

## School of Engineering and Technology

SECTION: Distance Learning Policy  
ADMINISTRATOR: Dean  
APPROVED: May 27, 2022

In AY22/23, SET's distance learning policy is as follows:

Modality: iTech trained faculty may teach in any of the [four modalities defined by the Tri-Campus Digital Learning Alliance](#) (in-person, hybrid, synchronous remote, and asynchronous remote), subject to approval by the Program Chair. For in-person courses, SET will continue to use 61 as the minimum percentage of sessions that should be held in-person.

Training and Certification: Faculty teaching in any modality other than in-person, must have completed iTech training or an equivalent program approved by the SET Dean's Office.

Assessment: During AY22/23, DL assessment is not required of faculty who have completed training as described above.

In the absence of an approved long-term SET Distance Learning policy developed by the end of the 22/23 AY, in Autumn 2023, SET will revert to the modalities defined in 2016 campus-level DL policy, which currently does not allow the synchronous remote modality.
