Policy on Reporting the Annual Disclosure of Crime Statistics

The safety and well-being of all members of our community is of great concern to the University of Washington Tacoma. Many departments and employees are dedicated to making the campus a safer place to live and work. A safe environment depends on the cooperation and involvement of individuals in safeguarding themselves and others. We encourage all members of the University of Washington Tacoma community to use this report as a guide for safe practices on and off campus.

Campus Safety & Security prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. Campus Safety & Security work with university offices and public agencies, such as the Office of Student Affairs, and Tacoma Police Department (TPD), to compile the information. Each entity provides updated information on their educational efforts and programs to comply with the act. Campus crime, arrest, and referral statistics include those reported to Campus Safety and Security, designated campus officials (including but not limited to directors, department heads, designated advisors to students and student organizations), and local law enforcement agencies.

This publication contains information to aid in the cooperative effort of keeping the campus safe. It contains specific information on safety and security, crime prevention, patrol operations and breadth of authority, policies relating to reporting crime, campus disciplinary procedures, and crime statistics reported from 2016, 2017, and 2018. These statistics reflect reported crimes that occurred on campus and buildings or property owned or controlled by University of Washington Tacoma, and on public property that is immediately adjacent to and accessible from the campus.

This publication is posted on University of Washington Tacoma's website by October 1 each year. We notify all students, staff, and faculty via email. You can obtain this report online at: www.tacoma.uw.edu/security. All current or prospective faculty, staff, and students can also obtain a paper copy by writing to:

Message from the Director

On behalf of the UW Tacoma Campus Safety & Security team, I would like to welcome you to the University of Washington Tacoma campus. University of Washington Tacoma is a growing community of over 5,000 students, faculty and staff working and studying on a beautiful campus in an urban setting. Living and working in a tranquil environment such as University of Washington Tacoma can cause us to forget that crime and other problems can plague us, just as they do communities outside the boundaries of the university.

The following information has been prepared to increase awareness of the current programs that exist to protect your safety and well-being. Portions are also provided in compliance with laws of the State of Washington (RCW 28B.10.569), The Federal Safe and Drug-Free Schools and Communities Act (20 USC 1145g) and the Higher Education Opportunity Act (Title 20 U.S. Code Section 1092 Disclosure of Campus Security Policy and Campus Crime Statistics), also known as the Jeanne Clery Act.

Please join us in keeping informed and prepared by reading this report and referring to it often.

Thank you

Susan Wagshul-Golden
Director of Campus Safety & Security
University of Washington Tacoma

Campus Safety & Security Department Organization

Campus Safety & Security Department team are committed to ensuring the safety and security of the University of Washington Tacoma campus community. We are comprised of a Director, Program Coordinator, two Campus Security Sergeants, and eleven Campus Security Officers. We all strive to conduct ourselves with the highest standards of professionalism, ethical behavior, and pride in all we do. Many of our staff are trained and certified as instructors for our educational programs.

We operate 24 hours a day, 7 days a week, and 365 days a year to provide a safe and secure educational environment for the University. We work as liaisons with our local emergency responders such as Tacoma Fire Department, Tacoma Police Department and Pierce County Emergency Management. You can contact our team either by phone 253-692-4416, email: uwtsafe@uw.edu , or stop by our office at 1721 S Jefferson Avenue in the Dougan Building, suite 180.

Police Authority: University of Washington Tacoma Campus Security officers are not commissioned law enforcement officers of the state of Washington and as such have no arrest authority. Campus Security officers are obligated as representatives of the University of Washington Tacoma to enforce university rules and regulations. Campus Security officers are permitted to detain individuals suspected of criminal activity and to request their name and destination. However, since we do not have arrest authority we work closely with the Tacoma Police Department who does, and routinely responds when their presence is requested. They determine if an arrest is to be made. Officers must be mindful of their safety while performing their duties. For this reason, and based on articulable suspicion of a potential threat, the law permits Campus Security officers to search a person who has been detained to ensure he or she does not possess a weapon.

Emergency Response: In a campus-wide emergency, Campus Safety & Security will work in concert with the campus Evacuation Wardens (EW) to provide a coordinated and effective response to the university community. Please click the link for more information on [Emergency Evacuation Operation Plan](#) for our campus. We encourage all users to access this site for information and to sign up for [UW Alert](#). When an emergency occurs, these texts alert will notify the campus community of the nature of the emergency. Because we can send the alerts to any cell phone or e-mail address regardless of physical location, students find them an invaluable resource for keeping informed if an emergency occurs on campus.

Officer Training: UW Tacoma Campus Security officers have a broad expanse of training and certifications but all officers annually attend a variety of training regimens to maintain the skills necessary. These comprehensive programs provide valuable training in all aspects of university safety. Campus Security officers must successfully complete certification or recertification in skills training, such as CPR and first aid. UW Tacoma Campus Safety & Security professional development training also includes defensive tactics, de-escalation techniques ethics, implicit bias, dependable strengths, emotional intelligence, Title IX compliance, sexual harassment prevention and emergency management response.

Fire Alarm Systems and Crime Prevention Services

The security, fire, supervisory and trouble alarms are monitored by third party vendor but are university maintained. The access control card readers are monitored by Campus Safety & Security department. Campus Safety & Security personnel work closely with Facilities Services and many other departments on campus to identify and promptly repair any malfunctioning security devices.

Relationship with Local Law Enforcement Agencies

University of Washington Tacoma is located in the upper northeast part of Tacoma, Washington, in sector 1 of the Tacoma Police Department (TPD). Campus Safety & Security maintains a close working relationship with TPD and communicates items of mutual concern on a daily basis with them. TPD dispatches officers when a crime is reported, when a Campus Security Officer requests them, or when an arrest may be made. TPD works with Campus Security officers on all levels of crimes. The Director meets with TPD officials about campus issues to discuss mutual concerns, coordinate programs, and exchange information.

Off-Campus Criminal Activity

Campus Safety & Security does not provide services for off-campus criminal activity involving students. Off-campus criminal activity is handled through Tacoma Police Department and will be redirected to the appropriate law enforcement agency. A student involved in off-campus criminal conduct may also be referred to Judicial Affairs and Mediation Services to face Conduct Council charges for violations of the Conduct Code. University of Washington Tacoma's Campus Safety and Security Director coordinates with contacts on city, county, state and national levels on a frequent basis to receive follow-up reports on criminal activities that may affect the University. Campus Safety & Security maintains a comprehensive crime prevention program. Working with other University departments, the crime prevention coordinator develops and monitors procedures and programs to promote safety and security. While it is the responsibility of each member of Campus Safety & Security to promote crime prevention throughout the university community, the coordinator is responsible for implementing Campus Safety & Security's proactive stance on crime prevention as part of its basic philosophy. This includes, but is not limited to, conducting programs, answering questions about safety and security, responding to inquiries about Campus Safety & Security's role on campus, and encouraging residents to become actively safety conscious.

To help students and employees protect themselves and their property, this unit develops and makes available to the University community a variety of educational programs and materials.

Crime Prevention and Security Awareness Programs

Campus Safety & Security presents the following programs to all faculty, staff, and students. They address specific needs of the audience and focus on individuals taking personal responsibility for their safety, avoiding unsafe situations, and using Campus Safety & Security services. The sessions (unless otherwise noted) vary in length.

- **Crime Prevention Awareness:** Educates students about living in an urban setting and using crime prevention skills. This typically is customized for the specific audience.
- **Crime Prevention through Environmental Design (CPTED) survey:** A multi-disciplinary approach to deterring criminal behavior through environmental design. CPTED strategies rely upon the ability to influence offender decisions that precede criminal acts by affecting the built, social and administrative environment. It is pronounced *sep-ted* and is known by various labels or names around the world, such as Designing Out Crime and other acronyms
- **Rape Aggression Defense (RAD) Systems for Women:** Teaches women about rape prevention and practical physical self-defense techniques (offered annually).
- **Resist Aggression with Defense (RAD) for Men:** The program's primary focus is the realistic development of basic self-defense options for men, before and during imminent or actual assault.
- **Safe Campus:** Provides students, faculty, and staff with safety tips and tools for use to prevent violence on and around campus. Encourages a proactive method to prevent violence in the workplace and on campus. Tells how to avoid becoming a victim and how to enhance safety during unexpected emergencies. Participants learn:
 - 1) The warning signs of violence
 - 2) About Safe Campus - what it is and how to use its resources
 - 3) How to respond in potentially violent situations
 - 4) What campus resources are available to assist those affected by violence?
- **Sexual Assault Awareness:** Educates individuals, primarily women, on acquaintance rape and preventive strategies to avoid dangerous dating situations. It also educates students on forms of dating violence, such as emotional and sexual abuse.
- **Emergency Preparedness and Response training:** Provides students, faculty and staff with tools on how to prepare for an emergency or disaster and to respond. For more information go to this link: [Resources Guide to Crisis or Emergencies](#).

