The University of Washington reaffirms its policy of equal opportunity regardless of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam-era veteran. This policy applies to all programs and facilities including, but not limited to, admissions, educational programs, employment, and patient and hospital services.

Any discriminatory action can be a cause for disciplinary action. Discrimination is prohibited by Presidential Executive Order 11246 as amended; Washington State Gubernatorial Executive Orders 89-01 and 93-07; Titles VI and VII of the Civil Rights Act of 1964; Washington State Law Against Discrimination RCW 49.60; Title IX of the Education Amendments of 1972; State of Washington Gender Equity in Higher Education Act of 1989; Sections 503 and 504 of the Rehabilitation Act of 1973; Americans with Disabilities Act of 1990; Age Discrimination in Employment Act of 1967 as amended; Age Discrimination Act of 1975; Vietnam Era Veterans’ Readjustment Act of 1972 as amended; other federal and state statutes, regulations; and University policy. Coordination of the compliance efforts of the University of Washington with respect to all of these laws and regulations is under the direction of the Assistant Provost for Equal Opportunity, Dr. Helen Remick, University of Washington, Equal Opportunity Office, Box 354560, 4045 Brooklyn Avenue Northeast, Seattle, WA 98195, 206-685-3263 or 206-543-6452 (TTY).

Additional information concerning the equal opportunity and affirmative action policies and procedures, including complaint procedures, is in the Operations Manual, D46.1, D46.2, D46.3 and D46.4, and the UW Handbook, Vol. IV, p. 44.

For information on reasonable accommodation for students with disabilities, call Disability Support Services, 253-692-4522 or 253-692-4413 (TTY), or e-mail dssuwt@u.washington.edu.
The University of Washington Tacoma serves the South Puget Sound region by offering baccalaureate, certificate and graduate-level programs of the highest academic quality. The various courses of study at UW Tacoma produce highly knowledgeable and capable graduates who go on to make impressive contributions in their careers and in their communities.

**Mission**

The University of Washington Tacoma educates diverse learners and transforms communities by expanding the boundaries of knowledge and discovery.

**Vision**

The University of Washington Tacoma envisions itself at the hub of a vibrant community recognized as being among the best educated in the country. As one of three campuses of a world-class university, UW Tacoma is dedicated to interdisciplinary and innovative teaching and scholarship and to engaging the community in mutually beneficial partnerships. UW Tacoma’s commitment to diversity is central to an environment where students, staff, faculty and South Sound residents find abundant opportunities for intellectual, personal and professional growth.

**Defining Characteristics and Guiding Principles**

The University of Washington Tacoma

… engages minds through creative, rigorous and interdisciplinary approaches to teaching and scholarship that encourage lifelong learning and prepare graduates who will communicate effectively, think critically and creatively, apply technology, act responsibly and effect positive change.

… is a student-centered community that places high value on quality teaching and learning in a setting that supports the needs and diversity of its undergraduate and graduate student bodies.

… is dedicated to exploring challenging issues and divergent ideas and opinions in the context of respect for human worth and dignity, while bound to high ethical standards and principles for civil discussion and debate.

… is committed to diversity through nurturing a campus community where similarities and differences are acknowledged and respected. UW Tacoma welcomes and supports individuals of any age, gender, race, religion, sexual orientation, physical ability, and ethnic, cultural and socioeconomic background.

… is innovative, entrepreneurial and collaborative in its approach to teaching, scholarship, creating new educational programs, establishing partnerships, and constructing and renovating campus buildings.

… is connected with the Washington State Community and Technical Colleges in providing seamless educational pathways for students seeking a baccalaureate education.

**E-mail**

uwtinfo@u.washington.edu
is a catalyst for economic, technological and community development, helping to attract new and relocating businesses, enriching cultural life, inspiring educational achievement, and serving as a powerful resource for varied segments of the community, including health care, K-12 education, the arts, business, labor, nonprofit services, and government.

is an urban campus focusing on local, regional, national and international issues, building on a commitment to provide access to a university education to residents of the South Puget Sound, and fueling the revitalization of downtown Tacoma.

is proud to be a campus of the University of Washington, upholding its traditions within higher education while pioneering highly effective, nontraditional approaches to implementing its mission.

 Degrees
The University of Washington Tacoma confers the following degrees:

■ Bachelor of Arts (B.A.)
  Computing & Software Systems
  Interdisciplinary Arts & Sciences
  Social Welfare

■ Bachelor of Arts in Business Administration (B.A.B.A.)

■ Bachelor of Science (B.S.)
  Computer Engineering & Systems
  Computing & Software Systems
  Environmental Science

■ Bachelor of Science in Nursing (B.S.N.)

■ Master of Arts (M.A.)
  Interdisciplinary Studies

■ Master of Business Administration (M.B.A.)

■ Master of Education (M.Ed.)

■ Master of Nursing (M.N.)

■ Master of Science (M.S.)
  Computing & Software Systems

■ Master of Social Work (M.S.W.)

Selected academic programs of study at the University of Washington Tacoma are approved by the Higher Education Coordinating Board’s State Approving Agency (HECB/SAA) for enrollment of those eligible or receive benefits under Title 38 and Title 10, U.S. Code.

 State Board of Education Certificates
The University of Washington Tacoma is authorized by the State Board of Education to offer professional certificate programs in education for administrators and teachers. UW Tacoma prepares and recommends individuals for the following state certificates:

■ Initial Teaching Certificate (K-8)
■ Professional Certificate for Educators
■ Educational Administrator Certificate (for principals and program administrators)

 Accreditation
The University of Washington Tacoma is accredited as a unit of the University of Washington by the Northwest Association of Schools and Colleges. Individual academic programs may have other accreditations as well. (See individual program sections.)

 Key Bank Professional Development Center
The mission of the KeyBank Professional Development Center is to expand access to the resources of the University of Washington Tacoma by offering advanced, non-degree education to individuals and organizations in the South Puget Sound region. For more information, please contact the Center at (253) 692-4618 or visit www.tacoma.washington.edu/pdc.

Financial Aid

Approximately 60 percent of students attending the University of Washington Tacoma receive some type of financial aid. These students receive federal, state and institutional financial aid to help them pay for their education.

There are four basic types of aid.
- **Grants:** Federal, state and institutional grants do not require repayment.
- **Loans:** Must be repaid, generally beginning six months after a student graduates or leaves school. Loans require repayment with interest charges of approximately 8 percent (depending on the program) accruing during the repayment period.
- **Work-Study:** Students can be employed either on or off campus, with the primary focus being that students enhance their field of study by working part-time in a career-related position.
- **Scholarships and Tuition Waivers:** Awards are based on financial need, academic achievement and in some cases the quality of the personal essay that is submitted as part of the scholarship application process.

**What is Financial Need?**

For most aid programs, financial need is defined as the difference between what it costs to attend school and what the student can afford to pay. The amount a student should be able to pay is determined by a standard, federally mandated needs-analysis method. The method establishes whether a student is financially independent (unmarried students under the age of 24 years may be considered dependent and in that case must provide parent information) or financially dependent on his or her parents and takes into account past earnings and benefits, a percentage of net assets and all other sources of support.

There is no income standard or other simple method of determining whether a student will qualify for need-based financial aid. Any student who thinks he or she needs help should apply.

If a student has additional medical, transportation, child-care, or other unusual expenses not covered by the living allowance, the student may, by submitting a revision request with documentation (physician’s statement, child-care, or baby-sitter bills, etc.), ask Office of Student Financial Aid to consider the additional costs in his or her budget.

**Eligibility for Financial Aid**

To qualify for federal financial aid, a student must:
- Be a U.S. citizen, permanent resident or other eligible noncitizen
- Be admitted to the University in an approved program and meet minimum enrollment requirements (most distance learning, correspondence and nonmatriculated students are not eligible for financial aid)
- Not be in default on a previous student loan or owe a repayment on a grant or loan for which the student was not eligible
- Be registered with the Selective Service (if required)
- Be making satisfactory academic progress (The definition of satisfactory progress differs with different kinds of aid. In general, undergraduate students are required to register for and complete 12 credits per quarter; graduate students, 10 credits per quarter. Check with the financial aid staff for detailed information.)
- Provide financial information (including parents’ information, where required)
- Be free of any federal or state drug-related convictions while you were receiving federal student aid

Eligible students are considered for funding based on three things: need, class level, and state residency status. Need determines priority for those programs within the class level. Students with the fewest resources are given first priority for all aid funds.

**Application and Important Dates**

The Free Application for Federal Student Aid (FAFSA) is the basic application for most types of financial aid.

Students must complete and submit their FAFSA information directly to the federal processor online. Students must apply for a Personal Identification Number (PIN) in order to complete the online FAFSA. PINs can be obtained by registering through www.pin.ed.gov. To access FAFSA on the Web, go to www.fafsa.ed.gov. Applications are also available from the Office of Enrollment Services.

Students should complete their FAFSA for the upcoming year (defined as Summer through Spring quarters) beginning in mid-December or early January.

A student who wishes to apply for financial aid to support study during Summer Quarter must submit a separate application.

**Priority Dates**

For priority consideration, the FAFSA must be dated as received by the federal application processor by Feb. 28 of each year. Students are encouraged to mail the FAFSA no sooner than Jan. 1 and no later than Feb. 15 before the upcoming academic year. Students who submit their FAFSAs after the priority date, fifth-year students and part-time students may be eligible to borrow funds through the Federal Stafford Loan or the Federal PLUS/Federal Supplemental Loan programs. Undergraduates may qualify for a Federal Pell Grant.

Because the priority date falls before the income tax deadline, students and parents can use estimated income figures if their tax information is not prepared. Tax and asset documents may be requested at a later date to verify information provided on the initial application.
Students who apply for financial aid should remember to keep copies of financial documents used in completing the FAFSA, should stay in touch with the financial aid counselor and should notify the Office of Enrollment Services of any change in address.

**Consortium Agreements**

UW Tacoma students will occasionally need to enroll at a community college to complete admission deficiencies. The credits at the community college may be counted toward the student's total quarter enrollment credits using a Financial Aid Consortium Agreement. Both UW Tacoma and the community college must approve Consortium Agreements. If approved, Consortium Agreements enable the student to receive financial aid based on the total credits being taken at both institutions. Agreements must be submitted to the Office of Enrollment Services no later than three weeks prior to the start of the quarter.

**Scholarships**

Consideration for need-based scholar-

ships is given based on information received on the FAFSA (on-time applicants only). Scholarship lists are available through the Office of Enrollment Services and at Web sites listed later in this section.

UW Tacoma offers several full and partial scholarships available to fund study only at UW Tacoma. For information on scholarship opportunities, contact the Office of the Registrar and Financial Aid at (253) 692-4400 or check online at www.tacoma.washington.edu/finaid.

Tuition and Fees

The cost of a student’s education at the University varies with individual circumstances. The amount charged for resident undergraduate tuition and fees is set by the state and is indexed to the cost of instruction. Tuition and fees for non-residents and graduate students are set by the University of Washington Board of Regents. Because inflation increases costs, tuition rates generally increase each year. Since University costs are supported by the state, the rates charged to students who are not residents of Washington state are higher than the rates for residents. Please refer to the Registration, Academic and University Policies sections for information regarding residency classification. Tuition charges are based on the student’s classification (undergraduate or graduate) rather than on course level. See chart on next page for tuition rates. Rates are subject to change without notice.

Tuition and Fee Payment

Students incur an obligation to pay tuition and fees in U.S. dollars when they register. Students receive e-mail notification once tuition charges are available on MyUW. Payment in full of tuition is due by the third Friday of the quarter. Nonpayment of tuition and fees by the due date results in a charge according. The student number must be specified on all payments.

Options for tuition payment

Plan 1: Tuition in Full

This plan is best for students receiving financial aid (such as loans, grants, scholarships and Chapter 31 V.A. benefits) and those who are able to pay their tuition in full. Payment by check or money order may be made to the UW Tacoma Cashier or mailed to the UW Tacoma Cashier’s Office, Campus Box 358433, 1900 Commerce Street, Tacoma, WA 98402. Credit card payments may be made online through MyUW. There is a convenience charge assessed when using this option. The amount in full is due by 5 p.m. on the third Friday of the quarter. Tuition may be paid out of the financial aid award or by using emergency loans.

Plan 2: Tuition Installment Plan

This plan is best for students who are not receiving financial aid and who would like to make payments over several pay periods. Students must enroll for this option each quarter with the UW Tacoma Cashier during the first week of the quarter. One third of the tuition plus a $10 service charge is due by the first Friday of the quarter. The remaining balance of tuition is due in two equal payments on the third and fifth Fridays of the quarter. To qualify for the installment plan all payments must be made on time. The second and third payments are subject to late fees as shown in the table on page 14. Payments must be made to the UW Tacoma Cashier.

When the payment is not in conformance with the tuition and fee billing, specific instructions on how the payment is to be applied must accompany the payment. In the absence of instructions, the University makes a reasoned interpretation of the student’s intent and accounts for the funds accordingly. The student number must be specified on all payments.

Tuition Forfeiture

When students drop or withdraw from courses after the first week of the quarter and the drop results in lower tuition, the University reserves the right to collect one-half the tuition through the 30th calendar day of the quarter for the dropped course or courses and full tuition after the 30th calendar day of the quarter. In some circumstances students may petition the registrar to have the tuition forfeiture waived. Details are available in the Office of the Registrar (see Request to Waive Tuition Forfeiture or Registration Fees).

Request to Waive Tuition Forfeiture or Registration Fees

If a student feels that he or she has been charged a tuition forfeiture or registration fee in error or wishes to contest a forfeiture or fee, he or she may complete a Request to Waive Tuition Forfeiture or Registration Fees form. Failure to check your tuition balance on MyUW does not nullify a student’s responsibility for payment by the tuition due date and is not an acceptable justification for a waiver. Please refer to the form for appropriate guidelines for granting these requests.

Petitions must be received by the UW Tacoma Registrar no later than the last day of instruction.

Tuition and Fee Refund

When a fee payment is made by check, a waiting period is required before a refund can be authorized. An application for refund may be refused unless it is made during the quarter in which the fees apply. A student who withdraws for disciplinary reasons forfeits all rights to refund or cancellation of any portion of his or her fees.

Other Fees

Explanation of fees where necessary follows. All fees are subject to change without notice.

Application Fees

There is no reduction in fees for auditors.

Undergraduate ......................... $ 50
Graduate .............................. $ 45
Graduate Nonmatriculated .......... $ 45
Undergrad. Returning Students .... $ 50

Late Payment of Tuition

If balance exceeds $250 .................. $ 120
If balance is $50-$250 ................. $ 50
If balance is less than $50 ............ $ 0
Registrar’s Office Service Fees
Late Registration
First through 10th day of class........$  25
After 10th day of class...............$  75
Change of Registration .............$  20
  Only charged after the first week of the quarter
Duplicate diploma with paper cover .................$  10
Replacement of Student ID Card ....$  10
Transcript (Official) ..................$  4
Change-of-Registration Fee
On the first day of the second week of classes, a $20 change-of-registration fee is assessed for any number of add, drop or change transactions (including change of grading option) made on a given day. The fee is a service charge, not a penalty, and is in addition to any change in tuition or forfeiture as a result of adds, drops or changes. There is no charge prior to or during the first week of classes.

Late Registration Fee
A late registration service charge of $25 is assessed when a student registers for the first time after the last scheduled day of Period II registration (the day before the quarter begins) and through the 10th day of the quarter. If circumstances warrant, waiver of the service charge may be petitioned to the UW Tacoma Registrar using the Request to Waive Tuition Forfeiture or Registration Fees form.

Special Course and Laboratory Fees
Some courses have extraordinary expenses associated with them and, in such cases, the University may charge additional fees in amounts that approximate the added instructional or laboratory costs.

Technology Fee
This fee is to recover, in whole or in part, the costs of providing and maintaining services to students that include, but are not limited to the following: access to the Internet and World Wide Web, e-mail, computer and multimedia workstations and laboratories, computer software and dial-up telephone services. Part-time students (those paying less than full-time tuition) are charged on a prorated basis. The fee is included on the quarterly tuition billing.

2008-2009 Quarterly Tuition Rates*
Tuition rates are subject to change without notice.

*The Student Technology Fee, based on the number of credits taken, is already included in the tuition rates shown.
Financial Obligations

The Office of Student Fiscal Services is authorized to place an administrative hold on the records of any student who fails to pay amounts due to the University. Until this hold is cleared, the University does not release the student’s record or any information based on the record, does not prepare transcripts or certified statements, and denies registration as well as graduation from the University.

Tuition and fees (including parking and library fines) not paid by the end of the academic quarter are subject to an interest charge of 1 percent per month, or fraction thereof (12 percent APR), beginning the month following the end of the quarter.

An administrative hold also may occur when a student has not complied with University rules, followed University procedures or satisfied student obligations. The hold may be placed on the student’s record by the authorized University office responsible for enforcement of the rule, procedure or obligation involved. The student is not permitted to register for any subsequent quarter or to obtain a transcript of his or her record or a certified statement except on the written release of the office that placed the hold.

Tuition Exemption

Eligible University and State of Washington employees may enroll for and receive a tuition exemption for up to six credits each quarter, provided they enroll on a space-available basis. Eligible students are allowed to enroll for more than six credits and will be charged tuition accordingly for the additional credits. All students participating in the tuition-exemption program will be assessed a quarterly $30 registration fee and must pay other applicable fees, including the technology fee. A participating student may not register for any course, including the credits beyond six that the student will be paying for, prior to the student’s assigned space-available registration day or the exemption will be canceled. Matriculated students desiring a higher registration priority to facilitate course enrollment may choose to cancel their exemption for the quarter, register early and pay regular tuition rates. Space availability applies to degree programs as well as courses, and fully enrolled programs may not have space to accommodate students using the tuition exemption.

Eligible students must hold one of the following statuses on the day the exemption form is approved, and must be in that status on the first day of the quarter for which the exemption was granted. To be eligible a student must be:

- A University of Washington employee: permanent classified or contract classified staff who are employed half-time or more with six months or more of continuous service prior to the first day of the quarter and faculty/professional staff employed half-time or more on the first day of class.
- A non-University of Washington permanent classified or contract State of Washington employee employed half-time or more,
- A permanent classified or exempt paraprofessional employee of a technical college employed half-time or more,
- A non-academic employee or member of the faculty or instructional staff employed half-time or more at a state institution of higher education other than the University of Washington, or
- A note of caution: A UW employee pursuing a graduate program or graduate-level coursework claims the amount of the quarterly exemption as income on the federal income tax return unless his or her supervisor has certified that the program or coursework is job related. If it is determined that the course is not job related, the value of the exemption will be considered income and subject to withholding.

Qualifying Courses

Courses that involve intensive one-on-one interaction between faculty member and student (such as independent study, research and some fieldwork courses) do not qualify under the definition of “space available.” Tuition-exempt students may be required to pay full tuition to enroll in these courses. See the quarterly Registration Guide for details. All 600- and 700-level courses are excluded from the tuition exemption program.

Admission Status

Individuals who wish to participate in the tuition exemption program must apply for admission to the University of Washington Tacoma. Applicants are subject to the same priority application dates as other new students. Individuals wishing to apply as a matriculated student or as a graduate nonmatriculated student, to a UW Tacoma academic program, should contact the specific program office for details regarding the application process and space availability in the program. New nonmatriculated students should submit an application for admission to the Office of Admissions Processing. Because tuition exempt paperwork must be received no later than two weeks prior to the start of the quarter, new applicants are encouraged to submit their tuition exemption paperwork regardless of their pending application status.

Program participants who are former UW Tacoma students returning in the same classification or as nonmatriculated students should submit their application for admission to the Office of Admissions Processing.

Registration and fees

The Office of the Registrar accepts tuition exempt paperwork for the next quarter beginning the Monday after the 10th day of the current quarter. Paperwork must be submitted each quarter and must be received no later than two weeks prior to the first day of the quarter in which attendance is planned. UW Tacoma strictly adheres to this deadline. Paperwork must be complete, including required signatures, or it will be returned. Paperwork that has been returned must be completed by the same deadline noted above.

Actual registration for courses begins through MyUW on or after the appropriate eligibility dates. Registration dates are posted on the Registration Guide Web site at www.tacoma.washington.edu/enrollmentservices/registration/reg_guide.cfm. Under the tuition exemption program, tuition-exempt students must pay the quarterly Technology Fee. They will be billed this fee, and any other applicable fees, plus the $30 tuition exemption registration fee once they have registered for a course.

UW faculty/staff ID cards may be used for library services. Participating state of Washington employees may obtain student ID cards for library services from the Office of Enrollment Services.

More information and the quarterly required tuition exemption form are available on our Web site or in the Office of Enrollment Services.
Registration

Registration Eligibility

Continuing University of Washington Tacoma students who remain in good scholastic standing are guaranteed the opportunity to register each quarter at UW Tacoma as long as they maintain continuous enrollment (excluding Summer Quarter) or satisfy the guidelines of the quarter-off policy. Continuation must be in the same classification (undergraduate, postbaccalaureate or graduate) and at the same campus. After a student has earned a baccalaureate degree, he or she must apply for readmission as a postbaccalaureate, nonmatriculated or graduate student before being allowed to register.

Newly admitted students and students readmitted to the same or a new classification (undergraduate, postbaccalaureate or graduate) or admitted to a different University campus are eligible to register during a specified time period. See "Registration Periods" on page 18.

Exceptions to the guarantee of registration eligibility include students under disciplinary action, students with a financial hold on their records and students failing to meet conditions of admission or not meeting program or University satisfactory-progress policies. Additionally, continuing students who withdraw during the first week of two consecutive quarters (Summer Quarter not included) will not be eligible to register as continuing students for the third quarter and must reapply as former students returning to the University. If an undergraduate does not enroll for two or more quarters (not including Summer Quarter), he or she must file a Returning Student application for readmission with the Office of Enrollment Services.

Quarter-Off Policy

Undergraduate students who have completed a quarter at the University of Washington Tacoma, may take the following quarter off and remain eligible to register during Registration Period I for the subsequent quarter without reapplying as a returning student. Any quarter from which a student has completely withdrawn does not constitute a completed quarter. Summer Quarter enrollment is not required to maintain continuous registration eligibility. The quarter-off policy is not available for graduate students; please see Graduate Student On-Leave Status.

Graduating Senior Priority

Graduating seniors or postbaccalaureate students with a degree application on file in the Graduation Office may register on the first day of Period I for their final two quarters. Students who postpone their graduation may save their priority quarters by not registering before their regular senior or postbaccalaureate priority day. When students have used their Graduating Senior Priority for two quarters, their registration priority reverts to the regular senior or postbaccalaureate schedule. Students may not register for classes in any quarter beyond the quarter for which they have applied to graduate (except Summer Quarter).

Registering at Other UW Campuses

Undergraduate students who have completed at least 15 credits and freshman who have completed at least 25 credits at the Tacoma campus are eligible to register for up to five credits per quarter at one of the other UW campuses during Registration Period II. Eligible students should meet with their adviser, complete an Add/Drop card with the signature of their adviser and take it to the Office of the Registrar to register. Undergraduate students are limited to a total of 45 credits through cross-campus registration.

For more information on cross-campus registration, please go online to: www.washington.edu/uaa/gateway/advising/registration/ccregi.php

Dropping a Course

Students dropping a course during the first two weeks of a quarter shall have no entry on their permanent academic transcript except notice of withdrawal from the University if all courses are dropped, in which case a complete withdrawal date is recorded on the transcript. A course drop made during the third through the seventh week of the quarter will be recorded on an undergraduate student’s transcript with a “W” grade and a number designating the week of the quarter in which the course was dropped. Students may drop only one course each academic year (Autumn through Summer quarters) from the third through the seventh week of the quarter.

To drop a course officially, a student must complete the transaction electronically using MyUW or submit a drop card in the Office of the Registrar. A student who drops a course unofficially (only through the instructor or adviser, for example) is given a grade of 0.0. Students receiving or applying for financial aid should check with the financial aid counselor before dropping a class because it may affect financial aid eligibility. Students should be aware that dropping a course may affect their student account. Please see the “Tuition and Fees” section of this catalog.

During Summer Quarter, the timeline for dropping a course is abbreviated due to the shortened session. Please consult the “Important Dates” page on the Registration Web site for specific dates (www.tacoma.washington.edu/enrollment/services/registration).

Hardship Withdrawal Policy

Students may petition the UW Tacoma Registrar in writing for a Hardship Withdrawal if they are unable to complete a course due to physical or mental debilitation or unusual or extenuating circumstances beyond their control that may have arisen and prevented them from dropping the course by the seventh week. Petitions must
be filed promptly after the occurrence of the event that gave rise to the need for dropping, preferably prior to the end of the quarter. Only in rare circumstances will petitions be accepted after the close of the quarter in which the withdrawal is being petitioned. Students who have completed the requirements for the course are generally not eligible for a hardship withdrawal.

The Petition for Hardship Withdrawal should be completed by the student and submitted to the UW Tacoma Registrar. Supporting documentation as detailed on the petition form must accompany the petition. The UW Tacoma Registrar reserves the right to verify the authenticity and details of the documentation.

Complete Withdrawal from the University for a Registered Quarter (dropping all courses for the quarter)

It is the student’s responsibility to withdraw from all courses if he or she is unable to attend. Students may withdraw using the electronic registration systems through the unrestricted drop period. Beginning with the third week of the quarter, official withdrawals must be submitted to the UW Tacoma Registrar and must include the signature of the program adviser. An official withdrawal is effective the date of the last drop made electronically, the date it is received in the Office of the Registrar, or if submitted by mail, the date of the postmark.

Tuition owed will be based on the date the complete withdrawal is received. Withdrawals are NOT accepted after the last day of instruction for the quarter.

The tuition forfeiture schedule for complete withdrawal from the University is as follows:

- Students who withdraw on or before the seventh calendar day of the quarter do not pay tuition.
- Students who withdraw after the seventh calendar day through the 30th calendar day continue to owe one half of their tuition.
- Students who withdraw after the 30th calendar day continue to owe full tuition.

The following principles apply to complete withdrawal from the University:

- Courses dropped as part of a complete withdrawal from the University during the first two weeks of a quarter are not recorded on the student’s UW transcript; however, the date of the complete withdrawal is recorded.
- A recipient of veterans benefits should immediately notify the veterans benefits coordinator of withdrawal.
- A student with a scholarship or loan awarded through the University should notify the financial aid counselor of withdrawal.

Withdrawal for Military Service

Students who are conscripted into the U.S. armed forces or called to active military duty may withdraw through the end of the seventh week of instruction and receive a full refund but no academic credit. A copy of the student’s military orders is required. If a student withdraws after that date, the student may receive either a full refund or academic credit and no refund. Please consult with the Office of the Registrar for complete details.

Important Dates

Each quarter, the Office of the Registrar publishes a list of important dates for the upcoming quarter online on the Registration Web site at www.tacoma.washington.edu/ enrollment/services/registration/reg_guide.cfm. This page contains links to the schedule of classes, academic calendar, final examination schedule, registration period dates, deadlines (including graduation application deadlines), information about tuition and fees, and registration and withdrawal procedures. It is the responsibility of the student to know and understand these procedures and deadlines.

Registering for Classes

Students register for classes on the Web using MyUW. Before registering make sure to:

- Review the Important Dates and on the Registration Web site (see above).
- Talk with the program adviser before selecting courses. Academic advising is highly recommended.
- Obtain entry codes from the appropriate program office for any courses requiring entry codes.
- Have all registration materials handy. Know the schedule line number (SLN) for each course section (SLNs change every quarter). Prepare an alternate course list in case any courses are full.
- Take care of all University financial obligations. The system will not permit students to register if there is a hold on their registration.

Once initially registered, students can log in to MyUW as often as they want to check the status of sections, list their confirmed schedule, add or drop courses or check account balances.

How to Register

Students can access MyUW directly at myuw.washington.edu or through the UW Tacoma home page at www.tacoma.washington.edu. A UW NetID and password are required.

To register for courses, click on Registration. Links to the Time Schedule are found under Registration Resources. Clicking on one of these links opens another window. Students can then check the Time Schedule, toggle windows back to Registration, and enter the course SLNs as necessary.

When finished, click on Update Schedule. Selections are scheduled only if all sections are available and there are no restrictions that would prevent the student from registering (such as prerequisites). Messages will appear on the right side of the screen if there are any problems. Make any necessary revisions and resubmit.

Other System Features

Course availability

Beginning Period I, students can check course availability via the online time schedule at myuw.washington.edu.

Student account and loan status inquiries

Use MyUW to:

- Find current student account balance
- Get a summary of disbursed financial aid and aid-check availability
- Determine if outside lender loan funds are available
- Get the latest recorded student account payment
- Set up direct deposit of financial aid funds
- Pay tuition electronically
- Apply for short-term loans

Grades

A list of all courses taken and grades received (an unofficial transcript) is available through MyUW.

Registration Periods

Registration consists of three registration periods. For the most complete information, including the exact dates for each registration period, please visit the Registration Guide Web site at www.tacoma.washington.edu/ enrollment/services/registration/reg_guide.cfm.

Registration Period I

Open to currently registered, matriculated students and those eligible to register under the quarter-off policy. Occurs during the latter half of the quarter preceding the quarter for which the student is registering. (For example, currently enrolled students registering for Autumn Quarter do so in Spring Quarter.)
Registration Period II
Open to new and returning students, nonmatriculated, and continuing students who did not register during Registration Period I. Period II begins when Registration Period I closes.

Registration Period III
Open to all students for late registration, course adds and drops. Occurs during the first week of the quarter. Certain fees and tuition charges may apply. Please see the “Tuition and Fees” section.

Late Add Period
Open during the second week of the quarter. A $20 fee is charged for each additional day add transactions are processed. This fee is in addition to any tuition increase or forfeiture as a result of the change. Students may not add classes or increase credits after the tenth calendar day of the quarter as indicated in the quarterly Registration Guide.

Unrestricted Drop Period
Open during the second week of the quarter. Courses dropped during this period do not appear on the academic transcript. A $20 fee is charged for each additional day drop transactions are processed. This fee is in addition to any tuition decrease or forfeiture as a result of the change.

Late Course Drop Period
Students may drop one course each academic year (Autumn through Summer quarters) from the third through the seventh week of the quarter. A “W” and a number indicating the week in which the course was dropped will follow the course title on the academic transcript. A $20 fee is charged for the day that the drop transaction is processed. This fee is in addition to any tuition decrease or forfeiture as a result of the change.

Full-Time and Half-Time Status

<table>
<thead>
<tr>
<th></th>
<th>Full-Time</th>
<th>Half-Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate</td>
<td>12 cr.</td>
<td>6-11 cr.</td>
</tr>
<tr>
<td>Graduate</td>
<td>10 cr.</td>
<td>5-9 cr.</td>
</tr>
</tbody>
</table>

To be classified as a full-time student by the University of Washington Tacoma, an undergraduate student must register for and complete at least 12 credits per quarter. A graduate student must register for and complete at least 10 credits per quarter.

Auditing a Course
Students who intend to audit a course must first register for the class through MyUW and then go in person to the Office of the Registrar to elect the audit grade option. The deadline to change to audit status is listed on the Important Dates page each quarter on the Registration Web site. A $20 fee may be imposed depending on the timing of the transaction. Permission to audit is granted by the course instructor and is generally allowed only for lecture classes. Auditors may not participate in discussion or laboratory work.

Summer Quarter
Students should note that due to the shortened session, deadlines for fee payment and registration transactions may vary from those of the regular academic year. See the Important Dates page on the Registration Web site for specific dates each summer.

Residence Classification Requirements
The Office of the Registrar has detailed information on residence classification and the residence questionnaire. Residency is determined by several factors in addition to physical residence in Washington and may be established through the submission of documentary evidence. Any student seeking clarification regarding residency classification should review the information at www.washington.edu/students/reg/residency.html or contact the Office of the Registrar.

Military Personnel
Active-duty military personnel stationed in the state of Washington, their spouses and dependent children are eligible for resident tuition. Please request a military exemption form from the Office of the Registrar.

Access Program for Older Adults
UW Tacoma allows Washington residents 60 years of age or older to audit certain courses on a space-available basis. Registration for Access students begins the third day of the quarter. Students who attend the University under the Access Program are limited to two courses per quarter. There is a nominal registration fee, but Access students do not pay tuition. As auditors, students do not receive credit, participate in discussions, complete laboratory work or take examinations.
# Academic and University Policies

## Academic Policies

UW Tacoma uses a numerical grading system. Instructors may report grades from 4.0 to 0.7 in 0.1 increments and the grade 0.0. The number 0.0 is assigned for failing work or unofficial withdrawal. Grades in the range 0.6 to 0.1 may not be assigned. Grades reported in this range are converted by the registrar to 0.0. Numerical grades may be considered equivalent to letter grades as shown in the chart at right.

The following letter grades may also be used:

**CR:** Credit awarded in a course offered on a credit/no-credit basis only or in courses numbered 600, 601, 700, 750 and 800. The minimum performance level required for a CR grade is determined, and the grade is awarded directly by the instructor. CR is not computed in GPA calculations.

**NC:** Credit not awarded in a course offered on a credit/no-credit basis only or in courses numbered 600, 601, 700, 750 and 800. The grade is awarded directly by the instructor and is not included in GPA calculations.

**S:** Satisfactory grade for courses taken on a satisfactory/not-satisfactory basis. An S grade is automatically converted from a numerical grade of 2.0 or above for undergraduate classes and 2.7 for graduate classes is converted to NS. NS is not included in GPA calculations. No credit is awarded for courses in which an NS grade is received.

**I:** Incomplete. An Incomplete is given only when the student has been in attendance and has done satisfactory work until within two weeks of the end of the quarter and has furnished proof satisfactory to the instructor that the work cannot be completed because of illness or other circumstances beyond the student’s control. To obtain credit for the course, an undergraduate student must convert an Incomplete into a passing grade no later than the last day of the next quarter. The student should never re-register for the course as a means of removing the Incomplete. For undergraduate students, an Incomplete grade not made up by the end of the next quarter is converted to a grade of 0.0 by the Office of the Registrar unless the instructor has indicated when assigning the Incomplete grade, that a grade other than 0.0 should be recorded if the incomplete work is not completed. The I (Incomplete) is not removed from the permanent record and appears on the transcript with the completed grade. An instructor may approve an extension of the Incomplete removal deadline by contacting the UW Tacoma Registrar no later than the last day of the quarter following the quarter in which the Incomplete grade was assigned. Extensions, which may be granted for up to three additional quarters, must be received before the Incomplete has been converted into a failing grade. In no case can an Incomplete received by a student be converted to a passing grade after the lapse of one year.

For graduate students, an Incomplete grade does not automatically convert to 0.0 but remains a permanent part of the student’s record. To obtain credit for the course, a student must successfully complete the work and the instructor must submit a grade. In no case can an Incomplete received by a graduate student be converted to a passing grade after a lapse of two years or more.

<td>0.0</td>
<td>E</td>
</tr>
</tbody>
</table>

**Lowest passing grade:** Failure or Unofficial Withdrawal. No credit earned.

Grades below 1.7 in graduate programs are recorded as 0.0.
W: Official withdrawal or drop from a course from the third through the seventh week of the quarter for undergraduates. A number designating the week of the quarter is recorded with the W when a course is dropped. It is not computed in GPA calculations.

HW: Grade assigned when a student is allowed a hardship withdrawal from a course after the 14th calendar day of the quarter (see Hardship Withdrawal Policy on page 17). It is not computed in GPA calculations.

N: Indicates that the student is making satisfactory progress and a final grade will be given at the end of the quarter the work is completed. Used only for hyphenated courses (courses not completed in one quarter) and courses numbered 600, 601, 700, 750 or 800.

Grade-Point Average (GPA)

The cumulative GPA includes credits granted for courses taken in residence at all campuses of the University of Washington and those with a DL (Distance Learning) suffix taken through UW Educational Outreach (UWEO). The UW transcript also reflects grades for other UWEO courses that are not residence credit and grades for credit by examination. These latter grades do not affect the student's UW cumulative GPA.

Computation of GPA

The grade-point average for graduation is computed by dividing the total cumulative grade points by the total credits attempted for courses taken in residence at the University. Grade points are calculated by multiplying the number of credits by the numeric value of the grade for each course. The sum of the grade points is then divided by the total credits attempted. Courses elected on an S/NS basis are counted as follows: Satisfactory grades are printed on the permanent record as an S and do not count in the quarterly or cumulative grade-point average, but they do count as credits earned toward graduation. Not-satisfactory grades (NS) do not count in the quarterly and cumulative grade-point averages and do not count as credits earned toward graduation.

Example 1:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>TIAS 498</td>
<td>3 x</td>
<td>0.0</td>
<td>0.0</td>
</tr>
<tr>
<td>TSMIN 300</td>
<td>5 x</td>
<td>2.9</td>
<td>14.5</td>
</tr>
<tr>
<td>TCSIUS 445</td>
<td>5 x</td>
<td>3.2</td>
<td>16.0</td>
</tr>
</tbody>
</table>

Total credits earned toward graduation: 10
Total graded credits attempted: 13
Grade-point average = \( \frac{30.5}{13} = 2.35 \)

Example 2:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>TBUS 300</td>
<td>5 x</td>
<td>2.3</td>
<td>11.5</td>
</tr>
<tr>
<td>TBUS 310</td>
<td>5 x</td>
<td>2.9</td>
<td>14.5</td>
</tr>
<tr>
<td>TBUS 320</td>
<td>5 x</td>
<td>1</td>
<td>0.0</td>
</tr>
</tbody>
</table>

Total credits earned toward graduation: 10
Total graded credits attempted: 15
Grade-point average = \( \frac{26.0}{10} = 2.60 \)

The student attempted 15 credits, but only 10 are graded; the I is not computed in the grade-point average. If the work in TBUS 320 is not made up by the end of the quarter, the I will convert to a numeric grade of 0.0 and the grade-point average will be recomputed. When the grade of 0.0 is received, it is computed in the grade-point average, but no credit is awarded toward graduation.

Repeating Courses

With the approval of the academic program offering the course, a student may repeat a course once. Both the original grade and the second grade will be computed in the grade-point average, but credit will be allowed only once. Veterans receiving benefits must receive approval from the veterans coordinator in the Office of Enrollment Services before a course is repeated.

Class Attendance

The University of Washington Tacoma reserves the right to drop students who have not attended class during the first week of the quarter to make space for other students waiting to enroll. However, students should not assume that they will automatically be dropped from a course if they do not attend. It is the student’s responsibility to drop the course through MyUW. Students who are registered for a course section but do not attend will be assigned a failing grade by the instructor. Students may not attend a course in which they have not been officially registered after the first two weeks of the quarter.

An instructor may allow a student to attend his or her class only if the student’s name appears on the official class list from the Office of the Registrar. Other faculty members may attend informally with the approval of the instructor.

Grading Procedures

Change of Grade

Except in case of error, an instructor may not change a grade that he or she has submitted to the registrar. A student who finds administrative omissions or errors in a grade report must make application for a review not later than the last day of the student’s next quarter in residence. Grades used to meet graduation requirements cannot be changed after the degree has been granted. Students are not automatically notified of grade changes posted after the first of the quarter.

Grade Appeal Procedure

A student who believes he or she has been improperly graded first discusses the matter with the instructor before the end of the following academic quarter. If the student is not satisfied with the instructor’s explanation, the student may submit a written appeal to the director or the dean of the program that offered the course, with a copy of the appeal also to the instructor. This must be done no later than 10 class days after his or her discussion with the instructor.

The director consults with the instructor to ensure that the evaluation of the student’s performance has not been arbitrary or capricious. Should the director believe the instructor’s conduct to be arbitrary or capricious and the instructor declines to revise the grade, the director, with the approval of the voting members of his or her faculty, shall appoint an appropriate member, or members, of the faculty of that program to evaluate the performance of the student and assign a grade. The UW Tacoma Vice Chancellor for Academic Affairs and the University of Washington Provost should be informed of this action.

Once a student submits a written appeal, this document and all subsequent actions on this appeal are recorded in written form for deposit in the student’s file.

Grade Reports

The University of Washington does not mail grade reports. Students access their grades online using MyUW.

Transcripts

Official transcripts are available from the Office of the Registrar or the Cashier’s Office. Transcripts may be ordered using a request form or by written request from the student. The request must include name; Social Security number or student identification number; current phone number; date of birth; address to which the transcript should be sent and student signature. Additional helpful information includes dates of attendance and former name.

Because the signature of the student is required, e-mail requests cannot be accepted. Payment of $4 per transcript is required at the time of the request by check or money order. Current students may have the charge added to their tuition bill. The Transcript Request form is available online at www.tacoma.washington.edu/cashier/transcripts. Allow three to five working days for processing. Same-day requests are available for an
additional $15 fee. Transcripts may be picked up in the Office of the Registrar with picture identification or mailed to a third party, per student request. Each transcript will include all coursework taken at the University of Washington, with indication of the campus where the credits were earned.

Students can print out an unofficial transcript online at myuw.washington.edu.

Scholarship

Academic Standards

Students are expected to meet the traditional standards of honesty and truthfulness in all aspects of their academic work at UW Tacoma. In particular, all work submitted to an instructor in fulfillment of course assignments, including papers and projects, written and oral examinations, and oral presentations and reports, must be free of plagiarism. Plagiarism is using the creations, ideas or words of someone else without formally acknowledging the author or source through appropriate use of quotation marks, references and the like. Student work in which plagiarism occurs will not be accepted as satisfactory by the instructor and may lead to disciplinary action against the student submitting it. Any student who is uncertain whether his or her use of the work of others constitutes plagiarism should consult the course instructor for guidance before formally submitting the work involved.

Satisfactory Progress

The University’s satisfactory progress policy requires that students complete their undergraduate degree within 30 credits beyond the minimum required for the degree. Because most degrees require 180 total transfer and UW credits, students generally must complete their programs by the time they earn 210 credits.

Undergraduates who have completed over 210 credits will be notified by the end of the third week of the quarter that a hold is being placed on their registration due to lack of satisfactory progress. Students are encouraged to meet with their program adviser to prepare a graduation plan to avoid this situation.

Low Scholarship

Academic Warning

An undergraduate student whose grade-point average falls below 2.00 in his or her first quarter at the University receives an academic warning. If a cumulative grade-point average of at least 2.00 for courses earned in residence at the University is not achieved by the end of the next quarter, he or she is placed on academic probation.

Academic Probation and Dismissal for Low Scholarship

An undergraduate student is placed on academic probation at the end of any quarter (except for the first quarter at the University, when an academic warning is issued) in which his or her cumulative grade-point average falls below 2.00. Once on probation, the student must attain at least a 2.50 for each succeeding quarter’s work until the cumulative grade-point average is raised to 2.00 or the student is dropped for low scholarship.

Reinstatement

An undergraduate student who has been dropped under low-scholarship rules will be readmitted to the University only at the discretion of their academic program and, in some cases, may be required to sit out one quarter. A student readmitted after being dropped under these rules reenters the University on academic probation and may be required to re-apply to their academic program. The student’s GPA is the same as when dropped from the University, and the student may not use grades from other colleges or universities to raise his or her UW grade-point average. A readmitted student is dropped if he or she fails to attain either a 2.50 grade-point average for the following quarter’s work or a cumulative UW grade-point average of 2.00 at the end of that quarter. The student is removed from probation at the end of the quarter in which a cumulative grade-point average of 2.00 or better is reached. The Petition for Reinstatement form is available from the Office of the Registrar or the student’s academic program.

Senior in Final Quarter

A senior who has completed the required number of credits for graduation, but whose work in what would normally be his or her final quarter places him or her on probation does not receive a degree until removed from probation.

Dean’s List

Quarterly Dean’s List

The quarterly high-scholarship list includes the names of matriculated undergraduate students who have attained a quarterly grade-point average of 3.50 in the final grades for at least 12 graded credits. Appropriate high-scholarship entries are made on the student’s permanent academic record.

Annual Dean’s List

The yearly award for high scholarship is recorded on the academic transcript of undergraduate students enrolled for three quarters of the academic year (summer through spring) and who earned a quarterly GPA of 3.50 in 12 or more numerically graded credits each quarter. It is also recorded for students enrolled for four quarters who met the standard just mentioned and also earned a quarterly GPA of 3.5 or better in the fourth quarter if enrolled for 10 or more credits.

Annual Dean’s List Certificate

Annual Dean’s List Certificates are awarded to students in the senior class who have high scholastic records for their junior year. The Honors Committee on the University of Washington, Seattle campus determines the grade-point average required for the awarding of certificates. Students receive a certificate and a letter of congratulations from the UW Tacoma Chancellor.

Baccalaureate Honors

Baccalaureate honors (summa cum laude, magna cum laude, cum laude) are awarded only to recipients of a first baccalaureate degree. These honors are earned by those students who have completed no fewer than 90 residence credits at this institution. At least 60 of the 90 credits must have been acquired on a graded basis.

The University’s Honors Committee determines annually the grade-point requirement for each baccalaureate honor. In recent years, approximately 10 percent of the students have been awarded baccalaureate honors. Credits earned by extension courses are not counted toward honors eligibility.

August graduates who wish to participate in the preceding June commencement should contact their program adviser regarding recognition of honors at the June ceremony.

Faculty Honors

At the University of Washington Tacoma, faculty honors are awarded to those students receiving a baccalaureate degree whose GPA is in the upper 10 percent of their program and who have earned between 43 and 89 graded credits at the UW.

Chancellor’s Medal

The Chancellor’s Medal, which is conferred at commencement, recognizes the graduating senior who has the most distinguished academic record. Only students who have earned at least 90 credits (43 credits for Nursing students) in residence at the University of Washington Tacoma may be considered.
**Student Rights and Responsibilities**

It is the responsibility of the student to become familiar with all academic and administrative regulations and procedures relating to his or her course of study at UW Tacoma.

**Student Conduct Code**

The University Board of Regents has adopted a Student Conduct Code, which applies to both academic and nonacademic conduct for students while in attendance at UW Tacoma. The University of Washington Student Conduct Code obligates students to:

- Maintain high standards of academic and professional honesty and integrity.
- Respect the rights, privileges and property of other members of the academic community and visitors to the campus.
- Refrain from actions that would interfere with University functions or endanger the health, safety or welfare of other persons.
- Comply with the rules and regulations of the University, its schools, colleges and departments.

Violations of these standards may result in a variety of disciplinary actions, including suspension or permanent dismissal from the University. The Code specifies standards of conduct, jurisdiction for hearing disciplinary matters and due process. Students may obtain copies from the Office of Student Affairs or online at [www.washington.edu/students/handbook/conduct.html](http://www.washington.edu/students/handbook/conduct.html).

Individual academic and professional programs may have standards and expectations beyond those explained in the Code of Conduct. Please contact the program office for details.

**Computer Use and Software Copyright Policy**

All faculty, staff and students who use any computer at the University are responsible for using computer resources in an ethical and legal manner. For example, it is not appropriate to share computer accounts or use them for commercial purposes, to send unwanted e-mail, or to distribute copyrighted software, music or images. Those who do not follow the rules could lose their UW computing privileges. For detailed information, see "Know the Rules" on the Computing and Information Technologies Web site at [www.washington.edu/computing](http://www.washington.edu/computing).

**Equal Opportunity**

The University of Washington, as a standing policy, does not discriminate on the basis of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam-era veteran. Any discriminatory action can be a cause for disciplinary action. This policy applies to all University programs and facilities including, but not limited to, admissions, educational programs, employment, and patient and hospital services. Such discrimination is prohibited by Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, Age Discrimination in Employment Act Amendments of 1978, Vietnam Era Veteran’s Readjustment Assistance Act of 1974, Americans with Disabilities Act of 1990, State of Washington Gender Equity in Higher Education Act of 1989, other federal and state statutes and regulations, and University policy. Coordination of the compliance efforts of the University of Washington with respect to all of these laws and regulations is under the direction of the Equal Employment Officer, Dr. Helen Remick, University of Washington, Equal Employment and Affirmative Action Office, 7A-08, 4045 Brooklyn Ave. NE, Seattle, Washington 98195, (206) 543-1830.

**Student Education Records**

As a general rule, the University will not release a student's education records to a third party without the written consent of the student. This includes tuition account information. The complete University policy on student education records and the location of such records may be found in the Washington Administrative Code under WAC 478-140. Manuals containing the code are available at reference stations on campus (including in the Office of the Chancellor and in the campus library) and at the University of Washington Visitor’s Information Center at 4014 University Way NE, Seattle. The policy covers such items as accessibility, review and expunging of inaccurate records, and costs to be charged for copies of student records. Information release forms for tuition accounts information only may be obtained from the Student Accounts and Cashier's Office, 129 Schmitz Hall, Seattle.

**Release of Student Directory Information**

The Family Educational Rights and Privacy Act of 1974 (FERPA) protects the privacy of student educational records. However, the following information is considered public or directory information and may be released to anyone unless the student requests otherwise: name, telephone number, e-mail address, place of birth, major, dates of attendance, degrees and awards received, full- or part-time enrollment status, most recent previous educational institution attended, and for athletes, date of birth, weight and height. If a student chooses not to authorize release of directory information, he or she can restrict this information using MyUW (myuw.washington.edu) or by completing a form in the Office of the UW Tacoma Registrar. Except under provisions of the USA PATRIOT Act of 2001, no information will be released on students who have restricted release of directory information, including degrees awarded and dates of attendance. To change authorization and allow release, students must present, in person, a request in writing to the Office of the UW Tacoma Registrar substantiated by photo identification.

Complete details regarding FERPA and students’ rights concerning educational records are available from the Office of the Registrar.

**Sexual Harassment Complaint Procedure**

Students, staff, faculty and other users of University services who have a concern or complaint regarding sexual harassment may contact either the director of Human Resources at UW Tacoma, the Ombudsman at (253) 692-4476 or the University Complaint Investigation and Resolution Office at (206) 616-2028. Personnel in these offices provide assistance in resolving concerns and complaints. Also, UW Tacoma staff may contact the director of Human Resources at UW Tacoma about sexual harassment concerns.

---

*The USA PATRIOT Act of 2001, however, limits some privacy protections.*
International Student Admissions

Students who are not U.S. citizens, permanent residents or refugees, or who are living in the U.S. under an F, B, H, J, L or M visa, are considered international students.

The University of Washington Tacoma accepts transfer applications from international students who have completed one or more years of study (at least 40 credits) at an accredited higher education institution in the U.S. Students who have earned fewer than 40 college-level credits must apply as freshmen and meet the requirements for international freshman applicants. The minimum number of completed credits and prerequisite coursework requirements to be admitted to a major vary by program.

The University of Washington Tacoma accepts freshman applications from international students who have attended high school entirely in the U.S.

International students can be admitted in any quarter that their chosen degree program regularly admits students.

Note: UW Tacoma currently offers very limited housing for students (including international students), although there are many housing options near the campus. Additionally, though we are continuing to expand our services to students, at this time please be aware that there are limited support services available for international students.

Students are welcome to submit transcripts from non-U.S. colleges and universities. Credentials must be original documents or photocopies stamped as certified-true copies by school officials or other educational authorities. All transcripts written in any language other than English must be accompanied by English translations in the same format as the originals, certified as accurate by a qualified translator and providing an evaluation of the foreign credentials. Interested students should download the International Students application materials from the UW Tacoma Web site.

Applying as an international freshman student

The University of Washington Tacoma accepts freshman applications from international students who have attended high school entirely in the U.S. Freshman are currently admitted for Autumn Quarter only.

To complete the international freshman student application process, you must submit the following:

- Application for freshman admission
  Complete the University of Washington Tacoma Application for Freshman Admission along with the nonrefundable US$50 application fee. The application fee can be paid with a credit or debit card or an electronic check. If you have any questions about the application process, contact the Office of Admissions at (253) 692-4742.

- Transcripts
  International freshman applicants are required to have completed all years of high school in the U.S.; transcripts are not required for freshman during the application process. A final high school transcript will be required if you are admitted.

- English proficiency exam scores
  All applicants must submit official English proficiency exam scores that meet the University’s minimum requirement to be considered for admission. Scores must be sent directly from the testing agency to the University; unofficial reports or photocopies will not be accepted. Only the exams listed in the table below may be used to satisfy this requirement.

- Financial information
  Submit the Statement of Responsibility form with a bank or financial institution statement showing sufficient funds to attend this school.

- Transfer verification
  Complete the top portion of the International Student Transfer Verification form and give it to your current international student adviser for completion. Include copies of all I-20 forms from current and former institutions.

Applying as an international transfer student

The University of Washington Tacoma accepts transfer applications from international students who have completed one or more years of study (at least 40 credits) at an accredited higher education institution in the U.S. Students who have earned fewer than 40 college-level credits must apply as freshmen and meet the requirements for international freshman applicants.

