transition to Baccalaureate Education (1)
T NURS 451 Portfolio Completion (1)

- 10 credits in required upper-division electives (minimum 2.0 grade in each course)
- Additional electives to meet a minimum of 180 credits (Nursing course work at UW Tacoma used to satisfy this requirement must also be completed with a minimum grade of 2.0).
- Satisfy all of the general university graduation requirements, including five credits of English composition with a minimum grade of 2.0 (see page 22) and 10 additional credits of writing-intensive required Nursing course work.
- Apply for graduation with an adviser by the application deadline posted by the Graduation and Academic Records Office for the expected date of graduation.

ADN-BSN-MN Study Option

The ADN-BSN-MN study option is an accelerated program plan for high-achieving associate degree and diploma-prepared nurses to earn their MN degree. Applicants must be graduates of a National League for Nursing accredited program. ADN-BSN-MN students substitute two MN courses for two undergraduate nursing courses. The six credits of master's level course work are counted as part of the 180 required undergraduate credits.

A program of study is planned that meets UW Tacoma BSN and MN graduation requirements. The BSN is awarded upon completion of the baccalaureate program. Once a baccalaureate degree is earned and the student is accepted into the UW Graduate School, the student then completes a 39-credit graduate program, rather than the standard 45-credit program.

To be considered for the accelerated ADN-BSN-MN study option, the student must:
- Have a cumulative GPA of 3.7 for all transfer college courses.
- Be in the top 25% of the class in T NURS 350 Critical Analysis and Writing.

Consideration for the ADN-BSN-MN Study Option

Students must first be accepted into the UW Tacoma BSN program before applying for the ADN-BSN-MN study option. Potentially qualified ADN-BSN-MN students will be notified of eligibility after completion of T NURS 350 Critical Analysis and Writing.

Acceptance into the ADN-BSN-MN study option does not connote or imply automatic acceptance into the UW Graduate School. The student must meet the criteria for acceptance. Requirements are found at www.tacoma.washington.edu/nursing/prospective_students/mn/admission.cfm.

Course Descriptions

See the Nursing website for the most current course information at tacoma.uw.edu/nursing/courses.

Required Courses

T NURS 340 Clinical Nursing Phenomena
3 credits
Examines selected clinical phenomena from the perspectives of a range of human responses to life events and alterations in health status and illness. Identifies relationships of selected nursing therapies in treating human responses and the influence of life span and socio-cultural factors.

T NURS 345 Genetics, Genomics and Nursing Practice
1 credit
Focuses on the role of genetics and genomics in health, patient care, and nursing practice.

T NURS 350 Critical Analysis and Writing
3 credits
Focuses on critical thinking and writing relevant to learning and practice in nursing and healthcare. Applies critical analysis to health related issues. Offered jointly with THLEAD 350.

T NURS 402 Families and Chronic Conditions Across the Life Span
3 credits
Examines families with chronic conditions across the life span. Reviews risk and protective factors that facilitate or impede chronic care management by families. Focuses on family function, structure, process, and environmental context including support networks, community resources, and healthcare settings as they influence care outcomes. [I]

T NURS 403 Introduction to Research in Nursing and Healthcare
3 credits / Prerequisite: Either THLEAD 350 or T NURS 350; one of THLTH 305, TMATH 110, or one 100- to 300-level STAT course
Describes the systematic steps of the research process. Introduces approaches, frameworks, and concepts used in investigating healthcare and nursing problems. Emphasizes integration of research findings to establish evidence-based healthcare and nursing practice. [Q]

T NURS 407 Diversity, Health and Inequities
3 credits
Examines how difference, discrimination, marginalization, power, and privilege relate to health, illness, and health care. Attends to historical and structural manifestations of oppression and inequity. Addresses health inequities. Offered jointly with THLEAD 407. [II][IV]

T NURS 410 Ethical Issues in Clinical Practice
3 credits
Identifies ethical issues relevant to healthcare and the profession of nursing. Identifies, describes, and analyzes, multiple ethical perspectives, selected ethical dilemmas relevant to professional practice, the delivery of health care, and the health of individuals and populations. Offered jointly with THLEAD 410. [I]

T NURS 412 Health Care Systems
3 credits
Analyzes health care systems. Emphasizes U.S. health care system evolution, financing, quality, access, and technology.

T NURS 414 Health, Communities and Populations
5 credits / Prerequisites: T NURS 350, T NURS 403
Applies community and public health nursing principles to prevent disease and promote health. Addresses the importance of working collaboratively to facilitate community and population health. [I]
T NURS 430
Interpersonal Communication
1-3 credits, max. 3
Addresses communication skills, patterns and practices. Examines nonverbal and verbal modes of communication. Explores communicating in a variety of contexts pertinent to healthcare, for example, cultural, personal, professional, group, conflict, and leadership. Applies conceptual models in interpersonal processes. [I]

TNURS 435
Nursing Leadership
3 credits
Emphasizes leadership styles and theories and the role of nurses as organizational change agents and health policy advocates. Addresses team collaboration and conflict resolution.

T NURS 450
Transition to Baccalaureate Education
1 credit
Assists students with transition to baccalaureate education and with portfolio development. Provides opportunity for students to participate in a learning community.

T NURS 451
Portfolio Completion
1 credit
Assesses progress toward meeting BSN Program Goals. Summarizes how completion of the BSN Program has influenced current and future practice. Must be taken in last quarter of study.

T NURS 497
Selected Topics in Nursing
1-12 credits, max. 12
Survey and discussion of current literature and topics in nursing. Seminar with analysis and discussion of selected topics and readings. May have clinical component. Emphasizes implications for nursing and health care.

T NURS 498
Special Project in Nursing
1-12 credits, max. 12
Further development, critical examination, and synthesis of nursing care in a specialized setting. Increasing depth of clinical practice, including care to groups and communities as clients, applying leadership skills, assessing problems affecting quality health care delivery.

T NURS 499
Undergraduate Research
1-5 credits, max. 12
Supervised individual research on a specific nursing problem.

Health-Related Courses

T HLTH 305
Statistics: Learning from Data
5 credits / Prerequisite: Intermediate algebra or permission of instructor
Examines concepts and practice of statistics in health and social sciences. Emphasizes applications in the three major areas of statistical practice: data analysis, organizing and describing data; data production, sampling and design; and statistical inference, drawing conclusions. Uses working with genuine data to enhance abilities to actively apply statistical concepts. [N][Q][I]

T HLTH 310
Health, Illness, and Society
5 credits
Introduction to societal factors influencing health both locally and globally, utilizing perspectives from diverse disciplines. Examines topics such as the social construction of health and illness, the meaning of health and illness in cultural context, the social determinants of health, and issues in health care delivery and access. [I]

T HLTH 320
Promoting Health Through Social Marketing
5 credits
Examines strategies to promote health both locally and globally. Covers social marketing principles. Applies range of social marketing techniques to develop a campaign to promote health at a population level. [I]

T HLTH 325
Medical and Ethical Issues in Literature and Culture
5 credits
Examines various medical and bioethical issues through the lens of literature. The role of technology, illness and culture, and end-of-life issues are explored. [V]

T HLTH 330
Representations of Adolescents in Film
5 credits
Interprets and critiques images of adolescent issues in film; compares images, sounds, settings and plot of film; promotes willingness to investigate commonplace assumptions versus evidence of health risks portrayed cinematically. [V]

T HLTH 372
Environment Health: Local to Global
5 credits
Examines environmental factors that influence human health including physical, social, cultural, economic and political factors. Examines environmental issues in homes (lead, radon), work settings (occupational health and safety), communities (pesticides, air pollution), and the global context (population dynamics, global warming). One field trip. [I]

T HLTH 410
Environmental Equity
5 credits
Explores relationships between environmental issues and people of color and low-income communities from both local and global perspectives. Emphasizes issues of race/ethnicity, socioeconomic status, and policy and politics in environmental equity. Offered jointly with T URB 410. [I]

T HLTH 415
Representations of Health Policy and Ethics in Film
5 credits
Examines contemporary conflicts about health and health care using films. Films used as a means of displaying and exploring the competing images of bodies, policies, workers, and institutions used to frame and personify these debates. Films supplemented by readings in film analysis, literature, narrative ethics, and health policy. [V]

T HLTH 420
Holistic Health
5 credits
Examines the economic, social and cultural conditions that support the growth of holistic nursing. Discusses relevant research and practice issues of selected methods of complementary/alternative healing.

T HLTH 425
Violence in Intimate Partner Relationships
5 credits
Examines partner violence as a cumulative interactive experience that must be framed within historical and social contexts. Emphasizes current literature on conceptualizing gendered violence, theoretical perspectives of abuse in intimate relationships. [I]

About Fulfilling Admission Requirements

Students may fulfill requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description. [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.
T HLTH 430  
Adolescent Health in Context  
5 credits  
Provides an overview of adolescent health in the United States and examines current issues in adolescent health research. Addresses a matrix of adolescent health contexts such as historical constructions of adolescence, politics, race/ethnicity, class, gender, culture, sexuality, school, neighborhood, family and peer groups. [I]

T HLTH 435  
Women's Health, Women's Lives  
5 credits  
Examines sociocultural, economic, and political influences on women and their health. Discusses issues relevant to women and health across the life span from an historic, contemporary, and futuristic perspective. Focuses on social roles central to women’s lives, transitions, identity and gender inequities and their impact on women's health. [I]

T HLTH 440  
Business of Health Care  
5 credits  
Explores the forces driving the changes in the evolving U.S. health care system to include resource allocation and cost-containment strategies. Emphasizes the examination of key economic concepts, e.g., outputs, supply, demand, and markets as they relate to the health care industry.

T HLTH 445  
Health in a Developing Nation Study Abroad  
5 credits  
Provides an overview of the health and health care challenges in a developing and low-income country. Addresses socio-cultural, environmental, economic, political, and ecological factors that influence health, illness, disability, and death as well as responses to health issues both within and outside the health sector. Included study abroad. [I][V]

T HLTH 450  
Perspectives in Medical Anthropology  
5 credits  
Examines the relationship between society, illness, and healing by applying theoretical perspectives used by medical anthropologists. While using examples from other cultures, focuses on an understanding of Western society through a comparative approach to the symbolic, social, and political construction of the body in illness and health. [I][IV]

T HLTH 460  
Strategies for Community Change  
5 credits  
Provides a framework for exploring the nature of social and community responsibility. Draws on strategies used in community organizing and development, the health profession’s literature, and field experiences to focus on how people change the communities in which they live and what supports community action or inertia. Considers the intersection between traditions of activism, community experience, and professional standing vis a vis change. Explores issues of social justice and change common to liberation movements in other countries. [I]

T HLTH 470  
Challenges and Controversies in U.S. Health Care  
5 credits  
Explores public and private forums in which health policy is formulated and within which the politics of health care operate. Examines a range of contemporary issues in U.S. health care and the legislative and political mechanisms that shape those issues. [I]

T HLTH 480  
Death and American Society  
5 credits  
Examines the social, cultural and psychological aspects of death, loss and grief. Presents a multi-disciplinary approach to death in American society, integrating theory and research with clinical data and personal experiences. Topics include cultural rituals around death, loss and grief, dying as a personal experience and ethical issues around death. [I][V]

T HLTH 485  
Critical Issues in Global Health  
5 credits  
Reviews and analyzes current issues and trends in global health and the influence of economic, political and social factors on health and living conditions in countries across the globe. Considers transnational factors that shape risks to health and the structural conditions that determine a nation's vulnerability in a globalized economy. [I]

T HLTH 490  
Special Topics  
2-5 credits, max. 15  
Advanced course offerings to respond to faculty and student interests and needs.

T HLTH 498  
Special Project in Health  
1-12 credits, max. 12  
Further development, critical examination, and synthesis of nursing care in a specialized setting.

T HLTH 499  
Undergraduate Research  
1-5 credits, max. 12  
Supervised individual research on a specific nursing problem.

Faculty

Sharon Gavin Fought  
Director and Associate Professor  
Nursing and Healthcare Leadership; RN; Ph.D., The University of Texas, 1983

Katie Adamson  
Assistant Professor, Nursing and Healthcare Leadership; Ph.D., Washington State University, 2011

Jane Corman  
Senior Lecturer, Nursing and Healthcare Leadership; Ph.D., University of Washington, 1988

Marjorie Dobratz  
Professor, Nursing and Healthcare Leadership; RN; D.N.Sc., University of San Diego, 1990

Kathleen Shannon Dorcy  
Senior Lecturer, Nursing and Healthcare Leadership; RN; Ph.D., University of Utah, 2011

Denise Drevdahl  
Associate Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 1996

Robin Evans-Agnew  
Assistant Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 2011

Kären Landenburger  
Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 1987

June S. Lowenberg  
Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of California San Diego, 1985

Joane Moceri  
Associate Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 2006

Sondra Perdue  
Senior Lecturer, Nursing and Healthcare Leadership; Dr.P.H., University of California, Los Angeles, 1985

Janet Primomo  
Associate Professor, Nursing and Healthcare Leadership; RN; Ph.D., University of Washington, 1989

Ruth Rea  
Associate Professor, Nursing and Healthcare Leadership; RNC.; Ph.D., University of Texas at Austin, 1987

Christine Stevens  
Associate Professor, Nursing and Healthcare Leadership; RN; M.P.H.; Ph.D., University of Washington, 2004

Cathy Tashiro  
Professor Emeritus, Nursing and Healthcare Leadership; RN; Ph.D., University of California San Francisco, 1998

Alexis Wilson  
Senior Lecturer, Nursing and Healthcare Leadership; RN; Ph.D., Union Institute Graduate College, 1977
Developed in collaboration with and under the auspices of the University of Washington School of Social Work, the bachelor of arts degree in social welfare prepares learners for entry level and generalist practice as providers of social services and includes a combination of field experience and classroom learning.

About the Program

The Social Welfare program is dedicated to preparing competent, ethical, and culturally sensitive social workers with specialized knowledge and skills who are committed to evidence-based practice and to planned social change.

A deep commitment to equity and cultural diversity is brought to the development of the program. The program’s mission gives special attention to the poor and oppressed, including people of different ethnic and racial groups, sexual orientations, physical and mental abilities and women.

The bachelor of arts degree in social welfare is designed for students in the South Puget Sound region who are committed to providing effective social services to populations experiencing social and economic difficulties.

Graduates with a degree in Social Welfare are prepared to accept professional social work positions in a variety of settings. Typical positions for social welfare graduates are those that serve children, families, older persons, individuals with developmental disabilities, persons with severe and persistent mental illness, individuals who abuse alcohol and drugs, and those who are in the criminal justice system, health and long-term care agencies, and public social services. In providing these services in agencies and organizations, graduates are engaged in a wide range of roles, including as caseworkers, family advocates and social services employees at community agencies, mental health centers and chemical dependency settings.

Accreditation

The Social Work program at the University of Washington Tacoma is accredited by the Council on Social Work Education (CSWE) as a BASW program option of the University of Washington School of Social Work in Seattle.

Admission Requirements

The UW Tacoma Social Welfare program admits a cohort of students in autumn quarter only. Core classes must be taken in sequence. Prior to application students must complete all admission requirements for UW Tacoma and the Social Welfare program (or students must have a plan in place to complete required courses prior to entry).

To be considered for admission a student must meet the following minimum qualifications:

■ Meet admissions requirements for the University of Washington Tacoma.
■ A cumulative GPA of at least 2.0 in all college course work.
■ A GPA of at least a 2.0 or C grade or higher in each Social Welfare prerequisite course:
  - English composition
  - Introductory or survey course in psychology
  - Introductory or survey course in sociology
  - Introductory, survey, micro or macro course in economics
  - One approved course in human biology. Human biology must have been successfully completed within the last 10 years.
  - 5 credits of introductory statistics taken within the last five years, must be completed before entering the senior year (may be completed at UW Tacoma)

Review approved course equivalents at tacoma.uw.edu/social-work/human-bio.

■ A minimum of 75 college-level credits
How to Apply

The UW Tacoma Social Welfare program has an annual admission process. Applications submitted by the application deadline are assured a review for admission for the upcoming academic year. Subsequent reviews are completed on a space-available basis.

A completed application consists of the following materials:

Application

Current UW Tacoma students must complete a “Declare/Change of Major” form. Transfer students must submit the application for transfer admission and pay the corresponding application fee.

All applicants must complete the Social Welfare program supplemental materials.

Transcripts

Current UW Tacoma students must print an unofficial UW transcript from MyUW and submit it with their materials. Transfer students must submit official transcripts reflecting all previous academic course work. High school transcripts should be submitted if intermediate algebra or foreign language was completed in high school.

Admissions Essay

The Social Welfare program admissions committee asks that each applicant write a two-page essay that follows the guidelines below. The essay should be typed, double-spaced with a font size of 12.

Please give a brief (one page maximum) autobiographical statement that supports your interest in a social work career. To the extent possible, include information regarding:

- Any specific obstacles that you have met or overcome
- Examples of leadership
- Other influences (either positive or negative) that shaped your interest in social work

Please describe volunteer or work experiences that relate to social services (one page maximum). Include a brief discussion of:

- Your duties as a social service provider
- What you learned from the experience
- How the experience has influenced your career goals
- Any involvement with disadvantaged populations
- Any involvement with social issues

The admissions essay is a critical element in the review of each applicant’s qualifications. Applicants are urged to carefully follow the instructions provided regarding the essay and to be as thorough as possible within the essay length limits.

Résumé

Please provide a résumé of experience that includes the following:

- Any social service experiences (paid or volunteer)—include dates and total hours of involvement
- Any special awards, achievements, honors that you may have earned
- Special skills (e.g., bilingual skills, artistic talent, research skills)

Special Requirements

All applicants are asked to disclose any conviction/criminal history during the admissions screening process. Therefore, the following forms are required:

- Conviction/criminal history information form
- Authorization and dissemination of results form

Background Check

A background check is a required part of the Social Welfare admissions process. If offered admission, students are required to submit to a background check using a fee-based online service, Verified Credentials. Currently, the fee is $58.

Note: When considering individuals for admission to the program, conviction/criminal history records are reviewed as they relate to the content and nature of the curriculum and the safety and security of clients and the public. A conviction/criminal history record does not necessarily disqualify an individual for admission.

UW Health Sciences Immunization Program (HSIP) Requirement

The University of Washington Health Sciences Center requires that its students show documentation of protection against a number of vaccine-preventable diseases. The University of Washington Seattle School of Social Work falls under the umbrella of UW Health Sciences and therefore all UW Tacoma BASW students must comply.

New students admitted to the BASW Program must submit appropriate documentation within a specific timeframe. New students will be advised of specific submission deadlines upon admission. No student will be permitted to begin practicum placements unless in compliance with HSIP vaccinations.

Curriculum Objectives

Graduates of the Bachelor of Arts program in Social Welfare are expected to:

- Apply entry-level social work practice skills to individuals, families, groups, communities, tribes and organizations.
- Demonstrate an ethical and just professional use of self and the ability to use supervision and consultation.
- Practice effectively within agencies and delivery systems and identify, plan and pursue needed agency and system changes aimed at promoting social and economic justice.
- Demonstrate knowledge of and commitment to social work values and ethics through effective social work practice.
- Demonstrate understanding of and appreciation for differences based on gender, ethnicity, race, religious creed, sexual orientation, class and physical and developmental disabilities.
- Identify the ways in which oppression, colonization, privilege, discrimination and social and economic disadvantage contributed to complex human welfare problems.
- Understand the strengths and empowerment perspectives in practice, policy and research in order to promote social and economic justice.
- Understand and describe the comparative history of social welfare and social work systems in the United States as well as the emergence of social work as a profession.
- Understand the growing prevalence of economic inequality, the distribution of poverty and societal remedies to resolve these problems.
- Analyze the impact of social policies on people (both clients and workers), agencies, communities, service systems and nations, including American Indian and Alaska Tribal nations.
- Understand and critically apply theoretical frameworks to understand individual development and behavior across the lifespan and the interactions among individuals and between individuals and social systems (i.e., families, groups, organizations, tribes and communities).
- Demonstrate knowledge and skills in social work research methods used to develop and evaluate interventions and social service delivery systems.
- Understand, use and promote evidence-based methods in generalist social work practice.
Course of Study

The required core curriculum must be taken in sequence over a two-year period. The Social Welfare curriculum consists of a 67-credit program comprised of these major areas:

- Foundation courses
- Social work practice courses
- Practicum combined with practicum seminars
- Social welfare electives

Students will be required to complete 10 credits of social welfare upper-division electives.

Model Program of Study

To help prospective students understand the sequencing of the Social Welfare curriculum, the model program of study (see table at right) shows the typical progression to complete the degree. UW Tacoma requires a total of 180 credits for graduation that includes the credits required for the BASW degree. Information provided in this table gives an overview of the two-year curriculum.

In the freshman and sophomore years, students should fulfill as many of the general education requirements as possible. Those requirements consist of language skills (English composition and foreign language), reasoning and writing skills, and areas of knowledge. Completion of all general education requirements is not required for admission to the BASW program; however, students with deficiencies must meet with the program adviser to discuss completion of these requirements prior to graduation.

Social Welfare majors who are pursuing the minor in Criminal Justice may not double count TSOCWF 300-400 level courses as approved Social Welfare electives and as electives for the minor in Criminal Justice. The TSOCWF 300-400 level course(s) may satisfy one distribution area or another, but not both.

Social Welfare Practicum

In addition to classroom instruction, students are required to complete 480 hours of practicum experience in an outside agency or organization under the supervision of a qualified social worker. In the practicum settings, students gain experience in such roles as advocate, case manager, change agent, group leader and organizer. They may assist a chemically-dependent person in changing destructive behavior patterns; help a battered woman find a safe, stable environment; support a person with mental illness in living independently in his or her community; marshal resources to enable a person with a physical disability to enter mainstream society; foster or find a safe environment for an abused child; advocate for housing for homeless people; or help a community organize itself to prevent neighborhood problems.

Academic Standards

To maintain satisfactory progress in the Social Welfare program, an admitted student must meet the following criteria:

- Maintain a 2.5 cumulative GPA in required Social Welfare courses and a 2.0 cumulative UW Tacoma GPA. A student whose Social Welfare cumulative GPA falls below 2.5 in any quarter will be placed on academic probation. Once on academic probation, the student must contract with the Social Work program director to formulate an action plan for improving his or her GPA and attain at least a 2.75 GPA for each succeeding quarter until the Social Welfare GPA is raised to a 2.5. Students who continue on probation will be reviewed by the director and may be suspended from the program for low scholarship.

A student is removed from probation at the end of the quarter in which a Social Welfare GPA of 2.5 or better is achieved and a UW Tacoma cumulative GPA of 2.0 or better is reached, and any conditions for reinstatement and satisfactory progress have been met.

- Earn a minimum 2.0 grade (or credit in courses taken CR/NC) in each required Social Welfare course. A student who earns a grade of less than 2.0 in any required Social Welfare course will be placed on academic probation for one or more quarters.

SOURCE: University of Washington Tacoma
be asked to retake a required course the next time it is offered. This may delay the student’s practicum by one year. With the approval of the program offering the course, a student may repeat a course once. Both the original grade and the second grade will be computed in the student’s GPA, but credit will be given only once.

Required Social Welfare courses are TSOCWF 300, 310, 311, 312, 320, 390, 402, 404, 405 and 415.

Satisfactorily complete the first year required courses before proceeding into the practicum and practicum seminar. To begin the practicum (TSOCWF 415), the student must be cleared for placement as outlined in the Social Work Program Policy for Assessing Students’ Readiness for Field Education.

Complete the program within four years after admission. A student who does not complete the program within four years of admission may be removed from the program and placed in pre-major status. A student who begins the program and then withdraws from UW Tacoma for more than one year will have to re-apply to the program to be admitted. If re-admitted, the student must meet with the program adviser to prepare a revised program of study. The adviser (in consultation with the director) will determine which courses may or may not be applicable to the current curriculum and which courses must be completed for the degree.

Graduation Requirements

To qualify for graduation with a Bachelor of Arts degree in Social Welfare from the University of Washington Tacoma, a student must:

- Be a matriculated Social Welfare student in good academic standing with the University of Washington Tacoma.
- Satisfy all prerequisite and admission requirements for entrance into the Social Welfare program.
- Complete a minimum of 180 credits. At least 45 of the last 60 credits of upper-division work must be taken in residence at UW Tacoma.
- Maintain a minimum cumulative GPA of 2.5 in all required Social Welfare course work.
- Earn a minimum grade of 2.0 in each required Social Welfare course.
- Have a minimum 2.0 GPA for all UW Tacoma course work at graduation.

Complete 57 credits of core courses in Social Welfare to include:
- TSOCWF 300 Social Welfare: Historical Approaches
- TSOCWF 310 Social Welfare Practice I
- TSOCWF 311 Social Welfare Practice II
- TSOCWF 312 Social Welfare Practice III
- TSOCWF 320 Social Welfare: Contemporary Approaches
- TSOCWF 390 Introduction to Social Welfare Research
- TSOCWF 402 Human Behavior and the Social Environment I
- TSOCWF 404 Cultural Diversity and Social Justice
- TSOCWF 405 Practicum Seminar
- TSOCWF 415 Practicum

Complete 10 credits of Social Welfare upper-division electives (TSOCWF 300–400 level courses).

Apply for graduation with a program adviser in the Academic Advising Center by the deadline posted by the university for the expected quarter of graduation.

Course Descriptions

For the most current course information, please consult the Social Work website: tacoma.uw.edu/social-work.

**TSOCWF 100 Introduction to Social Work 5 credits**
Introduces social work as a profession including exploration of its history, values, ethics, and career options within the field. Emphasizes social workers' historic commitment to economic and social justice, diversity, empowerment, and improving conditions faced by society’s most vulnerable members. [I]

**TSOCWF 150 Suicide: Individual and Community Responses 2 credits**
Increases student understanding of historical and contemporary responses to suicide; explores ethical and moral issues; and develops introductory skills used in suicide prevention. Explores psychological and sociological theories of suicide as well as other responses people engage in suicidal behaviors. [I]

**TSOCWF 202 Perspectives on Doing Service 5 credits**
Explores the philosophical, spiritual, cultural, and value concepts that undergird helping and altruistic behaviors by individuals and groups in a global society. Service learning is included in explorations of what helping and service mean in daily life and the professional work world. [I]

**TSOCWF 300 Social Welfare: Historical Approaches 5 credits**
Stresses the origin of social welfare policies, beginning with the Elizabethan Poor Law of 1601. Issues of poverty, as well as the development of publicly-funded income maintenance programs, and an understanding of the historical roots of social work are central to this course. Required for all Social Welfare majors. Open to non-majors. [I]

**TSOCWF 310 Social Welfare Practice I 3 credits**
Provides an introduction to the roles, tasks and functions of the social welfare practitioner and to theories and methods of intervention; a conceptual framework for social work practice with individuals, families and small groups; and an opportunity to develop skills in problem assessment, intervention, termination and evaluation. Required for all Social Welfare majors.

**TSOCWF 311 Social Welfare Practice II 3 credits / Prerequisite: TSOCWF 310**
Provides an introduction to the roles, tasks and functions of the social welfare practitioner and to theories and methods of intervention; a conceptual framework for social work practice with individuals, families and small groups; and an opportunity to develop skills in problem assessment, intervention, termination and evaluation. Required for all Social Welfare majors.

**TSOCWF 312 Social Welfare Practice III 5 credits / Prerequisite: TSOCWF 311**
Focus on macro systems in a diverse society using the generalist perspective. The implications of system resources and configurations for meeting human needs are considered. The role and function of generalist social workers to understand and advocate for system development and change is emphasized. Required for all Social Welfare majors.

About Fulfilling Admission Requirements

Students may fulfill requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description. [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/ Symbolic Reasoning; and [W] Writing.
TSOCWF 320
Social Welfare: Contemporary Approaches
5 credits
Current policy and program developments in the social welfare field. Topics include income maintenance proposals, the emergence of programs to treat specific social dysfunctions (e.g., mental health services) and the growth of a service-oriented society. Required for all Social Welfare majors. Open to non-majors. [I]

TSOCWF 350
Biopsychosocial Human Services
5 credits
Examination of human life at the cellular level contextualized through the social environment. Emphasis upon cells, systems and individual development and functioning. Coverage of relevant theoretical frameworks commonly used in biological sciences, human services and social work will be used to address biological issues with clients in social and community contexts. Open to non-majors. [N][I][W]

TSOCWF 351
Applied Statistics for Social and Human Services
5 credits
Application of statistical methods for use in social and human services. Examines purpose and use of social statistics to include analyzing the relationships between variables as a tool for conducting research; central tendencies and dispersion; probability; descriptive statistics; statistical inference and hypothesis testing; and bivariate analysis. Open to non-majors. [N][I][W]

TSOCWF 353
Mental Illness and Recovery
5 credits / Recommended: introductory psychology
Provides an overview of persistent and disabling mental illness among adults. Combines classroom and experimental learning. Students learn directly from service providers and consumers the challenges of living with serious mental illness and within health and social welfare system constraints. Open to non-majors. [I]

TSOCWF 354
Sexual Orientation and Gender Identity
5 credits
This course focuses on legal and sociopolitical topics related to sexual orientation and gender identity using social justice and empowerment perspectives. The framing of such topics at the local, national and global level is emphasized, as is the intersectionality of sexual and gender identity with other aspects of human diversity. Open to non-majors. [I]

TSOCWF 355
HIV/AIDS: Global and National Issues
5 credits
Examines historical and contemporary issues related to HIV/AIDS from local, national and global perspectives. Focuses on HIV/AIDS among vulnerable populations worldwide, prevention efforts, the history of the pandemic, treatment protocols and advances, and psychological impacts on both infected and affected individuals.

TSOCWF 361
Addictions and Mental Illness in Criminal Justice
5 credits
Examines mental illness and addictions as they manifest in criminal justice systems. Focuses on the prevalence of mental illness and addictions in prisons, as well as best practices for treatment. Examines prison culture as it relates to substance abuse and mental illness. Offered jointly with TS CRM 361. [I]

TSOCWF 390
Introduction to Social Welfare Research
5 credits / Prerequisite: Completion of an introductory statistics course with a 2.0 (C) grade or higher
Introduction to the logic of the scientific method as applied to social work/welfare practice, design and conduct of a research study, data collection and summarization. Skill development in critical consumption of social welfare research. Required for all Social Welfare majors. [W]

TSOCWF 402
Human Behavior and the Social Environment I
5 credits
Focuses on person-in-the-environment for individuals and family development across the lifespan. Utilizes developmental and social systems perspectives in seeking to understand and influence human behavior across diverse backgrounds. Addresses dynamics and processes of families, small groups, organizations and community systems. Required for all Social Welfare majors. [I][W]

TSOCWF 404
Cultural Diversity and Justice
5 credits
History and culture of disadvantaged and oppressed groups served in social welfare generalist practitioners. Required for all Social Welfare majors. [I]

TSOCWF 405
Practicum Seminar
3 credits; max. 9 credits / Prerequisite: TSOCWF 312
Integrates social work practicum experiences with prior and concurrent course work in social sciences, social work and research. Includes discussion of class presentations and simulations of practice situations that combine knowledge and skill utilization. Student logs provide a basis for individual goal identification and achievement. Required for all Social Welfare majors. [I]

TSOCWF 409
Readings in Social Welfare
1-5 credits; max. 15
Student-oriented, individually contracted projects on topics of interest in social welfare not covered by other Social Welfare offerings. Open only to Social Welfare seniors.

