## Special Request Information

**1. Background: Review and discuss the context of the proposed technology in detail. Explain how this proposal will be used in conjunction with an original proposal or existing technology. If applicable, how is the current technology disabled or inadequate?**

We are requesting for 13 new Dell standard computers out of the 35 current computers in the WG 108 computer lab. They were purchased in July, 2016 under STFC Proposal 17A032. The current computers that are located in the computer lab are 6 years old and are no longer under warranty. STFC approved SSD hard drives under STFC Proposal 23A020, but we'd like to replace them with new computers as students tend to use new computers in the lab.

**2. Benefit to Students: Discuss how students have (for returning applicants) or will (for new applicants) benefit from this technology. How will additional funding of the technology benefit students?**

The requested computer upgrade will be used to continue our objective of having the latest and updated technology available for all University of Washington Tacoma students to use. The computer hardware being replaced will make it possible to run the latest Windows operating system and other productivity tools.

Our goal is to have dependable fast computers available to all our University of Washington Tacoma students. Once the new computers are replaced, we will advertise the new computers with signs and flyers throughout the campus.

**3. Access: Describe who will be using or will have access to the resources being proposed. In addition, all previous requestors, please provide historic data highlighting the usage and accessibility of technology. All new requestors, please provide user need data.**

The UWT Computer labs are open to all UW Students. The scheduled hours are [WG 108 Lab/Helpdesk](#)  
 Monday-Thursday 7:30 AM to 9:30 PM, Friday—7:30 AM to 3 PM, Saturday--9 AM to 5 PM, Sunday-CLOSED

**4. Timeline: Provide a timeline showing how the proposed technology can be completed during the requested period. Describe when you would like to see this proposal initiated and completed, and why.**

Installation will be completed as soon as possible. All installation will be provided by Computer Services at no charge.

**5. Resources/Budget: Discuss available financial, personnel and space resources devoted to the proposed technology and level of support. Proposal must detail all the items/resources requested to be purchased. This includes filling out the Item Detail in next section.**

Computer Services will install and maintain the items requested. No additional procedures will need to be implemented for these updates.