International students can be admitted in any quarter that their chosen degree program regularly admits students. International students must apply before the priority application date for their degree program.

To complete the international transfer student application process, you must submit the following:

- **Application for transfer admission**
  Complete the University of Washington Tacoma Application for Transfer Admission along with the nonrefundable US$50 application fee. The application fee can be paid with a credit or debit card or an electronic check. If you have any questions about the application process, contact the Office of Admissions at (253) 692-4742.

- **Transcripts**
  Please submit an official transcript from every college or university attended. Students are welcome, but not required, to submit transcripts and official documentation from non-U.S. colleges or universities. Credentials must be original documents, or photocopies stamped as certified-true copies by school officials or other educational authorities.

  *Note:* If you are a U.S. citizen who attended school outside the U.S., you are required to submit transcripts from all non-U.S. schools.

  All non-U.S. transcripts, written in any language other than English, must be accompanied by English translations in the same format as the originals and certified as accurate by a qualified translator. Additionally, all foreign transcripts, regardless of the language they are written in, must be evaluated by a foreign credentials agency. Results should be forwarded directly to the Office of Admissions at the University of Washington Tacoma. The student is responsible for ensuring that these processes are accomplished and documentation is forwarded.

- **English proficiency exam scores**
  All applicants must submit official English proficiency exam scores that meet the University’s minimum requirement to be considered for admission. Scores must be sent directly from the testing agency to the University; unofficial reports or photocopies will not be accepted.
  Only the exams listed in the table on page 20 may be used to satisfy this requirement.

- **Financial information**
  Submit the Statement of Responsibility form with a bank or financial institution statement showing sufficient funds to attend this school.

- **Transfer verification**
  Complete the top portion of the International Student Transfer Verification form and give it to your current international student adviser for completion. Include copies of all I-20 forms from current and former institutions.

- **Departmental requirements**
  Academic departments may have supplemental materials or admissions requirements beyond those listed above. Students should check with the program offices for the most current information.

Applying as an international graduate student

Not all UW Tacoma graduate programs can accept international applicants. For more information on international graduate admissions, please contact the graduate adviser for the academic program.
Undergraduate Admission and Graduation

The University of Washington Tacoma admits freshmen and transfer students through a competitive review of applicant pools. Admission requirements and priority application dates vary by quarter and academic program, so it is recommended that prospective students contact the Office of Admissions Advising and Outreach for current information by calling (253) 692-4742. Additional information is also available on our Web site at www.tacoma.washington.edu/admissions.

Freshman Applicants

Students with fewer than 40 college-level credits at the time of application should complete the Application for Freshman Admission. This includes high school students who have not attempted college-level coursework and Running Start students who have fewer than 40 college-level credits at the time of application. (Running Start students who have completed 40 or more college-level credits at the time of application and meet transfer admission requirements, should apply using the Transfer Application for Admission.)

Freshman applicants must meet college academic distribution requirements (CADR), have a minimum 2.0 GPA and submit SAT or ACT scores. Applicants will be evaluated on a number of factors, including the following: grades and test scores, rigor of curriculum; activities and accomplishments; educational goals; diverse life experiences; and first-generation college status. These factors are not of equal weight and no single factor will be sufficient to confer admission.

The University will offer admission to applicants who will most benefit from and contribute to the University’s educational community. In selecting the freshman class, the University will not make admission decisions solely on the basis of past academic accomplishments. The intention is to enroll a freshman class that, as a whole, represents the diversity of our community.

College-level credit will be awarded for those courses that have been successfully completed and meet UW transfer credit equivalencies; evaluation for appropriate placement into the UW Tacoma freshman core curriculum will be conducted by the General Education Center.

Freshman Advising

Freshman advising is done through the General Education Center located in Science 102.

Freshman Curriculum

UW Tacoma offers first-year students a core curriculum that emerges from best practices across the country and research on what helps students succeed. According to this research and these practices, a “cohort” model results in higher academic achievement, a lower attrition rate, and greater student satisfaction than other models.

In a cohort model, undergraduates take courses with the same students throughout their core courses. Doing so helps students, faculty, staff, and librarians create a learning community. Teaching and learning in community (rather than with different students in every class) means that students make friends faster and work together as colleagues.

Best practices and research also tell us that interdisciplinary core courses are very successful for first-year students. That is why the core courses include more than one field of study. Today’s challenges, after all, are complex and require educated citizens to approach them from more than one perspective.

A different faculty team—in classes with a student-to-faculty ratio of 25 to 1—will teach the course from a different academic perspective each quarter. Over the course of the year, students meet a full range of general requirements but remain focused on the same theme. A student may earn credit in English and economics one quarter, then history and sociology the next. But throughout the year, discussion, lectures, reading, writing and project assignments will focus on the same, unifying theme designed to broaden students' perspectives, not only about what they are studying, but also about the world in which they live.

Beyond the core curriculum, students select each quarter from a range of elective courses that will allow them to explore and prepare for potential majors.

Transfer Applicants

Students who have completed 40 or more college-level credits at the time of application complete the Application for Transfer Admission. Transfer students who have a minimum 2.0 GPA, have fulfilled college academic distribution requirements (CADR) and have completed at least 40 college-level credits, including five credits of English composition or its equivalent and intermediate algebra or its equivalent, at the time of application will be considered for admission to the University.

Most transfer applicants who have completed the equivalent of two years of coursework at a community college or four-year college prior to the quarter for which they are seeking admission are generally considered for admission to an academic program at the time of application.

Some academic programs admit transfer students with less than the equivalent of two years of college-level coursework. See the individual program sections for details regarding specific admission requirements.

Guaranteed admission for transfer students

If you are a Washington state resident and earn a transfer degree at a Washington state community college with at least a 2.75 GPA, you are guaranteed general admission to the University.

22 University of Washington Tacoma | 2008-2009 Catalog
College Academic Distribution Requirements (CADR)

Students are required to complete a minimum level of preparation in six subject areas in high school. More information about each of these requirements is available online at www.tacoma.washington.edu/admissions/freshman/cadr.cfm.

Using College Coursework to Complete CADR

Almost all applicants will have satisfied these requirements through high school coursework, which is generally defined as that completed in grades 9-12. However, there are several ways to satisfy CADR at the college level. In general, five quarter credits (or three semester credits) at the college level equals one credit of high-school study. If you completed a portion of these requirements in high school, you can pick up in college where you left off in high school. For example, if you completed three credits of English in high school, you can use one college English composition or literature course to bring your total to four credits.

Grading Restrictions

To satisfy the college academic distribution requirements, a passing grade, including a ‘D,’ is acceptable in either high school or college work. Intermediate algebra at the college level must be completed with a ‘C’ (2.0) or better. Also acceptable is a grade of ‘Pass’ in a course taken on a ‘Pass/Not Pass’ basis.

However, if you are completing CADR through college coursework, you are strongly encouraged to take courses for a letter/numerical grade, because you may later want to apply this coursework towards requirements for your major or university or college graduation requirements, for which grading restrictions pertain.

Application Process

There are two ways to complete the application process for the University of Washington Tacoma: online via the Web or by downloading or requesting a paper application packet. There is no difference in the application fee.

The application fee is nonrefundable. Applicants should ensure they meet all admission requirements before submitting an application. It is recommended that applicants meet with an admissions adviser if they have questions.

Application Materials

Application materials can be found on the University’s Web site at www.tacoma.washington.edu/apply. A paper application can be downloaded in PDF format or applicants can request a paper application be mailed to them by calling (253) 692-5723.

Application Requirements

1. All students must carefully complete the appropriate Application for (Freshman or Transfer) Admission form and submit payment for the $50 undergraduate application fee. If completing the online application, the fee can be paid with a credit or debit card or by electronic check. The application fee is nonrefundable and must be submitted each time a student applies.

Students completing a paper application must mail the application along with a check or money order (U.S. dollars only; do not send cash) payable to the University of Washington Tacoma to:

University of Washington Tacoma
Attn: Office of Admissions
Campus Box 358433
1900 Commerce St.
Tacoma, WA 98402-3100

2. Send an official transcript from each college attended and a high school transcript if a foreign language or intermediate algebra was studied in high school. Freshman applicants are not required to send high school transcripts at the time of application (a self-reported list of high school courses and grades is part of the application), although a final official transcript will be required if an offer of admission is made. All transcripts should be sent to:

University of Washington Tacoma
Attn: Office of Admissions
Campus Box 358400
1900 Commerce St.
Tacoma, WA 98402-3100

3. Submit any additional application materials (such as letters of recommendation) that are specifically required by the academic program. Transfer applicants should send these materials directly to the appropriate academic program office. Freshman applicants should send these materials to the Office of Admissions. For details review the individual program sections of this catalog.

Once transcripts and supporting documents are received, they become part of the student’s permanent academic record and cannot be returned to the student. Any student who desires transcripts of work elsewhere must order official copies from the institution at which the work was undertaken. UW Tacoma does not issue or certify copies of transcripts from other institutions.

These dates may change for subsequent years, and programs that admit more than once a year may not continue to do so in subsequent years.
Change of Application Quarter

The application that a student submits is valid only for the quarter specified. If a student wants to change the quarter of the application, the student must submit another application and fee. Certain circumstances warrant completion of the Petition to Update Application Quarter for the undergraduate programs. If the petition is granted, then the student will not need to complete another application or submit another application fee. Please check with the Office of Enrollment Services for the petition and its guidelines.

When to Apply

Early application is strongly advised. In order to assure consideration, the completed application, along with any other required documents, should be submitted by the priority application date.

Priority application dates for undergraduate students are shown in the table on page 23. For priority scholarship consideration, freshman applications must be received by January 15; transfer applications by February 15.

Freshman and transfer applications received after their respective priority application dates will be considered on a space-available basis. Please note that a complete application includes all forms, essays and transcripts.

Also, for financial aid and scholarship consideration, your Free Application for Federal Student Aid (FAFSA) should be submitted by February 28. See the “Financial Aid” section for more information on completing the FAFSA.

Notification of Admission Decision

When all required documents have been received, an evaluation is made and the applicant is notified of his or her admission status. An offer of admission is generally valid only for the quarter indicated. Applicants who wish to be considered for a different quarter may be required to file a new application and pay the associated fee. (See Change of Application Quarter on page 21.) Application materials of applicants who do not register for the quarter to which they have been admitted are normally retained for a period of one year from the quarter of application. At the end of this period materials on file are destroyed unless the applicant has notified the University of a continued interest in attending UW Tacoma.

Admission Categories

UW Tacoma offers seven admission categories, outlined below. The Office of Enrollment Services can assist applicants who are uncertain about the proper admission category.

Matriculated students

New students at UW Tacoma seeking their first undergraduate degree are normally considered matriculated students and admitted to the University as freshmen or general University transfer students or to a specific academic program as transfer students.

Postbaccalaureate students

Postbaccalaureate is a matriculated status at the University of Washington Tacoma. Postbaccalaureate students are those who have completed one or more bachelor’s degrees and are working toward another bachelor’s degree or completing prerequisite courses for a graduate program. The application of their previous coursework toward graduation requirements will be determined by program faculty and advisers.

Nonmatriculated students

Although a student enrolled at the University of Washington Tacoma in a nonmatriculated status cannot earn a degree, a grade is earned and full credit is awarded and recorded on a UW transcript. The credits earned as a nonmatriculated student usually transfer to other institutions. If a student is later accepted into a matriculated status at the Tacoma campus, courses earned as a nonmatriculated student may be applied to undergraduate degree requirements with some restrictions. Students admitted as nonmatriculated may be limited in the number of credits they will be allowed to accrue in this status. The number may vary by program. Students considering switching to matriculated (degree-seeking) status are encouraged to do so as soon as possible, as 45 of the last 60 credits of a baccalaureate degree must be earned as a matriculated student in residence at the Tacoma campus.

Students who wish to change their status from nonmatriculated to matriculated must apply to do so by the priority application date of the program they wish to enter. Change-of-status forms are available in the Office of Enrollment Services.

Applicants seeking matriculated status may have admission and registration priority over nonmatriculated applicants.

Non-UW Tacoma students applying to the Geographic Information Systems (GIS) and Nonprofit Management certificate programs should apply as nonmatriculated students. Please review the program requirements for guidance in making a successful application and completing additional application requirements.

Summer Only Visiting Students

Also apply as nonmatriculated students. Applicants must meet application and admission requirements if they wish to matriculate for subsequent quarters. Students admitted for Autumn who wish to begin their studies during Summer Quarter should consult their academic program.

Returning former students

A UW Tacoma undergraduate student who has not been enrolled for more than one quarter (not including summer) is required to complete and file a Returning Student Application and pay a $50 application fee by the priority application date. Because academic programs determine admission based upon prior academic record and space availability, admission is not guaranteed to returning students. Returning nonmatriculated students are re-admitted as space permits. Contact the specific academic program office to discuss the re-admission process.

Pre-major students

Students wishing to register for UW Tacoma courses in a quarter other than the quarter in which their desired program (for example, Nursing) regularly admits may request approval from that program to enroll as a pre-major student on a space-available basis. Transfer applicants admitted to the University and not admitted to an academic program are also admitted as pre-major students. Pre-major is a matriculated status.

Auditors

Individuals who wish only to audit University courses should apply for admission with nonmatriculated standing. Attendance in courses as an auditor is by consent of the instructor involved and only as space permits. Permission to audit is ordinarily granted for lecture classes only. An auditor may not participate in class discussion or laboratory work, and the auditor’s registration may be canceled at the discretion of the instructor. No record of audited courses is kept. Regular tuition and fees are charged. To receive credit for an audited course, the student must register for the class for credit and complete the course requirements in a subsequent quarter.

Dual Enrollment

The University of Washington Tacoma has partnered with Tacoma Community College to offer a Dual Enrollment program. Now students can attend both schools at once, and it’s easy to gain access to a wide variety of degree and certificate programs. On campuses just six miles apart, students will benefit from the close relationship between advisers from both schools, who help them make the best choices to meet
their educational goals. Students will enjoy a seamless transition between your lower- and upper-division coursework on the path to earning their bachelor’s degree.

Students get:

- **Admitted with one application**: With a single application students can be accepted at Tacoma Community College and UW Tacoma.
- **Double the student life**: Students can participate in events, lectures, student activities and student life on both campuses.
- **Coordinated academic advising**: Students have access to advisers at both schools who can help them prepare for their long-term academic goals and provide increased guidance in navigating each campus.
- **Access to more resources**: Achieve academic success with access to the world-class UW Libraries system, TCC’s high-tech Information Commons, Learning Resource Center and Web Café. Learning and technology resources on both campuses.

A Dual Enrollment adviser can review transcripts and help students plan their coursework. Advisers will also direct students to useful campus resources and provide general financial aid information, including financial aid procedures and timelines. To learn more about the Dual Enrollment Program, call Sam Loftin, Dual Enrollment Adviser at (253) 692-4743 or (253) 460-4468.

**General University Admission Requirements for Transfer Students**

Transfer students may be admitted to the University of Washington Tacoma if they have completed a minimum of 40 college-level credits, have maintained a 2.0 GPA and have completed the minimum requirements outlined below.

Students granted general University admission will need to apply to a major at a later date. Admission requirements for each academic program at the University of Washington Tacoma vary. See each program’s section in this catalog for a complete list.

**Foreign language**

All applicants must complete two high school years, or 10 credits at the college level, of a single foreign language. The study must be devoted to a single foreign language and must be in sequence, with no repetition of any prior term of study. Any natural language other than English that has been formally studied may be used to satisfy this requirement, including languages no longer spoken, such as Latin and ancient Greek. American Sign Language (AMESLAN, the language of the deaf community in America) will also meet this requirement. However, other forms of deaf signing and computer “languages” are not acceptable. The foreign language requirement will be considered satisfied for applicants who had instruction through seventh grade in a language other than English.

**Mathematics**

All applicants must complete three years of high school math through intermediate (second-year) algebra or a course in intermediate algebra in college. Proficiency may be satisfied through other coursework; check with an adviser for a list.

**Writing**

All applicants must complete at least five credits of English composition to meet the minimum admission requirement. Introductory English composition courses are not currently offered at the Tacoma campus. Coursework must be completed through enrollment at a community college, a four-year institution or UW Distance Learning. Students are required to complete a total of 15 credits of writing-intensive coursework (including English composition) before graduating. It is recommended that students consider completing the required 10 additional credits of writing-intensive coursework prior to entering UW Tacoma. In some cases, completion of an advanced writing course at UW Tacoma may be used to fulfill the English composition requirement. Courses offered at UW Tacoma that will satisfy this requirement are indicated in the course description listings for each program.

**Undergraduate Transfer Credit**

To students pursuing a first bachelor’s degree, UW Tacoma awards transfer credit according to the guidelines listed below. It reserves the right to accept or reject credits earned at other institutions of higher education. In general, it is University policy to accept credits earned at institutions fully accredited by the regional accrediting association provided that such credits have been earned through university-level courses (see exceptions below) appropriate to the student’s degree program.

For courses taken at a Washington state community college, UW Tacoma follows the list of transferable courses published in the UW Equivalency Guide for Washington Community and Technical Colleges.

**Notable Restrictions on Transfer Credit**

**Lower-division college credit**

Depending on their degree program, students can be allowed a maximum of 135 transferable lower-division (100- or 200-level courses) quarter credits of the 180 credits needed for a bachelor’s degree. Upper-division credits (300- or 400-level courses) from other four-year institutions may apply to some program requirements. For some programs, there is a seven-year limit on upper-division transfer credits that are applied toward required core or concentration courses. Please consult with an adviser for details.

**UW Extension distance learning**

If permitted by the degree program, up to 90 credits earned in correspondence courses offered by the Distance Learning division of UW Extension may be applied toward a UW degree. However, 45 of the student’s final 60 credits must be taken in residence at UW Tacoma to meet the Final-Year Residency Requirement (see page 26).

**Extension credit from other schools**

No more than 45 credits earned as extension credit from other schools may be applied toward a UW degree. Military credit, discussed below, is included in the 45 extension credit limit.

**Guidance/Personal development**

A maximum of 3 credits is awarded for courses in this area as part of the 15 credits allowed for vocational/technical courses.

**Limitation on ROTC credits**

Credits earned in first- and second-year military training courses may not be counted in the 180 credits that are required for graduation. Some third- and fourth-year courses may count, depending on the student’s degree program.

**Military credit**

Credits earned in Armed Forces Training Schools (AFTS) and through USAFI and DANTES may not exceed 30 and are included in the 45 extension credit limit. Official transcripts or DD-214 or DD-295 forms must be submitted, and credit will not be awarded until after the student has enrolled. Scores received in such coursework are not included in the transfer GPA.

**Out-of-sequence courses**

Credit is not awarded for prerequisite courses completed after a more advanced-level course has been completed. For example, students will not be awarded credit for Spanish 102 if it was taken after Spanish 103.
Physical education
No more than 3 quarter credits will be allowed for physical education activity courses.

Vocational-technical courses
A maximum of 15 transfer credits will be awarded for a wide range of college-level courses that are vocational-technical, rather than academic, in content (i.e., bookkeeping, electronics, physical therapy technician). These credits may apply only to the elective component of a baccalaureate degree and only with program approval.

Alternative credit
The University of Washington Tacoma does not award general credit for work or life experience.

Courses Receiving No Credit
Courses receiving no transfer credit include (but are not limited to):
- Courses below college level (usually numbered below 100)
- Repeated or duplicate courses
- Coursework taken at an institution that is not accredited by the regional association
- Courses that provide instruction in a particular religious doctrine
- Mathematics courses considered below college level, including basic math, business math, beginning and intermediate algebra
- Courses offered for non-credit continuing education units
- Remedial English (e.g., reading, vocabulary development, grammar, speed reading, or any courses that are preparatory to an institution’s first English composition course)
- Courses providing instruction in English as a Second Language (100-level or above)
- Remedial courses in any academic discipline
- Any course in the following categories:
  - aeronautics/aviation/pilot training
  - air conditioning/heating-refrigeration
  - allied health (optics)
  - auto mechanics
  - beginning typing
  - carpentry/construction methods
  - cooking/baking
  - cosmetology
  - custodial training/maintenance
  - diesel mechanics
  - fire science
  - graphics reproduction
  - horse-shoeing
  - military science (lower-division)
  - replacement parts
  - stationary steam engineering
  - study skills
  - water science technology

College-Level Examination Program (CLEP): The University does not accept or award credit for CLEP general or subject examinations. Any such credit awarded by other institutions, or through independent testing, will not be transferred to the University.

Applicability of Transfer Credit to Degree Requirements
The Office of Enrollment Services has the authority to make decisions approving transfer credit to the University and application of transfer credits to fulfill University requirements. The individual academic program offices have the authority to determine application of transfer credits to fulfill major requirements.

By the first quarter of enrollment, a student should meet with a program adviser to plan a program of study. The program adviser will determine how the transfer credits may be used in meeting degree requirements.

Quarter vs. Semester Credits
Colleges and universities that operate on a semester system award semester credit. The University of Washington Tacoma awards quarter credit. One semester credit is equivalent to 1.5 quarter credits; one three-semester-credit course is equivalent to 4.5 quarter credits. Sixty semester credits are equivalent to 90 quarter credits.

Transfer GPA
In calculating the transfer GPA, the following guidelines apply:
- Grades from all transferable academic courses attempted, from all colleges the student has attended, in which the student has received grades between 0.0 and 4.0 on a 4.0 grading scale are included in the calculation.
- Repeated courses. At UW Tacoma, the most recent grade for a repeated course is used in the transfer GPA. (Note: This method is different from that used in calculating the UW Tacoma GPA for UW Tacoma courses that have been repeated.)
- All transferable academic credit from two-year colleges is included in the calculation, even if it exceeds 90 credits.
- Transfer coursework completed after a student matriculates must be graded on a numerical or letter-grade basis.

The following are not included in the transfer GPA:
- Courses considered by UW Tacoma to be below college level
- Math courses equivalent to MATH 098 (formerly MATH 101, Intermediate Algebra)
- Certain religion courses that teach from a particular doctrinal perspective or that teach preparation for the ministry
- Developmental or remedial courses
- Courses in study skills
- Lower-division military science courses
- English as a Second Language courses
- Vocational/technical courses
- Courses recorded with a grade of “Incomplete”
- Courses recorded with a grade of “Pass” or “Satisfactory”
- P.E. activity credits in excess of three quarter credits

Class Standing
A student’s initial class standing is determined by the total number of transfer credits awarded by the University of Washington Tacoma, not by the number of years of college study or completion of an associate degree. The following table lists the required credits for each class:

<table>
<thead>
<tr>
<th>Class Standing</th>
<th>Required Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>fewer than 45 credits</td>
</tr>
<tr>
<td>Sophomore</td>
<td>45-89 credits</td>
</tr>
<tr>
<td>Junior</td>
<td>90-134 credits</td>
</tr>
<tr>
<td>Senior</td>
<td>135 credits or more</td>
</tr>
</tbody>
</table>

Students should note that satisfying Tacoma campus graduation requirements depends not only on the number of credits completed (a minimum of 180) but also on completion of all program requirements.
**Declaring a major**

A major is the academic subject area, such as business or environmental science, in which a student will take the majority of her or his upper-level courses and in which she or he will earn a bachelor's degree.

Most transfer students are admitted directly to a major. Students admitted as freshmen or general university transfers will need to declare a major.

**When to declare a major**

Students are able to declare a major as soon as they have met the minimum credits required for the major. Students are expected to have declared a major by the time they have accumulated 105 credits, which is about one quarter into the junior year.

Although all students have to complete general education requirements (see "Graduation Requirements for the Baccalaureate Degree"), it is not a good idea to concentrate exclusively on general education requirements first and postpone thinking about a major. Many majors require more than 50 credits to complete and some have prerequisites. If students put off the decision too long, it may take more time than anticipated to complete a degree.

If a student is not able to declare his or her intended major by the time the student has earned 105 credits, he or she must make another choice or seek a "pre-major extension" from an adviser. Pre-major extensions are usually granted if there is a reasonable chance of being accepted into the intended major.

Students who haven't yet decided on a major and need some guidance can consult the Career Development Center for help.

**What majors are available?**

UW Tacoma offers seven majors with an additional 16 areas of concentration or study options. Review the academic program sections of this catalog for details.

**How to declare a major**

Once the admission requirements of a major, if any, have been met, a student can declare the major by:

- Downloading and completing the Request to Declare/Change Major form.
- Taking the completed Change of Major form to the student's current adviser or program office (pre-major students go to the General Education Center in Science 102). The current program will sign the form and make a copy for their records.
- Take the signed form to the new adviser or program office for their approval.

- Students declaring a competitive major, will need to submit any supplemental forms or other required documents directly to the program office of the new major.
- Students will be notified of acceptance into the new major and the new adviser will forward the approved form to the Registrar’s Office, where the student's major code will be changed.
- Students who are not accepted into their requested major may consult with an adviser or submit another form to declare a different major.

**Changing a major**

Students can change their major at any time using this same process. Students should meet with an academic adviser first.

**Declaring a double major or double degree**

Using the same process outlined above, students may complete the requirements of two majors as either a double major or a double degree.

- Students who complete the requirements of two majors and accumulate between 180 and 225 credits will be awarded one bachelor's degree with two majors, called a "double major."
- Students who complete the requirements of two majors and accumulate 225 credits (180 + 45) will be awarded two bachelor's degrees, called a "double degree." The student will receive two diplomas.
- If the two degrees are offered by different schools (i.e., the Milgard School of Business and IAS) or if one of the majors is a B.A. and the other is a B.S, the student must complete a double degree.

**Certifying completion of a minor**

Minors are posted on the student’s transcript. A minor must be awarded at the same time the student's first bachelor’s degree is awarded. This means:

- A student who doesn’t graduate cannot be awarded a minor.
- A student cannot earn a minor after graduation.

**Graduation Requirements for the Baccalaureate Degree**

To graduate with a bachelor's degree, a student must meet minimum general education and basic skills requirements in addition to the requirements of their academic program. This section outlines only the general education and basic skill requirements. Graduation requirements for the individual degree programs are explained in each program's section in this catalog.

- Earn a cumulative grade-point average of at least 2.0 for all work done in residence at the University. The graduation grade-point average is computed when the student has completed all work for the degree and includes only credits earned while in residence at the University.
- Complete a minimum of 180 academic credits to include:
  - No fewer than 40 credits of general education courses to include a minimum of 10 credits in each of three areas of study: Natural World, Individuals and Society and Visual, Literary and Performing Arts
  - A minimum of 15 credits of writing to include 5 credits of English composition and 10 credits of writing-intensive courses
  - A minimum of 5 credits of Quantitative/Symbolic Reasoning coursework

**Final-Year Residency Requirement**

Students are required to complete 45 of their final 60 credits as a matriculated student in residence at UW Tacoma. Some degree programs may have stricter residency requirements.
To seek an exception to this requirement, students must contact their program adviser, who will submit the request to the UW Tacoma Admissions, Academic Standards and Graduation Committee. If an exception is granted, the student still must present a minimum of 45 credits taken in residence as a matriculated student to be awarded a UW degree.

Catalog for Graduation Requirements

With the approval of his or her program adviser, a student may choose to graduate under the requirements of either the current catalog or the catalog in effect at the time he or she entered the program from which he or she is to graduate.

If the student graduates more than 10 years after enrolling in the program, the current catalog must be used for graduation purposes. Exceptions to this rule cannot be made without official approval.

Waiver of Graduation Requirements

To request a waiver of Tacoma campus or University graduation requirements a student must petition the UW Tacoma Admission, Academic Standards and Graduation Committee. A student should see his or her program adviser to obtain the petition form and initiate the waiver process. The adviser will forward the petition to the committee. An exemption from an all-University graduation requirement becomes void at the end of two calendar years from the date such exemption is granted if all degree requirements have not been completed within that period.

Filing a Graduation Application

The student must make an appointment with his or her program adviser to complete a written application for graduation. The application may be filed as early as three quarters before the expected date of graduation. The absolute deadline for filing an application is Friday of the second week of the quarter in which the student intends to graduate.

Students who will complete their degree requirements in Summer Quarter but wish to participate in the preceding Spring commencement must adhere to the Spring deadline.

It is the student’s responsibility to apply for a degree; degrees are not automatically awarded when requirements have been satisfied.

If a student declared a minor but it does not appear on the graduation application, the Graduation and Academic Records Office will drop it. On the other hand, if a student does list a minor on the degree application, the student must complete that minor or drop it officially, or s/he will not graduate. This protects the student from being graduated when the actual intent is to continue on in order to complete the minor.

Adding minors after applying to graduate

A student who wants to add a minor after the graduation application has been submitted must see his or her adviser, who will update the application and notify the Graduation and Academic Records Office.

Two Majors or Two Degrees

Second baccalaureate degree

A second baccalaureate degree may be granted, but a student must earn a minimum of 45 credits beyond the number required for the first degree. These credits usually must be earned in residence, with the granting of exceptions to the residency rule being the responsibility of the college, school or campus awarding the degree. The student must achieve no less than a 2.0 cumulative grade-point average in the credits required for the second degree.

Students completing a second baccalaureate degree are not registered in the Graduate School, but in the academic division of the University with jurisdiction over the degree sought.

Degrees with two majors

The student’s application for a baccalaureate degree with two majors must show both majors and be approved by the advisers of both programs. Requirements of both majors must be met. Both majors appear on the transcript.

Two baccalaureate degrees concurrently

Two baccalaureate degrees, associated with different majors, may be granted at the same time, but the total number of academic credits earned must reach a minimum of 45 credits in excess of the number required for the first baccalaureate degree.

Commencement

Formal commencement exercises are conducted at the close of Spring Quarter, on the second Friday in June. Information on participating in commencement is posted on the UW Tacoma Web site, usually in early March, at www.tacoma.washington.edu/commencement.

Students who graduated the previous August, December or March and those who anticipate graduating in June or August of the current year are eligible to participate, if they have filed a graduation application. It is the student’s responsibility to apply for graduation by the deadline (see “Filing a Graduation Application”).

Diploma distribution

Diplomas are produced approximately 12 weeks after the end of the quarter in which they are earned and are mailed directly to the graduate. Students do not receive their actual diploma at the commencement ceremony.
The Business Administration degree program is designed to prepare students for entry into professional positions in business and government. The curriculum, which leads to a Bachelor of Arts in Business Administration, emphasizes critical learning outcomes needed by students to succeed in the business environment of the 21st century. Students will learn and apply the specific skills associated with each learning outcome in the core courses, refine and practice those learning outcomes in their study option, and use and demonstrate the outcomes in additional coursework as they fine-tune skills for their professional careers. The learning outcomes are as follows:

**Communication Skills**
Students will effectively present ideas orally and in writing.

**Quantitative Analysis**
Students will be able to use quantitative reasoning to solve business problems.

**Financial Skills**
Students will understand financial theories and methods, including financial reporting, analysis, and markets.

**Strategic Thinking**
Students will be able to think critically, diagnose organizational problems, and design effective solutions.

**Ethics and Business in Society**
Students will be able to identify ethical standards and evaluate the societal implications of business decisions.

**Global Awareness**
Students will be able to understand the global environment of business decisions.

**Teamwork**
Students will be able to work effectively within an interdependent group to achieve common goals.

**Technology**
Students will be able to utilize technology to formulate business solutions.

**Professionalism**
Students will be able to communicate professionally in organizational settings and deal with others in a manner that displays integrity and personal credibility.

**Accreditation**
The Milgard School of Business at the University of Washington Tacoma is accredited by the Association to Advance Collegiate Schools of Business (AACSB) in association with the University of Washington Seattle and Bothell campuses.

---

**Formal Options**
At the Milgard School of Business, options are formalized programs of study that require completing certain coursework. A student admitted to an option has registration priority for upper-division classes in that area and has successful completion of an option noted on his or her transcript upon graduation.

There are four formal options in the Business Administration degree: Accounting, Finance, Management and Marketing.

**Accounting**
The Accounting option is designed to complement the broader-based Business Administration core. Students develop skills to work in organizations and be effective decision-makers with a focus on the accounting aspects of business. Areas stressed within the accounting discipline include recording and reporting of financial data under generally accepted accounting principles, understanding tax law and its effect on business decisions, auditing financial statements using generally accepted auditing principles, understanding accounting information systems, understanding the composition of consolidated financial statements, and gathering and using cost data for planning and control decisions. Electives provide further study in public-sector accounting, taxation, auditing and other areas.
Students who wish to pursue a career in public accounting and be eligible to sit for the CPA exam are required to have an additional 45 quarter credits (30 semester hours) beyond the undergraduate degree requirement. The Milgard School offers these students an opportunity to take additional undergraduate and graduate business coursework. Other programs at the University can provide additional non-business learning opportunities.

Finance

The finance sector is a high-growth industry in the Pacific Northwest. Students in the Finance option acquire a solid background in financial theory and practices enabling them to work in a wide range of business professions. In addition, students develop a broad array of analytical skills, attain a thorough understanding of the finance function in different types of organizations, and sharpen their awareness of how financial institutions and markets function in a global economy.

The Finance option at the Milgard School of Business provides not only solid academic education in finance but a practical, hands-on preparation for a career in the financial sector. The structure of the program allows students to prepare for the Level 1 exam of the Chartered Financial Analyst (CFA) program, the most respected professional designation in the industry.

The Finance option prepares students to begin a career in portfolio management, financial planning, investing, banking, real estate investment and other related industries. Domestic and international career opportunities in the financial services industry are rapidly expanding. The Puget Sound area is well represented by successful, progressive financial firms with a high demand for professionals in all areas of finance.

Management

The Management option addresses the ability to lead other people, fostering the skills of planning, organizing, controlling and decision making at all levels and areas in the organization. Courses in the Management option emphasize how the tools and theories of management can help accomplish organizational goals. In addition, this option also fosters the development of skills that can be used to foster individual and organizational efficiency and effectiveness through the study of leadership, team and individual behavior, and human resources. The option prepares students for career opportunities in numerous areas: employee relations, training, inventory and material management, production and operations, strategic planning, purchasing, consulting, administration, information management, human resources, financial services, hotel and retail management, project management, organizational development, sales, and leadership in business, industry or government.

Marketing

The Marketing option provides knowledge that encompasses the dynamic environment of economic conditions, consumer research, product safety, technology, legal issues and social change. The courses in this option examine consumer behavior, channels of distribution, marketing research, pricing, advertising, product development, promotion, industrial marketing and sales administration. The option prepares students for responsibilities in domestic business firms, including private and publicly held firms, as well as governmental agencies, international and multinational organizations. Marketing careers may involve specializations such as product or brand management, advertising, wholesaling, marketing research and sales.

Informal Options

Students may choose to concentrate in General Business or International Business and follow coursework and guidelines set by the department. These options are informal and are not noted on the student’s transcript.

General Business

The study of business is truly interdisciplinary, drawing from such varied fields as economics, political science, psychology, sociology and anthropology. The General Business option is designed for the student interested in a broad perspective that draws from multiple disciplines. General Business gives students the opportunity to explore a wide range of business disciplines, including management, marketing, accounting, finance and international business. Students completing the General Business option will be well-prepared to work in small businesses where their work will span multiple functional areas or in large organizations where they will be involved with cross-functional projects or teams. Students interested in entrepreneurship will also benefit from this option, as it allows them to customize the curriculum while exposing them to all critical aspects of business.

International Business

The International Business option provides a focused course of study from the perspective of the global environment. Courses in the option are designed to emphasize the economic reality of the global marketplace and effective performance in the dynamic international-business arena. The electives from Interdisciplinary Arts and Sciences provide for further study in international culture, religion and economics. Students are required to develop a portfolio to demonstrate their integrative learning. International Business is intended to prepare students for positions in international divisions of American companies; to work in the import-export business; to seek careers in national or international governmental agencies; to establish international businesses; and to enter careers in international commercial and investment banking.

Admission Requirements

Educational Qualifications

- A cumulative GPA (grade-point average) of at least a 2.75 in all college coursework.
- A cumulative GPA of at least a 2.75 in all accounting, business, math and economics coursework.
- Fulfillment of General University Requirements (see page 23).
- Prerequisite coursework. At least four of the prerequisite courses listed below must be completed before applying. Business prerequisites must be graded. The minimum acceptable grade in a business prerequisite is 2.0.
  - 5 credits each of calculus, statistics, microeconomics, macroeconomics, business law and 5 additional credits in psychology, sociology or anthropology.
  - 9-15 credits of Accounting coursework to include Introduction to Financial Accounting, Financial Accounting and Managerial Accounting. (Accounting students are required to earn a 3.0 grade or better in each accounting prerequisite course.)
  - Students applying for the International Business informal study option must complete a foreign language through 103.
  - Completion of a minimum of 60 college-level credits. A maximum of 105 college-level transferable credits may be applied to the degree.
Admission Process

The Milgard School of Business admits students for Autumn, Winter and Spring Quarters.
Applications for admission into the Business School are considered complete when the following have been received:
- UW Tacoma undergraduate application and application fee
- Business School application and personal statement
- Transcripts
- Results of Writing Skills Assessment test (WSA)

Business School Application and Personal Statement

In addition to completing a Business School application, a written personal statement is required from all applicants. Both are used by the Milgard School Admissions Committee to assess applicants. When writing the personal statement, applicants should refer to the current Milgard School application packet for specific instructions. Additional application information is located on the Web at www.tacoma.washington.edu/business.

Writing Skills Assessment

All applicants to Milgard School of Business are required to complete the Writing Skills Assessment (WSA) test. The WSA provides the Admissions Committee with quantitative measures in addition to grade-point averages upon which to base admissions decisions. The assessment is completed only once and scores from UW Seattle or UW Bothell can be transferred to Tacoma. Writing Skills Assessment scores are valid for two years.

Selection Criteria

Admission is competitive, and candidates will be evaluated on the following criteria:
- Completion of all Business prerequisite courses
- Previous academic performance (cumulative and business GPA)
- Results of the Writing Skills Assessment (WSA) test
- Likelihood of success in the degree program
- Demonstration of the relationship between academic opportunities and the candidate’s professional career goals

Admission decisions are made by the Business School Admissions Committee.

Curriculum

The Bachelor of Arts in Business Administration curriculum consists of:
- 30 credits of required core courses
- 30-35 credits of option courses
- 5 credit capstone course
- 20-25 credits of electives

Students are expected to complete most of the Business Administration core before progressing to more advanced option courses. The 300-level core courses will usually be completed during the student’s first year as a Business student at UW Tacoma.

Business Policy and Strategic Management (TBUS 400) is the capstone course and may be taken only when a student has completed all core courses and has applied to graduate. TBUS 301 may be taken concurrently.

General Electives

Twenty to 25 credits of general electives are required to complete the Business degree. When selecting electives, a student should focus on courses that emphasize broad-based critical thinking. Students are encouraged to select electives that support career interests and provide opportunities for lifelong learning. Students may use the elective credits to develop more depth in one business discipline or to explore other areas of interest in business, health, liberal arts, computing and urban studies. General electives may be filled by transfer credits from other accredited institutions that grant baccalaureate degrees. Students with transfer credit beyond 90 credits may be able to apply additional credits towards general electives. See an adviser for more information.

Internship and independent study credit fulfills general elective requirements.

Program Standards

The following standards apply to all students in the Milgard School of Business. These standards may be in addition to other academic standards at the University of Washington Tacoma.

- Students must satisfactorily complete all upper-division Business courses at UW Tacoma by achieving a minimum 1.7 grade. If a grade below 1.7 is received, the student may need to repeat the course. Course credit will be awarded only once, and both grades will be computed into the grade-point average.
- Courses in the Business core and option may not be taken through distance learning.
- Courses in the Business core and option may not be taken S/NS (satisfactory/not satisfactory).
- Students may transfer up to two classes and apply them toward the core, and one class applied toward the formal or informal option.
- Upper-division business courses completed at other accredited four-year institutions may not be more than seven years old in order to substitute for a course in the Business Administration major. If a course is more than seven years old, the student will be required to repeat the course at UW Tacoma. Credit will not be awarded twice for an equivalent course. There is no time limit on prerequisite coursework.
- Upper-division business courses used for transfer credit are held to the 1.7 grade standard required for all courses by the Milgard School of Business.

Removal from Program

An undergraduate Business student who is dismissed from the University for low scholarship is removed from the Milgard School of Business. A letter of dismissal is sent to the student.

Students removed from the Milgard School who wish to re-enter the program must re-apply for admission. The Milgard School evaluates the student’s file, statement requesting re-admission and any extenuating circumstances, and then recommends action.
Graduation Requirements

To qualify for graduation with a Bachelor of Arts in Business Administration from the University of Washington Tacoma, a student must:

- Be a matriculated Business student in good academic standing with the University of Washington Tacoma and the Milgard School of Business.
- Satisfy all of the prerequisites for entrance into Milgard School of Business.
- Satisfy all of the General University Requirements for graduation (see page 25).
- Complete all of the required and elective courses in the Business degree and your formal or informal option:

Accounting option
- 30 credits of core courses to include TACCT 330 Accounting Information Systems
- 35 credits of Accounting courses to include:
  - TACCT 301 Intermediate Accounting I
  - TACCT 302 Intermediate Accounting II
  - TACCT 303 Intermediate Accounting III
  - TACCT 311 Cost Accounting
  - TACCT 411 Auditing Standards and Principles
  - TACCT 451 Individual Income Taxation
  - TACCT elective (5 credits)
- 5-credit capstone course TBUS 400 Business Policy & Strategic Mgmt.
- 20 credits of electives

Finance option
- 30 credits of core courses
- 35 credits of Finance courses to include:
  - TFIN 424 Managerial Economics
  - and 30 credits of Finance electives
- 5-credit capstone course TBUS 400 Business Policy & Strategic Mgmt.
- 20 credits of electives

General Business option
- 30 credits of core courses
- 30 credits of upper-division Business courses (TBGEN 311, TBUS 468 and 469 do not apply)
- 5-credit capstone course TBUS 400 Business Policy & Strategic Mgmt.
- 25 credits of electives

International Business option
- 30 credits of core courses
- 20 credits of International Business courses to include:
  - TACCT 485 International Accounting
  - TMGMT 478 International Business
  - TMGMT 480 International Management
  - TMKTG 480 International Marketing
- 15 credits of approved IAS electives
- 10 credits of additional upper-division Business courses
- 5-credit capstone course TBUS 400 Business Policy & Strategic Mgmt.
- 10 credits of electives

Management option
- 30 credits of core courses
- 30 credits of Management courses
- 5-credit capstone course TBUS 400 Business Policy & Strategic Mgmt.
- 25 credits of electives

Marketing option
- 30 credits of core courses
- 30 credits of Marketing courses to include:
  - TMKTG 450 Consumer Marketing
  - TMKTG 475 Marketing Strategy
  - TMKTG 460 Research Methods
- 5-credit capstone course TBUS 400 Business Policy & Strategic Mgmt.
- 25 credits of electives

- Complete 180 quarter credits.
- Complete TBUS 300 and TBUS 400 in residence at UW Tacoma.
- Maintain a minimum cumulative 2.0 grade-point average and a minimum cumulative 2.0 grade-point average in all Business courses.
- Complete 45 of the last 60 credits in residence at the University of Washington Tacoma.
- Apply for graduation with an adviser by the application deadline posted by the Business School for the expected date of graduation, and prior to registration for the Business capstone.

Course Descriptions

For the most current course information, please consult the Milgard School of Business Web site at www.tacoma.washington.edu/business.

Core Courses

TBUS 300 Managing Organizations
5 credits
Examines the profession of management, and nature of organizations. Focuses on the key managerial functions and organizational processes needed to plan, organize, lead and control contemporary organizations. Activities provide opportunities to improve communication, strategic thinking, teamwork, integrations and professional capacities. [Prerequisite for most Business courses. [I]

TBUS 301 Quantitative Analysis for Business
5 credits
Provides statistical tools to analyze business problems and enhance decision-making. Utilizes an applied approach to organize, explore and analyze data, design experiments and surveys, understand estimations and significance tests and use quantitative methods. [N/Q]

TBUS 310 Effective Managerial Communications
5 credits
Focuses on developing and using oral and written communication skills in an organizational environment. Provides students with opportunities to communicate clearly and concisely in writing, make persuasive presentations, listen to the ideas and opinions of others, and provide and receive constructive feedback. Students will utilize and further develop abilities to function as productive team members and to appreciate and understand diversity in the work place. Emphasizes communication and professionalism. [IV]

TBUS 320 Introduction to Marketing Management
5 credits
Introduces the major principles and practices that are used by marketing managers in analyzing marketing problems and developing appropriate solutions. A primary goal is to understand how marketing operates within the global, social and economic environment. Designed to begin to develop competencies in teamwork, integrated business knowledge and strategic thinking. [I]

TBUS 330 Introduction to Information Technology
5 credits
Introduces techniques that managers use to locate, organize, distribute, and use information for decision making and strategic advantage. Tools for managing information are addressed, including computer hardware, software, telecommunication networks and various information system components. Includes a computer laboratory component in which students address organizational and managerial information requirements.
TBUS 350  
Business Finance  
5 credits  
Focuses on understanding the sources, uses, costs and control of funds in business organizations. Key topics include managing cash flow, evaluating the time value of money, capital budgeting, evaluating stocks and bonds, and determining the financing mix. Consideration is given to the organizational, ethical and economic consequences of financial decisions. Designed to begin to develop competencies in strategic thinking and professionalism. Business majors or permission of instructor.

TBUS 400  
Business Policy & Strategic Management  
5 credits / Prerequisites: TBUS 300, 310, 320, 330 (or TACCT 330) & TBUS 350; TBUS 301 (may be taken concurrently)  
Focuses on the integration and application of knowledge and competencies developed by Business Administration students. Major components of the course include the preparation of a career-related portfolio, participation in a team-based computer simulation, and composition of a paper reflecting and analyzing the student's competency development.

Elective Courses  
TBUS 468  
Internship  
1-5 credits; max. 10 credits  
Provides students an opportunity to gain experience in a business organization where they apply and experience concepts taught in the traditional classroom. Knowledge and skills acquired in the classroom are used in a responsible position involving work on meaningful productive tasks. Develops links between the community and the classroom. Business majors only. Permission of faculty is required.

TBUS 469  
Undergraduate Research  
1-5 credits; max. 15 credits  
Provides students an opportunity to explore a specific management or marketing topic, idea, project, or research interest that extends previous knowledge and broadens experience. Proposals and course criteria are developed in cooperation with specific faculty members prior to course registration. Business majors only. Permission of faculty is required.

Accounting Courses  
TACCT 210  
Financial Accounting I: Users Approach to Accounting  
5 credits  
Introduces accounting concepts within the context of financial business decisions. Presents an overview of the role of accounting in the financial community and business operations. Emphasizes the external use of financial accounting for fiscal decision-making.

TACCT 220  
Financial Accounting II: The Reporting Process  
5 credits / Prerequisite: TACCT 210  
Introduces accounting processes that produce financial accounting reports including the balance sheet and statement of cash flows. Emphasizes how to gather, calculate, and organize accounting information into standardized reports based on the generally accepted accounting principles.

TACCT 230  
Managerial Accounting  
5 credits / Prerequisite: TACCT 220  
Provides an introduction to management accounting concepts in the context of business decisions. Explores management accounting's roles in the decision making process and how managers and other internal uses rely on the information to make better business decisions that benefit an organization.

TACCT 301  
Intermediate Accounting I  
5 credits / Prerequisites: Completion of Business Program accounting prerequisites Concepts and principles of financial accounting. Analysis of controversies and problems related to the measurement of enterprise income, and asset and liability valuation.

TACCT 302  
Intermediate Accounting II  
5 credits / Prerequisite: TACCT 301  
Continuation of TACCT 301.

TACCT 303  
Intermediate Accounting III  
5 credits / Prerequisite: TACCT 302  
Continuation of TACCT 302. There is additional emphasis on special topics in income determination.

TACCT 311  
Cost Accounting  
5 credits  
Focuses on the development and use of cost data for external reporting and internal planning. Students examine cost accounting theory and procedures involving cost determination, analysis, and control through the application of such skills as allocations, budgeting, job order and process costing, and quantification of various business processes.

TACCT 330  
Introduction to Accounting Information Systems  
5 credits / Prerequisite: TACCT 301  
Examines key accounting elements tied to underlying business processes. Examines issues of maintaining the integrity of accounting information systems. Integrates the accounting function with information technology. Introduces the basic structure of database systems.

TACCT 401  
Forensic Accounting  
5 credits / Prerequisite: TACCT 303  
Explores the nature, detection and prevention of fraudulent financial reporting. Investigates types of fraud, how fraud is committed and ways to prevent fraud in corporations.

TACCT 404  
Advanced Financial Accounting  
5 credits / Prerequisite: TACCT 303  
Explores accounting and reporting for business combinations (mergers, acquisitions, partnerships and joint ventures), foreign currency transactions and translations, reporting for business segments, and corporate and partnership liquidations and reorganizations. Emphasizes linking theory to practice through the use of current financial statement reviews.

TACCT 411  
Auditing Standards and Principles  
5 credits / Prerequisite: TACCT 303  
Intensive introduction to the attest function in society today. The environment, the process and the report of the public auditor are analyzed. Potential extensions of the attest function are examined.

TACCT 421  
Tax Effects of Business Decisions  
3 credits / Prerequisite: TACCT 302  
Issues in taxation, including tax considerations in business decision making, tax effects of business transactions, taxation of compensation, fringe benefits, capital gains, fixed asset transactions, disposition of business distribution from corporations.

ABOUT FULFILLING ADMISSION REQUIREMENTS

Some students are admitted to UW Tacoma before they have completed all of their admission requirements. Students may fulfill missing requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description: [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.
TACCT 431
Financial Statement Analysis
5 credits / Prerequisite: TBUS 350
Enhances the understanding of accounting principles and techniques used to prepare financial statements and methods an analyst might employ to increase the relevance of financial information. Demonstrates the use of financial statement data in the valuation of firms.

TACCT 450
Business Taxation
3 credits / Prerequisite: TACCT 303
Issues of taxation for entities other than individuals, including corporations, subchapter S corporations, partnerships and estates and trusts. Includes corporate distributions, liquidations and reorganizations.

TACCT 451
Individual Income Taxation
5 credits / Prerequisite: TACCT 303
Political, economic and social forces influencing Federal income taxation, role of taxation in personal decisions. Coverage of individual income tax matters, including business and investment income, business and personal deductions, property transactions, and tax issues of employees.

TACCT 468
Cooperative Field Experience
1-5 credits; max. 5 credits / Prerequisite: TACCT 301
Provides opportunities to gain experience and apply concepts taught in the accounting concentration. Involves learning skills and applying knowledge through practical experience working cooperatively with professionals in the field. Application and completed contract with faculty permission is required.

TACCT 469
Undergraduate Research
1-5 credits; max. 5 / Prerequisite: TACCT 302
Provides students opportunity to explore a specific accounting topic, idea, project or research interest that extends previous knowledge and broadens experience. Proposals and course criteria must be developed in cooperation with specific faculty members prior to course registration.

TACCT 471 Internal Auditing
3 credits / Prerequisite: TACCT 411
Independent appraisal function established within an organization. Role and nature of internal auditing; intensive review of internal control; management effectiveness audits; and financial audits from the point of view of the internal auditor.

TACCT 480
Accounting for Not-for-Profit Organizations
5 credits / Prerequisite: TACCT 303
Explores the unique accounting models used in reporting the financial results of governmental and not-for-profit entities. Examines financial reporting under these models from the user perspective, while cultivating an understanding of the accounting system requirements needed to meet this perspective.

TACCT 485
International Accounting
5 credits
Enhances understanding of international accounting issues. Examines the impact of accounting diversity on global capital flows and explores the convergence of global accounting standards. Covers accounting for changing prices, goodwill and other intangibles, as well as social and environmental reporting, geographic segment disclosure practices and financial reporting in developing economies.

TACCT 490
Special Topics in Accounting
1-6 credits; max. 6 credits
Special topics of current concern to faculty and students. Offered only when faculty is available and student interest is sufficient. Class is announced in advance of scheduled offerings.

General Business Courses

TBGEN 200
Introduction to Statistics in Business
5 credits
Introduces the major principles and practices utilized in basic statistical analysis. Focuses on descriptive statistics, inferential statistics, probabilistic reasoning, correlation, regression, and hypothesis testing. [N/Q]

TBGEN 210
Computer-Based Business Problem Solving
5 credits
Explores uses of Excel to analyze and solve business problems through manipulation and analysis of data. Reviews pivot tables, what-if analysis, solver, and Excel-based management analyses, such as optimization, data mining, customer analysis, data organization, and presentation.