TSOCWF 415
Practicum
4 credits; max. 12 credits / Prerequisite: TSOCWF 312
Students are placed in selected social service agencies and accept beginning social service assignments under the supervision of competent agency personnel. Required for all Social Welfare majors. Open only to Social Welfare seniors. Credit/no credit only.

TSOCWF 420
Interpersonal Violence and Society
5 credits
Explores interpersonal violence from both sociological and psychological frameworks. Understanding of the nature, dynamics and effects of interpersonal violence and the threads that connect personal and community violence. Will evaluate how best to prevent and decrease the amount of violence in society. Open to non-majors. [I]

TSOCWF 421
Cross-Cultural Grieving
5 credits
Examines spiritual, psychosocial, physical, and behavioral impacts of major loss on persons, families, and communities as it occurs in diverse North American ethnic and cultural communities. Exploration of death, dying, major family separations, divorce and refugee/immigration changes as it relates to grief, loss and mourning. Open to non-majors. [I]

TSOCWF 422
Aging in American Society
5 credits
Covers physical and psychological processes of aging. Social aspects of aging related to family roles, cultural and social support and use of health and social services will be included. Home- and community-based services and how those services may need to change in the 21st century will be reviewed. Open to non-majors. [I]

TSOCWF 423
Risk and Ethics in Human Enterprises
5 credits
Values, ethics, risk management and the law are explored in depth as they relate to the provision of human service programs, and other professional disciplines. Topics include: conflict of interest, duty of care, duty to warn, privacy and confidentiality, risk analysis, and ethical decision making. Open to non-majors. [I]

TSOCWF 424
Information Technology and Human Service
5 credits
In-depth exploration of the impact of information technology on human service agencies and their consumers. Topics include: changing human service practice, human service websites, online therapy and self-help information, and technology-based social problems. Involves experiential learning. Open to non-majors. [I]
**TSOCWF 425**

**Comparative Social Welfare Policy**  
5 credits  
Explores current social policy issues in the United States, Canada, and Nordic countries from a comparative perspective. Examines history and political structures that influence implementation of social policies. Open to non-majors. [I]

**TSOCWF 426**

**Assessment Tools and Methods**  
5 credits  
Focuses on skill-building of key social work tasks: multiple assessment models and how to choose the appropriate model; the method and process of specific models; assessment within the context of the client's lived experience; and how to collaborate with clients to identify their needs. Open to non-majors.

**TSOCWF 427**

**Disproportionality Across Systems**  
5 credits  
Examines disproportionate representation of people of color in the child welfare, criminal justice, economic, education, health, juvenile justice, and mental health systems. Focuses on how each of these systems interacts with the criminal justice system where disproportionality is a particularly serious problem. Offered jointly with T CRIM 427.

**TSOCWF 430**

**Children of Incarcerated Parents**  
5 credits  
Examines the impact of parental incarceration on the psychological, social, physical, and biological development of children. Focuses on issues of loss, trauma, attachment, and ways to address such issues. Offered jointly with T CRIM 430. [I]

**TSOCWF 433**

**Crisis and Trauma Interventions with Crime Victims**  
5 credits  
Provides an overview of victimology and teaches practice skills for working with victims of crime and their families. Examines the efficacy and application of interventions that try to ameliorate the impact of crime on victims, facilitate victims’ mental health recovery, and assist in system navigation. Offered jointly with T CRIM 433. [I]

**TSOCWF 450**

**International Comparisons of Current Issues**  
12 credits  
Provides an international comparison of social policy and social service delivery systems. In addition to a three-week intensive field component, students will complete relevant readings and conduct an independent research project on a relevant topic negotiated with the instructor. Open to non-majors. [I]

**TSOCWF 490**

**Research in Social Welfare**  
1-3 credits, max. 10 credits  
Individual work with faculty member to assist with current research projects. Training and supervision in some or all of the following research tasks: literature review, data analysis, record-keeping, interviewing, report writing, data entry and coding, data collection, and other tasks commonly found in research problems in social welfare. Open only to Social Welfare majors.

Assistant Professor; Sociology and Criminal Justice; Ph.D., Northeastern University, 2012
Sustainable Urban Development

The Sustainable Urban Development major at the University of Washington Tacoma offers a course of study leading to a bachelor of arts degree. This program takes an interdisciplinary approach to the social, economic, historical, environmental and political processes and issues affecting urban areas.

Overview

Accomplishing sustainable urban development is a crucial challenge for the twenty-first century. The University of Washington Tacoma is at the forefront of engaging and educating undergraduate students on this topic. The Sustainable Urban Development degree provides students with a critical and rigorous training in ecological, political, economic, and social aspects of urban development processes.

Sustainability is often treated as a synonym for environmentalism...but that’s not the whole story. Sustainability is not just about the environment; it is also about social equity and economic prosperity. The Urban Studies faculty invites you to learn how cities and urban regions are the key to true sustainability — for the planet and for the people who populate it.

Students will learn how to understand, assess, and manage urban development processes through a carefully designed curriculum that includes urban policy, planning, and environmental science coursework. The degree provides students with a broad but concrete understanding of linkages between urban ecosystems, urban systems (planning, transit, energy, etc.), and the multi-dimensional problems of urbanization, especially as they relate to public policy and urban advocacy.

As one of the first such degrees in the nation, students with a degree in Sustainable Urban Development will be prepared to address recent initiatives that have called for a significant “greening” of urban development, both locally and internationally. Graduates will be prepared for careers in planning agencies, corporations adhering to sustainability practices, consulting firms, nonprofit organizations, and environmental/resource related agencies at the local, state, and federal levels of government. The degree is also excellent training for further graduate study in fields such as urban planning, public administration and law.

Educational Emphasis

Urban Studies has built its curriculum around four program goals, which are to:

- Provide students with a broad understanding of the problems and prospects of our metropolitan areas
- Equip students with the knowledge and skills necessary to pursue careers related to the multi-faceted nature of urban studies
- Serve as a resource, through service and research, to communities in the South Sound region
- Guide students to effectively analyze the social and cultural worlds that constitute urban environments

Overall objectives of the program:

- Provide an understanding of the form and function of cities
- Instill an awareness of problems and issues confronting metropolitan areas
- Provide an interdisciplinary curriculum that allows students to understand the complex interrelationships that make up the urban environment and permits them to approach problems from a variety of perspectives
- Equip students with the analytical skills needed to undertake research in an urban milieu

Learning outcomes:

- Approach urban issues from an interdisciplinary perspective
- Apply analytic and quantitative skills to assess and develop strategies to analyze and resolve urban issues
- Compare and contrast approaches used in designing and undertaking research in urban studies
Career goals, list involvement in community-based activities and personal/professional accomplishments, describe personal strengths and experiences that support the student's interest and commitment to the degree. This is also where the student should address any weaknesses in their transcripts or explain adversity experienced that affected previous academic performance.

The statement must include the student's name, address, telephone number and email address. It should also indicate the desired quarter of admission. The personal statement is an important part of the application and will be used to assess the student's qualifications and fit within the major.

### Selection Criteria

Sustainable Urban Development candidates are evaluated on the following criteria:

- Completion of all admission requirements
- Personal goal statement
- Previous academic performance

### Course of Study

The Sustainable Urban Development major admits students every quarter except summer. The curriculum consists of 74 credits of required course work:

- Core courses (54 credits)
- Core electives (20 credits)

In addition to the core areas, students will complete general electives at UW Tacoma. Students may focus on an in-depth area of study (i.e. minor or certificate) or explore the liberal arts, business administration, social work, education, or health-related fields.

### Core Courses

- Foundation courses (must complete all of the following)
  - T SUD 222 Introduction to Sustainability
  - T SUD 240 The City and Nature
  - T SUD 323 Sustainable Urban Development Policies
  - T SUD 333 Assessment and Evaluation of Urban Sustainability
  - T SUD 425 Social Justice and Urban Sustainability (3 credits)
  - T SUD 444 Green Internationalism and the City
  - T SUD 445 Urban Ecology
  - T SUD 475 Community and Economy
- Methods requirements
  - T GIS 311 Maps and GIS (6 credits)
  - TMATH 110 Introductory Statistics with Applications (or equivalent)
- Capstone requirement (choose one)
  - T GIS 415 Critical Theory and GIS Practicum
  - T SUD 493 Sustainable Urban Development Capstone Seminar

### Core Electives

Students must complete 20 credits from the approved core elective list (at least 5 credits must be from a TESC course):

- Any Sustainable Urban Development course (T SUD prefix) not already counted as core.
- TESC 239 Energy and the Environment Applications
- TESC 343 The Atmosphere and Air Pollution
- TESC 345 Pollution and Public Policy
- TESC 362 Introduction to Restoration Ecology (7 credits)
- TESC 378 Environmental Microbiology (6 credits)
- TESC 431 Water Resources and Pollution (7 credits)
- TEST 332 A Natural History of Garbage
- TEST 333 Environmental Policy Application and Compliance
- T HLTH 372 Environmental Health: Local to Global
- T HLTH 410 Environmental Equity
- TPOL S 438 Environmental Law
- T SUD 494 Sustainable Urban Development Research
- T SUD 498 Sustainable Urban Development Internship
- T URB 220 Introduction to Urban Planning
- T URB 321 History of Planning Theory and Practice
- T URB 326 Climate Change within the Urban Context
- T URB 333 Community Development
- T URB 345 Urban Government and Organizations
- T URB 350 Introduction to Urban Research
- T URB 479 Planning and Development in the Puget Sound Region (3 credits)

### General Electives

The balance of credits taken are upper-division general electives. Students may focus on an in-depth area of study (i.e., a minor or certificate) or explore the liberal arts, business, social work or health-related fields. Transfer credits from other institutions may apply toward general electives. The Urban Studies program will accept a maximum of 105 lower-division (100- or 200-level) transfer credits.

### Academic Standards

The following standards apply to all admitted students in the Sustainable Urban Development major. These standards may be in addition to other academic standards at UW Tacoma.

- Students must satisfactorily complete all Sustainable Urban Development core and core elective course work by achieving a minimum 2.0 grade point
average in each course. If a grade below 2.0 is received, the student must repeat the course. Course credit will only be awarded once and both grades will be computed into the grade point average.

- Upper-division courses completed at other accredited four-year institutions may be applied toward the general elective requirement. Adviser transcript evaluation is available upon request.

**Graduation Requirements**

To qualify for graduation with a bachelor of arts degree in Sustainable Urban Development from the University of Washington Tacoma, each student must complete the following requirements:

- Be a matriculated Sustainable Urban Development student in good academic standing with the University of Washington Tacoma.
- Satisfy all general university requirements and Sustainable Urban Development admission requirements for graduation.
- Complete all Sustainable Urban Development core and core elective course work with a minimum 2.0 grade point average in each class.
- Complete 5 credits of English composition with a minimum grade of 2.0.
- Maintain a minimum **cumulative** grade point average of a 2.0.
- Complete 180 credits, at least 50 of which must be upper-division (300-400 level) course work.
- Complete at least 45 of last 60 credits in residence at the University of Washington Tacoma.
- Apply for graduation with an adviser by the application deadline posted by the department.

**Course Descriptions**

For the most current course information, please consult the Sustainable Urban Development website: tacoma.uw.edu/sud.

**T SUD 222 (formerly T URB 222): Introduction to Sustainability 5 credits**

Provides an introduction to the global goal of sustainability and surveys policies and techniques associated with current sustainability initiatives in diverse metropolitan environments. Includes a discussion of scientific debates; conflicts within and between societies at different levels of economic development; key policy arenas for action; and common methods used to further sustainability values. **Fully-online course. [I]**

**T SUD 240 (formerly T URB 440): The City and Nature 5 credits**

Examines connections between urban and environmental conditions by investigating the social and material production of urban nature. Challenges conceptual barriers between nature and the city that have evolved over time and considers new strategies for achieving both environmental sustainability and social justice in the city. [I]

**T SUD 323 (formerly T URB 323): Sustainable Urban Development Policies 5 credits**

Examines how public policy mechanisms are used to support and accomplish sustainability through the interweaving of social equity, economic prosperity, and environmental protection. Encourages the development of both critical and constructive perspectives on policies of sustainability. [I]

**T SUD 333: Assessment and Evaluation of Urban Sustainability 5 credits / Prerequisite: T SUD 222**

Examines concepts and methods for evaluating urban sustainability. Includes footprint analysis, climate planning, alternative indicators, and case studies. Students conduct assessments and develop capacity to create evaluation metrics. [I]

**T SUD 425 Social Justice and Urban Sustainability 3 credits**

Examines sustainable urban development from a social justice perspective. Draws from key theories and practices to explore how to incorporate social justice into sustainable urban development policies and policies and the challenges facing such efforts. [I]

**T SUD 444 Green Internationalism and the City 5 credits**

Explores the influence of global ecological politics on urban policy and urban development as well as the impacts that new forms of unsustainable urbanization have on global ecological politics. Interrogates key interdisciplinary debates in global political economy, political ecology, and urban studies. [I]

**T SUD 445 (formerly T URB 445): Urban Ecology 5 credits**

Multidisciplinary approach to the study of dynamic interactions among human and ecological systems in urban settings. Covers processes of urbanization and urbanization's impacts on the earth's ecology. Specific themes include how socioeconomic factors and human preferences drive human patterns and how these patterns affect ecological processes and cause ecological change. [W]

**T SUD 475 (formerly T URB 475): Community and Economy 5 credits**

Explores the connections between economic practices and local community development under conditions of global political and economic interconnectedness. Critically examines the spatial character of capitalist economic behavior and considers a range of challenges confronting efforts to build sustainable and equitable local economies. [I]

**T SUD 493 Sustainable Urban Development Capstone Seminar 5 credits / Prerequisites: T GIS 311 or TMATH 110; and one 400-level T SUD course**

Students work with a faculty member to develop research topics for independent research and capstone writing relating to sustainable urban development, with regular faculty interaction. [W]

**T SUD 494 Sustainable Urban Development Research 1-15 credits, max. 15**

Individual research projects in urban sustainability carried out under the supervision/direction of an Urban Studies faculty member.
T SUD 498
Sustainable Urban Development Internship
3-15 credits, max. 15
Provides opportunities to gain experience and apply concepts taught through the Sustainable Urban Development curriculum. Involves learning skills and applying knowledge by working directly with public, non-profit, and private sector organizations concerned with urban sustainability issues. Credit/no credit only.

The Urban Studies major at the University of Washington Tacoma offers a course of study leading to a bachelor of arts degree. This program takes an interdisciplinary approach to the social, economic, historical, environmental and political processes and issues affecting urban areas.

Overview

The course of study explores both the theoretical nature of societies and the practical application of becoming actively involved in the process of change or improvement. Course topics include society and culture, housing, urbanization, environment, planning, race and poverty, and economic development and sustainability. All of these can be enhanced by field experience, internships, study-abroad programs and community service or research projects. A strong research component is required so the application of theory may be tested in a real-world situation. This prepares strong graduates to enter the workforce or continue their education with graduate or professional study in fields ranging from planning and design to law, public administration, public policy and education.

Students who complete the program may qualify for a wide variety of jobs in the public and private sectors including housing, community development, planning, transportation, government or human services.

An academic minor or certificate can complement the major so as to broaden students' understanding of topics including nonprofit management, environmental studies, public history, education, human rights, restoration ecology, computing and software systems and geographic information systems (GIS).

Students are encouraged to participate in Urban Studies foreign study tours, exchange programs or to have an international focus/perspective in their course work.

Educational Emphasis

Urban Studies has built its curriculum around four program goals, which are to:

- Provide students with a broad understanding of the problems and prospects of our metropolitan areas
- Equip students with the knowledge and skills necessary to pursue careers related to the multi-faceted nature of urban studies
- Serve as a resource, through service and research, to communities in the South Sound region
- Guide students to effectively analyze the social and cultural worlds that constitute urban environments

Overall objectives of the program:

- Provide an understanding of the form and function of cities
- Instill an awareness of problems and issues confronting metropolitan areas
- Provide an interdisciplinary curriculum that allows students to understand the complex interrelationships that make up the urban environment and permits them to approach problems from a variety of perspectives
- Equip students with the analytical skills needed to undertake research in an urban milieu

Learning outcomes:

- Approach urban issues from an interdisciplinary perspective
- Apply analytic and quantitative skills to assess and develop strategies to analyze and resolve urban issues
- Compare and contrast approaches used in designing and undertaking research in urban studies
- Demonstrate effective written and oral communication skills
- Demonstrate appreciation for the diverse nature of urban populations and the social justice issues many of these populations face
Minor
A minor in Urban Studies is available to undergraduate students in other degree programs. Please see the Minors and Certificates section beginning on page 144.

Admission Requirements
All students who have completed the admission requirements with a cumulative GPA of 2.0 and at least 40 college-level credits will be considered for admission.
- A cumulative grade point average (GPA) of 2.0 in all college course work. Applicants with a completed application and a minimum GPA of 2.50 will be given priority consideration for admission.
- Fulfillment of General University Requirements (see page 22).
- Completion of a minimum of 40 transferable college-level credits.

How to Apply
A completed application consists of the following materials:

Application
Transfer students must submit a UW Tacoma application for transfer admission and application fee. Current UW Tacoma students must complete the “Declare/Change Major” form.

Transcripts
An official transcript must be submitted from each college and university attended, even if no credit was earned. Failure to submit a complete set of transcripts may result in denial of admission or dismissal from the university. If you took a foreign language or intermediate algebra in high school and are using that to fulfill the foreign language or mathematics requirement, you must submit an official high school transcript as well.

Personal Goal Statement
A one- to two-page personal goal statement is required with the application. The personal statement should address the student’s motivation for pursuing an Urban Studies degree, address how the degree can blend the student’s educational and career goals, list involvement in community-based activities and personal/professional accomplishments, describe personal strengths and experiences that support the student’s interest and commitment to the degree. This is also where the student should address any weaknesses on transcripts or explain adversity experienced that affected previous academic performance. The statement must include the student’s name, address, telephone number and email address. It should also indicate the desired quarter of admission. The personal statement is an important part of the application and will be used to assess the student’s qualifications and fit within the major.

Selection Criteria
Urban Studies candidates are evaluated on the following criteria:
- Completion of all Urban Studies admission requirements
- Personal goal statement
- Previous academic performance

Course of Study
The Urban Studies program admits students every quarter except summer. The curriculum consists of 58 to 61 credits of required course work:
- Core courses (33-36 credits)
- Core electives (25 credits)
In addition to the core areas, students will complete general electives at UW Tacoma. Students may focus on an in-depth area of study (i.e. minor or certificate) or explore the liberal arts, business administration, social work, education, or health-related fields.

Core
Urban Studies students begin their course of study with 33 to 36 credits of required foundation courses that offer an introduction to the nature of cities and the field of urban studies; diversity issues as associated with race, class and gender within cities; and methods and field courses.
- Foundation courses (must complete all of the following):
  T URB 220 Introduction to Urban Planning (5)
  T URB 301 The Urban Condition (5)
  T URB 316 Cities and Citizenship (5)
  T URB 430 Pacific Rim Cities (5) or T URB 460 Urban Issues in the Developing World (5)
  T URB 492 Urban Studies Capstone Seminar (5)
- Methods requirement (choose one):
  T GIS 311 Maps and GIS (6)
  T URB 350 Intro. to Urban Research (5)
- Field course requirement (choose one):
  GEOG 490 Field Research: The Seattle Region

Core Electives
Students must complete 25 credits from the Urban Studies approved core elective list:

- Any Urban Studies course (T URB prefix) or Sustainable Urban Development course (T SUD prefix) not already counted as core.
- T ECON 418 Urban Problems and Policies (5)
- T GIS 311 Maps and GIS (6)
- T HIST 445 History of Tacoma (5)
- T HIST 488 History of Urbanization and the Environment (5)
- T HIST 495 The Metropolis (5)
- T HLTH 410 Environmental Equity (5)
- T MGMT 348 Leading the Nonprofit Organization in the 21st Century (5)
- T MGMT 465 Nonprofit Governance I (2)
- T MGMT 466 Nonprofit Governance II (5)
- TNPRFT 348 Leading the Nonprofit Organization in the 21st Century (5)
- TNPRFT 431 Community Organizations and the Nonprofit Sector (5)
- T URB 494 Urban Studies Research (1-15, max. 15)
- T URB 496 Urban Studies Community Service Project (3-15, max. 15)
- T URB 498 Urban Studies Internship (3-15, max. 15)

General Electives
Transfer credits from other institutions may apply toward general electives. The Urban Studies program will accept a maximum of 105 lower-division (100- or 200-level) transfer credits.

Academic Standards
The following standards apply to all admitted students in the Urban Studies program. These standards may be in addition to other academic standards at UW Tacoma.
- Students must satisfactorily complete all Urban Studies core and core elective course work by achieving a minimum 2.0 grade point average in each course. If a grade below 2.0 is received, the student must repeat the course. Course credit will only be awarded once and both grades will be computed into the grade point average.
- Upper-division courses completed at other accredited four-year institutions may be applied toward the general elective requirement. Adviser transcript evaluation is available upon request.
Graduation Requirements

To qualify for graduation with a bachelor of arts degree in urban studies from the University of Washington Tacoma, each student must complete the following requirements:

- Be a matriculated Urban Studies student in good academic standing with the University of Washington Tacoma.
- Satisfy all general university requirements and Urban Studies admission requirements for graduation.
- Complete all Urban Studies core and core elective course work with a minimum 2.0 grade point average in each class.
- Complete 5 credits of English composition with a minimum grade of 2.0.
- Maintain a minimum cumulative grade point average of a 2.0.
- Complete 180 credits, at least 50 of which must be upper-division (300-400 level) course work.
- Complete at least 45 of last 60 credits in residence at the University of Washington Tacoma.
- Apply for graduation with an adviser by the application deadline posted by the department.

Course Descriptions

For the most current course information, please consult the Urban Studies program website: tacoma.uw.edu/urban-studies.

T URB 101 Exploring Cities: An Introduction to Urban Studies
5 credits
Introduction to the multi-disciplinary field of urban studies. Exposes the complexity of everyday life in metropolitan areas. Explores how the various disciplines of sociology, anthropology, geography, economics and political science have studied and made sense of cities. Special attention given to issues of class, race and gender. [I]

T URB 110 Introduction to Digital Urban Data Analysis
5 credits
Provides a methodological foundation to digital research and data analysis technologies to build a unique set of urban analytical tools for research-oriented courses. Fully-online course.

T URB 201 Urban Change and Development
5 credits
Examines relationships that shape the development of cities under conditions of globalization. Overview of key terms and concepts, examples of changing urban social and economic conditions, and analysis of connections among global processes, urban experiences, and the production of urban space in the United States. [I]

T URB 205 Images of the City
3 credits
Examines how the city is portrayed through various mediums and how those portrayals affect society’s perception of urban places. Discusses imagery from films, literature, television, newspapers and magazines. Considers images linked to such elements as crime, ethnic enclaves, downtown areas and suburbia. [I]

T URB 210 Urban Society and Culture
5 credits
An examination of the social structure of cities. Discusses issues related to class, race, ethnicity and gender. Considers the impact of societal differences on urban form, residential patterns and labor markets. [I]

T URB 211 Digital Cities
5 credits
Examines the impact that information technology has had on the spatial form and socio-economic processes of contemporary metropolitan areas. Covers the information economy, the digital divide and placemaking applications of mobile technology. Fully-online course.

T URB 220 Introduction to Urban Planning
5 credits
Introduction to the planning process. Presents and discusses the major planning sub-fields. Topics include housing, transportation, recreation, environmental planning and preservation planning. Examines techniques associated with growth controls and land-use management. Introductory course for students with planning emphasis. [I]

T URB 225 Statistics for Urban Analysis
5 credits
Introduces basic methods of statistical analysis and applies them to topics common to the field of urban planning and community development. Develops a critical perspective on how such methods relate to public discourse and urban policy-making. [Q]

T URB 230 Cities and the Constitution
5 credits
Examines Constitutional rights to freedom of expression in public institutions and public places of cities. Considers rights to freedom of expression as they exist in a variety of forums—streets and parks, schools, shopping malls, university sporting events and property surrounding prisons. Analyzes interactions among rights and community interests. Fully-online course. [I]

T URB 301 The Urban Condition
5 credits
An overview of the city as a place of residence, commerce and industry. Consideration is given to urban form and function. Social, economic and political factors affecting urban life and development are discussed. Issues related to social justice and equity are emphasized. This course is designed to serve as the introductory course for urban studies majors. [I]

About Fulfilling Admission Requirements

Students may fulfill requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description: [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.
T URB 312 Race and Poverty in Urban America
5 credits
Examines current research, policy and debate surrounding race and poverty in urban America. Includes affirmative action, the changing family, cultural identity, the inner-city crisis, interracial relationships, residential segregation, and the working and non-working poor. [I]

T URB 314 Gender and the Urban Landscape
5 credits
Examines linkages between cultural, physical and symbolic urban landscapes and gender ideologies, structures and practices. Major themes from gender and urban studies include domestic/public divisions, sexuality and city spaces, consumption and urban design. Emphasizes integration of theoretical positions and ideas into students’ work. [I]

T URB 315 Homes, Housing and Homelessness
3 credits
Provides a hands-on introduction (field trips and research projects) to issues of housing and homelessness, focusing on the South Puget Sound region. Includes the political economy of public housing, the rise and expansion of suburbia, the cultural significance of gated communities, and the persistence of homelessness. [I]

T URB 316 Cities and Citizenship
5 credits
Addresses inequality in urban spaces through the concept of citizenship and ideas about "rights to the city." While the course is traditional in its concern with urban poverty, race, ethnicity and immigration, it offers a vocabulary of citizenship and rights to investigate urban inequalities and how various populations experience them. [I]

T URB 318 Organizing Communities
3 credits
Examines social, economic and political problems from an organizer's perspective. Examines problems and issues associated with organizing and introduces the basic tools required to design successful organizing efforts. Particular attention will be given to communities facing issue-oriented organizing. [I]

T URB 321 The History of Planning Theory and Practice
5 credits
An examination of planning theory and practice with an emphasis on 20th-century theorists and advocates. Examines the impacts of planning theories and movements on planning practice and urban form in Europe and America. [I]

T URB 322 Land Use Planning
5 credits / Prerequisite: T URB 320, T URB 321 or permission of instructor
Examines the land-use planning process at the local level with a focus on the contemporary United States. Review of theories of land-use change, arguments for and against planning intervention, and the role of the land-use planner in the local land-development arena. [I]

T URB 325 Urban Transportation: Problems and Prospects
3 credits
Provides an overview of urban transportation, its challenges and prospects. Examines historical and contemporary issues such as the relationship of mobility to the urban form, environmental concerns, climate change impacts, and the challenges of sustainable urban transportation. [I]

T URB 326 Climate Change within the Urban Context
3 credits
Provides an understanding of the nexus of urbanization and climate change. Covers international standards, the urban carbon footprint, and mitigation strategies such as urban forests, urban agriculture, green buildings, and sustainable transportation. Also considers climate justice and climate change adaptation. [I]

T URB 330 City Worlds
5 credits
Examines world urbanization and the shifting geographies associated with economic restructuring and globalization. Ethnicity, gender, urban form, local governance strategies and resistance to those strategies are considered. Includes examples from cities in both the developed and developing worlds. [I]

T URB 335 Community Development
5 credits
Examines theories, polices, and practice of community change and development in American cities. Explores ways to assess community conditions, the contributions of various community institutions, impacts of regional, national, and global political economies, community-oriented development strategies, and methods to evaluate community development initiatives. [I]

T URB 340 Urban Social Change
5 credits
Examines issues that directly affect the strength and vulnerabilities of urban communities and organizations and institutions within those communities. Uses case studies to consider how creative participatory approaches can and do influence change. [I]

T URB 345 Urban Government and Organizations
5 credits
Examines the structure and workings of urban government and non-governmental agencies and organizations. Considers the relationship between non-governmental and governmental organizations along with their impact on the physical and social development of the city. [I]

T URB 350 Introduction to Urban Research
5 credits
Introduction to research methods pertinent to the study of urban issues, society and culture. Emphasizes the logic of the scientific method, understanding the interrelated stages of the research process, understanding and critiquing quantitative and qualitative research literature, and learning strategies for gathering and analyzing data. [I][W]

T URB 360 The African-American Urban Experience
5 credits
Places African-Americans at the center of the American urban condition from the colonial era to the 21st century. Interdisciplinary study of U.S. urban history, contemporary social, cultural and policy research, and comparative perspectives on race and ethnicity to illuminate the growth and evolution of African-American urban communities. [I]

T URB 379 Urban Field Experience
5-15 credits, max. 15
Urban field course based in a metropolitan area. Examines urban problems, issues, and developments through site visits, presentations by local experts, and student research and reports. Includes visits to U.S. and foreign cities. Topics vary, depending on city visited. Offered summer quarter only.

T URB 399 International Urban Studies
3-15 credits, max. 15
Urban Studies courses taken through UW Tacoma foreign study program for which there are no direct University of Washington Tacoma course equivalents.

T URB 410 Environmental Equity
3 credits
Explores relationships between environmental issues and people of color and low-income communities from both local and global perspectives. Emphasizes issues of race/ethnicity, socioeconomic status, and policy and politics in environmental equity. Offered jointly with T HLTH 410. [I]

T URB 430 Pacific Rim Cities
5 credits
Examines links between urbanization and globalization on the Pacific Rim and connections between events and social/economic processes in places that seem distinct (e.g., China, Canada, Mexico, Philippines). Case studies and discussion topics include questions of class formation, political change, migration patterns, and gender/family dynamics. [I]
T URB 450
Planning for Sustainability
5 credits
Examines the growing impact of global sustainability on local spatial planning systems, especially in the U.S., U.K., Europe and South Africa. Specific topics include the philosophies, theories, goals, techniques, and institutional politics of sustainability planning. [I]

T URB 460
Urban Issues in the Developing World
5 credits
Examines challenges associated with urban development and societal change in developing countries. Examines topics such as mega cities, squatter housing and informal labor. Adopts a geographical perspective and focuses on local governance issues. [I]

T URB 479
Planning and Development in the Puget Sound Region
3-12 credits, max. 12 credits
Examines the problems and prospects associated with rapid growth in the Seattle-Tacoma urban region. Site visits and discussions with public officials, planners and developers. Topics/sites vary and include such issues as growth management, sprawl, transportation, sustainable development, land-use and environmental protection. [I]

T URB 492
Urban Studies Seminar
5 credits, max. 15 credits
Interdisciplinary approach to the study of urban issues and problems. Designed for in-depth analysis of selected issues. Focuses on one aspect of the city (e.g. gentrification, housing, segregation, sprawl). Serves as a capstone course in the Urban Studies Program. [W]

T URB 494
Urban Research
1-15 credits, max. 15
Individual research project carried out under the supervision/direction of an Urban Studies faculty member.