Campus groups who sponsor these programs increase attendance and bring together individuals who have common concerns. Any interested group should contact Campus Safety & Security at 253-692-4416. The Division of Student Affairs may offer related programs on acquaintance rape, alcohol, relationships and self-defense.

Walking Security Safety Escort Service

For your safety, UW Tacoma encourages students, faculty, staff, and visitors to use the Safety Escort Program. Campus Security Officers are available to walk with you to your car or other campus destinations 24 hours a day, 7 days a week.

The service is free of charge. During busy periods, the Campus Security Officer may ask you to meet in a common location to facilitate escorting multiple people. Dial 253-692-4416 to request a Safety Escort.

Campus Safety Officers do not provide safety escorts beyond the UW Tacoma campus boundaries (between S. 17th and S. 21st Streets and Pacific and Tacoma Avenues). If you have parked at the Tacoma Dome Station garage, officers can walk with you to the Link light-rail train, but cannot ride with you to the garage. If you need a security officer to walk with you off campus we can contact BIA security officers to meet you on campus and escort you to your car within the downtown core between Tacoma Ave. and Dock St., S.25th St. and S. 4th St.

Weapons Policy

The possession or use of firearms, explosives, dangerous chemicals or other dangerous weapons or instrumentalities on the University campus, except for authorized University purposes, is prohibited by Washington Administrative Code (WAC 478-124-020 Conduct on Campus)

<http://apps.leg.wa.gov/WAC/default.aspx?cite=478-124-020>. This does not include pepper spray.

Available Crime Information and Timely Warning Notification Policy

Crime Prevention Information

You can stay up-to-date on crime in the area by checking crime prevention information posted at:
<http://www.tacoma.uw.edu/campus-safety>

At various campus events throughout the year we distribute information regarding Campus Safety & Security services and crime prevention programs. Crime prevention pamphlets can also be found at the Campus Safety & Security office at Dougan Building at 1721 Jefferson Avenue in Room 180.

Timely Warnings Notification Policy

In the event that a situation arises either on or off campus that, in the judgment of the Campus Safety & Security Director, constitutes an ongoing or continuous threat, a campus “timely warning” will be issued. The warning will be issued to students and employees in a timely manner, and it will withhold the names of victims as confidential. The goal of the warning is to aid in the prevention of similar occurrences. Depending on the particular circumstances of the crime, especially in situations that could pose an immediate threat to the community and individuals, the Campus Safety & Security Department with the UW Tacoma Crisis Communications team may employ a number of different mechanisms to notify the campus of the threat. In all cases, the warning will be issued through the university e-mail system to students, faculty, staff and the campus.

The purpose of Crime Alerts is to notify the campus community of the incident in a timely manner and to provide information that may enable community members to protect themselves from similar incidents. Crime Alerts are issued whenever the following criteria are met:

- A crime is committed;
- The perpetrator has not been apprehended; and
- There is a substantial risk to the physical safety of other members of the campus community because of this crime.
- The University determines that the incident represents an ongoing threat to the campus community.

Such crimes are include, but are not limited to, one of the following Clery crimes that are reported in good faith to any campus security authority or the local police:

- Criminal Homicide, including: Murder, /Manslaughter by Negligence;
- Sex Offenses, including Rape, Fondling, Incest, and Statutory Rape;

- Robbery;
- Aggravated Assault;
- Major Incidents of Arson; and
- All other Clery crimes as deemed appropriate.

All available information known at the time will be taken into consideration when evaluating the need for a timely warning. Those considerations include, but are not limited to:

- The nature and seriousness of the crime,
- When and where the incident occurred,
- When it was reported,
- The duration of time between the victim and perpetrator,
- The patterns or trends of other incidents,
- The continuing danger to the campus community, and
- The risk of compromising law enforcement efforts or identifying the victim.

Although each case will be evaluated on an individual basis, timely warnings will not be issued when:

- A report is filed more than five (5) calendar days after the date of the alleged incident, unless it is determined that there is a continuing threat to the community;
- A report is filed anonymously or by a third party and there is not enough information to evaluate the situation;
- The pertinent information has not been acquired;
- The suspect has been apprehended;
- The report is made in bad faith;
- There is a possible risk of compromising law enforcement efforts; or
- The incident reported does not pose an ongoing threat to the campus

Anyone with information warranting a timely warning should report the circumstances to the Campus Safety & Security Department by phone at 253-692-4888, or in person at the Campus Safety & Security Office in the Dougan Building, Room 180.

Campus Safety & Security discloses all incidents reported to the department that fall into any of the required reporting classifications as a statistic in this annual brochure.

The Campus Safety & Security Department culls the statistical data for this report from multiple sources, including the Campus Safety department's internal reporting system. The Campus Safety & Security Department also requests statistical information from all campus security authorities (as defined by Federal law) and from deans, directors, and department heads. The campus security authorities include the professional counselors on campus who are not required to report but may do so voluntarily. Members of the community are encouraged to call the police to report crimes for this annual disclosure of crime statistics.

Local police departments where the campus has facilities or holds classes are also contacted for their crime statistics in the areas where UW Tacoma reside. Crime statistics are reported in the year they were reported in and not necessarily the year in which the incidents occurred.

This publication contains information about on and off campus resources, and the campus makes this publication available to all campus community members. Offices listed are not crime reporting entities for the campus and all crimes should be reported to Campus Safety & Security Director to ensure inclusion in the annual crime statistics and to aid in providing timely warning notices to the community when appropriate. Campus Safety & Security Director submits the annual crime statistics to the Department of Education, which are available to the public on the Department of Education's website. The campus notifies enrolled students and current employees on an annual basis either electronically or via an email.

This brochure can be found online at: <http://www.tacoma.uw.edu/campus-safety/annual-safety-security-report>

Emergency Management

The University of Washington regularly updates and revises the All Hazard Emergency Management Plan. This Plan is a campus guide for management and coordination of all phased of emergency operations in the event of major events and crises that affect the campus, including major natural, technological and human caused disasters. The plan was developed to minimize the impacts of emergencies and disasters, protect the people, property, and environment, and restore the primary mission of the university. The plan meets all state and federal requirements. Campus departments are responsible for developing contingency plans and continuity of operations plans for their staff and areas of operation. For assistance on campus-wide emergency planning and coordination please go to the University of Washington Emergency Management website <https://www.washington.edu/uwem/>.

Emergency Response and Community Notification of Immediate Threat

An "immediate threat" is a significant emergency or dangerous situation on campus involving imminent danger to the health and/or safety of students, faculty, staff or guests, such as a natural disaster, act of terrorism or an active shooter. When a serious threat to campus safety occurs, UW Tacoma Campus Safety & Security coordinates with other first responders, which might include Tacoma Fire, Tacoma Police, and UW Emergency Management to properly mitigate the threat to the campus. Depending on the nature and size of the incident, other local, state and federal agencies might be called upon to assist. You will be notified about emergencies in one or more of the following ways:

- **UW Alert:** Register to be notified via cell phone, text message, campus email or personal email at www.uw.edu/alert
- **Talk-a-Phone Wide Area Broadcast System:** Broadcast phones are installed on the campus for outdoor loudspeaker announcements.
- **Campus website:** tacoma.uw.edu
- **Emergency Info Line:** 253-383-INFO (4636)

Daily Incident/Crime/Fire Log

Campus Safety & Security maintains a daily incident/Crime/Fire log, which is written in an easily understood format and describes the basic nature of the incident, date reported, general location, and the disposition, if known.

We enter new reports or update previous ones within 72 hours after receiving the information. The log records all crimes reported to Campus Safety & Security.