TBGEN 218
Introduction to Business Law
5 credits
Explores the impact of the changing legal environment on business decision making. Examines legal issues that organizations confront to establish appropriate strategies for effective functioning and developing compliance guidelines. Utilized specific tools to access legal resources for proactively recognizing, framing and analyzing business opportunities, and problems in the legal environment. [I]

TBGEN 311
A Writer’s Workshop: Skills for Success
3 credits
Provides students with increased skills in the essentials of academic and professional writing. Covers techniques that apply to all phases of the writing process including planning, composing, revising and editing.

TBGEN 412
Ethical Issues in Business
5 credits / Prerequisites: TBUS 300 and TBUS 320 or permission of instructor
Explores the moral principles and community standards by which businesses are judged and assesses the impact management decisions have on the business and on society. Focus is on the conflict between the economic performance of the firm and the social performance of the firm. Emphasizes communication, integrated business knowledge and strategic thinking.

TBGEN 490
Special Topics
1-5 credits
Advanced course offerings designed to respond to faculty and student interests and needs. Topics will vary.

Finance Courses

TFIN 220
Introduction to Microeconomic Theory
5 credits
Introduces microeconomic theory applied to individual decision-making, analysis of markets and the role of prices. Specific topics include consumer demand, production, exchange, resource allocation and government intervention.

TFIN 221
Introduction to Macroeconomic Theory
5 credits
Involves the study and analysis of the aggregate economy. Topics include the determination of the national income, inflation, business fluctuations, unemployment, monetary and fiscal policies, the federal budget and international trade.

TFIN 420
Visual Basic Programming of Excel-based Financial Models
5 credits / Prerequisite: either TBUS 330 or TACCT 330 / Recommended: one TFIN or TIS course

TFIN 422
Investment Valuation
5 credits / Prerequisite: TBUS 350, TFIN 424
Examines the valuation of financial assets including stocks, bonds and real assets. Focuses on discounted cash flow, risk, option pricing theory and models, market efficiency, dividend discount models, and real options theory.

TFIN 423
Macroeconomics and the Global Economy
5 credits / Prerequisite: TBUS 350, TFIN 424
Focuses on the use of intermediate economic theory to understand how financial markets are affected by macroeconomic variables. Specific emphasis is placed on international markets and how to assess the impact of different macroeconomic policies.
TFIN 424 Managerial Economics
5 credits
Applies tools of intermediate microeconomic theory to issues of particular interest to business students. Topics include market processes, consumer theory, firm behavior in competitive and imperfectly competitive markets, product pricing, and strategic behavior.

TFIN 425 Finance and Investment
5 credits / Prerequisites: TBUS 350
Introduces students to all facets of finance and investment including personal financial planning, budgeting and investment. Emphasis is placed on preparing students to develop strategies and manage finances and investments in an efficient, profitable manner to accomplish financial goals. Emphasizes strategic thinking and integrated business knowledge. Business majors only or permission of instructor.

TFIN 426 Portfolio Management
5 credits / Prerequisites: TFIN 422
Focuses on in-depth analysis of investing, portfolio analysis and financial markets. Students analyze and restructure balance sheets, create and manage a stock portfolio, investigate domestic and international financial markets, explore the local income property real estate market and spend time in a local brokerage house.

TFIN 427 Derivatives
5 credits / Prerequisites: BUS 350, TFIN 425
Examines the characteristics and valuation of derivative instruments including forward and futures contracts, options and swaps. Focuses on the role of these instruments in risk management and portfolio management.

TFIN 428 Financial Markets and Institutions
5 credits / Prerequisite: TFIN 424
Examines the economic role of modern financial institutions and their relationship to the money and capital markets of developed economies. Topics covered include the financial system, the Federal Reserve System, monetary policy, international financial relationships and interest rate theory.

TFIN 429 Real Estate Investment
5 credits / Prerequisites: TBUS 350
Covers real estate investment from home ownership through medium size commercial and residential development. Emphasis is on the real estate investment cycle including planning, selection, development, operation and disposal. Residential and commercial real estate are explored with special attention on financing, leverage and taxation.

TFIN 431 Financial Statement Analysis
5 credits / Prerequisite: TBUS 350
Enhances the understanding of accounting principles and techniques used to prepare financial statements. Examines the methods analysts can employ to increase the relevance of financial information. Demonstrates the use of financial statement data for analyzing firms. For non-accounting students only.

TFIN 470 Investment Management
5 credits / Prerequisites: TFIN 426 & 428
Emphasizes and integrates the knowledge obtained from the required classes of the Finance option. Integrates academic and practitioner-oriented readings, case studies, projects and group analytical sessions.

Information Systems Courses
TIS 324 Systems Analysis
5 credits / Prerequisites: BUS 300, BUS 330
Prepares student for the analysis, evaluation and delivery of information systems specifications through the utilization of popular techniques for requirements determination, process modeling, data modeling and systems restructuring coupled with project management tools.

TIS 441 Decision Support and Expert Systems
5 credits / Prerequisite: TBUS 330
Provides a general overview of Decision Support and Expert System technologies, trends, and user experiences and creations of small models of these systems.

TIS 456 Project Management
5 credits / Prerequisites: BUS 300, BUS 330
Introduces concepts and skills to define, plan, execute and terminate projects. Includes identifying needs, documenting scope, organizing work, estimating resources, and managing and controlling the project. Utilizes software tools.

Management Courses
TMGMT 312 Captivate Your Audience: Presentation Skills for Success
3-5 credits
Combines knowledge and experience in the preparation, development and delivery of public presentations. Emphasis is placed on enhancing essential speaking skills, including audience analysis, the arrangement and organization of material, speaking mode/style, the use of visual aids, and the use of rhetorical techniques and principles. Emphasizes communication and professionalism.

TMGMT 314 Interpersonal Skills
5 credits
Emphasizes interpersonal dynamics in the workplace and improving interpersonal skills. Topics include major dimensions of interpersonal communication, interpersonal decision making and strategic analysis of interpersonal dynamics in organizations. Students will learn to make better choices in interpersonal communication, develop positive working relationships in organizations and improve quality of workplace outcomes. Emphasizes communication and professionalism.

TMGMT 348 Leading the Nonprofit Organization in the 21st Century
5 credits
Examines all aspects of management of the nonprofit including board development and governance, strategic planning, lobbying, marketing, government contracting, volunteer resources, fundraising, outcome measures, grant writing and accounting. Offered jointly with TCSUS 348.

TMGMT 418 Legal Issues for Business
3-5 credits; max. 10
Explores the impact of the changing legal environment on managerial decision making and issues that business managers confront to establish appropriate managerial strategies to function effectively and develop compliance guidelines. Utilizes specific tools to access legal resources for proactively recognizing, framing and analyzing opportunities and problems and developing solutions.

TMGMT 420 Managing Corporate Responsibility
5 credits
Focuses on strategic and dynamic issues that are key to building high-performing organizations with a sense of ethics, civic engagement and social responsibility. Provides a theoretical and practical understanding of what role organizations should play in society.

TMGMT 430 Managing the Work Force
5 credits / Prerequisites: BUS 300, BUS 320
Focuses on managing employees as a human resource function in the organization. Examines skills critical for attracting, developing and maintaining an effective work force. Planning, forecasting, job analysis, training, performance appraisal, wage and salary administration, compensation, legal requirements and disciplinary functions are explored. Emphasizes communication, teamwork and strategic thinking.

Bachelor of Arts in Business Administration 35
TMGMT 433  
Managing Organizational Diversity  
5 credits / Prerequisite: TBUS 300 and TBUS 310, or permission of instructor  
Focuses on key behavioral, social and organizational requisites needed to cultivate competency in managing diversity. Provides experiential opportunities to discover and improve understanding about the self and others. Key interests include skills and strategies needed to manage and support increasingly diverse organizations. [I]

TMGMT 440  
Production and Operation Management  
5 credits / Prerequisite: 1.7 grade or better in TBUS 300 and TBUS 320  
Examines how a firm transforms resources into products and services. Focuses on the decisions which must be made concerning the transformation process and the importance of choosing decision alternatives which support a firm's overall business strategy. Uses mathematical and computer models to explore the operation of both service and manufacturing processes. Emphasizes problem solving and strategic thinking skills.

TMGMT 452  
Dynamics of Leadership  
5 credits / Prerequisites: TBUS 300, TBUS 320  
Examines leadership as a process by focusing on a repertoire of practical and theoretical leadership principles. Examines contemporary leaders and their complex roles in managing organizational issues and provides an opportunity to learn and apply leadership skills. Emphasizes communication, strategic thinking and professionalism. Business majors or permission of instructor. [I]

TMGMT 455  
Managing and Motivating Work Teams  
5 credits / Prerequisites: TBUS 300, TBUS 320  
Concentrates on interpersonal and management skills necessary to create and maintain effective groups that make real contributions to the continuing success of the total organization. Focuses on interpersonal skills assessment, conflict management, interdependency, collaborative relationships, norms, feedback, reward systems, goal setting and self-management. Emphasizes teamwork, communication, strategic thinking and professionalism. Business majors or permission of instructor. [I]

TMGMT 457  
Negotiation and Conflict Management  
5 credits  
Designed to help students learn to respond to personal and organizational conflicts more effectively. Theories emphasized include cooperative conflict theory and interest-based negotiation. Course activities build skills in assessing conflict, identifying conflict styles, negotiation planning and mediation. Emphasizes communication, strategic thinking and professionalism. [I]

TMGMT 474  
Small Business Development  
5 credits / Prerequisite: 1.7 grade or better in TBUS 300, TBUS 320 and TBUS 350  
Examines the startup of small businesses including developing a business plan and obtaining financing. Focuses on the management of existing small businesses emphasizing strategic planning for the future. Student projects provide hands-on experience in the development of a small business. Emphasizes strategic thinking, flexibility, teamwork and communication skills.

TMGMT 475  
Creating, Leading and Implementing Change  
5 credits / Prerequisites: TBUS 300, TBUS 310  
Explores the repertoire of concepts, ideas, tools and techniques for understanding the dynamics of change and how successful leaders learn to create, implement and manage change. The course provides opportunities to examine and experience change management in contemporary organizations. Emphasizes strategic thinking. Business majors or permission of instructor.

TMGMT 478  
International Business  
5 credits / Prerequisites: TBUS 300, TBUS 320  
Concentrates on global business issues and the challenges facing managers in an international environment. Examines differences among the world's countries including monetary systems, strategies and structures of international businesses, and competitiveness across firms and countries. Provides an understanding of how cultural, economic and political differences affect management style, decisions, business opportunities and challenges. Emphasizes communication, integrated business knowledge and strategic thinking. Business majors or permission of instructor. [I]

TMGMT 480  
International Management  
5 credits / Prerequisites: TBUS 300, TBUS 320  
Course introduces students to the main issues concerning international management. It covers topics related to how managers pursue the global objectives of their organizations, including international strategy, modes of market entry, organization, staffing and other cross-cultural management issues.

TMGMT 490  
Special Topics  
5 credits / Prerequisites: TBUS 300, TBUS 320  
Based upon faculty interest and timeliness of issues, topics may include compensation, training, performance appraisal systems, organizational development and change, organizational design and theory, interpersonal skills, conflict management, and organizational culture. Business majors or permission of instructor.

Marketing Courses

TMKTG 348  
Social Marketing  
5 credits / Prerequisites: TBUS 320  
Focuses on the preservation or enhancement of individual and social well-being. Applies marketing principles within a social context to public agencies and nonprofit institutions. [I]

TMKTG 355  
Professional Sales  
5 credits / Prerequisite: TBUS 320  
This course presents the modern way to sell via a relationship process, emphasizing skills for success as a field sales representative. The steps in the selling process are analyzed in detail and students gain hands-on experience. This course is designed to develop competencies in strategic thinking and communication.

TMKTG 425  
Advertising  
5 credits / Prerequisites: TBUS 320  
Designed to acquaint students with the creative processes used in the field of advertising. Topics include advertising, copywriting, art direction, production and media selection. Provides exposure to advertising theory with a focus on practical application in the industry. Emphasizes communication, strategic thinking and teamwork. Business majors or permission of instructor.

TMKTG 440  
Business Marketing  
5 credits / Prerequisites: TBUS 320  
Examines the process by which businesses are served by other businesses. Includes analyzing existing business relationships to identify problems and opportunities, developing and modifying products, establishing and managing relationships, setting prices, and undertaking promotional efforts, especially personal selling. Presents a strategic focus from a managerial perspective. Emphasizes communication and strategic thinking. Business majors or permission of instructor.

TMKTG 445  
Services Marketing  
5 credits / Prerequisite: TBUS 320  
This course introduces new marketing tools and ideas specifically applicable within the service industry, where organizations require a distinctive approach to the development and execution of marketing strategies. Designed to develop competencies in strategic thinking and communication.

TMKTG 450  
Consumer Marketing  
5 credits / Prerequisites: TBUS 320  
Examines social science and consumer behavior research for concepts and principles that marketers can use to better understand customers and meet their needs. Insights gained from the disciplines of sociology, anthropology and psychology are applied to real-world marketing situations. Emphasizes communication and strategic thinking. Business majors or permission of instructor. [I]
TMKG 460  
Research Methods  
5 credits / Prerequisites: TBUS 320  
Explains the research process including problem definition, research design, questionnaire construction, sample selection, interviewing and data analysis. Involves field application of course knowledge along with written and oral reports. Emphasizes teamwork, integrated business knowledge, and strategic thinking. Business majors or permission of instructor.

TMKG 471  
e-Commerce  
5 credits / Prerequisites: TBUS 320, TBUS 330  
Examines how internet technologies transform the conduct of business both within and between organizations. Introduces the technical architecture and business principles that underlie the e-commerce phenomenon. Explores the implications of the evolving technologies for managerial decision making, organizational strategies, industry structures and public policy.

TMKG 475  
Marketing Strategy  
5 credits / Prerequisite: TBUS 320  
Provides a comprehensive framework for the development of competitive marketing strategies that achieve organizational objectives and build competitive advantage. Students develop a marketing plan, including implementation, evaluation, and control of a firm's marketing dynamics. Provides the opportunity to apply marketing knowledge in a real-world setting.

TMKG 480  
International Marketing  
5 credits / Prerequisites: TBUS 320  
Extends basic marketing knowledge by examining the marketing strategies and tactics of companies that do business across borders. Covers topics related to how firms research, identify, and enter international markets, and develop global marketing strategies.

TMKG 490  
Special Topics  
5 credits / Prerequisites: TBUS 320  
Based upon faculty interest and timeliness of issues, topics may include social responsibility issues, promotion, sales management, marketing in the service or retail industry and international marketing. Business majors or permission of instructor.

Faculty  

**Shahrokh M. Saudagaran**  
Assistant Professor, Milgard School of Business; Strategic Management and Public Policy; Ph.D., University of California, San Diego, 1994.

**Gary E. & James A. Milgard Endowed Dean and Professor,**  
Milgard School of Business; International Accounting; Ph.D., University of Washington, 1986.

**Elizabeth Alexander**  
Assistant Professor, Milgard School of Business; Strategic Management and Public Policy; International Business, International Political Economy; Ph.D., George Washington University, 2006.

**Zoe I. Barsness**  
Associate Professor, Milgard School of Business; Management; Ph.D., Northwestern University, 1996.

**Daniel Bryan**  
Assistant Professor, Milgard School of Business; Accounting; Ph.D., University of Oregon, 2002.

**Zhiyan Cao**  
Assistant Professor, Milgard School of Business; Accounting; Ph.D., Yale University, 2006.

**Vanessa Chio**  
Associate Professor, Milgard School of Business; Management, International Business; Ph.D., University of Massachusetts, 2000.

**Sergio V. Davalos**  
Associate Professor, Milgard School of Business; Management Information Systems; Ph.D., University of Arizona, 1992.

**Ehsan Feroz**  
Professor, Milgard School of Business; Accounting, International Relations; Ph.D., University of Chicago, 1982.

**Marinilka Barros Kimbro**  
Assistant Professor, Milgard School of Business; Accounting, International Business; Ph.D., University of Maryland, 1999.

**Fei Leng, CFA**  
Assistant Professor, Milgard School of Business; Finance; Ph.D., University of Tennessee, Knoxville, 2006.

**Altaf Merchant**  
Assistant Professor, Milgard School of Business; Marketing; Ph.D., Old Dominion University, 2008.

**G. Kent Nelson**  
Senior Lecturer, Milgard School of Business; Organizational Management and Strategic Communication; Ph.D., University of Washington, 1994.

**Stephen Norman**  
Assistant Professor, Milgard School of Business; Economics; Ph.D., Cornell University, 2006.

**Gregory Noronha, CFA**  
Professor, Milgard School of Business; Finance; Ph.D., Virginia Polytechnic Institute, 1990.

**Jill M. Purdy**  
Associate Professor, Milgard School of Business; Organizational Behavior, Organization Theory, Management; Ph.D., Pennsylvania State University, 1994.

**Gregory M. Rose**  
Professor, Milgard School of Business; Marketing; Ph.D., University of Oregon, 1995.

**Rommel Salvador**  
Associate Professor, Milgard School of Business; Management; Ph.D., University of Central Florida, 2008.

**Eugene Sivadas**  
Associate Professor, Milgard School of Business; Marketing; Ph.D., University of Cincinnati, 1995.

**Tracy A. Thompson**  
Associate Professor, Milgard School of Business; Organizational Behavior, Strategic Management; Ph.D., Northwestern University, 1994.

**Douglas T. Wills**  
Associate Professor, Milgard School of Business; Economics; Ph.D., Texas A&M University, 1995.
BACHELOR OF SCIENCE

Computer Engineering and Systems

Computer engineering began as a combination of computer science and electrical engineering but has evolved over the past three decades as a separate engineering discipline.

At the University of Washington Tacoma, Computer Engineering and Systems involves hardware and software design. In addition to the implementation and testing of hardware and software systems, the program focuses on embedded systems applications.

Computer engineering is solidly grounded in the theories and principles of computing, mathematics, science and engineering. These theories and principles are used to solve technical problems through the design of computing hardware, software, networks and processes.

Mission

The Computer Engineering and Systems Program will educate each student to be a responsible and productive computer engineer who can effectively apply emerging technologies to meet future challenges.

Program Objectives

Objectives, as defined by the Accreditation Board for Engineering and Technology (ABET), are the abilities, skills and accomplishments expected of graduates within a few years of graduation. Accredited programs are required to assess their graduates’ accomplishments to determine if the objectives have been achieved. Since the objectives are typically broad, it is not expected that every graduate will achieve every objective. However, within three to five years of graduation from the CES program, it is expected that many graduates will have demonstrated the ability to:

- apply knowledge of mathematics, science and engineering to identify, formulate and solve computer engineering problems;
- use hardware and software tools to analyze, design, develop and test computer-based systems containing both hardware and software components;
- achieve success in graduate programs in computer engineering or a related field;
- continue to develop their knowledge and skills after graduation in order to succeed personally and contribute to society;
- work effectively as a member of a multi-disciplinary development team and undertake leadership roles when appropriate;
- communicate their ideas, both in written and oral forms, so that others can use and build on their work;
- appreciate the importance of ethics in the profession and the need to act in society’s best interest.

Program Educational Outcomes

Program educational outcomes, as defined by ABET, are “statements that describe what students are expected to know and be able to do by the time of graduation.” ABET prescribes certain outcomes with which all graduating engineers must demonstrate proficiency; they are:

a) ability to apply knowledge of math, science and engineering,

b) ability to design and conduct experiments as well as to analyze and interpret data,

c) ability to design a system, component...
or process to meet desired needs,
d) ability to function on multi-disciplinary teams,
e) ability to identify, formulate and solve engineering problems,
f) understanding of professional and ethical responsibilities,
g) ability to communicate effectively,
h) the broad education necessary to understand the impact of engineering solutions in a global and societal context,
i) a recognition of the need for, and an ability to engage in, life-long learning,
j) a knowledge of contemporary issues,
k) an ability to use the techniques, skills and modern engineering tools necessary for engineering practice.

All engineering students are assessed prior to graduation to determine how well they satisfy these outcomes.

**Lower-division Coursework**

During the first two years in the CES program, students are expected to complete the following courses:

- Calculus I, II and III plus Differential Equations and Matrix or Linear Algebra.
- 10 credits of Visual, Literary and Performing Arts (Humanities) coursework.
- 10 credits of Individuals & Societies (Social Science) coursework; microeconomics preferred.
- Minimum of 18 credits of lab-based science (Natural World) coursework to include calculus-based Physics I, II and III. If 18 credits are not achieved from physics, remaining credits may be satisfied by any lab-based sciences, preferably chemistry or biology.
- Two computing courses to include Object-Oriented Programming (Java I and II).
- 13 credits of engineering coursework to include Introduction to Engineering I, II and III, Electrical Circuits and Introduction to Logic Design.

*With adviser approval, transfer students may substitute science, engineering or mathematics courses for the Introduction to Engineering courses.

Students with previous baccalaureate degrees or extensive work experience should meet with an adviser to discuss options.

**Admission Requirements**

To qualify for admission to the Computer Engineering and Systems program, the following standards must be met:

- Fulfillment of General University Requirements (see page 23).
- UW Tacoma freshman should have:
  - Completed 20 credits of the freshman core curriculum
  - Completed a minimum of 40 college-level credits total
  - Cumulative GPA of at least 2.0 in all college coursework
  - GPA of at least 2.5 in all college mathematics, science, computer science or engineering coursework
- Transfer students who have earned 40 or more transferable college-level credits should have:
  - Cumulative GPA of at least 2.0 in all college coursework
  - GPA of at least 2.5 in all college math, science, computer science or engineering coursework

Students from a community college planning to transfer to this program are strongly encouraged to follow the Associate of Science Transfer Track 2.

**How to Apply**

To apply to the Computer Engineering and Systems program, students must complete the online application.

**Transcripts**

Students must submit an official transcript from every college or university attended to the Office of Admissions. A high school transcript must be submitted only if a foreign language taken in high school is being used to meet the foreign language requirement.

*Applicants who fall below the GPA requirements will still be considered for conditional admission. Please contact an academic adviser for further information.

**Curriculum**

The CES curriculum was designed to take advantage of the existing Computing and Software Systems courses where possible. In addition to core and elective courses from CSS, courses have been created to add the fundamentals of electrical engineering to the CES curriculum. All of these courses are then augmented with senior-level computer engineering courses. The curriculum is as follows:

**Computer Science Fundamentals**

- TCSS 305 Programming Practicum
- TCSS 342 Data Structures
- TCSS 360 Software Development and Quality Assurance Techniques

**Electrical Engineering Fundamentals**

- TCES 215 Electrical Circuits
- TCES 312 Electronics & Analog Systems

**Computer Systems**

- TCSS 371 Machine Organization
- TCSS 372 Computer Architecture
- TCSS 422 Computer Operating Systems

**Math / Theory**

- TCSS 321 Discrete Structures I
- TCSS 310 Linear Systems & Transforms
- TQS 390 Probability and Statistics

**Ethics and Society**

- TCSS 325 Computers, Ethics and Society

**Computer Engineering**

- TCES 101 Introduction to Engineering I
- TCES 102 Introduction to Engineering II
- TCES 103 Introduction to Engineering III
- TCES 230 Introduction to Logic Design
- TCES 330 Digital System Design
- TCES 430 Advanced Digital System Design
- TCES 455 Devices and Controls
- TCSS 465 Embedded Real-Time Systems
- TCES 481 Senior Design Project I
- TCES 482 Senior Design Project II

**Breadth Elective**

- 5 credits (may include internship credit)
Engineering programs typically have few elective choices or else require more than 180 credits. This curriculum is particularly tightly scheduled because it includes core courses in both computer science and electrical engineering. Most of the elective choices are in the lower-division humanities and social sciences.

Research and Internship Opportunities

Research, directed reading and internship opportunities allow senior-level students to explore their unique areas of interest complemented by the expertise of the faculty and industry. Industry partner internships at hardware and software development companies can give students a paid work experience that complements the curriculum and often provide on-ramps to permanent employment in the high-tech workforce. While applying the theoretical and conceptual classroom knowledge to the practical work environment, the student creates relationships and gains a greater depth of understanding of his or her coursework.

Academic Standards

The following standards apply to all students in the Computer Engineering and Systems program. These standards may apply in addition to other academic standards at the University of Washington Tacoma.

- All prerequisites must be completed before advancing to the next academic level. All courses within the major must be completed with a minimum grade of 2.0 (including TCSS 142 and 143). If a grade below that is received, the student may repeat the course with the approval of the program offering the course. Course credit will be awarded only once, but both grades will be used in computing the grade-point average.

- Students must satisfactorily complete all upper-division courses at UW Tacoma by achieving a minimum grade of 1.7 (2.0 in all CES courses). If a grade below 1.7 is received in an elective course outside of CES, the course will not count toward graduation, but the student is not required to repeat the course.

- Courses in the Computer Engineering and Systems program may not be taken S/NS (satisfactory/not satisfactory).

- Courses in the Computer Engineering and Systems program may not be taken S/NS (satisfactory/not satisfactory).

- If the student does not successfully pass the course with a minimum grade of 2.0 on the second try and wishes to take the course for a third time, the student must submit a petition to substitute a Course form and supporting documents to an academic adviser for approval. If a course is more than seven years old, the student will be required to repeat the course at UW Tacoma. Credit will not be awarded twice for the same course.

- Upper-division courses used for transfer credit are held to the 2.0 grade standard required for all courses for Computer Engineering and Systems.

- Students changing to a Computer Engineering and Systems major from another major will be required to meet program and academic performance requirements in effect at the time the major is changed.

Low Scholarship

Any undergraduate Computer Engineering and Systems student who is dismissed from the University for low scholarship will be removed from the Computer Engineering and Systems major. After being removed from the Computer Engineering and Systems major, a student must re-apply for admission in order to continue as a CES student in any status, matriculated or otherwise. The Admissions Committee will evaluate the student's application requesting re-admission, and any extenuating circumstances and will then recommend action.

Computing Labs

The Institute of Technology has dedicated laboratories containing specialized equipment to support its programs. These laboratories are open 24 hours a day, seven days a week. Access to facilities is also available through Internet connections.

Graduation Requirements

To qualify for graduation with a baccalaureate degree in Computer Engineering and Systems from the University of Washington Tacoma, a student must:

- Be a matriculated Computer Engineering and Systems student in good academic standing with the University of Washington Tacoma.

- Complete 180 credits, at least 85 must be upper-division (300-400 level) coursework.

- Complete a minimum of 45 credits of CES core courses in residence at the University of Washington Tacoma.

- Complete the final 45 credits in residence at the University of Washington Tacoma.

- Have a minimum cumulative grade-point average of 2.0 in all classes and a minimum cumulative grade-point average of 2.5 in all Computer Engineering and Systems classes.

- Apply for graduation with a Computer Engineering and Systems adviser by the application deadline posted by the Graduation and Academic Records Office for the expected date of graduation.

In addition to the general requirements for graduation, students earning the bachelor of science degree must also:

- Complete the specified 95 credits of core courses in the Computer Engineering and Systems major.

Students who are admitted to the Computer Engineering and Systems program with a baccalaureate or master's degree are required to complete the core and concentration courses with a minimum grade of 2.0 and a total of 95 credits to qualify for a second bachelor's degree. Elective credit requirements are waived.

In some cases, students may petition the faculty, using the Petition to Substitute a Course form located online at www.tacoma.washington.edu/tech/docs/pet_sub_course.pdf, for permission to use previous coursework or experience in place of core or concentration-level courses. The waiver does not guarantee that credit will be awarded for a course; the petitioning student may be required to complete additional coursework in place of the waived requirement.

*If the student does not successfully pass the course with a minimum grade of 2.0 on the second try and wishes to take the course for a third time, the student must submit a petition to repeat the course to the program faculty for approval before being allowed to enroll for the course a third time. Instructions for completing the petition can be found on the Institute of Technology Web site: www.tacoma.washington.edu/tech/docs/pet_sub_course.pdf.
Course Descriptions

For the most current course information, please consult the Institute of Technology Web site at www.tacoma.washington.edu/tech.

TCES 101
Introduction to Engineering I
1 credit
Introduces the product development life-cycle. Demonstrates how to use hardware and software development tools. Teaches how the components of an embedded system are controlled. Gives experiences working as members of a development team.

TCES 102
Introduction to Engineering II
1 credit / Prerequisite: TCES 101 or permission of instructor
Introduces specification and design of engineering project by paring with seniors working on capstone projects. Provides experience participating in peer review of engineering documents. Gives more experience working on product development teams.

TCES 103
Introduction to Engineering III
1 credit / Prerequisite: TCES 102 or permission of instructor
Introduces implementation of engineering project by paring with seniors working on capstone projects. Introduces testing techniques for microprocessor-based systems. Gives more experience working on product development teams.

TCES 215
Electrical Circuits
5 credits / Prerequisites: TESC 122 and TQS 308

TCES 230
Introduction to Logic Design
5 credits / Prerequisites: TCSS 142
Boolean algebra and logic simplification techniques. Design of combinational logic networks for decoders, encoders, multiplexers, and demultiplexers. Design of sequential logic devices including flip-flops, registers, and counters. Analysis of devices used to build logic networks, including open-collector, three-state devices, CMOS, and reprogrammable logic devices. Use of tools for schematic capture and circuit simulations. Introduction to state machines. Laboratory required.

TCES 310
Linear Systems and Transforms
5 credits / Prerequisite: TCES 215
Extends circuit analysis technique to include dependent sources, power calculations, network topology, natural and forced response for RLC circuits, complex frequency, poles and zeros. Introduces Fourier series and Fourier, Laplace and z-transforms. Analyzes filters with z-transforms and difference equations.

TCES 312
Electronics & Analog Systems
5 credits / Prerequisites: TCES 323
Electronic devices, semiconductors, bipolar devices, amplifiers, analog circuits, analog/digital conversions, filters, noise, operational amplifiers, signal shaping, discrete feedback amplifiers, and frequency analysis and response. Laboratory required.

TCES 330
Digital Systems Design
5 credits / Prerequisites: TCES 230
Teaches digital system design fundamentals using programmable logic devices (PLDs). Verilog is used to analyze and design complex digital systems based on field programmable gate arrays (FPGAs). Testing techniques used to verify design and operation of digital systems are introduced. Laboratory required.

TCES 430
Microprocessor System Design
5 credits / Prerequisite: TCES 330
Introduces hardware and software design techniques for microprocessor-based systems. Gives experience designing and implementing a system using current technology and components. Provides the opportunity to interface microprocessors to external devices. Gives experience using state-of-the-art development systems and procedures.

TCES 455
Devices and Controls
5 credits / Prerequisites: TCES 310; TCES 312; TCES 330
Teaches how to control motors and other physical actuators by delving into their theories of operation. Examines automatic control theory and provides experience using computers to control devices. Requires team projects in the laboratory.

TCES 481
Senior Project I
4 credits / Prerequisite: TCES 430; TCES 455
Teaches how to prepare plans for the senior project. Explains parts of plan including: project definition, project requirements, preliminary design, and work schedule. Explains the need for addressing human factors, safety, reliability, maintainability, and customer cost. Provides experience preparing and presenting oral and written reports.

TCES 482
Senior Project II
5 credits / Prerequisite: TCES 481
Focuses on design and implementation, testing, and demonstration of the capstone design project.

TCES 490
Special Topics
1-5 credits, max. 10
Examines current topics and issues associated with computing engineering and systems.

TCES 498
Directed Readings
1-10 credits, max. 10
Facilitates pursuit of knowledge in a specific area through readings of technical publications as specified in an agreement with the faculty supervisor.

TCES 499
Undergraduate Research
1-10 credits, max. 10
Provides opportunities to pursue research in an area that is of interest. Gives experience specifying, designing, implementing, and evaluating a research project.

Faculty

Orlando Baiocchi
Director and Professor
Institute of Technology
Electrical Engineering; Ph.D., University College in London, 1976.

Yan Bai
Assistant Professor, Institute of Technology; Electrical and Computer Engineering; Ph.D., University of British Columbia, 2003.

Sam Chung
Associate Professor, Institute of Technology; Computer Science; Ph.D., University of South Florida, 1995.

Larry A. Crum
Professor Emeritus, Institute of Technology
Electrical Engineering; Ph.D., Marquette University, 1971.

Jenny Sheng
Assistant Professor, Institute of Technology; Electrical Engineering; Ph.D., Marquette University, 2002.
Computing and Software Systems

The Computing and Software Systems (CSS) program prepares students to enter the field of computer software design, development and maintenance. It provides students the theoretical grounding to promote lifelong evolution in the field while also preparing them to become effective innovators and entrepreneurs. The program also provides opportunities for the practicing professional to stay abreast of emerging theory and applications and is designed to accommodate students with previously earned degrees and work experience. It offers partnerships with leading software companies and professionals to advance the field through collaborative ventures, forums, research and internships.

Mission

The mission of the Computing and Software Systems program is to offer high-quality undergraduate and graduate education to meet the needs of a diverse population of citizens and employers in Washington, especially in the South Puget Sound region.

The Computing and Software Systems program offers bachelor of science and bachelor of arts degrees in Computing and Software Systems along with a master of science in Computing & Software Systems and minors in Computing & Software Systems and Applied Computing. Specific details about CSS electives, and plans for future development of the programs, are available from the program office.

Program Educational Objectives

Objectives, as defined by accreditation agencies, are the abilities, skills, and accomplishments expected of graduates within a few years of graduation. Programs are expected to assess their students’ accomplishments to determine if the objectives have been achieved. Since the objectives are typically fairly broad, it is not expected that every graduate will achieve every objective.

The Computing and Software Systems Program has set six objectives for its BS and BA graduates. The career path a graduate takes will affect the accomplishments they achieve but within the first few years after graduation they should have accomplished some of the following:

- Developed a product or process by applying knowledge of mathematics, computing, systems and development tools.
- Participated effectively as a member of a development team and undertaken leadership roles when appropriate.
- Taken graduate courses or continuing education classes to improve skills and abilities.
- Made positive contributions to community and society by applying skills and abilities learned during undergraduate program in computing.
- Made decisions related to work that demonstrate an understanding of the importance of being an ethical computing professional.
- Applied communication skills to effectively promote ideas, goals, or products.

OVERVIEW

The Institute of Technology at the University of Washington Tacoma, launched in 2001, serves as home for the Computing and Software Systems program. Through innovative partnerships with area companies, the Institute helps students gain practical work experience and meets continually changing industry needs. The Institute also provides services to attract and support students from diverse educational, economic and ethnic backgrounds.

Phone: (253) 692-5860
Fax: (253) 692-5862
Office: Pinkerton 210
Campus box: 358426

Director: Orlando Baiocchi
Associate Director: Larry Wear
Acting Administrator: Theresa Ramos
Undergraduate Advisers: Beth Jeffrey, Martha Wilson
Program Educational Outcomes

The Computing Accreditation Commission (CAC) has defined a set of educational outcomes that all graduates of computer science programs must meet. CSS students must demonstrate the following attributes and abilities by the time of graduation:

- Ability to apply knowledge of computing and mathematics appropriate to the discipline;
- Ability to analyze a problem, and identify and define the computing requirements appropriate to its solution;
- Ability to design, implement and evaluate a computer-based system, process, component, or program to meet desired needs;
- Ability to function effectively on teams to accomplish a common goal;
- Understand professional, ethical and social responsibilities;
- Ability to communicate effectively with a range of audiences;
- Ability to analyze the impact of computing on individuals, organizations and society, including ethical, legal, security and global policy issues;
- Recognition of the need for, and an ability to engage in, continuing professional development;
- Ability to use current techniques, skills, and tools necessary for computing practice.

Admission Requirements

To qualify for admission to the Computing and Software Systems program, applicants must meet the following standards:

- Completion of a minimum of 40 college-level credits.
- Fulfillment of General University Requirements (see page 23).
- If you are a UW Tacoma freshman, you must have:
  - Completed 20-25 credits of the freshman core curriculum
  - Completed a total of 40 credits
  - Achieved a cumulative GPA of at least 2.0 in all college coursework

- If you have earned 40-89 transferable college-level credits, you should have:
  - Cumulative GPA of at least a 2.50 in all college coursework
  - GPA of at least a 2.50 in all college math, science, computer science or engineering coursework

- If you have earned 90 or more transferable college-level credits, you must have:
  - Cumulative GPA of at least a 2.5 in all college coursework
  - GPA of at least a 2.5 in all college math, science, computer science or engineering coursework

Completion of lower-division coursework listed below. Coursework may be completed after admission to the program while in residence at UW Tacoma.

- 15 credits of mathematics to include 5 credits each of TQS 110, TQS 124 and science (lab-based)—TESC 121 physics preferred.
- 10 credits of Visual, Literary and Performing Arts coursework.
- 10 credits of Social Science coursework.
- 10 credits of computing coursework to include 5 credits each of Object-Oriented Programming I & II.* Students with previous baccalaureate degrees or extensive work experience should meet with an adviser to discuss options.

How to Apply

To apply to the Computing and Software Systems program, students must submit the online application which includes the following program documentation:

Personal Statement

The program utilizes the personal statement as an assessment tool. Your personal statement should address the following topics:

- Reasons for pursuing this degree including your motivation or interests and your academic professional goals.
- How this degree will help you attain your goals
- Any pertinent work experience
- Personal strengths and experiences that will contribute to your effectiveness in the program.

Transcripts

Students must submit an official transcript from every college or university attended. A high school transcript must be submitted only if a foreign language taken in high school is being used to meet the foreign language requirement.

Minors

Minors in Applied Computing and Computing and Software Systems are available to undergraduate students in other degree programs. Please see the “Minors and Certificates” section beginning on page 107.

Bachelor of Science

The bachelor of science in Computing and Software Systems emphasizes the theoretical foundation and practical experience necessary for a career in the challenging and rewarding profession of software specification, development, design, implementation, maintenance and re-engineering. The curriculum emphasizes the latest paradigms, languages and techniques of today’s practitioners while building a strong base to support lifelong learning in the field. It also prepares students to pursue graduate studies and provides continuing education to current professionals. Industrial partnerships provide opportunities for a wide variety of practical experiences that complement classroom teaching and research projects.

*Students are expected to have the equivalent of the University of Washington Tacoma’s TCSS 142 and TCSS 143. See www.tacoma.washington.edu/tech/doc/142-143course_equivalents.pdf for details.
Curriculum

The curriculum consists of four parts: a series of core courses, selected CSS senior electives, courses to complete a UW Tacoma minor, and additional free electives as follows:

- 50 credit hours of core Computing and Software Systems courses
- 25 credit hours of 400-level Computing and Software Systems (TCSS) courses
- 15 credit hours of free electives

Core Courses

There are ten core courses in the Computing and Software Systems program:

- TCSS 305: Programming Practicum
- TCSS 321: Discrete Structures I
- TCSS 322: Discrete Structures II
- TCSS 325: Computers, Ethics & Society
- TCSS 342: Data Structures
- TCSS 343: Design & Analysis of Algorithms
- TCSS 360: Software Development and Quality Assurance Techniques
- TCSS 371: Machine Organization
- TCSS 372: Computer Architecture
- TCSS 422: Computer Operating Systems

CSS Senior Electives

Students must complete five 400-level courses chosen from the Computing and Software Systems program; see course descriptions for listing. Students may also take 5 credits of a 400-level TINST course to count towards the total 25 credits of CSS electives.

Free Electives

Students must complete 15 credits of general electives. The electives are expected to include courses outside the CSS program.

Foundation-Strengthening Courses

In addition to the core and elective courses, the CSS program offers courses in programming for students who need to refresh skills before enrolling in core courses. Credit from these courses is not applied towards the Computing and Software Systems degree requirements.

- TCSS 142 Introduction to Object-Oriented Computer Programming
- TCSS 143 Fundamentals and Theory of Object-Oriented Computer Programming

Research and Internship Opportunities

Research, directed reading and internship opportunities allow senior-level students to explore their unique areas of interest complemented by the expertise of the faculty and industry. Industry partner internships at software development design and implementation companies are dedicated to the students of the Institute and provide paid work experience, which complements the curriculum and often provide on-ramps to the high tech workforce. While applying the theoretical and conceptual classroom knowledge to the practical work environment, the student is creates relationships and gains a greater depth of understanding of his or her coursework.

Bachelor of Arts

The bachelor of arts degree provides the student with an opportunity to experience more breadth in the academic experience, and to apply the fundamental concepts and technologies of computer science to another academic discipline. The main goal of this program is to provide an educational option for students who want a thorough and rigorous grounding in the principles of computing and computing technology, but will be “informed consumers” of the technology rather than “aggressive primary builders” of the technology.

Curriculum

The curriculum consists of four parts: a series of core courses, selected CSS senior electives, courses to complete a UW Tacoma minor, and additional free electives.

Core Courses

Computing majors begin their course of study with a group of six required core courses (30 credits) in principles, analysis, techniques and technology. These courses are directed toward learning and applying the key competencies.

These courses are:

- TCSS 305 Programming Practicum
- TCSS 321 Discrete Structures I
- TCSS 325 Computers, Ethics and Society
- TCSS 342 Data Structures
- TCSS 360 Software Development and Quality Assurance
- TCSS 371 Machine Organization

CSS Senior Electives

CSS senior electives consist of 20 credits from 400-level TCSS courses. Available CSS electives represent several sub-disciplines in Computing and Software Systems, including: applications software development, distributed computing development (e-commerce), database and information engineering, robotics, artificial intelligence, and communications and protocol software design.

See an adviser for more information about which courses will be available, and when they are scheduled to be offered.

UW Tacoma Minor

Students pursuing a bachelor of arts degree in CSS are required to choose a minor from one of UW Tacoma’s other academic programs. Minors consist of 20-30 credits in a focused area of study. Careful planning will be required to integrate the required coursework into the student’s schedule. Students will need to work closely with an academic adviser to map out a feasible schedule.

See the “Minors and Certificates” section starting on page 107.

Free Electives

Free electives consist of approved courses outside the CSS program. Students will need 10-20 credits of general electives depending on the student’s chosen minor. Electives provide students with the opportunity to take interdisciplinary courses to broaden their knowledge base.

Foundation-Strengthening Courses

In addition to the core and elective courses, the CSS program offers courses in programming for students who need to refresh skills before enrolling in core courses. Credit from these courses is not applied towards the Computing and Software Systems degree requirements.

- TCSS 142 Introduction to Object-Oriented Computer Programming
- TCSS 143 Fundamentals and Theory of Object-Oriented Computer Programming
Academic Standards

The following standards apply to all students in the Computing and Software Systems program. These standards may be in addition to other academic standards at the University of Washington Tacoma.

- All prerequisites must be completed before advancing to the next academic level. All courses within the major must be completed with a minimum grade of 2.0 (including TCSS 142 and 143). If a grade below that is received, the student may repeat the course with the approval of the program offering the course.* Course credit will be awarded only once, but both grades will be used in computing the grade-point average.

- Students must satisfactorily complete all upper-division courses at UW Tacoma by achieving a minimum grade of 1.7 (2.0 in all CSS courses). If a grade below 1.7 is received in an elective course outside of CSS, the course will not count toward graduation, but the student is not required to repeat the course.

- Courses in the Computing and Software Systems program may not be taken by correspondence (distance learning) without prior approval of the program.

- Courses in the Computing and Software Systems program may not be taken S/NS (satisfactory/not satisfactory).

- To substitute a course in the major, upper-division Computing and Software Systems courses completed at other accredited four-year institutions may not be more than seven years old. If a course is more than seven years old, the student will be required to repeat the course at UW Tacoma. Credit will not be awarded twice for the same course.

- Upper-division courses used for transfer credit are held to the 2.0 grade standard required for all courses for Computing and Software Systems.

- Students changing to a Computing and Software Systems major from another major will be required to meet program and academic performance requirements in effect at the time the major is changed.

Low Scholarship

An undergraduate Computing and Software Systems major who is dismissed from the University for low scholarship is removed from the Computing and Software Systems major.

To continue as a CSS student in any status, matriculated or otherwise, after being removed from the Computing and Software Systems major, a student must re-apply for admission. The Admissions Committee will evaluate the student’s file, personal statement requesting re-admission, and any extenuating circumstances and then will recommend action.

Computing Labs

The Institute of Technology has dedicated laboratories containing specialized equipment to support the program. These laboratories are open 24 hours a day, seven days a week. Access to facilities is also available through Internet connections.

Graduation Requirements

To qualify for graduation with a baccalaureate degree in Computing and Software Systems from the University of Washington Tacoma, a student must:

- Be a matriculated Computing and Software Systems student in good academic standing with the University of Washington Tacoma.

- Satisfy all of the admission requirements for entrance into the Computing and Software Systems program.

- Complete 180 credits. At least 85 credits must be upper-division (300-400 level) coursework.

- Complete a minimum of 30 credits of CSS core courses in residence at the University of Washington Tacoma.

- Complete 75 percent of CSS elective courses in residence at the University of Washington Tacoma.

- Complete the final 45 credits in residence at the University of Washington Tacoma.

- Have a minimum cumulative grade-point average of 2.0 in all classes and a minimum cumulative grade-point average of 2.5 in all Computing and Software Systems classes.

- Apply for graduation with a Computing and Software Systems adviser by the application deadline posted by the Graduation and Academic Records Office for the expected date of graduation.

In addition to the general requirements for graduation, students earning the bachelor of science degree must also:

- Complete the specified 50 credits of core courses in the Computing and Software Systems major.

- Complete 25 credits in approved 400-level courses in the Computing and Software Systems major.

- Complete 15 credits of electives.

In addition to the general requirements for graduation, students earning the bachelor of arts degree must also:

- Complete the specified 30 credits of core courses in the Computing and Software Systems major.

- Complete 20 credits in approved 400-level courses in the Computing and Software Systems major.

- Satisfy the requirements for a declared UW Tacoma minor.

- Complete 20–30 credits of general upper-division electives.

Students who are admitted to the Computing and Software Systems program with a baccalaureate or master’s degree are required to complete the core and concentration courses with a minimum grade of 2.0 and a total of 75 credits to qualify for a second bachelor’s degree. Elective credit requirements are waived. In some cases, students may petition the faculty, using the Petition to Substitute a Course form located online at www.tacoma.washington.edu/tech/docs/pet_sub_course.pdf, for permission to use previous coursework or experience in place of core or concentration-level courses. The petition does not guarantee that credit will be awarded for a course; the petitioning student may be required to complete additional coursework in place of the waived requirement.

---

*If the student does not successfully pass the course with a minimum grade of 2.0 on the second try and wishes to take the course for a third time, the student must submit a petition to repeat the course to the program faculty for approval before being allowed to enroll for the course a third time. Instructions for completing the petition can be found on the Institute of Technology Web site: www.tacoma.washington.edu/tech.
Course Descriptions

For the most current course information, please consult the Institute of Technology Web site at www.tacoma.washington.edu/tech.

TCSS Courses

TCSS 142
Introduction to Object-Oriented Computer Programming
5 credits / Prerequisite: TQS 120, MATH 120, Score of 68% on MATH/PC placement test, score of 75% on MATHEC placement test or score of 2 on AP test
A modern, structured, object-oriented language will be used to introduce the design, implementation, modification, and verification of computer programs. Includes an introduction to program structure, object-oriented design, graphical user interfaces, and event-driven programming. Credit does not satisfy CSS degree requirements. [N] [Q]

TCSS 143
Fundamentals and Theory of Object-Oriented Computer Programming
5 credits / Prerequisite: TCSS 142 or equivalent
Fundamental theory and concepts of object-oriented computer programming. Concentrates on program specification, analysis, design, implementation and verification, as well as development of graphical user interfaces and event-driven programming. Emphasizes objects, modular design, inheritance, polymorphism and reusability. Credit does not satisfy CSS degree requirements. [N] [Q]

TCSS 305
Programming Practicum
5 credits / Prerequisites: TCSS 143 or equivalent
Provides a practicum in program design and development. Programming practice on a medium-scale, object-oriented application, consolidating prior programming principles and expanding knowledge of application design.

TCSS 321
Discrete Structures I
5 credits / Prerequisites: TCSS 143, either 2.0 in TQS 124, score of 3 on AB advanced placement test or score of 3 on BC advanced placement test
Definitions and tools for reasoning about discrete mathematical objects useful for computer professionals. Includes set theory, propositions and predicates, sequences, enumeration, algorithms, boolean algebra, permutations, methods of proof, probability and combinations with applications in computing. [N] [Q]

TCSS 322
Discrete Structures II
5 credits / Prerequisites: TCSS 321
Covers advanced topics in discrete mathematics including advanced counting techniques, relations, graphs, trees and models of computation such as finite state machines and Turing machines. [N] [Q]

TCSS 325
Computers, Ethics and Society
5 credits / Prerequisites: TCSS 143 or TINST 310 or TINST 312, 10 credits of writing
Covers social issues involving functioning as an effective computer professional, diverse professional/technical literature, representation of controversies, understanding ethical frameworks/value systems underlying views. Determining professional impacts on co-workers, employers, clients, system users and society. Emphasizes written, verbal and electronic communications skills necessary in a diverse workplace. [I] [V] [W]

TCSS 342
Data Structures
5 credits / Prerequisites: TCSS 305 (may be taken concurrently), TCSS 321
Integrates mathematical principles with detailed program development. Applies mathematical reasoning, abstract data types and data structures. Explores efficiency of algorithms, sequential and linked lists, trees, searching, sorting, queues, hashing, directed graphs, depth-first algorithms, garbage collection and dynamic storage allocation.

TCSS 343
Design and Analysis of Algorithms
5 credits / Prerequisites: TCSS 322, TCSS 342
Develops competencies associated with problem solving, algorithms and computational models. Explores developing reusable, object-oriented software using design patterns, and practices applying them. Also explores algorithm analysis and design, and computational complexity. Includes efficient algorithms, models of computation, correctness, time and space complexity, NP-complete problems and undecidable problems.

TCSS 360
Software Development and Quality Assurance Techniques
5 credits / Prerequisites: TCSS 342, 10 credits of writing
Software design methodologies and Unified Modeling Language (UML). Includes software development life cycle, managing design in a team environment, top-down bottom-up processes, incremental development, rapid prototyping, abstraction, complexity, hierarchy, composition-composition, concurrency, software metrics, statistical process control, CASE tools and formal analysis and verification.

TCSS 371
Machine Organization
5 credits / Prerequisite: TCSS 143
Develops the hardware basis for computing systems and the relationship between hardware and software. Covers number representations, digital logic, machine organization, instruction set architecture and assembly language. Includes an introduction to high-level languages and the translation of such a language into machine instructions.

TCSS 372
Computer Architecture
5 credits / Prerequisites: TCSS 371 and TCSS 342
Covers the micro-architecture level of machine design and advanced architecture features for performance enhancement. Topics include I/O, bus, memory and CPU design, hardware support for operating systems, CISC/RISC architectures, embedded systems, and parallelism. Extends the understanding of systems programming.

TCSS 390
Undergraduate Seminar in CSS
2 credits (max. 12)
Enhances problem-solving skills. Topics and approaches vary. Includes lectures and problem sessions in mathematics, programming, problem solving, and CSS applications. Credit/no credit only. Credit does not satisfy CSS degree requirements.

TCSS 422
Computer Operating Systems
5 credits / Prerequisite: TCSS 342 and TCSS 372
Examines the fundamental concepts of operating systems and how they function. Includes process management, memory management, file systems, concurrency, interprocess communication, graphical interfaces, and security.

TCSS 430
Networking and Distributed Systems
5 credits / Prerequisite: TCSS 360 and 422
Computer network architectures and protocol layers, including LANs, MANs and WANs, OSI protocol TCP/IP, routing, congestion, and flow control; data compression; interface between the network and the program (e.g. sockets, ports, mailboxes), security issues (including authentication and authorization, encryption), distributed file systems and remote procedure calls.

ABOUT FULFILLING ADMISSION REQUIREMENTS

Some students are admitted to UW Tacoma before they have completed all of their admission requirements. Students may fulfill missing requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description: [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.
TCSS 431
Network Security
5 credits / Prerequisite: TCSS 321, TCSS 325, TCSS 371
Covers cryptographic methods including public and private key algorithms. Examines protocols that utilize such methods, such as secure e-mail, digital signatures, authorization, e-voting and electronic cash. Includes lab component for demonstration of security techniques such as firewalls, intrusion detection systems and virtual private networks.

TCSS 432
Advances in Object-Oriented Design
5 credits / Prerequisite: TCSS 360
Prepares students for understanding and using advances in object-oriented design. Emphasizes criteria for modularization, specification of modules, larger-scale design elements such as design patterns and generic programming.

TCSS 435
Artificial Intelligence and Knowledge Acquisition
5 credits / Prerequisite: TCSS 360
Introduction to the use of artificial intelligence theories, techniques and tools. Foundational material includes search, knowledge representation, machine learning and planning. AI techniques applied to practical problems in areas such as control systems, optimization, scheduling and classification.