T URB 496
Community Service Project
3-15 credits, max. 15
In conjunction with faculty adviser, students develop and implement a community service-learning project. Involves activities such as assistance to disadvantaged populations, community outreach programs, policy analysis or related work intended to improve the quality of life in the community. Includes academic study designed to integrate practical applications with learning and theory. Credit/no credit only.

T URB 498
Urban Studies Internship
3-15 credits, max. 15
Provides opportunities to gain experience and apply concepts taught in the Urban Studies classroom. Involves learning skills and applying knowledge by working directly with public, nonprofit and private sector organizations concerned with urban issues. Credit/no credit only.

T GEOG 440
Political Geography: Territory, State and Society
5 credits
Introduction to political geography from the perspective of political economy and the politics of difference. Discusses both critical approaches to human geography and geographical interpretations of the state. Emphasizes spatial dimensions of capitalist development as mediated by urban, national and global politics. [I]

Faculty
Brian Coffey
Director and Professor
Professor; Geography; Ph.D., University of Oregon, 1982

Yonn Dierwechter
Associate Professor; Ph.D., London School of Economics, 2001

Anthony Falit-Baiamonte
Lecturer; M.A., Hunter College, CUNY, 1996

Debra Friedman
Chancellor and Professor; Ph.D., University of Washington, 1983

James W. Harrington
Vice Chancellor Academic Affairs and Professor; Ph.D., University of Washington, 1983

Lisa Hoffman
Associate Professor; Ph.D., University of California, Berkeley, 2000

Linda Hurley Ishem
Assistant Professor; Ph.D., University of Washington, 2008

Matthew Kelley
Assistant Professor; Ph.D., Pennsylvania State University, 2007

Pierpaolo Mudu
Affiliate Professor, Urban Studies; Ph.D., University of Rome, 2000

J. Mark Pendras
Associate Professor; Ph.D., Rutgers University, 2005

Fern Tiger
Professor Without Tenure, Urban Studies; M.F.A., Pennsylvania State University, 1969

Anne Taufen Wessells
Assistant Professor; Ph.D., University of California, Irvine, 2007

Geography

T GEOG 100
Introduction to Geography
5 credits
Broad introduction to the field of geography within the context of globalization. Topics include the relationship between humans and their environment, the role of culture in landscape change, economic development, geopolitics and urban systems. [I]
Minors and Certificates

Requirements for completing a minor

Students must officially declare a minor using the Declare a Major or Minor form available from the Office of the Registrar or on the UW Tacoma website and submitting it to their academic adviser.

Minors do not have prerequisites and do not require any additional application materials.

To successfully complete a minor, students must achieve a minimum 2.0 cumulative grade point average (GPA) for all courses involved in the minor. The student’s DARS report (available through MyUW) for the minor keeps track of this GPA.

Declaring a minor

Students must have completed at least 45 credits and have declared a major before declaring a minor.

Complete instructions for declaring a minor can be found on page 28. For more information about any of these minors or certificates, talk to an adviser in the Academic Advising Center.

Applied Computing Minor

The minor in Applied Computing is designed for students who want to be sophisticated users of computing technology and principals in their field, but do not seek extensive programming experience. The minor offers grounding in basic computing skills and principles and key technologies such as database management and computer networks. It also provides the student the opportunity to integrate these skills into his or her major field.

The minor in Applied Computing does not require computer proficiency or prerequisites. This minor consists of five courses: three core courses designed to offer depth in computing skills and concepts and two to encourage breadth of experience.

Requirements

The Applied Computing minor requires 25 credits to include:

Core courses (15 credits)
- T INST 310 Computational Problem Solving
- T INST 311 Database Management and Data Analysis
- T INST 312 Computer Networks and the Internet

Elective courses (10 credits)

Students must choose one course from each list to fulfill the 10 elective credits:
- List A (5 credits):
  - T INST 401 Technology in the Service of Global Society
  - T INST 475 Entrepreneurship in Computer Science and Systems
  - T INST 490 Special Topics in Applied Computing
  - T INST 498 Directed Readings in Applied Computing
  - T INST 499 Research in Applied Computing
  - TCSS 452 Human-Computer Interface
  - TCSS 481 Computer Security
- List B (5 credits):
  - A second T INST elective from List A
  - TACCT 330 Introduction to Accounting Information Systems
  - TBUS 301 Quantitative Analysis for Business
  - TESC 100 Introduction to Environmental Science
  - TESC 107 Geohazards and Natural Disasters
  - TESC 120 Introductory Biology I
  - TESC 122 Physics: Electromagnetism and Oscillatory Motion
  - TESC 123 Physics: Waves
  - TESC 130 Introductory Biology II
  - TESC 140 Introductory Biology III
  - TESC 215 Meteorology
  - TESC 236 Plants and People: the Science of Agriculture
  - TESC 239 Energy and the Environment
  - TESC 243 Geography of the Physical Environment
  - TESC 315 Applied Physics with Environmental Applications
  - TESC 333 Environmental Chemistry
  - TESC 340 Ecology and Its Applications
  - TESC 345 Pollution and Public Policy
  - TESC 362 Introduction to Restoration Ecology
  - TESC 404 Costa Rica Field Studies: Ecology and Community
  - TESC 433 Pollutant Fate and Transport in the Environment
  - TESC 435 Limnology
  - TESC 445 Estuarine Field Studies
  - TGIS 311 Maps and GIS
  - T HIST 487 Technology in the Modern World
  - TPSYCH 330 Inquiry and Research in the Social Sciences
  - TSOCWF 424 Information Technology and Human Service Practice

Note: Some required courses may be taken out of sequence to accommodate student schedules.
Asian Studies Minor*

The Asian Studies minor offers students the opportunity to develop a well-rounded understanding of the countries and cultures of Asia. The courses enable students to fit the Asian experience into a theoretical context of global patterns of modernization and economic development while focusing on specific historical and cultural elements in Asian countries.

Requirements

The Asian Studies minor requires 30 credits to include:

- 10 credits from the following list of framework courses:
  - TCOM 430 Global Networks, National Identities
  - TCOM 460 Communication and National Development
  - TCOM 461 Media and Identity in Asia
  - TECON 332 Rise of East Asia
  - TECON 460 China’s Rise and its Global Economic Implications
  - T HIST 271 Modern East Asia
  - T HIST 372 Comparative Perspectives on East Asian and Latin American Development
  - T HIST 474 Imperial China
  - T HIST 486 Contemporary Chinese Culture and Society
  - T POL S 203 Introduction to International Relations
  - T URB 430 Pacific Rim Cities

- 20 credits from the following list of content courses:
  - T ARTS 281 Art and Culture in India
  - T ARTS 282 Art and Culture in China
  - T ARTS 283 Art and Culture in Japan
  - T ARTS 284 Art and Culture in the Pacific
  - TCHIN 101 First Year Chinese
  - TCHIN 102 First Year Chinese
  - TCHIN 103 First Year Chinese
  - TECON 340 International Economics
  - TECON 417 Political Economy of India
  - TECON 460 China’s Rise and its Global Economic Implications
  - T HIST 270 Premodern East Asia
  - T HIST 462 History of Vietnam
  - T HIST 463 Premodern Japan
  - T HIST 464 Modern China
  - T HIST 465 Modern Japan
  - T HIST 466 Modern Korea
  - T HIST 484 The Pacific War
  - TRELIG 366 Islam
  - TRELIG 367 East Asian Religions: Zen and Taoism
  - TRELIG 463 God: East and West

Credit for study in Asia may count toward credit for course work. See an adviser for details.

*This minor is offered by Interdisciplinary Arts and Sciences. Students wishing to receive this minor must complete a minimum of 10 credits on the Tacoma campus. Note: Some minors require more than 10 credits be completed on the Tacoma campus. See an adviser for details.

Business Administration Minor

The minor in Business Administration is designed for undergraduate students in any non-business major or program to increase their understanding of business theory, practices, and applications within a wider economic and social context. The curriculum is designed to emphasize critical competencies, including strategic thinking, integrated business knowledge, communication and teamwork needed by students with a broad range of interests to succeed in the 21st century.

The minor requires 30 credits (minimum of 20 credits in residence). There are four specific courses required for a total of 20 credits. An additional 10 credits of 300-400 level electives, which should generally be taken after completion of all required courses, are selected from an approved list of classes. Students may request to transfer up to 10 credits to be applied toward the required courses.

In order to earn the minor, students must receive a 2.0 or higher in each required course. At least three courses for the Business minor must be taken at the upper-division (i.e., 300-400) level.

**Learning Outcomes**

1. To recognize the social, political, ethical, and environmental consequences of management decisions.
2. To understand group and individual dynamics in organizations.
3. To diagnose complex organizational problems and design effective solutions.
4. To understand basic financial statement analysis and reporting.
5. To evaluate an organization’s market, competitive position, and customers, in order to make effective decisions regarding organizational focus and resource deployment.

Courses are 5 credits unless otherwise noted.

**Required Courses (20 credits)**

- T ACCT 210: Introduction to Financial Accounting
- TBECON 220 or TECON 220: Introduction to Microeconomics
- T BUS 300: Managing Organizations
- T BUS 320: Introduction to Marketing Management

**Elective Courses (10 credits)**

- T BGEN 412: Ethical Issues in Business
- T BUS 330: Introduction to Information Technology
- T MGMT 420: Managing Corporate Responsibility
- T MGMT 430: Managing the Workforce
- T MGMT 433: Managing Organizational Diversity
- T MGMT 452: The Dynamics of Leadership
- T MGMT 455: Managing and Motivating Work Teams
- T MGMT 457: Negotiation and Conflict Management
- T MGMT 465: Board Governance I
- T MGMT 466: Board Governance II
- T MGMT 475: Creating, Leading, and Implementing Change
- T MGMT 478: International Business
- T MGMT 480: Intl. Management
- T MKTG 348: Social Marketing
- T MKTG 353: Professional Sales
- T MKTG 425: Advertising
- T MKTG 445: Services Marketing
- T MKTG 450: Consumer Marketing
- T MKTG 460: Research Methods

Other electives as approved by an academic adviser in consultation with Business faculty.

Computer Science and Systems Minor

The minor in Computer Science and Systems focuses on computer programming, problem solving and how software is designed to meet diverse human needs. The minor emphasizes fundamental skills that apply to current computer-based technologies, such as dynamic web pages, and that will remain applicable to the next generation of computing devices. Course work in the minor balances theoretical underpinnings of computing with the pragmatics of hands-on practice in developing a variety of software projects.

**Prerequisites**

- Calculus (MATH 124 or equivalent)
- Probability/Statistics (TMATH 110 or equivalent)
- TCSS 142 or equivalent
- TCSS 143 or equivalent

**Requirements**

The CSS minor requires 30 credits to include:

- TCSS 305: Programming Practice
- TCSS 321: Discrete Structures
- TCSS 342: Data Structures
Criminal Justice Minor

The minor in Criminal Justice is designed to prepare students to work in a variety of criminal justice settings and cultivate an appreciation for the complexities of justice, crime and corrections. The curriculum is designed to provide a foundation for students who are interested in a career in criminal justice settings as a specialty of their major field, students interested in issues of justice and crime, or non-matriculated students who are already employed in criminal justice settings and seek additional course work as a means of advancing their careers.

Learning Outcomes

- Students will gain an understanding of the origins of criminal behavior, society’s responses to crime and delinquency and the consequences of crime for our society.
- Students will become sensitized to the human impacts of criminal justice policies including differential impacts of race/ethnicity, social class, age, and gender.
- Students will be grounded in theoretical and empirical knowledge, values and skills related to criminal justice as they develop into competent professionals.
- Students will gain an understanding of the consequences of incarceration on the families of the incarcerated, especially as it relates to parent-child relationships.
- Students will recognize the multiple needs of the victims of criminal behavior, including crisis and trauma interventions.
- Students will become knowledgeable about special populations in the criminal justice system including sex offenders, the chemically dependent, and individuals with mental illness.

Requirements

The minor in Education requires a minimum of 29 credits of course work including a 14-credit core. Any course taken for the purpose of fulfilling a Teacher Certification program curriculum requirement or prerequisite must be passed with a 2.0 minimum grade. A 3.0 GPA is required for admission to the Teacher Certification program. Students should consult with a program adviser prior to enrolling in classes.

Economics Minor*

An economics minor allows UW Tacoma students to strengthen their facility with economic reasoning and conceptual understanding in a way that complements their studies in their chosen major/concentration. In this way, students can develop their economic reasoning and understanding and apply this knowledge to other areas such as communications, history, business, psychology, social work, sociology and literature.

Note: This minor is not open to students in the Politics, Philosophy and Economics major in IAS.

Requirements

The Economics minor requires 25 credits to include the following:

10 credits of core courses:
- TECON 200 or TBECON 220 Introduction to Microeconomics
- TECON 201 or TBECON 221 Introduction to Macroeconomics
- 15 credits of upper-division courses (300 - 400 level) within the Economics track of Politics, Philosophy and Economics (PPE).

Education Minor*

This minor is designed to help students interested in teaching to meet the course requirements for applying to K-12 certification programs. By offering a choice of relevant courses in both IAS and Education, including a "hands-on" practicum in a public school classroom, the minor provides the opportunity to gain broad perspectives on educational issues in today's world.

Requirements

The minor in Education requires a minimum of 29 credits of course work including a 14-credit core. Any course taken for the purpose of fulfilling a Teacher Certification program curriculum requirement or prerequisite must be passed with a 2.0 minimum grade. A 3.0 GPA is required for admission to the Teacher Certification program. Students should consult with a program adviser prior to enrolling in classes.

Education Core (14 credits):
All three courses below:
T EDUC 471 Diversity and Equity in Schools and Curriculum (3)
T EDUC 482 Schools in American Society (3)
T EDUC 490 Service Learning Practicum in Education (3)

Plus one of the following courses:
T PSYCH 220 Lifespan Development (or equivalent transfer course)
T PSYCH 320 Theories of Child Development (or equivalent)

Electives (15 credits):
Select one course each from lists A, B and C.

Children and Youth (List A):
- TCOM 258 Children and Television
- TPSYCH 212 Child and Adolescent Abnormal Psychology
- TPSYCH 230 Educational Psychology
- TPSYCH 321 Adolescent Psychology
- TPSYCH 401 Family Violence

U.S. History and Diversity (List B):
- T ANTH 464 Native American Cultural Areas
- T HISP 238 Hispanics in the United States
- T HIST 200 American History I: 1607-1877
- T HIST 201 American History II: 1877-present
- T HIST 220 African American History 1619-1865
- T HIST 221 African-American History 1865-1945
- T HIST 222 African-American History 1945-present
- T HIST 349 Minorities and Higher Education in American History
- T HIST 410 Early American Politics and Law: The American Revolution
- T HIST 416 Life and Thought: Martin Luther King, Malcolm X and Angela Davis
- T HIST 419 African-American Culture and Consciousness
- T HIST 441 Black Freedom Movement in Perspective
- T HIST 479 Modern European Culture
- T HISP 238 Hispanics in the United States
- TIAS 300 The Making of America
- TIAS 443 Ethnicity and the Urban Landscape
- TPOL S 201 Introduction to Political Values and Ideas
- TPOL S 251 Cultural Studies
- T SOC 265 Race and Ethnicity in the United States
- TURB 360 The African American Urban Experience
## Environmental Studies Minor

The Environmental Studies minor gives students who are interested in environmental issues a good grounding in the principles of this field. For students interested in the various aspects of the environment, such as science, law, economics, history, policy, health, education, psychology, and justice, this minor offers a range of courses to choose from as well as the basic science.

No prerequisites are needed. For students from all majors, this minor can be useful in obtaining the perspectives that make them more successful job applicants, as well as more informed employees and citizens.

### Requirements

The minor in Environmental Studies requires **25 credits** to include:

- Five credits of a biological science (B) course and five credits of a physical science (P) courses from the list below:
  - TESC 107 Geohazards and Natural Disasters (P)
  - TESC 110 General Biology (B)
  - TESC 111 Introduction to Astronomy (P)
  - TESC 117 Physical Geology (P)
  - TESC 120 Introductory Biology I (B)
  - TESC 141 General Chemistry I (P)
  - TESC 213 Physical Forces in the Natural World (P)
  - TESC 215 Meteorology (P)
  - TESC 227 Earth History (P)
  - TESC 232 Issues in Biological Conservation (B)
  - TESC 236 Plants and People: The Science of Agriculture (B)
  - TESC 241 Geomorphology and Soils (P)
  - TESC 243 Oceanography (P)
  - TESC 247 Maritime History and Science in the Pacific Northwest (P)

- Five credits of an environmental ethics or philosophy course from the following list:
  - TPOL S 438 Environmental Law
  - T PHIL 456 Environmental Ethics

- Five credits of a law/policy course from the following list:
  - TPHIL 456 Environmental Ethics

Health and Society Minor

The Health and Society minor is open to all UW Tacoma students, except Nursing and Healthcare Leadership majors. The Health and Society minor offers students the opportunity to increase their understanding of, and advocacy for, health within a broad social context. The courses enable students to make use of valid sources of information, to understand health policy, and to examine individual, community, environmental, and global health issues. The Health and Society minor provides a valuable study option for students with allied health work experience or students interested in the health care sector.

Requirements

All courses must be completed with a minimum grade of 2.0. The minor in Health and Society requires 28 credits to include:

- THLEAD 407: Diversity, Health and Inequities (5 credits)
- 20 credits from among the following courses:
  - THLEAD 410: Ethical Issues in Healthcare
  - THLTH 320: Promoting Health Through Social Marketing
  - THLTH 325: Medical and Ethical Issues in Literature and Culture
  - THLTH 330: Adolescents in Film
  - THLTH 410: Environmental Equity
  - THLTH 415: Representations of Health Policy and Ethics in Film
  - THLTH 420: Holistic Health
  - THLTH 425: Violence in Intimate Partner Relationships
  - THLTH 430: Adolescent Health in Context
  - THLTH 435: Women's Health, Women's Lives
  - THLTH 440: Business of Health Care
  - THLTH 470: Challenges and Controversies in U.S. Health Care
  - THLTH 472: Human Health and the Environment
  - THLTH 480: Death and American Society
  - THLTH 485: Critical Issues in Global Health

Hispanic Studies Minor*

Hispanic Studies combines proficiency in the Spanish language with a general knowledge of the cultural, historical and political framework of Spanish America. It also promotes an awareness of Hispanic culture in the United States. This interdisciplinary minor draws on traditional fields such as second-language acquisition, history, literary analysis and criticism, film studies, art history, political science, and sociology. It emphasizes the interrelationship between language and culture and trains people to interact with native speakers of Spanish more effectively.

Requirements

The minor in Hispanic Studies requires 25 credits to include:

- 10 credits of Spanish language skills:
  - TSPAN 301: Intensive Spanish: Reading
  - TSPAN 302: Intensive Spanish: Conversation
  - TSPAN 351: Introduction to Hispanic Literary Studies
  - TSPAN 393: Foreign Study
- 15 credits of Hispanic Studies courses:
  - T HISP 238: Hispanics in the United States
  - T HISP 277: Latin American Literature
  - T HISP 323: The Making of Mexico
  - T HISP 376: Hispanic Film
  - T HISP 377: Mexican Literature and the Search for National Identity
  - T HISP 400: Afro-Hispanic Culture
  - T HISP 410: Caribbean Basin: Selected Topics
  - T HISP 441: Mexican Cinema and Society
  - T HISP 461: Contemporary Mexican Culture
  - T HISP 462: Women in Latin America
  - T HISP 463: Contemporary Cuban Culture
  - T HISP 464: The Arts, Cultures and History of Mexico (study abroad; 12 cr.)
  - T HISP 465: Latin American Visual Arts
  - T HISP 476: Latin American Women Writers
  - T HISP 490: Contemporary Spanish Culture
  - T HISP 491: Society and Culture in Cuba (study abroad; 15 cr.)
  - TPOL S 224: Modern Latin America
  - TPOL S 326: Modern Brazil
  - TPOL S 435: Popular Movements in Latin America
  - TRELIG 461: Religion and Church in Latin America

Human Rights Minor*

The Human Rights minor is a tri-campus, interdisciplinary minor open to undergraduate students from all programs and departments of the University of Washington. Students who are interested in social justice or international law and politics will find this new option to be of particular interest.

Students are highly encouraged to take courses from the other two campuses as well as UW Tacoma to complete this minor. The expertise available on all three campuses has the potential to make the experience a richer one, providing more choices for internships and specialization of study within the minor. This information is provided to students who want a summary of the UW Tacoma offerings.

Requirements

The Human Rights minor requires 25 credits to include the following:

- 10 credits of courses concerned with human rights (i.e., as defined in the Universal Declaration of Human Rights) as a core concept.
  - T HIST 457: Antisemitism and the Holocaust
  - T PHIL 200: Introduction to the Philosophy of Human Rights
- TPOL S 251: Cultural Studies: Torture and Human Rights
- TPOL S 311: International Human Rights
- TPOL S 368: The Politics and Law of International Human Rights
- TPOL S 410: Labor Rights & Human Rights
- TPOL S 420: Theories of Political Violence
- TPOL S 421: Human Rights in Emerging Democracies: Eastern Europe and Latin America
- TPOL S 422: International Humanitarian Law
- TPOL S 453: Political Theory of Human Rights

- 5 credits of courses concerned with human rights in a broad context, e.g., poverty, race/ethnicity, gender.
- TECON 313: Theories of Economic Development and Social Change
- TECON 425: Contemporary Issues in International Political Economy
- T GEOG 352: Cultural Geography
- T HIST 220: African American History:
  - 1619-1865
- T HIST 221: African American History:
  - 1865-1945
- T HIST 222: African-American History:
  - 1945-Present
- T HIST 340: History of U.S.-American Indian Relations
- T HIST 413: Civil Rights, Civil Liberties
- T HIST 419: African-American Culture and Consciousness
- T HIST 441: Black Freedom Movement
- T LIT 324: African American Women's Literature
- T LIT 320: African American Literature from Slavery to the Present
- T LIT 425: Literature of the Harlem Renaissance
- TPOL S 312: 19th Century Revolutions and Revolutionaries
- TPOL S 320: American Constitutional Law
- TPOL S 435: Popular Movements in Latin America
- TPOL S 450: Contemporary Theories of Culture: Post-9/11 (Please Note: Only this variation of TPOL S 450 counts)
- TPOL S 452: Minorities and the Law
- TPOL S 456: Community and Labor Organizing: A Multicultural Perspective
Law and Policy Minor*

The Law and Policy minor provides students with a foundation in logical reasoning and develops their ability to analyze and communicate complex ideas. Through a minor in law and policy, students will develop a broad appreciation of the role of law and policy in their field of study, whether it is in environmental science, business, communications, social work, psychology or another field.

Note: This minor is not open to students in the Politics, Philosophy and Economics concentration in IAS.

Requirements

The Law and Policy minor requires 25 credits to include:

- 10 credits of core courses:
  - TPOL S 335 Social Class and Inequality
  - T POL 434 Women, Race, and Class: Identity and Intergroup Relations
  - T POL 456 Rural Sociology and Development
  - T URB 314 Gender and the Urban Landscape
  - T URB 316 Cities and Citizenship: Researching Inequalities in Urban Settings
- 10 additional credits from either of the above lists. At least 3 credits (of the 25 required) must be in a human-rights-related internship, practicum, international study abroad or demonstrated equivalent.
- TIAS 496 Internship

Important note for students who choose the internship option: Human rights internships have as their primary objective learning about human rights work and facilitating a synthesis between classroom learning and practical engagement. Appropriate human rights internships may be supervised by any University of Washington faculty member. Students who choose this route to fulfill the minor’s requirements must find an appropriate internship and register for TIAS 496. The new Human Rights Minor form MUST be stapled to the TIAS 496 Internship form when you submit it to the IAS program if you want the internship to count for the minor. Be sure to have supervising faculty sign it or your minor may be incomplete.

Mathematics Minor*

The Mathematics minor provides an opportunity for students to strengthen their facility with quantitative analysis in their chosen discipline and to provide the necessary content for future math teachers. Mathematics contributes technical tools for precise reasoning and communication. The study of mathematics provides a paradigm of critical thinking: identifying and questioning premises, inferring patterns from evidence, deducing conclusions from hypotheses, and expressing ideas clearly—all benefiting the diverse needs of student pursuing undergraduate study in science, social science, technology, business, education and the liberal arts.

Requirements

The Mathematics minor requires 33 credits to include:

- Required Courses (21 credits)
  - TMATH 124 Calculus with Analytic Geometry I (5)
  - TMATH 125 Calculus with Analytic Geometry II (5)
  - TMATH 126 Calculus with Analytic Geometry III (5)
  - TMATH 307 Introduction to Differential Equations (3)
  - TMATH 308 Matrix Algebra with Applications (3)
- Math electives (12 credits of courses numbered 300 or higher)
- Other courses under development. Check UW Tacoma minor website for updates

Museum Studies Minor*

The minor in Museum Studies familiarizes students with museum theory, philosophy, and practice. It aims to prepare students for graduate studies in museology, museum management and entry-level positions in the field. A general track encompasses shared practices that involve registration, curatorial approaches, conservation, fundraising and general management. A specialized track focusing on art museums explores issues that are particular to the academic disciplines associated with those institutions, such as art criticism, connoisseurship, and the art market. The unique location of UW Tacoma within a central campus of museums and its proximity to major metropolitan areas provides students with numerous internship and job placement opportunities.

Requirements

The minor in Museum Studies requires 40-45 credits to include:

- 10 credits of core courses:
  - TNPRFT 448 Cultural Administration and Policy
  - TNPRFT 449 Museum Studies
- 15 credits from the General or Art Museum Tracks:
  - General Museum Track
    - T ARTS 335 History of Photography
    - T ARTS 480 Contemporary Art and Society - 1945 to Present
  - Art Museum Track
    - T ARTS 480 Contemporary Art and Society - 1945 to Present
  - At least 3 credits from the following list:
    - T HIST 377 Art of the Americas
    - T HIST 470 The Material World: Art and Artifacts
    - T HIST 430 Introduction to Public History
    - T HIST 470 Contemporary Theories of Culture
    - T ARTS 490 Contemporary Art and Society - 1945 to Present
  - At least 3 credits from:
    - T HIST 376 American Architecture
    - T HIST 377 Art of the Americas
    - T HIST 477 Reformation and Counter-Reformation
    - T HIST 478 Revolution, Industrialization, and Modernity in European Culture (1750-1870)
    - T HIST 479 Modern European Culture
  - 10 credits from the following list:
    - TNPRFT 348 Leading a Nonprofit Organization in the 21st Century
    - TNPRFT 451 Community Organizations and the Nonprofit Sector
    - TNPRFT 452 Organizational Development
    - TNPRFT 453 Organizational Systems and Change

**These courses are also part of the Minor in Nonprofit Management. Students may wish to pursue these two minors in combination.
Nonprofit Management Minor*

This minor in Nonprofit Management offers students the opportunity to develop competencies in, among other things, community building, volunteer management, budgeting, grant writing and fundraising, as well as to gain a better understanding of current societal challenges. Students will also gain valuable professional experience through supervised internships in local nonprofit agencies. These internships provide students with important real-world challenges, as well as the opportunity to develop networks leading to meaningful and exciting careers improving the communities in which they live.

Requirements

The Nonprofit Management minor requires 25 credits to include the following:

- TNPRTFT 431 Community Organizations and the Nonprofit Sector
- TNPRTFT 432 Organizational Development or TBUS 300 Managing Organizations
- TNPRTFT 451 Essentials of Grant Writing and Fundraising
- TNPRTFT 457 Nonprofit Management Capstone
- TIAS 496 Internship

Politics Minor*

The politics minor allows students to strengthen their facility with political reasoning and theory in ways that complement their studies in their chosen majors/concentrations. Specific areas of study that would benefit from a politics minor include environmental studies, history, communications, business, social work and urban studies. More substantially, the politics minor will help students become more informed about and engaged with local, national and international issues, and support those students interested in being able to teach political science or social studies as high school teachers.

Note: This minor is not open to students in the Politics, Philosophy and Economics concentration in IAS.

Requirements

The Politics minor requires 25 credits to include the following:

- 10 credits of core courses:
  - TPOL S 201 Introduction to Political Values and Ideas
  - TPOL S 202 Introduction to American Politics
  - TPOL S 203 Introduction to International Relations
- 15 credits of upper-division courses (300 - 400 level) within the Law and Policy track of the Politics, Philosophy and Economics concentration (see page 85).

Public History Minor*

Over the past two decades an explosion in the number of museums, historical societies and historic sites has led to increased demand for public historians. These historians work as consultants, archivists, historic preservationists, curators, educators, oral historians, media and public relations professionals and public policy analysts. Students interested in history or education would benefit from this minor by having the opportunity to apply their historical knowledge to the public sphere. This minor develops skills in historical research and methods, complementing IAS concentrations (e.g., Arts, Media, and Culture; American Studies). An internship component allows students to gain hands-on experience working for a local or regional organization in the field of public history.

Requirements

The Public History minor requires 35 credits to include the following:

- U.S. History Core: 10 credits
  - T HIST 200 American History I: 1607-1877
  - T HIST 201 American History II: 1877-present
- History Elective: 5 credits (List A)
  - T ANTH 464 Native American Cultural Areas
  - T ARTS 311 History of Rock and Roll
  - T ARTS 411 History of Jazz
  - TESC 247 Maritime History and Science in the Pacific Northwest
  - TEST 221 Environmental History: Water
  - TEST 332 A Natural History of Garbage
  - T GH 301** Global Interactions
  - T HISP 238 Hispanics in the United States
  - T HIST 212 The Military History of the United States from Colonial Times to the Present
  - T HIST 220 African-American History 1619 - 1865
  - T HIST 221 African-American History 1865 - 1945
  - T HIST 222 African-American History 1945 - present

Note: This minor is not open to students in the Politics, Philosophy and Economics concentration in IAS.

