

PREPARING COURAGEOUS AND EQUITY-FOCUSED SCHOOL LEADERS

The UW TACOMA EDUCATIONAL ADMINISTRATION program prepares experienced educators for P-12 school and district-level leadership positions. Collaboratively designed and taught by a cadre of UW Tacoma professors and local practitioners, the program provides aspiring leaders with a rigorous, standards-based curriculum and a highly supportive field experience.

“The UW Tacoma Educational Administration program places a consistent emphasis on social justice awareness and best practices. The teaching and learning are proctored and facilitated by experts in the field who have the experience and wisdom to develop successful future leaders. The program is intense, but support is readily available from instructors, mentors and cohort members. Having my name connected to the UW Tacoma program gave me instant credibility when it was time to search for a job.”

- Earle McWright, Assistant Principal
Orting Middle School
Orting School District

"I highly recommend the UW Tacoma Educational Administration program. The instructors are highly knowledgeable and willing to share their broad expertise. From the beginning, students are connected to community resources and immersed in the administrative world. The cohort provides needed and necessary support while instructors and field supervisors give the foundational understanding that is so important to success. Thanks to this rigorous program, I am now well prepared to meet the challenges of my new role as assistant principal."

- Ann Schumacher, Science K-12 Instructional Coach, Puyallup School District

JOIN A WELL-RESPECTED LEADERSHIP PREPARATION PROGRAM