TCSS 437
Mobile Robotics
5 credits / Prerequisites: TCSS 360, TCSS 422
Covers the theory and practice of developing algorithms for motion control, navigation, obstacle avoidance and mobile autonomous robotic devices. Using robotic construction kits, students build and program sophisticated mobile robots. Principles of designing and programming embedded, real-time systems are introduced. Lab fee required.

TCSS 440
Formal Models in Computer Science
5 credits / Prerequisite: TCSS 343
Languages, finite automata, regular expressions, context-free grammars, and other automata such as pushdown store machines and Turing machines. Models of computation, computable and non-computable functions, non-determinism, space and time complexity, tractable and intractable functions.

TCSS 445
Database Systems Design
5 credits / Prerequisite: TCSS 360
Fundamental concepts, system organization, and implementation of database systems. Methods for obtaining requirements and designing database systems; differences between hierarchical, relational, and network database designs; file organizations and data structures; structured query language (SQL); query optimization; database design; concurrency control; security; issues involving distributed database systems.

TCSS 450
Graphical Display of Information
5 credits / Prerequisites: TCSS 360 or TINST 310
Developing software user interfaces based on human-computer interaction principles. Evaluate, design and program user interface systems. Fundamentals of human cognition, system characteristics, and human/system interaction; usability methods and user/task-centered design; tools for designing and building user interfaces, emphasis on rapid applications development. Project includes development and evaluation of a user interface.

TCSS 451
Introduction to Digital Media
5 credits / Prerequisites: TCSS 343, TCSS 360
Covers display devices and interactivity; digital color representation; geometric primitives, patches, and parametrics; affine transformations; scene graph programming; lighting systems; texture maps; projection/hidden surfaces; forward and reverse kinematics; particle systems; rendering: digital audio formats; digital video formats; format conversion and compression algorithms; and streaming methods.

TCSS 452
Human-Computer Interface
5 credits
Investigates human-computer interface design concepts and related ergonomic and cognitive issues with respect to a broad range of hardware interface modalities, including traditional computers, tablet devices, handheld computers, mobile phone devices, and 3-D displays. Also covers interface design and testing methods.

TCSS 455
Development of Enterprise Applications
5 credits / Prerequisite: TCSS 360
Enterprise application development; communication among objects in different applications and on different computers; event-driven programming; multi-threaded programming; client-server and n-tier architectures; maintain persistent object state; introduction to component framework such as Enterprise JavaBeans.

TCSS 458
Computer Graphics
5 credits / Prerequisite: TCSS 342
Introduction to the main concepts in image synthesis, modeling and animation. Topics include displays, drawing and rendering algorithms, geometric transformations, 2-D and 3-D viewing, objects representation and computer animation.

TCSS 460
Client/Server Programming for Internet Applications
5 credits / Prerequisite: TCSS 360
Examines languages and techniques for Internet and client server application programming. Covers languages like C#, Perl, XML, JavaScript, and DHTML, and topics like scripts, queries, forms, data access, redirection, firewalls, proxies, hypermedia, cookies, gateways and Web services.

TCSS 465
Embedded Real-Time System Programming
5 credits / Prerequisite: TCSS 422
An examination of theory and practice in designing software embedded in electronic devices and controllers. Includes clocks, threads, multitasking, critical sections, monitors, scheduling, on-chip and external device interfacing, communications and fault tolerance.

TCSS 466
Computer-Mediated Communications
5 credits / Prerequisite: TCSS 325, TCSS 360
Examines the uses of computer and communications technologies, including application implementations, for supporting human-to-human communications in both personal and social contexts. Includes topics from sociological and psychological aspects needed to design effective systems.

TCSS 470
Software Re-engineering
5 credits / Prerequisite: TCSS 360
Examines concepts and techniques for re-engineering software systems to meet new requirements without performance risk. Includes comparisons of agile processes, CASE (Computer-Aided Software Engineering) tools, refactoring, defensive design techniques and software tools for software evaluation.

TCSS 480
Comparative Programming Languages
5 credits / Prerequisite: TCSS 360
Study and comparison of several programming languages in regards to data structures, operations, notation and control. Examines programming paradigms, implementation strategies, programming environments and programming style.

TCSS 481
Computer Security
5 credits / Prerequisites: TCSS 342, TINST 312 and TCSS 325 (may be taken concurrently)
Discusses theoretical and practical issues surrounding computer security and data protection. Explores formal models of encryption and authentication; operating system and network security; programming and vulnerability analysis.

TCSS 490
Special Topics
5 credits, max. 10
Examines current topics and issues associated with computing and software systems.

TCSS 491
Computational Worlds
5 credits / Prerequisite: TCSS 435 or TCSS 458
Development of large-scale software project in advanced imaging involving computational intelligence and artificial life applied to such fields as game development or virtual reality. Students work in interdisciplinary teams that integrate several computer science areas. Advanced topics: game programming, artificial life, virtual humans and computer animation.
TCSS 497
Internship in CSS
1-10 credits, max. 10 / Prerequisites: TCSS 360 or permission of instructor
Completion of project as delineated in a contract among student, faculty adviser and community sponsor.

TCSS 498
Directed Readings in CSS
1-5 credits, max. 10 / Prerequisites: TCSS 360 or permission of instructor
Readings in Computing and Software Systems as specified in a contract with faculty member.

TCSS 499
Undergraduate Research
1-10 credits, max. 10 / Prerequisites: TCSS 360 or permission of instructor
Design and implementation of a research study as specified in a contract with a faculty member.

TINST Courses

TINST 100
Fluency in Information Technology
5 credits
Introduces skills, concepts and capabilities necessary to effectively use information technology. Includes logical reasoning, managing complexity, operation of computers and networks, and contemporary applications such as effective Web searching and database manipulation, ethical aspects and social impacts of information technology. [Q]

TINST 207
Living and Working in a Virtual World: Technologies of the World Wide Web
3 credits
Explores some of the important technological principles underlying the World Wide Web as it pertains to the creation and maintenance of virtual communities and the access to information. Provides a deeper understanding of how these principles can empower one to live effectively in a virtual community. [I]

TINST 310
Computational Problem Solving
5 credits
Covers the fundamental framework for developing computational solutions to a variety of problems encountered in the world. Explores methods of analyzing and characterizing problems, and of developing a computational solution. Introduces computer programming and explores and compares various types of programming methods. Not open to CSS majors. [Q]

TINST 311
Database Management and Data Analysis
5 credits
Covers methods for transforming data into information through a database management system, how to query it interactively, how to visualize it in a meaningful way, how to share it on the Internet and how to analyze it. Not open to CSS majors. [Q]

TINST 312
Computer Networks and the Internet
5 credits / Prerequisite: TINST 310
Presents the impact of network computers on society. Introduces a variety of Web development technologies for producing dynamic Web sites. Provides a practical approach to solve Web development problems in a wide range of application areas. Not open to CSS majors. [Q]

TINST 401
Technology in the Service of Global Society
5 credits
Explores the use of technologies as one essential component in solving globally important problems. Emphasis may vary to focus on such issues as the global commons, economic inequities and population dynamics. Examines public policies that impact technological development. [I]

TINST 475
Entrepreneurship in Computing and Software Systems
5 credits / Prerequisite: TINST 310 or TCSS 360
A study of the process of developing a product or service in the field of Computing and Software Systems, preparing a plan for commercialization, and implementing that plan. The course will include lectures by professionals who have experience and success in starting businesses.

TINST 490
Special Topics in Applied Computing
5 credits
Examines current topics and issues associated with applied computing.

TINST 498
Directed Readings in Applied Computing
1-5 credits / Prerequisite: TINST 310
Readings as specified in agreement with a faculty member. Consultation with a professor in a student’s major is encouraged. Not open to CSS majors.

TINST 499
Research in Applied Computing
1-5 credits / Prerequisite: TINST 310
Design and implementation of a research study as specified in a contract with a faculty member. Not open to CSS majors.

Faculty

Orlando Baiocchi
Director and Professor
Institute of Technology
Electrical Engineering; Ph.D., University College in London, 1976.

Yan Bai
Assistant Professor, Institute of Technology; Computer Engineering; Ph.D., University of British Columbia, 2003.

Isabelle Bichindaritz
Assistant Professor, Institute of Technology; Computer Science; Ph.D., University Rene Descartes (Paris), 1994.

Donald Chinn
Assistant Professor, Institute of Technology; Computer Science; Ph.D., University of Washington, 1995.

Sam Chung
Associate Professor, Institute of Technology; Computer Science; Ph.D., University of South Florida, 1995.

Larry A. Crum
Professor Emeritus, Institute of Technology; Electrical Engineering; Ph.D., Marquette University, 1971.

Martine De Cock
Associate Professor, Institute of Technology; Computer Sciences; Ph.D., Ghent University, Belgium, 2002.

Steve Hanks
Professor, Institute of Technology; Computer Science; Ph.D., Yale University, 1990.

George Mobus
Associate Professor, Institute of Technology; Computer Science; Ph.D., University of North Texas, 1994.

Moshe Rosenfeld
Professor Emeritus, Institute of Technology; Mathematics; Ph.D., Hebrew University of Jerusalem, 1967.

Josh Tenenberg
Professor, Institute of Technology; Computer Science; Ph.D., University of Rochester, 1988.

Ankur Teredesai
Associate Professor, Institute of Technology; Computer Sciences; Ph.D., University at Buffalo, State University of New York, 2002.

Larry Wear
Professor and Associate Director, Institute of Technology; Electrical Engineering; Ph.D., Santa Clara University, 1970.

Daniel Zimmerman
Assistant Professor, Institute of Technology; Computer Science; Ph.D., California Institute of Technology, 2002.
Global Honors

Curriculum

The Global Honors curriculum develops advanced critical thinking, writing and research skills. Topics are approached from an interdisciplinary perspective and vary depending on the professor’s expertise and the interests of the students. Classes are conducted as seminars and may include presentations, individual or group projects and writing and critiquing papers. Students are expected to maintain an overall GPA of 3.50 in all coursework at UW Tacoma.

Sophomore Year

Students interested in exploring Global Honors through a challenging and exciting course may take the 200-level course:

TGH 203 Introduction to Global Honors

This is not a required course for the Global Honors curriculum.

Qualified sophomores may obtain permission to enroll in the 300-level Global Honors seminars on a case-by-case basis.

Junior Year

Students take three core seminars of five credits each. Each seminar includes extensive reading lists, substantive writing and research assignments and the expectation of active participation by students.

TGH 301 Global Interactions
TGH 302 Global Imagination
TGH 303 Global Challenges

Senior Year

Students may choose to study abroad and write a reflection essay or write an internationally-focused thesis. Students who decide to study abroad generally do so in the summer before their senior year or in the fall of the senior year. In the fall, all students take a research seminar in preparation for the senior thesis or reflection essay. In the spring, seniors present their work at the Global Honors Research Colloquium.

Thesis / Reflection Essay

Students who complete a study abroad experience may write the two-credit senior reflection essay in lieu of the senior thesis. All other students must write a five-credit thesis that is international in scope. Both capstone projects are presented at the spring Research Colloquium.

Study Abroad

Not required but strongly encouraged.

Students may study in another country with an accredited university study abroad program. Options range from programs of three weeks to one quarter or more. Students have access to UW Tacoma and UW Seattle study-abroad programs.

TGH 490 Research Methods
TGH 494 Thesis Credits
TGH 495 Reflection Essay

Admission

(Note: qualified students may take one Global Honors course, space permitting, without being formally admitted into the program.)

Global Honors is a competitive program. Students are selected on the basis of academic achievement (a GPA of 3.50 during the first two years of college-level work) and potential for bringing unique perspectives and making an exceptional contribution to the Honors Program. Students normally enter the program in fall quarter of their junior year as members of a cohort. Students are not admitted within their final 45 credits of graduation.

OVERVIEW

The Global Honors program serves students in all undergraduate majors, who are aiming for careers or graduate studies that address the needs of our region and our world. This interdisciplinary program builds on what students learn within their academic majors and appeals to students seeking a more complete and sophisticated understanding of world problems. The program draws on the strengths of UW Tacoma’s exceptional faculty from all academic units and adds substantially to options available to honors students at UW Tacoma.

Phone: (253) 692-4770
Fax: (253) 692-4725
Office: CP 311C
Campus box: 358436
Web site: www.tacoma.washington.edu/globalhonors
Director: Claudia Gorbman
Administrator & Adviser: Tanya Ulsted
Following acceptance to UW Tacoma, Global Honors applicants should submit the following:

- A letter of application indicating why you are interested in the UW Tacoma Global Honors Program, what you think you could gain from the program and what you believe you could contribute to it.
- A writing sample of a 5-10 page college paper.
- Two letters of recommendation from individuals familiar with your academic capabilities and potential for success in the Global Honors Program. Letters should be mailed to:
  Global Honors Program  
  UW Tacoma  
  Attn: Tanya Ulsted  
  Campus Box 358436  
  1900 Commerce Street  
  Tacoma, WA 98402-3100

You will be contacted to schedule an interview when all your application materials have been received and reviewed.

### Course Descriptions

For the most current course information, please consult the Global Honors Web site at www.tacoma.washington.edu/globalhonors.

**TGH 203 Themes in Global Honors**  
5 credits  
This course focuses on a major interdisciplinary theme or issue and challenges students with readings, discussion, writing, and group projects to explore the topic deeply and creatively. Sample topics: Maps of the World and of the Mind; The Environment: History, Arts, Politics. Open to any student with a GPA of 3.5 or above.

**TGH 301 Global Interactions**  
5 credits  
This course examines major ideological and intellectual movements that shaped the human experience in the 20th century. It focuses on nationalism, imperialism, fascism and communism in the context of global history in the last century.

**TGH 302 Global Imaginations**  
5 credits  
This course accommodates the study of major themes, concepts, trends or techniques that permeate world literature, arts, and/or other cultural forms. The specific art forms and issues to be examined in any given offering of the class will vary. In addition to works considered to be “masterpieces” by critics, the class may also consider marginalized forms of aesthetic expression and their relation to meaning and value.

**TGH 303 Global Challenges**  
5 credits  
This seminar examines major challenges facing the world in the 21st century. It may deal with such contemporary issues as economic development, poverty and the distribution of resources, ecological concerns, public health, global conflict, nationalism, race, gender, religion and human rights.

**TGH 490 Research Methods**  
2 credits  
This seminar is restricted to seniors in Global Honors. It helps students identify and refine their capstone (thesis or reflection essay) topic, and guides them through the process of writing. Class activities include group work, presentations and peer reviewing.

**TGH 494 Thesis**  
5 credits

**TGH 495 Independent Study (Reflection Essay)**  
1 – 5 credits

---

### Faculty

Global Honors courses are taught by faculty from several academic programs on campus.
Interdisciplinary Arts and Sciences
Bachelor of Arts • Bachelor of Science (Environmental Science)

Interdisciplinary Arts and Sciences offers three degrees:

■ Bachelor of Arts degree in Interdisciplinary Arts and Sciences
■ Bachelor of Science degree in Environmental Science
■ Master of Arts degree in Interdisciplinary Studies

The Interdisciplinary Arts and Sciences curriculum is a program of study in the humanities, social sciences and natural sciences. The focus of the curriculum is the comparative study of peoples, groups, societies, cultures and environments within the United States and selected regions of the world. To provide an interdisciplinary and comparative basis for the study of different groups, societies and cultures, the Interdisciplinary Arts and Sciences curriculum is organized around three general dimensions: Culture and Ideas (Fine Arts and Humanities), Society and the Individual (Social Sciences) and The Natural World (Natural Sciences).

The goals of the Interdisciplinary Arts and Sciences curriculum are to help students:

■ Develop proficiency in skills such as writing and critical thinking that are needed for productive careers and gain mastery of a broad curriculum in the humanities, social sciences and environmental science
■ Achieve knowledge of the theories, concepts and methods of cross-cultural analysis
■ Understand the complexity of relations between groups, societies, cultures and natural environments, the history of these relations and the forces of social change
■ Gain a knowledge and appreciation of cultures other than their own while exploring the expression of cultural identity, thought and beliefs through literature and the other arts
■ Build experience in the analysis of environmental issues and their scientific basis

Bachelor of Arts

The Bachelor of Arts degree in Interdisciplinary Arts and Sciences offers concentrations in:

■ American Studies
■ Arts, Media and Culture
■ Communication
■ Environmental Studies
■ Ethnic, Gender and Labor Studies
■ General Studies
■ Global Studies
■ Individually-Designed Concentration
■ Political Economy
■ Politics and Values
■ Psychology
■ Self and Society

OVERVIEW

Interdisciplinary Arts and Sciences is an evolving, culturally relevant course of study grounded in a respect for diversity and responsive to the needs and desires of the communities around us. We create an atmosphere in which we promote academic excellence by encouraging students to think, write and speak in ways that enhance their own development, their sense of community and their ability to deal with problems of injustice and equality, as well as their dedication to positive change.

Phone: (253) 692-4450
Fax: (253) 692-5718
Office: WCG 424
Campus box: 358436
Web site: www.tacoma.washington.edu/ias
Interim Director: Cheryl Greengrove
Associate Director: Nita McKinley
Administrator: Julie Buffington
Advisers: Heather Hucks, Linda Kachinsky, Loretta Lukaczer
Minors

Interdisciplinary Arts and Sciences offers minors in the following areas:

- Asian Studies
- Education
- Environmental Studies
- Hispanic Studies
- Human Rights
- Museum Studies
- Nonprofit Management
- Public History
- along with certificates in:
  - Nonprofit Management
  - Restoration Ecology

For more information, please see the “Minors and Certificates” section beginning on page 111.

Admission Requirements

Interdisciplinary Arts and Sciences admits students with:

- General University Requirements (see page 23)
- 5 credits of English composition
- Completion of mathematics through intermediate algebra
- Completion of a minimum of 40 transferable college-level credits
- Minimum 2.0 GPA

The Psychology concentration has additional prerequisite coursework that must be completed before declaring the concentration. The prerequisite courses can be taken at UW Tacoma. Please see the concentration section for details.

How to Apply

When Interdisciplinary Arts and Sciences is fully enrolled and there are more qualified applicants than can be accommodated, admission will be competitive and applicants will be evaluated on three principal criteria:

- Appropriateness of academic preparation for the degree program
- Likelihood of success in the degree program
- Relationship between the degree program and academic or career plans and opportunities

Applicants should submit completed applications by the priority application dates. Early applications are encouraged.

A completed application includes the Application for Transfer Admission, $50 application fee, one official transcript from each college or university attended (and a high school transcript if using high school credit to fulfill admission requirements), a personal statement including life and career goals and how the IAS degree will help advance those goals.

Transferring to UW Tacoma

Most of the concentrations in IAS blend well with a broad base of courses in the first two years, similar to what an associate in arts or science degree from a Washington state community college would provide.

Psychology and Environmental Studies concentrations require specific lower-division coursework that should ideally be completed in the first 90 credits towards a degree. Review the individual concentration requirements in the following pages to learn more about specific prerequisites.

Advising

Students are strongly encouraged to meet with a program adviser and faculty adviser early in their careers at UW Tacoma. Advisers can:

- Help students to select a concentration and determine a plan of study
- Provide guidance on selection of courses
- Offer advice about resources available to help students succeed academically
- Assist students in identifying career and educational goals
- Help students plan internships and independent studies and apply for graduation.

In addition, the IAS program is growing rapidly, and an appointment with an adviser can help determine if new courses are applicable to the student’s concentration requirements.

**Independent Study Courses**

Independent study courses are intended for students to do advanced work in a special area of study normally not offered in the regular curriculum. Students may enroll in these courses only after receiving written permission from the instructor who has agreed to supervise the student's work. A total of no more than 15 credits of internships, senior thesis, directed readings and undergraduate research may be applied toward the Bachelor of Arts degree requirements. (A maximum of 10 credits of internships may count toward the Bachelor of Arts degree.)

**Graduation Requirements**

To be eligible for graduation with the Bachelor of Arts degree in Interdisciplinary Arts and Sciences, each student enrolled in the program must meet the UW Tacoma scholastic standards (2.0 UW GPA), credits required (minimum 180) and the final-year residency requirement outlined on page 27, and complete the following program requirements:

- Complete all general education requirements not met with transfer courses. See adviser for details.
- Complete a minimum of 45 credits of Interdisciplinary Arts and Sciences coursework. Some concentrations require more.
- Complete a minimum of 45 credits of upper-division coursework, including transfer courses and UW Tacoma courses.
- Complete the requirements for a concentration (minors are optional).
- No more than 15 elective credits can be taken for a Satisfactory/Not Satisfactory grade. See adviser for details.
- Complete at least 45 of last 60 credits in residence at the University of Washington Tacoma.
- Compile a portfolio of work completed during the course of the student's residence at UW Tacoma and submit it for review during the second week of the student's last quarter of enrollment.
- Meet with a program adviser to complete a graduation application no later than the second week of the quarter in which the student plans to graduate.

**Interdisciplinary Arts and Sciences Honors**

IAS seniors may apply to graduate “with honors” in IAS. To begin the process, students should talk to an IAS staff or faculty adviser. The IAS honors option is different from, but can be pursued alongside, other UW Tacoma honors distinctions such as University honors and various honor societies.

To qualify to graduate with honors in IAS, a student must:

- Have earned a 3.7 cumulative GPA at the time of application and at graduation.
- Submit a formal application to the IAS office.
- Meet all program and concentration graduation requirements.
- Write a graded senior honors thesis (10 credits, typically over two quarters—research the first quarter, writing the second). The honor thesis is to be arranged between the student and any full-time IAS faculty member.

**Study Abroad**

Interdisciplinary Arts and Sciences faculty lead a number of study-abroad trips each year to places like Cuba, Mexico, Rome, Costa Rica, Italy, Russia, the United Kingdom and the Far East. Students tour museums, visit historical sites, learn about art and culture, study language, attend lectures and workshops, carry out research projects and experience daily life in a different culture. These programs range in length from one week to one month, and satisfy requirements in numerous concentrations. For details, visit the International Programs Web site at [www.tacoma.washington.edu/travel](http://www.tacoma.washington.edu/travel) or talk to a program or faculty adviser.
Concentrations

The Bachelor of Arts degree is offered with the choice of the following 12 concentrations.

American Studies

American Studies students can pursue a variety of subjects and themes within an American context. American Studies allows students to examine cultural, artistic, political and economic patterns in the United States and explore diverse aspects of American experience. Students may also focus on specific subjects such as ethnicity or religion, or on particular modes of inquiry, such as those found in social science, history, or the study of literature, media and the arts. American Studies is recommended for students interested in careers in media, education, government, business, nonprofit agencies and law. Depending on the focus students choose, they may pursue graduate studies in related disciplines.

Concentration graduation requirements

Requires 55-65 credits total including a minimum of 30 credits of upper-division in concentration. Requires 45 credits in IAS and 45 credits of upper-division courses to graduate.

- 10 credits of Core Courses:
  - TSMUS 200 American History I: 1607-1877
  - TSMUS 201 American History II: 1877-present

- Must complete during first 45 UW Tacoma credits.

- 40 credits of United States (US) Offerings* (see below for exceptions)

Minimum one Individual and Society (1&5) and one Visual, Literary and Performing Arts (VLPA) course

Does count for T-US:

- TCOM 201 Media and Society
- TCOM 257 Ethical Issues in Mass Communication
- TCOM 258 Children and Television
- TCOM 353 Critical Approaches to Mass Communication
- TCOM 395 Communication History
- TCOM 444 Gender, Ethnicity, Class, and the Media
- TCOM 454 Communications Law
- TCSG 436 North American Regions
- TCSG 444 The Pacific Northwest
- TCSG 445 The Metropolis: American Cities topics
- TCXG 377 Art of the Americas
- TCXG 470 The Material World: Art and Artifacts
- TCXIN 210 African Diaspora through Music: The Rhythm, the Blues and Beyond
- TCXIN 373 Asian American History and Literature
- TESC 247 Maritime History and Science in the Pacific Northwest
- TESC 345 Pollution and Public Policy
- TESC 344 The Atmosphere and Air Pollution
- TESC 434 Biology, History and Politics of the Salmon in the Pacific Northwest
- TEST 403 Geography of the USA and Canada
- T HILTH 470 Challenges and Controversies in US Health Care
- T HILTH 480 Death and American Society
- T POLS 202 Introduction to American Politics
- T POLS 400 The American Presidency
- TPSC 401 Family Violence
- TPSC 414 Psychology of Contemporary African-American Culture
- TPSC 415 Issues in Social Psychology: Hip Hop Culture
- TURB 312 Race and Poverty in Urban America
- TURB 360 African American Urban Experience

Does not count for T-US:

- TCSIUS 451 Essentials of Grant Writing and Fundraising
- TCSIUS 457 Nonprofit Capstone Course

*Students should recheck this list each quarter and talk to their adviser because the concentration will occasionally revise applicable courses.

- 5-10 credits Language or International Course(s):

  Option one (5 credits): Students must demonstrate competency in a foreign language through one of four ways: three years of high school in one language, FL 103 at the college level, native speaker certification, placement through testing in the second year of the language. Students meeting this requirement will need an additional IN (international) course of 5 credits.

  Option Two (5 credits): One college level foreign language course beyond the first year, i.e. French 201. Five credits of that counts here.

  Option Three (10 credits): TSMIN 200 (International Interactions) or TGH 301 (Global Interactions) plus one additional IN course.

- 5 credits Natural World course: Environmental Science: TESC prefix or an Environmental Science transfer-see adviser for applicable transfer courses. If certain courses with a TESC prefix (see options under "Do count for T-US" list above) are taken as part of the US core, then this converts to five free elective credits.

  See the American Studies Web site for the most current concentration options at www.tacoma.washington.edu/ias/academics/ba/american_studies.cfm.

Arts, Media and Culture

This concentration focuses on how the broadly defined fields of art and media operate within culture and how they transform it. Students study formal, aesthetic, and sociocultural ways of understanding literature, visual art, film, music and other media. The concentration introduces students to a range of fields and provides experience in both American and international contexts; at the same time, students may specialize to some degree in one of the particular fields listed in the course offerings. This concentration is recommended for students pursuing broad cultural literacy, as well as advanced study in performing and visual arts or a variety of graduate programs in the humanities. It prepares students for a range of careers including publishing, media, public relations, museum work, public history and the arts.

Concentration graduation requirements

Requires 70 credits total including a minimum of 30 credits of upper division in concentration. Requires 45 credits of upper-division courses and 45 credits of IAS total.

- Historical Context (List A) (15 credits)
  - T GH 301 Global Interactions
  - TSMIN 200 International Interactions (TSMIN 300)
  - TSMUS 200 American History I: 1607-1877
  - TSMUS 201 American History II: 1877-present

- Cultural Context (List B) (5 credits)
  - TCOM 201 Media and Society
  - TCXG 230 History of World Culture and Society (formerly Western Arts and Culture)
  - TCXIN 210 The African Diaspora through Music: The Rhythm, the Blues and Beyond
  - TCXIN 230 German Cultural History
  - TCXIN 461 Contemporary Mexican Culture
  - TCXIN 462 Women in Latin America
  - TCXIN 463 Contemporary Cuban Culture
  - TCXIN 464 The Arts, Cultures, and History of Mexico
  - TCXIN 477 Patronage, Religion and Propaganda in European Culture (1590-1750)
  - TCXIN 478 Revolution, Industrialization and Modernity In European Culture (1780-1900)
  - TCXIN 479 Modern European Culture
  - TCXIN 480 Contemporary Art and Society
  - TCXIN 490 Contemporary Spanish Culture
  - TCXUS 371 History of Rock and Roll
  - T GH 302 Global Imaginations
  - TIBCG 353 The End of the Modern World (1600-2000)
  - TIBCG 361 Ethics and Society
  - TIBCG 449 Museum Studies
  - TIBCG 458 Ways of Knowing
  - TIBCIN 220 Premodern East Asia
  - TIBCIN 251 Cultural Studies
**Interpretive Courses (List C) (5 credits)**
- TCXG 368   The Human Figure in Art
- TCXG 367   Ideas Through Objects: A Conceptual Approach to Art
- TCXG 341   Writing Popular Fiction
- TCXG 284  3-D Art & Contemporary Art
- TIBCUS 365   North American Indian Traditions
- TIBCUS 459   African American Culture and Consciousness
- TIBCUS 464   Native American Cultural Areas
- TPSYCH 414 Psychology of Contemporary African-American Culture

**Visual and Performing Arts (List E)**
- TCXG 272 Writing Effectively
- TCXG 380 Humanities Research and Writing Seminar
- TCXG 469 Art Theories, Methods and Philosophies
- TCXG 470 The Material World: Art and Artifacts
- TCXG 471 Culture and Meaning in the Visual Arts
- TCXIN 210 The African Diaspora through Music: The Rhythm, the Blues and Beyond
- TCXIN 272 Film Studies
- T GH 302 Global Imaginations
- TIBCG 448 Arts Administration
- TIBCIN 281 Ancient Literature of Western Civilization
- TIBCIN 282 Medieval Literature of Western Civilization
- TIBCIN 283 Modern Literature of Western Civilization
- TIBCIN 450 Contemporary Theories of Culture
- TIBCIN 456 Postcolonial Studies: African Perspectives
- TIBCUS 430 Introduction to Public History
- TPSYCH 414 Psychology of Contemporary African-American Culture

**Practice/Studio (List D) (5 credits)**
- TCOM 347   Television Criticism and Application
- TCOM 348 Nonfiction Writing for Television
- TCOM 349 News Writing
- TCOM 351 Video Production
- TCOM 387 Writing for Public Relations
- TCOM 470 Documentary Production & Critique
- TCOM 486 Feature Writing for Print Media
- TCXG 240 Landscape in Contemporary Art
- TCXG 284  3-D Art & Contemporary Approaches to Sculpture
- TCXG 336 Glass Blowing and Casting
- TCXG 341 Writing Popular Fiction
- TCXG 367 Ideas Through Objects: A Conceptual Approach to Art
- TCXG 368   The Human Figure in Contemporary Art

**Required Distribution (35 Credits with at least 5 credits from each of Lists E-G)**
- Visual and Performing Arts (List E)
  - TCXG 230 History of World Culture and Society (formerly Western Arts and Culture)
  - TCXG 240 Landscape in Contemporary Art
  - TCXG 284  3-D Art & Contemporary Approaches to Sculpture
  - TCXG 335 History of Photography
  - TCXG 367 Ideas Through Objects: A Conceptual Approach to Art
  - TCXG 368   The Human Figure in Contemporary Art
  - TCXG 377  Modern Architecture
  - TCXG 382  2-D Design and Contemporary Approaches to Art
  - TCXG 383   South Sound Contemporary Art
  - TCXG 386   Contemporary Art and Studio Drawing
  - TCXG 389 Art from the Impressionists to the Surrealists
  - TCXG 390 Site Specificity in Art
  - TCXG 391 Reconstructing Self in Art
  - TCXG 392 Labor, Globalization and Art
  - TCXG 401 Eco-Art: Art in Response to Environmental Crisis
  - TCXG 402 Eco-Art: Art in Response to Environmental Crisis
  - TCXG 403 Body Image and Art
  - TCXG 404 Art in a Time of War
  - TCXG 405 Cultural Identity and Art
  - TCXG 407 Editing a Literary Arts Magazine
  - TCXG 408 Writing Creative Non-Fiction

**Literature and Language (List G)**
- TCXG 373   Introduction to Writing
  - TCXG 381 Introduction to Creative Writing: Fiction
  - TCXG 382  2-D Design and Contemporary Approaches to Art
  - TCXG 386   Contemporary Art and Studio Drawing
  - TCXG 389 Art from the Impressionists to the Surrealists
  - TCXG 390 Site Specificity in Art
  - TCXG 391 Reconstructing Self in Art
  - TCXG 392 Labor, Globalization and Art
  - TCXG 401 Eco-Art: Art in Response to Environmental Crisis
  - TCXG 402 Eco-Art: Art in Response to Environmental Crisis
  - TCXG 403 Body Image and Art
  - TCXG 404 Art in a Time of War
  - TCXG 405 Cultural Identity and Art
  - TCXG 407 Editing a Literary Arts Magazine
  - TCXG 408 Writing Creative Non-Fiction
  - TCXG 471 Culture and Meaning in the Visual Arts
  - TCXG 472 Art and Culture in India
  - TCXG 473 Art and Culture in China
  - TCXG 474 Art and Culture in Japan
  - TCXG 475 Art and Culture in the Pacific
  - TCXG 476 Patronage, Religion and Propaganda in European Art (1590-1750)
  - TCXG 477 Revolution, Industrialization and Modernity in European Art (1780-1900)
  - TCXG 478   Modern European Art
  - TCXUS 376 American Architecture
  - TCXUS 383 Early American Music, Art, Literature and Theater
  - TIBCG 449 Museum Studies
  - TIBCUS 430 Introduction to Public History

**Film and Media (List F)**
- TCOM 201 Media and Society
- TCOM 257 Ethical Issues in Mass Communications
- TCOM 258 Children and Television
- TCOM 353 Critical Approaches to Mass Communications
- TCOM 354 Communication History

Communication

Communication media, which include radio, television, newspapers, magazines, film, advertising, and the Internet, pervade every aspect of our society. The media wield considerable power in mobilizing public opinion, in cutting across the boundaries between private and public interests, and play a strong role in national and cultural development. Students taking the Communication concentration will learn about the social, cultural, economic, political, and historical contexts within which the media operate. Through an interdisciplinary and multicultural curriculum, they will gain theoretical knowledge and practical skills in the mass media. This concentration is recommended for students pursuing a broad range of careers including: print and broadcast writing, reporting and editing, public relations or media research or those who intend to pursue graduate studies.

Students have the option of pursuing a Research or Professional Track. The research track prepares students for further graduate studies or for careers in media research. In addition, the wealth of theoretical courses in this track is an asset to any student interested in communication theory or practice.

The Print and Broadcast options of the Professional Track take an integrated approach to the study of media criticism and the Professional Track core is an asset to any student interested in communication theory or practice. This concentration is recommended for students pursuing a broad range of careers including: print and broadcast writing, reporting and editing, public relations or media research or those who intend to pursue graduate studies.

The wealth of theoretical courses in this track is an asset to any student interested in communication theory or practice.

For more information on these tracks and options, please see the IAS Web site.

Concentration graduation requirements

Requires 60 credits total including 50 credits of upper-division coursework in concentration.

Professional Track

5 credits Communication Foundation:

One of the following theory and methods courses:

- TCOM 353 Critical Approaches to Mass Communication
- TCOM 444 Gender, Ethnicity, Class and the Media

Communication Core (List A): 20 credits with a minimum of 10 credits of 300- and 400-level courses required

- TCOM 201 Media and Society
- TCOM 257 Ethical Issues in Mass Communication
- TCOM 258 Children and Television
- TCOM 353 Critical Approaches to Mass Communication
- TCOM 354 Communication History
- TCOM 388 Russian Media Studies
- TCOM 430 Global Networks, Local Identities
- TCOM 444 Gender, Ethnicity, Class, and the Media
- TCOM 454 Communications Law
- TCOM 460 Communication and National Development
- TCOM 461 Media and Identity in Asia
- TCOM 470 Documentary Production and Critique
- TCOM 480 Political Economy of the Media
- TCOM 481 Communication Regulations & Policy
- TCSIG 348 Film and Human Values
- TCSIN 441 Mexican Cinema and Society
- TCXG 483 Film Directors
- TCXIN 272 Film Studies
- TCXIN 376 Hispanic Film
- TCXIN 386 Silent Cinema
- TCXIN 420 Contemporary World Cinema
- TCXIN 474 Russian History and Film

TCXIN 481 Film Theory and Aesthetics
- TCOM 484 French Cinema
- TCOM 486 Feminist Perspectives in Film and Literature
- TCOM 485 Media Genres
- TGH 302 Global Imaginations
- TIBCIN 450 Contemporary Theories of Culture: Advertising
- TIBCIN 457 Film and Politics
- TIBCUS 451 Cultural Studies: Post 9/11

Professional Track Courses (List B): 20 credits

- TBGEN 316 Persuasive Communication
- TBUS 310 Effective Managerial Communications
- TCOM 347 Television Criticism and Application
- TCOM 348 Nonfiction Writing for Television
- TCOM 349 News Writing
- TCOM 351 Video Production
- TCOM 387 Writing for Public Relations
- TCOM 470 Documentary Production and Critique
- TCOM 482 Investigative Reporting
- TCOM 486 Feature Writing for Print Media
- TCXG 341 Writing Popular Fiction
- TCXG 482 Editing a Literary Arts Magazine
- TCXG 484 Writing Creative Non-Fiction

Project (Internship): 5 Credits

Natural World: 5 credits - Courses with a TESC prefix or an Environmental Science transfer course; see adviser for applicable transfer courses

Research Track

Communication Foundation: 10 credits

One of the following writing courses:

- TWRT 272 Writing Effectively
- TWRT 374 Advanced Disciplinary Writing: Humanities, Natural Sciences and Social Sciences
- TBGEN 311 A Writer’s Workshop

One of the following theory and methods courses:

- TCOM 333 Critical Approaches to Mass Communication
- TCOM 444 Gender, Ethnicity, Class and the Media

Communication Core (List A): 25 credits (minimum of 15 credits of 300- and 400-level courses required)

- TCOM 201 Media and Society
- TCOM 257 Ethical Issues in Mass Communication
■ Research Track Courses (List B): 10 credits to be chosen in conjunction with faculty adviser

TCXUS 381  Cross-Cultural Studies in Contemporary Women's Literature
TCXUS 385  African American Literature from Slavery to the Present
TCXUS 478  Literature of the Harlem Renaissance
TCXUS 479  Contemporary Native American Women's Literature
TCXUS 480  American Indian Literature
TCXUS 481  Western American Literature
T GH 301  Global Interactions
TIBCG 361  Ethics in Society
TIBCG 437  Technology and the Modern World
TIBCG 456  Environmental Ethics
TIBCG 453  Health, Illness and Culture
TIBCG 454  Seminar on Health and Culture
TIBCN 354  History of the Concept of Culture
TIBCN 355  The Mind of Modernity
TIBCN 360  History of Philosophy: Modern and Contemporary
TIBCN 450  Contemporary Theories of Culture: Postcolonial Studies
TIBCN 451  Renaissance Europe
TIBCN 456  Postcolonial Studies: African Perspectives
TIBCN 462  African Folklore and Literature
TIBCN 463  God: East and West
TIBCN 466  Modernity and Its Critics
TIBCN 490  Society and Culture in Cuba
TIBCUS 355  American Modes of Thought and Experience
TIBCUS 365  North American Indian Traditions
TIBCUS 451  Cultural Studies
TIBCUS 459  African American Culture and Consciousness
TIBCUS 464  Native American Cultural Areas
TIBCUS 466  Life and Thought: Martin Luther King, Malcolm X and Angela Davis
TPSYCH 320  Race, Class and Gender
TPSYCH 321  Adolescent Psychology
TPSYCH 401  Family Violence
TPSYCH 403  Psychology of Black Women
TPSYCH 404  The Psychology of Food and Culture
TPSYCH 405  Body Image and the Psychology of Appearance
TPSYCH 410  Existential Psychology
TPSYCH 415  Issues in Social Psychology: Hip Hop Culture
TPSYCH 411  Psychology & the Arts
TSMG 312  Economics in Modern Society
TSMG 313  Theories of Economic Development and Social Change

TSMIN 420  Theories of Political Violence
TSMIN 418  Interpreting Enigmatic India
TSMIN 425  Contemporary Issues in International Political Economy
TSMUS 410  Early American Politics, Constitution and Law
TSMUS 413  Civil Rights, Civil Liberties

■ Project or Thesis: 5 Credits

■ 5 credits Natural World: Courses with a TESC prefix or an Environmental Science transfer course; see adviser for applicable transfer courses

See the Communication Web site for the most current concentration options at www.tacoma.washington.edu/ias/academics/ba/communication_professional.cfm or www.tacoma.washington.edu/ias/academics/ba/communication_research.cfm.

Environmental Studies

For information on the Bachelor of Science degree in Environmental Science, please see page 62.

The Bachelor of Arts in Interdisciplinary Arts and Sciences with a concentration in Environmental Studies offers students an interdisciplinary perspective on environmental problems. While receiving a strong background in environmental science, students will be exposed to a board range of Interdisciplinary course work that examines the legal, economic, social, literary, historical, and philosophical perspectives on both local and global environmental sustainability issues. This major will prepare students interested in pursuing diverse and contemporary careers such as environmental law, policy, management, planning, journalism, and teaching in the public, private, academic, and nonprofit sectors. A major component of the Environmental Studies major is a capstone experience that emphasizes service to the community while exposing the student to potential future employers and positions.

Preparatory courses

25-28 credits depending on where credits were earned. These can be taken at UW Tacoma or transferred from another school. UW Tacoma courses that fulfill this preparatory coursework are listed below.

■ One quarter ecology-focused biology with lab; minimum 1.5 grade (TESC 120)
■ One quarter chemistry with lab; minimum 1.7 grade (TESC 141)
■ One quarter of geosciences with lab; minimum 2.0 grade (TESC 117 or 241)
■ One quarter of statistics; minimum 2.0 grade (TQS 110)
■ One quarter of pre-calculus; minimum 2.0 grade (TQS 120)

Additionally, students must be computer literate, which is defined as the ability to use word processing, spreadsheet, presentation and communication software. Workshops are available for students with deficiencies in any of these areas.

Prep course must have been completed within the last five years. If they were completed before that time frame, please consult an IAS Adviser. See faculty, adviser, or Web site for specific transfer courses that are acceptable.

**Concentration graduation requirements**
Requires 70 credits for concentration + 25 credits for preparatory courses = 95 credits

■ 16 credits minimum: Environmental Science Core (all four courses required)
  TESC 310 Environmental Research Seminar – to be taken in the first Autumn of enrollment in the junior year (3)
  TESC 332 Issues in Biological Conservation (5/6)
  TESC 345 Pollution and Public Policy (5/6)
  TESC 410 Environmental Science Senior Seminar – to be taken in the last Spring of enrollment after or concurrent with Capstone experience (3)

■ 5 credits: Environmental Writing Core (choose one from the following list)
  TWRT 272 Intermediate Academic Writing (5)
  TWRT 374 Advanced Disciplinary Writing: Humanities, Natural Sciences & Social Sciences (5)
  TWRT 465 Studies in Writing: Writing for Social Change (5)

■ 3 credits minimum: Capstone Experience (TESC 497 Senior Thesis, TESC 498 Internship, TESC 499 UG Research, or the complete GIS or REN certificate program. Planned with faculty adviser; may span more than one quarter.)

■ 16 credits minimum: Environmental Science Electives
  [TESC courses (200-level and above), at least one of which must be a laboratory course (6 credits) or a field course (7 or more credits). Some courses are not offered as labs every time (5/6 credit courses); check the Registration Guide for credits. Other 200-level or above TESC courses are applicable here, but are not included in this list because they require additional lower-division prerequisite courses. If an Environmental Studies student meets the prerequisites for these other TESC courses, they can count here. Courses are 5 credits unless otherwise noted.]
  TESC 215 Meteorology (5/6)
  TESC 227 Earth History
  TESC 236 Plants and People: the Science of Agriculture
  TESC 239 Energy and the Environment
  TESC 240 Human Biology and Environmental Interactions (5/6)
  TESC 241 Oceanography (5/6)
  TESC 243 Geography of the Physical Environment
  TESC 247 Maritime History and Science in the Pacific Northwest
  TESC 302 Ecology of Mt. St. Helens (7)
  TESC 304 Tropical Ecology and Sustainability
  TESC 317 Geology, Landscape, and Culture (12)
  TESC 318 Biogeography (5/6)
  TESC 319 Water Quality Concepts and Watershed Studies (6)
  TESC 321 Soils and Environmental Applications
  TESC 337 Environmental Geology (6)
  TESC 343 The Atmosphere and Air Pollution (6)
  TESC 349 Research at Sea (10)
  TESC 362 Introduction to Restoration Ecology (7)
  TESC 402 History and Ecology of Biological Invasions
  TESC 404 Costa Rica Field Studies: Ecology and Community (10)

  TESC 446 Field Mycology (7)

■ 5 credits: Environmental Foundations (choose one from the following list)
  TCXUS 477 Nature and Environment in American Literature
  TIBCG 363 Philosophical Perspectives on the Environment
  TIBCG 456 Environmental Ethics

■ 5 credits: Communication of Science and Environmental Issues (choose one from the following list, in addition to Environmental Writing Core)
  TWRT 374 Advanced Disciplinary Writing: Humanities, Natural Sciences & Social Sciences (5)
  TWRT 465 Studies in Writing: Writing for Social Change
  T BUS 310 Effective Managerial Communications

■ 5 credits: Environmental Policy, Politics and Law (choose one from the following list)
  TCSIUS 438 Environmental Law
  TEST 333 Environmental Policy Application and Compliance
  TPOLS 202 Intro to American Politics
  TPOLS 203 Introduction to International Relations
  TURB 415 Urban Government and Organizations

■ 5 credits: Economics and Economic Policy (choose one from the following list)
  TECON 100 Principles of Economics
  T FIN 220 Introduction to Microeconomic Theory (or TECON 200)
  TSMUS 225 Economics as a Way of Thinking
  TSMUS 421 Environmental Policy

■ 10 credits: Urbanization and Social Issues (choose from the following list)
  TCSIUS 443 Ethnicity and the Urban Organization in the 21st Century
  TCSIUS 438 History of Urbanization and the Environment
  TCSIUS 335 Social Class and Inequality
  TCSIUS 443 Ethnicity and the Urban Landscape
  TCSIUS 438 History of Urbanization and the Environment
  TCSIUS 335 Social Class and Inequality
  TCSIUS 443 Ethnicity and the Urban Landscape
  TCSIUS 438 History of Urbanization and the Environment
  TSMUS 225 Economics as a Way of Thinking
  TSMUS 421 Environmental Policy

■ 10 credits: Environmental History: Water
  TEST 332 A Natural History of Garbage
  TEST 380/TURB 380 Study Abroad: Comparative International Perspectives on Cities and the Environment (15 cr)
  TTHLTH 410/TURB 410 Environmental
Ethnic, Gender and Labor Studies

Class, ethnicity and gender are among the key categories of socially structured identities. This concentration examines these and similarly formed categories, such as nationality, religion and citizenship in relation to the ways communities form and are transformed. What are the sources of wealth and poverty, of racial and ethnic conflict, of gender differences? This concentration examines such questions, explores the historical roots of various communities, and analyzes movements for social change and group empowerment. Students may pursue careers in a range of public and private service organizations, the corporate world, unions and community organizations. This concentration provides preparation for graduate study in law, social work, education, public administration and urban policy, history, sociology, political science and anthropology.

**Concentration graduation requirements**

Requires 60 credits total. Of the credits below, at least 5 credits from Visual, Literary and Performing Arts (designated with a "V"

- 10 credits Ethnicity, Gender and Labor in the U.S. or globally (List A):
  - TCSIU 342 Race and Ethnicity in the United States
  - TCSIU 343 Women, Race and Class
  - TCSIU 456 Community and Labor
  - TSMG 420 Women in the Global Economy
  - TSMN 437 Conflict Resolution Practicum

- 10 credits Gender (List C):
  - TCXIN 434 Women's Voices: Third World Women
  - TCSIU 345 History of Women in the United States
  - TCSIU 434 Women, Race and Class
  - TCXIN 462 Women in Latin America
  - TCXIN 486 Feminist Perspectives in Film and Literature

- 10 credits Race/Ethnicity (List D):
  - TCXIN 310 The African Diaspora through Music: The Rhythm, the Blues, and Beyond
  - TCXIN 486 Feminist Perspectives in Film and Literature

- 15 credits General (List E): 5 credits must be General (course prefixes ending with “IN”) or International (course prefixes ending with “IN”):
  - TCOM 444 Gender, Ethnicity, Class and the Media
  - TCSIUS 354 American Labor Since the Civil War
  - TCSIUS 335 Social Class and Inequality
  - TCSIUS 334 Women and Work in the United States
  - TCSIUS 434 Women, Race and Class
  - TCSIUS 456 Community and Labor
  - TSMG 420 Women in the Global Economy
  - TSMN 229 The Making of Modern Africa
  - TSMN 328 Third World Problems
  - TSMN 414 Modern China
  - TSMG 420 Women in the Global Economy
  - TURB 301 The Urban Condition

See the Environmental Studies Web site for the most current concentration options at www.tacoma.washington.edu/ias/academics/ba/environmental_studies.cfm.
General Studies

The requirements for completing a General Studies concentration are flexible enough to allow students to chart their own courses through the program and focus on areas that are most pertinent to their needs and interests. Students are encouraged to develop their own areas of focus through the selection of coursework in collaboration with a faculty adviser. This concentration allows students to maximize the potential of interdisciplinary studies, gaining the skills they need to function successfully in a rapidly changing society and world. General Studies students pursue careers in a wide range of areas, including government, business, nonprofit management, journalism, education, and law. Many students planning to earn a post-baccalaureate certificate in elementary education choose this concentration because its flexibility allows them to gain a broad base of knowledge essential to successful elementary teaching. Depending on the focus they choose, General Studies students may pursue graduate studies in a range of disciplines.

Concentration graduation requirements

Requires 60 credits total including 30 credits upper-division (300-400) in core and 45 credits of IAS upper-division total.

15 credits Core Courses:
- TSMUS 200 American History I: 1607-1877
- TSMUS 201 American History II: 1877-present

And one of:
- TSMIN 200 International Interactions
- TGH 301 Global Interactions

Of the courses listed below:
- 30 credits must be upper division, 300-400 level
- And four courses must be taken from the following Areas of Knowledge:
  - 10 credits: Visual, Literary and Performing Arts (VLPA)
  - 10 credits: Individuals and Society (I&S)

(Areas of knowledge are noted in the Registration Guide and the Catalog)

15 credits United States or General courses:
- T**US, T**G, TCHIN, TCOM, TECON, TPOL, TSPAN or TPSYCH prefixes

20 credits International or General courses:
- T**IN, T**G, TCHIN, TCOM, TPOL, TSPAN or TPSYCH prefixes

10 credits Environmental Courses:
- These may be any courses with the TESC, TEST or TQS prefix. In addition, a select list of other possible options is available. The list includes, but may not be limited to, the following:
  - TCSIUS 438 Urbanization and the Environment
  - TCSIIN 438 Environmental Law
  - TCSXUS 477 Nature and the Environment in American Literature
  - THLTH 410 Environmental Equity
  - TIBCG 437 Technology in the Modern World

Global Studies

Students in the Global Studies concentration examine a variety of subjects and themes in an international context, including historical, cultural, artistic, political and economic patterns among and within nations. Students may choose to focus their studies on one or more world regions or specific themes. Students of Global Studies pursue careers in government, business, nonprofit management, the media, education and international law. Depending on the focus students choose, they may pursue graduate studies in area studies or related disciplines.

Concentration graduation requirements

Requires 50 credits minimum total—depending on foreign language competency with 30 credits of upper division in concentration and 45 credits of IAS upper division overall for the degree.

5 credits International or Global Interactions Core:
- TSMIN 300 International Interactions
- TGH 301 Global Interactions

Of the credits below, at least 5 credits from two interdisciplinary areas:
- Visual, Literary and Performing Arts (VLPA) and Individual and Society (I&S).

These categories are found in the Registration Guide and the UWT Catalog.

Foreign Language (to demonstrate
Students also pursue graduate study leading to careers in teaching, administration, social work and the law.

**Concentration graduation requirements**

The Individually-Designed Concentration consists of 55 credits with 45 credits of upper-division IAS courses needed. At least five credits of Senior Thesis must be included. Of the 55 credits total, at least 5 credits must be taken from each of the following interdisciplinary areas:

- VLPA (Visual, Literary & Performing Arts) courses
- Individuals & Society courses
- Natural World courses (TESC prefix)
- International: 30 credits to be included. Of the 55 credits total, at least 5 credits must be taken from each of the following interdisciplinary areas:
- VLPA (Visual, Literary & Performing Arts) courses
- Individuals & Society courses
- Natural World courses (TESC prefix)
- Individuals & Society courses
- Natural World courses (TESC prefix)

In order to design their concentrations, students must do the following:

1. Identify the unifying interdisciplinary theme of the plan of study.
2. Make a list of the courses taken or planned. This list should comprise 55 credits, all of which are related to the area of concentration.
3. Draft a statement that describes the proposed concentration and discusses the interrelationships among the courses chosen. Propose a brief, descriptive title for the concentration.
4. Submit the proposal to the Individually-Designed Concentration Committee for its approval at least three quarters prior to graduation.
5. Identify at least two faculty sponsors for the concentration. The faculty sponsors attest to the intellectual soundness of the proposal and agree to provide whatever guidance they and the student may jointly decide is needed. They may also suggest changes in the previously approved written proposal or list of courses.
6. Obtain final approval from an Individually-Designed Concentration adviser.