You can access this log at Campus Safety & Security's website:

<http://www.tacoma.uw.edu/campus-safety/campus-crime-fire-log-reports>

Listed is the most recent 60-day period of the log along with the last three years of Annual Security reports.

Classification of Crimes

Crimes listed herein are classified using the FBI Uniform Crime Reporting Handbook and relevant federal law (the Clery Act). Please see definitions at the end of this report.

For murder/non-negligent manslaughter, negligent manslaughter, rape, forcible fondling, incest and statutory rape, aggravated assault, domestic violence, dating violence and stalking the number of victims is indicated. For robbery, burglary, larceny, vandalism and arson, one offense is counted per distinct operation regardless of the number of victims.

For motor vehicle theft, each vehicle taken (or attempted to be taken) is counted separately. For liquor, drug and weapons violations, the statistics indicate each person arrested. Incidents of domestic violence, dating violence and stalking are counted according to the underlying crime—i.e., property crimes and robbery are counted by operation and crimes against persons except robbery are counted by the number of victims.

Hate crimes are not considered distinct offenses, but are crimes (such as assault or vandalism) motivated by the suspect's bias. Most hate crimes are counted in the crime statistics in this brochure. The exceptions are simple assault, intimidation, larceny, vandalism and other crimes that involve bodily injury that are not included in the required reporting categories but are reported separately as hate crimes. Starting in 2014, crimes motivated by prejudice against a victim's national origin and crimes motivated by prejudice against a victim's gender identity are also reported as hate crimes.

Reporting Criminal Actions and Emergencies

Always dial 911 for emergencies or crimes in progress on campus that require police, fire, or medical response. Students, faculty, staff, and visitors should also notify Campus Security officers.

- You can notify Campus Security officers by using any of the Campus Emergency Phones located on campus. Press the EMERGENCY button on the box will activate the telephone connection. You can begin to speak when the phone is answered, through the speaker. All exterior emergency phones are tested by patrol units on a daily basis.
- You can make reports in person at the Campus Safety and Security office or to a uniformed Campus Security officer on patrol throughout the campus. Reports made to Campus Safety & Security will be included in annual statistical compilations and the daily incident log when appropriate and will be evaluated for timely warning consideration. You can report incidents to other officials at the University of Washington Tacoma, including directors and heads of administrative units. These reports in turn will be communicated to Campus Safety & Security for disposition. These reports will also be included in annual statistical compilations.

Campus Safety & Security will help members of the UW Tacoma community contact outside law enforcement agencies such as Tacoma Police Department and other reporting authorities.

- When we receive a report of an urgent situation, we dispatch officers to the scene to lend assistance, investigate, prepare a report, and conduct follow-up as needed. We contact Tacoma Fire Department and Tacoma Police Department when appropriate.
- Campus Security officers conduct preliminary investigations of reported incidents. We contact the Tacoma Police Department, when appropriate, if any criminal information is discovered or other emergency responder agencies such as fire or medical.

Policy Statements Relating to Sexual Assault, Dating Violence, Domestic Violence and Stalking

The University of Washington is committed to establishing and maintaining a safe working and learning environment that is free from violence. The University has published policies that describe its prevention and response processes, which include:

- [Chapter 478-121 WAC - Student Conduct Code for the University of Washington](#)
- [Student Governance and Policies Chapter 209- Student Conduct Policy for Academic Misconduct and Behavioral Misconduct](#)
- [Student Governance and Policies Chapter 210 - Student Conduct Policy for Discriminatory and Sexual Harassment, Intimate Partner Violence, Sexual Misconduct, Stalking and Retaliation](#)

Pursuant to chapter 34.05 RCW and the authority granted by RCW 28B.20.130, the Board of Regents of the University of Washington established rules under the Washington Administrative Code regarding student conduct and student discipline.

Sexual misconduct is prohibited by the code, which includes committing, or aiding, soliciting, or attempting the commission of the following prohibited conduct: Sexual assault, sexual harassment, sexual exploitation, indecent exposure, relationship violence, stalking, and domestic violence. The code also prohibits retaliation against those who file a complaint, grievance, or allegation of misconduct under any University policy or rule or under any law; participate in and/or cooperate with an investigation; appear as a witness at a hearing; or oppose an unlawful act, discriminatory practice, or policy.

The University has been in the process of revising the Student Conduct Code to reflect the University's compliance with developing laws, regulations, and guidance, particularly relating to adjudicating sexual misconduct matters. Supplementary provisions relating to sexual misconduct were made effective June 30, 2015 as temporary, emergency rules, which augmented and clarified sexual misconduct as prohibited conduct under the code. These supplementary provisions were incorporated into the conduct code along with other revisions to the chapter effective March 28, 2016 as final rules. Effective August 18, 2017, the University has a new Student Conduct Code and two companion policies.

[Executive Order No. 31 – Non-discrimination and Affirmative Action](#)

This policy has the goal of promoting an environment that is free of discrimination, harassment, and retaliation. It prohibits sexual harassment, which is unwelcome and unsolicited language or conduct that is

of a sexual nature and that is sufficiently severe, persistent, or pervasive that it could reasonably be expected to create an intimidating, hostile, or offensive working or learning environment, or has the purpose or effect of unreasonably interfering with an individual's academic or work performance. This policy was revised effective June 21, 2016, to clarify that it also covers sexual violence, such as sexual assault and sexual exploitation and to clarify the intersection of this policy with Executive Order No. 51 – Sexual Violence Elimination.

Administrative Policy Statement (APS) 11.7

This policy prohibits domestic violence in the workplace and outlines prohibited behavior and University notifications, response and resources. It also, in accordance with state law, provides reasonable leave from work, intermittent leave, or leave on a reduced schedule so that an employee who is a victim of domestic violence, sexual assault, or stalking, or who has a family member who is a victim of domestic violence, sexual assault, or stalking may seek legal or law enforcement assistance, seek treatment by a healthcare provider, obtain or assist a family member to obtain mental health counseling, participate in safety planning to temporarily or permanently relocate or take other safety-related action to provide for the employee or family member's safety.

Administrative Policy Statement 11.8 – Reporting Suspected Child Abuse or Neglect

This policy prohibits child abuse. Suspected perpetrators of child abuse, including University employees, volunteers, or students, may be removed from the premises and may be subject to arrest and criminal prosecution. Employees, volunteers, or students who engage in child abuse in the workplace, or who use University facilities, property, or resources to engage in child abuse are subject to disciplinary action, including dismissal from employment, engagement, or from educational programs. Additionally, all University employees and volunteers who have reasonable cause to believe that a child has suffered abuse or neglect must immediately report the suspected abuse or neglect to law enforcement or the Department of Social and Health Services. A child is anyone under the age of 18.

Workplace Violence Policy

The University's Workplace Violence policy prohibits behavior, whether direct or through the use of University facilities, property or resources that: is violent; threatens to harm; harasses or intimidates others; interferes with an individual's legal rights of movement or expression; disrupts the workplace, the academic environment or the University's ability to provide services to the public. These behaviors include relationship violence and stalking.

Executive Order No. 51 – Sexual Violence Elimination

This presidential policy prohibits the following behavior by members of the University community including students, employees, and members of the public when the University determines that an individual's behavior affects a University interest:

- Domestic violence
- Relationship violence
- Stalking
- Sexual assault

The policy also prohibits retaliation against any individual who seeks resources, makes a referral, reports concerns, or who cooperates with or participates in any investigation of allegations of violations of this policy, or who is perceived to have engaged in any of these actions. This policy became effective June 26, 2016, to comply with the Clery Act, including clarifying institutional definitions relating to sexual misconduct, describing reporting options and grievance processes, and identifying the University's confidential advocates.

Executive Order No.54 Employee -Student Romantic Relationships and Conflict of Interest

This presidential policy prohibits all University employees or appointees, including faculty and other academic personnel, staff (e.g. coaches and academic advisors), temporary staff, academic student employees, and student employees (e.g. Resident Advisors) from:

- Engaging in a romantic relationship with a student that creates an actual conflict of interest or could be perceived to create conflict of interest; or
- Exercising authority over a student with whom the employee has or has had a romantic relationship that creates an actual conflict of interest or could be perceived to create conflict of interest.

The above are prohibited unless they can be effectively managed through an acceptable plan. This policy is in addition to [Executive Order No. 32](#), Employee Responsibilities and Employee Conflict of Interest.

