Total Credits	Up to 17		17		16	up to 50
TOTAL CREDITS						up to 189

- KEY**
- Humanities General Education requirements & BS CSCI prerequisites (90 credits)
 - TCSS 305 Required TCSS courses & electives (75 credits)
 - TGH 203 Electives = Global Honors Courses (may fulfill I&S/VLPA and upper. div. elective requirements) (25 credits)

Notes: BS Computer Science and Systems does not have elective flexibility in the senior year. This means transfer students are unable to complete full Global Honors Program requirements. However, students attending UWT for three or four years may complete Global Honors requirements in the sophomore and junior years: Students must complete 15 credits of upper division general electives OUTSIDE the CSS program. Global Honors courses may fulfill this requirement in the junior year. Global Honors courses may also fulfill 10 credits of I&S and VLPA requirements in the sophomore year.

* Students may take 5 credits of TINST and 10 credits of either Internship/Directed Research to count as a CSS Senior Elective.
