Course Description
With only ten weeks to explore the world of ‘classical music,’ we will immerse ourselves in a multitude of listening experiences, to include concert attendance and live in-class performances. Building on this foundation, we will explore the impact of today's global society on this musical tradition: to what extent have new technologies, increased communication and the ensuing democratization of music impacted the ways in which we relate to ‘concert music’? Does this music still have relevance in our lives? Our final project will provide students with the opportunity to create their own musical works, inspired by the musical and philosophical ideas of the 20th Century composer John Cage.

Core
The Core program consists of a coordinated series of courses that represent the various disciplines in the university. This course, together with the other Core courses you will take, fulfills the university’s general education requirements in each of the areas of knowledge plus composition. The courses are designed to both support and challenge you to develop the critical thinking, writing, research, and analytical skills you’ll need at UWT while introducing you to relevant topics in the social sciences, humanities, and sciences.

Learning Objectives
Inquiry and Critical Thinking
- synthesis & context: make meaningful connections among assignments and readings in order to develop a sense of the ‘big picture.’

Communication/Self-Expression
- analysis: identify, analyze, and summarize/represent the key elements of a text.
- expression of ideas: express ideas clearly in writing and speaking in order to synthesize and evaluate information before presenting it.
Global Perspective – Diversity – Civic Engagement
- disciplinary perspective: understand events and processes as ‘disciplinarily’ situated.
- global perspective: interact with concepts, ideas, and processes related to the interdependences between personal, local, and global relationships.
- diversity: think outside of cultural norms and values, including their own perspectives, to critically engage the larger world.

Introduction to Humanities (VLPA)
- Demonstrate an ability to situate one's self in relation to a broader human context
- Demonstrate an ability to critically read an artistic, literary, or historical text or artifact

Texts and Materials
The following required texts are available at the University Bookstore:
- Gann, Kyle. No Such Thing As Silence: John Cage’s 4’33”.

Additional required readings and listening materials will be made available throughout the quarter on Canvas.

Please also bookmark my Poll Everywhere site, as we will frequently use it during class: pollev.com/kimdavenport

Course Requirements
Workload in this course is divided into several areas, as described below. Additional details about each assignment will be posted on Canvas and discussed in class.

- Participation/in-class assignments 15%
- Listening reflection journal 20%
- Wikipedia group research project 20%
- Concert attendance & report 15%
- John Cage final project 30%

Participation/in-class assignments – 15% of grade
In order for you and your fellow students to get the most from this class, you are expected to come to class prepared, having completed all of the assigned reading and listening, and be an active, informed participant in all class activities.

Your participation grade will be based on the following:
- In-class assignments: consist of small group work, individual writing, hands-on activities, etc. These assignments cannot be made up, although two can be missed with no impact to your grade.
- Discussion questions: each student has been assigned to a discussion question group (A, B, or C) and will be responsible to submit discussion questions on dates assigned to your group, as well as to help lead/facilitate discussions in class on those dates.
Listening reflection journal – 20% of grade
Weekly journal assignments, which are 1-2 page informal papers, will give you the opportunity to reflect on music listening experiences both in and out of class. Each week’s assignment will be posted on Canvas and discussed in class on Tuesday, and due via Canvas submission by class time the following Tuesday.

Wikipedia group research project – 20% of grade
This group project will result in your own contribution to Wikipedia in the form of a biographical entry about a classical composer. Along the way, we will build skills in conducting research, citing sources, writing to Wikipedia article standards, and assessing the quality and appropriateness of different types of research tools for various academic tasks. In addition, we will learn more about Wikipedia’s systemic bias – how bias and structure merge to create unequal presentation of topics and interests. This project will take place over several weeks of the quarter.

Concert attendance & report – 15% of grade
In addition to the music listening experiences that you will have in the classroom and as homework, you will attend a live concert of classical music. You will then write a formal report about the concert, to include factual information about the music as well as your own personal reflection on the experience. Detailed requirements for this report are posted on Canvas.

Recommended concerts are posted on the Canvas Calendar, with links to venue and ticket information. You can also choose concerts not on this list, with my advance approval. You will have the entire quarter to complete this requirement, but I would encourage you to review your options and make plans early on, both so that you can pick something that interests you, and also so that the deadline doesn’t sneak up on you!

John Cage final project – 30% of grade
After studying the revolutionary musical philosophy and compositional methods of John Cage, you will design, create, document, and perform a new musical work in homage to Mr. Cage. We will spend a great deal of time in class discussing this project, and detailed guidelines will be posted on Canvas.

Class Policies and Expectations

Due Dates & Late Work
Readings should be completed by the date listed on the syllabus. Unless otherwise noted, assignments are due at the beginning of class on the date noted on the syllabus. Late work will not be accepted except by pre-arrangement with the instructor or in the case of a documented emergency.

Communication
Email or Canvas message is the best way to reach me, and you should expect a response within 24 hours (24-48 hours on weekends). I will also send announcements to the class and to individual students via Canvas, so I encourage you to check Canvas regularly and check your notification settings to insure that you receive announcements promptly.

If you have questions or concerns that you would rather discuss in person, you are welcome to drop by during my office hours, or contact me to schedule an appointment.

Electronic Devices
Electronic devices (cell phones, tablets, laptops, etc.) may only be used in the classroom with the permission of the instructor. Activities that are not relevant to the course (texting, checking email, playing games, surfing the web, etc.) are considered disruptive activities when class is in session.

Campus Policies, Expectations, and where to get help!

Academic Standards/Plagiarism
A major part of your experience at UW Tacoma will be reading, synthesizing, and using the knowledge and ideas of others. To plagiarize is to use the ideas—or unique phrasing of those ideas—without acknowledging that they originate from someone or someplace other than you. Attributing where you get your information builds your own authority to speak on that topic and provides valuable backing to the arguments you make. Attribution also distinguishes your ideas and words from those of others who came before you. At the University of Washington, plagiarism is a violation of the student conduct code, and the consequences can be serious.

Though citing, quoting, and paraphrasing can be confusing at first, it is essential for your success at UWT that you familiarize yourself with these important conventions of academic writing. Additionally, plagiarism can be understood differently in various disciplines. For instance, the ways in which one summarizes others’ ideas in texts, or attributes information from texts in one’s own paper, are not the same in the sciences as they are in the humanities, or the social sciences. This means it is vital that you understand the specific expectations and guidelines for writing that will help you avoid plagiarizing in this class. If you have questions about what amounts to plagiarism, you are strongly encouraged to seek guidance from faculty and the Teaching and Learning Center as soon as possible.