The law is gender neutral and recognizes that domestic violence occurs between members of the same or any sex.

“Dating relationship” means a social relationship of a romantic nature. Factors include: (a) The length of time the relationship has existed; (b) the nature of the relationship; and (c) the frequency of interaction between the parties.

Stalking

The crime of “stalking” is defined in RCW 9A.46.110 under the classification of crimes of “Harassment.” There is also a separate crime of “cyberstalking” under RCW 9.61.260 (the Malicious Mischief-Injury to Property crimes).

- (c) The stalker either:
 - I. Intends to frighten, intimidate, or harass the person; or
 - II. Knows or reasonably should know that the person is afraid, intimidated, or harassed even if the stalker did not intend to place the person in fear or intimidate or harass the person.

RCW 9.61.260(1) – Cyberstalking

A person is guilty of cyberstalking if he or she, with intent to harass, intimidate, torment, or embarrass any other person, and under circumstances not constituting telephone harassment, makes an electronic communication to such other person or a third party:

Educational Programs and Campaigns

The University is committed to providing prevention and awareness programs to students and employees relating to domestic violence, relationship violence, stalking, sexual assault, and retaliation. These include primary prevention and awareness programs directed at new students and new employees and ongoing

prevention and awareness campaigns directed at students and employees. These programs and campaigns include information about:

- University policies prohibiting domestic violence, relationship violence, stalking and sexual assault;
- The Revised Code of Washington definitions of domestic violence, relationship violence, stalking, sexual assault, and consent under Washington State law;
- Bystander intervention techniques;
- Risk reduction options to reduce perpetration and increase individual and community safety, and to empower individuals to act on their own behalves; and
- The rights, processes, and resources provided by the University.

These educational programs are evidence-based, culturally relevant, inclusive of diverse communities and identities, sustainable, responsive to community needs, and informed by research or assessed for value, effectiveness, or outcome. These programs consider environmental risk and protective factors as they occur on the individual, relationship, institutional, community, and societal levels.

Student Support Programs

The Division of Student Affairs at the University of Washington Tacoma provides a variety of services and activities to support the enrollment, academic success and wellbeing of all UW Tacoma students. Student Support programs include but not limited to Advocacy and Support, Career Development and Education, Disability Resources for Students, Student Health Services, and Safe Campus.

Beginning with orientation, several educational programs are offered to support the health, safety and well-being of students

Building Healthy Workplaces: Community Prevention Strategies & Bystander Skills

UW Safe Campus provides this free training to faculty and staff about prevention strategies that you can use to create a workplace that inhibits harassment and violence. The training focus on community strategies you can apply in your workplace and on individual skill-building. Participants will practice the skills of bystander intervention, micro-affirmations, calling in/out and receiving feedback. The training will discuss supporting survivors and resources available at the UW.

- Version 1 Emphasis: Sexual harassment and gender discrimination
- Version 2 Emphasis: Gender-based violence, including relationship violence, stalking and sexual harassment

EPIC: Empowering Prevention & Inclusive Communities

EPIC is a program to prevent sexual harassment and gender discrimination provided by UW Safe Campus. EPIC was created by and for UW academic student employees and postdoctoral scholars—including graduate and undergraduate teaching assistants, research assistants, staff assistants, graders and tutors. Trainers will discuss how individuals can create prevention-focused culture change in academia. They will examine sexual harassment and discrimination and its impacts, provide space for individual and community skill-building, and

discuss supporting those who experience harassment. Trainings will be tailored to individual departments, workplaces and graduate student, undergraduate student, and postdoc communities.

New Student and Family Programs

New Student and Family Programs is committed to helping incoming students and their families make a successful transition into the campus community. Orientation, a program in which students are introduced to academic expectations, student life, and campus resources, covers various sessions including Self-Care, Student Rights and Responsibilities and Sexual Harassment/Assault and Prevention and Awareness.

Inter-collegiate Athletics

The university provides regular training and educational programs designed for its student athletes relating to sexual violence, healthy relationships, alcohol and drug abuse, consent, and interpersonal violence. **The UW Tacoma campus currently does not participate in intramural sports programs, and does not have any inter-collegiate athletic relations.**

Fraternities and Sororities

Although fraternities and sororities are independent organizations located off-campus on property not owned or controlled by the university, there has been a long-standing and positive relationship between the university and the Greek Community. The university enters recognition agreements with fraternities and sororities that seek official recognition by UW. For the past four years, the university's recognition agreements have included an educational programming section requiring each chapter to conduct at least one educational program on sexual assault and relationship violence and one program on controlled substance abuse awareness. **The UW Tacoma campus currently does have any recognized fraternity or sorority chapters.**

Sexual Harassment Prevention

Human Resources provides a New Employee Orientation and an in-person Prevention of Sexual Harassment training for all new staff members, which they are expected to complete within two months of hire. The program introduces new employees to the University's culture, shared values, leadership and key policies.

Additionally, individual schools, colleges, and administrative departments offer their own training programs for new employees and current employees. Other educational programs have been developed through collaboration with Live Well and Safe Campus emphasizing University employees in roles that have a high degree of interaction with students.

Procedures Victims Should Follow in the Case of Alleged Dating Violence, Domestic Violence, Sexual Assault, or Stalking

The University has created a [Sexual Assault Resources](#) website for those impacted by sexual assault, dating/relationship violence, domestic violence, or stalking. This website provides comprehensive information about the available resources, reporting options, and University response policies and procedures. Following are the steps an individual who has experienced sexual misconduct may take.

Contact the University's Confidential Advocates

Individuals are urged to contact one of the University's confidential advocates, who can provide a private place for individuals to seek support, information, and assistance. They can also provide individuals with support in taking any or all of the following steps.

Disclosures made to a confidential advocate do not constitute a report to the University for the purposes of initiating an investigation. Individuals have the right to report sexual misconduct to the University, to the police, to both or not at all. If individuals do choose to report to the police or the University, the advocates can provide individuals with information and support in reporting.

The advocates can also assist with how to apply for Orders of Protection, regardless of whether individuals make a police report. Orders of Protection can make it illegal for a person to contact individuals. The advocates can also assist individuals with implementing an order at the University.

Advocates have limitations to confidentiality when on notice of:

- Abuse and neglect of a child under the age of 18
- Elder abuse or the abuse of a disabled adult
- A plan for suicide or harm to others

Confidential advocates may also be required to disclose information that is otherwise protected from disclosure in response to a valid subpoena or court order.

Seek Medical Care and Forensic Exams

Individuals are urged to seek medical care. Medical care after a sexual assault can be helpful for treating or preventing illness and injury. It is also an important way to preserve evidence. Not all hospitals provide forensic exams/rape kits. If individuals are interested in evidence collection, as well as medical care, individuals must go to a hospital with trained Sexual Assault Nurse Examiners (SANE). SANE nurses are specially trained to work with patients who have been sexually assaulted. Important things to know:

- Individuals are not required to make a police report to get a SANE exam.
- There is no charge for a SANE exam.
- Individuals may bring a friend or family member with them.
- Preserving evidence keeps options open in case individuals decide to report.

It is recommended to be treated as soon as possible; evidence is best collected within 120 hours (five days) of the assault.

Information relating to local hospitals and SANE nurses is available on the [Sexual Assault Resources](#) website.

Seek Support for Safety Planning

The confidential advocates can also provide support in safety planning. The University can assist individuals by implementing safety measures, such as arranging for housing, academic and work accommodations, and/or providing assistance with transportation planning. These safety measures can be implemented when reasonably available and may be on an interim or permanent basis. The University will maintain the confidentiality of any safety measures provided to the extent practicable. Safety measures are available whether or not a report is made to the University or local law enforcement.

Seek Counseling

For support, the University offers several options for counseling services. Counseling can assist with recovery from a traumatic experience.

For Students

UW Tacoma Counseling & Psychological Services offers free short-term counseling services

253-692-4522

www.tacoma.uw.edu/counseling

For Employees

UW CareLink is an employee assistance program for benefits-eligible faculty and staff that can provide counseling support.

1-866-598-3978 (TTY: 1-877-334-0489)

hr.uw.edu/worklife/uw-carelink

State law protects the confidentiality of counseling relationships. However, counselors also have limitations on confidentiality when on notice of:

- Abuse and neglect of a child under the age of 18
- Elder abuse or the abuse of a disabled adult
- A plan for suicide or harm to others

Information retained in healthcare records that is otherwise protected from disclosure, may be subject to disclosure in response to a valid subpoena or court order.