See the Individually-Designed concentration Web site for the most current concentration options at www.tacoma.washington.edu/ias/academics/ba/individually_designed.cfm.

**Individually-Designed Concentration**

This concentration is an individually-designed option for students who wish to create a program of study by combining selected courses from a range of possibilities within IAS and, potentially, from other undergraduate programs at UW Tacoma. Students are required to identify a central organizing theme for their concentration and design it under the guidance and supervision of an IAS faculty member and an IAS adviser. Graduates in this concentration pursue careers in a wide variety of areas such as business, government, the nonprofit world, health care and education where skills in research and critical thinking, as well as written and oral communication are prized.

**Political Economy**

The Political Economy concentration provides a solid foundation for understanding how economics and politics shape everyday lives and how we may shape them. Particular emphasis is placed on analytical and critical thinking skills. The concentration exposes students to how and why markets, businesses and government work, and how institutions, politics, technologies and social structures interact with the functioning of markets. Students also analyze economic problems in the United States and overseas and identify policies addressing these problems.

**Concentration graduation requirements**

Requires 65 credits total

- List A (10 credits): Foundational Analysis
  - TECON 200 or TFIN 200 Microeconomics
  - TECON 201 or TFIN 201 Macroeconomics

TECON courses are in the IAS Class Schedule; TFIN courses are in the Business Class Schedule. Minimum grade in both courses is a 2.0. You can also satisfy the microeconomics and macroeconomics requirement by taking these courses at another college.

- List B (5 credits): Quantitative Skills
  - TBUS 301 Quantitative Methods
  - TCSIG 330 Inquiry and Research in the Social Sciences
  - THLTH 305 Statistics: Learning from Data
  - TQS 110 Introductory Statistics with Applications
  - TQS 210 Intermediate Statistics
  - TQS 211 Calculus
  - TSOCW 351 Applied Statistics

Note: You can also satisfy the List B requirement by taking one of these classes at another college.

- List C (25 credits): Institutions and Context
  - TBCUS 260 American Political Theory
  - TPOL 202 Introduction to American Politics
  - TPOL 203 Introduction to International Relations
  - TPSG 400 American Presidency
  - TSMG 313 Theories of Economic Development
  - TSMIN 200 International Interactions
  - TSMIN 310 Modern European Political Theory
  - TSMIN 425 Contemporary Issues in International Political Economy
  - TSMUS 201 American History I: 1607-1877
  - TSMUS 202 American History II: 1877-present
  - TSMUS 300 Making of America
  - TSMUS 320 American Constitutional Law
  - TSMUS 410 Early American Politics and Law
  - TSMUS 416 Current Topics in US Public Policy
  - TSMUS 467 United States History: 1945 to Present

- List D (20 credits): Social Science Breadth
  - Any List C class not used to satisfy that requirement
requirements
Requires 65 credits total.
Some of the courses below are in more than one list; however, a course can only be used to satisfy one requirement.

■ 10 credits Foundations (List A):
  TPOLS 201 Introduction to Political Values and Ideas
  TPOLS 202 Introduction to American Politics
  TPOLS 203 Introduction to International Relations

■ 10 credits Context (List B):
  TECON 201 Microeconomics (also TFIN 220 in the Business schedule)
  TECON 202 Macroeconomics (also TFIN 221 in the Business schedule)
  TSMG 313 Theories of Economic Development and Social Change
  TSMIN 200 International Interactions
  TSMUS 200 American History I: 1607-1877
  TSMUS 201 American History II: 1877-present
  TSMUS 205 Economics as a Way of Thinking
  TSMUS 300 The Making of America

■ 20 credits Politics (List C), at least 10 credits at the 400-level
  TCOM 454 Communications Law
  TCOM 480 Political Economy of the Media
  TCOM 481 Communication Regulations and Policy
  TCSIG 451 The Enlightenment
  TCSIG 445 The Metropolis
  TCSIG 452 Political Theory of Human Rights
  TCSIUS 435 Popular Movements in Latin America
  TCSIUS 335 Social Class and Inequality
  TURB 330 City Worlds
  TURB 401 Urban Change and Development

■ 10 credits Values (List D):
  TCSIG 451 The Enlightenment
  TCSIG 452 Political Theory of Human Rights
  TIBCG 353 The End of the Modern World (1600-2000)
  TIBCG 361 Ethics in Society
  TIBCG 363 Philosophical Perspectives on the Environment
  TIBCG 456 Environmental Ethics
  TIBCUS 367 The Mind of Modernity
  TIBCUS 358 History of Philosophy: Medieval and Modern
  TIBCUS 360 History of Philosophy: Modern and Contemporary
  TIBCUS 366 Islam
  TIBCUS 367 East Asian Religions: Zen and Taoism
  TIBCUS 366 Religion and Church in Latin America
  TIBCUS 360 American Political Theory
  TSMIN 310 Modern European Political Thought
  TSMIN 320 Theories of Political Violence
  TSMIN 425 Contemporary Issues in International Political Economy

■ 10 credits Social Change (List E):
  TCSIGN 435 Popular Movements in Latin America
  TCSIUS 221 African American History: 1865-1945
  TCSIUS 252 African American History: 1945-present
  TCSIUS 347 History of Women in the US

Politics and Values
The study of political and social change provides a basic foundation for the active citizen in the 21st century. Drawing on the disciplines of political science, philosophy, sociology, history, economics, cultural studies and policy studies, this concentration examines political processes by emphasizing the role of values and social movements. This concentration prepares graduates to pursue careers or further study in government, law, planning, nonprofit and community work, international non-governmental organizations, social activism, journalism, business, teaching and other fields of endeavor.

Concentration graduation
5 credits Visual, Literary and Performing Arts (VLPA) – Check course descriptions for “V” notation
5 credits Natural World: Courses with a TESC prefix or an Environmental Science transfer course; see adviser for applicable transfer courses.

See the Political Economy Web site for the most current concentration options at www.tacoma.washington.edu/ias/academics/ba/political_economy.cfm.
Psychology

Psychology is the scientific study of the psychological, biological and contextual determinants of human behavior. The Psychology curriculum builds on the foundation of the basic understanding of the discipline and integrates advanced instruction in the core concepts and methodologies of the traditional psychology education with applied courses that emphasize the importance of intersections of psychology with different disciplinary approaches to understanding and working with social problems. This concentration places human behavior as well as the study of psychology itself into its social and historical contexts and emphasizes the importance of and respect for human diversity.

Prerequisites

The following lower-division prerequisites (100- or 200-level) are necessary before declaring the Psychology concentration. A minimum grade of 2.0 is required for each prerequisite course.

- One Introduction to Statistics course
- One General or Introduction to Psychology course
- Two psychology foundation courses in any of the following areas:
  1. Personality Theories (200-level only at another school)
  2. Developmental Psychology (Lifespan or Child Development)
  3. Abnormal Psychology
  4. Social Psychology
  5. Child and Adolescent Abnormal Psychology

Concentration graduation requirements

Requires 60 credits total, excluding prerequisites.

- 5 credits Research Methods
  TCSIG 330 Inquiry and Research in the Social Sciences
- 15 credits Core Courses with at least one each from Clinical Core and Developmental Core
  Clinical Core Courses
  TPSYCH 311 Personality Theories
  TPSYCH 340 Mental Illness Across Cultures
  Developmental Core Courses
  TPSYCH 320 Race/Class/Gender Contexts of Child Development
  TPSYCH 321 Adolescent Psychology
  TPSYCH 322 Adult Development
- General Psychology Core Courses
  TPSYCH 300 History & Systems of Psychology
  TPSYCH 301 Psychology of Adjustment
- 15 credits Advanced Topics Courses
  TPSYCH 400 Psychology of Women
  TPSYCH 401 Family Violence
  TPSYCH 402 Human Sexuality
  TPSYCH 403 Psychology of Black Women
  TPSYCH 404 Psychology of Food and Culture
  TPSYCH 405 Body Image and the Psychology of Appearance
  TPSYCH 406 Chemical Dependency
  TPSYCH 407 Cultural Context of Child Development
  TPSYCH 410 Existential Psychology
  TPSYCH 411 Psychology and the Arts
  TPSYCH 412 Women & Health: Power & Inequality
  TPSYCH 414 Psychology of Contemporary African American Culture
  TPSYCH 415 Issues in Social Psychology: Hip Hop Culture
  TPSYCH 416 Freud and His Critics
  TPSYCH 420 Attachment & Interpersonal Relations
- 20 credits upper-division courses (other than Psychology):
  5 credits – Visual, Literary and Performing Arts – VLPA (V)
  5 credits – Individuals and Society – I&S (I) – (TPSYCH not allowed)
  10 additional credits from VLPA/I&S/NW (no restrictions on NW for these 10)

See course descriptions for designations V, I, N.

- 5 credits Natural World – Environmental Science (upper- or lower-division TESC prefix or Environmental Science transfer; see adviser)

Psychology students can take a maximum of eight upper-division (40 credits) TPSYCH courses in their core and electives.

See the Psychology Web site for the most current concentration options at www.tacoma.washington.edu/ias/academics/ba/psychology.cfm.

Self and Society

This concentration combines psychology, sociology, philosophy, literature and the arts in addressing the various ways that people experience their roles in society and how society shapes the individual. In examining social values and exploring such issues as diversity, personal growth and social responsibility, students develop the ability to unravel the complexity of social reality and appreciate the interdependence of all its components. Self and Society prepares students to pursue careers and advanced studies in human services, psychology, social work, counseling, community service, human resource management and health fields.

Concentration graduation requirements

Students must complete a total of 55 credits with 20 upper-division credits including 5 credits in each list below and 45 credits of upper-division IAS credits overall. No more than 15 credits of upper-division psychology courses may be counted.

- 10 credits List A: Religious and Philosophical Perspectives
  TCOM 457 Ethical Issues in Mass Communication
  TCSIG 348 Film and Human Values
  TCSIG 451 The Enlightenment
  TCSIN 235 Religion in the Modern World
  TIBCIN 353 End of the Modern World
  TIBCIN 361 Ethics in Society
  TIBCIN 362 The Beautiful and the Good: Philosophy’s Quest for Value
  TIBCIN 363 Philosophical Perspectives on the Environment
  TIBCIN 455 Medicine and Morality: Issues in Biomedical Ethics
  TIBCIN 456 Environmental Ethics
  TIBCIN 354 History of the Concept of Culture
  TIBCCIN 355 The Mind of Modernity
  TIBCCIN 357 The Greek Mind and Imagination
  TIBCCIN 358 History of Philosophy: Medieval and Modern
  TIBCCIN 360 History of Philosophy: Modern and Contemporary
  TIBCCIN 366 Islam
  TIBCCIN 367 East Asian Religions: Zen and Taoism
  TIBCCIN 450 Contemporary Theories of Culture
  TIBCCIN 451 Renaissance Europe
  TIBCCIN 461 Religion and Church in Latin America
  TIBCCIN 463 God: East and West
  TIBCCIN 466 Modernity and Its Critics
  TIBCUS 355 American Modes of Thought and Expression

experience allows students to get practical experience in individual or team research or internship positions.

### Admission Requirements

The Environmental Science Program considers applications for admission from students with more than 40 college-level credits. Students with less than 40 credits apply to UW Tacoma as freshmen.

All transfer applicants are expected to meet the minimum standards for freshman admission, have a 2.0 GPA and complete English composition and intermediate algebra before applying. As a B.S. degree, Environmental Science has preparatory courses that should be taken during the freshman and sophomore years. For students who would like to transfer this coursework to UW Tacoma, or for UW Tacoma freshmen who would like to prepare for entrance into Environmental Science, the list below is a guideline to help select appropriate courses.

### Preparatory courses

These can be taken at UW Tacoma or transferred from another school. UW Tacoma courses that fulfill this preparatory coursework are listed in parentheses.

- Completion of General University Requirements (see page 23)
- 15 credits of college biology (majors sequence with lab) (TESC 120, 130, 140)
- 15 credits of college chemistry (majors sequence with lab) (TESC 141, 151, 161)
- 5 credits of physical geology with lab (TESC 117)
- 5 credits of college physics (mechanics with lab) (TESC 315)
- 5 credits of calculus overview course (TQS 211)
- 5 credits of statistics (TQS 110)
- Computer literacy*
- Minimum of 40 college-level transferable credits

A minimum grade of 2.0 is required for each course. Preparatory courses must have been completed within the last five years. If they were completed earlier, please consult an IAS adviser.

### Graduation Requirements

To be eligible for graduation with a bachelor of science in environmental science, students must meet the UW Tacoma scholastic standards (2.0 UW GPA), credits required (minimum 180), and the final-year residency requirement and complete the following program requirements:

- Complete a minimum of 45 credits of upper-division IAS coursework.
- Completion of all general education requirements not met with transfer courses. See adviser for details.
- Complete the B.S. degree preparatory courses and requirements (above). Minors and certificates are optional. No more than 15 elective credits can be taken for a Satisfactory/Not Satisfactory grade; see adviser for details.
- Compile a portfolio of work completed during the course of the student’s residence at UW Tacoma and submit it for review during the second week of the student’s last quarter of enrollment.
- Meet with a program adviser to complete a graduation application no later than the second week of the quarter in which the student plans to graduate.

- 6 credits: two required “bookend” courses
  - TESC 310 Environmental Research Seminar – to be taken in the first Autumn of enrollment – sophomore or junior year (3)
  - TESC 410 Environmental Science Senior Seminar- to be taken in the last Spring of enrollment after or concurrent with Capstone experience (3)

- 3-10 credits: Capstone experience (internship, research, etc.) Planned with faculty adviser; may span more than one quarter.

- 12 credits: Environmental science core courses:
  - TESC 333 Environmental Chemistry (6)
  - TESC 340 Ecology and Its Applications (6)

- 29 credits minimum- five additional TESC courses to include at least one biological science (B) course and one physical science (P) course. Of these remaining five courses, at least two must be laboratory (L) courses (6 credits) and one must be a field (F) course (7 credits). Some courses designated as labs on this list are not offered as labs every time; check the Time Schedule for credits.

Note: If a course below is taken to fulfill prerequisite courses, it is an elective. TESC 100, 107, and TESC 213 are electives for the B.S. degree.

- TESC 227 Earth History (P)
- TESC 232 Issues in Biological Conservation (B)
- TESC 236 Plants and People: The Science of Agriculture (B)
- TESC 237 Environmental Geology (P/L)
- TESC 238 Human Interactions with Marine Invertebrates (B)
- TESC 239 Energy and the Environment (P)

Course Descriptions

See the Interdisciplinary Arts and Sciences Web page for the most current course information at www.tacoma.washington.edu/ias.

Chinese

TCHIN 101
First-Year Chinese
5 credits
Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese.

TCHIN 102
First-Year Chinese
5 credits / Prerequisite: minimum grade of 2.0 in TCHIN 101
Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese.

TCHIN 103
First-Year Chinese
5 credits / Prerequisite: minimum grade of 2.0 in TCHIN 102
Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese.

TCHIN 201
Second-Year Chinese
5 credits / Prerequisite: minimum grade of 2.0 in either TCHIN 103
Continuation of CHIN 103. Advanced grammar and vocabulary expansion stressed. Aural and oral practice and structural drills continued. [V]

TCHIN 202
Second-Year Chinese
5 credits / Prerequisite: minimum grade of 2.0 in TCHIN 201
Advanced grammar and vocabulary expansion stressed. Oral practice and structural drills continued. [V]

TCHIN 203
Second-Year Chinese
5 credits / Prerequisite: minimum grade of 2.0 in TCHIN 202
Advanced grammar and vocabulary expansion stressed. Oral practice and structural drills continued. [V]

Communication

TCOM 201
Media and Society
5 credits
Explores theoretical perspectives and core issues in the relationship between the media and society, including the production and reception of both news and entertainment. Evaluates the historical, cultural, political and economic contexts of media industries, representations, and audiences. [I]

TCOM 257
Ethical Issues in Mass Communication
5 credits
Critically examines the relationship between the mass media and American society. Focuses on the individual journalist as a link between the two. Through a study of ethical theories, and of the social, political, and economic context of the media, evaluates the professional and ethical dilemmas of the journalist. [I/V]

TCOM 258
Children and Television
5 credits
Examines the historical, sociological, and psychological context of children watching television. Brings together scholarship from child psychology, television criticism, and reception studies. [I]

TCOM 275
Writing, Reporting and Editing for the Mass Media
5 credits
Introductory skills course on writing, reporting, editing for print and broadcast media. Helps students develop a concise writing style, passion for thorough, accurate reporting, and a sensitivity to various audiences' needs and interests. Focuses on standard news practices in various news organizations, and on methods to effectively combine visual elements with the written word. Emphasizes strategies for gathering information effectively and for developing skills in interviewing, note-taking, and observation. [I/V]

TCOM 347
Television Criticism and Application
5 credits
Explores narrative structures and production techniques utilized in television in an integrated manner. Analyzes and discusses critical approaches to television texts and techniques, including use of camera angles, lighting design, sound effects, editing. Explores the application of basic production techniques in a hands-on manner. [V]

TCOM 348
Nonfiction Writing for Television
5 credits
Explores non-fiction styles of writing for television, including news writing and documentary writing, with a focus on the development of stories from a proposal to a script. Issues and conflicts that arise with the linking of visual images and spoken words in non-fiction television genres will also be addressed. [V]

TCOM 349
News Writing
5 credits
Covers principles of news writing and reporting, including lead writing, Associated Press style conventions, news judgment, and ethical and legal issues. [V]

TCOM 350
Editing and Design for Print Media
5 credits
Covers elements of print media editing and design including: selection and editing of news copy; headline writing; typography; selection, sizing and cropping of photos; functions of layout; principles of publication design and their practical applications. Students also complete several page design projects as teams. [V]

TCOM 351
Video Production
5 credits
Examination of principles of visual and audio communication, including telling stories using image, movement, spoken words and other sounds in an integrated manner. Discusses critical approaches to television production and utilizes them in a hands-on manner to develop production skills. [V]

TCOM 353
Critical Approaches to Mass Communication
5 credits
Critically examines the role of mass communication in producing and reproducing cultural meaning in contemporary U.S. society. Studies various media, including print, sound and film recording, broadcast, and new media. [I]

TCOM 354
Communication History
5 credits
Considers communication history as a complex matrix of patterns, systems, and technologies that are central to human history. Includes development of different forms of communication and the intertwining of the history of mass communication with the history of other social institutions. [I]
TCOM 387
Writing for Public Relations
5 credits
Explores aspects of public relations writing, including news releases for print and broadcast media, advertising copy, speeches, newsletters, and crisis communication. Emphasizes writing for clarity and interest, simplifying complex issues, and conducting effective media relations. [V]

TCOM 388
Russian Media Studies: From Communism to Democracy
5 credits
Examines the unfolding of this new quasi-democratic media system, starting first with a general history of the Russian media and focusing with a focus on the media under Gorbachev, Yeltsin and Putin. Raises questions concerning if and how a democratic press can operate in contemporary society. [I]

TCOM 430
Global Networks, Local Identities
5 credits
Explores historical and contemporary debates on globalization, cultural imperialism, national identity, and global consumerism. Examines structure and content of such transnational networks as Star TV and CNN, and evaluates the impact of these networks on local identities. [I]

TCOM 444
Gender, Ethnicity, Class and the Media
5 credits
Discusses the media’s powerful sites for the construction and promotion of ideologies of gender, ethnicity, and class. Studies the socio-historical origins of these ideologies, using methods of media analysis to examine their presence in contemporary print and broadcast media. [I]

TCOM 454
Communications Law
5 credits
Examines issues surrounding freedom of expression in the United States and citizens’ and the media’s legal rights in gathering and disseminating news and information. Explores the freedoms afforded by the First Amendment and shows how those protections are still evolving in the twenty-first century. [I]

TCOM 460
Communication and National Development
5 credits
Focuses on controversial origins of development communication and the evolution of this field into grassroots development communication. Examines case studies of grassroots development and entertainment-education in Asia, Latin America, and Africa. Draws connections between remote and local case studies of grassroots development through student-produced video documentaries. [I/V]

TCOM 461
Media and Identity in Asia
5 credits
Explores dynamics of television production and consumption of non-western countries within their postcolonial and neocolonial contexts. Examines case studies from such countries as India, Indonesia, Singapore, China, and Malaysia. Addresses programming hybridity, audience resistance and adaptation, and the impact of transnational media networks on local cultural identities. [I]

TCOM 470
Documentary Production and Critique
5 credits / Prerequisite: TCOM 351
Examines theoretical and ethical issues involved in the production of non-fiction genres while shooting and editing short-form, community-based documentaries. [V]

TCOM 480
Political Economy of the Media
5 credits
Examines the historical evolution and economic structure in which media industries are embedded and develops theoretical and analytical tools for the evaluation of media industries. Survey of patterns of ownership and control, government policies and other issues in media industries, including newspapers, magazines, television, motion pictures, and recorded music. [I]

TCOM 481
Communication Regulation and Policy
5 credits
Examines the theoretical foundation and historical evolution of communication regulation in the United States with the broadcast industries, television and radio, the primary focus. Surveys the current state of regulation in various communication industries in the aftermath of the Telecommunications Act of 1996. [I]

TCOM 482
Investigative Reporting
5 credits
Investigative reporting is demanding, intellectually, emotionally, and physically. Prepares students to undertake quality in-depth journalism. Includes interviewing, researching, and writing lengthy investigative news articles. [I]

TCOM 486
Feature Writing for Print Media
5 credits
Explores the news feature writing, with emphasis on developing story ideas, gathering materials, and writing in clear, compelling fashion. Intended for students who wish to contribute articles to The Ledger, community newspapers, or specialty publications. Also covers writing for the freelance market. [V]

TCOM 462
Media and Identity in Asia
5 credits
Explores dynamics of television production and consumption of non-western countries within their postcolonial and neocolonial contexts. Examines case studies from such countries as India, Indonesia, Singapore, China, and Malaysia. Addresses programming hybridity, audience resistance and adaptation, and the impact of transnational media networks on local cultural identities. [I]

TCOM 470
Documentary Production and Critique
5 credits / Prerequisite: TCOM 351
Examines theoretical and ethical issues involved in the production of non-fiction genres while shooting and editing short-form, community-based documentaries. [V]

TCOM 480
Political Economy of the Media
5 credits
Examines the historical evolution and economic structure in which media industries are embedded and develops theoretical and analytical tools for the evaluation of media industries. Survey of patterns of ownership and control, government policies and other issues in media industries, including newspapers, magazines, television, motion pictures, and recorded music. [I]

TCOM 481
Communication Regulation and Policy
5 credits
Examines the theoretical foundation and historical evolution of communication regulation in the United States with the broadcast industries, television and radio, the primary focus. Surveys the current state of regulation in various communication industries in the aftermath of the Telecommunications Act of 1996. [I]

TCOM 482

TCOM 462
Media and Identity in Asia
5 credits
Explores dynamics of television production and consumption of non-western countries within their postcolonial and neocolonial contexts. Examines case studies from such countries as India, Indonesia, Singapore, China, and Malaysia. Addresses programming hybridity, audience resistance and adaptation, and the impact of transnational media networks on local cultural identities. [I]

TCOM 470
Documentary Production and Critique
5 credits / Prerequisite: TCOM 351
Examines theoretical and ethical issues involved in the production of non-fiction genres while shooting and editing short-form, community-based documentaries. [V]

TCOM 480
Political Economy of the Media
5 credits
Examines the historical evolution and economic structure in which media industries are embedded and develops theoretical and analytical tools for the evaluation of media industries. Survey of patterns of ownership and control, government policies and other issues in media industries, including newspapers, magazines, television, motion pictures, and recorded music. [I]

TCOM 481
Communication Regulation and Policy
5 credits
Examines the theoretical foundation and historical evolution of communication regulation in the United States with the broadcast industries, television and radio, the primary focus. Surveys the current state of regulation in various communication industries in the aftermath of the Telecommunications Act of 1996. [I]

TCOM 482
Investigative Reporting
5 credits
Investigative reporting is demanding, intellectually, emotionally, and physically. Prepares students to undertake quality in-depth journalism. Includes interviewing, researching, and writing lengthy investigative news articles. [I]

TCOM 486
Feature Writing for Print Media
5 credits
Explores the news feature writing, with emphasis on developing story ideas, gathering materials, and writing in clear, compelling fashion. Intended for students who wish to contribute articles to The Ledger, community newspapers, or specialty publications. Also covers writing for the freelance market. [V]
TCSIG 431 Organizational Development
5 credits
Explores theory and research regarding developmental stages in the life of organizations, the role of structure from bureaucracy through modern down-sized, entrepreneurial forms, the relationship of management style and practices to growth in organizations, and the role of the human relations and organizational development practitioner. [I]

TCSIG 436 North American Regions
5 credits
Examines the various regions of North America in comparative fashion. Topics may include the characteristics of the New England, Southern, frontier, Mississippi Valley, Canadian, Pacific Northwestern, and Southwestern regions of North America. [I]

TCSIG 444 The Pacific Northwest
5 credits
Examines the history and society of the Pacific Northwest -- that region encompassing modern Washington, Oregon, Idaho, western Montana, British Columbia, and Alaska. Includes topics such as native peoples, exploration and settlement, natural resources, economic development, government, folk culture, ethnicity, and modern problems. [I]

TCSIG 445 The Metropolis
5 credits (max. 10)
Examines the problems and opportunities associated with the development of the metropolis. Focuses on the 20th century, and the individual city selected changes, depending on quarter. Begins with an examination of such general issues associated with large cities as economic base, transport, social conditions, culture, and government, moves on to consider in detail one city. [I]

TCSIG 451 The Enlightenment
5 credits
Examines the Enlightenment as historical epoch, philosophical attitude, and social and political project. Explores ideas of selected thinkers (e.g., Jefferson, Montesquieu, Rousseau, Kant, Hume, Voltaire) and the reactions they inspire. Highlights themes such as liberalism, human rights, rationalism, republicanism, and neoclassicism. [I]

TCSIG 452 Political Theory of Human Rights
5 credits
Examines understandings and influence of idea of human rights. Considers conflicts and contradictions between human rights claims and national sovereignty, cultural difference, democracy. [I]

TCSIIN 235 Religion in the Modern World
5 credits
Intellectual questions raised by thinkers such as Darwin, Marx, and Freud were complemented by social and political movements to privatize religion, effectively removing it from public life. We will consider both the intellectual and social transformation of religion in the modern Western milieu, and also examine the contrasting situation in less secular non-Western societies. [I]

TCSII 435 Popular Movements in Latin America
5 credits
An examination of popular movements in Latin America. This course will include historical background of modern popular organizations, an analysis of the evolution of the term "popular movement", and discussions of contemporary trade unionism, grass-roots peoples' initiatives, cooperative movements, guerrilla organizations, human rights groups, and feminist movements. [I]

TCSIIN 438 History of Urbanization and the Environment
3 credits
Addresses the environmental impact of ancient, medieval, and modern cities. Includes the evolution of urban infrastructure and relations between city and countryside. [I]

TCSIIN 441 Mexican Cinema and Society
5 credits
Examines development of Mexican cinema in its historical and social context. Covers how films reflect history, society, class, and gender issues. Provides an understanding of Mexican culture, and of film as an art form. No knowledge of Spanish is required. [I][V]

TCSIIN 433 American Cinema
5 credits
Examines the development of American cinema through major historical and social movements from the silent film era to the present. Includes an examination of the role of film in shaping American culture and society. [I]

TCSIUS 220 African American History: 1619-1865
5 credits
Examines the social, political, economic and cultural history of African Americans in the United States from 1619-1865. Covers West African origins, the trans-Atlantic slave trade, slavery in the Americas, African American identities, and Black life in the Antebellum era. [I]

TCSIUS 221 African-American History: 1865-1945
5 credits
Examines construction of the “Jim Crow” system of racial segregation in the United States, from the Supreme Court’s Plessy v. Ferguson decision legalizing segregation in 1896 to the court’s Brown v. Board of Education decision overthrowing it in 1954. Examines African-American history, culture, and resistance to segregation in this period. [I]

TCSIUS 222 African American History: 1945-Present
5 credits
Examines African-American history from 1945 to present. Focuses on African-American culture, racial identity, social consciousness, political thought, oppression and resistance, and the confluence of race, class and gendering in shaping Black culture, politics and society. Examines U.S. history through the lens of African Americans. [I]

TCSIUS 335 Social Class and Inequality
5 credits
Examines the problem of persistent urban poverty in the United States. Explores the differential risk of poverty experienced by racial and ethnic groups and by women and children in the context of the major theories of class stratification. Also discusses the factors that lead to extreme-poverty neighborhoods, how these environments affect the life chances of residents, survival strategies of the poor, and public policy implications. [I]

TCSIUS 340 History of United States-American Indian Relations
5 credits
This course examines the interrelations between Native Americans and European immigrants since 1500. Conflicts and problems in Indian-White relations will be explored in a historical context. Including an analysis of Indian policy and major legislation, a special focus will be given to the consequences generated for contemporary Indian education and religion. [I]

TCSIUS 341 African-American History
5 credits
A course considering some of the major themes and periods in African-American history, as well as the history and present-day manifestations of racial oppression and stereotyping in American life. Sources include history texts, classics of African-American literature, film and music, and intensive classroom discussion. [I]

TCSIUS 345 Women and Work in the United States
5 credits
Study of fundamental changes and continuities in women's work lives in the context of U.S. economic development. Examines multiplicity and diversity of women's work contributions, both paid and unpaid. Highlights both the commonalities among women's work experiences and the differences with regard to life-cycle stage, occupation, and race/ethnicity. [I]
TCSIU 347
History of Women in the United States
5 credits
A survey of the history of women in the United States from the 1600s to the present. This course will explore the social, political, and economic forces that have shaped women's lives, and the diversity of women's experiences rooted in class, race, and ethnicity. In addition, the contributions of women's history to the larger discipline of history will be considered. [I]

TCSIU 431
Community Organizations and the Nonprofit Sector
5 credits
Examines issues specific to the nonprofit sector, including community organizations, service learning, nonprofit management, and community development. Human service agency leaders will be brought in to share their expertise with the class. [I]

TCSIU 434
Women, Race, and Class: Identity and Intergroup Relations
5 credits
Study the ways in which the life experiences of women of color and white women have been marked by racial, ethnic, class, and gender hierarchies. Examines historical and contemporary cases which voice the impact of racism on women's daily lives and relationships, the struggles of anti-racist women, and the development of dialogue and coalitions across race and class lines. [I]

TCSIU 435
The Sociology of Gender
5 credits
Explores biological and social bases of gender differences; ways in which changing social definitions of womanhood and manhood affect self-perceptions, opportunities, and behaviors. Examines social movements and theories which challenge traditional roles of men and women in U.S. society, and those which question the benefits of liberation.

TCSIU 438
Environmental Law
5 credits
Examines the historical and policy framework of major environmental laws and regulations. Takes a case law approach to evaluate laws in biological conservation, energy, land use, mineral rights, air and water quality, and other complex environmental arenas, and how courts (primarily in the United States) have interpreted such laws. [I]

TCSIU 441
Black Freedom Movement in Perspective
5 credits
This course explores the historical roots and present-day manifestations of movements against racial oppression and for empowerment in the African-American community, focusing heavily on the period since the 1950s. Sources include films, music, and popular as well as academic literature. [I]

TCSIU 443
Ethnicity and the Urban Landscape
5 credits
This course focuses on the intersection of ethnicity, architecture, and urbanism in the United States. Using a variety of primary and secondary sources, we will examine the concept of ethnic identity and the creation of a sense of place in urban environments. Students will use local neighborhoods as a starting point for their own investigations of ethnicity and the urban landscape. [I]

TCSIU 445
History of Tacoma
5 credits
Surveys of the history and fabric of Washington state's second largest urban center. Topics will include early settlements, Tacoma as the Pacific terminus of the Northern Pacific Railroad, commercial and social currents in the era of populism, ethnic, and political struggle as recurring forces, the development of regional institutions such as Fort Lewis, the Port of Tacoma, local governments, and locally based corporations. Emphasizes architecture, urban planning and growth, and the physical, built environment of the City of Destiny. [I]

TCSIU 447
AIDS and American Society
5 credits
Examines the impact of the AIDS epidemic on American society, including the lives of persons with AIDS and people who are HIV-positive; the gay community, minority communities, and the American public, more broadly; Americans' concepts of health, illness, and sexuality; and the medical care system and public-health policy. Offered at Olympic College/Bremerton. [I]

TCSIU 450
Black Labor in America
5 credits
Provides an overview and a detailed consideration of the contributions of the black working class to the making of America. Examines historic racist-economic barriers which have held back development of African-American communities, and the continuing causes and possible solutions to the economic crisis affecting black working people today. [I]

TCSIU 451
Essentials of Grant Writing and Fundraising
5 credits
Studies fundraising for nonprofit organizations. Provides an overview of the best practices, systems, and management principles underlying successful fundraising programs. Includes primary development vehicles and techniques, developing an annual plan and a case statement, and grant writing. [I]

TCSIU 452
Minorities and the Law
5 credits
Examines the 20th century evolution of equal protection and due process. Particular focus placed upon the case law, its societal context, and its impact upon persons of color. [I]

TCSIU 456
Community and Labor Organizing: A Multicultural Perspective
5 credits
Explores current community and labor organizing issues through intersections of gender, race, class, and immigration. Discussions of labor movements, community and environmental coalitions, living wage, social justice, and anti-sweatshop campaigns, in context of globalization. Case studies and issues vary. [I]

TCSIU 457
Nonprofit Capstone
5 credits
Builds on a project or interest developed by students during the nonprofit management minor internship in a nonprofit organization. Includes work on some professional nonprofit management area. Produces a demonstrable example of expertise and interest, such as a personnel manual, strategic plan, or annual fund development plan. [I]

Cultural Expression

TCXG 230
History of World Culture: Prehistory to the Classical Age
5 credits
Survey of the cultural production and social formation from Prehistory through the development of the great classical societies of Asia, Africa, and Europe. [I/V]

TCXG 240
Landcape in Contemporary Art
5 credits
Develops skills in drawing, composition and alternative means of expression during a concentration of art production on a single theme. Examines the changing role of landscape in art and the part environmentalism, politics and global culture have played in those changes. [V]

TCXG 241
Studies in American Literature
5 credits
Examines the aesthetic, social, and cultural expressions of American Literature through its major authors, modes, themes, and periods. Students will practice the analysis of literary discourse and the formation of critical arguments. [V]

TCXG 242
Studies in English Literature
5 credits
Examines the aesthetic, social, and cultural expressions of English literature through its major authors, modes, themes, and periods. Students will practice the analysis of literary discourse and the formation of critical arguments. [V]

TCXG 270
Understanding Literature
5 credits
Provides the student with the essential tools for close and informed reading of fiction, drama, and poetry. Consideration will be given to how a text generates aesthetic pleasure, how it achieves moral or social impact. Student will acquire skills in literary analysis through reading a variety of literary texts, through discussion, and through critical writing. [V]
TCXG 272
Writing Effectively
5 credits
Focuses on writing critical analyses of a range of texts in the arts and sciences. Emphasis on close reading, critical thinking, and developing well-supported arguments. Emphasis on managing the writing process so that good work can be produced within given time constraints. Focuses on preparation for upper-division writing tasks. [C]

TCXG 284
Three-Dimensional Art and Contemporary Approaches to Sculpture
5 credits
Examines three-dimensional images and explores innovations and trends in contemporary sculpture. Covers formal design elements and historic and cultural meaning. Includes studio projects, process book, reading and discussion, and research project. May be repeated with instructor permission. [V]

TCXG 301
Intensive Spanish: Reading Skills
5 credits
An intensive skills-building course. Focuses exclusively on the components of language that will help students become better readers: vocabulary development, grammar recognition and strategies to put background knowledge, understanding of cognates and other forms of transferable knowledge to work when reading a text in Spanish. Not open to native speakers of Spanish. [V]

TCXG 302
Intensive Spanish: Conversation Skills
5 credits
Intensive skills-building course. Focuses on the components of language that will help students understand and speak Spanish: vocabulary development, grammar recognition and strategies to put background knowledge, understanding of cognates and other forms of transferable knowledge to work when listening to and speaking Spanish. Not open to native speakers of Spanish. [V]

TCXG 303
Intensive Spanish: Practical Writing Skills
5 credits
An intensive skills-building course. Focuses exclusively on the components of language that will help students become better writers. Practical approach to vocabulary development, grammar review. [V]

TCXG 335
History of Photography
5 credits
Surveys the history of photography from 1839 to the present with an emphasis on various dimensions of the medium from art to advertising, journalism, photographic documentary, surveillance and pornography. Analyzes the photograph in the context of technological advancement, aesthetics, social and cultural influences, critical and theoretical discourses. [V]

TCXG 341
Writing Popular Fiction
5 credits
Teaches students to write popular fiction. Explores questions of narrative, characterization, action, form, formula, and code in popular genres. Uses primary and secondary texts to study mystery, romance, spy thriller, western, horror and science fiction. Emphasizes per review, revision, assessment, and reflection as methods of producing excellent written work. [V]

TCXG 367
Ideas Through Objects: A Conceptual Approach to Art
5 credits
Explores the metaphorical possibilities within objects through various contemporary art-marking techniques. Emphasis on the development of meaning through the creation or manipulation of objects. Instruction in both formal and conceptual art making. [V]

TCXG 368
The Human Figure in Contemporary Art
5 credits
Develops drawing skills and alternative means of expression during a concentration of art production on a single theme. Considers figurative work from the moderns to contemporary performance artists. Includes studio projects, a drawing/journal book, reading and response, and research project. Additional art materials will need to be purchased by the student for this course. [V]

TCXG 369
Shakespeare
5 credits
Studies selected tragedies, histories and comedies of English playwright William Shakespeare. Students read the plays closely, discuss them in class and advance textually supported interpretations in writing. Covers the historical background both of Shakespeare’s England and the settings of the plays themselves, as well as relevant theology, philosophy and natural science. [V]

TCXG 371
The World Stage
5 credits; max. 10 credits
An investigation of western and non-western forms of staged performance from a historical, social, political, and cultural perspective. Subjects will include the classical stage, medieval mystery plays, Jesuit theater, Noh and Kabuki theater, the Peking opera, Yiddish theater, Agit-Prop, the cabaret, the operatic gesamtkunstwerk, Avant-Garde theater, and Performance Art. [V]

TCXG 373
Introduction to Writing Poetry
5 credits / Recommended: courses in upper-division writing and literature
Studies the art and craft of writing poetry. Focus is on modern American poetic style, from Whitman to the present. Includes critical analysis of published poetry and intensive workshops in which students write poems and critique student work. [V]

TCXG 374
Argument and Research in Writing
5 credits
This course in critical, analytical writing teaches ways to evaluate and synthesize research so that it can be woven into sustained, persuasive essays. The class will study how to frame arguments and support them with logical discussion as well as pursue library research to develop bibliographies that emphasize scholarly writing. [V]

TCXG 377
Art of the Americas
5 credits
This course will examine 20th-century architecture and its origins. Through slide lectures, readings and field trips, we will focus on issues concerning style, technology, urbanism, regionalism, function and reform to address the diverse forces that have shaped modern architecture. [V]

TCXG 380
Humanities Research and Writing Seminar
5 credits
Covers developing a thesis, designing an outline, doing preliminary research, writing drafts, and presenting a completed 20-page paper. Each quarter will focus on a different theme. [V]

TCXG 381
Introduction to Fiction Writing
5 credits
Studies the craft of writing short stories. Combines intensive study of published stories with a writer’s workshop in which students critique each other’s stories. It is recommended that students complete at least one writing and/or literature course before enrolling. [V]

TCXG 382
Two-Dimensional Design and Contemporary Approaches in Art
5 credits
Introduction to basic aspects of creating and understanding two-dimensional images and exploration of innovations and trends in contemporary art. Formal design elements will be covered, and historic and cultural meaning will be considered. Coursework includes studio projects, journal/drawing book, reading and discussion, and research project. Additional art materials will need to be purchased by the student for this course. One visit to the Tacoma Art Museum will be required outside of the regular class meeting times. May be repeated with instructor permission. [V]
TCXG 387
Varieties of Literary Criticism
5 credits
Investigates different approaches to the reading and analysis of literary texts. Readings drawn from a range of theoretical and practical criticism. Consideration of what critical theory adds to the understanding and enjoyment of literature. Some attention will be given to the history of critical ideas. [V]

TCXG 390
Site Specificity in Art
5 credits
Focuses on concepts of site and place through contemporary art-making procedures. Includes instruction in both formal and conceptual approaches to site-specific installation. Emphasis on creating connections and dialog between place, artist, audience. [V]

TCXG 391
Reconstructing Self in Art
5 credits
Covers issues related to the generation of identity and change. Includes instruction in the fundamentals of conceptual object making, self-documentation, and basic three-dimensional construction techniques. Emphasis on problem solving, visual literacy, and presentation. [V]

TCXG 402
Eco-Art: Art Created in Response to the Environmental Crisis
5 credits
Investigates how art can address the environmental crisis. Experiment with contemporary art practices, creating work that reflects concerns about the environment. Discussions focus on the ways contemporary artists define eco-art, the history of the art that looks at nature, the landscape, and current ecological theory. [V]

TCXG 403
Body Image and Art
5 credits
Explores questions about body image through contemporary art making strategies. Examines how the human body is portrayed in popular visual media, considers relevant art history, and uses drawing, photography, and site-specific projects to investigate the students’ stories about the body. [V]

TCXG 404
Art in a Time of War
5 credits
Examines art that addresses the topics of war and peace. Analyzes contemporary popular media and how they frame war and violence. Students create art, read and discuss how art might prompt our society to visualize new ways of resolving conflict. [V]

TCXG 405
Cultural Identity and Art
5 credits
Examines the concept of cultural identity and fear of difference. Through reading, analysis of contemporary media and art, and studio artwork, students make art pieces that explore cultural identity using digital photography and text, photocollage, site-specific installation, and community-based art. [V]

TCXG 407
Art and Public
5 credits
Explores issues associated with the creation of public art. Investigates the individual’s role in community establishment, cultural politics, memorialization, and visual response to social and political events that shape our communities. Studio course; personal supplies and art display permission required. [V]

TCXG 446
Teaching Writing
5 credits
Studies theories and practices of writing education and the history and challenges of writing assessment. Explores learning communities. Emphasized pedagogical questions of social class, ethnicity, multilingualism, gender, sexual orientation, disability, and nationality. [V]

TCXG 482
Editing a Literary Arts Magazine
5 credits / Recommended: One course each, upper-division writing and literature.
Studies small literary magazines from the editorial perspective. Covers how to establish and defend editorial policy, assemble literary selections, collaborate with writers and editors, conceive of magazine design, and evaluate contemporary literature within the context of current publications. [V]

TCXG 483
Film Directors
5 credits
Examination of the idea of film authorship: does film, most often an industrial and collaborative medium, allow for the director’s “individual” expression? Can we speak of a Woody Allen film in the same way that we speak of a Shakespeare play or a Jane Austen novel? Through investigation of one or two major directors’ films, this course will explore not only consistencies of film style and thematic treatment through a director’s work, but also important contemporary debates on film aesthetics. May be repeated for credit with instructor’s approval. [V]

TCXG 484
Writing Creative Nonfiction
5 credits / Recommended: One other writing or literature course before enrolling
Studies the writing of creative nonfiction, a genre that uses the techniques of fiction to write nonfiction prose. Combines study of published writers with a workshop in which students critique each other’s work. [V]

TCXG 488
Modern Novel
5 credits
Examines Cervantes’ Don Quixote and 20th-century works inspired by it. May include Don Quixote, Kafka’s Castle, Borges’ Labyrinths and Nabokov’s Pale Fire. [V]

TCXG 495
Career and Internship Development
2 credits
Designed to help students transition from college to career by developing the tools and resources to manage careers over a lifetime. Essential elements of career development will be covered including self-assessment, exploration of the world of work, and the search for employment. Credit/no credit only.

TCXG 210
The African Diaspora through Music: The Rhythm, the Blues and Beyond
5 credits
Traces the evolution of the blues from its African indigenous roots, through slavery in the American South, and the cultural assimilation of various elements that influenced its development. Examines the impact on U.S. and global culture, and explores the contemporary African immigrant population in our region. [I]
TCXIN 230
German Cultural History
5 credits
Examines German cultural and social history from the Middle Ages to the post-unification era of the 21st century. Traces the broad development of German civilization through popular culture, literature, art, theater, film, music, and modern media. [V]

TCXIN 277
Latin American Literature
5 credits
Introduction to Latin American literature in English translation, with emphasis on how literary texts reflect culture. Includes works of fiction, non-fiction, poetry, and drama from Mexico, the Caribbean, and Central and South America. [V]

TCXIN 281
Society, Self, and Worldview in the Arts of India
5 credits
This course will look at contemporary India by placing it in broad historical and comparative contexts. It will focus especially on the production of diverse material objects—ranging from food to human bodies to written texts, to buildings and carved images—and the ways that they produce and represent value and significance for diverse South Asian conceptions of self, society and the real world. The course does not propose to represent “the native’s point of view,” or even multiple native points of view; rather, it seeks to open and engage relational dialogues between and among such points of view and those relevant to the students in the course. [I/V]

TCXIN 282
Society, Self, and Worldview in the Arts of China
5 credits
This course aims to develop the student’s understanding of major aspects of contemporary Chinese culture by considering it in the light of broad historical and comparative contexts. Special attention will be given to the place of family, self-cultivation, virtues and artistic refinement in the constitution of unequal social power in China. The specific shapes of modern systems of faith in China—especially including the cosmological myths implicitly built into the awkward marriage of consumer capitalism and Maoism—will be examined in relation to the historical momentum of Daoist, Confucian, Buddhist and popular folk conceptions of life and reality. [I/V]

TCXIN 283
Society, Self, and Worldview in the Arts of Japan
5 credits
A study in the material production of value and meaning for contemporary Japanese people, located within broad historical and comparative perspectives. The course will adopt a relational focus as it explores frameworks for interpreting the present in relation to the past and recognizing common cultural strategies for cultivating a respected self in Japanese culture. Topics will include family, gender, work, business and aesthetics as they relate to various identities, ancient as well as modern, and personal as well as national. Selected written and visual sources from and about Japan will be used in the course as representations of historically shaped Japanese ways of thinking about self, society and the real world. [I/V]

TCXIN 284
Society, Self, and Worldview in the Arts of Pacific
5 credits
In this course we will examine some of the personal, social, economic and political predicaments of selected modern island nations in relation to their ancient and colonial histories. Special attention will be given in this course to material signs (“art”) of social rank and personal family identities. Complex adaptations and/or rejections of European ways, migrations, contemporary sovereignty movements, and vigorous reassertions of local mana (modes of power, knowledge, and prestige) are common features of contemporary life in the Pacific that will be examined through the lenses of specific cases. Selected written and visual sources from and about the Pacific will be utilized as representations of Pacific Islanders’ ways of thinking about self, society and the real world. [I/V]

TCXIN 286
Silent Cinema
5 credits
Surveys film history from 1895 to 1927. Studies masterpieces of international cinema in historical, aesthetic, technological and social contexts. [V]

TCXIN 297
Contemporary World Cinema
5 credits
Study of trends in current international cinema: genres, geographical areas, technology, economics, and criticism. [V]

TCXIN 298
Patronage, Religion and Propaganda in European Art (1590-1750)
5 credits
Explores the changing objectives of artists and their subjects under the impact of shifting patronage—public and private, sacred and profane. Emphasis is given to the role of art as propaganda in the service of institutions, governments and individuals during a time span that is referred to as the baroque and roccoco periods. Of particular importance for a discussion of the artistic production of the era are the historic circumstances resulting from the Reformations and Counter-Reformation, the rise of the Dutch Republic and the decline of the aristocracy. [V]

TCXIN 299
Women in Latin America
5 credits
Uses memoirs, letters, histories, biographies, literary texts in translation, film and music as a means of exploring the lives of women in Latin America. It examines a variety of gender issues from an interdisciplinary perspective. No knowledge of Spanish required. [I/V]

TCXIN 376
Hispanic Film
5 credits
Examines the ways in which Hispanic film reflects history, society, class and gender issues. Provides an understanding of different aspects of culture in the Spanish-speaking world and of film as an art form. No knowledge of Spanish is required. [V]

TCXIN 386
Silent Cinema
5 credits
Surveys film history from 1895 to 1927. Studies masterpieces of international cinema in historical, aesthetic, technological and social contexts. [V]

TCXIN 402
Contemporary World Cinema
5 credits
Study of trends in current international cinema: genres, geographical areas, technology, economics, and criticism. [V]

TCXIN 461
Contemporary Mexican Culture
5 credits
Uses contemporary literary texts in translation, film, music and art as a basis for exploring ways Mexicans see themselves and the world around them. Focuses on class, race and gender issues from an interdisciplinary perspective. Taught in English. Topics vary. [V]
TCXIN 478  
Revolution, Industrialization and Modernity in European Art (1780-1900)  
5 credits  
Covers artistic developments in England, France, Germany and Spain during the 19th century. Emphasizes the analysis of social, economic and political conditions—such as industrial progress and the struggle for democratic forms of government—as key influences on artistic production and the visual expression of the experience of modernity. [V]

TCXIN 479  
Modern European Art  
5 credits  
Surveys the history of modern European art from 1880 through 1945. Includes the politics of the avant-garde, the intersections between fine art and popular culture, representations of sexual and racial identity, censorship, activism, technology, the museum, public art, critical and theoretical discourses. [V]

TCXIN 480  
Contemporary Art and Society: 1945 to Present  
5 credits  
Studies major artists and creative trends since World War II within the framework of popular culture. Investigates contemporary modes of creative expression within regional, national and international art scene. Frames discussions within context of historical conceptions and critical debates. Current exhibitions serve as case studies. Participation in field trips required. [I]

TCXIN 481  
Film Theory and Aesthetics (Seminar)  
5 credits  
An introduction to the ways in which the 20th century’s major film theorists have conceived of the raw materials, forms, and values and effects of the film medium. Consideration of what critical theory adds to the understanding and enjoyment of film. Covers a wide range of commercial and experimental films which exemplify—sometimes challenge—the ideas presented in readings. [V]

TCXIN 484  
French Cinema  
5 credits  
Overview of the art of film in France from 1895 to the present. Readings and screenings will place the study of French film culture in its historical, economic, social, political, philosophical, and aesthetic contexts. [V]

TCXUS 238  
Hispanics in the United States  
5 credits  
Provides overview of the diverse groups of people who are called “Hispanic” in the U.S., with emphasis on the significant cultural, political and economic influence that Hispanics have had on U.S. society. Examines literature, film, television shows, internet sites, popular magazines, music and folk art as forms of cultural expression, and discusses how they reflect and interact with political issues. [II/V]

TCXUS 245  
Multi-Ethnic American Literature  
5 credits  
Examines multicultural and multi-ethnic literature by American authors. Focuses on novels, short stories, essays, and poetry that examine the social construction of race in American society, the construction of American identity, and the intersections of race, class and gender. [V]

TCXUS 371  
History of Rock ‘n’ Roll  
5 credits  
In-depth look at the musical, social, and political history of rock and roll. Begins with pre-rock era of the 1940s through the fragmented rock styles of the 1990s and beyond. Recorded examples and video clips underscore the tremendous changes in American popular music and culture brought by rock and roll. [V]

TCXUS 373  
Themes in American Literature  
5 credits; max. 10 credits  
Study of various major themes addressed by writers in America. Topics may include: individualism, identity and community; sex, love and marriage; justice and injustice; industrialization, technology and the city; authenticity and egalitarianism; race relations. May be repeated for credit with instructor’s approval. [V]

TCXUS 374  
American Literary Movements, Genres and Historical Periods  
5 credits  
A study of movements (transcendentalism, modernism, the Harlem Renaissance, etc.); genres (poetry, fiction, drama, essay); historical periods (American Renaissance, the ‘20s, etc.); and an investigation of the literature of ethnic, political or regional groups. Topics will vary by quarter. May be repeated for credit with instructor’s approval. [V]

TCXUS 376  
American Architecture  
5 credits  
Examines the architecture of the United States from early Native American structures to late 20th-century buildings. Through slide lectures, readings and field trips, we will focus on issues concerning style, technology, regionalism, functions and reform to address the diverse forces that have shaped and continue to shape American architecture. [V]

TCXUS 377  
American Poetry  
5 credits  
An examination of different types of American poetry. Emphasis will be on writers from a variety of backgrounds. Poems will be approached from formal, thematic and historical perspectives. [V]

TCXUS 378  
Studies in Selected American Writers  
5 credits  
Analysis of selected American writers, focusing on their depictions of success and failure and their characteristic styles of affirmation and alienation. Are there typically American patterns that can be discerned? What makes a writer’s vision compelling? [V]