Requirements

- T HIST 226 American Architecture
- T HIST 320 Asian American History
- T HIST 322 American Labor Since the Civil War
- T HIST 333 Early American Music, Art, Literature, and Theater
- T HIST 336 Black Labor and Protest Music in Historical Perspective
- T HIST 340 History of the United States: American Indian Relations
- T HIST 341 African-American History
- T HIST 410 Early American Politics; Constitution and Law
- T HIST 411 History of Religion in America
- T HIST 413 Civil Rights, Civil Liberties
- T HIST 416 Life and Thought of Martin Luther King, Malcolm X and Angela Davis
- T HIST 417 United States History 1945 - present
- T HIST 419 African-American Culture and Consciousness
- T HIST 420 African-American Religious History
- T HIST 437 Doing Community History
- T HIST 440 Black Labor in America
- T HIST 441 Black Freedom Movement in Perspective
- T HIST 445 History of Tacoma
- T HIST 456 North American Regions
- T HIST 487 Technology in the Modern World
- T HIST 488 History of Urbanization and the Environment
- T LIT 438 American Folklore

Requirements

- Public History and Research Core: 15 credits (List B)
  - T HIST 430 Introduction to Public History
  - T HIST 470 The Material World: Art and Artifacts
  - TIAS 496 Internship (5 credits max.)
  - Contact faculty adviser for details

- Architectural, Art or Local History Elective: 5 credits (List C)
  - T HIST 226 American Architecture
  - T HIST 437 Doing Community History
  - T HIST 445 History of Tacoma
  - TNPRTFT 448 Cultural Administration and Policy
  - TNPRTFT 449 Museum Studies

**Must be enrolled in Global Honors to take this course.
Urban Studies Minor

Urban Studies is multidisciplinary by nature and, hence, can serve to complement a variety of degree programs at UW Tacoma. The Urban Studies minor is intended to provide students from other programs an understanding of and appreciation for urban issues and problems.

Requirements

The Urban Studies minor requires **30 credits** to include the following:

- Core Courses (10 credits):
  - T URB 301 The Urban Condition
  - T URB 430 Pacific Rim Cities or T URB 460 Cities in the Developing World
- Core Electives (15 credits):
  - Select 15 credits from approved Urban Studies core elective list, to include at least one 400-level course.
- Capstone Course (5 credits)
  - T URB 492 Urban Studies Seminar

Geographic Information Systems (GIS) Certificate

The Certificate in Geographic Information Systems (GIS) provides students with a robust curriculum in the theories and techniques that form the foundation of digital geospatial visualization and analysis. Working both independently and in small groups, students become skilled in the methods that are commonly used to 1) collect and analyze spatial data, and 2) create maps and other graphical representations of these data. Skills gained during the nine-month course of study are theoretical, analytical and practical, and can be applied in a wide range of academic, municipal, environmental and commercial contexts. Demand for individuals with training in GIS is typically high in industries such as urban and regional planning, research and advocacy, resource management, marketing, and various branches of government. This program is designed primarily for students with moderate to no experience working with GIS.

Requirements

The GIS Certificate requires **25 credits** to include the following (all courses must be completed with a minimum grade of 2.0):

- TGIS 311 Maps and GIS (6)
- TGIS 312 Intermediate GIS (6)
- TGIS 313 Applied GIS and Project Design (3)
- TGIS 414 Advanced Applications of GIS (5)
- TGIS 415 Critical Theory and GIS Practicum (5)

Admission

Admission to the GIS certificate program is competitive. Students must complete a separate application in the form of an online survey. Because it is a year-long program, students are only admitted to the program once per year and must begin in autumn quarter. Please refer to the website (tacoma.uw.edu/gis) to learn more about the GIS certificate, the curriculum, and requirements for admission.

Nonprofit Management Certificate

The certificate program is designed to meet the needs of post-baccalaureate students who would like to complete training in nonprofit management. The requirements are the same as for the Nonprofit Management minor. The certificate allows students who have already completed a bachelor's degree to complete the nonprofit management curriculum.

Undergraduate students also earn the certificate when they complete the minor.

Requirements

The Nonprofit Management certificate requires **25 credits** to include:

- TNPRFT 431: Community Organizations and the Nonprofit Sector
- TNPRFT 432: Organizational Development
- TNPRFT 451: Essentials of Grant Writing and Fundraising
- TIAS 496: Internship
- TNPRFT 457: Nonprofit Management Practicum

Restoration Ecology Certificate (REC)*

The University of Washington Restoration Ecology Network (UW-REN) was established to prepare students to meet the multidisciplinary challenges in the field of ecological restoration. Effective restoration requires the interactive efforts of experts from many disciplines, as illustrated below. UW-REN offers students from any UW program the opportunity to obtain a certificate of academic experience in Restoration Ecology. This program provides students with a substantial background in restoration ecology within the context of their degree program. The REC is not associated with a degree program. It demonstrates to employers and funding agencies that a fundamental training in restoration ecology, including a one-year, team-based restoration project has been completed. Study ranges from theory to practice to provide students with skills necessary to participate as effective team members or to lead challenging restoration projects.

Requirements

The Restoration Ecology certificate requires a minimum of **25 credits**. All courses must be completed with a minimum grade of 2.0.

- TESC 362: Introduction to Restoration Ecology (7 credits)
  - This is a 300-level course offered at UW Bothell and UW Tacoma. UW Seattle's equivalent course is EHUF 473.
- Restoration-related courses (10 credits)
  - Students must complete 10 credits of restoration-related courses from an approved list of courses that is available on the UW-REN website at http://depts.washington.edu/uwren. Courses not on the list can be petitioned to the UW-REN director.
- UW-REN Senior Restoration Capstone
  - TESC 462 (2 credits)
  - TESC 463 (3 credits)
  - TESC 464 (2 credits)
  - The capstone consists of a three-quarter, 10-credit sequence of courses that take place during the fall-winter-spring quarters. In the capstone, students participate in a hands-on restoration project from design, analysis, and implementation to developing a monitoring plan, all within a multidisciplinary teamwork setting.
Graduate Policies and Graduation

Graduate Credits Taken as an Undergraduate

University of Washington students who are within six credits of completing their undergraduate work and who have met the requirements for admission to the Graduate School may register the quarter immediately preceding admission to the Graduate School for up to six credits in 500-level courses in addition to the last six credits they require of undergraduate work. For example, a student admitted for autumn quarter may take graduate credits during the preceding spring quarter.

This registration and these arrangements must be approved by the graduate program that the student will enter. However, students so enrolling are not reclassified as graduate students until the baccalaureate degree has been granted and after their official admission. At that point, it is necessary to petition to permit the six credits to apply toward the master’s degree. Only under these circumstances may graduate work taken as an undergraduate be applied toward an advanced degree. Further registration for graduate work is contingent upon completion of the requirements for the bachelor’s degree.

Graduate Nonmatriculated Students

Graduate nonmatriculated (GNM) is a classification for post-baccalaureate students who are not seeking a graduate degree at the time of registration.

While a student does not need GNM status to register for a graduate-level class, a student must have it in order to apply the credits to a graduate degree at the University of Washington should the student later be admitted as a matriculated graduate student. GNM status is granted by the individual graduate program. A minimum GPA of 3.0 in the last 90 quarter (60 semester) graded credits is required for consideration. A student who is later admitted to the Graduate School may apply a maximum of 12 applicable GNM credits (or any combination of GNM and up to six approved transfer credits, totaling 12 credits) toward a master’s degree.

Admission into the GNM status does not confer priority for or guarantee of later admission into the Graduate School to pursue a degree.

Applicants for GNM status must contact the academic program directly for application information. Not all programs choose to offer GNM status. Programs will advise students regarding the status and provide instructions, application forms and program requirements to appropriate candidates.

Failure to register for any quarter except summer quarter will result in loss of GNM status. Once GNM status has been lost, the application process must be repeated in order to be readmitted as a GNM student. The transcripts and other student records from the prior records can be forwarded to supplement the new application.

GNM students pay fees and tuition at the regular graduate-student rate based on residency of the student including the Student Services and Activity Fee and the Technology Fee. GNM students are not eligible for financial aid because most financial aid is governed by federal regulations that require students to be enrolled in degree programs. Students will be assigned a UW student number and receive a student identification card that entitles them to all privileges and access to facilities that are extended to matriculated students.

Visiting Graduate Students

A student who wishes to enroll in a graduate program at the University of Washington Tacoma and who intends thereafter to return to another graduate school in which he or she is working toward an advanced degree may be admitted as a visiting graduate student. This admission is contingent on available space and facilities. Such a student must have been officially admitted to another recognized graduate school and be in good standing and currently pursuing a graduate degree. Admission to the University of Washington Tacoma, as a visiting graduate student does not guarantee admission to any particular course of study.

A visiting graduate student is permitted to register only in those courses for which he or she is judged to be eligible by a faculty adviser or the instructor of the course and if space is available to accommodate registration. Further details regarding application and other relevant policies may be obtained from the appropriate program office at UW Tacoma or online at www.grad.washington.edu.

Transfer Credit

A student working toward a master’s degree may petition the Dean of the Graduate School for permission to transfer to the University of Washington the equivalent of a maximum of six quarter credits of graduate level course work taken at another recognized academic institution. These credits may not have been used to satisfy requirements for another degree. The petition must include a written recommendation from the graduate program coordinator and an official transcript indicating completion of the course work. Transfer credits are not entered on the UW transcript.

University of Washington students who are within six credits of completing their undergraduate degree and who have met the requirements for admission to the Graduate School may register the quarter immediately preceding admission to Graduate School for up to six credits in 500-level courses in addition to the last six credits they require of undergraduate work. The graduate program that has admitted the student must approve registration for the courses. The student, after admission to the Graduate School, must file a petition with the Dean of the Graduate School to transfer the six credits. The student must also provide a letter from the Office of
Graduation and Academic Records stating that these credits have not been applied toward the undergraduate degree. Contact the specific program for details.

Graduate Student Policies

The following section contains detailed information concerning policies and procedures relating to graduate students and graduate studies. Students should verify all information with the program adviser of the individual academic program or appropriate staff.

For more information on the UW Graduate School and graduate student policies, please visit the Graduate School website at www.grad.washington.edu.

Graduate Courses

Graduate courses are intended for—and ordinarily restricted to—either students enrolled in the Graduate School or graduate nonmatriculated students and are given numbers from 300 to 800.

Some courses at the 300 and 400 levels are open to both graduates and upper-division undergraduates. Such courses, when acceptable to the supervisory committee and the specific academic program, may be part of the graduate program. The Graduate School accepts credit in approved 300-level courses for the minor or supporting fields only. Courses at the 300 level are not included in the calculation of grade point average (GPA) and will not apply toward the minimum Graduate School requirement of 18 graded credits for the master's degree. Approved 400-level courses are accepted as part of the major as well as minor or supporting fields.

Courses numbered 490 and titled Special Topics and Special Projects normally are not applicable to a graduate degree program if addressed primarily to introductory content and undergraduate students. Undergraduate research (499) is not accepted as part of the graduate program. Graduate School Memorandum No. 36 offers additional information on graduate courses. With the exception of summer, students are limited to a maximum 10 credits per quarter of any combination of courses numbered 600, 700 or 800.

Re-admission

A student previously registered in the Graduate School who has failed to maintain graduate student status but who wishes later to resume graduate studies must apply online to be re-admitted. If the student has attended any other institution during the period when not registered at the University of Washington, official transcripts in duplicate of the student’s work must be submitted. An application for re-admission carries no preference and is treated in the same manner as an application for initial admission, including the requirement of payment of the application fee.

Students are required to meet the program requirements in place at the time they are re-admitted.

The Graduate School normally allows six years to complete requirements for a master's degree. Periods spent on leave or out of status are included.

On-leave Eligibility

- Must be a graduate student in good standing.
- Must have been registered or on-leave the previous quarter.
- Must satisfy any graduate program policies pertaining to going/remaining on-leave.
- U.S. citizen and permanent residents must have registered for at least one quarter of graduate study at UW and have approval from their graduate program.
- International students must have registered full time (10 or more credits) for three consecutive quarters and have approval from both their graduate program and the International Student Services office.
- Pre-registered students must officially withdraw via MyUW or the Registration office prior to the first day of the quarter. Registered students are not eligible for on-leave status.

Students on-leave are entitled to:

- Return as a graduate student to the graduate program
- Use University libraries
- Maintain access to the UW email account

Students on-leave are not entitled to:

- Faculty and staff counsel/resources (very limited counsel/resources are permitted)
- Examinations of any type (except for language competency)
- Thesis/dissertation filing
- University housing
- Student insurance
- Financial assistance

Procedure for Requesting Leave

Students requesting on-leave status must submit an online Request for On-Leave Status via MyGrad Program. For a given quarter, students can submit the request as early as two weeks prior to the first day of instruction and must submit payment of the non-refundable fee no later than 5 p.m. on the last day of instruction.

Leave is granted on a quarterly basis, though the following students may request up to four consecutive quarters of leave at one time: PCMI students, military personnel with deployment orders, and some UW Fulbright grantees (with the exception of military personnel with deployment orders, these...
students will be required to pay the fee for each quarter of leave requested).

**Domestic Students**

1. Complete and submit the online at www.grad.washington.edu/policies/general/leave_notice.pdf via MyGrad Program. Student will receive a confirmation email that the request has been submitted.

2. Request will be reviewed and approved by the departmental Graduate Program Coordinator (faculty adviser). Upon approval, students will receive a confirmation email that the department has approved the request.

3. Return to MyGrad Program to pay the non-refundable On-Leave fee via credit card. Students will receive a confirmation email that their quarterly leave has been processed and their registration status for that quarter is “On-Leave.”

4. Print confirmation of on-leave verification to be presented for access to the UW libraries.

**International Students**

1. Contact the International Student Services (ISS) office to obtain pre-approval to request on-leave status.

2. Complete and submit the online at www.grad.washington.edu/policies/general/leave_notice.pdf via MyGrad Program.

3. Request will be reviewed and approved by the departmental Graduate Program Coordinator (faculty adviser). Upon approval, students will receive a confirmation email that the department has approved the request.

4. Request will then be reviewed and approved by the ISS office. Upon approval, students will receive a confirmation email that the ISS office has approved the request.

5. Return to MyGrad Program to pay the non-refundable On-Leave fee via credit card. Students will receive a confirmation email that their quarterly leave has been processed and their registration status for that quarter is “On-Leave.”

6. Print confirmation of on-leave verification to be presented for access to the UW libraries and IMA.

**Reinstatement to the Graduate School if On-Leave Status was not Secured and Registration not Maintained**

Students previously registered in the Graduate School who have failed to maintain graduate student status but wish to resume studies within the same degree program must file a request for reinstatement to the Graduate School. Requests will first be reviewed and approved by the department. Once the department has approved the request and the Graduate School has confirmed students’ eligibility for reinstatement, students will be notified to pay a non-refundable reinstatement fee before registering for the requested quarter of reinstatement.

For questions regarding on-leave status, please contact the adviser within your graduate program and/or Graduate Enrollment Management Services at uwgrad@uw.edu or 206-685-2630.

**Graduation Requirements for the Master’s Degree**

It is the responsibility of each graduate degree candidate to meet the following Graduate School minimum requirements (plus any additional requirements that may be specified by the program in which the master’s degree is being earned; see item 7):

1. Under a thesis program, a minimum of 36 quarter credits (27 course credits and a minimum of nine credits of thesis) must be presented. Under a non-thesis program, a minimum of 36 quarter credits of course work is required.

2. At least 18 of the minimum 36 quarter credits for the master’s degree must be for work numbered 500 and above. (In a thesis program, nine of the 18 must be course credits and nine may be for Master’s Thesis [700].)

3. Numerical grades must be received in at least 18 quarter credits of course work taken at the University of Washington Tacoma. The Graduate School accepts numerical grades in approved 400-level courses accepted as part of the major and in all 500-level courses. The student must earn a minimum grade of 2.7 in each class in order for it to be counted. A minimum cumulative GPA of 3.0 is required for a graduate degree at the university.

4. The residence requirement for the master’s degree is one year (three full-time quarters). Students registered for fewer than 10 credits per quarter may add part-time quarters together to achieve the equivalent of one full-time quarter (10 or more credits) to be applied toward fulfilling residence requirements. However, excess credits beyond 10 may not be subtracted from one quarter and added to another. Once a student is admitted to a graduate degree program, a full quarter of residence is granted for any quarter in which at least 10 credits in approved courses, research, thesis, or internship are satisfactorily completed.

5. In a thesis degree program, a thesis, approved by the supervisory committee, must be submitted to the Graduate School. A student must register for a minimum of nine credits of thesis (700). With the exception of summer, students are limited to a maximum of nine credits per quarter of thesis (700).

6. A final master’s examination, either oral or written, as determined by the student’s supervisory committee, must be passed if it is a program requirement.

7. Any additional requirements imposed by the graduate program adviser in the student’s major department or by the student’s supervisory committee must be satisfied. A master’s degree student usually takes some work outside the major department. The graduate program coordinator in the major department or the student’s supervisory committee determines the requirements for the minor or supporting courses.

8. The graduate student must apply for the master’s degree within the first seven weeks of the quarter in which he or she expects the degree to be conferred. See Graduate Degree Application Process below.

9. The graduate student must maintain registration as a full- or part-time student at the university for the quarter in which the degree is conferred. A student who does not complete all degree requirements by the last day of the quarter must be registered for the following quarter.

10. All work for the master’s degree must be completed within six years. This includes quarters spent on leave or out of status and applicable work transferred from other institutions.

11. A student must satisfy the requirements for the degree that are in force at the time the degree is to be awarded.
Completing the master's degree request
Your department may require an earlier request submission date, please consult your department.

Autumn/winter/spring quarters:
- Weeks 1-9 are considered as filing the Request on time
- Weeks 10-11 the request system is closed and no requests are accepted. The next option is to graduate during the following quarter.

Summer quarter:
- Weeks 1-7 are considered as filing the Request on time
- Weeks 8-9 the request system is closed and no requests are accepted. The next option is to graduate during the following quarter.

Completing the master's degree request
- When completing the master's degree request, the program will automatically run a degree audit to inform the students of any unsatisfied Graduate School requirements.
- Students will receive an email confirming receipt of their master's degree request and the students' departments are notified through MyGradProgram that a request has been submitted.
- Authorized departmental users enter department contingencies into MyGradProgram and can elect to send an email to the students to notify them of the departmental contingencies. Authorized departmental users will print the master's degree warrants and the warrants will be routed to the students' master's committees in a manner determined by the department.

By signing the master's degree warrants, the students' committees certify that the students have met all departmental requirements for the degree (except the thesis if one is required) and the warrants must be placed in the students' department file.

Once the warrants have been signed, the authorized departmental users will recommend whether or not the students are to graduate that quarter and these recommendations are conveyed to the Graduate School through MyGradProgram by the Sunday (midnight Pacific Time) following the end of the quarter. Emails are sent to the students notifying them that their departments have made a recommendation on their request.

Once the Graduate School receives the degree request recommendation, a final transcript audit and a review to determine if all Graduate School and department contingencies are met, will be completed by Graduate School staff.

The Graduate School enters the degree request recommendation into MyGradProgram, email notifications are sent to the students informing them of their graduation status, and authorized departmental users can view their quarter graduation list in MyGradProgram.

Commencement
Formal commencement exercises are conducted at the close of spring quarter. Information on participating in the commencement ceremony is posted on the Commencement website at tacoma.uw.edu/commencement.

Diploma distribution
Diplomas are produced approximately 12 weeks after the end of the quarter in which they are earned and are mailed to the student.

Student Rights and Responsibilities
It is the responsibility of the student to become familiar with all academic and administrative regulations and procedures relating to his or her course of study at UW Tacoma.

Student Conduct Code
The UW Board of Regents has adopted a Student Conduct Code, which applies to both academic and nonacademic conduct for students while in attendance at UW Tacoma. The University of Washington Student Conduct Code obligates students to:
- Maintain high standards of academic and professional honesty and integrity.
- Respect the rights, privileges and property of other members of the academic community and visitors to the campus.
- Refrain from actions that would interfere with university functions or endanger the health, safety or welfare of other persons.
- Comply with the rules and regulations of the university, its schools, colleges and departments.

Violations of these standards may result in a variety of disciplinary actions, including suspension or permanent dismissal from the university. The code specifies standards of conduct, jurisdiction for hearing disciplinary matters and due process. Students may obtain copies from the Office of Student Affairs or online at www.washington.edu/students/handbook/conduct.html.

Individual academic and professional programs may have standards and expectations beyond those explained in the Code of Conduct. Please contact the program office for details.

Computer Use and Software Copyright Policy
All faculty, staff and students are responsible for using university computer resources in an ethical and legal manner. For example, it is not appropriate to share computer accounts or use them for commercial purposes, to send unwanted email, or to distribute copyrighted software, music or images. Those who do not follow the rules could lose their UW computing privileges. For detailed information, see the UW Information Technology website at www.washington.edu/itconnect.
Equal Opportunity
The University of Washington, as a standing policy, does not discriminate on the basis of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam-era veteran. Any discriminatory action can be a cause for disciplinary action. This policy applies to all university programs and facilities including, but not limited to, admissions, educational programs, employment, and patient and hospital services. Such discrimination is prohibited by Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, Age Discrimination in employment Act Amendments of 1978, Vietnam Era Veteran's Readjustment Assistance Act of 1974, Americans with Disabilities Act of 1990, State of Washington Gender Equity in Higher Education Act of 1989, other federal and state statutes and regulations, and university policy.

Coordination of the compliance efforts of the University of Washington with respect to all of these laws and regulations is under the direction of Torrey Tiburzi, director of the University of Washington's Office of Equal Opportunity and Affirmative Action, 231 Gerberding Hall, Seattle, Washington 98195, 206-543-1830, eoaa@u.washington.edu.

Student Education Records
As a general rule, the university will not release a student's education records to a third party without the written consent of the student.* This includes tuition account information. The complete university policy on student education records and the location of such records may be found in the Washington Administrative Code under WAC 478-140. Manuals containing the code are available at reference stations on campus (including in the Office of the Chancellor and in the campus library) and at the University of Washington Visitor's Information Center in the Odegaard Undergraduate Library on the UW Seattle campus. The policy covers such items as accessibility, review and expunging of inaccurate records, and costs to be charged for copies of student records. Information release forms for tuition accounts information only may be obtained from Student Fiscal Services, 129 Schmitz Hall, Seattle.

Release of Student Directory Information
The Family Educational Rights and Privacy Act of 1974 (FERPA) protects the privacy of student educational records. However, the following information is considered public or directory information and may be released to anyone unless the student requests otherwise: name, telephone number, email address, place of birth, major, dates of attendance, degrees and awards received, full- or part-time enrollment status, most recent previous educational institution attended, and for athletes, date of birth, weight and height. If a student chooses not to authorize release of directory information, he or she can restrict this information using MyUW (myuw.washington.edu) or by completing a form in the Office of the UW Tacoma Registrar. Except under provisions of the USA PATRIOT Act of 2001, no information will be released on students who have restricted release of directory information, including degrees awarded and dates of attendance. To change authorization and allow release, students must present, in person, a request in writing to the Office of the UW Tacoma Registrar substantiated by photo identification.

Complete details regarding FERPA and students' rights concerning educational records are available from the Office of the Registrar.

Sexual Harassment Complaint Procedure
Students, staff, faculty and other users of university services who have a concern or complaint regarding sexual harassment may contact either the director of Human Resources at UW Tacoma, the Ombudsman at 253-692-4476 or the University Complaint Investigation and Resolution Office at 206-616-2028. Personnel in these offices provide assistance in resolving concerns and complaints. Also, UW Tacoma staff may contact the director of Human Resources at UW Tacoma about sexual harassment concerns.

*The USA PATRIOT Act of 2001, however, limits some privacy protections.
The Milgard School of Business Master of Accounting (MAcc) program is a one year, 45-quarter credit full-time professional program. The program will consist of 10 four-credit courses and one five-credit internship. The internship requirement enables students the opportunity to apply their academic skill and knowledge to a specific area of accounting.

The MAcc courses cover key areas of accounting and business knowledge such as advanced topics in accounting, international accounting, planning, control and performance evaluation, financial statement analysis, financial accounting theory, taxation of businesses, and business law and ethics. These courses emphasize the skills and tools for accountants to provide information and assist decision makers. The program’s innovative features include international accounting, social reporting, and forensic accounting. The program provides the fifth-year of higher education required for the State of Washington CPA exam.

Accreditation

The Milgard School of Business at the University of Washington Tacoma has earned accreditation by the Association to Advance Collegiate Schools of Business (AACSB), as determined by the Board of Directors of AACSB International. AACSB was founded in 1916, AACSB International is the longest serving global accrediting body for business schools that offer bachelor’s, master’s, and doctoral degrees in business and accounting.

Admission Requirements

A basic qualification for this program is an undergraduate degree with a cumulative GPA of 3.0. Applicants who do not have an undergraduate degree in business will have to complete all the accounting and business courses listed below. Applicants with an undergraduate degree in business (but not an option in accounting) need to complete a set of accounting courses including the intermediate accounting series, cost accounting, audit and individual income tax. These classes must be taken at an accredited college or university, either at the undergraduate or graduate level.

If you have taken a course from a college or university which is not listed below, it can be reviewed by an adviser for admissibility. Applicants must simultaneously be admitted to the Milgard School of Business and to the Graduate School of the University of Washington. Application information is available on the MAcc website at tacoma.uw.edu/macc.

Applications must be submitted in time to meet the Milgard School of Business deadline listed on the website, as this supersedes the Graduate School admissions deadline. The MAcc program admits students for autumn and spring quarters only. Admission is competitive.

The following are required for admission to the Master of Accounting program:

- A baccalaureate degree from an accredited institution.
- An overall grade-point average of 3.0 calculated from the applicant’s final 90 graded quarter credits or 60 graded semester credits.
- Competitive scores from the Graduate Management Admissions Test (GMAT) completed within the last five years. GRE scores are also accepted; contact the MAcc adviser for details.
- One official transcript from any institution where a degree was obtained to include 90 graded credits. Transcripts with post-degree credits may also be submitted. If admitted, a second baccalaureate transcript will be requested by the Graduate School.
- Admission essay
- Reference list form
- Applicants holding Permanent Residence Status and an international baccalaureate degree (or higher) must submit scores for the TOEFL exam. Minimum scores are 580 (paper-based), 237 (computerized TOEFLC), 92 (Internet-based TOEFLIBT). See UW Graduate School Memo #8 for details related to English proficiency.

Applicants with foreign transcripts must apply by May 1 to allow extra time for transcript evaluation. Foreign transcripts must be accompanied by an English translation when submitted.

Program Cost

This is a fee-based program and it is possible for students to qualify for some federal and state grants, loans or the work-study program, as well as Master of Accounting scholarships. Students in all fee-based programs and fee-based degrees are ineligible for the tuition exemption program, institutional tuition waivers and the Undergraduate/Graduate University Grant programs, including the Husky Promise program. For information on federal or state aid, contact the Office of Student Financial Aid.

2012-2013 Program Fees

- $440 per credit for Washington state residents ($19,800 for the entire program)
- $550 per credit for non-Washington state residents ($24,750 for the entire program)
- Technology fee: $40 per quarter

Course Descriptions

For the most current course information, please consult the University of Washington Course Description website www.washington.edu/students/crsdcat/.

Note: Courses are open to Master in Accounting students only unless otherwise noted.

T ACCT 500 Advanced Topics in Financial Accounting
4 credits
Investigates advanced accounting issues related to business combinations, foreign currency transactions, financial derivatives, segment and interim reporting, intercompany transactions, SEC regulation and reporting requirements, and revenue recognition. Emphasizes the ability to examine related accounting principles, assess their impact on financial statements, and identify areas of potential misstatements.

T ACCT 501 Financial Accounting Theory
4 credits
Examines accounting theory, such as the role of accounting in valuation of securities, performance evaluation, and accounting standards setting. Investigates the scope and limitations of “generally accepted accounting principles,” with special emphasis on the objectives of financial reporting.

T ACCT 502 Financial Statement Analysis
4 credits
Examines the analytical tools and research techniques necessary to understand and interpret financial statements for the purposes of making economic decisions from a user’s perspective.

T ACCT 510 Business Regulation, Research, and Communication
4 credits
Investigates key issues in the current regulatory business environment. Examines statutory and common law precedent of issues. Examines optimization of results to those key issues evaluated. Emphasizes the development of advanced communication skills pertaining to research regarding regulator issues.

T ACCT 511 Planning, Control, and Performance Evaluation
4 credits
Examines the use of cost accounting information and techniques to support decision-makers as they develop, implement, evaluate, and modify organizational strategy. Examines and evaluates quantitative models and behavioral aspects regarding the use of cost information in decision making.

T ACCT 521 International Accounting
4 credits
Examines the causes and effects of global accounting diversity. Investigates issues related to the preparation and use of financial reports across borders. Investigates selected financial reporting and disclosure issues including social responsibility reporting. Emphasizes the nature and importance of emerging capital markets, and managerial accounting issues related to global business.

T ACCT 535 Taxation of Business Entities
4 credits
Examines the effects of income taxes on business strategy. Examines the interaction of income tax considerations with non-tax considerations in business decision-making.

T ACCT 536 Tax Research and Communications
4 credits
Examines issues in conducting tax research. Examines aspects of the research process, including how to find, read, and evaluate primary and secondary sources of tax law. Emphasizes development of advanced communication skills relating to the expression of research findings in taxation.

T ACCT 540 Advanced Auditing
4 credits
Examines key issues regarding generally accepted auditing standards, the role of the auditor, professional conduct and ethics, reporting responsibilities, risk assessment, internal control, evidential matter, management fraud, forensic accounting, and auditing of social reports.

T ACCT 550 Governmental and Not-for-Profit Accounting
4 credits
Investigates accounting issues for state and local governments, public and private colleges and universities, hospital and health care providers, and other not-for-profit organizations. Examines characteristics that distinguish governmental and not-for-profit entities from for-profit entities. Examines fund structure and financial reporting issues for various kinds of not-for-profit institutions.

T ACCT 601 Internship
5 credits
Provides students with practical knowledge and experience in an accounting environment. Permits students to develop their own strategic plan under faculty guidance. Permits student to perform field work utilizing the skills developed in classroom. Culminates with a research paper expanding on previously developed accounting knowledge.