Seek Disability Accommodations

If individuals are experiencing impacts of a medical condition or the experience has triggered an existing condition, they should consider seeking accommodations through the disability support offices:

Consider Reporting to the University

The University provides procedures for the investigation and resolution of complaints relating to domestic violence, relationship violence, sexual assault, stalking or retaliation. The University will respond to complaints regardless of whether a complaint is filed with a law enforcement agency.

Effective May 16, 2016, the University created the Title IX Investigation Office, which is responsible for investigating allegations that a University student has violated the sexual misconduct provisions of the Student Conduct Code. Previously, such allegations were investigated by Community Standards and Student Conduct. Following is the contact information:

Title IX Investigation Office

206-616-5334 or tixinv@uw.edu

Complaints that any University employee has violated Executive Orders No. 31 or 51 can be made to the University Complaint Investigation Resolution Office (UCIRO). This includes complaints involving faculty and other academic personnel, staff, Academic Student Employees (ASEs), and student employees. Following is the contact information:

University Complaint Investigation Resolution Office (UCIRO)

206-616-2028 or uciro@uw.edu

Human Resources may also respond to and investigate complaints involving University employees:

- Campus Human Resources — for complaints involving UW Seattle staff, UW Bothell staff, and UW Tacoma campus staff employees, including student employees. 206-543-2354
- Harborview Medical Center (HMC) Human Resources — for complaints involving HMC staff employees, including student employees. 206-744-9220
- UW Medical Center (UWMC) Human Resources — for complaints involving UWMC staff employees, including student employees. 206-598-6116

Consider Reporting to Law Enforcement

Tacoma Police Department supports members of the University community with its Sexual Assault Response Commitment that pledges to assist with courtesy, sensitivity and professionalism. Reporting the incident to the police is encouraged regardless of the availability of evidence.

UW Tacoma Campus Safety & Security also has long, collaborative relationships with Tacoma Police Department. These departments have recently entered into a memorandum of understanding that confirms and clarifies this collaboration, including how information is shared between these departments.

Seek Supportive Measures

If individuals decide they want the University to conduct an investigation or they make a report to the police, the University will evaluate and implement supportive measures designed so that they can avoid contact with the other person while an investigation is ongoing. The types of supportive measures that University can put in place will depend on their unique circumstances and needs and the impacts on the other person.

Options for supportive measures may include, but are not limited to:

- Issuing a no-contact directive that prohibits contact between them and the other person, including within student organizations;
- Reassignment of the other person in University housing; and/or
- Adjusting the other person's campus work or academic schedules.

Seek Other University and Community Resources

The University has a variety of other services available including legal assistance, visa and immigration assistance, and student financial aid assistance. Information about available services at the University and in the local community can also be obtained from a confidential advocate or on the Sexual Assault Resource webpage.

Procedures the University will follow in the Case of Alleged Dating Violence, Domestic Violence, Sexual Assault, or Stalking

When students or employees report to the University that they have experienced sexual assault, dating/relationship violence, domestic violence, or stalking, they will be provided with written notification of:

- The importance of preserving evidence as may be necessary to the proof of a crime or in obtaining a protection order;
- To whom the alleged offense may be reported, including options regarding law enforcement and campus authorities and their option to
 - Notify proper law enforcement authorities, including on-campus and local police;
 - Be assisted by campus authorities in notifying law enforcement authorities if they choose; and
 - Decline to notify such authorities;
- Their rights and the University's responsibilities regarding orders of protection, no contact orders, restraining orders, or similar lawful orders issued by a criminal, civil, or tribal court;
- Procedures for disciplinary action in cases of alleged domestic violence, dating violence, sexual assault, or stalking, which will:
 - Provide a prompt, fair, and impartial investigation and resolution
 - Be conducted by officials who receive annual training on the issues related to domestic violence, dating violence, sexual assault, and stalking and how to conduct an investigation and hearing process that protects the safety of those involved and promotes accountability;
 - Provide the complainant and respondent with the same opportunities to have others present during a disciplinary proceeding, including the opportunity to be accompanied to any related meeting or proceeding by an advisor of their choice;
 - Simultaneously inform the complainant and the respondent, in writing, of the outcome of any disciplinary proceeding; the University's procedures for the complainant and respondent to appeal the results of the disciplinary proceeding, if available; of any change to the results that occurs prior to the time that such results become final; and when the results become final.
- Possible sanctions or protective measures that the University may impose following a final determination of a disciplinary procedure;

- Information about how the University will protect their confidentiality, including how publicly-available recordkeeping will be accomplished without the inclusion of identifying information, to the extent permissible by law;
- Information about existing counseling, health, mental health, victim advocacy, legal assistance, and other services both on-campus and in the community;
- Options for, and available assistance in, changing academic, living, transportation, and working situations, if requested, and if such accommodations are reasonably available, regardless of whether they choose to report the crime to campus police or local law enforcement.

The University has designated a Title IX Coordinator to oversee implementation of university policy and facilitate the university's compliance with Title IX and related authority. The University's Title IX Coordinator is available to review individual concerns relating to compliance and to provide compliance support for programs, departments, schools, colleges, and campuses relating to discrimination based on sex:

Procedures for University Investigation and Disciplinary Action

The process the University will follow to investigate and resolve the complaint depends on the relationship to the University of an Individual against whom the complaint is made. The University's processes for investigation and resolution of complaints are as follows:

- [Administrative Policy Statement 46.3](#), Resolution of Complaints Against University Employees
- [Faculty Code and Governance](#), Chapters 25–28
- [Chapter 478-121 WAC - Student Conduct Code for the University of Washington](#)
- [Student Governance and Policies Chapter 209- Student Conduct Policy for Academic Misconduct and Behavioral Misconduct](#)
- [Student Governance and Policies Chapter 210 - Student Conduct Policy for Discriminatory and Sexual Harassment, Intimate Partner Violence, Sexual Misconduct, Stalking and Retaliation](#)

Investigations are designed to provide a prompt, fair, and impartial complaint investigation and resolution, and to equitably protect the rights of individuals participating in the investigation. Participants may be supported by an advisor that may be an attorney throughout the process. The following is general information about the investigation process.

The individuals who conduct University investigations or participate in University hearings receive, at a minimum, annual training on the issues related to domestic violence, relationship violence, stalking, sexual assault, and retaliation and on conducting investigations and hearings that fosters safety, equitable treatment of the parties, and that promote accountability.

First, a staff member of the investigation office meets with each complainant to gather information about the complaint and to provide information about the complaint process, including the complainant's rights and options under this and other University policies. After initial review of the complaint, the complainant will be informed of the action the University will take.

Before an investigation is opened, protective measures will be considered and implemented as they are reasonably available. Protective measures may include changing academic, living, transportation, and/or working arrangements, and taking steps to limit contact between the individuals involved. As necessary, investigation offices will assist individuals potentially at risk with safety planning, either directly or with the assistance of other University offices, such as the confidential advocates or Safe Campus.

When an investigation is opened, the subject of the investigation will be provided with a written explanation of their rights and options under this and other relevant University policies and information about the investigation process. The assigned investigator will gather evidence, conduct interviews of the complainant, subject, and witnesses. During the investigation, the complainant and the subject will have the opportunity to identify witnesses and provide the investigator with evidence. The University strives to complete the investigation within 60 days.

The University uses a "preponderance of evidence" standard to determine whether a violation of University policy has occurred. "Preponderance of evidence" means that based on all of the relevant evidence, the facts demonstrate that it is "more likely than not" that the subject of the investigation violated one or more University policies.

The complainant and the subject of the complaint will concurrently be informed in writing of the result of the investigation, the rationale for the result, and whether there is an option to appeal a result. The result includes any initial, interim, or final decisions. The University's goal is to complete investigations within 60 business days. This timeframe may need to be extended depending on the complexity of the matter or to coordinate with law enforcement.

The University follows the Student Conduct Code or the Faculty Code in matters where a University student or faculty member is the subject of a complaint. In accordance with these processes, a hearing may be convened to assess the evidence relating to the complaint, make findings, and determine appropriate actions, if any. The complainant and subject will be concurrently informed in writing of the result of the hearing, the rationale for the result, and whether there is an option to seek an appeal. The result includes any initial, interim, or final decisions.