TCXUS 382  
Cross-Cultural Studies in Contemporary Women’s Literature  
5 credits  
Examines novels and short stories concerned with race, politics, feminism and the representation of women. Issues addressed include minority discourse, autobiographical modes, myth, storytelling, definitions of womanhood and cultural identification. [V]

TCXUS 383  
Early American Music, Art, Literature and Theater  
5 credits  
Examines the cultural life of Americans from Colonial times to the eve of the Civil War. Topics will include, but are not limited to, Anglo/Celtic and Afro folk and church music, landscape and genre painting, regional and frontier literature, newspaper humor, popular culture, circus, Chautauqua and minstrel shows. [V]

TCXUS 384  
African-American Women’s Literature  
5 credits  
Examines female slave narratives and novels from the Harlem Renaissance, social protest movement and the contemporary period. Examines how black women illustrate social constructions and intersections of race, gender and class. Readings, lectures and films will explore the political motivation and public response to black women’s writing. [V]

TCXUS 385  
African-American Literature from Slavery to the Present  
5 credits  
Readings, films, lectures and class discussions will focus on constructions of racial identity, social consciousness, race, class and gender relations as reflected in novels, short stories, essays and poetry by African-American authors. [V]
TCXUS 386
Black, Labor, and Protest Music in Historical Perspective
5 credits
Presents distinctive musical traditions of African-American, labor and protest movements. Uses folk and protest music as a way to access and understand submerged elements of the American experience that are often ignored or lost to history. Reviews folk traditions embodied in American popular culture. [IV]

TCXUS 471
History of Jazz
5 credits
Presents a broad survey of the primary periods and styles of jazz during the 20th century in the United States. Exposes students to the most innovative jazz musicians and their music as well as their contributions to American culture through the use of extensive audio and video examples. [V]

TCXUS 476
American Women's Literature: 19th- and 20th-Century Texts
5 credits
Examines primarily novels and short stories by American women authors from the 19th and 20th centuries. Explores women's work, women's education, women's activism, marriage, motherhood and crimes committed against and by women. Addresses the construction of female identity and how American women authors revise American history and literature. [V]

TCXUS 477
Nature and Environment in American Literature
5 credits
Examination of varying attitudes toward nature in American literary works—nature as antagonist, nurturer, resource, divinity, commodity. Consideration of how writers achieve authority for their visions of the natural world. [V]

TCXUS 478
Literature of the Harlem Renaissance
5 credits
Examines the images, themes, and characterizations in literature written by African-Americans during the Harlem Renaissance. Writers include Johnson, Hughes, Larsen, Hurston, Cullen, Fauset, Thurman, White and McKay. [V]

TCXUS 479
Contemporary Native American Women's Literature
5 credits
Examines novels, short stories and poetry by contemporary American Indian women authors. Addresses racial and gender oppression, reservation life, acculturation, political and social emergence, as well as the leadership role of Native American women. Writers include Erdrich, Silko, Hogan, Tapahonso and Harjo. [V]

TCXUS 482
American Folklore
5 credits
Examination of the types of American folklore and the techniques of the folklorist. Topics may include: American folk heroes, folklore versus folklore, Southern and New England archetypes, the rural mystique, sexism, violence and racism in folklore, printed folktales and modern folk heroes. [V]

TCXUS 485
Media Genres
5 credits
Study of genre, the thematic classification of films (e.g. westerns, musicals) and television programming. Specific topics will vary, but might include comedy, news/documentary, musical, and social-problem melodramas. [V]

Economics
TECON 100
Principles of Economics
5 credits
Fundamental concepts of economic analysis with application to contemporary problems. [I/Q]

TECON 150
Quantitative Preparation for Economics and Business
5 credits
Introduces students to the kinds of quantitative analysis used in economics and business courses. Uses practical examples to build skills in graphical analysis, use of algebra, basic probability, introductory computer use, and quantitative reasoning. [I/Q]

TECON 200
Introduction to Microeconomics
5 credits / Recommended: TQS 111
Analysis of markets: consumer demand, production, exchange, the price system, resource allocation, government intervention. [I/Q]

TECON 201
Introduction to Macroeconomics
5 credits / Prerequisite: TECON 200; recommended: TQS 111
Analysis of the aggregate economy: national income, inflation, business fluctuations, unemployment, monetary system, federal budget, international trade and finance. [I/Q]

Natural Science
TESC 100
Introduction to Environmental Science
5 credits
Provides an overview of physical and biological processes affecting the environment and exploration of current environmental issues. Topics may include earth system science, population and community ecology, evolution, conservation biology, water and air quality, natural resource management, and case studies relevant to the Pacific Northwest. Includes laboratory. [N]

TESC 107
Geohazards and Natural Disasters
5 credits
Provides a scientific foundation and understanding of the basic natural and physical processes driving what we perceive as geohazards and natural disasters. [N]

TESC 117
Physical Geology
6 credits
Examines the fundamental geological processes that govern how the earth works. Includes plate tectonics, the rock cycle, volcanism, seismicity, surface processes and earth resources. Includes required lab. [N]

TESC 120
Introductory Biology I
6 credits
Covers ecology and evolution, including genetics, Mendelian inheritance, biodiversity of life forms, and conservation biology, as well as related chemical processes in the environment. First in a sequence of introductory biology courses for science majors. [N]

TESC 121
Physics: Mechanics
6 credits / Prerequisite: TQS 124, which may be taken concurrently
Focuses on mechanics concepts in physics: motion, work and energy, Newton's Laws, conservation of energy, system of particles, rotations, oscillations and gravity. Includes analyses using calculus and lab activities. [N]

TESC 122
Physics: Electromagnetism and Oscillatory Motion
6 credits / Prerequisite: TESC 121; TQS 125, which may be taken concurrently
Focuses on electromagnetism and oscillatory motion concepts in physics: charge, electric fields, flux and potential, capacitance, resistance, circuits, inductance, Coulomb's, Gauss', Ohm's and Faraday's Laws, and introduction to Maxwell's equations. [N]

TESC 123
Physics: Waves
6 credits / Prerequisite: TESC 122; TQS 126, which may be taken concurrently
Focuses on waves and optics concepts in physics: thermodynamics, harmonic and standing waves, superposition and interference, Doppler Effect, polarization, diffraction, reflection, refraction and dispersion, Rayleigh scattering, and photoelectric effect and quanta. Includes analyses using calculus and lab activities. [N]

TESC 130
Introductory Biology II
6 credits / Prerequisite: TESC 120
Provides a basic background in cell biology and development. Includes metabolism and energetics, structure and function of biomolecules, cell structure and function, and the chemical processes associated with these biological mechanisms. Second in a series of introductory biology courses for science majors. Includes required lab. [N]
TESC 140  
Introductory Biology III  
6 credits / Prerequisites: TESC 120 and TESC 130 
Focuses on plant and animal physiology and anatomy, in conjunction with applicable chemical processes. Third in a series of introductory biology courses for science majors. Includes required lab. [N]

TESC 141  
General Chemistry I  
6 credits 
Provides a basic background in the structure of matter, stoichiometry, chemical reactions, gases, chemical equilibrium, acids and bases and aqueous equilibria, as well as how these chemical processes affect biological organisms. First in a series of general chemistry courses for science majors. Includes required lab. [N]

TESC 142  
General Chemistry II  
6 credits / Prerequisite: TESC 141 
Provides a basic knowledge in thermodynamics, electrochemistry, quantum mechanics and chemical bonding, as well as how these chemical processes affect biological organisms. Second in a series of general chemistry courses for science majors. Includes required lab. [N]

TESC 151  
General Chemistry III  
6 credits / Prerequisite: TESC 141 and TESC 151 
Provides a basic knowledge in covalent bonding, chemical kinetics, liquids and solids, solutions, and groups of elements, as well as how these chemical processes affect biological organisms. Third in a series of general chemistry courses for science majors. Includes required lab. [N]

TESC 160  
Introductory Biology I  
6 credits / Prerequisites: TESC 120 and TESC 130 
Focuses on plant and animal physiology and anatomy, in conjunction with applicable chemical processes. First in a series of introductory biology courses for science majors. Includes required lab. [N]

TESC 161  
Introductory Biology II  
6 credits / Prerequisite: TESC 140 
Focuses on area history, species interactions, and methods of field ecology. Includes lectures, a required weeklong field trip, and follow-up research. [N]

TESC 162  
Introductory Biology III  
6 credits / Prerequisite: TESC 140 and TESC 151 
Focuses on environmental science, ecology and evaluation of current physical research within environmental contexts. Applied physical concepts include: Newtonian mechanics, work, heat and energy, systems of particles, collisions, and waves. Utilizes experimental skills with weekly lab activities. [N]
TESC 318 Biogeography
5 or 6 credits
Study of the distribution of plants and animals, as controlled by climate, geologic history and geographic location, dispersal, colonization, and invasion. Examines changes over time in distribution patterns as related to evolution, climate change, and human activities. Incorporates many disciplines including biology, ecology, anthropology, history, GIS, statistics, and geological sciences. [N]

TESC 319 Water Quality Concepts and Watershed Studies
5-6 credits
Investigates components needed to conduct a successful water-quality study within the focus of a watershed. Covers design concepts for environmental studies, goals and approaches to sample collection, and aspects of data review and analysis. Includes field sampling and laboratory exercises involving commonly measured properties in water studies. Offered either with a required lab section (6 credits) or without a lab (5 credits). [N]

TESC 321 Soils and Environmental Applications
5 credits
Discusses interactive aspects of soil composition and properties and their influence on the environment. Covers soils and hydrologic cycle, soil ecology and nutrients, soil erosion and aquatic sediments. Includes hands-on analysis of soils and field studies of soil properties. [N]

TESC 333 Environmental Chemistry
6 credits / Prerequisite: Two or three quarters Introduction to Chemistry sequence and TESC 300 or TESC 310 or equivalent
This course is designed to give students a background in basic environmental chemistry, with emphasis on practical applications for understanding aquatic systems. We will cover carbon, nitrogen, phosphorus, and sulfur cycles; gas exchange; alkalinity; and reduction/oxidation reactions. [N]

TESC 340 Ecology and Its Applications
6 credits / Prerequisite: Two or three quarters Introduction to Biology sequence and TESC 300 or TESC 310 or equivalent
Ecology is the scientific study of the distribution and abundance of organisms and considers how they interact with each other and with their environments. This class focuses on key processes and interactions (e.g. population growth and regulation, competition, predation, various symbioses) needed for an understanding basic and applied ecology. Discussion of theory and data from a variety of habitats will be augmented by a lab section to include student presentations, primary literature analysis, computer simulations and/or field trips. [N]

TESC 343 The Atmosphere and Air Pollution
6 credits / Prerequisite: TESC 300 or equivalent or an introductory meteorology course or permission of instructor
This course serves as an introduction to the processes that determine weather and climate and investigates how these phenomena relate to air pollution. An overview of basic meteorological principles will be presented and applied to understanding global and local air pollution issues such as the greenhouse effect, the ozone hole, acid rain, photochemical smog and urban heating. Required lab section includes hands-on activities, computer simulations, discussion, student presentations and field trips. [N]

TESC 345 Pollution and Public Policy
5 credits
Examines issues in environmental contamination using case studies from the Pacific Northwest and elsewhere. Addresses relevant scientific information as well as public perception and policy aspects. Through written and oral assignments students gain the knowledge necessary to act as informed public stakeholders. [N]

TESC 349 Research at Sea
10 credits / Prerequisite: TESC 347
Explores current issues in oceanography of the Pacific Northwest. Students plan, design and implement scientific research projects, work collaboratively in small research teams in a field setting, and present the results of their investigation at a scientific colodrum following the required cruise. [N]

TESC 362 Introduction to Restoration Ecology
7 credits / Prerequisite: TESC 300, TESC 310 or equivalent
Introduces ecological restoration of damaged ecosystems. Covers philosophical base of restoration as well as the social, biological and political forces that affect the success of any restoration project. Includes lectures, readings, case studies and field trips. [N]

TESC 378 Environmental Microbiology
6 credits / Recommended: TESC 140
Explore microbial diversity and the applied effects of microorganisms on the environment and human welfare. Topics include metabolic diversity, ecological interactions, biogeochemistry, microbial habitats, and waste treatment and bioremediation. [N]

TESC 402 History and Ecology of Biological Invasions
5 credits / Recommended: Prior coursework in the biological sciences
Explores the population dynamics and ecological impacts of non-indigenous species, their prevention and control, and the ways that exotic species threaten biodiversity and regional and global economies. Examines the rapidly advancing science of invasion biology in its historical and public policy contexts. [N]

TESC 404 Costa Rica Field Studies: Ecology and Community
10 credits
Integrates natural science, culture, and socioeconomic aspects of the neo-tropics with hands-on field experience in tropical ecology research. In addition to two weeks of intensive field study in Costa Rica, students complete relevant readings and do an independent field project to be negotiated with the instructor. [N]

TESC 408 Marine Plankton
6 credits
Investigates marine phytoplankton, marine zooplankton, and their interaction with each other and the environment. Includes field sampling and lab analysis of plankton, and oceanographic biological conditions. Examines plankton taxonomic characteristics related to plankton life-styles and estuarine biological processes and dynamics. [N]

TESC 410 Environmental Science Senior Seminar
3 credits / Prerequisites: TESC 310 and one of TESC 490, TESC 497, TESC 499 or TESC 462
Synthesizes environmental research methodologies and oral and written presentation skills in group projects developing grant proposals responding to published Requests for Proposals. Includes research presentation of individual environmental science capstone experiences in culminating course for the B.S. degree in Environmental Science. [N]

TESC 415 Sedimentology
6 credits / Prerequisite: TESC 337
Detailed and comprehensive analysis of the field of sedimentology including surface processes, sedimentary petrology, sedimentary environments, and stratigraphy. Includes lab and field trips. [N]

TESC 417 Field Geology
7 credits / Prerequisite: TESC 337
Provides students with a field-based knowledge of the geological environment of Puget Sound and Western Washington and an introduction to geological field techniques. Required weekly field trips during class time and two required oversight field trips. [N]

TESC 422 Evolution
5-6 credits
Examines the implications of Dobzhansky’s statement that “Nothing in biology makes sense except in the light of evolution.” Explores the idea and mechanisms of evolutionary change by evaluating the biological and geological evidence that makes organic evolution a unifying theme in the natural world. Discusses evolutionary issues in medicine, agriculture, biodiversity conservation and human affairs. Offered either with a required lab section (6 credits) or without a lab (5 credits). [N]
**TESC 431**  
*Water Resources and Pollution*  
7 credits / Prerequisite: TESC 300 or TESC 310 or equivalent and permission of instructor  
This course investigates freshwater quantity and quality, with a focus on Pacific Northwest water-related issues. The availability and use of fresh water as a limited global resource will be evaluated. The physical and chemical aspects of various local aquatic environments will be explored through intensive field studies. [N]

**TESC 433**  
*Pollutant Fate and Transport in the Environment*  
6 credits / Prerequisite: Two or three quarters  
Introduction to Chemistry sequence and TESC 300 or TESC 310 or equivalent  
An introduction to the hydrological processes involved in the transport of contaminants in surface water and groundwater, and the factors that affect the fate of these pollutants in the environment (e.g. retardation, degradation and chemical reactions). Using case studies, the complex issues involved in remediation will also be examined. [N]

**TESC 434**  
*Biology, History and Politics of Salmon in the Pacific Northwest*  
5-6 credits  
Explores issues such as the biology of salmon, habitat degradation and the impact of salmon loss on biological and social systems through the study of history and political economy. Offered either with a required lab section (6 credits) or without a lab (5 credits). [N]

**TESC 435**  
*Limnology*  
7 credits  
Introduces students to sampling methods, analytical tools, and scientific concepts related to the study of freshwater lakes and streams and the impacts of natural and anthropogenic processes on these water bodies. Topics of study include physical processes, biological systems, and aquatic chemistry, focusing on human-impacted water bodies. [N]

**TESC 438**  
*Environmental Biology: Marine Invertebrates*  
6 credits / Prerequisite: Two quarters introductory biology.  
Examines the structure, function, life histories, ecology and evolution of major groups of marine invertebrate animals. Lectures, discussions, images and library research are augmented by laboratory work with live organisms whenever possible. Integrates details of biodiversity with issues and concepts from ecology and environmental science. [N]

**TESC 440**  
*Environmental Entomology*  
6/7 credits / Recommended: Two quarters of introductory biology  
Explores structure, function, ecology and evolution of terrestrial arthropods, focusing primarily on insects. Integrates concepts from environmental science, ecology and evolution in order to gain an understanding of insect biology. [N]

**TESC 442**  
*Marine Ecology*  
7 credits / Prerequisites: TESC 340 or TESC 438, an introductory biology series and permission of instructor  
This field-intensive course will be a hands-on exploration of the natural history of organisms, species interactions and research methods of marine ecology. Special topics lectures may include biology of coral reefs, kelp forests, estuaries, marine fisheries and marine conservation. [N]

**TESC 445**  
*Estuarine Field Studies*  
7 credits / Prerequisite: TESC 341  
Investigates saltwater estuarine systems with a focus on Pacific Northwest water-related issues. Uses intensive field studies to explore various aspects of the physical, chemical, biological and geologic conditions in a range of local saltwater environments in Puget Sound. [N]

**TESC 452**  
*Plants, Insects and their Interactions*  
7 credits / Prerequisite: TESC 340 or permission of instructor  
Emphasizes hands-on exploration of the natural history and ecology of plants and insects and interactions amongst them. A series of all-day field trips will focus on biological issues relevant to resource management and agricultural production in different sites around Puget Sound. [N]

**TESC 462**  
*Restoration Ecology Capstone: Introduction*  
2 credits / Prerequisite: TESC 362  
The first of a three-course capstone sequence in restoration ecology. Reviews and assesses project plans and installations. Meets with members of previous capstone classes to review projects. Offered jointly with BES 462/EHUF 462. [N]

**TESC 463**  
*Restoration Ecology Capstone: Proposal and Plan*  
3 credits / Prerequisite: TESC 462  
Student teams prepare proposals in response to requests for proposal (RFPs) from actual clients. Clients may be government, nonprofit organizations and others. Upon acceptance of the proposal, teams prepare restoration plans. Offered jointly with BES 463/EHUF 463. [N]

**TESC 464**  
*Restoration Ecology Capstone: Restoration Project Implementation*  
5 credits / Prerequisite: TESC 463  
Takes the restoration plan developed in TESC 463 and completes the installation. Participation may include supervision of volunteers. Prepare management guidelines for the client and conduct a training class for their use. Offered jointly with BES 464/EHUF 464. [N]

**TEST 221**  
*Environmental History: Water*  
5 credits  
Examines the historical relationship between water and fire, irrigation, grazing, mining, deforestation, and urbanization upon the regional and global environment. Using case histories based on water, emphasizes the sources and methods historians use to study environmental change over time. [N]

**TEST 332**  
*A Natural History of Garbage*  
5 credits  
Examines past and present practices of disposing of civilization’s detritus. Uses methods of historical inquiry and environmental studies to get at the roots of one of the fundamental issues confronting the industrialized world: the disposal of waste. Research-based and includes field work. [N]

**TEST 333**  
*Environmental Policy Application and Compliance*  
5 credits  
Covers practical environmental regulatory compliance. Develops, through hands-on experience, an understanding of the systems, procedures and forms required for routine environmental compliance. Explores how business, government and the private citizen interact with environmental regulations. [N]

**TEST 380**  
*Study Abroad: Comparative International Perspectives on Cities and the Environment*  
15 credits  
Interdisciplinary approach to integrating urban and environmental issues in two or more world cities. Includes site visits and interactions with foreign scholars and practitioners. Topics may include coastal development, transportation, parks, marine conservation, indigenous cultures, environmental planning, gentrification, urban governance, and watershed management. Offered jointly with TURB 380. [I/N]

**TEST 403**  
*Geography of the United States of America and Canada*  
5 credits  
Regional study of the United States and Canada based upon physical and cultural features. Examines continental and regional variations in terrain, climate, vegetation, economic, and social life of the United States and Canada, with emphasis on geographical principles, sources of data, and techniques of investigation. [N]

**THIST 111**  
*The Ancient World*  
5 credits  
Origins of Western civilization to the fall of Rome. [I]
**THIST 112**  
The Medieval World  
5 credits  
Political, economic, social, and intellectual history of the Middle Ages. Cannot be taken for credit toward a history major if HSTEM 331 or 332 or 333 previously taken. [I]

**THIST 113**  
Europe and the Modern World  
5 credits  
Political, economic, social, and intellectual history of modern Europe. Cannot be taken for credit toward a history major if HSTEM 302 or 303 previously taken. [I]

**Ideas, Beliefs and Cultural Patterns**

**TIBCG 350**  
Contemporary Search for Meaning  
5 credits  
What is the meaning of life? What do we even mean by that question? Do our lives need to have a purpose? Do we need to be part of something bigger than ourselves? Are we free to create the meaning of our own lives, or is there a deep meaning “out there” to be discovered? This course surveys various attempts, both philosophical and non-philosophical, to answer these and related questions. Special attention will be paid to how philosophers in the last century have approached (or avoided) the question of existential significance. [I]

**TIBCG 353**  
The End of the Modern World (1600-2000)  
5 credits  
The “modern” period will probably be dated in history books as running from 1600-2000, identified as such not only by the rise of science and technology but also by a characteristic set of fundamental images and assumptions. This course will investigate the origin and influence of these images and assumptions and discuss the forces that are undermining them. It will conclude with a consideration of what may replace them in the course of the next few decades. [I]

**TIBCG 351**  
Ethics in Society  
5 credits  
Study of the meaning, nature, legitimacy, criteria and foundations of moral judgment. The course explores ethics as a branch of philosophy while focusing on particular ethical problems, such as war, race, abortion, justice, sexuality, medical issues of life and death, the environment, and the transactions of the business world. [I][V]

**TIBCG 361**  
The Beautiful and the Good: Philosophy’s Quest for Value  
5 credits  
Examines ideas about the beautiful and the good in the history of philosophy. Includes ideas of early thinkers and how they were adopted, transformed or rejected by later thinkers. Studies different ideas from the history of philosophy about what the beautiful and the good are, how we know them and how we achieve them. [I]

**TIBCG 362**  
Philosophical Perspectives on the Environment  
5 credits  
A study of the philosophical thinking and wisdom attending an inherent valuation of the natural environment. Emphasis is placed upon critically exploring the philosophical and natural history writings and/or expressions of primal traditions and seminal thinkers including Thoreau, Muir, Leopold and Naess. In addition, the ongoing philosophical dialogue attending the contemporary environmental crisis will be examined. [I][N]

**TIBCG 363**  
Technology in the Modern World  
5 credits  
Examines social, cultural and historical studies of the role of technology in the modern world. Themes include: the unintended consequences of new technologies; the relationship between technology and the environment; production and consumption; and technology’s role in forming divisions along lines of race, class and gender. [I]

**TIBCG 400**  
Medieval Technology  
5 credits  
Examines the nuts and bolts of medieval urban life while exploring larger themes of the gendering of labor, the rebirth of cities, the uneasy relationship to Islamic civilization, and the destruction of the natural world. [I]

**TIBCG 440**  
Arts Administration  
5 credits  
Surveys and analyzes the social, cultural, economic and creative foundations of cultural management and arts administration. Emphasis is placed upon critical and creative thinking in evaluating the role and function of nonprofit arts institutions within the complex fabric of contemporary society. [I]

**TIBCG 441**  
Museum Studies  
5 credits  
An introduction to the history, philosophy, organization, administration and practice of museums. Changing emphases on the role of museums in cultural, socioeconomic and political contexts; collection management, exhibition and program planning, education, cultural tourism, community outreach and marketing. [I]

**TIBCG 442**  
Anti-Semitism and the Holocaust  
5 credits  
Historical, cultural, psychological, philosophical and artistic approaches to understanding the Holocaust, including an examination of the role of anti-Semitism, Nazism, eugenics, bureaucracy, technology, attitudes and participation of “ordinary Germans,” and the role of army and police units in its formation and execution. Explores implications of the Holocaust for contemporary life. [I]

**TIBCG 443**  
Philosophy’s Quest for Value  
5 credits  
This course will explore meanings of health and illness in contemporary American culture. We will also consider historical, cross-cultural and literary examples. Conversely, health, illness and therapeutic and preventive practices provide crucial insights into aspects of American culture and society. [I]

**TIBCG 444**  
Seminar on Health and Culture  
5 credits /Prerequisite: Permission of instructor  
Historical, anthropological and sociological approaches to the meaning of health in modern and contemporary cultures. Exploration of how the expansion of medical, political and educative discourses about health and health hazards has shaped consciousness, identity and social practice. Seminar format (discussion-based class sessions and presentation of library research). [I]

**TIBCG 445**  
Medicine and Morality: Issues in Biomedical Ethics  
5 credits  
Provides students with knowledge of ethical theory which is then applied to questions in medicine such as right to die, allocation of scarce medical resources, informed consent and patient confidentiality. [I/V]

**TIBCG 446**  
Environmental Ethics  
5 credits  
Critical exploration of selected philosophical and literary texts pertinent to ethics attending the natural environment. Topics for consideration may include animal and nature rights, social ecology, natural value (instrumental, inherent, intrinsic), anthropocentrism versus deep ecology, and environmental aesthetic theory. [I/V]

**TIBCG 447**  
Ways of Knowing  
5 credits  
An investigation of the key concepts and problems involved in the analysis and appraisal of human knowledge and critical thought. An effort will be made to discern the difference between truth and falsity, knowledge and opinion, correct and incorrect judgment and how these are critically grounded. Different theories of knowledge will be studied. [I]

**TIBCG 448**  
Premodern East Asia  
5 credits  
Examines premodern China, Japan, Korea and Vietnam from their earliest origins to the mid-eighteenth century. Considers social, cultural, political, economic and intellectual developments within a historical framework. [I]
TIBCIN 221
Modern East Asia
5 credits
Examines Modern East Asia, focusing on China, Japan, Korea and Vietnam from the mid-eighteenth century to the present. Considers social, cultural, political, economic and intellectual developments within a historical framework. [I]

TIBCIN 281
Ancient Literature of Western Civilization
5 credits
Examines works of literature and philosophy of ancient Western civilization as the foundation for subsequent Western writing and thought. May include Homer’s Odyssey, Sophocles’ Oedipus the King, Plato’s Apology, and Virgil’s Aeneid. [V]

TIBCIN 282
Medieval and Renaissance Literature of Western Civilization
5 credits
In this course we will examine critically works of literature and literary theology from the medieval and Renaissance eras in Europe, works we can call “archetypes” since they became the foundation for subsequent European writing and thought of all kinds. To include Dante’s Inferno, Shakespeare’s Hamlet, and Milton’s Paradise Lost. [V]

TIBCIN 283
Modern Literature of Western Civilization
5 credits
Examines literary works of Western civilization from the modern era, works important to subsequent Western writing and thought of all kinds. May include Swift’s Gulliver’s Travels, Goethe’s Faust, Kafka’s short stories, and Woolf’s Mrs. Dalloway. [V]

TIBCIN 352
Cultural Geography
5 credits
Cultural components and the analysis of the role of culture in the formation of landscape patterns and the development of a sense of place. Emphasizes issues and problems generated by globalization. [I]

TIBCIN 354
History of the Concept of Culture
5 credits
Investigation of the history of the concept of culture, from its origins in the 19th-century notions of “race” and “evolution,” through its later development in 20th-century popular and anthropological usages. [I]

TIBCIN 355
The Mind of Modernity
5 credits
Looks at how since the 16th century, new and competing ways of understanding ourselves, the natural and human worlds, and our place in them, have defined European modernity. Materials are a selection of original artistic, scientific, philosophical and literary texts. Reading, discussion and writing will be emphasized. [I]

TIBCIN 357
The Greek Mind and Imagination
5 credits
An exploration of what makes the contribution of the Greeks so unique in the formation and heritage of Western civilization. The course examines some of their major human expressions and achievements in art, philosophy, literature and history. It attends to the continuing influence of these ideas, values and institutions on the world today. [I]

TIBCIN 358
History of Philosophy: Medieval and Modern
5 credits
Though the ideas of philosophers appear very different, there is continuity in the concerns of thinkers from different places and eras. Such continuity is apparent as one examines medieval and early modern philosophers such as Augustine, Aquinas, Descartes, Hume and Kant as they address questions about reality, thought, the beautiful and the good. [I]

TIBCIN 360
History of Philosophy: Modern and Contemporary
5 credits
Examines movements including idealism, pragmatism and existentialism in historical context to discover ways in which they are responses to past ideas and ways in which they are new. Focuses on the way issues in philosophy remain the same even as ways of thinking about them change. [I]

TIBCIN 365
Hinduism and Buddhism
5 credits
Hinduism and Buddhism, two of the world’s most ancient religious traditions, both originated in India, and claim well over half a billion followers in the modern world. This course will present the radically different (from conventional Western) perspectives they offer on the context and meaning of human existence. [I]

TIBCIN 366
Islam
5 credits
This course will investigate the history and forms of Islam, the predominant religion of the Middle East. Particular attention will be devoted to understanding values, views and assumptions that are often quite different from those familiar in the secular societies of the West. [I]

TIBCIN 367
East Asian Religions: Zen and Taoism
5 credits
Study of Taoism as a characteristic East Asian worldview and of Zen as an East Asian reshaping of Indian Buddhism. Reading and discussion of Taoist and Zen materials. [I]

TIBCIN 390
Preparation for Study Abroad
1-5 credits; max. 5 credits
Prepares students for extended study abroad experiences by examining the history, culture, politics, arts of the host country. Encourages reflection on and preparation for intercultural experience through a psycho-social lens. [I/V]

TIBCIN 450
Contemporary Theories of Culture (Seminar)
5 credits
Recent anthropological theory and contemporary cultural theory. The course will be organized either around trends in cultural theory, such as structuralism and semiotics, British cultural studies, critical theory and postmodernism; or topically, such as ideology, culture, and cultural resistance; ethnocentrism, relativism; class and race; the social body; self and other; gender and sexuality. May be repeated for credit with instructor’s approval. [I]

TIBCIN 451
Renaissance Europe
5 credits
Development of Renaissance humanism and its influence on culture, politics and society in 14th, 15th and 16th century Europe and beyond. [I]

TIBCIN 452
Art, Culture and History of the Eternal City
10 credits
Uses Rome as a laboratory to understand the role of art, history, and urbanism in the development of Western culture. Addresses the many facets of the cultural development of Rome and Italy, including geography, history, urban design, art, and architecture. Research-based and includes extensive fieldwork. [I]

TIBCIN 453
Ancient Greek Tragedy
5 credits
Examines selected tragedies of Aeschylus, Sophocles and Euripides. [V]

TIBCIN 455
Medieval Quests
5 credits
In this course we will examine critically important works of literature, philosophy and theology from the medieval era, broadly construed. With special attention to the theme of the “quest,” we will read Augustine’s Confessions, Beowulf, The Quest of the Holy Grail, Sir Gawain and the Green Knight, and Don Quixote. [V]

TIBCIN 456
Postcolonial Studies: African Perspectives
5 credits
Investigates postcolonial cultures located in Africa. Situates the political, personal and historical dimensions of international and institutional hierarchies in Africa and the African diaspora. Examines African philosophy, literature, art, folklore and history as sources of postcolonial nationalism. [I]

TIBCIN 461
Religion and Church in Latin America
5 credits
This course is an interdisciplinary examination of the political, social and cultural implications of religion in Latin America. The course will cover four major themes: (1) the history of the Catholic Church and its influence on politics and socio-economic structures, (2) religious
syncretism. (3) liberation theology and (4) changes occurring in contemporary Latin American Christianity. [I]

**TIBCUS 462**
**African Folklore and Literature**
**5 credits**
Explores oral and written traditions in Africa. Emphasizes how the aesthetics of storytelling and dialogue shape the production of narrative in contemporary African contexts. Explores anthropological, literary and historical approaches in viewing the aesthetic qualities of African folklore and literature. [I]

**TIBCUS 463**
**God: East and West**
**5 credits**
“God” (a personal Supreme Being who created the world) is the way of understanding the Ultimate most familiar to the Western world. There are, however, a number of alternative ways of understanding the Ultimate richly exemplified in non-Western religious traditions. In this course we will consider both Western and Eastern approaches and examine their ramifications for the way human beings have thought. [I]

**TIBCUS 466**
**Modernity and its Critics**
**5 credits**
A consideration of various attempts to specify and critique the contours of Western modernity—in culture, philosophy and political economy. Themes selected will include the impact of Cartesian philosophy, science and rationality on our concepts of the world, ourselves, our bodies, time and human relations. [I]

**TIBCUS 490**
**Society and Culture in Cuba**
**15 credits**
Examines the history, culture, language, and politics of Cuba, as well as the psychological experiences and processes of living and studying abroad. Classes held at the University of Cienfuegos, Cuba. [I/V]

**TIBCUS 260**
**American Political Theory**
**5 credits**
Considers major issues and traditions in American thinking about democracy, citizenship, membership and justice. The focus is on works by important thinkers from the Founding to the 20th century. Includes conflicting visions and tensions associated with the demands of newly rising social groups, and American identities. [I]

**TIBCUS 365**
**North American Indian Traditions**
**5 credits**
A comparative exploration of the major traditional practices developed in Native North America. Special attention is given to world view, religious expression, the problems of change, and the contemporary viability of core elements associated with these traditions. [I]

**TIBCUS 430**
**Introduction to Public History**
**5 credits**
This course introduces students to the major issues and questions addressed by historians who work in the public sphere. Central themes include the interpretation of history, the role of history in popular culture, issues and aims in exhibiting history, the politics of public history, and historic preservation. [I]

**TIBCUS 451**
**Cultural Studies (Seminar)**
**5 credits**
Selected themes in American and/or other industrial cultures. Themes and readings will vary and may include: advertising; consumption and the middle class; the culture of work; youth subcultures; urban ethnography; gender and sexuality; individualism and community; culture and personality; and the therapeutic culture. May be repeated for credit with instructor’s approval. [I]

**TIBCUS 459**
**African-American Culture and Consciousness**
**5 credits**
Examines African-American culture and consciousness from slavery to the present. Readings focus on the construction of African-American culture, racial identity, social consciousness, political thought, oppression and resistance, and the confluence of race, class and gender in shaping cultural expressions such as blues, jazz, hip-hop and aesthetics. [I]

**TIBCUS 460**
**African-American Religious History**
**5 credits**
Examines African-American religious practices from slavery to the present. Focuses on the role of religion in African-American culture, racial identity, social consciousness, political thought, oppression and resistance, and the confluence of race, class and gender in shaping Christianity, Islam and traditional forms of African worship. [I]

**TIBCUS 461**
**History of Religion in America**
**5 credits**
Examines the significance of religion in American society from European colonization to the twentieth century. Topics include Puritanism, revivalism, women, slavery, ethnicity and immigration and pluralism. [I]

**TIBCUS 464**
**Native American Cultural Areas**
**5 credits**
Explores the religious traditions of a specified North American cultural area. A particular course of study is offered on the following rotation: a.) Arctic-Subarctic, b.) Eastern Woodlands-Southeast, c.) Plains-Basin, d.) Southwest-California, and e.) Northwest Coast-Plateau. Mythological themes, metaphysical beliefs, values and ritual practices are explored for each cultural area. May be repeated for credit with instructor’s approval. [I]

**TIBCUS 466**
**Life and Thought: Martin Luther King, Malcolm X and Angela Davis**
**5 credits**
A readings/discussion seminar exploring the experiences and thinking of three well-known leaders of African-American protest in the 1960s. Students interpret black radicalism in that era and the relationship of these three analysts and activists to their times and to the present. [I]

**Political Science**

**TPOLS 201**
**Introduction to Political Values and Ideas**
**5 credits**
Surveys a variety of implicit and explicit values that inspire political action. Explores whether there is such a thing as a universe interest and what it might be, who should rule, and whether justice will be done. [I]

**TPOLS 202**
**Introduction to American Politics**
**5 credits**
Institutions and politics in the American political system. Ways of thinking about how significant problems, crises, and conflicts of American society are resolved politically. [I]

**TPOLS 203**
**Introduction to International Relations**
**5 credits**
The world community, its politics, and government. [I]

**TPOLS 204**
**Introduction to Comparative Politics**
**5 credits**
Political systems in a comparative framework. Traditional and contemporary approaches to the study of governments and societies in different countries. [I]

**TPOLS 400**
**The American Presidency**
**5 credits**
Examines the American presidency, its evolution, its occupants, and its place within the American system. Topics include presidential character, war, elections, the economy, and the Constitution. [I]

**TPOLS 497**
**Political Internship in State Government**
**5 credits, max. 20**
Students serving in approved internship program with state government agencies.

**Psychology**

**TPSYCH 100**
**Introduction to Psychology**
**5 credits**
Surveys major areas of psychological science, including human social behavior, personality, psychological disorders and treatment, learning, memory, human development, biological influences, and research methods. Related topics may include sensation, perception, states of consciousness, thinking, intelligence, language, motivation, emotion, stress and health, cross-cultural psychology, and applied psychology. [I]
TPSYCH 210
Abnormal Psychology
5 credits
Historical and current definitions, theory and research concerning abnormal psychological behavior. Major categories of psychopathology, including related treatment approaches. Assignments include illustrative case studies, written critical perspectives of course materials, and interpretative analysis of major topics in field. [I]

TPSYCH 212
Child Abnormal Psychology
5 credits
Examines historical and current definitions, theory, and research concerning child and adolescent abnormal behavior. Covers major categories of psychopathology, including related treatment approaches. Includes illustrative case studies, written critical perspectives of course materials, and interpretative analysis of major topics in the field. [I]

TPSYCH 220
Lifespan Development
5 credits / Prerequisite: TPSYCH 100
Explores human cognitive and psychosocial development across the lifespan. Covers theories, methodologies, and research findings using a lifespan approach, which examines continuity and change from conception to death and the interaction of biological, psychological, and social aspects of development. [I]

TPSYCH 230
Educational Psychology
5 credits
Explores individual learning and the educational process. Emphasis on theories of cognition, personal/social/moral development, learning differences, and motivation. Covers cultural/community influences on the learner and educational process. Includes overview of teacher roles, classroom management, educational assessment. [I]

TPSYCH 240
Social Psychology
5 credits
Surveys the major areas of social psychology, the science of human behavior in social situations. Emphasizes an understanding of the important methods, terms, theories and findings in social psychology. [I]

TPSYCH 300
History and Systems of Psychology
5 credits
Examines historical, current and theoretical systems in psychology, such as psychoanalysis, behaviorism and existentialism. Offers a critical and philosophical examination of the field of psychology and its relationship to other disciplines. [I]

TPSYCH 301
Psychology of Adjustment
5 credits
Examines research and theory focused on how people and organizations cope with change. The place of change in theories of human development, the mechanisms by which change is assumed to occur, strategies for managing change at the personal, organizational and societal level are discussed as well as the relationship between stress and social disorder and change. [I]

TPSYCH 305
Statistical Methods for Psychology
5 credits
Examines notions and methods of descriptive theoretical statistics and statistical reasoning. Focuses on inferential statistics and provides an introduction to the probability theory. Concentrates on interpretation of statistics as it relates to the field of psychology. [Q]

TPSYCH 311
Personality Theory
5 credits
Covers the major theories of personality. Analyzes the personalities of famous individuals according to various theorist perspectives. [I]

TPSYCH 320
Race, Class and GenderContexts of Child Development
5 credits
Explores how cultural contexts that include racism, classism, and sexism, as well as other contexts, such as school, family, and neighborhood, differentially shape the experiences of children. Applies these contexts to specific topics, such as cognitive development, identity, moral development, families, peers, and media. [I]

TPSYCH 321
Adolescent Psychology
5 credits
Explores the multiple contexts of adolescents' lives, including the interactions of biology, psychology, and sociocultural aspects of development. [I]

TPSYCH 322
Adult Development
5 credits
This course examines adult development, beginning with the transition to adulthood through young, middle and old adulthood. Special attention is placed on examining diverse individual experiences and social/ contextual factors in the United States and their effect on the changes, choices, opportunities, and paths through adulthood. [I]

TPSYCH 340
Mental Illness Across Cultures
5 credits / Prerequisite: TPSYCH 210
Examines how mental illness is understood by different cultures and in different historical periods. [I]

TPSYCH 401
Family Violence
5 credits
Family violence is a pervasive social problem. This course offers a comprehensive interdisciplinary investigation of this topic. We will explore the history, theoretical explanations, causes and consequences of family violence, including intimate-partner violence, date and marital rape, elder abuse, and child physical and sexual abuse. [I]

TPSYCH 402
Human Sexuality
5 credits
The major objectives of this course are to: provide practical information about human sexuality, including biological, sociological, and psychological material, research methods, and current issues; to provide an opportunity to take the material learned and apply it to everyday situations, particularly those of a psychological nature. [I]

TPSYCH 403
Psychology of Black Women
5 credits
Examines the major objectives of this course are to: provide practical information about human sexuality, including biological, sociological, and psychological material, research methods, and current issues; to provide an opportunity to take the material learned and apply it to everyday situations, particularly those of a psychological nature. [I]

TPSYCH 404
Psychology of Food and Culture
5 credits
Covers a global look at the social, symbolic and political-economic roles of food and eating. Examines cultural, ethnic and gender issues in relation to the production and consumption of food, as well as the neurobiological effects of certain foods on brain activity. [I]

TPSYCH 405
Body Image and the Psychology of Appearance
5 credits
Examines the individual and social forces that shape body image, and psychological and physical correlates of body image. Influence of physical appearance on social perception will be covered, and adaptation to social/psychological appearance demands in terms of both problems, such as eating disorders, and resistance. [I]

TPSYCH 406
Chemical Dependency
5 credits
Examines the biological, psychological, social and cultural factors involved in drug dependency and their influences on families. Explores theoretical concepts and practical situations related to family roles resulting from drug dependency. Examines prevention, intervention, treatment and 12-step programs including those related to various ethnic and cultural groups. [I]
TPSYCH 407
The Cultural Context of Developmental Psychology
5 credits
Extends understanding of basic child development by critiquing and placing in cultural context Western models of development and methodologies used to search for universal development. Explores importance of culture to understanding developmental processes and the political nature of developmental psychology. [I]

TPSYCH 409
Group Counseling and Dynamics
5 credits
Examines group work, group processes, patterns of communication, group and individual goal-setting, leadership, personal control, decision-making, self-esteem, and cultural factors. Includes role-playing and simulations and group participation.

TPSYCH 410
Existential Psychology
5 credits
Examines the philosophical and literary movement of existentialism and its impact on clinical psychology. [I]

TPSYCH 411
Psychology and the Arts
5 credits
Examines psychological theories and research related to creativity and the mind using literature, film, music and empirical research. [I]

TPSYCH 412
Women's Health: Power and Inequality
5 credits
Places women's health in psychological, social, cultural, and political context. Surveys issues important to women's health, such as reproductive health, pregnancy and childbirth, mental health, and promoting women's health. Examines how gender interacts with ethnicity, social class, sexual orientation, and age in health and health care. [I]

TPSYCH 414
Psychology of Contemporary African-American Culture
5 credits
Examines issues of contemporary African-American culture using an interdisciplinary approach and a psychological perspective. Topics include arts and media representations, political involvement, language, identity development, and personal relationships. Emphasizes social context as a way to better understand the psychological functioning of individuals of African-American descent. [I]

TPSYCH 415
Issues in Social Psychology
5 credits; max. 10 credits
Examines the social context and influence of social movements such as hip-hop, black power, and feminism. Analyzes forms of popular culture from the perspective of social psychology. Topics vary. [I]

TPSYCH 416
Freud and His Critics
5 credits
Examines the work of Sigmund Freud, its impact on clinical psychology, and historical and contemporary criticisms of this theoretical school. [I]

TPSYCH 420
Attachment and Interpersonal Relations
5 credits / Prerequisite: TPSYCH 311
Takes a historical approach examining infant and adult attachment from its interdisciplinary origins, through the development of the methods used to test the theory, to its current status. May also cover topics at the boundaries between attachment and other areas, such as culture or neuroscience. [I]

TPSYCH 421
Social Psychology, Law, and Society
5 credits / Prerequisite: TPSYCH 240
Examines the interaction of social psychology and the law and the role both play in the development of legal policy. Considers selected topics at the forefront of psych-legal inquiry, such as eyewitness testimony, confession evidence and implicit bias. [I]

Quantitative Studies
TQS 098
Intermediate Algebra
0 credits
Intermediate algebra equivalent to third semester of high school algebra. Extra fee required.

TQS 107
Mathematics: A Practical Art
5 credits / Prerequisite: score of 49% on MATHIA placement test, score of 35% on MATHPC placement test, or score of 56% on MATHEA placement test
Focuses on the important ideas of mathematics and mathematical methods of investigation with application to real life problems. Covers selected topics in arithmetic, geometry, probability and statistics. For students who have at least 1.5 years of high school algebra and do not plan to take additional mathematics. [N/Q]

TQS 110
Introductory Statistics with Applications
5 credits
Addresses introductory statistical concepts and analysis in modern society. Includes descriptive statistics, graphical displays of data, the normal distribution, data collection, probability, elements of statistical inference, hypothesis testing, and linear regression and correlation. Practical examples used to demonstrate statistical concepts. [N/Q]

TQS 111
Algebra with Applications
5 credits / Prerequisite: score of 49% on MATHIA placement test, score of 35% on MATHPC placement test, or score of 56% on MATHEA placement test
Examines the use of graphs and algebraic functions in business, economic, life and social sciences. Covers algebraic graphical manipulations to solve problems. Applies polynomial, exponential and logarithmic functions to describe phenomena in the real world. [N/Q]

TQS 120
Precalculus
5 credits / Prerequisite: TMATH 098, score of 60% on MATHIA placement test, score of 40% on MATHPC placement test, or score of 77% on MATHEA placement test
Examines polynomial, rational, exponential, and trigonometric functions. [N/Q]

TQS 124
Calculus with Analytic Geometry I
5 credits / Prerequisite: 2.5 in TQS 120, score of 68% on MATHPC placement test, score of 75% on MATHEC placement test, or score of 2 on AP test
First quarter in calculus of functions of a single variable. Emphasizes differential calculus. Emphasizes applications and problem solving using the tools of calculus. [N/Q]

TQS 125
Calculus with Analytic Geometry II
5 credits / Prerequisite: either 2.0 in TQS 124, score of 3 on AB advanced placement test, or score of 3 on BC advanced placement test
Second quarter in the calculus of functions of a single variable. Emphasizes integral calculus. Emphasizes applications and problem solving using the tools of calculus. [N]

TQS 126
Calculus with Analytic Geometry III
5 credits / Prerequisite: 2.0 in TQS 125, score of 5 on AB advanced placement test, or score of 4 on BC advanced placement test
Third quarter in calculus sequence. Sequences, series, Taylor expansions, and an introduction to multi-variable differential calculus. [N]

TQS 210
Intermediate Statistics with Applications
3-5 credits / Recommended: TQS 110 or equivalent
Investigates intermediate concepts of statistical inference and testing using statistical software for analysis. Analyzes datasets and examples from a variety of disciplines such as environmental and social science. Includes critical review of scholarly reports. Continuation of TQS 110. [N/Q]

TQS 211
Calculus and its Practical Applications
5 credits / Prerequisite: Pre-calculus
This course involves the study of calculus and its applications in science and business. Calculus is the mathematics of motion and change. Topics include: advanced functions and their limits, maximums and minimums, rates of change or derivatives, and areas or integrals. Functions are analyzed graphically using computer techniques. [N/Q]
TQS 213
Calculus and Its Practical Applications II
5 credits / Prerequisite: TQS 211
Covers advanced calculus and probability. Includes differential equations, functions of several variables, density and distribution functions. Stresses deep understanding of the main concepts and the usage of those concepts for mathematical modeling and application in science and business. [N]

TQS 214
Analytical Thinking
5 credits
Develops problem-solving skills, decision-making methods, and precise written formulation of ideas through elementary mathematics. Emphasizes logical thinking and precise formulation of statements rather than mathematical formulae and theorems. Analyzes real life problems and situations; examines optimal decisions/solutions. No specialized mathematical skills required. [Q]

TQS 301
Mathematics:
A Quantitative Reasoning Approach
5 credits
Develops skills of mathematical reasoning with a broad application to several disciplines. Topics include logic, argument analysis, statistical reasoning, problem solving, mathematical modeling, exponential growth and decay, as well as application to the arts. Computer analysis techniques used where applicable. [N/Q]

TQS 307
Introduction to Differential Equations
3 credits / Prerequisite: 2.0 in TQS 125
Introductory course in ordinary differential equations. Includes first- and second-order equations and Laplace transform. [N]

TQS 308
Matrix Algebra with Applications
3 credits / Prerequisite: either 2.0 in TQS 126
Systems of linear equations, vector spaces, matrices, subspaces, orthogonality, least squares, eigenvalues, eigenvectors, applications. For students in engineering, mathematics, and the sciences. Credit allowed for only one of MATH 308 or MATH 318. [N]

TQS 390
Probability and Statistics in Engineering and Science
4 credits / Prerequisite: TQS 126
Concepts of probability and statistics. Conditional probability, independence, random variables, distribution functions. Descriptive statistics, transformations, sampling errors, confidence intervals, least squares and maximum likelihood. Exploratory data analysis and interactive computing. Students may receive credit for only one of TQS 390, STAT/ECON 481, and ECON 580. [N]

TQS 408
Numerical Methods
2 credits
Covers basic numerical methods and techniques. Topics include: error analysis, Newton’s method, interpolation, numerical integration, Runge-Kutta methods, iterative methods for solving linear systems, discrete least squares approximation. [N/Q]

Spanish

TSPAN 101
Elementary Spanish I
5 credits / Prerequisite: score of 0-15 on SP100A placement test if Spanish is language of admission
Methods and objectives are primarily oral-aural.

TSPAN 102
Elementary Spanish II
5 credits / Prerequisite: either TSPAN 101, or score of 16-44 on SP100A placement test
Methods and objectives are primarily oral-aural.

TSPAN 103
Elementary Spanish III
5 credits / Prerequisite: either TSPAN 102, TSPAN 110 or score of 45-69 on SP100A placement test
Methods and objectives are primarily oral-aural.

TSPAN 110
Basic Spanish Review
5 credits / Prerequisite: score of 10-44 on SP100A placement test
Covers the equivalent of 101 and 102 to prepare for 103. May not be taken in addition to 101 or 102.

TSPAN 121
Spanish Immersion I
5 credits / Prerequisite: score of 0-15 on SP100A placement test if Spanish is language of admission
Covers the equivalent of elementary Spanish (SPAN 101, 102, 103) through an alternative “planned immersion” method.

TSPAN 122
Spanish Immersion II
5 credits / Prerequisite: TSPAN 121
Covers the equivalent of elementary Spanish (SPAN 101, 102, 103) through an alternative “planned immersion” method.

TSPAN 123
Spanish Immersion III
5 credits / Prerequisite: TSPAN 122
Covers the equivalent of elementary Spanish (SPAN 101, 102, 103) through an alternative “planned immersion” method.

TSPAN 134
Intensive First-Year Spanish
15 credits
Equivalent of 121, 122, 123. Employs “planned immersion” method. Not open for credit to students who have taken TSPAN 121, 122, 123 or 102, 103.

TSPAN 199
Foreign Study: Elementary
2-16 credits, max. 16
Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the faculty adviser and may be required to take additional courses through 103.

TSPAN 201
Intermediate Spanish I
5 credits / Prerequisite: either TSPAN 103, TSPAN 123, TSPAN 134, score of 70-100 on SP100A placement test, minimum score of 51 on SP10A placement test, or score of 0-75 on SP200A placement test
Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. [V]

TSPAN 202
Intermediate Spanish II
5 credits / Prerequisite: either TSPAN 201 or score of 76-145 on SP200A placement test
Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. [V]

TSPAN 203
Intermediate Spanish III
5 credits / Prerequisite: either TSPAN 202, TSPAN 210, or score of 146-165 on SP200A placement test
Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. [V]

TSPAN 210
Accelerated Intermediate Spanish
5 credits / Prerequisite: either TSPAN 103, 123, or 134
Merges TSPAN 201 and TSPAN 202. Designed to build listening, speaking, reading, and writing skills and to expand knowledge of culture and literature of the Spanish-speaking world. [V]

TSPAN 299
Foreign Study: Intermediate
2-16 credits, max. 16
Intermediate instruction in approved foreign study program. Further study at 200 level subject to placement test score. [V]

TSPAN 393
Foreign Study
2-10 credits, max. 20 / Prerequisite: either TSPAN 301, 310 or 314, any of which may be taken concurrently
Study in Spanish speaking country outside the standard Spanish curriculum of the University of Washington. [V]

States and Markets
TSMG 312
Economics in Modern Society
5 credits
Offers a matter-of-fact understanding of the economic system we live in. Covers economic concepts and research on an institution of choice, such as the commercial enterprise, banking, the new economy, the environment and the agricultural sector, and the prison system. [I]
TSMG 313 Theories of Economic Development and Social Change 
5 credits
Introduction to the major theories on Third World economic development and social change in the post-World War II period. Examines the historical evolution of these theories and the important debates surrounding them, and critically assesses the theories in light of late 20th-century development experience in both western and non-western contexts. Major theories include liberal, Marxist, modernization, dependency, world systems, and the “new comparative political economy.” [I]

TSMG 367 Utopias 
5 credits
Explores the ideal society of the classical era and the Renaissance, and contrasts these early visions with the modern models of mass society and competitive markets in the light of the revolutionary experiences of the 19th and 20th centuries. Covers Utopian literature, political philosophy, economics, art and music.

