Excludes Illinois

**NOTES:**
1. Educational appropriations are a measure of state and local support available for public higher education operating expenses including ARRA funds, and exclude appropriations for independent institutions, financial aid for students attending independent institutions, research, hospitals, and medical education.
2. The U.S. calculation does not include the District of Columbia or Puerto Rico.
3. Adjustment factors to arrive at constant dollar figures include Cost of Living Index (COLI), Enrollment Mix Index (EMI), and Higher Education Cost Adjustment (HECA). The Cost of Living Index (COLI) is not a measure of inflation over time.
I am committed, as your CFO,

• To supporting the University through whichever strategic decisions are made...

• To helping everyone understand the financial consequences (both risks and rewards) that a given decision creates, today and long term...

• To reporting useful information about sources and uses of funds, though I do not “have” any money and will not allocate any funds (and therefore, all funding must be approved by the Chancellor through appropriate processes)...

• To transparent planning, which supports coordination across a large and complex institution, long-term projections, and informed decision-making.

Tye Minckler, Ed.D.