Information relating to an investigation is kept confidential by the investigation offices and is provided only to those persons who have a legitimate educational or business need to know, including the subject of the complaint, witnesses, the administrative head of the University unit involved, the Title IX Coordinator, and the appropriate human resources staff and/or the Provost's Office, as necessary. Some information relevant to the investigation may be protected from disclosure, such as healthcare information protected by the Health Insurance Portability and Accountability Act (HIPAA) or student records protected by the Family Educational Rights and Privacy Act (FERPA).

Confidentiality and Recordkeeping

Information relating to an investigation is kept confidential by the investigation offices and is provided only to those persons who have a legitimate educational or business need to know, including the subject of the complaint, witnesses, the administrative head of the University unit involved, the Title IX Coordinator, and the appropriate human resources staff and/or the Provost's Office, as necessary.

Records retained by University offices may be subject to disclosure under Chapter 42.56 RCW, the Washington State Public Records Act, unless otherwise protected from disclosure by law. Some information, such as healthcare information protected by the Health Insurance Portability and Accountability Act (HIPAA) or other state laws, student records protected by the Family Educational Rights and Privacy Act (FERPA), or information that is otherwise exempt from the Public Records Act, will not be subject to disclosure under that Act. Information retained in University records that is otherwise protected from disclosure, may be subject to disclosure pursuant to a valid subpoena or court order.

In accordance with the Clery Act, the University must also disclose statistical information relating to crimes of domestic violence, relationship violence, stalking, sexual assault, in its annual security report and issue timely warnings. This reporting is done without disclosing personally identifying information relating to the victim of such crimes, including information likely to disclose the location of the victim.

Available Sanctions

A University community member who engages in behavior in violation of University policies is subject to corrective or disciplinary action, including but not limited to, termination of employment, termination from educational programs, or termination of any non-employment relationship. The available sanctions depend on the relationship to the University of the person against whom the complaint is made:

- Sanctions which may be imposed against faculty are set forth in the Faculty Code
- Sanctions which may be imposed against students are set forth in Chapter 478-121 WAC, Student Conduct Code for the University of Washington, and companion policies, Student Governance and Policies Chapters 209 and 210
- Sanctions which may be imposed against contract classified staff and other represented University employees are set forth in the relevant University of Washington labor contract
- Sanctions which may be imposed against classified non-union staff are set forth in Title 357 WAC and in Administrative Policy Statement 43.16, Corrective Action Policy for Permanent Classified Non-Union Staff
- Sanctions which may be imposed against professional staff are set forth in Administrative Policy Statement 42.1, Professional Staff Program, and the University of Washington Professional Staff Program details
- Sanctions which may be imposed against those in librarian appointments are set forth in the Librarian Personnel Code
- Sanctions against other individuals will depend on the nature of their relationship with the University

Individuals may also be removed from University premises, temporarily or permanently banned from the University premises, and/or subject to arrest and/or criminal prosecution.

Sex Offenders

In accordance to the Campus Sex Crimes Prevention Act of 2000, which amends the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act, the Jeanne Clery Act, the Family Educational Rights and Privacy Act of 1974, and Adam Walsh Child Protection and Safety Act of 2006 (42 U.S.C. 16921),

the University of Washington provides a link to the Washington State Sex Offender Registry. All sex offenders are required to register in the State of Washington. Institutions of higher education in Washington are notified if that person is employed, carries a vocation or is a student at that institution.

<http://www.waspc.org/sex-offender-information>

In addition, all sex offenders are required to deliver written notice of their status as a sex offender to the University of Washington Tacoma Campus Safety and Security department no later than three (3) business days prior to their enrollment in, employment with, volunteering at or residence at the University of Washington Tacoma. Such notification may be disseminated by the University of Washington Tacoma to, and for the safety and well-being of, the campus community, and may be considered by the University of Washington Tacoma for enrollment and discipline purposes.

Missing Person Policy and Protocol

In compliance with the Higher Education Opportunity Act (P.L. 110-315), UW Tacoma maintains a missing student policy for UW Tacoma students living on-campus, which includes the option to register a confidential contact for investigation of a missing person, how to report a missing person, and notification protocol for persons determined to be missing.

Registering a Confidential Contact

It is also UW Tacoma's policy to notify parents or guardians of students less than 18 years old who are not legally emancipated within 24 hours of being determined missing. Parent or Guardian contact information must be provided upon move in to the Residential Life Staff.

Emergency Contact Information

At the beginning of each academic year, all students residing in on-campus housing will be notified of the following:

- Students will have the opportunity to identify a contact person or persons through their electronic housing operations.
- The University will notify the designated person or persons within 24 hours of the determination that the student has been determined to be missing by law enforcement.
- This contact information will be confidential and will be accessible to authorized University officials, and it will not be disclosed except to law enforcement personnel involved in a missing person investigation.
- For students who are 18 years of age or older, this notification to the designated emergency contact person will be done within but no later than 24 hours after the student is determined to be missing. For students under 18 years of age and not emancipated, the University must notify the student's custodial parent or guardian within 24 hours of the determination that the student is missing and will also notify the student's designated emergency contact person.
- The University will also notify the appropriate law enforcement agency within 24 hours of the determination that the student is missing whether or not the student identifies an emergency contact person.

Student Affairs has developed methods for collection of emergency contact information and for storage of information in such a manner that confidentiality can be maintained but assure that the information is readily available to law enforcement investigators when needed.

How to Report a Missing Person

If you believe a person is missing, you can report to any of the following law enforcement or campus security authorities on campus:

- Tacoma Police Department: Dial 911
- Campus Safety & Security Department: Dial Emergency number: 253-692-4888

If you report a missing person to any UW official, that official must make a report to the local police authority immediately.

Missing Person Protocol

When UW Tacoma employees receive a report of a student who is missing more than 24 hours and lives in student on-campus housing, University protocol includes the following, which must be performed within 24 hours of receiving the report:

- UW Tacoma employee notifies Campus Safety & Security and Tacoma Police.
- An administrator accesses the missing student's confidential contact and releases the information to police or to the confirmed requesting law enforcement agency.
- Either UW Tacoma or a law enforcement agency notifies the missing student's emergency contact (typically parent(s) or guardian(s)) if he/she is less than 18 years old and not legally emancipated.
- The Police Department will initiate a police investigation for a missing person and will notify the appropriate law enforcement agency of all confirmed missing students as necessary. Additionally, if a student registers multiple emergency contacts, a UW Tacoma official and/or Police will contact all registered persons even if one of the contacts states the student is not missing, unless the person reported missing contacts UW Tacoma or the law enforcement agency. Police will document all unsuccessful attempts at locating the missing person as part of their investigation.

Access to Campus Facilities

University of Washington Tacoma has an open environment allowing individuals to move freely around the campus; however, the University restricts access to its facilities to members of the academic community and bona fide guests. This open environment makes all members of the University community responsible for immediately reporting suspicious activity to Campus Safety & Security. You should report suspicious incidents, activities, or persons to Campus Safety & Security (253-692-4416) as soon as possible. Your vigilance is essential in helping Campus Safety & Security promote campus safety and reduce campus crime.

In order to uphold this policy, all students, faculty, and staff must have a University of Washington Tacoma ID card and present it when requested by a University official. Individuals whom Campus Safety & Security officers challenge for suspicious activity must identify themselves and present student, employee, or other identification, as requested. Individuals who do not have legitimate reasons for being on campus or in a University building, and who refuse to comply with a request to leave, may be subject to being trespassed from the campus or arrested by Tacoma Police Department if criminal activity is determined to have taken place.

Grounds

Access to the grounds is generally not controlled. The University, facilities and adjacent unlit areas are closed at dark. Campus Safety & Security officers will question individuals observed displaying suspicious behavior, or suspected of unlawful acts. Campus Safety & Security stresses no one should hesitate to contact them with any suspicion regarding their own or someone else's safety.

Academic and Administrative Buildings

Buildings are open during regular business and class hours. Instructional facilities are generally open from 7:00 a.m. to 10:00 p.m., Monday through Thursday and on Friday and Saturday from 7:00 a.m. to 5:00 p.m., while classes are in session. Other areas may be open for 24-hour use during exam periods or for other special needs as requested. Campus Security officers lock and unlock exterior building entrances in accordance with the building's schedule. They admit individuals to locked buildings and areas only if they have valid identification and written authorization.