Faculty

Shahrokh M. Saudagaran
Gary E. & James A. Milgard Endowed Dean and Professor
International Accounting; Ph.D., University of Washington, 1986

Zoe I. Barnness
Associate Professor; Management; Ph.D., Northwestern University, 1996

Daniel Bryan
Assistant Professor; Accounting; Ph.D., University of Oregon, 2002

Zhiyan Cao
Assistant Professor; Accounting; Ph.D., Yale University, 2006

Sergio V. Davalos
Associate Professor; Management Information Systems; Ph.D., University of Arizona, 1992

Marion Eberly
Assistant Professor; Ph.D. candidate, University of Washington, 2011

Rupinder Jindal
Assistant Professor; Marketing; Ph.D., INSEAD, France, 2006

Fei Leng, CFA
Assistant Professor; Finance; Ph.D., University of Tennessee, Knoxville, 2006

Altaf Merchant
Assistant Professor; Marketing; Ph.D., Old Dominion University, 2008

Ramin Mirsaidi, CPA
Senior Lecturer; Accounting; M.B.A., University of Indiana, 1978

G. Kent Nelson
Senior Lecturer; Organizational Management and Strategic Communication; Ph.D., University of Washington, 1994
Stephen Norman
Assistant Professor; Economics; Ph.D., Cornell University, 2006

Gregory Noronha, CFA
Professor; Finance; Ph.D., Virginia Polytechnic Institute, 1990

Garth Novack
Assistant Professor; Accounting; Ph.D., University of Arizona, 2003

Alexa Perryman
Assistant Professor; Management; Ph.D., Florida State University, 2008

Jill M. Purdy
Associate Professor; Organizational Behavior, Organization Theory, Management; Ph.D., Pennsylvania State University, 1994

Gregory M. Rose
Professor; Marketing; Ph.D., University of Oregon, 1995

Eugene Sivadas
Associate Professor; Marketing; Ph.D., University of Cincinnati, 1995

Tracy A. Thompson
Associate Professor; Organizational Behavior, Strategic Management; Ph.D., Northwestern University, 1994

Arindam Tripathy
Assistant Professor; Accounting; Ph.D., University of Texas at Dallas, 2006

Douglas T. Wills
Associate Professor; Economics; Ph.D., Texas A&M University, 1995
The mission of the Milgard School of Business is to offer high-quality undergraduate and graduate education for citizens of the state of Washington, especially in the South Puget Sound region. We seek to integrate innovative teaching, relevant scholarship and proactive service into our business and academic communities. We also are committed to advancing and disseminating business knowledge and theory and to cultivating collaborative relationships with the community.

MBA Vision Statement

The Milgard MBA develops visionary leaders who have the knowledge and managerial capabilities to promote organizational success and sustainability in ways that emphasize accountability to diverse stakeholders in a complex and interdependent world.

About the Degree Program

The master of business administration (MBA) degree at the Milgard School of Business is a 72-credit graduate degree designed to provide experienced professionals and managers with new tools for responding to the challenges of change. The program encourages managers to develop the integrated base of knowledge and skills needed to lead organizations facing an increasing pace of change. The Milgard School of Business MBA is a comprehensive degree that builds capabilities across the full range of business disciplines.

The primary goal of the MBA is to provide current and future managers with the knowledge necessary to succeed in an increasingly dynamic and complex environment. Students develop a strong mix of leadership, technological, financial, analytical, relational and communication skills. We offer a high quality program that is immediately relevant to practicing managers.

The curriculum develops well-rounded managers who can:

■ Develop and articulate the organization’s strategic direction
■ Identify sources of competitive advantage
■ Articulate and implement competitive strategies

■ Analyze data using quantitative and statistical tools or relevant technologies so that they can make informed business decisions
■ Evaluate and manage formal and informal processes that facilitate the meeting of organizational objectives
■ Understand how to motivate, develop, and manage people and teams in ways that foster organizational success
■ Demonstrate effective oral, written, and interpersonal communication skills that support and enhance managerial effectiveness
■ Demonstrate an understanding of organizational systems including interdependencies and relations among and between functional departments
■ Demonstrate an understanding of market dynamics and financial theories that can influence organizational actions and outcomes
■ Assess the global, social, political, economic, ethical, and environmental consequences of management decisions
■ Use analytical tools to diagnose organizational problems and identify appropriate solutions
■ Understand how to launch and assess organizational change initiatives

Accreditation

The Milgard School of Business at the University of Washington Tacoma has earned accreditation by the Association to Advance Collegiate Schools of Business (AACSB), as determined by the Board of Directors of AACSB International. AACSB was founded in 1916, AACSB International is the longest serving global accrediting body for business schools that offer bachelors, masters, and doctorate degrees in business and accounting.

Admission Requirements

Applicants must simultaneously be admitted to the Milgard School of Business and to the Graduate School of the University of Washington. Application information is available on the MBA website at tacoma.uw.edu/mba. Applications must be submitted
in time to meet the Milgard School of Business deadline listed on the website, as this supersedes the Graduate School admissions deadline. The MBA program admits students for autumn quarter only. Admission is competitive.

The following are required for admission to the Master of Business Administration program:

- A baccalaureate degree from an accredited institution.
- An overall grade point average of 3.0 calculated from the applicant’s final 90 graded quarter credits or 60 graded semester credits.
- Competitive scores from the Graduate Management Admissions Test (GMAT) completed within the last five years. GRE scores are also accepted; contact MBA adviser for details.
- A minimum of two years of post-baccalaureate managerial work experience.
- One official transcript from any institution where a degree was obtained to include 90 graded credits. Transcripts with post-degree credits may also be submitted. If admitted, a second baccalaureate transcript will be requested by the Graduate School.
- One essay. Details about the essay are included in the application information.
- A résumé
- Two professional recommendations
- Applicants holding Permanent Residence Status and an international baccalaureate degree (or higher) must submit scores for the TOEFL exam. Minimum scores are 580 (paper-based), 237 (computerized TOEFL), 92 (Internet-based TOEFLIBT). See UW Graduate School Memo #8 for details related to English proficiency.
- Applicants with foreign transcripts must apply by May 1 to allow extra time for transcript evaluation. Foreign transcripts must be accompanied by an English translation when submitted.

Program Design

The 72-credit, non-thesis MBA degree has two components:

- Core courses (56 credits)
- Elective courses (16 credits)

The core curriculum addresses key areas of business knowledge via the core courses, which focus on finance, accounting, marketing, operations, ethics, human behavior, and business strategy. Perspectives on international business are integrated across these courses, which culminate in a capstone course that offers a comprehensive systems perspective on organizations. These courses also emphasize quantitative and qualitative tools for predicting, planning, and managing change.

Beyond the core courses, students are required to complete 16 elective credits. The choice of electives will depend on the students’ career and educational goals. Students can create a profile of elective courses that allows them to gain additional business knowledge. Elective courses also can be taken outside of Business from other UW Tacoma graduate programs.

Enrollment and Classes

The UW Tacoma two-year MBA allows students to continue in their careers while they develop new managerial knowledge and skills. In the average quarter, an MBA student will enroll in two courses (8 credits) of study. Students may complete their degree on a year-round basis in two years (including summers) or extend to three or more years.

Classes meet primarily on weekday evenings and some Saturdays; many incorporate Internet components. Online assignments and discussion offer flexibility while keeping students connected to the faculty and their classmates. Courses integrate current conceptual and practical knowledge while building analytical and interpersonal skills. As a result, the curriculum is immediately relevant to practicing managers.

Elective Credits

A minimum of 8 graded elective credits must be completed in Tacoma MBA elective courses numbered 500 and above. The remaining elective credits can be completed via Tacoma MBA elective courses, credits from other UW graduate degree programs, transfer credits, or some combination of these as discussed in the policies below.

No more than eight credits of TBUS 569, Analytical Research, may be applied toward the MBA degree. MBA electives vary from 2-4 credits to allow greater choice and flexibility with scheduling.

Course Waivers

An admitted MBA student may petition to waive up to the equivalent of 12 quarter credits of MBA core courses. Waiver requests must be accompanied by official transcripts and other documentation such as course syllabi or proof of professional licensing where applicable. If a waiver is approved, the petitioner may select an available elective course with the same number of credits to replace the waived course(s). A waiver will not reduce the required credits needed to earn the MBA.

Waivers may be granted if the graduate committee concludes that a petitioner has demonstrated proficiency in the course material by prior educational training (e.g., undergraduate major or concentration or graduate degree in a specific field) or professional licensing (e.g., CPA). Waivers will only be entertained for graduate course work completed with a grade of “B” or better or undergraduate course work completed with a grade of “B+” or better.
Students who request waivers may be restricted in the courses they may take to complete their elective. Details of such restrictions will be included in the reply letter to the petitioning student.

**UW Credits Earned Outside the Tacoma MBA**

A portion of MBA elective credits may be earned at the University of Washington in other degree programs. Students do not need to petition to ensure these credits apply toward their degrees. The following restrictions apply:

1. At least 8 elective credits must be taken from Tacoma MBA courses numbered 500 and above.
2. No more than 8 credits earned in other UW graduate programs (numbered 500 and above) can be applied to the MBA degree.
3. No more than 5 credits of 400-level Tacoma business courses can be applied to the MBA degree.
4. 400-level courses from any other undergraduate program cannot be applied toward the MBA degree.

**Ungraded Credits (S/NS)**

Core courses in the Tacoma MBA curriculum cannot be taken Satisfactory/Not Satisfactory (S/NS). No more than 8 credits of elective courses may be completed as S/NS.

**Minimum Graduation Requirements for the MBA Degree**

Along with the Graduate School requirements, courses taken to complete the 72 credits required for the MBA degree must receive a passing grade (2.7 or higher or Satisfactory or Credit).

If a student does not pass a required course, the course must be repeated. Another course cannot be substituted for a failed required course. Students completing a course on a Satisfactory/Not Satisfactory (S/NS) basis must earn at least a 2.7 grade in order to receive a grade of “Satisfactory.”

Students are reminded to read and carefully adhere to the university’s policies. Please refer to the Graduate Admissions, Graduation Requirements for Master’s Degree, and Graduate Student Policies sections in this catalog or refer to the Graduate School website at www.grad.washington.edu for more information regarding graduate degree requirements.

**Course Descriptions**

For the most current course information, please consult the Milgard School of Business website: tacoma.uw.edu/business.

**Core Courses (56 credits)**

**TBUS 503**

Managerial Accounting for Decision Making and Control

4 credits / Prerequisite: TBUS 500

Introduces the concepts, theories, and practices managers use for decision making and cost control. Discusses the principles and methods of accounting used in reporting information to management that is needed within an organization and how this information can be used by managers to plan, control, and make decisions.

**TBUS 500**

Quantitative Methods in Business

4 credits

Examines statistical concepts including probability and probability distributions. Develops an understanding of sampling and estimation procedures, hypothesis testing, and inference. Topics include correlation and regression analysis, and analysis of time series.

**TBUS 501**

Financial Theory

4 credits

Examines financial theory including asset valuation, capital markets, and the basic terminology of corporate finance. Focuses on Time Value of Money, Equity Valuation, Cost of Capital and basics of risk management as essential tools.

**TBUS 504**

Marketing Management

4 credits

Examines the processes by which organizations create value for customers. Focuses on marketing decision making, including opportunity analysis, positioning strategies, product development/management, distribution channels, pricing tactics, and integrated marketing communications. Enables students to manage target market selection and marketing program design.

**TBUS 505**

Product Development

4 credits

Examines ways to apply tools of intermediate microeconomic theory to issues of interest to managers. Topics include market processes, consumer theory, firm behavior in competitive and imperfectly competitive markets, product pricing, and strategic behavior.

**TBUS 507**

Individual and Team Dynamics

4 credits

Examines human behavior in organizations in terms of individual, small group, intergroup and the total organization. With an emphasis on managing people, topics include leadership, communication, group dynamics, decision-making, self-awareness, motivation, perception, influence, learning and the management of change and conflicts. Class dynamics serve as significant examples for understanding human behavior.

**TBUS 508**

Integrated Systems

4 credits

Integrates material learned in the MBA core through immersion in systems theory. Students learn to view organizations as open systems and evaluate consequences of business decisions. An online simulation is used to demonstrate the interplay of various subsystems in organizations while competitive forces create an environment of ongoing change.

**TBUS 520**

Microeconomics for Managers

4 credits

Examines ways to apply tools of intermediate microeconomic theory to issues of interest to managers. Topics include market processes, consumer theory, firm behavior in competitive and imperfectly competitive markets, product pricing, and strategic behavior.

**TBUS 530**

Operations Management in Action

4 credits

Examines essential topics in operations management, including operations strategy and planning; process and service design; supply chain and inventory management; quality management and statistical quality control; and forecasting and scheduling. Emphasizes concepts and skills essential for operations management in manufacturing and service firms from a strategic, operational and analytic perspective.

**TBUS 557**

Organization Change

4 credits

Provides a multiple perspectives approach to managing change. Examines competing perspectives on change stemming from both change management approaches and organizational development approaches. Considers various change methodologies and explores examples of best practice in change management. Experiential approach encourages the development of skills in change management.

**TMGMT 512**

Business Ethics and Social Responsibility

4 credits

Focuses on the ethical and moral challenges that are an everyday part of organizational life for managers. Addresses the societal consequences of managerial decisions and organizational actions. Considers global variance in ethical standards and impact of ethical behavior on organizational performance.
**Elective Courses (16 credits)**

**TACCT 520**
International Accounting Seminar
4 credits
Enhances understanding of international accounting issues. Examines the impact of accounting diversity on global capital flows and explores the convergence of global accounting standards. Covers accounting for changing prices, goodwill and other intangibles, as well as social and environmental reporting, geographic segment disclosure practices and financial reporting in emerging markets.

**TACCT 525**
Forensic Accounting Seminar
4 credits / Prerequisite: TBUS 503
Explores the nature, detection and prevention of fraudulent financial reporting. Investigates types of fraud, how fraud is committed, and ways to prevent fraud in corporations.

**TACCT 531**
Financial Statement Analysis
4 credits / Prerequisite: TBUS 503
Provides analytical tools and research techniques necessary to understand and interpret financial statements.

**TBUS 568**
Internship
3-5 credits
Allows students to explore new career avenues or to extend their current career experience into new areas. Involves explaining knowledge and skills through on-site project work with an organization. Requires written internship plan and faculty permission prior to registration.

**TBUS 569**
Analytical Research
2-4 credits
Provides an opportunity to work independently to explore specific business topics in greater depth. The student must develop a research proposal and make arrangements with a faculty member to supervise the project prior to course registration. Tacoma MBA students only. Permission of faculty is required prior to registration.

**TBUS 590**
Special Topics in Business
1-4 credits
Advanced offerings designed to respond to faculty and student interests and needs.

**TFIN 521**
Macroeconomics for Managers
4 credits
Focuses on the use of intermediate macroeconomic theory to understand how different sectors of the economy are inter-related. Emphasizes international markets and how to assess the impact on firms of different macroeconomic policies and events.

**TFIN 522**
Investment Valuation
4 credits / Prerequisite: TBUS 501
Examines the valuation of financial assets including stocks, bonds and real assets such as businesses. Focuses on discounted cash flow, risk options pricing theory and models, market efficiency, dividend discount models, and real options theory.

**TFIN 526**
Portfolio Management
4 credits / Prerequisite: TBUS 501
Provides an understanding of investor decision making under uncertainty, and how portfolios may be used to reduce risk. Explores the portfolio management process including construction, revision, and protection of both fixed income and equity portfolios. Covers performance evaluation and risk management.

**TGMGT 518**
Business Law
4 credits
Examines legal issues in a business context. Considers law as a strategic tool to help achieve core business objectives, create value, and manage risk. Addresses legal aspects of business management and relationships including: contracts, torts, product liability, employment, intellectual property, agency and business organizations.

**TGMGT 520**
Managing Corporate Responsibility
4 credits
Focuses on strategic and dynamic issues that are key to building high-performing organizations with a sense of ethics, civic engagement and social responsibility. Provides a theoretical and practical understanding of what role organizations should play in society.

**TGMGT 530**
Organization Design
4 credits
Focuses on the use of organizational design to create successful and sustainable organizations. Addresses organizing work, leveraging knowledge, developing processes, and supporting values to achieve the organization’s goals. Examines how managers can achieve alignment of structure, culture, people and processes under conditions of change.

**TGMGT 532**
Strategic Human Resource Management
4 credits
Addresses the design of human resource management systems to create and sustain competitive advantage. Focuses on how managers can diagnose their organization’s alignment with competitive realities and develop human resource systems that produce the levels of commitment, coordination and competence required by the organization’s competitive strategy.

**TGMGT 553**
Leadership in a Changing World
4 credits
Explores the impact of change on individuals, teams, and organizations.

**TKMTG 520**
Services Marketing
4 credits
Examines the legal, financial, strategic and managerial challenges of creating and operating new businesses. Topics include building an entrepreneurial firm, developing start-up strategy, creating business plans, obtaining venture financing and managing a growing company.

**TKMTG 525**
International Marketing
4 credits / Prerequisite: TBUS 504
Examines the impact of foreign competition on domestic businesses. Focuses on multidisciplinary marketing strategies and opportunities.

**TKMTG 550**
Managerial and Marketing Research
4 credits / Prerequisite: TBUS 504
Experiences the unique challenges of managing services and delivering service quality that lead to customer satisfaction. Examines methodologies available for measuring, analyzing and designing services. Investigates the role of marketing in attracting customers and shaping customer expectations.

**TKMTG 560**
Special Topics in Business
1-4 credits
Advanced offerings designed to respond to faculty and student interests and needs.

**TKMTG 567**
International Accounting Seminar
4 credits
Enhances understanding of international accounting issues. Examines the impact of accounting diversity on global capital flows and explores the convergence of global accounting standards. Covers accounting for changing prices, goodwill and other intangibles, as well as social and environmental reporting, geographic segment disclosure practices and financial reporting in emerging markets.

**TMGMT 525**
Forensic Accounting Seminar
4 credits / Prerequisite: TBUS 503
Explores the nature, detection and prevention of fraudulent financial reporting. Investigates types of fraud, how fraud is committed, and ways to prevent fraud in corporations.

**TMGMT 531**
Financial Statement Analysis
4 credits / Prerequisite: TBUS 503
Provides analytical tools and research techniques necessary to understand and interpret financial statements.

**TMGMT 568**
Internship
3-5 credits
Allows students to explore new career avenues or to extend their current career experience into new areas. Involves explaining knowledge and skills through on-site project work with an organization. Requires written internship plan and faculty permission prior to registration.

**TMGMT 569**
Analytical Research
2-4 credits
Provides an opportunity to work independently to explore specific business topics in greater depth. The student must develop a research proposal and make arrangements with a faculty member to supervise the project prior to course registration. Tacoma MBA students only. Permission of faculty is required prior to registration.
Faculty

Shahrokh M. Saudagaran
Gary E. & James A. Milgard Endowed Dean and Professor
International Accounting; Ph.D., University of Washington, 1986

Zoe I. Barsness
Associate Professor; Management; Ph.D., Northwestern University, 1996

Daniel Bryan
Assistant Professor; Accounting; Ph.D., University of Oregon, 2002

Zhiyan Cao
Assistant Professor; Accounting; Ph.D., Yale University, 2006

Sergio V. Davalos
Associate Professor; Management Information Systems; Ph.D., University of Arizona, 1992

Marion Eberly
Assistant Professor; Ph.D. candidate, University of Washington, 2011

Rupinder Jindal
Assistant Professor; Marketing; Ph.D., INSEAD, France, 2006

Fei Leng, CFA
Assistant Professor; Finance; Ph.D., University of Tennessee, Knoxville, 2006

Altaf Merchant
Assistant Professor; Marketing; Ph.D., Old Dominion University, 2008

Ramin Mirsaidi, CPA
Senior Lecturer; Accounting; M.B.A., University of Indiana, 1978

G. Kent Nelson
Senior Lecturer; Organizational Management and Strategic Communication; Ph.D., University of Washington, 1994

Stephen Norman
Assistant Professor; Economics; Ph.D., Cornell University, 2006

Gregory Noronha, CFA
Professor; Finance; Ph.D., Virginia Polytechnic Institute, 1990

Garth Novack
Assistant Professor; Accounting; Ph.D., University of Arizona, 2003

Alexa Perryman
Assistant Professor; Management; Ph.D., Florida State University, 2008

Jill M. Purdy
Associate Professor; Organizational Behavior, Organization Theory, Management; Ph.D., Pennsylvania State University, 1994

Gregory M. Rose
Professor; Marketing; Ph.D., University of Oregon, 1995

Eugene Sivadas
Associate Professor; Marketing; Ph.D., University of Cincinnati, 1995

Tracy A. Thompson
Associate Professor; Organizational Behavior, Strategic Management; Ph.D., Northwestern University, 1994

Arindam Tripathy
Assistant Professor; Accounting; Ph.D., University of Texas at Dallas, 2006

Douglas T. Wills
Associate Professor; Economics; Ph.D., Texas A&M University, 1995
The Institute of Technology at the University of Washington Tacoma, launched in 2001, serves as home for the master of science in Computer Science and Systems. Through innovative research opportunities and partnerships with area companies, the Institute helps graduate students gain practical work experience and meets continually changing industry needs. The Institute also provides services to attract and support students from diverse local as well as international educational, economic and ethnic backgrounds.

About the Degree Program
The master's degree in Computer Science and Systems at University of Washington Tacoma is designed for advanced careers in the technology industry and to prepare students to enter a Ph.D. program in computer science. Those with a master's degree in computer science typically earn 25 to 30 percent higher starting salaries than those with bachelor's degrees, according to a report by the U.S. Bureau of Labor Statistics. The degree requires 40-45 credits, depending on the various degree options.

The MSCSS program is a competitive program focusing on graduate level coursework in computer science through a variety of core courses and advanced electives. It serves a diverse population of students, from those with significant experience and degrees in the field, to those with non-computing-related undergraduate degrees augmented by the requisite undergraduate course work. By broadening this base of students eligible for the program, the Institute encourages a number of undergraduate students to continue their education at the graduate level and attracts an increasing number of nontraditional students who have related work experience and a strong interest in the computing, thereby providing a balanced blend of perspectives and learning experiences.

Degree Options
There are three options for completing the MS degree in CSS:

- Thesis option
- Capstone project option
- Course-only option

Thesis Option
The thesis option was designed for graduate students who are prepared and want to engage in innovative research working with one or more Institute faculty members. This research often results in one or more publications in journals or conference proceedings.

Students who select the thesis option must work with a faculty adviser to produce a thesis proposal. The proposal, along with a Proposal to Enroll in MSCSS Capstone, is submitted to the Graduate Committee for approval.

After the Graduate Committee approves the proposal, the student registers for TCSS 700. A total of 10 credits of TCSS 700 must be completed to meet the degree requirements. These units are typically taken in two quarters. TCSS 700 is graded credit/no credit so the course does not count toward the student's grade-point average.

Capstone Project Option
The capstone project option was designed for graduate students who want to work on a significant technical project as part of their graduate program. Capstone projects typically involve the design, implementation and testing of a moderate to large programming project.

Students who select the capstone project option must work with a faculty adviser to produce a project proposal. The proposal, along with a Proposal to Enroll in MSCSS Capstone form, is submitted to the Graduate Committee for approval.

After the Graduate Committee approves the proposal, the student registers for TCSS 702. A total of 10 credits of TCSS 702 must be completed to meet the degree requirements. These units are typically taken in two quarters.
TCSS 702 is graded the same way core and elective courses are graded so the grades count toward the student's grade-point average.

Course-Only Option
Students may choose to take an additional three 500-level electives (15 credits) to satisfy their degree requirements in place of capstone course work. This option is provided for students who are primarily interested in a broader education in computer science. Ten credits of 400-level course work may be substituted for this option.

Curriculum
The courses a student may take to satisfy the requirements for the MS degree fall into five categories:

- Prerequisite courses (required of students lacking the equivalent of an undergraduate degree in computer science)
- Core courses (required of all students)
- Elective courses (required of all students)
- Capstone course (required of thesis and project option students)
- Independent study

Prerequisite Courses: Undergraduate
Students who enter the MS program without a strong computer science background will be advised and required to take undergraduate computer science courses that will prepare them for graduate studies in the field on a case-by-case basis. In general, students should have adequate course work or work experience in the following areas before starting to take graduate-level courses in the MSCSS program:

- Object-oriented programming
- Discrete mathematics
- Data structures
- Analysis of algorithms

Course work/experience in the following is also encouraged:

- Computer organization and architecture
- Database management systems
- Project management and software engineering
- Operating systems

At the time of admission, students will be notified of any required prerequisite courses.

Core Courses
All graduate students are required to take three core courses:

- TCSS 543 Advanced Algorithms or TCSS 540 Theory of Computing
- TCSS 558 Applied Distributed Computing
- TCSS 598 Research Seminar (typically taken over three quarters)

Core course are typically taken after any required prerequisites have been completed.

Elective Courses
The number of elective courses a student is required to take depends on the program of study the student has chosen. For students in the course-only option, 30 credits of elective courses are required. Students may request permission from the graduate committee to apply for independent study credit (TCSS 600) toward this total. Most electives will be taken at the 500-level, however, students in the course-only option may take 10 credits of approved 400-level courses and students in the project or thesis option may take five credits of 400-level courses. Graduate students should request prior approval from the Graduate Committee before registering for any 400-level courses.

Independent Study (TCSS 600)
After taking the core courses, a student may develop a strong interest in a specific area of computer science that is not covered in any elective course being offered. In this case, the student may propose to substitute an independent study course for an elective course. To do this, the student must first find a faculty member who will supervise the independent study and then submit the proposed plan of study to the Graduate Committee for approval in the quarter prior to being undertaken.

Thesis and Capstone Project Courses (TCSS 700 and 702)
Students enrolled in the thesis option are required to take 10 credits of TCSS 700 and students in the project option are required to take 10 credits of TCSS 702. These courses are taken in place of 10 credits of elective courses. If a student chooses to switch from the thesis or project option to the course-only option, the credits from 700 and 702 will not count as elective credits.

Admission Requirements
Admission to the master of science in Computer Science and Systems is competitive and based on acceptance by the UW Graduate School and the Institute of Technology graduate committee.

Requirements

- Baccalaureate degree from an accredited institution of higher learning with at least a 3.0 GPA for the last 90 credits (quarter system).
- Competitive GRE scores on a test taken within the last five years
- Completed application forms
- Personal statement
- Résumé
- Three letters of recommendation

Those interested in enrolling in the master of science in Computer Science and Systems should make an appointment with an adviser by calling 253-692-5860. Details about the curriculum and prerequisites, along with application materials and admissions requirements, are available on the Institute's website at tacoma.uw.edu/tech.

Graduate Nonmatriculated (GNM) Status

Graduate nonmatriculated (GNM) enrollment is beneficial to those who are interested in professional development or beginning work toward a graduate degree. A GNM is a post-baccalaureate student who wants to take graduate courses, but who has not been admitted by the Graduate School to a degree program. GNM status allows qualified students to earn graduate credits in an area of interest. A total of 12 credits can apply toward a graduate degree. This status is not available to international students on F-1 visas. Acceptance as a GNM student does not imply nor does it confer priority for later admission to the Graduate School for pursuit of a degree. GRE scores are not required to apply for GNM status.

Satisfactory Progress

Students are required to maintain satisfactory progress meeting the university and program standards relative to scholarship and performance in pursuit of the master's degree including each of the following:

- Maintain a cumulative 3.0 GPA
- Earn a quarterly GPA of 3.00 or higher
- Earn a grade of 2.7 or higher in each required course
- Make adequate progress with the thesis or capstone project, if pursuing this option, as demonstrated by the faculty adviser or committee chair, including interest, responsibility in working toward completion of project or thesis, and number of credits taken before a proposal has been approved.
TCSS 523
Data Compression
5 credits
Covers a broad range of compression techniques, as well as their implementations in today's compression standards. Techniques include block-based codes, dictionary coding, predictive coding, vector quantization, and transform coding, including wavelets. Covers selected standards for text, image, video and audio compression.

TCSS 540
Theory of Computing
5 credits
Covers computational models including finite automata, regular expressions, context-free grammars, pushdown automata, Turing machines and techniques for analyzing them. Basic computability theory and undecidability, computational complexity theory and NP-completeness.

TCSS 541
Concurrency in Computation
5 credits
Covers the design and verification of concurrent algorithms, both for processes using shared variables and synchronization primitives and for processes using message exchange. Includes axiomatic semantics for and correctness proofs of sequential and concurrent programs, and concepts of synchronization, indivisible actions, safety, progress, and fairness.

TCSS 543
Advanced Algorithms
5 credits
Prepares students for analysis and use of advanced algorithms. Covers advanced graph, number-theoretic (with applications to cryptography), online, approximation (with performance guarantees) and probabilistic algorithms. Covers Turing machines and NP-complete. Not available for elective credit.

TCSS 552
Interaction Design
5 credits
Examines the design of interactive products and services supporting human activity in a variety of settings. Focuses on user inquiry, sketching, prototyping, brainstorming, and usability testing. Cultivates reflective practice within a human-centered design paradigm.

TCSS 555
Data Mining
5 credits
Covers methods and systems for data mining and discovering knowledge from data; mining system architectures; concept learning; text and multimedia mining; decision trees; Bayesian and belief networks; neural networks; case-based reasoning; cluster and multidimensional analysis; tools to build new applications; knowledge discovery.

TCSS 558
Applied Distributed Computing
5 credits / Prerequisites: TCSS 445 and TCSS 372
Covers techniques and concepts associated with constructing software that is distributed, reliable, efficient and extensible; programming multi-threaded applications, communication among objects on different computers, creating a server accessed by multiple clients, using common object design patterns, locating and tailoring components and more. Not available for elective credit.

TCSS 559
Web Services
5 credits / Prerequisite: TCSS 558
Investigates a service-oriented computing paradigm for use with the Internet and web services. Includes comparisons of distributed computing paradigms, enterprise application integration, service oriented architecture, web services concepts, web services technologies, service coordination protocols, service compositions and service applications.

TCSS 566
Computer-Mediated Communications
5 credits
Examines the uses of computer and communication technologies, including application implementations, for supporting human-to-human communications in both personal and social contexts. Includes topics from sociological and psychological aspects needed to design effective systems. Involves development of a significant collaboration application and research paper.

TCSS 570
Introduction to Parallel Computing
5 credits / Prerequisite: TCSS 543
Covers parallel architectures, interconnection networks, and embeddings; fundamental communication operations; performance and scalability metrics; parallel programming paradigms, message-passing programming in MPI, and shared-address-space programming in threads; parallel algorithms for sorting, searching, matrix problems, graph problems, and dynamic load balancing.

TCSS 581
Cryptography
5 credits / Prerequisite: TCSS 543
Covers simple ciphers, block and stream ciphers, attacks, public-key ciphers, electronic signature, cryptographic algorithms and real-world examples.