TSMG 420 Women in the Global Economy 
5 credits
Explores impact of “modernization” and “development” on the status and roles of women in selected Western and non-Western societies. Critical analysis of assumptions about women's responses to social change which have guided research and development planning. Examines cultural practices, economic arrangements and government policies in order to understand opportunities and obstacles confronting women in developing countries today. [I]

TSMG 422 Political Economy of Technological Change 
5 credits
Discusses the various ways technological change is conceptualized. Argues that technological change is both radical and incremental and is an outcome of economic, socio-political and cultural conditions. Seeks to show the complex dynamics underlying technological change, including bargaining, technology transfer, “learning-by-doing” and the role of the state in both industrialized and developing societies. [I]

TSMG 424 International Business and Development 
5 credits
Study of the ways in which interactions between states, local business, multinational enterprises and political agencies produce uneven levels and rates of development in different countries. The course examines the question whether economic and technological backwardness will be a permanent feature of the modern world. [I]

TSMG 426 The Nature of Money 
5 credits
Investigates the nature of money. Historical analysis of paper and metal money, bank credit and financial transactions, from antiquity to the present provides an understanding of the immense power of construction, destruction and suggestion that is exercised by this enigmatic means of payment. [I]

TSMG 440 Political Geography: Territory, State and Society 
5 credits
Introduction to political geography from the perspective of political economy and the politics of difference. Discusses both critical approaches to human geography and geographical interpretations of the state. Emphasizes spatial dimensions of capitalist development as mediated by urban, national and global politics. [I]

TSMIN 200 International Interactions 
5 credits
Interdisciplinary study of the interactions of diverse societies and traditions in the modern world. Topics may include: revolution, ecology, group and individual identity, nationalism and oppression, economic development and social change, world views, art and spiritual life. Content and approach will vary with the instructors. [I]

TSMIN 224 Modern Latin America 
5 credits
A multidisciplinary examination of Latin America with a social science emphasis. The course includes a brief history of the region, sociological analysis of various Latin American institutions (the Church, the military, the labor movement, etc.), a consideration of migration issues and development economics, and a brief section on culture. The course concludes with an examination of contemporary Latin American political and social issues. [I]

TSMIN 229 Making of Modern Africa 
5 credits
This course aims at seeing how Africa’s societies came to be as they are today. The course concentrates on international and global movements of capital, technology, commodities, people and ideas and with their effects on the way people live. It will focus on the part played by Africa and African peoples in these global movements. [I]

TSMIN 310 Modern European Political Theory 
5 credits
Examines the emergence and development of modern European political thought through selected works by some of its most important exponents. Analyzes answers to questions about the nature of a political community, about citizenship and rights, about the evolving meaning of freedom, equality and democracy. [I]

TSMIN 311 International Human Rights 
5 credits
Team-oriented research on the historical origins, theories, basic documents, personalities, institutions, and legal and political processes which have promoted international human rights as a widely accepted legal and moral foundation for a just world order. [I]

TSMIN 312 19th-Century Revolutions and Revolutionaries 
5 credits
Examines the major revolutionary events and ideas of the 19th century: liberalism, socialism, and anarchism. Emphasizes discussion of political theories, movements, and their relationships to underlying historical processes. Ends with consideration of how these revolutions and revolutionaries helped define the political agenda for the 20th century. [I]

TSMIN 314 20th-Century Revolutions 
5 credits
This course is an interdisciplinary look at four major 20th-century revolutions: those in Russia, China, Cuba, and Nicaragua. The course will begin with political theories of revolution; then it will discuss the historical process which accomplished each of the four revolutions and end with a discussion of how these revolutions established political legitimacy and culture. [I]

TSMIN 315 Europe in the 20th Century 
5 credits
An interdisciplinary examination of the major political, social and cultural developments in Europe during the 20th century. The course will look at the two world wars, fascism and communism as alternatives to parliamentary democracy, Europe's remarkable revival in the era since 1945, and conclude with an examination of the new integration of Europe and its prospects for re-establishing its former world prominence in the future. [I]

TSMIN 323 The Making of Mexico 
5 credits
Considers the principal historical, social, and cultural forces that have been at work in creating the Republic of Mexico. Examines the country's pre-Columbian past, the colonial era, the movement for independence, the Mexican Revolution, and the period of construction during the middle decades of the 20th century. Films, music, and slides supplement the lectures and discussions. [I]
TSMIN 326
Modern Brazil
5 credits
This interdisciplinary course will trace the development of modern Brazil from independence to the present. Of particular interest will be the development of the military, the modernization of the Brazilian economy and the role of the popular sectors. The concepts of modernization/developmentalism, populism, and corporatism will be discussed. The course will also cover contemporary issues such as environmental degradation and urban violence. The course will be comprised of both lectures and seminar-style discussions. Through class discussions, readings, lectures, and papers, students should develop their skills of critical analysis and enhance their expressive capabilities—both oral and written. [I]

TSMIN 328
Third World Problems and Prospects
5 credits
An examination of contemporary issues and problems faced by the developing world. Economic development, resource use and aspects of neocolonialism are considered. Selected topics relevant to individual Third World regions are discussed and case studies are presented. [I]

TSMIN 330
Globalization in Latin America
5 credits
Examines influences of globalization on local communities in Latin America. Considers the possibilities of free trade, multinational, development agencies, the rule of law, and democratic activism to create economic and political development and livable communities. [I]

TSMIN 340
War and Empire in the Middle East
5 credits
Comprehensive analysis of Middle Eastern Conflicts from WWI to the present time, from a political and economic point of view. Explores the encounter of Western culture and the Middle East through war and empire building, with emphasis on religious, ideological, political, and economic differences.

TSMIN 410
Caribbean Basin: Selected Topics
5 credits
Selected themes concerning the region comprised of the Caribbean Islands, Central America, Venezuela, and Colombia. The course will focus on a different topic or micro-region each quarter. May be repeated for credit with instructor's approval. [I]

TSMIN 411
Human Rights and Violence in the Third World
5 credits
This course is an interdisciplinary examination of political violence and human rights concerns in under-developed regions. The course will begin by establishing broad, inclusive definitions of violence and human rights, which will be used throughout the course. [I]

TSMIN 412
History of Vietnam
5 credits
Examines Vietnamese history, culture and society from the earliest days through the 1980s. [I]

TSMIN 413
Pre-modern Japan
5 credits
From its pre-history to the 18th century Japan blended native traditions with continental Chinese influences to create its own civilization. This course will examine the political, economic, social and intellectual factors that shaped Japan in the premodern age. The course provides a background to understanding the development of modern Japan. [I]

TSMIN 414
Modern China
5 credits
Starting with early Chinese contacts with the West, this course will trace the 19th and 20th century Chinese experience through China's struggles to modernize, its revolutionary experience and the establishment and continuation of communist rule. Using an historical framework, this course will examine China's transformation from imperial rule to "People's Republic" by exploring political and economic change, and just as importantly, social, cultural and intellectual change. [I]

TSMIN 415
Modern Japan
5 credits
This course will trace the transformation of Japan from a feudal country under Tokugawa military rule in the 19th century to an economic superpower in the 20th century. In addition to historical and political issues, social and cultural topics will be addressed, as will the clash of traditional Japan with the modern, industrialized West. [I]

TSMIN 416
Modern Korea
5 credits
Traces Korea's transition from traditional Asian state to modern nation emerging on the world economic scene. Because of its geographic location, Korea has suffered chaotic change in the modern period. Course will cover Korean society, culture and politics, looking at Korea's period as a Japanese colony, the division of Korea, the Korean war and recent developments. [I]

TSMIN 418
Interpreting Enigmatic India
5 credits
Introduces the politics and economics of modern India. Using a historical approach, this course examines India as a nation-state and its attempts to resist global capitalism. How this resistance has been shaped by local class and caste politics, regional differences, economic policies and performance are reviewed critically. Why there have been recent attempts to reintegeate India with the world economy and what it means for India's future are also addressed. [I]

TSMIN 420
Theories of Political Violence
5 credits
Establishes broad, inclusive definitions of violence. Review of the theoretical discourse on the nature of violence as a political phenomenon. Themes include terrorism (both non-authoritative and state-sponsored), civil conflicts, and “tools” or calculated manifestations of violence (torture, massacres), the relationship between violence and development, and the relationship between culture and violence. [I]

TSMIN 422
International Humanitarian Law
5 credits
Investigates International Humanitarian Law (sometimes called the Law of Armed Conflict), the field concerned with rules developed by civilized nations to protect the victims of armed conflict, including the Geneva Conventions. Case studies include the conflict between Israel and the Palestinians, as well as developments in Afghanistan and Iraq. [I]

TSMIN 424
Imperial China
5 credits
Surveys the social, political, economic and intellectual history of Imperial China from the earliest times to the 17th century. Provides a background to understanding the development of Asia in general and modern China in particular. [I]

TSMIN 425
Contemporary Issues in International Political Economy
5 credits
As the 21st century opens, pressing issues confronting both industrialized and underdeveloped societies are addressed. Topics and themes will vary and may include one or more of the following: the international debt crisis; the changing international division of labor; poverty and inequality in the world economy; liberation movements; internationalization of production and regional disruptions in the U.S. [I]

TSMIN 432
Drugs, Maﬁas and the Economics of Crime
5 credits
Provides a history of the Sicilian Maﬁa, an analysis of the Maﬁa's economic activities; the connection to the Red (Russian) Maﬁa; the modern developments and financial laundering of dirty money; the arms trade, and the tangle of interests uniting warfare, drug trafﬁcking and overall political destabilization. [I]

TSMIN 433
Exploring Nazism
5 credits
Investigates the Nazi movement by looking at three key aspects of the phenomenon: society, ﬁnance and economics, and the revival of Germanic paganism. Examines the rise to power of Hitler and his followers cast against the social history of Germany and Europe from 1918 to 1938. [I]
TSMIN 434 The Pacific War 5 credits
Traces the Pacific War, examining the emergence of modern Japan, the sources of conflict in Asia and between Japan and the United States, the battles that comprised the war, the home fronts of the involved nations, and the war’s end and its impact on Asia and the world. [I]

TSMIN 435 Contemporary Geopolitics 5 credits
This course explores geopolitical concepts and relates them to contemporary global issues and debates. It examines both the influence of geography on politics and the geography of politics. [I]

TSMIN 436 Contemporary Chinese Culture and Society 5 credits
Examines cultural life in China since the founding of the People’s Republic of China in 1949. Includes political rituals (e.g., struggle sessions), socialist policies (e.g., household registrations, work units), post-Mao social classes and consumerism and family relations and cultural practices such as gift-giving and relationship building. [I]

TSMIN 437 Conflict Resolution Practicum 5 credits
Provides an opportunity to be involved in conflict resolution projects and work collaboratively with the Conflict Resolution Institute on case study analyses. [I]

TSMIN 480 Language and Culture of China 15 credits
Combines intensive study of Mandarin Chinese with an examination of the history, culture, language, and politics of China. Classes held at Beijing University, People’s Republic of China. [I/V]

TSMUS 200 American History I: 1607-1877 5 credits
Introduces, surveys, and analyzes American history from 1607-1877. Traces political, economic, social, and cultural trends of America’s Colonial, Revolutionary, Early National, Antebellum, Civil War, and Reconstruction eras. [I]

TSMUS 201 American History II: 1877-present 5 credits
Introduces, surveys, and analyzes American history from 1877-present. Traces the major political, economic, social, and cultural trends of the American eras of Industrial Revolution, Progressivism, 1920s, FDR and the New Deal, World War II, Cold War, 1960s, and Reaganism to the present day. [I]

TSMUS 225 Economics as a Way of Thinking 5 credits
Examines the economic theory of individual choices, applying this theory to analyzing many economic phenomena. Emphasis on relating an understanding of economic theory to public policy issues, in particular the appropriate boundary between the public and private sector, environmental policy, education policy and tax policy. [I]

TSMUS 300 The Making of America 5 credits
Interdisciplinary study of diverse and changing American cultures. Topics may include: materialism, art and spiritual life; freedom and oppression; individualism and community; ethnicity, race, class and gender; social movements and social change; environmental ethics. Content and approach will vary with the instructor. [I]

TSMUS 320 American Constitutional Law 5 credits
Covers fundamental principles of U.S. Constitution with emphasis on current and future controversial issues such as sex and race discrimination, free speech including the entertainment industry, privacy rights, rights of the criminally accused, Roe v. Wade, and separation of church and state. Discusses significant Supreme Court cases. [I]

TSMUS 322 American Labor Since the Civil War 5 credits
A history of workers and labor institutions from the era of industrialization to the postindustrial era, focusing on labor-management conflict, the rise and fall of unions, and on the role of government, the media and other forces in determining events. The course will conclude with an assessment of labor today. [I]

TSMUS 410 Early American Politics and Law 5 credits
This course will explore American political history from a variety of perspectives. Topics will change from quarter to quarter and will include, but are not limited to: the American Revolution; Constitution and Bill of Rights; political party systems; Jacksonian democracy; nationalism and sectionalism; and American law and lawyers. May be repeated for credit with instructor’s approval. [I]

TSMUS 416 Current Issues in U.S. Public Policy 5 credits
Examines the economics of government finance in the United States including: tax policy, social security, health insurance, welfare and education. Analyzes the conditions under which governments, rather than markets, provide goods; discusses current government policies and programs, and how well they work; and analyzes proposed reforms. [I]

TSMUS 417 Urban Problems and Policies 5 credits
Analytical and empirical study of the economics of urban problems and policies in the United States including: education, poverty, housing, crime, finance, congestion and welfare. Presents a historical background to trends in urban areas and how these have been addressed in different regions. Where applicable, class related to Pierce County. [I]

TSMUS 420 Economics of Education 5 credits
Examines topics in the economics of education, including how are schools financed and why; what determines the amount and distribution of individuals’ educational attainment; debate over school vouchers; and the economic returns of education. [I]

TSMUS 421 Environmental Policy 5 credits
Examines tradeoffs between the formal economy and the environment, and assesses current environmental policy. Places particular emphasis on examining and understanding local environmental issues. [II][N]

TSMUS 422 Economics of Sports 5 credits
Explores sports economics. Uses economic theory and reasoning to examine issues central to professional sports, such the determination of salaries and whether or not the public subsidy of stadiums can be justified. [I]

TSMUS 467 United States History: 1945 to the Present 5 credits
Examines U.S. history from 1945 to the present. Examines the social, political and economic history of the nation. Focuses on the role of culture, social consciousness, political thought and the confluence of race, class and gender in shaping U.S. history. Focuses on new developments in American life. [I]

Independent Study Courses
TESC 496 Internship 1-10 max. 10 / Permission of instructor required
Environmental Science internship in the public or private sector, supervised by a faculty member. Permission based on approval of proposal submitted in advance of the internship. Offered for credit/no credit only.
**TESC 497**  
**Senior Thesis**  
5 credits / Permission of instructor required  
A significant environmental science independent research project planned and carried out by the student under the direction of a faculty member on a significant scholarly topic selected by the student in consultation with faculty.

**TESC 498**  
**Directed Readings**  
1-5 credits, max. 15 / Permission of instructor required  
Individual advanced research projects with an environmental emphasis carried out under supervision of individual faculty member.

**TESC 499**  
**Undergraduate Research**  
1-10 credits, max. 15 / Permission of instructor required  
Individual advanced environmental science or studies research projects carried out under supervision of individual faculty member.

**TIAS 494**  
**Honors Thesis**  
5 credits, max. 10  
Research and writing of a thesis supervised by a full-time IAS faculty member on a significant scholarly topic for students admitted to the IS honors option.

**TIAS 496**  
**Internship**  
1-5 credits, max. 10 / Permission of instructor required  
Internship in the public or private sector, supervised by a faculty member. Permission based on approval of proposal submitted in advance of the internship. Offered for credit/no credit only.

**TIAS 497**  
**Senior Thesis**  
5 credits / Permission of instructor required  
A significant independent research project planned and carried out by the student under the direction of a faculty member on a significant scholarly topic selected by the student in consultation with faculty.

**TIAS 498**  
**Directed Readings**  
1-5 credits, max. 15 / Permission of instructor required.  
Individual advanced research projects carried out under supervision of individual faculty member.

**TIAS 499**  
**Undergraduate Research**  
1-5 credits, max. 15 / Permission of instructor required.  
Individual advanced research projects carried out under supervision of individual faculty member.

**Cheryl Greengrove**  
*Interim Director and Associate Professor*  
Interdisciplinary Arts and Sciences; Geoscience, Oceans, Atmospheres; Ph.D., Columbia University, 1986.

**Luther Adams**  
Assistant Professor, Interdisciplinary Arts and Sciences; History, Ph.D., University of Pennsylvania, 2002.

**Dolores Alcaide Ramirez**  
Assistant Professor, Interdisciplinary Arts and Sciences; Spanish, Ph.D., Purdue University, 2006.

**Michael Allen**  
Professor, Interdisciplinary Arts and Sciences; American History and Folklore; Ph.D., University of Washington, 1985.

**Katie Baird**  
Associate Professor, Interdisciplinary Arts and Sciences; Economics of Social Issues, Public Economics; Ph.D., University of Massachusetts, 2000.

**John Banks**  
Associate Professor, Interdisciplinary Arts and Sciences; Applied Ecology, Agroecology, Mathematical Biology, Plant-Animal Interactions; Ph.D., University of Washington, 1997.

**Anne Beaufort**  
Associate Professor, Interdisciplinary Arts and Sciences; Composition and Writing, Ph.D., Stanford University, 1995.

**Bonnie Becker**  
Assistant Professor, Interdisciplinary Arts and Sciences; Marine Ecology; Ph.D., University of California, San Diego, 2005.

**Nicole Blair**  
Lecturer, Interdisciplinary Arts and Sciences; Writing and British Literature; Ph.D., University of Tennessee, 1989.

**James F. Brown**  
Professor Emeritus, Interdisciplinary Arts and Sciences; Philosophy; Ph.D., New York University, 1974.

**Tyler Budge**  
Assistant Professor, Interdisciplinary Arts and Sciences; Three-Dimensional Art, Sculpture; M.F.A., Illinois State University, 2002.

**Kima Cargill**  
Assistant Professor, Interdisciplinary Arts and Sciences; Clinical Psychology, Ph.D., University of Texas at Austin, 2002.

**Erica Cline**  
Assistant Professor, Interdisciplinary Arts and Sciences; Microbiology, Ph.D., University of Washington, 2004.

**Robert Crawford**  
Professor, Interdisciplinary Arts and Sciences; American and Cultural Studies; Ph.D., University of Chicago, 1974.

**Katherine Siân Davies-Vollum**  
Associate Professor, Interdisciplinary Arts and Sciences; Geology; D. Phil., St. Peter’s College, University of Oxford, 1994.

**Linda Dawson**  
Lecturer, Interdisciplinary Arts and Sciences; Aeronautical and Astronautical Engineering; M.S., George Washington University, 1973.

**Anthony D’Costa**  
Professor, Interdisciplinary Arts and Sciences; Political Economy, International Development; Ph.D., University of Pittsburgh, 1989.

**Chris Demaske**  
Assistant Professor, Interdisciplinary Arts and Sciences; Communication and Society; Ph.D., University of Oregon, 2002.

**Steve DeTray**  
Senior Lecturer, Interdisciplinary Arts and Sciences; Political Science, Third World Development, Nonprofit Studies; Ph.D., University of Washington, 1995.

**Joyce Dinglasan-Panlilio**  
Acting Assistant Professor, Interdisciplinary Arts and Sciences; Chemistry; Ph.D., University of Toronto, 2007.

**Cynthia Duncan**  
Associate Professor, Interdisciplinary Arts and Sciences; Spanish, Portuguese and Latin American Literature; Ph.D., University of Illinois, 1983.

**Michael Forman**  
Associate Professor, Interdisciplinary Arts and Sciences; Modern European Thought and Culture; Ph.D., Rutgers University, 1995.

**Kelly Forrest**  
Assistant Professor, Interdisciplinary Arts and Sciences; Social Psychology; Ph.D., University of Washington, 1998.

**James Gawel**  
Associate Professor, Interdisciplinary Arts and Sciences; Environmental and Aquatic Chemistry, Civil and Environmental Engineering; Ph.D., Massachusetts Institute of Technology, 1996.

**Claudia Gorbman**  
Professor and Director of Global Honors, Interdisciplinary Arts and Sciences; Film Studies, Comparative Literature, Women’s Studies; Ph.D., University of Washington, 1978.

**Mary Hanneman**  
Associate Professor, Interdisciplinary Arts and Sciences; Asian History, Pacific Rim Studies; Ph.D., University of Washington, 1991.
Philip Heldrich
Associate Professor, Interdisciplinary Arts and Sciences; Writing, English Literature and Small Press Publishing; Ph.D., Oklahoma State University, 1997.

Michael Honey
Professor, Interdisciplinary Arts and Sciences; American History, Labor and Ethnic Studies; Ph.D., Northern Illinois University, 1988.

Peter Horak
Professor, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., Comenius University, Slovakia, 1980.

Trista Huckleberry
Assistant Professor, Interdisciplinary Arts and Sciences; Educational Psychology; Ph.D., University of Texas at Austin, 2002.

Emily Ignacio
Associate Professor, Interdisciplinary Arts and Sciences; Sociology; Ph.D., University of Illinois at Urbana-Champaign, 1998.

Beth Kalikoff
Associate Vice Chancellor for Academic Affairs; Director of Core Curriculum; Associate Professor, Interdisciplinary Arts and Sciences; Composition Studies, Writing Pedagogy; Ph.D., Indiana University, 1983.

Michael Kalton
Professor, Interdisciplinary Arts and Sciences; Comparative Religion, East Asian Languages and Civilization; Ph.D., Harvard University, 1977.

Turan Kayaoglu
Assistant Professor, Interdisciplinary Arts and Sciences; International Politics; Ph.D., University of Washington, 2005.

Michael Kucher
Associate Professor, Interdisciplinary Arts and Sciences; History; Ph.D., University of Delaware, 2000.

William Kunz
Associate Professor, Interdisciplinary Arts and Sciences; Broadcast Communication; Ph.D., University of Oregon, 1998.

Ionna Mavrea
Lecturer, Interdisciplinary Arts and Sciences; Mathematics; M.S., University of Connecticut, 1999.

Rachel May
Associate Professor, Interdisciplinary Arts and Sciences; Latin American Studies; Ph.D., Tulane University, 1993.

Nita McKinley
Associate Professor, Interdisciplinary Arts and Sciences; Developmental Psychology; Ph.D., University of Wisconsin-Madison, 1995.

Divya McMillin
Associate Professor, Interdisciplinary Arts and Sciences; Communications; Ph.D., Indiana University, 1998.

David Morris
Associate Professor, Interdisciplinary Arts and Sciences; American Literature; Ph.D., University of Washington, 1984.

Michele Nacy
Lecturer, Interdisciplinary Arts and Sciences; American History; Ph.D., Kansas State University, 1995.

Beverly Naidus
Associate Professor, Interdisciplinary Arts and Sciences; Two-Dimensional Art, Painting, Drawing and Digital Imaging; M.F.A., Nova Scotia College of Art & Design, 1978.

Amós Nascimento
Assistant Professor, Interdisciplinary Arts and Sciences; Philosophy, Dr.Phil., Universität Frankfurt, 2002.

Julie Nicoletta
Professor, Interdisciplinary Arts and Sciences; Art History, Public History; Ph.D., Yale University, 1993.

Samuel Parker
Associate Professor, Interdisciplinary Arts and Sciences; Anthropology, Art History, Asian Studies; Ph.D., University of Chicago, 1989.

Guido Preparata
Affiliate Associate Professor, Interdisciplinary Arts and Sciences; Political Economy and Economic History; Ph.D., University of Southern California, 1998.

Jennifer Quinn
Professor, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., University of Wisconsin-Madison, 1993.

Deirdre Raynor
Associate Professor, Interdisciplinary Arts and Sciences; American Literature, African-American Literature; Ph.D., University of Washington, 1997.

Johann Reusch
Assistant Professor, Interdisciplinary Arts and Sciences; History of Arts and Culture, European History; Ph.D., University of California, Los Angeles, 1994.

Beth Rushing
Vice Chancellor and Professor, Interdisciplinary Arts and Sciences; Sociology; Ph.D., Duke University, 1988.

Peter Selkin
Lecturer, Interdisciplinary Arts and Sciences; Earth Sciences; Ph.D., Scripps Institution of Oceanography, University of California, San Diego, 2003.

Emmett Joseph Sharkey
Associate Professor, Interdisciplinary Arts and Sciences; Comparative Literature; Ph.D., University of California, Davis, 1998.

Riki E. Thompson
Acting Assistant Professor, Interdisciplinary Arts and Sciences; Composition and Rhetoric; Ph.D. candidate, University of Washington, 2007.

Carolyn West
Associate Professor, Interdisciplinary Arts and Sciences; Clinical Psychology; Ph.D., University of Missouri-St. Louis, 1994.

Charles Williams
Assistant Professor, Interdisciplinary Arts and Sciences; U.S. Politics, Ph.D., University of California, Berkeley, 2005.
BACHELOR OF SCIENCE

Nursing  (RN to BSN)

Philosophy of Undergraduate Education

The members of the Nursing faculty believe that the purpose of university-based undergraduate nursing education is to prepare professional nurses whose practice is informed by theory and research. The philosophy of the undergraduate curriculum is rooted in values of excellence, diversity, community, social justice, integrity and creativity. Preparation for the various roles in practice requires knowledge of the arts and sciences, together with content and processes foundational to the discipline. We are a community of learners and scholars—a community created in collaboration with students. The members of the faculty believe that their teaching styles need to take into account the diverse nature of how students learn. Ultimately, nursing education requires a commitment to community service, scholarly inquiry, interdisciplinarity and life-long learning.

Program Overview

Students in the BSN program are registered nurses who have completed the initial phase of their education through an associate degree or diploma nursing program. As most students in the UW Tacoma Nursing program are employed in a variety of health-care settings, courses are scheduled to enable students to continue employment while enrolled in the program of study. A BSN from UW Tacoma enhances the graduate’s ability to contribute to his or her community’s institutions and to the health of citizens of Washington state, particularly during this period of rapid change in health care.

The BSN curriculum focuses on critical thinking, responses to health and human functioning, nursing intervention and person-environment interaction within a context of cultural diversity. The curriculum also includes all the essential elements of baccalaureate education for professional nursing practice as defined by the American Association of Colleges of Nursing (AACN). An interdisciplinary emphasis encourages an understanding of a broad range of ideas, knowledge and methods of study.

Accreditation

As part of the top-ranked University of Washington School of Nursing at the Seattle campus, UW Tacoma’s Nursing program shares accreditation by the Commission on Collegiate Nursing Education (CCNE).

Program Goals

Opportunities are provided to enable the learner to develop professionally and to meet the Nursing program goals, which are for graduates to:

- Communicate clearly and succinctly in speech and in writing.
- Promote effective communication between clients from various socio-cultural and linguistic backgrounds and representatives of the health care and social service systems.
- Demonstrate critical thinking, clinical decision-making and psychomotor skills necessary for safe and competent practice.
- Demonstrate cultural sensitivity as shown by thought processes and behavior.

OVERVIEW

The Nursing program focuses on the discovery and dissemination of knowledge that promotes health. The curriculum emphasizes and fosters the integration of teaching, inquiry and service within a community of learners. Partnerships with the community assist the program in providing learning environments in which learners build upon their skills and knowledge to strengthen their understanding of local, national and global health issues.

Adviser: Dannah Madden
provide nursing care that preserves and enhances clients' dignity and perceived goodness of fit with the immediate and expected environments.

integrate methods of research and scholarship in making and prioritizing diagnoses and in planning, implementing and evaluating care of individuals, groups and communities.

Assess health and incorporate principles and methods of health promotion and health education in nursing care of individuals, groups and communities.

Accept accountability for own expertise and for using that expertise to influence systems of care and health care policy.

Demonstrate comfort with requirements for adaptation to changes in care settings.

Demonstrate awareness of limitations in knowledge and actively seek learning opportunities to continue competent practice.

To support and document progress toward accomplishing these goals, each student is required to submit a portfolio of work completed during the student's residence at UW Tacoma. This work will become a part of the student's record of accomplishment in the program.

**Essential Behaviors for Admission, Continuation and Graduation**

The following amplifies requirements found in the University of Washington Student Conduct Code. For admission, continuation and graduation in their programs, students need to abide by the following specifications for behaviors and abilities. In this document, "students" pertains to all UW Tacoma Nursing students.

**Communication**

Students must communicate effectively and sensitively with patients and their families as well as with other students, staff, faculty, professionals, agency personnel, community residents and others relevant to their areas of study. Expression of ideas and feelings must be clear and appropriate. Students must demonstrate a willingness and ability to give and receive feedback.

**Cognitive**

Students must be able to reason, analyze, integrate, synthesize and evaluate in the context of the nursing activities of their programs/areas of study.

**Behavioral/Emotional**

Students must possess the emotional health required for the full utilization of intellectual abilities, the exercise of sound judgment and the timely completion of responsibilities in their programs/areas of study. Further, students must be able to maintain mature, sensitive, and effective relationships with patients, students, faculty, staff, other professionals and agency personnel under all circumstances including highly stressful situations. Students must have the emotional stability to function effectively under stress and adapt to environments that may change rapidly without warning and/or in unpredictable ways as relevant to their programs or areas of study. Students must be able to demonstrate empathy for the situations and circumstances of others and appropriately communicate that empathy. Students must acknowledge that values, attitudes, beliefs, emotions and experiences affect their perceptions and relationships with others. Students must be able and willing to examine and change behaviors when they interfere with productive individual or team relationships. Students must demonstrate effective and harmonious relationships with the diverse academic, professional and community environments relevant to their chosen programs of study.

**Professional Conduct**

Students must possess the ability to reason morally and practice nursing in an ethical manner. They must be willing to learn and abide by professional standards of practice as well as regulations for professional licensure. Students must demonstrate the attributes of compassion, integrity, honesty, responsibility and tolerance.

**Motor and Sensory Skills**

Students need to have sufficient motor function and sensory skills to be able to execute movements and make observations required in the domain of nursing care or nursing activity in their chosen programs/areas of study.

**Reasonable Accommodation for Disabilities**

The Nursing Program is committed to ensuring that otherwise qualified students with disabilities are given equal access through reasonable accommodations to its services, programs, activities, education and employment for students with disabilities. The Nursing Program works closely with Disability Support Services (DSS) in this process. DSS is the contact point for students with permanent or temporary sensory, physical or psychological disabilities interested in requesting reasonable accommodations due to the effects of a disability.

Students who wish to request reasonable accommodations are encouraged to contact DSS to start the process for documenting their disability and determining eligibility for services prior to the start of the program. While this process can be started at any time, reasonable accommodations may not be implemented retroactively so being timely in requesting your accommodations is very important. The University does have policies regarding the type of documentation required in order to diagnose different disabilities and a process for requesting accommodations. To learn more about the process for establishing services through this office please contact: Disability Support Services at 253-692-4493 (V/TTY), 253-692-4602 (FAX), or dssuwt@u.washington.edu.

Students with disabilities are expected to perform all the essential functions of the program with or without reasonable accommodation. The Nursing Program will work with the student and the respective campus disability office to provide reasonable and appropriate accommodations. While the Nursing Program will make every effort to work with our students with disabilities to accommodate their disability-related needs, it is important to note we are not required to provide requested accommodations that would fundamentally alter the essential functions or technical standards of the program.

**Admission Requirements**

Applicants to the UW Tacoma BSN program must meet the following requirements:

- Current unrestricted licensure as a registered nurse in the state of Washington*
- One year of clinical practice (preferred, but not required)
- A cumulative GPA of at least 2.0 in all college coursework
- A minimum of 90 credits in prerequisite coursework to include:**
  - 5 credits of chemistry (CHEM 100 or 101)
  - 10 credits of anatomy and physiology (can be met via examination)
  - 3 credits of microbiology (can be met via examination)
  - 5 credits of advanced math (can be petitioned)

*Provisional admission may be offered to students in the final year of an associate degree in Nursing program.

**Students with 50–90 transferable credits may be considered. Please contact an adviser for more information.
are required to complete a health history and
basis.

annual admission process. Applications
Application Process
The UW Tacoma BSN program has an
that meet the priority closing date of Feb.
Subsequent
on a space-available
basis.
completed application consists of the
following materials:
Application for undergraduate
admission and application fee. For
admission in a quarter other than
Summer or Autumn, consult with the
BSN adviser before applying.
One official transcript reflecting
all previous academic and nursing
coursework. High school transcripts
should be submitted if foreign language
or intermediate algebra was completed
in high school.
Goal statement addressing reason for
pursuing a BSN, expectations and
outcomes desired for the educational
experience, and future educational or
professional goals.
Three recommendations: one from a
supervisor attesting to clinical abilities;
one from a supervisor, trainer or
instructor addressing ability to learn;
and a third from a peer or community
or other contact.
Résumé outlining nursing experience
and/or academic clinical experience.
Criminal background check must be
completed online through Verified
Credentials, Inc., if admission is
offered.
After admission to the program, students
are required to complete a health history and
possess required immunizations, current
CPR certification and unrestricted RN
license. Students will be required to complete
the UW HIPAA Compliance course. Students
are responsible for their own transportation
to and from practicum coursework.

Pre-major Admission
Admission for Nursing coursework is
in Summer and Autumn quarters. Pre-
major admission is offered in all quarters.
Students desiring to complete prerequisites
or required electives prior to beginning
required nursing coursework are encouraged
to contact the Nursing program office to
discuss pre-major admission.

Satisfactory Progress
Students are required to maintain
satisfactory progress in their pursuit of the
BSN degree, defined as achieving a minimum
grade of 2.0 in all nursing, nursing-related
and required courses. Students must also
achieve a 2.0 grade in any repeated course
and provide proof of valid RN licensure in
the state of Washington before enrolling in
any clinical course.
Students must meet all of the Essential
Behaviors for Admission, Continuation and
Graduation (see page 94).

Full-Time vs. Part-Time
The BSN program can be completed in
four quarters as a full-time student (10 to 14
credits per quarter for four quarters) or on
a part-time plan ranging from six to eight
quarters (four to nine credits per quarter).
Students who plan to work while attending
UW Tacoma are encouraged to attend part-
time or complete required electives and
prerequisites before beginning required
nursing coursework.

Scholarships
The Nursing Program offers under-
graduate and graduate scholarships for
current students or students transferring to
UW Tacoma. The scholarships are awarded
to students who demonstrate both financial
need and outstanding academic achieve-
ment. Contact the Nursing Program office
for more information at (253) 692-4470.

Graduation Requirements
To qualify for graduation with a Bachelor of
Science in Nursing from the University of
Washington Tacoma a student must:

Satisfy all BSN admission
requirements.

Complete all required Nursing
courses.

Complete 10 credits in upper-division
electives at UW Tacoma.

Complete a minimum of 180 credits
distributed as follows:
– 90 transfer credits
– 45 advanced placement credits via
RN licensure examination
– 45 graded credits in residence at
UW Tacoma:
  • 35 credits in required Nursing
coursework (minimum 2.0
grade in each course)
  • 10 credits in required upper-
division electives (minimum 2.0
grade in each course)

Additional electives to meet a minimum
of 180 credits (Nursing coursework
at UW Tacoma used to satisfy this
requirement must also be completed
with a minimum grade of 2.0).

ADN-BSN-MN Study Option
The ADN-BSN-MN study option is an
accelerated program plan for high-achieving
associate degree and diploma-prepared nurses
to earn their MN degree. Applicants must be
graduates of a National League for Nursing
accredited program. ADN-BSN-MN students
substitute two undergraduate nursing
courses with MN courses. The six credits
of master’s level course work are counted
as part of the 180 required undergraduate
credits.

A program of study is planned that
meets UW Tacoma BSN and MN graduation
requirements. The BSN is awarded upon
completion of the baccalaureate program.
Once a baccalaureate degree is earned
and the student is accepted into the UW
Graduate School, the student then completes
a 39-credit graduate program, rather than
the standard 45-credit program.

To be considered for the accelerated
ADN-BSN-MN study option, the student
must have a:

Cumulative GPA of 3.7 for all transfer
college courses.

Be in the top 25% of the class in TNURS
350, Critical Analysis and Writing to
Improve Decision Making.
Full-time BSN students must indicate interest and begin the application process in the ADN-BSN-MN study option by the end of the first quarter of study. Notification of admission status for this accelerated program will be completed prior to Autumn Quarter.

Part-time BSN students must indicate interest and complete the application process in the ADN-BSN-MN study option by the end of Autumn Quarter in their first year. Notification of admission status for this accelerated program will be completed prior to Winter Quarter.

Application Process
Students must first be accepted into the UW Tacoma BSN program before applying for the ADN-BSN-MN study option. The application process is as follows:

- Make an appointment with the BSN adviser. Call (253) 692-4470 to schedule an appointment.
  - Full-time students must meet with the adviser by the end of Summer Quarter.
  - Part-time students must meet with the adviser by the end of Autumn Quarter year one.

- Goal Statement. The statement should be relative to the objectives of the MN program. This should include how the ADN-BSN-MN study option will assist you in meeting your professional goals. This should be a maximum of three pages.

- UW Tacoma MN Application. Complete the application for admission to the UW Tacoma Master of Nursing program.

- References. Two additional references are required for this program. One must be an academic reference and one from a clinical nursing supervisor. MN Request for Recommendation forms can be downloaded from this Web site: www.tacoma.washington.edu/nursing/prospective_students/mn/mn_recommendation.pdf.

- Résumé or CV. The résumé should describe all work experience, including professional, volunteer and community activities, identify dates and positions and provide a brief description of responsibilities.

- Graduate School Application. Complete the online application for admission to the UW Graduate School. The application is found at https://www.grad.washington.edu/AppForAdmiss/.
  - Full-time students must complete this application by the end of Winter Quarter.

- Part-time students must complete this application by the end of Winter Quarter in the second year of study.

Acceptance into the ADN-BSN-MN study option does not connote or imply automatic acceptance into the UW Graduate School. The student must meet the criteria for acceptance. Requirements are found at www.tacoma.washington.edu/nursing/prospective_students/mn/admission.cfm.

Course Descriptions
See the Nursing Web page for the most current course information at www.tacoma.washington.edu/nursing.

Required Courses

T NURS 340 Clinical Nursing Phenomena
3 credits
Examines selected clinical phenomena from the perspective of physiologic, pathophysiologic, experiential and behavioral responses to life events and alterations in states of health and illness. Identifies relationship of nursing therapies to each perspective and influence of life span and socio-cultural factors.

T NURS 350 Critical Analysis and Writing to Improve Decision Making
3 credits
Focuses on critical thinking and writing relevant to learning and practice in nursing. Includes self-assessment, collaborative learning, problem solving approaches, and clinical decision making. Applies critical analysis to health-related issues.

T NURS 402 Families in Society
3 credits
Review of family with emphasis on the nature and analysis of families in society, including their development and transitions across the life-span. Examines families within the context of concepts such as social support, loss and grief, violence and chronic illness. Focuses on diversity in families, family assessment and family strengths. [I]

T NURS 403 Introduction to Research in Nursing
3 credits / Prerequisite: T NURS 350 and introductory statistics course
Describes the systematic steps of the research process. Introduces approaches, frameworks, and concepts used in investigating nursing problems. Emphasizes integration of research findings to establish evidence-based nursing practice. [Q]

T NURS 407 Diversity: Issues of Exclusion and Inclusion
3 credits
Examines the ways that difference is defined, used and experienced in society. Analyzes the intersections of multiple forms of oppression. Attention given to the ideological and institutional manifestations of oppression in U.S. society. Diversity taught as a social context for nursing practice. [I] [V]

T NURS 410 Ethical Issues in Clinical Practice
3 credits
Identifies ethical issues relevant to the profession of nursing. Uses multiple ethical perspectives to identify, describe, and analyze selected ethical dilemmas relevant to professional practice, the delivery of health care, and the health of individuals and populations. [I]

T NURS 412 Nursing and Health Care Systems
3 credits
Introduction to analyzing current health care systems and their effectiveness in achieving desired health outcomes for selected client populations. Emphasizes leadership behaviors and the role of nurses as advocates for system change.

T NURS 414 Health, Communities, and Populations I
3 credits / Prerequisites: T NURS 350, T NURS 403
Emphasizes working in partnership to facilitate health of individuals, families, groups, communities, and populations. Examines concepts and strategies used to promote health in the context of social, cultural, political, and economic factors. Applies concepts and strategies through group work and field experience in community setting. [I]

T NURS 415 Health, Communities, and Populations II
4 credits / Prerequisite: T NURS 414
Examines concepts and strategies used to plan, implement, and evaluate interventions and promote change in public policy. Emphasizes collaborative work in and with communities. Applies concepts and strategies through group work and field experience in community setting. [I]

T NURS 430 Interpersonal Relationships in Nursing
3 credits / Prerequisite: T NURS 350
Addresses communication skills, patterns and practices. Examines nonverbal and verbal modes of communication. Explores a variety of communication domains: cultural, personal, professional, group interaction and conflict. Emphasizes application of conceptual models in interpersonal processes. [I]
T NURS 450
Initial Connected Learning
1 credit
Assists students with transition into their role as a BSN student and with the development of portfolios. Emphasis on problem solving for purposes of synthesizing, integrating, and deepening understanding about material students are learning in current courses. Opportunity to address mechanics of upper-division academic standards.

T NURS 451
Final Connected Learning
1 credit
Dialogue with faculty and peers about professional goals and the effects of the BSN program on scholarship and practice. Discusses transition from the BSN program into a new role in professional practice.

T NURS 499
Undergraduate Research
1-5 credits, max. 12
Supervised individual research on a specific nursing problem.

Health-Related Courses

T HLTH 305
Statistics: Learning from Data
5 credits / Prerequisite: Intermediate algebra or permission of instructor
Examines concepts and practice of statistics in health and social sciences. Emphasizes applications in the three major areas of statistical practice: data analysis, organizing and describing data; data production, sampling and design; and statistical inference, drawing conclusions. Uses working with genuine data to enhance abilities to actively apply statistical concepts. [Q]

T HLTH 310
Health, Illness, and Society
5 credits
Covers complex societal factors influencing health both locally and globally, utilizing perspectives from diverse disciplines. Analyzes topics such as the social construction of health and illness, the meaning of health and illness in cultural context, the social determinants of health, and issues in health care delivery and access. [I]

T HLTH 320
Promoting Health Through Social Marketing
5 credits
Examines strategies to promote health both locally and globally. Covers social marketing principles. Applies range of social marketing techniques to develop a campaign to promote health at a population level.

T HLTH 325
Medical and Ethical Issues in Literature and Culture
5 credits
Examines various medical and bioethical issues through the lens of literature. The role of technology, illness and culture, and end-of-life issues are explored.

T HLTH 410
Environmental Equity
5 credits
Examines the relationships between environmental issues and people of color and low-income communities from both local and global perspectives. Emphasizes issues of race/ethnicity, socioeconomic status, and policy and politics in environmental justice. [I]

T HLTH 415
Representations of Health Policy and Ethics in Film
5 credits
Examines contemporary conflicts about health and health care using films. Films used as a means of displaying and exploring the competing images of bodies, policies, workers, and institutions used to frame and personify these debates. Films supplemented by readings in film analysis, literature, narrative ethics, and health policy. [V]

T HLTH 420
Holistic Health
5 credits
Examines the economic, social and cultural conditions that support the growth of holistic nursing. Discusses relevant research and practice issues of selected methods of complementary/alternative healing.

T HLTH 425
Violence in Intimate Partner Relationships
5 credits
Examines partner violence as a cumulative interactive experience that must be framed within historical and social contexts. Emphasizes current literature on conceptualizing gendered violence, theoretical perspectives of abuse in intimate relationships. [I]

T HLTH 430
Adolescent Health in Context
5 credits
Provides an overview of adolescent health in the United States and examines current issues in adolescent health research. Addresses a matrix of adolescent health contexts such as historical constructions of adolescence, politics, race/ethnicity, class, gender, culture, sexuality, school, neighborhood, family and peer groups. [I]

T HLTH 435
Women’s Health, Women’s Lives
5 credits
Examines sociocultural, economic, and political influences on women and their health. Discusses issues relevant to women and health across the life span from an historic, contemporary, and futuristic perspective. Focuses on social roles central to women’s lives, transitions, identity and gender inequities and their impact on women’s health. [I]

T HLTH 440
Business of Health Care
5 credits
Examines the forces driving the changes in the evolving U.S. health care system to include resource allocation and cost-containment strategies. Emphasizes the examination of key economic concepts, e.g., outputs, supply, demand, and markets as they relate to the health care industry.

T HLTH 470
Challenges and Controversies in U.S. Health Care
5 credits
Examines the literature on environmental factors that influence human health and survival. Physical, social, cultural, economic and political factors in the environment will examined. Examines environmental factors at home (lead, radon), in work settings (occupational health and safety), in the community (pesticides, electromagnetic fields), and in the global context (decrease ozone depletion, global warming). One field trip. [I]

T HLTH 472
Human Health and the Environment
5 credits
Examines the literature on environmental factors that influence human health and survival. Physical, social, cultural, economic and political factors in the environment will examined. Examines environmental factors at home (lead, radon), in work settings (occupational health and safety), in the community (pesticides, electromagnetic fields), and in the global context (decrease ozone depletion, global warming). One field trip. [I]

T HLTH 480
Death and American Society
5 credits
Examines the social, cultural and psychological aspects of death, loss and grief. Presents a multi-disciplinary approach to death in American society, integrating theory and research with clinical data and personal experiences. Topics include cultural rituals around death, loss and grief, dying as a personal experience and ethical issues around death. [I] [V]

ABOUT FULFILLING ADMISSION REQUIREMENTS
Some students are admitted to UW Tacoma before they have completed all of their admission requirements. Students may fulfill missing requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description: [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.
T HLTH 485
Critical Issues in Global Health
5 credits
Reviews and analyzes current issues and trends in global health and the influence of economic, political and social factors on health and living conditions in countries across the globe. Considers transnational factors that shape risks to health and the structural conditions that determine a nation’s vulnerability in a globalized economy. [I]

T HLTH 499
Undergraduate Research
1-5 credits, max. 12
Supervised individual research on a specific nursing problem.

Assistant Professor, Nursing; RN; M.P.H.; Ph.D., University of Washington, 2004.

Cathy Tashiro
Associate Professor, Nursing; RN; Ph.D., University of California San Francisco, 1998.
The Social Welfare program is dedicated to preparing competent, ethical, and culturally sensitive social workers with specialized knowledge and skills who are committed to evidence-based practice and to planned social change.

A deep commitment to equity and cultural diversity is brought to the development of the program. The program’s mission gives special attention to the poor and oppressed, including people of different ethnic and racial groups, sexual orientations, physical and mental abilities and women.

The Bachelor of Arts degree in Social Welfare is designed for students in the South Puget Sound region who are committed to providing effective social services to populations experiencing social and economic difficulties.

Graduates with a degree in Social Welfare are prepared to accept professional social work positions in a variety of settings. Typical positions for social welfare graduates are those that serve children, families, older persons, individuals with developmental disabilities, persons with severe and persistent mental illness, individuals who abuse alcohol and drugs, and those who are in the criminal justice system, health and long-term care agencies, and public social services. In providing these services in agencies and organizations, graduates are engaged in a wide range of roles, including as caseworkers, family advocates and social services employees at community agencies, mental health centers and chemical dependency settings.

Accreditation

The Social Work Program at the University of Washington Tacoma is accredited by the Council on Social Work Education (CSWE) as a BASW program option of the University of Washington School of Social Work in Seattle.

Admission Requirements

The UW Tacoma Social Welfare program admits a cohort of students in Autumn Quarter only. Core classes must be taken in sequence. Prior to application students must complete all admission requirements for UW Tacoma and the Social Welfare program (or students must have a plan in place to complete required courses prior to entry).

To be considered for admission a student must meet the following minimum qualifications:

- Completion of General University Requirements (see page 23)
- A cumulative GPA of at least 2.0 in all college coursework.
- A GPA of at least a 2.0 or C grade or higher in each Social Welfare prerequisite course:
  - Introductory or survey course in psychology
  - Introductory or survey course in sociology
  - Introductory, survey, micro or macro course in economics
  - One approved course in human biology. Contact the Social Work program office for a list of approved courses. Human biology must have been successfully completed within the last 10 years.
  - 5 credits of introductory statistics taken within the last five years, must be completed before entering the senior year (may be completed at UW Tacoma)
- A minimum of 75 college-level credits

OVERVIEW

Developed in collaboration with and under the auspices of the University of Washington School of Social Work, the Bachelor of Arts degree in Social Welfare prepares learners for entry level and generalist practice as providers of social services and includes a combination of field experience and classroom learning.
How to Apply

The UW Tacoma Social Welfare program has an annual admission process. Applications submitted by the priority closing date are assured a review for admission for the upcoming academic year. Subsequent reviews are completed on a space-available basis.

A completed application consists of the following materials:

Application

Current UW Tacoma students must complete a “Declare/Change of Major” form. Transfer students must submit the Application for Transfer Admission and pay the $50 application fee.

All applicants must complete the Social Welfare Program Application.

Transcripts

Transfer students must submit official transcripts reflecting all previous academic coursework. High school transcripts should be submitted if foreign language was completed in high school.

Admissions Essay

The Social Welfare Program Admissions Committee asks that each applicant write a two-page essay that follows the guidelines below. The essay should be typed, double-spaced with a font size of 12.

Please give a brief (one page maximum) autobiographical statement that supports your interest in a social work career. To the extent possible, include information regarding:

- Any specific obstacles that you have met or overcome
- Examples of leadership
- Other influences (either positive or negative) that shaped your interest in social work

Please describe volunteer or work experiences that relate to social services (one page maximum). Include a brief discussion of:

- Your duties as a social service provider
- What you learned from the experience
- How the experience has influenced your career goals
- Any involvement with disadvantaged populations
- Any involvement with social issues

The admissions essay is a critical element in the review of each applicant’s qualifications. Applicants are urged to carefully follow the instructions provided regarding the essay and to be as thorough as possible within the essay length limits.

Résumé

Please provide a résumé of experience that includes the following:

- Any social service experiences (paid or volunteer)—include dates and total hours of involvement
- Any special awards, achievements, honors that you may have earned
- Special skills (e.g., bilingual skills, artistic talent, research skills)

Background Check

A background check is a required part of the Social Welfare admissions process. If offered admission, students are required to submit to a background check using an online service, Verified Credentials, for a fee of $69.

Note: When considering individuals for admission to the program, conviction/criminal history records are reviewed as they relate to the content and nature of the curriculum and the safety and security of clients and the public. A conviction/criminal history record does not necessarily disqualify an individual for admission.

Curriculum Objectives

Graduates of the Bachelor of Arts program in Social Welfare are expected to:

- Apply entry-level social work practice skills to individuals, families, groups, communities, tribes and organizations.
- Demonstrate an ethical and just professional use of self and the ability to use supervision and consultation.
- Practice effectively within agencies and delivery systems and identify, plan and pursue needed agency and system changes aimed at promoting social and economic justice.
- Demonstrate knowledge of and commitment to social work values and ethics through effective social work practice.
- Demonstrate understanding of and appreciation for differences based on gender, ethnicity, race, religious creed, sexual orientation, class and physical and developmental disabilities.
- Identify the ways in which oppression, colonization, privilege, discrimination and social and economic disadvantage contributed to complex human welfare problems.
- Understand the strengths and empowerment perspectives in practice, policy and research in order to promote social and economic justice.
- Understand and describe the comparative history of social welfare and social work systems in the United States as well as the emergence of social work as a profession.
- Understand the growing prevalence of economic inequality, the distribution of poverty and societal remedies to resolve these problems.
- Analyze the impact of social policies on people (both clients and workers), agencies, communities, service systems and nations, including American Indian and Alaska Tribal nations.
- Understand and critically apply theoretical frameworks to understand individual development and behavior across the lifespan and the interactions among individuals and between individuals and social systems (i.e., families, groups, organizations, tribes and communities).
- Demonstrate knowledge and skills in social work research methods used to develop and evaluate interventions and social service delivery systems.
- Understand, use and promote evidence-based methods in generalist social work practice.
- Use effective oral and written communication skills with a variety of client populations, colleagues and members of the community.