Court 17: On-Campus Student Housing

UW Tacoma offers students the opportunity to live on-campus in a community-based living environment. As a resident in Court 17, a student will have the opportunity to live with other UW Tacoma students in a supportive and inclusive community. The apartments are locked 24 hours a day, and have an electronic system control access. Residents and visitors enter through the main entrance only. Residents use a magnetic

access card to open the building door that is issued by UW Tacoma Housing & Residence Life. Residents are held responsible for the actions of their guests. We encourage students to lock their room doors at all times.

Off-Campus Student Housing

University of Washington Tacoma does not provide off-campus housing but has listings of available housing in the area. Students should contact landlords directly about rentals or property. These listings are updated regularly and can be found here: <http://www.tacoma.uw.edu/residence-life-housing/campus-housing>

Emergency Phones

Emergency phones are two-way call boxes, mounted on standalone towers or pillars with blue lights on top. These telephones automatically connect to the Campus Safety & Security office—just press the button on the box. If you need help, this allows you to speak directly with a Campus Safety and Security officer. Eleven emergency telephones are strategically located on the grounds of the University. The location of an activated telephone is displayed in the Campus Safety & Security office so that officers can be dispatched to investigate, even if there is no voice communication.

Note: You may dial #333 from any on-campus telephone to contact Campus Safety & Security but in an emergency dial 911 to be connected with Tacoma Police Department for assistance.

Alarm Systems

Areas in academic and administrative buildings are connected to intrusion alarms that report to an external alarm company who monitors those areas. If an alarm is tripped then the alarm company calls Tacoma Police who respond along with Campus Safety & Security. There is also fire, priority, supervisory and trouble alarm panels in each main University building and in the Campus Safety & Security office. Upgrades and expansions of these systems are planned and installed annually. These alarms are monitored by Campus Safety & Security, the external alarm companies and also sound an audible alert.

Security Consideration in Maintenance

Campus Safety & Security officers routinely check lighting on campus during regularly assigned patrols. When they find lights that are out or dim, they initiate a work order for Facilities Services (FS). FS maintains University facilities with safety and security in mind. University officers and FS work closely together to identify any broken doors, windows, locks, lights, or other hazards. These items receive expedited maintenance action.

We encourage all members of the University to promptly report any unsafe facility conditions by calling 253-692-5700 or e-mail them at facility@uw.edu. It is illegal to sell alcohol without a permit and no one under the age of 21 is permitted to consume or possess alcohol. Alcohol abuse will not be tolerated under any circumstances. This policy permits the responsible use of alcohol in moderation by persons of legal drinking age and in accord with these guidelines.

Guidelines and Procedures for the Sale or Serving of Alcoholic Beverages on Campus

General guidance for the sale or serving of alcoholic beverages on campus can be found in the [UW Administrative Policy Statement 13.9](#) and [WAC 478-136-030](#). Specific guidelines and procedures applicable to the UW Tacoma campus are described below.

Noncompliance by individuals or groups with these guidelines and procedures, or with any of the laws or regulations regarding the sale or serving of alcohol at UW Tacoma, may jeopardize future use of campus facilities and may result in other disciplinary or legal actions as deemed appropriate.

Faculty, Staff and Non-University Groups

Serving alcohol at an event in UW Tacoma facilities by faculty, staff and members of the external community will require the following:

1. Compliance with all the requirements of UW Administrative Policy on the Sale and Serving of Alcoholic Beverages (Administrative Policy Statement 13.9) and Washington Administrative Code (WAC 478-136-030). Among these requirements and UW Tacoma procedures suggested by these requirements are:
 - Alcohol may not be possessed or consumed by anyone under the age of 21;
 - Persons under 21 may attend an event if there are effective safeguards to prevent the consumption of alcohol by minors. Safeguards should be in the form of entry control, identification of minors and supervision of the service bar;
 - Alcohol will not be served to anyone who appears intoxicated;
 - Non-alcoholic beverages and food will also be available at the event;

- Serving of alcoholic beverages must be complimentary to and part of the planned event program;
 - “No-host” bars (which charge for alcohol by the drink) are not permitted except with licensed servers or bartenders;
 - Individual event participants cannot bring their own alcoholic beverages;
 - The serving of alcohol at the event cannot be advertised in UW Tacoma press releases, printed ads, posters or similar media.
 - Alcohol must be consumed only within the approved designated area for the event;
 - Special security and other requirements for the event may result as part of the Use of University Facilities (UUF) process.
 - All University-sponsored or University-funded events held off-campus where alcohol will be served must receive prior approval for the serving of alcohol through the Office of the Chancellor.
2. Submission of the forms will be reviewed by designated University official for approval before the date of the scheduled event. This process will include the following:
- Acquisition of a Banquet Permit (per RCW 66.24.481) authorizing the service and consumption of liquor at a banquet or organized gathering at a specified date and place or a Special Occasion License (per RCW 66.24.380) authorizing the sale of alcoholic beverages at a special occasion on a specified date and place. Acquiring this permit or license can be a lengthy process and should be applied for well in advance of the planned event. The Banquet Permit or Special Occasion License must also be posted in a conspicuous place within the designated area during the event;
 - Completion and approval of an Alcohol Service request Form available on line on the Use of University Facilities website at least two weeks prior to the scheduled event. Among other conditions, these forms require:
 - a. Compliance with all UW Tacoma Use of University Facilities (UUF) forms and procedures.
 - b. For large events (as determined by the Office of the Chancellor), alcohol must be served by a licensed vendor who also provides options for food and non-alcoholic beverages as part of the menu for the event. The vendor will be responsible for identifying underage individuals and ensuring compliance with state law and control board regulations regarding alcohol sale and service, but at least one signatory must be present for the event.
 - c. For small events (as determined by the Office of the Chancellor), signatories for the event will be responsible for identifying underage individuals and ensuring compliance with state law and Liquor Control Board regulations regarding alcohol sale and service. Signatories may employ licensed bartenders, but at least one signatory must be present at all times to oversee the event.

Additional Information

Questions about the Alcohol Policy should be directed to the Office of the Chancellor. The University reserves the right to amend this policy in accordance with local and federal laws, community standards, or the best interests of the University.

Drug Policy

Possession and/or use of illicit drugs and unauthorized controlled substances are contrary to University policy and in violation of federal and Washington state laws. The University prohibits the possession, use, manufacture, distribution and/or sale of illegal drugs and illegal paraphernalia. Students, staff or faculty at the University using or otherwise involved with drugs in violation of University drug policy are subject to University disciplinary action, in addition to any action taken by local or federal law enforcement authorities. Information regarding the drug policy can be found here:

<http://www.tacoma.uw.edu/campus-safety/policies-laws?panel=1#drug-policy>

Cooperation with Law Enforcement Authorities

The University cooperates fully with law enforcement authorities. Violations of the Code of Conduct or on-campus housing, which are also violations of federal or local law, may be referred to external enforcement. In such situations, cases may proceed concurrently at the University and in the criminal justice system.

University Sanctions for Violating Alcohol and Drug Policies

Students and employees who are found to be in violation of this state prohibition may be subject to arrest and conviction under the applicable criminal laws of local municipalities, the state of Washington or the United States. Conviction can result in sanctions including probation, fines and imprisonment. While the University will make every reasonable effort to assist employees who make it known that they have an alcohol or drug abuse problem, it will not intrude upon the private decisions of its employees who are responsible for resolving any alcohol or drug abuse problems they may have. Unresolved job performance problems that result from alcohol or drug abuse are grounds for disciplinary action, including termination. Students found in violation of this stated prohibition are also subject to discipline in accordance with the requirements and procedures of the Student Conduct Code (Chapter 478–121 WAC). Discipline may include disciplinary probation, suspension or dismissal from the University.

Fire Safety Report

The Higher Education Act of 2008 requires disclosure of fire safety standards and measures for on-campus student housing facilities. This report herein includes fire statistics for the three most current years, fire safety systems installed in each housing building, number of fire drills supervised each year, policies on ignition sources (smoking, open flame, portable electrical appliances, etc.), procedures for fire evacuation and policies on fire safety education and training for the UW Tacoma campus. For questions regarding the Fire Safety portion of this report, please call the Director of Campus Safety & Security at 253-692-4425.