TCSS 588
Bioinformatics
5 credits / Prerequisite: TCSS 543
Covers methods and systems for the application of computer science to biology, medicine, genomics and proteomics, biological domain background, machine learning, statistical learning, hidden markov models, case-based reasoning, neural networks, semantic approaches, evolutionary computing, stochastic grammars and linguistics and grid computing.
Faculty

Robert Friedman
Director and Associate Professor

Assistant Professor; Computer Engineering;
Ph.D., University of British Columbia, 2003

Orlando Baiocchi
Professor; Electrical Engineering; Ph.D.,
University College in London, 1976

Senjuti Basu-Roy
Assistant Professor; Computer Science; Ph.D.,
University of Texas at Arlington, 2011

Donald Chinn
Associate Professor; Computer Science; Ph.D.,
University of Washington, 1995

Sam Chung
Associate Professor; Computer Science; Ph.D.,
University of South Florida, 1995

Larry A. Crum
Professor Emeritus; Electrical Engineering;
Ph.D., Marquette University, 1971

Ling Ding
Assistant Professor, Institute of Technology;
Computer Science; Ph.D., University of Texas
Dallas, 2012

George Mobus
Associate Professor; Computer Science; Ph.D.,
University of North Texas, 1994

Moshe Rosenfeld
Professor Emeritus; Mathematics; Ph.D.,
Hebrew University of Jerusalem, 1967

Jie “Jenny” Sheng
Assistant Professor; Electrical Engineering;
Ph.D., University of Alberta, 2002

Josh Tenenberg
Professor; Computer Science; Ph.D.,
University of Rochester, 1988

Ankur Teredesai
Associate Professor; Computer Science;
Ph.D., University at Buffalo, State University of
New York, 2002

Daniel Zimmerman
Senior Lecturer; Computer Science; Ph.D.,
California Institute of Technology, 2002
Student learning is our primary goal; we prepare educators to meet the needs of all learners in our diverse communities. The Education Program is dedicated to discovering and teaching the best practices in instruction and school leadership. We strive to be at the forefront in meeting the educational needs of students in the South Puget Sound region.

About the Degree Program

The master of education (M.Ed.) degree is organized under the umbrella of the Education Program at UW Tacoma. Within that framework, we offer the following M.Ed. programs:

- K-8 Teacher Certification with Special Education
- K-8 Teacher Certification with English Language Learners
- Secondary Teacher Certification in Science or Mathematics
- General Master of Education for Practicing Educators
- Educational Administrator

Programs vary in length, focus and requirements. Some are part-time and some are full-time. Upon acceptance, all students are assigned an adviser to find the most reasonable and efficient means of reaching their desired goal.

Degree Requirements

Each M.Ed. student must satisfy both Graduate School and Education Program minimum degree requirements. It is the responsibility of each graduate student to complete the required course work as stipulated for each degree option.

Graduate School

The Graduate School’s minimum requirements for the master of education (M.Ed.) degree are summarized below. A complete list and explanation of the requirements can be found on the following web page:

www.grad.washington.edu/students/masters/

The Graduate School supports all department requirements and will not authorize graduation unless the department has indicated that the student has satisfied the requirements.

Students are encouraged to visit the Education Program office or website (tacoma.uw.edu/education) for assistance in understanding the various program requirements, obtaining forms, or locating other services on campus. Each student must meet with an adviser to develop a program plan that will lead to the completion of degree requirements.

K-8 Teacher Certification

The master of education program with a focus on K-8 Teacher Education features an introduction to teaching in all areas of the elementary and middle school curriculum, preparation for non-curricular aspects of the teacher’s role, reflection on contemporary issues in education and frequent supervision. Cooperating teachers and university faculty work together to provide students with a program that ensures integration of course content with hands-on experience. Student interns will begin their Autumn Quarter Field Experience the first day of public schools, or earlier to attend building orientations or professional development days. Please note you may need to start your Field Experience as early as mid to late August.

Students may choose to earn certification in K-8 Elementary Education with a Special Education or English Language Learners (ELL) endorsement.

Admitted students progress as a cohort community through four quarters (five quarters for those seeking special education) of full-time study beginning in summer quarter. Upon completion of all certification requirements, one may be recommended to the state for a teaching certificate. The additional credits required to obtain the master’s degree may be taken in the evening and are conducive to a working teacher’s schedule.

This program is based on the most current educational research and theory. Our goal is to ensure that our graduates have a positive impact on student learning. Upon successful completion of all program requirements, students will earn a master of education degree and a Washington state residency teacher certificate.

**Admission Requirements**

Admission to the master of education program requires that applicants be simultaneously admitted to the UW Tacoma Education program and the UW Graduate School. To qualify for consideration, applicants must:

- Have earned a bachelor's degree from a regionally accredited university or college.
- Have earned a cumulative grade point average of at least 3.0 calculated from the final 90 graded quarter credits or 60 graded semester credits. Applicants who do not meet this requirement may still be eligible for admission depending on the quality of their complete application file.
- Submit one official sealed transcript from each collegiate institution attended.
- Have completed courses in the subject areas listed in the chart below. All courses must be 100-level or above and must have a grade of 2.0 or better.
- Submit the program selection document.
- Submit a personal goal statement. For goal statement requirements and guidelines, please go to [tacoma.washington.edu/education-program/admissions-0](http://tacoma.washington.edu/education-program/admissions-0).
- Submit a résumé of professional experience, educational background and other relevant information including volunteer experience.
- Submit two confidential, sealed letters of recommendation from individuals who can speak to your commitment, academic ability and potential as a teacher. (You must use the form on our website.)
- Have experienced a minimum of 40 hours in a public school classroom within the last five years.
- Submit scores for the Washington Educator Skills Test-Basic (WEST-B). For more information, go to [www.wesinc.com](http://www.wesinc.com).

**Program Plans**

Program plans are available on our website at [tacoma.washington.edu/education-program/admissions-0](http://tacoma.washington.edu/education-program/admissions-0).

**K-8 Certificate and Degree Requirements**

In addition to the state of Washington certification requirements, all students must complete the following course work:

- TEDUC 463 Arts in the Schools
- TEDUC 483 Health Education and Child Abuse Issues

(The above courses represent four full-time quarters of study beginning in summer quarter.)

**Additional Degree Requirements**

(15 credits required)

- Complete the following courses:
  - TEDUC 501 Foundations of Education: Policy, Ethics and Philosophy
  - TEDUC 507 Portfolio
  - TEDUC 510 Science Methods
  - TEDUC 520 Multicultural Education
  - TEDUC 538 Classroom Assessment
  - TEDUC 541 Literacy Instruction for Diverse Students
  - TEDUC 548 Classroom Management
  - TEDUC 549 Teaching Students with Special Needs
  - TEDUC 554 Language Arts
  - TEDUC 555 Literature and Content Reading
  - TEDUC 560 Math Methods I
  - TEDUC 561 Math Methods II
  - TEDUC 562 Social Studies Methods
  - TEDUC 587 Field Experience I
  - TEDUC 588 Field Experience II
  - TEDUC 589 Field Experience III
  - TEDUC 590 Reflective Seminar

**K-8 CERTIFICATION PREREQUISITE COURSE REQUIREMENTS**

Students may qualify for additional endorsements based on a passing score on the WEST-E for their endorsement area. For more information on the WEST-E exam, go to www.west.nesinc.com.

Secondary Education

The master of education program with a focus on secondary education partners with local schools to prepare future teachers to help students in middle and high school gain knowledge and success in science or mathematics. The preparation of secondary teachers in science or mathematics education addresses among the most significant gaps in the teacher corps today.

It is a part-time or full-time program for those who hold a bachelor's degree. With the exception of the field experience component, the program is offered in the evening. It is a 56-credit program that begins in summer quarter.

This program is based on the most current educational research and theory. Our goal is to ensure that our graduates have a positive impact on student learning. Upon successful completion of all program requirements, students will earn a master of education degree and a Washington state residency certificate with an endorsement in science, earth and space science, biology or mathematics for grades 5-12.

Admission Requirements

Admission to the master of education program requires that applicants be simultaneously admitted to the UW Tacoma Education program and the UW Graduate School. To qualify for consideration, applicants must:

- Have earned a bachelor's degree from a regionally accredited university or college.
- Have earned a cumulative grade point average of at least 3.0 calculated from the final 90 graded quarter credits or 60 graded semester credits. Applicants who do not meet this requirement may still be eligible for admission depending on the quality of their complete application file.
- Submit one official sealed transcript from each collegiate institution attended.
- Have completed prerequisite coursework. Courses must be 100-level or above and you must earn a grade of 2.0 or better. Submit a prerequisite worksheet for either science or mathematics with your application materials (available at tacoma.uw.edu/education-program/admissions-requirements-3).
- Submit the program selection document.
- Submit a personal goal statement. For goal statement requirements and guidelines, please go to tacoma.uw.edu/education-program/admissions-requirements-3.
- Submit a résumé of professional experience, educational background and other relevant information including volunteer experience.
- Submit two confidential, sealed letters of recommendation from individuals who can speak to your commitment, academic ability and potential as a teacher. (You must use the form on our website.)
- Have experienced a minimum of 40 hours in a public school classroom within the last five years. The classroom should closely match the subject and age level you wish to teach.
- Submit scores for the Washington Educator Skills Test-Basic (WEST-B). For more information, go to www.west.nesinc.com.
- Submit WEST-E scores (in content area). For more information, go to www.west.nesinc.com
- Personal interview: Be prepared for a March interview which will be conducted in a group format. You should prepare as you would for a job interview. This means you should dress as you would for teaching. In addition to responses to interview questions, faculty will be considering communication skills, professional behavior and your current perspective regarding teaching. This is an opportunity for you to shine as a prospective member of the cohort and to demonstrate professional skills. Please consider this in your planning and preparing for the interviews. The interview is required as part of the admissions process.

Program Plans

Program plans are available on our website at tacoma.uw.edu/education-program/program-plan-7.
Master of Education for Practicing Educators

This degree program is designed to build upon the skills, knowledge and commitment of practicing educators. The focus is on K-12 teachers and their continuing professional development. Underlying is a vision of the teacher as one who is broadly educated and committed to learning, skilled and commited to the craft of teaching and entrusted to nurture the greatest human potential in every learner.

The program is designed as a part-time program of study. Generally, the core and study-option courses are completed in the first year; students complete their elective courses and culminating experience in the second year. To meet the needs of students who are employed during the weekday, courses follow an evening schedule, though some courses may be offered on Saturdays. For current information visit us online at tacoma.uw.edu/education.

Degree Requirements

There are four required program components:

1. The core courses provide the background, perspectives and resources necessary for in-depth work in an area of specialization. They prepare individuals to understand the basics of theory and research in education. All students are required to complete a total of 12 quarter credits as follows:

   TEDUC 501 Foundations of Education: Policy, Ethics and Philosophy (3)
   TEDUC 502 Learning about Learning (3)
   TEDUC 503 Understanding Learning (3)
   TEDUC 504 Educational Measurement (3)
   TEDUC 505 Understanding Educational Research (prerequisite: TEDUC 503) (3)

2. The study option provides focused study in one specialized area of education. Students must select one study option below and complete required courses.

   ■ Curriculum and Instruction
   ■ Special Education
   ■ Student Academic and Social Success
   ■ Teaching English Language Learners (TELL)

   TEDUC 599 Culminating Project (3)
   TEDUC 599 Culminating Project (3)

3. The education electives provide an opportunity to explore areas of individual interest. Courses must be selected from offerings within the Master of Education program and in consultation with an adviser. Note: Only required for SASS and TELL study options.

4. Each student will participate in a Culminating Experience. This component of the program allows students to gain more applied knowledge of the field, and synthesize prior learning. Note: The Culminating Experience for the Special Education study option requires a full-time, daytime practicum during spring quarter.

Admission Requirements

Admission to the Master of Education program requires that applicants be simultaneously admitted to the UW Tacoma Education program and the UW Graduate Admissions. To qualify for consideration, applicants must:

■ Have earned a bachelor’s degree from an accredited institution.

■ Have a grade point average of 3.0 calculated from the final 90 graded quarter credits or 60 graded semester credits. Applicants who do not meet this requirement may still be eligible for admission depending on the quality of their complete application file.

■ Submit one official sealed transcript from each collegiate institution attended.

■ Submit a personal goal statement. For goal statement requirements and guidelines, please go to tacoma.uw.edu/education-program/admissions-requirements.

■ Personal data form.

■ Submit two confidential, sealed letters of recommendation. (You must use the form on our website.)

■ Submit a teaching certificate or have equivalent teaching experience.

Application Procedures

Applicants must apply online to the UW Graduate School and also submit required documents to the UW Tacoma Education program. The application checklist is a helpful document to ensure that all items are complete. No action can be taken until all materials are received.
Educational Administrator

The program is a full-time course of study for potential school leaders. Admitted students progress as a cohort community through four quarters of full-time study and internship beginning in summer quarter. Upon successful completion of all certificate requirements, students will earn a residency principal or program administrator certificate.

Leadership, management and instruction are three distinct components that are emphasized in each of the four quarters. Course work is taught in synchrony with the school’s administrative calendar. The curriculum is grounded in best practice as determined by theory and research.

Admission Requirements

Admission to the master of education program requires that applicants be simultaneously admitted to UW Tacoma Education program and the UW Graduate School. To qualify for consideration, applicants must:

- Have earned a bachelor’s degree from an accredited institution.
- Have a grade point average of 3.0 calculated from the final 90 graded quarter credits or 60 graded semester credits. Applicants who do not meet this requirement may still be eligible for admission depending on the quality of their complete application file.
- Submit one official sealed transcript from each collegiate institution attended.
- Submit a personal goal statement of approximately two pages describing how graduate study will enhance your professional growth. The goal statement is an important part of the application because it allows you to share a part of yourself that we typically would not see in your GPA.
- Submit a résumé of professional experience, educational background and other relevant information including volunteer experience.
- Submit the Internship Agreement form.
- Submit three confidential sealed letters of recommendation, one of which must come from the sponsoring principal/administrator. (You must use the form on our website.)

Educational Administrator Certificate Requirements

In addition to the state of Washington Residency Principal or Program Administrator Certificate requirements, all students must complete the following course work:

- TEDADM 570 Curriculum and Instruction
- TEDADM 571 Introduction to Leadership
- TEDADM 572 School Law for Educational Administrators
- TEDADM 573 Supervision of Instruction
- TEDADM 574 Issues in Educational Leadership
- TEDADM 575 Leadership in a Changing Society
- TEDADM 576 School Wide Assessment
- TEDADM 577 School Finance and Educational Policy
- TEDADM 578 Group Leadership in Educational Administration
- TEDADM 579 Human Resources
- TEDADM 580 Reflective Seminar
- TEDADM 581 Internship

Additional requirements for those not holding a master’s degree (12 credits required):

- TEDUC 501 Foundations of Education: Policy, Ethics and Philosophy
- TEDUC 502 Learning About Learning
- TEDUC 503 Educational Measurement
- TEDUC 504 Understanding Educational Research

Program Plans

Program plans are available on our website at tacoma.uw.edu/education-program/program-plan-8.

Course Descriptions

For the most current course information, please consult the Education program website: tacoma.uw.edu/education.

Educational Administrator

TEDADM 570 Curriculum and Instruction
4 credits
Focuses on curriculum: knowledge and strategies for selecting new and implementing current district academic programs, and instruction: envisioning and enabling instructional and auxiliary programs for improvement of teaching and learning.

TEDADM 571 Introduction to Leadership
2 credits
Begins the academic, exploratory, and experiential process of leadership in educational settings. Introduces students to the key components of leadership in academic settings and begins the process of cohort formation that establishes the learning environment for the program.

TEDADM 572 School Law for Educational Administrator
3 credits
Explores Federal and State law that principals and district administrators are responsible to know and administer, including special education.

TEDADM 573 Supervision of Instruction
3 credits
Advances the knowledge of curriculum and instruction models into the domain of supervision of individuals and groups of staff in instruction. Assists staff in designing and implementing professional self-improvement goals.

TEDADM 574 Issues in Educational Leadership
3 credits
Focuses on contemporary issues confronting school building or district educational leaders, such as educating increasing numbers of students who are at-risk, advancing social justice in the schools, ensuring safe and orderly school environments, crisis management, and conflict resolution.

TEDADM 575 Leadership in a Changing Society
3 credits
Addresses the issue of how one in a position of educational leadership understands and copes with changes in cultures, and socio-political environments as they impact schools.
TEDADM 576
School-Wide Assessment
3 credits
Surveys breadth of assessment issues in school administration, including the role of assessment in the reform movement and school-wide improvement initiatives, classroom-based assessment, the importance of accurate and timely data collection, integral organizational and communication about assessment in the school community, and reducing achievement gaps in diverse populations.

TEDADM 577
School Finance and Educational Policy
3 credits
Addresses issues of school finance from national, regional, and local perspectives. Develops with district and school budgeting, fund raising, levies, ASB and athletic funding issues, as well as legislative relations.

TEDADM 578
Group Leadership in Educational Administration
3 credits
Focuses on the topics of group dynamics, group facilitation, meeting design, oral communications, and the art of persuasion. Topics include group leadership strategies and skills necessary to lead organizational change efforts, to effectively elicit and manage creativity and diversity, and to manage conflict.

TEDADM 579
Human Resources
4 credits
Addresses critical role of management of human resources that is key to effective educational administration. Topics include hiring, mentorship, collective bargaining, strategic staff planning, communication patterns, justice issues, and evaluation of staff.

TEDADM 580
Reflective Seminar for Administrators
1-3 credits, max. 3
All interns meet and reflect on field experience, providing insight and support for one another as well as referring to evidence based best practices discovered through the literature.

TEDADM 581
Internship for Administrators
2-4 credits, max. 14
Field-based practicum that focuses on the application of theoretical and research knowledge in instruction, management, and leadership.

Secondary Mathematics Education

TEDSM 505
Teaching and Learning Mathematics in the Middle Grades
3 credits
Examines methods for teaching mathematics in grades 5-8. Emphasizes pedagogy, curriculum, and assessment practices that promote equity and are aligned with state and national content and teaching standards. Meets the needs of pre-service teacher candidates and in-service teachers seeking knowledge in middle level mathematics.

TEDSM 517
Secondary Math Methods I
3 credits
Examines research on mathematical learning and achievement of middle school and high school youth. Covers psychological, institutional, community, and political factors that support and challenge mathematical learning. Covers content strands aligning to state and national standards including rational number, proportional reasoning, and algebra/function.

TEDSM 519
Secondary Math Methods II
3 credits
Examines research-based methods for teaching mathematics at the secondary level. Emphasizes pedagogy, curriculum, and assessment practices that promote equity and support active mathematics learning and advancement for diverse students.

Secondary Science Education

TEDSM 511
Secondary Science Methods I
3 credits
Builds on students’ content knowledge in the sciences and helps them use well researched approaches to teach that content to secondary students. Examines scientific literacy, inquiry as a pedagogical practice, and general best practices with respect to laboratory safety.

TEDSM 512
Secondary Science Methods II
3 credits / Prerequisite: TEDSM 511
Uses researched approaches to build on pedagogical content knowledge in the sciences and education to develop grade 5-12 curriculum and teaching skills. Uses the National Science Education Standards to explore scientific literacy, technology, science and society, reading and writing in science education, and equity and inclusion in science education.

Special Education

TEDSM 520
Multicultural Issues in Special Education
3 credits
Provides an analysis of multicultural and bilingual perspectives in education with an emphasis on issues relevant to special education. Addresses issues and trends affecting the education of diverse students in special education. Emphasized research based practices for serving culturally and linguistically diverse students.

TEDSP 539
Introduction to Exceptionalities
3 credits
Provides an overview of all disabling conditions including low and high incidence disabilities. Examines the nature of various disabilities, program implications, and the continuum of delivery options available to special education students.

TEDSP 540
Reading Methods and Interventions
3 credits
Utilizes theory, research and validated methods for designing literacy instruction. Focuses on effective teaching for beginning and struggling readers. Includes instructional design, assessment and monitoring progress with additional attention to reading in special education contexts. Offered jointly with T EDUC 541.

TEDSP 542
Structuring the Classroom for Success
3 credits
Focuses on how to create a well-managed classroom and school environment that supports students’ personal growth and promotes academic success. For teachers of at-risk/mainstreamed students Addresses alternative delivery systems and strategies for meeting individual needs.

TEDSP 543
Math Methods and Interventions
3 credits
Utilizes theory, research and validated methods for designing effective mathematics instruction for academic interventions and support for students struggling in mathematics. Includes instructional design, assessment and monitoring progress with additional attention to math learning in special education contexts. Offered jointly with T EDUC 543.

TEDSP 544
Special Education Assessment and Evaluation
3 credits
Explores the main purposes for educational assessment of students with disabilities including the social, legal, and ethical considerations involved in educational assessments. Addresses the roles and responsibilities of each member of the assessment team. Discusses various measurements including standardized tests, norm criterion, referenced, and curriculum-based assessment.

TEDSP 545
Introduction to Emotional Behavioral Disabilities
3 credits
Examines the theories relative to teaching children and youth with emotional behavioral disorders. Discusses factors such as family, biological, school, and other environmental influences. Addresses classroom strategies based on student assessment and evaluation, including functional behavior assessment and positive behavior intervention plans.
T EDSP 546 Collaborative Consultation
3 credits
Focuses on the need for collaboration between general and special educators brought on by current changes in both instructional delivery systems for students with disabilities, and in the law. Overview of the knowledge and skills necessary to become a full participant in school-based collaboration model.

T EDSP 547 Special Education and the Law
3 credits
Examines the complex set of laws, regulations, and court cases that have built up in recent years that govern the education of students with disabilities. Comprehensive introduction to the legal issues in special education, approached through the larger context of education law.

T EDSP 548 Special Education Classroom Management
3 credits
Prepares special education teachers with skills in research-based problem prevention and problem-solving strategies that will enable them to promote academic success for students with special needs. Addresses theoretical implications and applications of evidence-based behavior management strategies.

T EDSP 550 Special Education Principles and Practices I
3 credits
Provides in-depth exploration of disabling conditions with emphasis on the etiology of high incidence disabilities. Covers theoretical, conceptual and empirical bases to meet the needs of diverse students. Addresses legislation including the IDEA, Section 504 of the Vocational Rehabilitation Act, and the Washington Administrative Code: Special Education Rules and Regulations.

T EDSP 551 Special Education Principles and Practices II
3 credits
Provides the knowledge and skills to design research-based program options for students with disabilities and to evaluate the efficacy of a continuum of service delivery options. Includes issues unique to special educators such as development and implementation of individual education and transition plans, scheduling, and working with paraprofessionals.

T EDSP 587 Special Education Field Experience and Reflective Seminar I
1-5 credits, max. 5
Observation and evaluation of research-based practices in assigned public school classrooms under University supervision with accompanying guided inquiry into the nature and social context of teaching and learning. Reflective seminar component draws heavily upon observations and experiences from interns' site placements.

T EDSP 588 Special Education Field Experience and Reflective Seminar II
1-5 credits, max. 5 / Prerequisite: T EDSP 587
Observation and participation practicum in assigned public school classrooms under University supervision with accompanying guided inquiry into the nature and social context of teaching and learning. Reflective seminar integrates evidence-based practices with experiences from interns' site placements.

T EDSP 589 Special Education Field Experience and Reflective Seminar III
1-12 credits, max. 12 / Prerequisite: T EDSP 588
Culminating classroom internship in assigned public school classrooms under University supervision with accompanying guided inquiry into the nature and social context of teaching and learning. Experiences in the site placements focus on synthesis of planning, management, teaching and assessment of the learning environment.

T EDSP 590 Special Education Reflective Seminar
1-3 credits, max. 3
Provides guided inquiry into the nature and social context of teaching and learning in the special education classroom, as contrasted with the more pragmatic content of other components of the Teacher Certification Program.

T EDSP 591 Special Topics in Education
1-9 credits, max. 9
Topics will vary. Offered jointly with T EDUC 591.

T EDSP 593 Practicum Seminar I
3 credits / Prerequisite: Completion of core and strand requirements or permission of instructor
Provides the background, knowledge, and opportunity to explore research-based practices with students in classrooms. Offered jointly with T EDUC 593.

T EDSP 594 Special Education Seminar II: Collaboration in the Education Community
3 credits
Explores several avenues to successful collaborative problem-solving approaches to meeting the needs of students with disabilities who are receiving their instruction in the general-education classroom.

T EDSP 595 Induction Seminar For Special Educators
3 credits
Analyzes retention issues affecting beginning special education teachers. Synthesizes research-based skills and knowledge. Evaluates procedures for finding a mentor and best practices for long-term success. Examines support systems for special educators with regard to expectations of schools, legal expectations, and the needs of students in today's K-8 schools.

General courses

T EDUC 463 Arts in the Schools
3 credits
Explores the domain of the arts, particularly music, drawing, painting, and three dimensional expressions such as pottery, sculpture and architecture, to find means of better integrating arts and arts instruction into the school curriculum.

T EDUC 471 Diversity and Equity in Schools and Curriculum
3 credits
Examines the instructional methods and multicultural understandings necessary to address the learning needs of a diverse student population in a globalized society.

T EDUC 482 School and Society
3 credits
Introduces contemporary issues in schools and their historical genesis starting with the successes and challenges in classrooms, schools, and communities today, tracing their roots back in time. Provides an overview for those considering becoming teachers or wishing to become more informed citizens.

T EDUC 483 Health Education and Child Abuse
3 credits
Theoretical and practical foundation for designing and integrating health instruction into the K-8 curriculum using a holistic approach that involves mental, physical, and affective domains. Crucial background information about educators’ responsibilities regarding detection and reporting of child abuse and neglect under Washington State law.

T EDUC 490 Service Learning Practicum in Education
3 credits
Service-learning approach introduces undergraduate students to the profession of teaching. Examines experiences and responsibilities in teaching/learning through directed K-8 classroom observations, and university instruction, using individual/group reflection. Required for completing IAS Education Minor. Meets 40 hours of experience, prerequisite for entry into UW Tacoma Teacher Certification Program. Credit/no credit only.
T EDUC 495
Environmental Education
3 credits
Examines developments in environmental education from practical, curricular, and philosophical perspectives. Focuses on integrating environmental education with any K-12 science curriculum. Examines current programs and curricula and considers the role of formal education in generating environmental awareness and stewardship.

T EDUC 501
Foundations of Education: Policy, Ethics and Philosophy
3 credits
Provides in-depth examination of current issues in public schools focusing on the life and decisions of professional education practice in classrooms, schools, and communities. Describes K-12 schools governance at all levels, ethical decision making in the system, and philosophical issues including the purpose of schools in contemporary society.

T EDUC 502
Learning About Learning
3 credits
Explores behaviorist, cognitive, constructivist, and sociocultural theories of learning. Analyzes and critiques each theory as it applies to classroom teaching. Focuses on the psychological and socio-psychological contexts within which students conduct the educational process.

T EDUC 503
Educational Measurement
3 credits
Introduces elements of measurement essential to good teaching. Emphasizes critical thinking about assessment instruments, evaluation of assessment instruments, innovative curricula, and other instructional materials. Focuses on initial knowledge and skills in the evaluation of published research (e.g., qualitative, quantitative, action, program evaluation), that is more fully developed in T EDUC 504.

T EDUC 504
Understanding Educational Research
3 credits / Prerequisite: T EDUC 503
Introduction to research in the behavioral and social sciences relevant to study of education. Emphasizes the evaluation of research literature and the applicability of research findings.

T EDUC 507
Portfolios Development
1 credit
Prepares pre-service teachers in the development, structure, and purpose of a portfolio. Introduces the mission and values of the program and the alignment of program goals with state and national standards. Identifies elements of a portfolio. Examines critical reflection, application of evidence-based practice, and assessment of teaching methods.

T EDUC 510
Science Methods: K-8
3 credits
Examines how students learn science and explores research-based models of science instruction and assessment. Students design, implement, and evaluate instructional strategies that facilitate students’ learning of the scientific process.

T EDUC 513
Current Issues for Teachers of Science
3 credits
Examines developments in environmental education, the role of formal education in generating environmental awareness and stewardship.

T EDUC 514
Teaching the Science of Flight and Space Travel
3 credits
Explores instructional strategies that facilitate students’ learning of science in relation to the Washington Science Standards. Investigates physical concepts in order to transition from flying in air to flying in space. Explores the basics of rocket design, creating moon colonies, and Mars missions.

T EDUC 516
Teaching Science as Inquiry
3 credits
Enhances teachers’ pedagogical knowledge and skills in science with a hands-on methods course for practicing K-12 teachers. Explores models of inquiry and instructional strategies that facilitate students’ learning of scientific. Addresses the Washington State Essential Academic Learning Requirements.

T EDUC 518
Teaching Science Using Technology
3 credits / Prerequisite: T EDUC 510 and T EDUC 511, or T EDUC 512 and T EDUC 566
Hands-on introduction to technological resources for science instruction. Covers new technology and evaluating how technology is used in classroom instruction. Emphasizes on curriculum development using technology as a primary means of instruction. Addresses the Washington State Essential Academic Learning Requirements.

T EDUC 520
Multicultural Education
3 credits
Explores major theoretical, political, and pedagogical issues in multicultural education. Studies institutional and cultural discrimination such as race, ethnicity, class, sexuality, gender, disability, and language. Examines the relationship between schooling and the reproduction of stratification and discrimination, as well as examines curricular and pedagogical approaches to address these variables.

T EDUC 521
Education and Inequity
3 credits
Builds upon the theoretical principles in T EDUC 520. Examines in more depth the dimensions through which power and oppression operate in American education, such as, race, ethnicity, language background, religion, sexuality, disability, and gender. Develops theoretical and professional knowledge to deepen analytical framework in classroom practice.

T EDUC 522
Instructional Issues in Multicultural Classrooms
3 credits
Explores culturally sensitive, inclusive pedagogical techniques; assessments of racial, ethnic, gender, and class attitudes; insight into ethical and political issues in education and multiculturalism; and skills in creating or gaining access to appropriate curricular and classroom resources.

T EDUC 523
Culture of Secondary Schools
3 credits
Systematic, research-based analysis of current practices in secondary schools, with particular emphasis on the roles and contextual influences of students, staff, parents and communities, and their influence on student achievement.

T EDUC 524
Secondary Students with Disabilities
3 credits
Covers the theoretical, conceptual, and empirical bases for pre-service secondary teachers to meet the needs of students with disabilities. Emphasizes the translation of research into practice.

T EDUC 525
Child Abuse in Schools: Legal and Ethical Issues
1 credit
Provides knowledge of the Washington Administrative Code on mandatory reporting; advice on preventative and appropriate teacher behaviors. Examines the case law and research on children and adolescents and the impact on school functioning.

T EDUC 526
Arts in The Schools
3 credits
Explores the domain of the arts, particularly music, drawing, painting, and three dimensional expressions such as pottery, sculpture and architecture, to find means of better integrating arts and arts instruction into the school curriculum.
T EDUC 528
Advanced Social Studies Methods I: Civics, Economics, Geography and History
3 credits
Analyzes current social education reform issues for practicing K-12 teachers. Focuses on current social studies education research, models of curriculum design, selecting and adopting social studies curricula, evaluation social sties curricula, and opportunities for professional development. Addresses the Washington State Essential Academic Learning Requirements.

T EDUC 529
Advanced Social Studies Methods II: Skills and Disposition
3 credits
Analyzes current social education reform issues for practicing K-12 teachers. Focuses on current social studies education research, models of instructional strategies, selecting and implementing social studies instructional strategies, evaluating the effectiveness of the strategies (e.g., student performance on classroom assessments), and opportunities for professional development.

T EDUC 530
Curriculum Inquiry
3 credits
Examines reading, writing, and thinking as it occurs in various specific and integrated content areas of the school curriculum in grades K-12. Focuses on the ideas and strategies needed to enhance instructional effectiveness across the curriculum.

T EDUC 531
Curricular Uses of Children's and Young Adult Literature
3 credits
Examines the issues and strategies in using children's and young adult literature across the curriculum in K-12 classrooms. Analyzes the variety of trade books currently available. Discussed the theory and techniques for creating a literature-based program.

T EDUC 532
Interdisciplinary Design and Instruction
3 credits
Examines pedagogical issues encountered by elementary, junior, and high school teachers who plan to develop interdisciplinary instruction.

T EDUC 533
Classroom Management in Secondary Schools
3 credits
Explores research-based strategies that enable pre-service secondary teachers to establish effective management systems and promote academic success for all students. Emphasizes strategies for creating a positive school environment, including preventing and responding to problem behavior, and improving student motivation for learning.

T EDUC 534
Process Writing Across The Curriculum
3 credits
Examines research and theories on writing development in school children, examine the relationships among reading, writing and content knowledge acquisition, and experiment with writing methods for classroom teachers.

T EDUC 535
Literacy in Secondary Schools
3 credits
Provides research base for teaching language arts to diverse secondary students including English language learners and students with disabilities. Integrates writing with literature across content areas. Addresses evaluation and modification of curricular materials. Teaches methods of evaluating student progress.

T EDUC 536
Classroom Assessment: Literacy and Numeracy
3 credits
Focuses on how to analyze current curricula and instructional strategies in literacy and numeracy and how to design effective assessment tools which assess students’ achievement in reading, writing and mathematics.

T EDUC 537
Classroom Assessment: Content Area Assessment
3 credits
Examines the curricular standards and methods of inquiry in science, social studies, health, and arts. Emphasizes how to develop curriculum, instruction, and assessment alignment in classrooms.

T EDUC 538
Classroom Assessment: Critical Issues
3 credits
Examines critical perspectives on contemporary classroom and student assessment processes by drawing on history, sociology, critical theory, and other academic traditions.

T EDUC 539
Principles of Teaching in Secondary Schools
3 credits
Provides an orientation to curriculum, instruction, assessment, classroom environment, social, and other issues for adolescents and young adults in grades 5-12. Readings, activities, and assignments are designed to develop foundational knowledge in issues in secondary teaching and to develop teacher candidates’ consciousness as a teacher.

T EDUC 540
Systems of Prevention and Strategic Supports Seminar
3 credits
Emphasizes the role teachers play in the academic, social, emotional and behavioral development of students. Focuses on best practices in sustainable systems through collaborative problem solving. Includes critical components of multi-tiered supports and proactive data-based decision making.

T EDUC 541
Reading Methods and Interventions
3 credits
Utilizes theory, research and validated methods for designing literacy instruction. Focuses on effective teaching for beginning and struggling readers. Includes instructional design, assessment and monitoring progress with additional attention to reading in special education contexts. Offered jointly with T EDSP 541.

T EDUC 542
Structuring the Classroom for Success
3 credits
For teachers of at-risk/mainstreamed students. Focuses on how a well-managed classroom and school environment supports students’ personal growth and promotes academic success. Examines alternative delivery systems and strategies for meeting individual needs.

T EDUC 543
Math Methods and Interventions
3 credits
Utilizes theory, research and validated methods for designing effective mathematics instruction for academic interventions and support for students struggling in mathematics. Includes instructional design, assessment and monitoring progress with additional attention to math learning in special education contexts.

T EDUC 544
School Law
3 credits
A broad introduction to the laws, regulations, and court decisions that directly affect the actions and decisions made by teachers and administrators, with a special emphasis on the education of students with disabilities.

T EDUC 548
Classroom Management
3 credits
Examines research-based strategies that enable pre-service teachers to establish effective management systems and promote academic success for all students. Emphasizes strategies for creating a positive school environment, including preventing and responding to problem behavior, and improving student motivation for learning.

T EDUC 549
Teaching Students with Special Needs
3 credits
Covers the theoretical, conceptual, and empirical bases for pre-service teachers to meet the needs of a diverse student population including students with disabilities, and highly capable students. Emphasizes the translation of research into practice.

T EDUC 550
Preassessment Seminar
3 credits
Provides students the knowledge and skills needed to demonstrate successfully the standards and criteria required for the individualized Personal Growth Plan (PGP), identifying professional strengths and growth areas for focus during the certification process. Credit/no credit only.
T EDUC 552 Professional Certificate Culminating Seminar
2 credits
Provides the knowledge and skills needed to demonstrate successfully the standards and criteria required for the individualized Personal Growth Plan (PGP). Identifies professional strengths and growth areas on which the student will focus during the certification process. Credit/no credit only.

T EDUC 553 Social Contexts of Adolescence: Perspectives on Culturally Diverse Youth
3 credits
Explores how the social construction of adolescence affects young people and their schooling, the relationship of the problems of adolescence to the construction of "at-risk" students, and interventions available to educators to provide adolescents with successful transitions through this period.

T EDUC 554 Language Arts
3 credits
Provides an evidence base for teaching language arts to diverse K-8 students including English language learners and students with disabilities. Focuses on research based writing instruction. Includes instruction in listening and oral language. Addresses evaluation and modification of curricular materials and progress monitoring methods.

T EDUC 555 Literature and Content Reading
3 credits
Prepares prospective teachers to analyze and acquire research-based pedagogy in reading instruction and informational texts. Prospective teachers will develop instructional designs to implement research findings in K-8 classrooms.

T EDUC 560 Mathematics Methods I
3 credits
Provides the theoretical and empirical foundation for effective mathematics instruction. Includes issues in mathematics instruction, analysis and modification of instructional materials and the design of generalizable problem-solving strategies. Includes methods for monitoring student progress and adjusting instruction to meet individual student needs. Addresses instructional content in grades K-4.

T EDUC 561 Mathematics Methods II
3 credits / Prerequisite T EDUC 560
Provides the theoretical and empirical foundation for effective mathematics instruction. Includes issues in mathematics instruction, analysis and modification of instructional materials and the design of generalizable problem-solving strategies. Includes methods for monitoring student progress and adjusting instruction to meet individual student needs. Addresses instructional content in grades 5-8.

T EDUC 562 Social Studies Methods
3 credits
Prepares prospective teachers to teach civics, economics, geography, and history. In addition to this social studies content- as required by the State of Washington—the course prepares prospective teachers to teach the skills required for and promote dispositions that support full democratic citizenship.

T EDUC 563 Cultural and Linguistic Contexts for Instructing English Language Learners
3 credits
Examines research on the social contexts of learning and teaching English as a second language. Analyzes multidisciplinary studies on culture in applied linguistics, sociolinguistics, and language policy. Understands how educational environments impact second language learners' attitudes and identities as well as teachers' instructional approaches.

T EDUC 564 Methods and Curricula in Literacy Instruction for English Language Learners
3 credits
Focuses on research findings related to oral language, literacy, and academic achievement for English language learners in the United States. Examines the theoretical underpinnings and research-based principles of various methods and curricula of second language teaching. Emphasizes effective curricula and instructional strategies.

T EDUC 565 Research and Methods in Mathematics and Science Instruction for English Language Learners
3 credits
Examines mathematics and science instruction for English learners by drawing upon theories and research findings in mathematics/science education, bilingual education, second language acquisition, and multicultural education. Examines, critiques, and develops effective instructional practices (e.g., curriculum, instruction, and assessment) that promote K-12 student advancement in mathematics and science.

T EDUC 566 Testing and Evaluation for English Language Learners
3 credits
Focuses on the research on language assessment. Examines the debates about the socially situated nature of language and the skill-based individualistic focus in current conceptualizations of language proficiency. Studies how to evaluate various aspects of language and academic performance of English learners in K-12 classrooms.

T EDUC 567 Field Experience I
1-12 credits, max. 12 / Prerequisite: Site placement
Observation and participation practicum in assigned public school classrooms under University supervision. Includes seminars that provide guided inquiry into the nature and social context of teaching and learning, drawing heavily from observations and experiences in the site placements.

T EDUC 568 Field Experience II
1-12 credits, max. 12 / Prerequisite: T EDUC 567
Practicum in public school classrooms under university supervision. Includes group instruction to demonstrate specific skills and understanding. Provides guided inquiry into the nature and social context of teaching and learning, drawn heavily from observations and experiences in the interns' site placements.

T EDUC 569 Field Experience III
1-12 credits, max. 12 / Prerequisite: T EDUC 568
Full-time teaching practicum in assigned public school classrooms. Includes seminar that provides guided inquiry into the nature and social context of teaching and learning, drawn heavily from observations and experiences in the interns' site placements.

T EDUC 570 Elementary Education Reflective Seminar
1-3 credits, max. 3
Provides guided inquiry into the nature and social context of teaching and learning, as contrasted with the more pragmatic content of other components of the Teacher Certification program.

T EDUC 571 Special Topics in Education
1-9 credits, max. 9
Topics will vary. Offered jointly with T EDSP 591.

T EDUC 572 Independent Study
1-9 credits, max. 9 / Prerequisite: permission of instructor and approved program of study or readings
Faculty-supervised independent study or readings in areas of education of special interest or need to the student. Topics vary.

T EDUC 573 Practicum Seminar I
1-12 credits, max. 12 / Prerequisite: T EDUC 567
Provides the background, knowledge, and opportunity to explore research-based practices with students in classrooms. Offered jointly with T EDSP 593.

T EDUC 574 Practicum Seminar II
3 credits / Prerequisite: T EDUC 593 or permission of instructor
Second of two practicum seminars designed to improve professional practice.
T EDUC 599
Culminating Project
1-13 credits, max. 13
Final project designed in collaboration with faculty as an application of the program’s theory and research.

Faculty

Kären Landenburger
Director
Professor; RN; Ph.D., University of Washington, 1987

Julia Aguirre
Assistant Professor; Education; Ph.D., University of California Berkeley, 2002

Kathleen M. Beaudoin
Associate Professor; Special Education; Ph.D., University of British Columbia, 1999

Gregory J. Benner
Professor; Special Education/Emotional and Behavioral Disorders; Ph.D., University of Nebraska-Lincoln, 2003

Laura Feuerborn
Assistant Professor; Special Education; Ph.D., University of Oregon, 2004

Diane B. Kinder
Professor; Elementary Education; Ph.D., University of Oregon, 1987

Richard K. Knuth
Associate Professor; Educational Administration (secondary area in Business Administration); Ph.D., University of Washington, 1983

Belinda Y. Louie
Professor; Reading, Language Arts; Ph.D., University of Washington, 1991

Ginger L. MacDonald
Professor; Counseling/Psychology; Ph.D., University of Washington, 1990

José M. Rios
Associate Professor; Science Education/Zoology; Ph.D., University of Wisconsin, 1995

Marcy L. Stein
Professor; Special Education/Learning Disabilities; Ph.D., University of Washington, 1988

Matthew Weinstein
Professor; Secondary Science Education; Ph.D., University of Wisconsin - Madison, 1995
Building on the success of the undergraduate program, Interdisciplinary Arts and Sciences offers a master of arts degree. The graduate courses offer opportunities to pursue questions of interest across a wide range of fields, spanning the humanities, social sciences and environmental sciences, with special emphasis on the relation of knowledge to public action.

What are Interdisciplinary Studies?

The concept of interdisciplinary studies is founded on a recognition that the experience of phenomena—such as the public problems of poverty, violence, social justice or environmental degradation—do not come in neatly bounded, disciplinary or professional packages. While disciplinary divisions of labor are convenient and necessary to the efficient pursuit of in-depth knowledge, the application of that knowledge in the sphere of public action requires its broader re-integration with the rich, multidisciplinary dimensions and complexities of actual, live situations.

The structure of the master of arts program is highly flexible, building on the wealth of interdisciplinary expertise among members of the faculty. A required series of four core courses and a capstone course addresses issues of models, problem formation, evidence, and values. The core courses examine the basic foundations of knowing and acting, making them relevant to diverse areas of specific inquiry. Through electives and a thesis (or master’s project), students are encouraged to apply the lessons of the core courses to their own chosen areas of interdisciplinary interest. A broad range of student interests can be accommodated due to the interdisciplinary nature of the program.

The program integrates the sociology of knowledge, philosophy, social and political theory, history, cultural studies, anthropology and systems theory to shed light on domains of public action. Examples of possible areas of interest, broadly defined, might include the environment, education, ethnicity, gender, families, arts policy and administration, children and the media, human rights, labor, immigration, trade, development, urban studies, the role of state and local government or international non-governmental organizations.

Students will learn:

- How alternative paradigms or models condition our knowledge of the world and how our choice of potential responses connects to how we perceive things to be organized.
- How to gain insight into the impact of culture and history on the way certain phenomena come to be defined in the public arena as problems, and how they are variously imagined to be caused or solved in relation to diverse professional and disciplinary claims of ownership over them.
- How evidence can be justified, generated, evaluated and used with varying degrees of validity within diverse frames of application.
- How to gain insight into the ways in which values are implicitly or explicitly present in every arena socially deemed to be problematic, and how it may be possible to facilitate communication, negotiations, or trade-offs among and across diverse value frames.

What is Public Action?

Public action entails a series of determinations that are reached as a result of the following considerations:

- What is the nature of the problem to be addressed?
- What mode of analysis is to be employed?
- What will count as evidence?
- What values are considered relevant or irrelevant?
- What options are included or excluded?
- What outcomes of the action are anticipated or unanticipated?

By exploring these questions the master’s program becomes a sustained investigation of factors that critically shape actions, procedures and outcomes. The factors to be investigated include:

- Conceptual models, or paradigms
- Social, professional and institutional cultures
Various types of data used to support alternative perspectives and decisions

How various value frameworks shape perspectives, decisions and actions

These factors provide a foundation for knowledge and action in the public sphere. The core course of study in this program may therefore apply to virtually any profession or endeavor in our shared public life, whether one works in a large organization or a one-person shop, whether one seeks knowledge for utilitarian ends or to achieve a richer understanding of the world in which everyone must live and act.

Program Design

The Master of Arts program emphasizes foundations of public action and is a 55-credit master's degree. The curriculum includes:

- **Graduate Research and Writing**: 6 credits
  - Four core courses ....................... 24 credits
  - Capstone course ...................... 6 credits
  - Electives ................................. 10 credits
  - Final project or thesis ............... 10 credits

**Core Courses**

The four core courses are closely integrated, constituting a single, extended investigation of how issues and problems are evaluated in the process of taking action. The courses examine analytical tools and how social and organizational cultures influence the work required in moving toward taking action.

- **TIAS 501 Models and Critical Inquiry**
- **TIAS 502 Culture and Public Problems**
- **TIAS 503 Evidence and Action**
- **TIAS 504 Values and Action**

**Capstone Course**

Students enroll in the capstone course (TIAS 505) after the completion of the core course series. The capstone provides a forum for re-integrating the separate themes of the four core courses and considering how they can be applied to the students' areas of interest.

**Area of Emphasis**

Students will work with a faculty adviser to develop a focus within the student's chosen area of interest. The required 10 credits of electives are to be chosen carefully in consultation with the academic adviser, as stepping stones toward the substance of the thesis or project.

In addition to elective courses developed specifically for the master of arts degree, students can select from a wide range of courses offered at UW Tacoma, including some of those offered in other UW Tacoma graduate programs. Undergraduate courses appropriate to the student's thesis topic can be taken as graduate courses by enrolling in them as TIAS 590 Independent Study courses. This option requires completion of all the undergraduate requirements, as well as additional work to be negotiated with the instructor that will raise the course demands to graduate level.

**Thesis or Project**

The final product of the graduate program must be a thesis or a scholarly project that demonstrates a level of competence equivalent to a thesis. In consultation with faculty, students negotiate specific thesis questions and plans focused on their own chosen goals and areas of interest. It is the student's responsibility to recruit a thesis chair and at least one other reader to constitute a thesis committee. The chair may be the academic adviser or may be someone else whose area of expertise most overlaps with the focus of the thesis or project.

**Enrollment and Curriculum Sequencing**

Admission is competitive and is based on space availability in the core courses. Core courses are offered in the evenings, alternating between Monday/Wednesday and Tuesday/Thursday.

**Admission Requirements**

- Baccalaureate degree from an accredited institution of higher learning with at least a 3.0 GPA for the last two years of academic work
- Competitive GRE scores on a test taken within the last five years
- Completed application form
- Statement of intended area of focus compatible with the aims of the program
- Résumé of relevant experiences describing the candidate's most significant work, educational background or volunteer experience and how these experiences relate to his or her goals
- Three letters of reference
- Admission to the UW Graduate School

**Course Descriptions**

**TIAS 501 Models and Critical Inquiry**

Introduces role of models in conceptual and analytic processes, with special attention to relative strengths and weaknesses of linear and holistic models. Examines the application of these models and familiarizes students with their selective and combined use across a range of problem areas.

**TIAS 502 Culture and Public Problems**

Analysis of how public problems are constructed for utilitarian ends or to achieve a richer social or cultural history.

**TIAS 503 Evidence and Action**

Analysis of how public problems are constructed for utilitarian ends or to achieve a richer social or cultural history.

**TIAS 504 Values and Action**

Examines moral grounding of human action in organizational settings. Analyzes how different disciplines understand the framing and weighing of values in public decision-making. Inquiries into the common strategies employed in practice to deal with the inevitable value dimension of action and policy.

**TIAS 505 IAS Master of Arts Capstone**

6 credits / Prerequisites: TIAS 501, 502, 503 and 504

Provides an opportunity to explore the themes of the four core courses to the specific substance of the student's master's thesis or project.

**TIAS 513 Graduate Research and Writing**

5 credits

Introduces skills to understand published research and to formulate research questions. Includes advanced work in discipline-specific rhetorical strategies and analysis of complex readings.

**TIAS 515 Themes in the Interpretation of Culture**

5 credits

Analyzes selected themes in the study of modern culture, such as health and medicine, sexuality, consumption, television, advertising, film, literature, art, music, architecture and social or cultural history.
**TIAS 520**
Critical Analyses of Foundational Texts  
5 credits  
Focuses on critical reading of selected great books. Works chosen vary, depending on the expertise of the instructor. Open to undergraduates with permission.

**TIAS 530**  
German Culture, History, and Philosophy: Frankfurt am Main  
6 credits / Prerequisite: One 300-level HIST, THIL, or GERMAN course.  
Provides theoretical and practical introduction to German studies by exploring issues of German culture, history, and philosophy in the context of a study abroad program in Frankfurt, Germany. Considers how this city is connected to European and global trends. Relates this international context to student’s personal, academic, and professional experiences. Credit/no credit only.

**TIAS 590**  
Independent Study  
1-5 credits, max. 20 / Prerequisite: Permission of instructor  
Faculty-supervised special projects for graduate students encompassing all requirements of an undergraduate course being currently taught plus additional work. Topics vary.

**TIAS 596**  
Internship  
1-10 credits, max. 10 / Prerequisite: Permission of instructor  
Faculty-supervised internships for graduate students. Internships and projects vary.

**TIAS 598**  
Directed Readings  
1-5 credits, max. 20 / Prerequisite: Permission of instructor  
Faculty-supervised readings for graduate students.

**TIAS 599**  
Directed Research  
1-5 credits, max. 20 / Prerequisite: Permission of instructor  
Faculty-supervised research for graduate students.

**TIAS 605**  
Degree Project  
1-5 credits, max. 30 / Prerequisite: Permission of instructor  
Faculty-supervised project for graduate students.

**TIAS 700**  
Thesis  
1-10 credits / Prerequisite: Permission of instructor  
Faculty-supervised thesis for graduate students.

---

**Faculty**

**Lawrence M. Knopp Jr.**  
**Director and Professor**  
Interdisciplinary Arts and Sciences; Geography; Ph.D., University of Iowa, 1989

**Luther Adams**  
Associate Professor, Interdisciplinary Arts and Sciences; History, Ph.D., University of Pennsylvania, 2002

**Dolores Alcaide Ramirez**  
Associate Professor, Interdisciplinary Arts and Sciences; Spanish, Ph.D., Purdue University, 2006

**Michael Allen**  
Professor, Interdisciplinary Arts and Sciences; American History and Folklore; Ph.D., University of Washington, 1985

**Katie Baird**  
Associate Professor, Interdisciplinary Arts and Sciences; Economics of Social Issues, Public Economics; Ph.D., University of Massachusetts, 2000

**Joel Baker**  
Professor, Interdisciplinary Arts and Sciences; Environmental Engineering Sciences; Ph.D., University of Washington, 1988

**John Banks**  
Professor, Interdisciplinary Arts and Sciences; Applied Ecology, Agroecology, Mathematical Biology, Plant-Animal Interactions; Ph.D., University of Washington, 1997

**Anne Beaufort**  
Professor, Interdisciplinary Arts and Sciences; Composition and Writing; Ph.D., Stanford University, 1995

**Bonnie Becker**  
Assistant Professor, Interdisciplinary Arts and Sciences; Marine Ecology, Ph.D., University of California, San Diego, 2005

**Tyler Budge**  
Senior Lecturer, Interdisciplinary Arts and Sciences; Three-Dimensional Art, Sculpture; M.F.A., Illinois State University, 2002

**Kima Cargill**  
Associate Professor, Interdisciplinary Arts and Sciences; Clinical Psychology; Ph.D., University of Texas at Austin, 2002

**Erica Cline**  
Associate Professor, Interdisciplinary Arts and Sciences; Microbiology; Ph.D., University of Washington, 2004

**David Coon**  
Assistant Professor, Interdisciplinary Arts and Sciences; Communication and Culture; Ph.D., Indiana University, 2008

**Robert Crawford**  
Professor, Interdisciplinary Arts and Sciences; American and Cultural Studies; Ph.D., University of Chicago, 1974

**Katherine Siân Davies-Vollum**  
Associate Professor, Interdisciplinary Arts and Sciences; Geology; D. Phil., St. Peter’s College, University of Oxford, 1994

**Chris Demaske**  
Associate Professor, Interdisciplinary Arts and Sciences; Communication and Society; Ph.D., University of Oregon, 2002

**Steve DeTray**  
Senior Lecturer, Interdisciplinary Arts and Sciences; Political Science, Third World Development, Nonprofit Studies; Ph.D., University of Washington, 1995

**Joyce Dinglasan-Panlilio**  
Assistant Professor, Interdisciplinary Arts and Sciences; Chemistry; Ph.D., University of Toronto, 2008

**Cynthia Duncan**  
Professor, Interdisciplinary Arts and Sciences; Spanish, Portuguese and Latin American Literature; Ph.D., University of Illinois, 1983

**Julia Eaton**  
Assistant Professor, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., University of Washington Seattle, 2010

**Michael Forman**  
Associate Professor, Interdisciplinary Arts and Sciences; Modern European Thought and Culture; Ph.D., Rutgers University, 1995

**Kelly Forrest**  
Assistant Professor, Interdisciplinary Arts and Sciences; Cognitive Psychology; J.D., Seattle University School of Law, 1988; Ph.D., University of Washington, 1998

**James Gavel**  
Associate Professor, Interdisciplinary Arts and Sciences; Environmental and Aquatic Chemistry, Civil and Environmental Engineering; Ph.D., Massachusetts Institute of Technology, 1996

**Claudia Gorbman**  
Professor, Interdisciplinary Arts and Sciences; Film Studies, Comparative Literature, Women’s Studies; Ph.D., University of Washington, 1978

**Cheryl Greengrove**  
Associate Professor, Interdisciplinary Arts and Sciences; Geoscience, Oceans, Atmospheres; Ph.D., Columbia University, 1986

**Mary Hanneman**  
Associate Professor, Interdisciplinary Arts and Sciences; Asian History, Pacific Rim Studies; Ph.D., University of Washington, 1991

**James William Harrington, Jr.**  
Vice Chancellor for Academic Affairs and Professor, Interdisciplinary Arts and Sciences Geography; Ph.D., University of Washington, 1983
Michael Honey
Professor, Interdisciplinary Arts and Sciences; American History, Labor and Ethnic Studies; Ph.D., Northern Illinois University, 1988

Peter Horak
Professor, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., Comenius University, Slovakia, 1980

Emily Ignacio
Associate Professor, Interdisciplinary Arts and Sciences; Sociology; Ph.D., University of Illinois at Urbana-Champaign, 1998

Beth Kalikoff
Associate Professor, Interdisciplinary Arts and Sciences; Composition Studies, Writing Pedagogy; Ph.D., Indiana University, 1983

Turan Kayaoglu
Associate Professor, Interdisciplinary Arts and Sciences; International Politics; Ph.D., University of Washington, 2005

Michael Kucher
Associate Professor, Interdisciplinary Arts and Sciences; History; Ph.D., University of Delaware, 2000

Michael S. Kula
Assistant Professor, Interdisciplinary Arts and Sciences; Creative Writing; M.F.A., Emerson College, 1999

William Kunz
Associate Professor, Interdisciplinary Arts and Sciences; Broadcast Communication; Ph.D., University of Oregon, 1998

Nita McKinley
Associate Professor, Interdisciplinary Arts and Sciences; Developmental Psychology; Ph.D., University of Wisconsin-Madison, 1995

Divya McMillin
Professor and Director of Global Honors, Interdisciplinary Arts and Sciences; Communications; Ph.D., Indiana University, 1998

Beverly Naidus
Associate Professor, Interdisciplinary Arts and Sciences; Two-Dimensional Art, Painting, Drawing and Digital Imaging; M.F.A., Nova Scotia College of Art & Design, 1978

Amós Nascimento
Associate Professor, Interdisciplinary Arts and Sciences; Philosophy, Dr.Phil., Universität Frankfurt, 2002

Julie Nicoletta
Professor, Interdisciplinary Arts and Sciences; Art History, Public History; Ph.D., Yale University, 1993

Sushil Oswal
Assistant Professor, Interdisciplinary Arts and Sciences; Technical Communication and Rhetoric; Ph.D., University of Cincinnati, 1994

Samuel Parker
Associate Professor, Interdisciplinary Arts and Sciences; Anthropology, Art History, Asian Studies; Ph.D., University of Chicago, 1989

Jennifer Quinn
Associate Director and Professor, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., University of Wisconsin-Madison, 1993

Deirdre Raynor
Associate Professor, Interdisciplinary Arts and Sciences; American Literature, African-American Literature; Ph.D., University of Washington, 1997

Johann Reusch
Associate Professor, Interdisciplinary Arts and Sciences; History of Arts and Culture, European History; Ph.D., University of California, Los Angeles, 1994

Stephen Ross
Assistant Professor, Interdisciplinary Arts and Sciences; Psychology; Ph.D., University of Texas at El Paso, 2008

Peter Selkin
Assistant Professor, Interdisciplinary Arts and Sciences; Earth Sciences; Ph.D., Scripps Institution of Oceanography, University of California, San Diego, 2003

Emmett Joseph Sharkey
Associate Professor, Interdisciplinary Arts and Sciences; Comparative Literature; Ph.D., University of California, Davis, 1998

Huatong Sun
Assistant Professor, Interdisciplinary Arts and Sciences; Communication and New Media Studies; Ph.D., Rensselaer Polytechnic Institute, 2004

Riki E. Thompson
Assistant Professor, Interdisciplinary Arts and Sciences; Composition and Rhetoric; Ph.D., University of Washington, 2007

Ingrid Walker
Associate Professor, Interdisciplinary Arts and Sciences; American Literature; Ph.D., University of California, Santa Cruz, 1992

Carolyn West
Associate Professor, Interdisciplinary Arts and Sciences; Clinical Psychology; Ph.D., University of Missouri-St. Louis, 1994

Charles Williams
Assistant Professor, Interdisciplinary Arts and Sciences; U.S. Politics, Ph.D., University of California, Berkeley, 2005

M.A. in Interdisciplinary Studies I 2012-2013 Catalog I University of Washington Tacoma 183
The Nursing program focuses on the discovery and dissemination of knowledge that promotes health. The curriculum emphasizes and fosters the integration of teaching, inquiry and service within a community of learners. Partnerships with the community assist the program in providing learning environments in which learners build upon their skills and knowledge to strengthen their understanding of local, national and global health issues.

About the Degree Program

The master of nursing program prepares registered nurses for clinical practice in acute, long-term care, ambulatory and community settings. The program offers the following curriculum options:

- **Communities, Populations and Health**
- **Leadership in Health Care**
- **Nurse Educator**

The curriculum has a strong emphasis on mentoring, both in terms of preceptors in fieldwork placements and with faculty. The core courses for all options include research, health systems, health policy, leadership, diversity and social issues related to health. All students engage in scholarly inquiry. Students complete a scholarly project or thesis or take additional course work to meet career and program goals. In addition, students take courses in their curriculum option and may choose from courses in the other curriculum options to fulfill the requirement of related course work. Two quarters of fieldwork provide students with an opportunity to participate in practice roles in the setting that assists them to meet their career goals.

The program is designed for both part-time and full-time students. The length of time required to complete the program varies from five quarters on a full-time basis to seven or eight quarters on a part-time basis. While it is possible to enroll during any quarter, beginning in the autumn quarter is best for course sequencing.

**Communities, Populations and Health**

The Communities, Populations and Health curriculum option addresses health promotion and protection of communities and populations. The curriculum prepares graduates to collaborate with healthcare professionals and members of the community to address the health care needs of a complex and diverse society.

Graduates function as nurses in leadership roles to design, implement and evaluate interventions and programs based on assessed community or population needs.

**Healthcare Leadership**

The Healthcare Leadership curriculum option provides nurses with the skills and knowledge to become leaders and change agents in the evolving healthcare environment. The curriculum focuses on leadership, healthcare management and evaluation and human and fiscal oversight to foster effectiveness, innovation and change.

Graduates function as clinical nurses, managers or administrators in health care systems, governmental agencies or community organizations.

**Nurse Educator**

The Nurse Educator curriculum option prepares nurses to teach in schools of nursing, continuing education programs, staff development, clinical education or patient education. The curriculum focuses on learning theory, teaching methods, curriculum development, and evaluation. Fieldwork experiences are individualized and focus on the nurse educator role in community colleges or universities, hospitals, ambulatory care and community settings.

Graduates function as educators and leaders in clinical education, academic institutions, health care settings and community agencies.

**Accreditation**

As part of the top-ranked University of Washington School of Nursing at the Seattle campus, UW Tacoma’s Nursing program shares accreditation by the Commission on Collegiate Nursing Education (CCNE).
Program Goals

All students in the Master of Nursing program are prepared by the program to meet each of the following goals:

- Evaluate the adequacy of underlying knowledge from nursing science, related fields and professional foundations as it informs nursing practice.
- Competently assess, manage health-related issues with a defined population or care system and evaluate the effectiveness of these nursing practices.
- Utilize knowledge and skills in professional practice among diverse and multi-cultural populations.
- Demonstrate competence in development of inquiry relevant to practice, education or administration.
- Develop and utilize leadership strategies that foster improvement of health care.
- Articulate ethical issues and responsibilities involved in nursing practice.