Fire Definitions

The Higher Education Act of 2008 defines a fire as "any instance of open flame or other burning in a place not intended to contain burning or in an uncontrolled manner." The Department of Education (ED) 2011 *Handbook for Campus Safety and Security Reporting* has clarified fires to not include incidents where "there is no open flame or other burning." This report reflects the handbook criteria.

Fire Statistics 2016, 2017, 2018

UW EH&S Fire Safety investigates reported fires. The three most current calendar years of fire statistics are listed below.

Fire Safety Systems in Student Housing and Fire Drills

A fire drill is an exercise performed by trained staff to prepare and evaluate the occupants on their efficiency and effectiveness to carry out emergency evacuation procedures. During a fire drill, occupants are to practice safely evacuating the building, calling for help, gathering at the assigned Evacuation Assembly Point and assisting others if needed. The chart below indicates the fire safety systems and fire drills conducted.

Building Name	Automatic Sprinkler Protection	24-hour Monitored Fire Alarm System	Fire Extinguishers	Manual Pull Station	Smoke Detectors in Rooms	Carbon Monoxide Detectors	# of Fire Drills

Policies and Rules in Housing Facilities

Smoking & Smoke Detection Devices

Smoking is not allowed in University of Washington Tacoma buildings, either inside of the building or within 25 feet of any building. Communal smoking devices, such as a hookah, are not permitted within the apartment, even if unlit or intended to be decoration. Removal or tampering with the smoke detection device is strictly prohibited. Student is responsible for testing this device at least once per month.

Incense

The burning of incense is prohibited, except if approved in writing by the Residence Life Coordinator for religious ceremonies.

Equipment

Student will not use or possess prohibited equipment or appliances including, but not limited to, halogen lamps, space heaters, and air conditioners.

Fire Safety Equipment and Emergency Evacuation

Student life and the lives of student's friends and neighbors could depend on the operation of fire safety equipment. False alarms, arson, abuse of fire and life safety equipment, propping open fire doors and failure to comply with alarms are serious violations. Violators are subject to fines, University disciplinary procedures and criminal prosecution. Student may not, under any circumstances, tamper with smoke or heat detectors, sprinklers, fire extinguishers or any alarm system. If cleanup and/or repair is required as a result of Student's tampering with any fire safety equipment, Student will be billed for the associated costs. The maintenance staff will enter Student's Unit periodically to check the smoke detectors. In the event of an alarm, leave the building through the nearest exit as quickly as possible.

Evacuation Procedures

When an emergency evacuation is ordered or when audio or visual alarms are activated, all residents and staff are required to evacuate the premises immediately via the nearest stairwell or grade level exit, close doors and activate the fire alarm system (if one is present) as they leave. Once safely outside a building, it is appropriate to contact 911 for additional help. All residents and staff are to report to a pre-determined evacuation assembly point and await further direction from a staff member or emergency official.

For more information on evacuation procedures and related topics, see UW Tacoma Campus Safety & Security website for general information and specific information: <http://www.tacoma.uw.edu/campus-safety/emergency-response>

Fire Education and Training Programs

The UW Tacoma Director of Campus Safety & Security conducts an annual emergency warden training class for Resident Director and Resident Advisors who, in turn, provide awareness training to residents in September and October of each year. The curriculum covers emergency procedures, review of building fire safety systems, evacuation planning and drill and hands-on fire extinguisher training. Fire safety education is provided to all residence hall students during their periodic floor meetings. Additional resources can be found on the Campus Safety & Security website (www.tacoma.uw.edu/campus-safety/emergency-response).

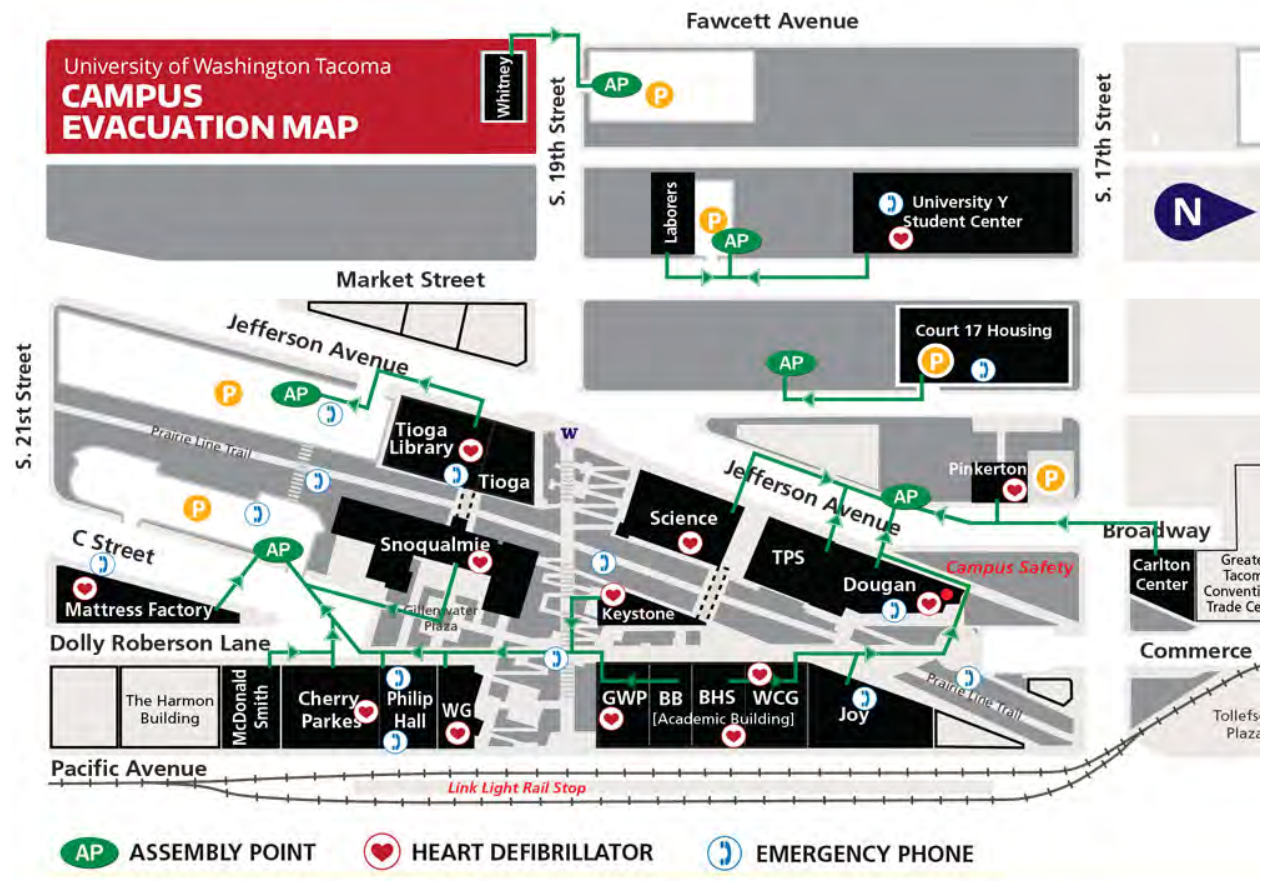

Evacuation maps, posted in every unit, illustrate evacuation routes and fire safety equipment locations. All resident students are required to participate in fire drill exercises where they are to practice evacuating the building, gathering at the assigned Evacuation Assembly Point and assisting others if needed.

Employees are oriented on fire safety policies and procedures as part of new hire orientation and participate in evacuation drills.

Reporting a Fire

All active fire and explosion emergencies must be reported immediately regardless of size and nature by phoning 911 and/or activating the fire alarm system. The level of response will vary based upon the information provided. To comply with regulation and UW Policy, all incidents, including minor fires that self-extinguish and those that do not require emergency assistance or evacuation, must be reported to Campus Safety & Security within 24 hours. Campus Safety & Security will notify UW EH&S for a follow up investigation of reported fires to determine their cause, provide consultation, and to document the incident for reporting purposes. All fire incidents in residence hall shall be reported to the Resident Director and/or Associate Director of Residence Life who then notify Campus Safety & Security Director.