Admission Requirements

Admission to the Master of Nursing program is competitive and based on acceptance by the UW Graduate School and the Nursing program at the University of Washington Tacoma. The following are required:

- A baccalaureate degree from a nationally-accredited nursing program with a minimum grade point average of 3.0 on a 4.0 scale for the last 90 graded quarter credits.

OR

An associate's degree or diploma from a nationally-accredited RN program and a baccalaureate degree in a field other than nursing with a minimum grade point average of 3.0 on a 4.0 scale for the last 90 graded quarter credits. The applicant must either take two specific Excelsior Exams or request to petition one or both of the exams.

- Completion of a three-credit basic course in descriptive and inferential statistics with a grade of at least 2.0 on a 4.0 scale.

- Three references: at least one from an academic reference and one from a clinical supervisor or person who can attest to the applicant's competence as an RN

- Professional goal statement relevant to the program objectives.

- Résumé or curriculum vitae describing educational background as well as relevant work, professional and volunteer experiences.

- Current unrestricted Washington state RN license.

- Criminal background check must be completed online through Verified Credentials, Inc., if admission is offered. A repeated criminal background check may be required prior to enrolling in practicum courses.

- Agreement to adhere to the Essential Behaviors for Admission, Continuation and Graduation (see website: tacoma. uw.edu/nursing/essential-behaviors-1).

Transfer Credit

An admitted MN student may petition to transfer up to the equivalent of 6 quarter credits of graduate course work earned in graduate status from an accredited institution. Graduate credits that have been applied toward a completed degree cannot be transferred. Written petitions for transfer credit must be submitted to the Graduate Committee within one quarter of acceptance to the MN program.

Graduate Nonmatriculated (GNM) Status

Graduate nonmatriculated (GNM) enrollment is beneficial to those who are interested in professional development or beginning work toward a graduate degree. A graduate nonmatriculated student is a post-baccalaureate student who wants to take graduate courses, but who has not been admitted by the Graduate School to a degree program. GNM status allows qualified students to earn graduate credits in an area of interest. A total of 12 credits can apply toward a graduate degree. This status is not available to international students on F-1 visas. Acceptance as a GNM student does not imply nor does it confer priority for later admission to the Graduate School for pursuit of a degree.

Satisfactory Progress

Students are required to maintain satisfactory progress meeting the university and program standards relative to scholarship and performance in pursuit of the master's degree including each of the following:

1. Maintain a 3.00 cumulative GPA.
2. Earn a quarterly GPA of 3.00 or higher.
3. Earn a grade of 2.7 or higher in each required course.
4. Make adequate progress with the scholarly project or thesis as demonstrated by the faculty advisers or supervisory committee chairs progress notes regarding student demonstration of interest, responsibility in working toward completion of project or thesis, and number of credits taken before a proposal has been approved.
5. Meet all Essential Behaviors for Admission, Continuation and Graduation (see website: tacoma. uw.edu/nursing/essential-behaviors-1).

Graduation Requirements

The minimum requirements for graduation with the Master of Nursing degree from the University of Washington Tacoma are:

- Core courses: 6 credits
  - T NURS 510   Society, Justice and Health (3)
  - T NURS 527   Health Care Systems and Health Policy (3)

- Research courses: 6 credits
  - T NURS 520   Scholarly Inquiry for Nursing Practice (3)
  - T NURS 521   Scholarly Inquiry for Nursing Practice II (3)

- Study option courses: 9 credits

Communities, Populations and Health

- T NURS 523   Community Health Assessment (3)
- T NURS 561   Community Planning, Intervention and Evaluation (3)
- T NURS 588   Concepts of Health Promotion and Community Change (3)

Leadership in Health Care

- T NURS 507   Leadership Behaviors for Evolving Health Care Organizations (3)
- T NURS 509   Evaluation and Decision-Making in Health Care (3)
- T NURS 539   Health Care Business Strategies: Optimizing Resources (3)
Nurse Educator
T NURS 511  Curriculum Development in Nursing Education (3)
T NURS 512  Evaluation of Clinical Performance in Nursing (3)
T NURS 513  Theories and Methods of Teaching and Learning (3)
- Fieldwork: 6 credits
  T NURS 503  Advanced Fieldwork (6)
- Related course work: 12 credits
- Scholarly Inquiry: 6-9 credits
  T NURS 598  Scholarly Projects (1-12)
Total credits (min.) 45-48 credits

Course Descriptions
For the most current course information, please consult the Nursing program website at tacoma.uw.edu/nursing/courses.

T NURS 502  Dynamics of Community Health Practice
3 credits; max. 5
Focuses on the conceptualization, analysis, and application of the concepts of community and health. Discusses theories and models of current and potential community health practice. Examines sociocultural concepts for their interrelationship with and impact upon community and health.

T NURS 503  Advanced Fieldwork
2-6 credits; max. 12 / Prerequisite: T NURS 510, T NURS 520, T NURS 521, T NURS 527 and at least three courses in study option or permission of instructor
Provides students with a substantive field experience in their setting of interest. Assists students in delineation of advanced practice nursing roles and application of theoretical concepts in a real-world context.

T NURS 504  Communities, Populations and Health: An Overview
3 credits
Focuses on the conceptualization, analysis and application of the concepts of community, populations and health. Discusses theories and models of current and potential community health practice. Examines sociocultural concepts for their interrelationship with and impact upon communities, populations and health.

T NURS 507  Leadership Behaviors for Evolving Health Care Organizations
3 credits
covers changes in the health industry that require new ways of leading organizations. Evaluates leadership values and behaviors and identifies new leadership strategies integral to the change-agent role necessary in leading teams and in guiding changes as health care organizations transition from hospital-based structures to interdependent systems.

T NURS 509  Evaluation and Decision-Making in Health Care
3 credits / Prerequisites: T NURS 520, T NURS 521 or permission of instructor
Examines the various strategies in health care services evaluation and identifies frameworks for improved decision-making. Emphasis is on the application of evaluation techniques in leadership/management positions.

T NURS 510  Society, Justice and Health
3 credits
Explores how social factors and context influence health and illness, including concepts of oppression, discrimination, power and privilege. Analyzes how health and illness are socially constructed; effects of social location on health and access to care; and how inequities affect health and illness. Considers relationship between social justice and health.

T NURS 511  Curriculum Development in Nursing Education
3 credits
Theoretical rationale for curriculum development that reflects contemporary health trends. Bases curricula design and implementation decisions on educational principles, theory, and research.

T NURS 512  Evaluation of Academic and Clinical Performance in Nursing Health Care
3 credits
In-depth examination of the evaluation of learning. Includes assessment of a range of evaluation strategies and evaluations of clinical performance. Focuses on evaluation issues relevant to both academic and health care settings.

T NURS 513  Theories and Methods of Teaching and Learning
3 credits
Addresses theories and methods of teaching and learning, tools and resources for teaching, role development, and current issues faced by those who teach in higher education and staff development. Partly Web-based.

T NURS 514  Challenges and Issues in Patient Education
3 credits
Provides overview of selected challenges and issues in patient education: low literacy, patient acuity, health status, early discharge, evolving health policy, cost of health care and staff proficiency. Considers the role of the advanced practice nurse in creating and managing patient education programs for individuals, groups and populations.

T NURS 515  Online Teaching Strategies
3 credits
Addresses pedagogical and design issues as well as technical skills required to successfully teach in the online environment by integrating experiential online interactions and face-to-face meetings.

T NURS 520  Scholarly Inquiry for Nursing Practice
3 credits
Analyzes conceptual, theoretical, and empirical knowledge as a basis for evidence-based practice. Examines methodological approaches to scholarly inquiry and research applied to nursing practice. Evaluates role of advanced practice nursing in research.

T NURS 521  Scholarly Inquiry for Nursing Practice II
3 credits / Prerequisite: T NURS 520
Builds on scholarly inquiry and research knowledge gained in T NURS 520. Specific focus include measurement, study design, and data collection issues as well as enhancing data analysis and interpretation abilities. Emphasized application of scholarly inquiry methods in nursing practice.

T NURS 522  Theory Development for a Practice Discipline
3 credits
Explores the evolutionary development of nursing theory and its contribution to the development of nursing science. Emphasizes conceptual and theoretical framework, the methodological approaches, the theoretical foundation, the historical structure and the evaluative criteria used in theory development and its practice application.

T NURS 523  Community Health Assessment
3 credits
Survey of approaches and tools to measure health status and health-care problems in defined communities. Topics include uses and limitations of available data, community surveys, public health surveillance, measurement of community health indices, and research methods specific to health assessment of communities and populations.

T NURS 527  Health Care Systems and Health Policy
3 credits
Analyzes the organizational and financial aspects of clinical services and public health systems with an emphasis on access and resource utilization patterns among diverse populations. Explores health policy development, strategies to affect policy aimed at enhancing quality and population-system fit, and the relationship between policy and health care system change.
T NURS 537 Concepts of Organization
3 credits
Demonstrates how concepts of organizations and the metaphors used to describe them affect the analysis, management, and ethical dimensions of organizational environments. Students analyze their own work environments from a variety of perspectives, both to improve their understanding of work contexts and as a basis for planning managerial action.

T NURS 538 Concepts of Clinical Care
3 credits
Examines theoretical concepts that explain the wide range of human responses to illness. Explores the interrelationship of physiological, psychological, social, and spiritual dimensions of human responses. Addresses the assessment, measurement, management, and evaluation of commonly encountered, prototypical clinical phenomena from a research-based perspective.

T NURS 539 Health Care Business Strategies: Optimizing Resources
3 credits
Explores strategies to address challenges of optimizing resources utilization in a dynamic, changing healthcare environment that has an increasing business-oriented focus. Examines human and fiscal resource management strategies, focusing on personnel issues relevant in healthcare organization, gaining working knowledge of budgetary processes, and fiscal decision-making expertise.

T NURS 540 Concepts of Hospice and Palliative Care
3 credits
Examines models of care and theoretical frameworks that guide and evaluate patient-family centered end-of-life care. Addresses symptoms of distress, psychosocial and spiritual aspects as well as educational, communicative and ethical components of hospice and palliative care.

T NURS 541 Concepts of Chronic Illness
3 credits
Addresses the context of chronic illness and its impact on individuals, families, and the healthcare system. Explores psychosocial and spiritual variables, interventions, and care models that influence self-care and healthcare outcomes if individuals with chronic illness.

T NURS 547 Capstone Teaching Seminar
3-6 credits, max. 10 / Prerequisite: Core didactic and seminar courses for students in the NET graduate certificate program
Includes the planning, completion on, analysis, and presentation of a project that reflects a synthesis of coursework completed for the Nurse Educator Tri-Campus Certificate Program.

T NURS 550 Seminar on Professional Issues in Nursing Education
3 credits / Prerequisite: T NURS 513; T NURS 511.
Seminar on role and related professional issues in nursing education.

T NURS 553 Health Policy Development and Analysis
3 credits
Examines health policy development within the context of the U.S. political system at the national, state, and local levels. Discusses legislative and budget processes, the role of interest groups, and strategies to affect public policy.

T NURS 561 Community Planning, Intervention and Evaluation
3 credits / Prerequisites: T NURS 520, T NURS 521, or permission of instructor
Examines community planning, intervention, and evaluation. Emphasizes the importance of negotiation, community development, and partnerships. Discusses integrated models of community planning, implementation, and evaluation for the purpose of facilitating community wide interventions for health.

T NURS 588 Concepts of Health Promotion and Community Change
3 credits
Provides opportunities to critically examine concepts and theories of health promotion and community change. A wide variety of disciplinary perspectives is presented and discussed within the context of diversity. Gives students the skills needed to critically analyze health promotion and community change.

T NURS 590 Special Topics in Nursing
2-3 credits, max. 9
Analyzes current research, issues, and application of selected topics in nursing; may have clinical component. Emphasizes implications for nursing and health care.

T NURS 598 Scholarly Projects
1-12 credits, max. 12
Scholarly inquiry with in-depth, focused analysis, culminating in a written product/report for dissemination. Credit/no credit only.

T NURS 599 Selected Readings in Nursing Science
1-3 credits, max. 18

T NURS 600 Independent Study or Research
Credits vary

T NURS 700 Master’s Thesis
Credits vary
Credit/no credit only.

Health Electives

T HLTH 501 Issues in Race and Health
3 credits
Explores historical and contemporary issues on the role of race in relation to health and health outcomes. Seminar topics include history of race, health effects of racism and discrimination, epidemiological evidence on racial disparities in health, and the role of race in research.

T HLTH 505 Participatory Action Research
3 credits
Focuses on how to conduct research with a social action component. Provides an in-depth examination of participatory-action research. Explores theoretical, methodological and practical issues, including historical influences, design and methods, and application of findings.

T HLTH 510 Ethnographic Research Methods
3 credits
Provides a background in ethnographic research methodology emphasizing beginning ethnographic and field research studies. Analyzes the theory underlying qualitative research approaches and pragmatic issues in building skills and knowledge in relation to conducting and evaluating ethnographic research.

T HLTH 511 Introduction to Epidemiology
3 credits
Provides an introduction to epidemiologic methods and concepts, as used in public health practice and research. Examines documentation of variation in disease occurrence in different populations, rates and their uses to infer varying degrees of causality, bias, and study design.

T HLTH 520 Health and Human Rights
3 credits
Examines how human rights violations affect the health of populations across the globe. Illustrates the links between public health and human rights. Explores research methods to understand and document human rights violations, as well as strategies to improve health and rights.

T HLTH 525 Violence in Intimate Partner Relationships
3 credits
Examines partner violence as a cumulative interactive experience that must be framed within historical and social contexts. Emphasizes current literature on conceptualizing gendered violence, theoretical perspectives of abuse in intimate relationships.
T HLTH 530
Health and Aging in a Diverse Society
3 credits
Provides an introduction to health and other social issues of members of minority elderly populations in the U.S. Reflects a range of perspectives in the social, behavioral, and health sciences. Emphasizes the importance of situating the life experiences of today's diverse elders in historical context.

T HLTH 545
Health in a Developing Nation: Study Abroad
5 credits
Provides an overview of the health and health care challenges in a developing and low-income country. Addresses socio-cultural, environmental, economic, political, and ecological factors that influence health, illness, disability, and death as well as responses to health issues both within and outside the health sector.

T HLTH 590
Independent Study
Credits vary
Faculty-supervised independent study, readings and special projects for graduate students as developed through faculty-student agreement.

Faculty

Cathy Tashiro
Professor Emeritus; RN; Ph.D., University of California San Francisco, 1998

Alexis Wilson
Senior Lecturer; RN; Ph.D., Union Institute Graduate College, 1977
Developed in collaboration with and under the auspices of the University of Washington School of Social Work, the Master of Social Work (M.S.W.) program prepares learners for advanced and specialized practice as providers of social services and includes a combination of field experience and classroom learning.

About the Degree Program

The Master of Social Work (MSW) is considered the terminal degree in the social work profession. Content and course work in the MSW program will prepare graduates to function in professional social work positions in a wide variety of settings, including health care agencies, child and family services, public social service organizations, the criminal justice system and the public schools.

The advanced curriculum provides an in-depth education, through the classroom and practicum, to prepare graduates for advanced, specialized practice. Topics include applied research, social policy and advanced content in social work practice models and methods. The intent of this graduate program is to enable learners to develop skills in the concentration area of Advanced Integrative Practice.

This graduate program also prepares learners to collaborate with other human service professionals and with the community. Graduates from this MSW program will be prepared to address the social welfare needs of a complex society.

The Master of Social Work program is designed as a part-time evening program and consists of two program options: a three-year MSW program, which is designed for graduates of baccalaureate programs in any major, and an Advanced Standing MSW program, which is designed for eligible graduates of baccalaureate programs in social work or social welfare. Advanced Standing allows students to enter the advanced level of the MSW curriculum.

Pursuant to the achievement of the Social Work program's mission, the MSW program has been designed as a competency-based curriculum committed to preparing graduate students for practice. As a result of their class and field education, MSW graduates should be able to:

1. Understand the values and ethics of the social work profession and practice accordingly, including mindful use of self and ongoing development of professional skills and knowledge.
2. Understand the forms and mechanisms of discrimination, and apply strategies of advocacy and social change that advance social and economic justice and are non-discriminatory and respectful of client and community diversity.
3. Understand and interpret the history of social welfare and its contemporary structures and issues.
4. Apply the knowledge and skills of a generalist perspective to practice with systems of all sizes.
5. Acquire and critically apply theoretical frameworks supported by empirical evidence to understand individual development and behavior across the life span and (or) the interactions among individuals and between individuals, and families, groups, organizations, and communities.
6. Articulate the role of policy in framing social work practice, understand the impact of major social welfare policies on those who are served by social workers, workers themselves, agencies, and welfare systems, and be able to advocate for just, effective, and humane policies and policy implementation processes.
7. Understand and critically analyze current systems of social service organization and delivery and be able both to practice within them and to seek necessary organizational change
8. Engender the empowerment of diverse and disadvantaged individuals, groups, and communities through effective, culturally and linguistically appropriate assessment, treatment/intervention and outcomes evaluation
9. Make well-reasoned and well-informed judgments based on professional values and ethics, critical self-reflection, evidence, and the appropriate use of supervision and consultation

10. Apply critical thinking skills within the context of professional social work practice, including the ability to critically evaluate major practice frameworks, research evidence, and their own practice.
11. Contribute to the profession’s knowledge base and practice through disciplined inquiry, dissemination, and institutionalization of evidence-based practice and policy models.

**Accreditation**

The Social Work program at the University of Washington Tacoma is accredited by the Council on Social Work Education (CSWE) as a program option of the University of Washington School of Social Work in Seattle.

**Curriculum and Competencies**

The primary goal of the curriculum is to provide social work students with the critical skills, value base and knowledge to advance social justice, multiculturalism, social change, collaboration and empowerment in their professional roles. This goal is operationalized through 10 core competencies:

1. Identify as a professional social worker and conduct oneself accordingly.
2. Apply social work ethical principles to guide professional practice.
3. Apply critical thinking to inform and communicate professional judgments.
4. Engage diversity and difference in practice.
5. Advance human rights and social and economic justice.
7. Apply knowledge of human behavior and the social environment.
8. Engage in policy practice to advance social and economic well-being and to deliver effective social work services.
9. Respond to contexts that shape practice.
10. Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities.

**Admission Requirements**

The Social Work program seeks to enroll well-qualified students with diverse backgrounds. Admission to the MSW program is based on academic performance and potential, clarity and appropriateness of career objectives, understanding of social issues, knowledge of diverse populations and relevant experiences. Academic credit toward the MSW is not given for previous employment or life experience.

Students are admitted to the three-year MSW program for autumn quarter only, and the Advanced Standing program for winter quarter only. Prospective students should consult the Social Work website at tacoma.washington.edu/social-work for the most recent application procedures.

Selection is based on academic background and potential, match of student interests with faculty expertise, program resources or priorities, social/human service experience, appropriateness of professional goals and objectives, and experience with diverse populations. All applicants must meet basic qualifications to be considered for the MSW program. Those applicants considered among the most qualified, based on the assessment of their application materials, will be offered admission. There is an enrollment limit placed on the Social Work program, and typically there is not enough space available to accommodate all applicants who meet the basic qualifications for admission. Admission is competitive.

**Applying to the MSW**

Applying to the program involves submitting application forms for the UW Tacoma Social Work program and the UW Graduate School, an application fee, one set of transcripts from every college or university attended, admissions essay, three reference letters, résumé and Social Service Experience form. As part of the application screening process, applicants are asked to disclose any criminal/conviction history. Therefore, students must submit the Conviction/Criminal History form and Authorization for Repeat Checks form as well.

A thorough background check is a required part of the Social Work admissions process. If offered admission, students are required to submit to a background check using an online service, Verified Credentials, currently for a fee of $58.

*Note: When considering individuals for admission to the program, conviction/criminal history records are reviewed as they relate to the content and nature of the curriculum and the safety and security of clients and the public. A conviction/criminal history record does not necessarily disqualify an individual for admission.*

The successful completion of an approved human biology course and a statistics course with a 2.0 (“C”) grade or higher is also required prior to beginning the MSW program. [Note: Advanced Placement (AP) credit earned in high school may not be used to satisfy these requirements.] Specific time limits apply on course work. Review the program website for a list of approved human biology courses. Official documentation verifying completion must be supplied prior to matriculation.

The Social Work program requires strong academic preparation demonstrated by a candidate’s grade point average (GPA), liberal arts or social welfare undergraduate training, and writing skill. Applicants must have a baccalaureate degree with a minimum GPA of 3.0 on a 4.0 scale for the last 90 graded quarter credits (or 60 graded semester credits). Undergraduate preparation must include at least five credits in each of the humanities, social sciences, and natural sciences and 60 credits of liberal arts.

In addition to these general admission requirements, Advanced Standing applicants must hold a baccalaureate degree in social work or social welfare from an American program accredited by the Council on Social Work Education and have graduated within five years of entry to the MSW program. They must also have passed all social work core courses with a minimum grade of 3.0 or have a cumulative GPA of 3.5 or higher in their BASW major.

Current knowledge of the social work profession is assessed by the candidate’s use of illustrations and examples from his or her social-service background described in the admissions essay.

**UW Health Sciences Immunization Program (HSIP) Requirement**

The University of Washington Health Sciences Center requires that its students show documentation of protection against a number of vaccine-preventable diseases. The University of Washington Seattle School of Social Work falls under the umbrella of UW Health Sciences and therefore all UW Tacoma MSW students must comply. New students admitted to the MSW Program must submit appropriate documentation within a specific timeframe. New students will be advised of specific submission deadlines upon admission. No student will be permitted to begin practicum placements unless in compliance with HSIP vaccinations.
Graduation Requirements

Along with the Graduate School requirements, students must receive a passing grade (2.7 or higher or Satisfactory or Credit) in the professional foundation and advanced curriculum courses taken to meet the credits required for the MSW.

If a student does not pass a required course, the course must be repeated. Due to the sequential nature of the courses, students may need to extend the length of their program. Another selective may be substituted for a failed selective course. Students electing to take a course on a Satisfactory/Not Satisfactory (S/NS) basis must earn at least a 2.7 grade in order to receive a grade of “Satisfactory.”

The 75-credit MSW program allows each student to determine which courses are taken to fulfill the 18 numerically-graded required credits. The following courses are graded on a credit/no credit basis and may not be used for the 18 credits: Cultural Diversity and Societal Justice, Foundation and Advanced Practicum (T SOCW 504, T SOCW 523, T SOCW 524 and T SOCW 525) and some selectives (indicated by CR/NC in the online time schedule). Some students may need to take additional courses beyond the minimum requirements to fulfill this requirement. A minimum cumulative GPA of 3.0 is required.

Students are reminded to read and carefully adhere to the university’s policies. Please refer to the “Graduate Programs” section in this catalog or refer to Graduate School website at www.grad.washington.edu. MSW students should also consult the MSW Program Manual for a complete list of policies.

Course Descriptions

For the most current course information, please consult the Social Work program website at tacoma.uw.edu/social-work.

**T SOCW 501 Social Policy and Economic Security 3 credits**
This course, presented during the first quarter of the foundation year, is designed to familiarize students with the U.S. social-welfare system and its historical, philosophical and cultural foundations within a social work context. The nature of social policy and economic security is explored in relation to income-maintenance programs, particularly social insurance and social-assistance programs, and the impact upon them of racism, classism and sexism. Attention is directed to issues of poverty, inequality, unemployment, disability and homelessness, as well as to the future of the American welfare state.

**T SOCW 502/503 Human Behavior and the Social Environment I and II 3 credits each**
The foundation HBSE courses focus on the person-in-environment across the life span. The sequence utilizes developmental and social-system perspectives in seeking to understand and influence human behavior. The developmental stages are discussed across diverse backgrounds. The dynamics and processes of small-group, family, organization and community systems are addressed from a social-system perspective as socializing forces and as targets of change. Implications for social work practice, especially the assessment process, are highlighted.

**T SOCW 504 Cultural Diversity and Societal Justice 3 credits**
This course provides students with the knowledge needed for social work practice with disadvantaged and oppressed groups overrepresented in public sector practice. The course presents information regarding the history and status of people of color, women, individuals with disabilities, gay men and lesbians, and poor and working-class people. A major theme of the course is to provide an opportunity for exploration of how prejudice, discrimination and exclusion affect the experiences of members of these groups. Another theme is the unique strengths and capacities within each group that should be recognized and utilized in effective social work practice. The course also provides students with a framework for developing a social-change orientation for working toward social justice and equality. Taken credit/no credit only.

**T SOCW 505 Introduction to Social Welfare Research 3 credits**
This course provides an overview of research process and methods in social work with a focus on both being able to interpret and perform practice-based research. The course is designed to introduce students to the principles and skills needed to evaluate their own practice. Emphasis is placed on critical understanding of the empirical literature; the development of useful and appropriate questions about social work practice; strategies and techniques for conducting practice research; and application of research findings to practice.

**T SOCW 510 Social Work Practice I: Introduction to Social Work Practice 3 credits**
This is the first of two required micro- or direct-practice courses. The first course provides foundation knowledge and skills in direct practice with individuals, couples, families and small groups. It is designed as the foundation for subsequent practice courses and the first practicum. By the end of the course, students are expected to identify social work values and ethics, discuss their implications in guiding direct practice, and demonstrate the following: an understanding of the person-in-environment perspective in assessment, intervention and evaluation; an understanding of how the social worker, with his or her attendant class, race/ethnicity, gender, sexual orientation, ability status, family of origin, and life experiences, is influenced by and influences direct practice; an understanding of how ethnic/racial minority status, culture, class, gender, sexual orientation and ability status affect the provision of direct services; an understanding of empowerment practice with diverse populations at risk; an understanding of effective communication skills; and an understanding of the importance of self-evaluation and practice-evaluation strategies.

**T SOCW 511 Social Work Practice II: Intermediate Direct Service Practice 3 credits**
This is the second of a two-quarter course sequence providing foundation knowledge and skills in direct practice with individuals, families, and groups. This course focuses on students developing working knowledge of broad perspectives (ecological, strengths-based, empowerment) and specific empirically-based theoretical models of practice. Students begin developing expertise in intervention selection, planning, and evaluation of micro systems (e.g. individuals, couples, families and small groups) with primary focus on individuals and families. Mastery of the application of microskills learned in Practice I is achieved through practicing assessment, goal setting and interventions using the selected theoretical models. The course focuses on empirically-based approaches to direct services intervention, emphasizing various theoretical approaches to practice. The class also addresses monitoring the impact of interventions; and appropriate evaluation strategies.
T SOCW 512 Social Work Practice III: Community and Organizational Practice 3 credits
The purpose of this course is to prepare students to work more effectively within complex political, organizational and community social service settings. It seeks to educate and develop informed practitioners capable of successful practice in organizational, community and policy contexts. Course highlights both historic and contemporary compatibility of social work values with community organization and political action.

T SOCW 514 Social Work Practice V: Foundation Practice Skills 3 credits
This course completes the required Foundation Practice sequence. The student selects one of a number of courses associated with key contemporary themes in social work that enhance practice skills at the micro, mezzo or macro levels.

T SOCW 523 Introduction to Practicum 1 credit
Workshops for preparation for agency-based placement. Interviewing and orientations occur at agencies. Taken credit/no credit only.

T SOCW 524 The Professional Foundation Practicum 2-3 credits; max. 8 credits
This agency-based practicum emphasizes the development of knowledge, perspectives, and skills needed for practice with individuals, families, groups, organizations and communities. Opportunities are provided for students to engage in a range of practice activities under the supervision of an experienced social worker. The course awards eight credits over three quarters. Taken credit/no credit only.

T SOCW 525 Advanced Concentration Practicum 3-5 credits; max. 18 credits
Incorporates and builds upon content and skills acquired in all areas of the curriculum. Provides opportunities for students to develop social work knowledge and skills in the field and to engage in a range of social work practice activities. Taken credit/no credit only.

T SOCW 531 Advanced Integrative Policy and Advocacy 3 credits
This course explores policy issues in selected areas of child, youth and family services and provides a framework for policy analysis, emphasizing the role of values and evidence in policy formulation. Exercises highlight the critical interplay of policy, practice and research.

T SOCW 532 Advanced Integrative Practice I 3 credits
This course practice emphasizes family-centered assessment and intervention within an ecological framework. Specific attention is given to family and community violence, substance abuse, and mental health. Practice frameworks focus on intensive case management, family systems, family-preservation practice and social supports. Students are expected to keep the same instructor for T SOCW 532/533 sequence.

T SOCW 533 Advanced Integrative Practice II 3 credits
This course builds on CYF Practice I. The focus is on the application of values, knowledge and skills emphasized within the practice frameworks of intensive case management, intensive family-preservation services, and social supports. Classroom sessions make extensive use of case materials. Students are expected to keep the same instructor for T SOCW 532/533 sequence.

T SOCW 535 Research for Advanced Integrative Practice 3 credits
This course promotes the practical application of research concepts and skills to social work practice in community and agency CYF settings: conducting a needs assessment, monitoring individual/group/family outcomes, and evaluating program effectiveness.

T SOCW 536 Supervision and Leadership in Social Work 3 credits
Focuses on the social worker as supervisor and leader, both in agencies and in the profession. Examines specific models of supervision and leadership, with emphasis on the values and ethics of the profession in the context of leadership.

T SOCW 544 Gerontological Social Work: Health and Mental Health in Older Adults 3 credits
Examines psychosocial aspects of common age-related problems using an empowerment perspective. Emphasizes the development of skills for assessing the needs of older adults and providing services directly to those individuals. Includes content on end-of-life issues and social work practice.
T SOCW 549  
Crisis Intervention in Mental Health  
3 credits  
Focuses on the nature, causes, and differences between psychological crisis and psychological emergencies. In-depth examination of the cognitive, relational, and risk management skills used during crisis interventions across a variety of treatment settings. Emphasizes development of intervention skills.

T SOCW 550  
Social Work in Health Care  
3 credits  
Focuses on skill-building for social work practice in medical settings, including hospitals, clinics, home health programs, and other agencies. Also examines the impact of social policy on access to health care and social work service provision.

T SOCW 551  
Social Work with Military Personnel and Veterans  
3 credits  
Focuses on social work practice in military-related settings, including active duty personnel and veterans. Pays special attention to military culture and systems, military families, and the special needs of soldiers returning from combat.

T SOCW 597  
Social Welfare Research  
2 credits  
Provides supervision for the research project development and a structured environment to hone previously learned research methods and content.

T SOCW 598  
Advanced Standing Integrative Seminar  
5 credits  
Integrates the domains of social work practice, research, policy, cultural diversity and human behavior and the social environment.

T SOCW 599  
Readings in Social Work  
1-5 credits, max. 10  
Student-originated, individually contracted projects on topics of interest in social welfare/social work not covered by other Social Work program offerings. T SOCW 599 is not part of the required MSW curriculum. Credit/no credit only.