Course of Study

The required core curriculum must be taken in sequence over a two-year period. The Social Welfare curriculum consists of a 67-credit program comprised of these major areas:

- Foundation courses
- Social work practice courses
- Practicum combined with practicum seminars
- Social welfare electives

Students will be required to complete 10 credits of social welfare electives.
Model Program of Study

To help prospective students understand the sequencing of the Social Welfare curriculum, the Model Program of Study (see table at right) shows the typical progression to complete the degree. UW Tacoma requires a total of 180 credits for graduation that includes the credits required for the BASW degree. Information provided in this table gives an overview of the two-year curriculum.

In the freshman and sophomore years, students should fulfill as many of the general education requirements as possible. Those requirements consist of language skills (English composition and foreign language), reasoning and writing skills, and areas of knowledge. Completion of all general education requirements is not required for admission to the BASW program; however, students with deficiencies must meet with the program adviser to discuss completion of these requirements prior to graduation.

Social Welfare Practicum

In addition to classroom instruction, students are required to complete 480 hours of practicum experience in an outside agency or organization under the supervision of a qualified social worker. In the practicum settings, students gain experience in such roles as advocate, case manager, change agent, group leader and organizer. They may assist a chemically-dependent person in changing destructive behavior patterns; help a battered woman find a safe, stable environment; support a person with mental illness in living independently in his or her community; marshal resources to enable a person with a physical disability to enter mainstream society; foster or find a safe, stable housing for homeless people; or help a community organize itself to prevent neighborhood problems.

Academic Standards

To maintain satisfactory progress in the Social Welfare program, an admitted student must meet the following criteria:

- Maintain a 2.5 cumulative GPA in required Social Welfare courses and a 2.0 cumulative UW Tacoma GPA. A student whose Social Welfare cumulative GPA falls below 2.5 in any quarter will be placed on academic probation. Once on academic probation, the student must contract with the Social Work program director to formulate an action plan for improving his or her GPA and attain at least a 2.75 GPA for each succeeding quarter until the Social Welfare GPA is raised to a 2.5. Students who continue on probation will be reviewed by the director and may be suspended from the program for low scholarship.

A student is removed from probation at the end of the quarter in which a Social Welfare GPA of 2.5 or better is achieved and a UW Tacoma cumulative GPA of 2.0 or better is reached, and any conditions for reinstatement and satisfactory progress have been met.

- Earn a minimum 2.0 grade (or credit in courses taken CR/NC) in each required Social Welfare course. A student who earns a grade of less than 2.0 in any required Social Welfare course will be placed on academic probation for one or more quarters. A student placed on probation may be asked to retake a required course the next time it is offered. This may delay the student’s practicum by one year. With the approval of the director, the student may repeat a course once. Both the original grade and the second grade will be computed in the student’s GPA, but credit will be given only once.

Required Social Welfare courses are TSOCWF 300, 310, 311, 312, 320, 390, 402, 404, 405 and 415.

- Satisfactorily complete the first year required courses before proceeding into the practicum and practicum seminar. Social Welfare students are guaranteed access into first- and second-year TSOCWF required courses. To begin the practicum (TSOCWF 415), the student’s TSOCWF 311 instructor must recommend that the student is ready for placement.

- Complete the program within four years after admission. A student who does not complete the program within four years of admission will be removed from the program and placed in pre-major status in General Education.

A student who begins the program and then withdraws from UW Tacoma for more than one year will have to re-apply to the program to be admitted. If re-admitted, the student must meet with the program adviser to prepare a revised program of study. The adviser (in consultation with the director)
Graduation Requirements

To qualify for graduation with a Bachelor of Arts degree in Social Welfare from the University of Washington Tacoma, a student must:

- Be a matriculated Social Welfare student in good academic standing with the University of Washington Tacoma.
- Satisfy all prerequisite and admission requirements for entrance into the Social Welfare program.
- Complete a recent introductory statistics course with a minimum grade of 2.0. Please see a program adviser for details.
- Complete a minimum of 180 credits. At least 45 of the last 60 credits of upper-division work must be taken in residence at UW Tacoma.
- Maintain a minimum cumulative GPA of 2.5 in all required Social Welfare coursework.
- Earn a minimum grade of 2.0 in each required departmental course.
- Have a minimum 2.0 GPA for all UW Tacoma coursework at graduation.
- Complete 57 credits of core courses in Social Welfare to include:
  - TSOCWF 300 Social Welfare: Historical Approaches
  - TSOCWF 310 Social Welfare Practice I
  - TSOCWF 311 Social Welfare Practice II
  - TSOCWF 312 Social Welfare Practice III
  - TSOCWF 320 Social Welfare: Contemporary Approaches
  - TSOCWF 390 Introduction to Social Welfare Research
  - TSOCWF 402 Human Behavior and the Social Environment I
  - TSOCWF 404 Cultural Diversity and Justice
  - TSOCWF 405 Practicum Seminar
  - TSOCWF 415 Practicum
- Complete 10 credits of Social Welfare electives.
- Apply for graduation with a program adviser by the deadline posted by the Social Work program for the expected quarter of graduation.

Course Descriptions

For the most current course information, please consult the Social Work Web site: www.tacoma.washington.edu/social.

**TSOCWF 100 Introduction to Social Work**

5 credits

Introduces social work as a profession including exploration of its history, values, ethics, and career options within the field. Emphasizes social work's historic commitment to economic and social justice, diversity, empowerment, and improving conditions faced by society's most vulnerable members. [I]

**TSOCWF 150 Suicide: Individual and Community Responses**

2 credits

Introduces student understanding of historical and contemporary responses to suicide; explores ethical and moral issues; and develops introductory skills used in suicide prevention. Explores psychological and sociological theories of suicide as well as other responses people engage in suicidal behaviors. [I]

**TSOCWF 202 Perspectives on Doing Service**

5 credits

Explores the philosophical, spiritual, cultural, and value concepts that undergird helping and altruistic behaviors by individuals and groups in a global society. Service learning is included in explorations of what helping and service mean in daily life and the professional work world. [I]

**TSOCWF 300 Social Welfare: Historical Approaches**

5 credits

Stresses the origin of social welfare policies, beginning with the Elizabethan Poor Law of 1601. Issues of poverty, as well as the development of publicly-funded income maintenance programs, and an understanding of the historical roots of social work are central to this course. Required for all Social Welfare majors. Open to non-majors. [I]

**TSOCWF 310 Social Welfare Practice I**

3 credits

Provides an introduction to the roles, tasks and functions of the social welfare practitioner and to theories and methods of intervention; a conceptual framework for social work practice with individuals, families and small groups; and an opportunity to develop skills in problem assessment, intervention, termination and evaluation. Required for all Social Welfare majors.

**TSOCWF 311 Social Welfare Practice II**

3 credits / Prerequisite: TSOCWF 310

Provides an introduction to the roles, tasks and functions of the social welfare practitioner and to theories and methods of intervention; a conceptual framework for social work practice with individuals, families and small groups; and an opportunity to develop skills in problem assessment, intervention, termination and evaluation. Required for all Social Welfare majors.

**TSOCWF 312 Social Welfare Practice III**

5 credits / Prerequisite: TSOCWF 311

Focus on macro systems in a diverse society using the generalist perspective. The implications of system resources and configurations for meeting human needs are considered. The role and function of generalist social workers to understand and advocate for system development and change is emphasized. Required for all Social Welfare majors.

**TSOCWF 320 Social Welfare: Contemporary Approaches**

5 credits

Current policy and program developments in the social welfare field. Topics include income maintenance proposals, the emergence of programs to treat specific social dysfunctions (e.g., mental health services) and the growth of a service-oriented society. Required for all Social Welfare majors. Open to non-majors. [I]

**TSOCWF 350 Biopsychosocial Human Services**

5 credits

Examination of human life at the cellular level contextualized through the social environment. Emphasis upon cells, systems and individual development and functioning. Coverage of relevant theoretical frameworks commonly used in biological sciences, human services and social work will be used to address biological issues with clients in social and community contexts. Open to non-majors. [N/I/W]

**TSOCWF 351 Applied Statistics for Social and Human Services**

5 credits

Application of statistical methods for use in social and human services. Examines purpose and use of social statistics to include analyzing the relationships between variables as a tool for conducting research; central tendencies and dispersion; probability; descriptive statistics; statistical inference and hypothesis testing; and bivariate analysis. Open to non-majors. [N/Q]
TSOCWF 352  
Women in the Criminal Justice System  
5 credits  
Explores the history, societal impact and future of women within the U.S. criminal justice system. Focuses on factors which contribute to female incarceration including poverty, physical and sexual victimization, chemical dependency and major mental illness. Gender-responsive strategies designed for advocacy and empowerment address major economic and social justice issues. Open to non-majors.

TSOCWF 353  
Mental Illness and Recovery  
5 credits / Recommended: introductory psychology  
Provides an overview of persistent and disabling mental illness among adults. Combines classroom and experiential learning. Students learn directly from service providers and consumers the challenges of living with serious mental illness and within health and social welfare system constraints. [I]

TSOCWF 354  
Sexual Orientation and Gender Identity  
5 credits  
This course focuses on legal and sociopolitical topics related to sexual orientation and gender identity using social justice and empowerment perspectives. The framing of such topics at the local, national and global level is emphasized, as is the intersectionality of sexual and gender identity with other aspects of human diversity. Open to non-majors. [I]

TSOCWF 390  
Introduction to Social Welfare Research  
5 credits / Prerequisite: Completion of an introductory statistics course with a 2.0 (C) grade or higher  
Introduction to the logic of the scientific method as applied to social work/welfare practice, design and conduct of a research study, data collection and summarization. Skill development in critical consumption of social welfare research. Required for all Social Welfare majors.

TSOCWF 402  
Human Behavior and the Social Environment I  
5 credits  
Focuses on person-in-the-environment for individuals and family development across the lifespan. Utilizes developmental and social systems perspectives in seeking to understand and influence human behavior across diverse backgrounds. Required for all Social Welfare majors. [I]

TSOCWF 403  
Human Behavior and the Social Environment II  
3 credits / Prerequisite: TSOCWF 402  
Focuses on person-in-the-environment for individuals and family development across the lifespan. Utilizes developmental and social systems perspectives in seeking to understand and influence human behavior across diverse backgrounds. [I]

TSOCWF 404  
Cultural Diversity and Justice  
5 credits  
History and culture of disadvantaged and oppressed groups served in social welfare generalist practitioners. Required for all Social Welfare majors. Open to non-majors. [I]

TSOCWF 405  
Practicum Seminar  
3 credits; max. 9 credits / Prerequisite: TSOCWF 312  
Integrates social work practicum experiences with prior and concurrent coursework in social sciences, social work and research. Includes discussion of class presentations and simulations of practice situations that combine knowledge and skill utilization. Student logs provide a basis for individual goal identification and achievement. Required for all Social Welfare majors. Open only to Social Welfare seniors.

TSOCWF 409  
Readings in Social Welfare  
1-5 credits; max. 15  
Student-oriented, individually contracted projects on topics of interest in social welfare not covered by other Social Welfare offerings. Open only to Social Welfare majors.

TSOCWF 415  
Practicum  
4 credits; max. 12 credits / Prerequisite: TSOCWF 312  
Students are placed in selected social service agencies and accept beginning social service assignments under the supervision of competent agency personnel. Required for all Social Welfare majors. Open only to Social Welfare seniors. Credit/no credit only.

TSOCWF 420  
Interpersonal Violence and Society  
5 credits  
Explores interpersonal violence from both sociological and psychological frameworks. Understanding of the nature, dynamics and effects of interpersonal violence and the threads that connect personal and community violence. Will evaluate how best to prevent and decrease the amount of violence in society. Open to non-majors. [I]

TSOCWF 421  
Cross-Cultural Grieving  
5 credits  
Examines spiritual, psychosocial, physical, and behavioral impacts of major loss on persons, families, and communities as it occurs in diverse North American ethnic and cultural communities. Exploration of death, dying, major family separations, divorce and refugee/immigration changes as it relates to grief, loss and mourning. Open to non-majors. [I]

TSOCWF 422  
Aging in American Society  
5 credits  
Covers physical and psychological processes of aging. Social aspects of aging related to family roles, cultural and social support and use of health and social services will be included. Home- and community-based services and how those services may need to change in the 21st century will be reviewed. Open to non-majors. [I]

TSOCWF 423  
Risk and Ethics in Human Enterprises  
5 credits  
Values, ethics, risk management and the law are explored in depth as they relate to the provision of human services programs, and other professional disciplines. Topics include: conflict of interest, duty of care, duty to warn, privacy and confidentiality, risk analysis, and ethical decision making. [I]

TSOCWF 424  
Information Technology and Human Service Practice  
5 credits  
In-depth exploration of the impact of information technology on human service agencies and their consumers. Topics include: changing human service practice, human service Web sites, online therapy and self-help information, and technology-based social problems. Involves experiential learning. [I]

TSOCWF 425  
Comparative Social Welfare Policy  
5 credits  
Explores current social policy issues in the United States, Canada, and Nordic countries from a comparative perspective. Examines history and political structures that influence implementation of social policies. [I]

TSOCWF 450  
International Comparisons of Current Issues  
12 credits  
Provides an international comparison of social policy and social service delivery systems. In addition to a three-week intensive field component, students will complete relevant readings and conduct an independent research project on a relevant topic negotiated with the instructor. Open to non-majors. [I]

ABOUT FULFILLING ADMISSION REQUIREMENTS

Some students are admitted to UW Tacoma before they have completed all of their admission requirements. Students may fulfill missing requirements in the Areas of Knowledge and Quantitative/Symbolic Reasoning through courses offered at UW Tacoma. Courses that fulfill these requirements are indicated with bold letters at the end of the course description: [V] Visual, Literary and Performing Arts (Fine Arts and Humanities); [I] Individuals and Societies (Social Sciences); [N] The Natural World (Natural Sciences); [Q] Quantitative/Symbolic Reasoning; and [W] Writing.  

Bachelor of Arts, Social Welfare 105
**TSOCWF 490**  
**Research in Social Welfare**  
1-3 credits, max. 10 credits  
Individual work with faculty member to assist with current research projects. Training and supervision in some or all of the following research tasks: literature review, data analysis, record-keeping, interviewing, report writing, data entry and coding, data collection, and other tasks commonly found in research problems in social welfare.

**Patricia Spakes**  
Chancellor; Professor, Social Work; Family Theory, Research and Policy; Ph.D., University of Wisconsin - Madison, 1979.
Overview

The course of study explores both the theoretical nature of societies and the practical application of becoming actively involved in the process of change or improvement. Course topics include society and culture, housing, urbanization, environment, planning, race and poverty, and economic development and sustainability. All of these can be enhanced by field experience, internships, study-abroad programs and community service or research projects. A strong research component is required so the application of theory may be tested in a real-world situation. This prepares strong graduates to enter the workforce or continue their education with graduate or professional study in fields ranging from planning and design to law, public administration, public policy and education.

Students who complete the program may qualify for a wide variety of jobs in the public and private sectors including housing, community development, planning, transportation, government or human services.

An academic minor or certificate can complement the major so as to broaden students’ understanding of topics including nonprofit management, environmental studies, public history, education, human rights, restoration ecology, computing and software systems and geographic information systems (GIS).

Students are encouraged to participate in Urban Studies foreign study tours, exchange programs or to have an international focus/perspective in their coursework.

Overall objectives of the program:

- Provide an understanding of the form and function of cities
- Instill an awareness of problems and issues confronting metropolitan areas
- Provide an interdisciplinary curriculum that allows students to understand the complex interrelationships that make up the urban environment and permits them to approach problems from a variety of perspectives
- Equip students with the analytical skills needed to undertake research in an urban milieu

Learning outcomes:

- Approach urban issues from an interdisciplinary perspective
- Apply analytic and quantitative skills to assess and develop strategies to analyze and resolve urban issues
- Compare and contrast approaches used in designing and undertaking research in urban studies
- Demonstrate effective written and oral communication skills
- Demonstrate appreciation for the diverse nature of urban populations and the social justice issues many of these populations face

Educational Emphasis

Urban Studies has built its curriculum around four program goals, which are to:

- Provide students with a broad understanding of the problems and prospects of our metropolitan areas
- Equip students with the knowledge and skills necessary to pursue careers related to the multi-faceted nature of urban studies
- Serve as a resource, through service and research, to communities in the South Sound region
- Guide students to effectively analyze the social and cultural worlds that constitute urban environments

OVERVIEW

The Urban Studies program at the University of Washington Tacoma offers a course of study leading to a bachelor of arts degree. This program takes an interdisciplinary approach to the social, economic, historical, environmental and political processes and issues affecting urban areas.
Minor

A minor in Urban Studies is available to undergraduate students in other degree programs. Please see the “Minors and Certificates section beginning on page 107.

Admission Requirements

All students who have completed the admission requirements with a cumulative GPA of 2.0 and at least 40 college-level credits will be considered for admission.

Educational Qualifications

- A cumulative grade-point average (GPA) of 2.0 in all college coursework. Applicants with a completed application and a minimum GPA of 2.50 will be given priority consideration for admission.
- Fulfillment of General University Requirements (see page 23).
- 5 credits of English composition.
- Completion of mathematics through intermediate algebra.
- Completion of a minimum of 40 transferable college-level credits.

How to Apply

A completed application consists of the following materials:

Application

Application for undergraduate admission and application fee.

Personal Goal Statement

A one- to two-page personal statement is required with the undergraduate application. The personal statement should address the student’s motivation for pursuing an Urban Studies degree, address how the degree can blend the student’s educational and career goals, list involvement in community-based activities and personal/professional accomplishments, describe personal strengths and experiences that support the student’s interest and commitment for the degree. This is also where the student should address any weaknesses on transcripts or explain adversity experienced that affected previous academic performance.

The statement must include the student’s name, address, telephone number and e-mail address. It should also indicate the desired quarter of admission. The personal statement is an important part of the application and will be used to assess the student’s qualifications and fit with the program.

Transcripts

An official transcript must be submitted from each college and university attended, even if no credit was earned. Failure to submit a complete set of transcripts may result in denial of admission or dismissal from the University. If you took a foreign language or intermediate algebra in high school and are using that to fulfill the foreign language or mathematics requirement, you must submit an official high school transcript as well.

Application for admission will not be considered until a completed application, transcripts and personal goal statement have been received.

Selection Criteria

Urban Studies candidates are evaluated on the following criteria:

- Completion of all Urban Studies admission requirements
- Personal goal statement
- Previous academic performance

Course of Study

The Urban Studies program admits students every quarter except summer. The curriculum consists of 58 to 61 credits of required coursework:

- Core courses (33-36 credits)
- Core electives (25 credits)

In addition to the core areas, students will be required to complete general electives at UW Tacoma. Students may focus on an in-depth area of study (i.e. minor or certificate) or explore the liberal arts, business administration, social work, education, or health-related fields.

Core

Urban Studies students begin their course of study with 33 to 36 credits of required foundation courses that offer an introduction to the nature of cities and the field of urban studies; diversity issues as associated with race, class and gender within cities; and techniques and field courses.

- TURB 301 The Urban Condition (5)
- TURB 316 Cities and Citizenship (5)
- TURB 220 Introduction to Urban Planning (5)
- TURB 430 Pacific Rim Cities (5) or TURB 460 Urban Issues in the Developing World (5)
- TURB 492 Urban Studies Capstone Seminar (5)

- One of the following techniques courses:
  - TURB 350 Intro. to Urban Research (5)
  - TGIS 311 Maps and GIS (6)
- One of the following field courses:
  - GEOG 490 Field Research: The Seattle Region (5)
  - TURB 315 Homes, Housing and Homelessness (3)
  - TURB 415 Urban Government and Organizations (5)
  - TURB 479 Planning and Development in the Puget Sound Region (3)

Core Electives

Students must complete 25 credits from the Urban Studies approved core elective list:

- TCSIU 445 The Metropolis (5)
- TCSIIN 438 Urbanization and the Environment (5)
- TCSIUS 431 Community Organizations and the Nonprofit Sector (5)
- TCSIU 445 History of Tacoma (5)
- TGIS 311 Maps and GIS (6)
- T HITH 410 Environmental Equity (3)
- TMMGD 348 Leading the Nonprofit Organization in the 21st Century (5)
- TSMUS 417 Urban Problems and Policies (5)
- TSOCW 501 Social Policy and Economic Security (3)
- TURB 494 Urban Studies Research (1-15, max. 15)
- TURB 496 Urban Studies Community Service Project (3-15, max. 15)
- TURB 498 Urban Studies Internship (3-15, max. 15)

Any Urban Studies course (TURB prefix) not already counted as core.

General Electives

Students must complete 17-32 credits of general electives. Transfer credits from other institutions may apply toward general electives. The Urban Studies program will accept a maximum of 105 transfer credits. An adviser will evaluate transcripts upon request.

Program Standards

The following standards apply to all admitted students in the Urban Studies program. These standards may be in addition to other academic standards at UW Tacoma.

- Students must satisfactorily complete all Urban Studies core and core elective coursework by achieving a minimum 2.0 grade point average in each course. If a grade below 2.0 is received, the student must repeat the course. Course credit will only be awarded once and both grades will be computed into the grade point average.
Graduation Requirements

To qualify for graduation with a Bachelor of Arts degree in Urban Studies from the University of Washington Tacoma, each student must complete the following requirements:

- Be a matriculated Urban Studies student in good academic standing with the University of Washington Tacoma.
- Satisfy all Urban Studies admission requirements for graduation.
- Complete all Urban Studies core and core elective coursework with a minimum 2.0 grade-point average in each class.
- Maintain a minimum cumulative grade-point average of a 2.0.
- Complete 180 credits, at least 65 of which must be upper-division (300-400 level) coursework.
- Complete at least 45 of last 60 credits in residence at the University of Washington Tacoma.
- Apply for graduation with an Urban Studies adviser by the application deadline posted by the department.

Course Descriptions

For the most current course information, please consult the Urban Studies program Web site: www.tacoma.washington.edu/urban_studies.

TURB 101 Exploring Cities
5 credits
Introduction to the multidisciplinary field of urban studies. Explores the complexity of everyday life in metropolitan areas. Examines the various disciplines of sociology, anthropology, geography, economics and political science that have studied and made sense of cities. Special attention given to issues of class, race and gender. [I]

TURB 205 Images of the City
3 credits
Examines how the city is portrayed through various mediums and how those portrayals affect society's perception of urban places. Discusses imagery from films, literature, television, newspapers and magazines. Considers images linked to such elements as crime, ethnic enclaves, downtown areas and suburbia. [I]

TURB 210 Urban Society and Culture
5 credits
An examination of the social structure of cities. Issues related to class, race, ethnicity and gender are discussed. The impact of societal differences on urban form, residential patterns and labor markets is considered. [I]

TURB 220 Introduction to Urban Planning
5 credits
Introduction to the planning process. The major planning sub-fields are presented and discussed. Included are topics in housing, transportation, recreation, environmental planning and preservation planning. Techniques associated with growth controls and land-use management are examined. Introductory course for students whose emphasis will be in planning, and a prerequisite for other planning-related courses. [I]

TURB 301 The Urban Condition
5 credits
An overview of the city as a place of residence, commerce and industry. Consideration is given to urban form and function. Social, economic and political factors affecting urban life and development are discussed. This course is designed to serve as the introductory course for urban studies majors. [I]

TURB 312 Race and Poverty in Urban America
5 credits
Examines current research, policy and debate surrounding race and poverty in urban America. Includes affirmative action, the changing family, cultural identity, the inner-city crisis, interracial relationships, residential segregation, and the working and non-working poor. [I]

TURB 314 Gender and the Urban Landscape
5 credits
Examines linkages between cultural, physical and symbolic urban landscapes and gender ideologies, structures and practices. Major themes from gender and urban studies include domestic/public divisions, sexuality and city spaces, consumption and urban design. Integration of theoretical positions and ideas into students’ work is emphasized. [I]

TURB 315 Homes, Housing and Homelessness
3 credits
This course provides a hands-on introduction to issues of housing and homelessness, focusing on the South Puget Sound region. Topics include the meaning of “home,” the political economy of public housing, the rise and expansion of suburbia, the cultural significance of gated communities and the persistence of homelessness in our cities. Students will gain an in-depth understanding of these issues in our area through organized class field trips and research projects. Fulfills a core or core elective requirement depending on chosen program plan. [I]

TURB 316 Cities and Citizenship
5 credits
Addresses inequality in urban spaces through the concept of citizenship and ideas about “rights to the city.” While the course is traditional in its concern with urban poverty, race, ethnicity and immigration, it offers a vocabulary of citizenship and rights to investigate urban inequalities and how various populations experience them. [I]

TURB 318 Organizing Communities
3 credits
Examines social, economic and political problems from an organizer’s perspective. Examines problems and issues associated with organizing, and introduces the basic tools required to design successful organizing efforts. Particular attention will be given to communities facing issue-oriented organizing. [I]

TURB 321 History of Planning, Theory and Practice
5 credits
An examination of planning theory and practice with an emphasis on 20th-century theorists and advocates. The impacts of planning theories and movements on planning practice and urban form are examined. [I]

TURB 322 Land-Use Planning
5 credits / Prerequisite: TURB 320, TURB 321 or permission of instructor
Examines the land-use planning process at the local level with a focus on the contemporary United States. Review of theories of land-use change, arguments for and against planning intervention, and the role of the land-use planner in the local land-development arena. [I]
TURB 330
City Worlds
5 credits
Examines world urbanization and the shifting geographies associated with economic restructuring and globalization. Ethnicity, gender, urban form, local governance strategies and resilience to those strategies are considered. Includes examples from cities in both the developed and developing worlds. [I]

TURB 335
Community Development
3 credits
Examines roles of the private and public sectors in developing communities. Considers public policy approaches and strategies of public-private cooperation aimed at downtown revitalization, historic preservation, and democratic access to urban spaces. Investigates issues associated with community development projects. [I]

TURB 350
Introduction to Urban Research
5 credits
Introduction to research methods pertinent to the study of urban issues, society and culture. Emphasizes the logic of the scientific method, understanding the interrelated stages of the research process, understanding and critiquing quantitative and qualitative research literature, and learning strategies for gathering and analyzing data. [I]

TURB 360
The African-American Urban Experience
5 credits
Places African-Americans at the center of the American urban condition from the colonial era to the 21st century. Interdisciplinary study of U.S. urban history, contemporary social, cultural and policy research and comparative perspectives on race and ethnicity to illuminate the growth and evolution of African-American urban communities. [I]

TURB 379
Urban Field Experience
5-15 credits, max. 15
Designed as a field course to be offered during the summer. Based in a city sufficiently different from the Tacoma metropolitan area to expose students to a distinct “urban laboratory.” These differences will revolve around city size/structure in that major metropolitan centers will be selected as sites for the course. In addition, cultural differences will be a consideration in that many of the offerings will be in foreign cities. Examples of anticipated locales are New York, Mexico City, London, and Amsterdam. Course content will vary depending on the destination. The course is part of the newly developed Urban Studies program and is intended to enhance students’ perspectives on urbanism through an experience that provides an in-depth look at a global city. Intended to increase students’ ability to critically assess urban issues and problems through direct observation/ experience. Further, through interaction with experts from the local area, the course is designed to acquaint students with the techniques practitioners use to address urban issues.

TURB 380
Comparative International Perspectives on Cities and the Environment
15 credits
Interdisciplinary approach to integrating urban and environmental issues in two or more world cities. Includes site visits and interactions with foreign scholars and practitioners. Topics may include coastal development, transportation, parks, marine conservation, indigenous cultures, environmental planning, gentrification, urban governance and watershed management. Offered jointly with TEST/ENVIR 380. [I/N]

TURB 389
International Urban Studies
3-15 credits
Courses taken through UW Tacoma Urban Studies foreign study program for which there are no direct University of Washington Tacoma course equivalents.

TURB 401
Urban Change and Development
5 credits
Examines relationships that shape the development of cities under conditions of globalization. Overview of key terms and concepts, examples of changing urban social and economic conditions, and analysis of connections among global processes, urban experiences, and the production of urban space in the United States. [I]

TURB 410
Environmental Justice
3 credits
Explores the relationships between environmental issues and people of color and low-income communities from both local and global perspectives. Emphasizes issues of race/ ethnicity, socioeconomic status, and policy and politics in environmental justice. Offered jointly with T HLTH 410. [I]

TURB 415
Urban Government and Organizations
3-5 credits
Examines the structure and workings of urban government and non-governmental agencies and organizations. Considers the relationship between non-governmental and governmental organizations along with their impact on the physical and social development of the city. [I]

TURB 420
Cities and the Constitution
5 credits
Examines the Constitutional rights to freedom of expression in the public institutions and public places of cities. Considers rights to freedom of expression as they exist in a variety of forums—from streets and parks to schools, shopping malls, university sporting events and the property surrounding prisons. Analyzes interactions among rights and community interests. [I]

TURB 430
Pacific Rim Cities
5 credits
Examines links between urbanization and globalization on the Pacific Rim and connections between events and social/ economic processes in places that seem distinct (e.g., China, Canada, Mexico, Philippines). Case studies and discussion topics include questions of class formation, political change, migration patterns, and gender/family dynamics.

TURB 440
City and Nature
5 credits
Examines connections between urban and environmental conditions by investigating the social and material production of urban nature. Challenges conceptual barriers between nature and the city that have evolved over time and considers new strategies for achieving both environmental sustainability and social justice in the city. [I]

TURB 450
Sustainable Development
5 credits
Examines the global goal of sustainable development within the context of rapid urbanization. Emphasizes best practices in Europe, North America, Asia and Africa. Examines major environmental challenges and innovative development initiatives designed to meet those challenges.

TURB 460
Urban Issues in the Developing World
5 credits
Examines challenges associated with urban development and societal change in developing countries. Examines topics such as mega cities, squatter housing, and informal labor. Adopts a geographical perspective and focuses on local governance issues.
TURB 475
Community & Economy
5 credits
Explores the connections between economic practices and local community development under conditions of global, political and economic interconnectedness. Critically examines the spatial character of capitalist economic behavior and considers a range of challenges confronting efforts to build sustainable and equitable local economies.

TURB 479
Planning and Development in the Puget Sound Region
3 credits
Examines the problems and prospects associated with rapid growth in the Seattle-Tacoma urban region. Site visits and discussions with public officials, planners and developers. Topics/sites vary and include such issues as growth management, sprawl, transportation, sustainable development, land-use and environmental protection.

TURB 492
Urban Studies Capstone Seminar
5 credits
An interdisciplinary approach to the study of urban issues and problems. The course is designed to provide the opportunity for in-depth analysis of selected issues. Each seminar will focus on one aspect of the city (e.g. gentrification, housing, segregation, sprawl). This course serves as a capstone course in the Urban Studies Program.

TURB 494
Undergraduate Research
1-15 credits, max. 15
Undergraduate Research is intended to afford students the opportunity to undertake independent research. Collaboration with a faculty member on a project of mutual interest is encouraged. Goals are to strengthen skills in research design, improve student understanding of the appropriate application of research techniques and methodologies, and enhance writing skills.

TURB 496
Community Service Project
3-15 credits, max. 15
Under the direction of a faculty member students propose and develop a project intended to benefit the local community. The purpose of the course is to encourage students to think about new strategies in dealing with urban problems or to devise new methods of assisting disadvantaged groups. Students may develop and implement their project by working with a particular governmental unit or not-for-profit organization or they may work independently.

TURB 498
Urban Internship
3-15 credits, max. 15
Offers students an opportunity to gain experience and increase their understanding of the urban environment by working with a government agency, not-for-profit organization or private-sector firm. Students apply the skills and knowledge gained in the classroom to urban problems/issues.

Assistant Professor, Urban Studies; Ph.D., University of California, Irvine, 2007.
**Applied Computing Minor**

*Contact an adviser in the Institute of Technology at (253) 692-5860 to learn more about this minor.*

The minor in Applied Computing is designed for students who want to be sophisticated users of computing technology and principals in their field, but do not seek extensive programming experience. The minor offers grounding in basic computing skills and principles and key technologies such as database management and computer networks. It also provides the student the opportunity to integrate these skills into his or her major field.

The minor in Applied Computing does not require computer proficiency or prerequisites. This minor consists of five courses: three core courses designed to offer depth in computing skills and concepts and two to encourage breadth of experience.

**Requirements**

The Applied Computing minor requires 25 credits to include:

- **Core courses (15 credits)**
  - TINST 310 Computational Problem Solving
  - TINST 311 Database Management and Data Analysis
  - TINST 312 Computer Networks and the Internet

- **Elective courses (10 credits)**
  Students must choose one course from each list to fulfill the 10 elective credits:
  - **List A (5 credits):**
    - TINST 401 Technology in the Service of Society
    - TINST 475 Entrepreneurship in Computing and Software Systems
    - TINST 490 Special Topics in Applied Computing
    - TINST 498 Directed Readings in Applied Computing
    - TCSS 452 Research in Applied Computing
    - TCSS 481 Human-Computer Interface
    - TCSS 541 Computer Security
  - **List B (5 credits):**
    - A second TINST elective from List A
    - TACCT 330 Introduction to Accounting Information Systems
    - TBUS 301 Quantitative Analysis for Business
    - TCSSG 330 Inquiry and Research in the Social Sciences
    - TESC 100 Introduction to Environmental Science
    - TESC 107 Geohazards and Natural Disasters
    - TESC 120 Introductory Biology I
    - TESC 122 Physics: Electromagnetism and Oscillatory Motion
    - TESC 123 Plants and People: the Science of Agriculture
    - TESC 239 Energy and the Environment
    - TESC 243 Geography of the Physical Environment
    - TESC 315 Applied Physics with Environmental Applications
    - TESC 333 Environmental Chemistry
    - TESC 340 Ecology and Its Applications
    - TESC 345 Pollution and Public Policy
    - TESC 362 Introduction to Restoration Ecology
    - TESC 404 Costa Rica Field Studies: Ecology and Community
    - TESC 433 Pollutant Fate and Transport in the Environment
    - TESC 435 Limnology
    - TESC 445 Estuarine Field Studies
    - TGIS 311 Maps and GIS
    - TIBCG 437 Technology in the Modern World
    - TQS 210 Intermediate Statistics with Applications
    - TSOCWF 424 Information Technology and Human Service Practice

Note: Some required courses may be taken out of sequence to accommodate student schedules.

**Asian Studies Minor**

*Contact an adviser in Interdisciplinary Arts and Sciences at (253) 692-4450 to learn more about this minor.*

The Asian Studies minor offers students the opportunity to develop a well-rounded understanding of the countries and cultures of Asia. The courses enable students to fit the Asian experience into a theoretical context of global patterns of modernization and economic development while focusing on specific historical and cultural elements in Asian countries.

**Requirements**

The Asian Studies minor requires 30 credits to include:

- 10 credits from the following list of framework courses:
  - TCOM 430 Global Networks, National Identities
  - TCOM 460 Communication and National Development
  - TSMG 313 Theories of Economic Development and Social Change
  - TSMIN 418 Interpreting Enigmatic India
  - TSMIN 424 Imperial China
  - TSMIN 322 Comparative Perspectives on East Asian and Latin American Development
  - TSMIN 436 Contemporary Chinese Culture and Society
  - TURB 430 Pacific Rim Cities

- 20 credits from the following list of content courses:
  - TCHIN 101 First-Year Chinese
  - TCHIN 102 First-Year Chinese
  - TCHIN 103 First-Year Chinese
  - TCXIN 281 Art and Culture in India
  - TCXIN 282 Art and Culture in China
  - TCXIN 283 Art and Culture in Japan
  - TIBCIN 220 Premodern East Asia
  - TIBCIN 366 Islam
  - TIBCIN 367 East Asian Religions: Zen and Taoism
  - TIBCIN 463 God: East and West
  - TSMIN 412 History of Vietnam
  - TSMIN 413 Premodern Japan
  - TSMIN 414 Modern China
  - TSMIN 415 Modern Japan
  - TSMIN 416 Modern Korea
  - TSMIN 434 The Pacific War
Business Administration Minor

The minor in Business Administration is designed for undergraduate students in any non-business major or program to increase their understanding of business theory, practices, and applications within a wider economic and social context. The curriculum is designed to emphasize critical competencies, including strategic thinking, integrated business knowledge, communication and teamwork needed by students with a broad range of interests to succeed in the 21st century.

The minor requires 30 credits (minimum of 20 credits in residence). There are four specific courses required for a total of 20 credits. An additional 10 credits of 300-400 level electives, which should generally be taken after completion of all required courses, are selected from an approved list of classes.

Learning Outcomes
1. To recognize the social, political, ethical, and environmental consequences of management decisions.
2. To understand group and individual dynamics in organizations.
3. Diagnose complex organizational problems and design effective solutions.
4. Understand basic financial statement analysis and reporting.
5. To evaluate an organization’s market, competitive position, and customers, in order to make effective decisions regarding organizational focus and resource deployment.

Courses are 5 credits unless otherwise noted.

Required Courses (20 credits)
- T ACCT 210: Introduction to Financial Accounting
- T FIN 220: Introduction to Microeconomics
- T BUS 300: Managing Organizations
- T BUS 320: Introduction to Marketing Management

Elective Courses (10 credits)
- T BGEN 412: Ethical Issues in Business
- T BUS 330: Introduction to Information Technology
- T MGMT 430: Managing the Workforce
- T MGMT 433: Managing Organizational Diversity

Computing and Software Systems Minor

Contact an adviser in the Institute of Technology at (253) 692-5860 to learn more about this minor.

The minor in Computing and Software Systems focuses on computer programming, problem solving and how software is designed to meet diverse human needs. The minor emphasizes fundamental skills that apply to current computer-based technologies, such as dynamic Web pages, and that will remain applicable to the next generation of computing devices. Coursework in the minor balances theoretical underpinnings of computing with the pragmatics of hands-on practice in developing a variety of software projects.

Prerequisites
- Calculus (MATH 124 or equivalent)
- Probability/Statistics (TQS 110 or equivalent)
- TCSS 142 or equivalent
- TCSS 143 or equivalent

Requirements
- The minor requires 30 credits to include:
  - TCSS 305: Programming Practicum
  - TCSS 321: Discrete Structures
  - TCSS 342: Data Structures
  - TCSS 360: Software Development and Quality Assurance Techniques
  - TCSS 371: Machine Organization
  - One additional 300- or 400-level TCSS course

Education Minor

Contact an adviser in Interdisciplinary Arts and Sciences at (253) 692-4450 to learn more about this minor.

This minor is designed to help students interested in teaching to meet the course requirements for applying to K-12 certification programs. By offering a choice of relevant courses in both IAS and Education, including a “hands-on” practicum in a public school classroom, the minor provides the opportunity to gain broad perspectives on educational issues in today’s world.

Requirements

The minor in Education requires a minimum of 29 credits of coursework including a 14-credit core. Any course taken for the purpose of fulfilling a Teacher Certification program curriculum requirement or prerequisite must be passed with a 2.0 minimum grade. A 3.0 GPA is required for admission to the Teacher Certification program. Students should consult with a program adviser prior to enrolling in classes.

Education Core (14 credits):
- All three courses below:
  - TEDUC 471 Diversity and Equity in Schools and Curriculum (3)
  - TEDUC 482 Schools in American Society (3)
  - TEDUC 490 Service Learning Practicum in Education (3)

- Plus one of the following courses:
  - TPSYCH 229 Lifespan Development (or equivalent transfer course)
  - TPSYCH 320 Theories of Child Development (or equivalent)

Electives (15 credits):
- Select one course each from lists A, B and C.
  - Children and Youth (List A):
    - TCOM 258 Children and Television
    - TPSYCH 212 Child and Adolescent Abnormal Psychology
    - TPSYCH 230 Educational Psychology
  - Child Psychology (List B):
    - TPSYCH 321 Adolescent Psychology
    - TPSYCH 401 Family Violence
  - U.S. History and Diversity (List C):
    - TCSIG 265 Race and Ethnicity in the United States
    - TCSIUS 220 African American History: 1619-1865
    - TCSIUS 221 African-American History: 1865-1945
    - TCSIUS 223 African-American History: 1945-present
    - TCSIUS 347 Minorities and Higher Education in American History
    - TCSIUS 441 Black Freedom Movement in Perspective
    - TCSIUS 443 Ethnicity and the Urban Landscape

* Course also fulfills UW Tacoma Teacher Certification prerequisite.
The Environmental Studies minor gives students who are interested in environmental issues a good grounding in the principles of this field. For students interested in the various aspects of the environment, such as science, law, economics, history, policy, health, education, psychology, and justice, this minor offers a range of courses to choose from as well as the basic science. No prerequisites are needed. For students from all majors, this minor can be useful in obtaining the perspectives that make them more successful job applicants, as well as obtaining the perspectives that make them more informed employees and citizens.

### Requirements

The minor in Environmental Studies requires **25 credits** to include:

Health and Society Minor

Contact an adviser in Nursing at (253) 692-4470 to learn more about this minor.

The Health and Society minor is open to all non-nursing UW Tacoma students. The Health and Society minor offers students the opportunity to increase their understanding of, and advocacy for, health within a broad social context. The courses enable students to make use of valid sources of information, to understand health policy, and to examine individual, community, environmental, and global health issues. The Health and Society minor provides a valuable study option for students with allied health work experience or students interested in the health care sector.

Requirements

The minor in Health and Society requires 28 credits to include:

- 10 credits of courses concerned with health and society
- 20 credits from among the following courses:
  - T HLTH 320: Promoting Health Through Social Marketing
  - T HLTH 325: Medical and Ethical Issues in Modern Health and Society
  - T HLTH 410: Environmental Equity
  - T HLTH 415: Representations of Health Policy and Ethics in Film
  - T HLTH 420: Holistic Health
  - T HLTH 425: Violence in Intimate Partner Relationships
  - T HLTH 430: Adolescent Health in Context
  - T HLTH 435: Women's Health, Women's Lives
  - T HLTH 440: Business of Health Care
  - T HLTH 470: Challenges and Controversies in U.S. Health Care
  - T HLTH 472: Human Health and the Environment
  - T HLTH 480: Death and American Society
  - T HLTH 485: Critical Issues in Global Health
  - TNURS 402: Families in Society
  - TNURS 410: Ethical Issues in Clinical Practice

Hispanic Studies Minor

Contact an adviser in Interdisciplinary Arts and Sciences at (253) 692-4450 to learn more about this minor.

Hispanic Studies combines proficiency in the Spanish language with a general knowledge of the cultural, historical, and political framework of Spanish America. It also promotes an awareness of Hispanic culture in the United States. This interdisciplinary minor draws on traditional fields such as second-language acquisition, history, literary analysis and criticism, film studies, art history, political science, and sociology. It emphasizes the interrelationship between language and culture and trains people to interact with native speakers of Spanish more effectively.

Requirements

The minor in Hispanic Studies requires 25 credits to include:

- 10 credits of Spanish language skills:
  - TCXG 301: Intensive Spanish: Reading
  - TCXG 302: Intensive Spanish: Conversation
  - TCXG 303: Intensive Spanish: Writing
- 15 credits of courses concerned with Hispanic Studies:
  - T SIIIN 435: Popular Movements in Latin America
  - T SIIIN 441: Mexican Cinema and Society
  - TCXIN 376: Hispanic Film
  - TCXIN 377: Mexican Literature and the Search for National Identity
  - TCXIN 461: Contemporary Mexican Culture
  - TCXIN 462: Women in Latin America
  - TCXIN 463: Contemporary Cuban Culture
  - TCXIN 464: The Arts, Cultures and History of Mexico (study abroad; 12 cr.)
  - TCXIN 476: Latin American Women Writers
  - TCXIN 490: Contemporary Spanish Culture
  - TCXUS 228: Hispanics in the United States
  - TBCIN 461: Religion and Church in Latin America
  - TBCIN 490: Society and Culture in Cuba (study abroad; 15 cr.)
  - TSMIN 224: Modern Latin America
  - TSMIN 323: The Making of Mexico
  - TSMIN 326: Modern Brazil
  - TSMIN 410: Caribbean Basin: Selected Topics

* Students who are diagnosed as native speakers or at an advanced level of proficiency (4 or higher on the ACTFL scale) are not required to take the language classes. These students should take an additional 10 credits from list B.

Human Rights Minor

Contact an adviser in Interdisciplinary Arts and Sciences at (253) 692-4450 to learn more about this minor.

The Human Rights minor is a tri-campus, interdisciplinary minor open to undergraduate students from all programs and departments of the University of Washington. Students who are interested in social justice or international law and politics will find this new option to be of particular interest.

Requirements

The Human Rights minor requires 25 credits to include the following:

- 10 credits of courses concerned with human rights (i.e., as defined in the Universal Declaration of Human Rights) as a core concept.
- 10 credits of courses of a particular interest.
- 5 credits of courses concerned with human rights in a broad context, e.g. poverty, race/ethnicity, gender.

Tacoma:
- TCSIUS 221: African American History: Jim Crow to Martin Luther King, Jr.
- TCSIUS 335: Social Class and Inequality
- TCSIUS 340: History of U.S.-American Indian Relations
- TCSIUS 441: Black Freedom Movement
- TCSIUS 452: Minorities and the Law
- TCXUS 384: African American Women's Literature
- TCXUS 385: African American Literature from Slavery to the Present
- TCXUS 478: Literature of the Harlem Renaissance
- TIBCUS 352: Cultural Geography
- TIBCUS 453: African-American Culture and Consciousness
- TCSIUS 222: African-American History: 1945-Present
- TSMG 313: Theories of Economic Development and Social Change

Bothell:
- BLS 335, BLS 333, BLS 403, BLS 414
- PHIL 338, POLS/SOJU 363, SOCSCI 201, WOMEN 405
The Minor in Museum Studies familiarizes students with museum theory, philosophy, and practice. It aims to prepare students for graduate studies in museology, museum management, and entry-level positions in the field. A general track encompasses shared practices that involve registration, curatorial approaches, conservation, fundraising, and general management. A specialized track focusing on art museums explores issues that are particular to the academic disciplines associated with those institutions, such as art criticism, connoisseurship, and the art market. The unique location of UW Tacoma within a central campus of museums and its proximity to major metropolitan areas provides students with numerous internship and job-placement opportunities.

**Requirements**

The minor in Museum Studies requires 40-45 credits to include:

- 10 credits of core courses:
  - TIBCG 448: Arts Administration
  - TIBCG 449: Museum Studies
- Curatorial Theory and Practice (under development)
- 15 credits from the General or Art Museum Tracks:
  - General Museum Track
  - TCGX 470: The Material World: Art and Artifacts
  - TCGX 480: Contemporary Art and Society: 1945 to the Present
  - TCGS 430: Introduction to Public History
  - TCGX 335: History of Photography
  - TCGX 377: Art of the Americas
  - TIBCSN 450: Contemporary Theories of Culture
- Art Museum Track
  - TCGX 469: Art Theories, Methods, and Philosophies
  - TCGX 480: Contemporary Art and Society: 1945 to the Present
  - TCGX 479: Modern European Art
  - TCGX 335: History of Photography
  - TCGX 377: Art of the Americas
  - TCGX 477: Patronage, Religion, and Propaganda in European Art (1590-1750)
  - TCGX 478: Revolution, Industrialization, and Modernity in European Art (1780-1900)
- TCSUS 376: American Architecture
- TCGX 471: Culture and Meaning in the Visual Arts

- 10 credits from the following list:
  - TCSUS 431: Community Organizations and the Nonprofit Sector
  - TCSIG 431: Organizational Development
  - TCSUS 451: Essentials of Grant Writing and Fundraising
  - TCSUS 433: Organizational Systems and Change

*TThese courses are also part of the Minor in Nonprofit Management. Students may wish to pursue these two minors in combination.

---

### Nonprofit Management Minor

Contact an adviser in Interdisciplinary Arts and Sciences at (253) 692-4450 to learn more about this minor.

This minor in Nonprofit Management offers students the opportunity to develop competencies in, among other things, community building, volunteer management, budgeting, grant writing and fundraising, as well as to gain a better understanding of current societal challenges. Students will also gain valuable professional experience through supervised internships in local nonprofit agencies. These internships provide students with important real-world challenges, as well as the opportunity to develop networks leading to meaningful and exciting careers improving the communities in which they live.

**Requirements**

The Nonprofit Management minor requires 25 credits to include:

- TCSIUS 348: Leading a Nonprofit Organization in the 21st Century
- 5-10 credits of an internship:
  - TIAS 496*: Internship(s) with a focus in Museum Studies certified by supervising instructor

---

### Public History Minor

Offered by Interdisciplinary Arts and Sciences. Check with an IAS adviser to learn which concentrations are most compatible with this minor.

Public history engages with the past and its presentation to the public by training historians to be active participants in society. This interdisciplinary field draws on traditional historical scholarship while incorporating knowledge and methods from a variety of other disciplines including art history, anthropology, historic preservation, and library science. Public historians learn how to convey history to a wide range of audiences using new and innovative methods. Most importantly, public historians strive to teach the public about the value of history...
and the need to learn about the past to better understand the present and shape the future.

Over the past two decades an explosion in the number of museums, historical societies and historic sites has led to increased demand for public historians. These historians work as consultants, archivists, historic preservationists, curators, educators, oral historians, media and public relations professionals and public policy analysts. Students interested in history or education would benefit from this minor by having the opportunity to apply their historical knowledge to the public sphere. This minor develops skills in historical research and methods, complementing IAS concentrations (e.g., Arts, Media, and Culture; American Studies). An internship component allows students to gain hands-on experience working for a local or regional organization in the field of public history. The South Puget Sound region has numerous opportunities for internships, including a number of institutions just steps away from the UW Tacoma campus.

Requirements
The Public History minor requires 35 credits to include the following:

- History Elective: 5 credits (List A)
- U.S. History Core: 10 credits
  - TSMUS 200 American History I: 1607-1877
  - TSMUS 201 American History II: 1877-present
- History Elective: 5 credits (List B)
  - TSMUS 230 Civil Rights, Civil Liberties
  - TSMUS 320 American Labor Since the Civil War
  - TSMUS 410 Early American Politics and Law
  - TSMUS 411 American Politics and Law
  - TSMUS 412 American Civil Liberties
- U.S. History Elective: 5 credits (List C)
  - TSMUS 410 Early American Politics and Law
  - TSMUS 411 American Politics and Law
  - TSMUS 412 American Civil Liberties
  - TSMUS 413 Civil Rights, Civil Liberties
  - TSMUS 414 Robber Barons and the Philosophy of Business
- Architectural, Art, or Local History Elective: 5 credits (List C)
  - TCSIUS 445 History of Tacoma
  - TCSIUS 437 Doing Community History
  - TBCG 448 Arts Administration
  - TBCG 449 Museum Studies

Urban Studies Minor
Offered by Urban Studies. Check with an Urban Studies adviser to learn more about this minor.

Urban Studies is multidisciplinary by nature and, hence, can serve to complement a variety of degree programs at UW Tacoma. The Urban Studies minor is intended to provide students from other programs an understanding of and appreciation for urban issues and problems.

Requirements
The Urban Studies minor requires 30 credits to include the following:

- Core Courses (10 credits):
  - TURB 301 The Urban Condition
  - TURB 430 Pacific Rim Cities or TURB 460 Cities in the Developing World
- Core Electives (15 credits):
  - Select 15 credits from approved Urban Studies core elective list, to include at least one 400-level course.
- Capstone Course (5 credits)
  - TURB 492 Urban Studies Capstone Seminar

Geographic Information Systems (GIS) Certificate
Offered by Urban Studies and Environmental Science. Check with an adviser or visit www.tacoma.washington.edu/urban_studies/academics/GIS/ to learn more about this certificate.

The certificate in Geographic Information Systems (GIS) provides students with an excellent foundation in the concepts necessary for spatial modeling with a variety of digital data. Students develop the analytical and practical skills needed for research in GIS and entry into the employment sector. The certificate program is a nine-month course of study for those seeking the knowledge and skills to utilize GIS in fields such as urban and regional planning, environmental research, resource management, crime analysis, marketing, real estate, medical research and various branches of government. The program is designed to benefit entry- to intermediate-level users who lack formal education in GIS.

Requirements
The GIS certificate requires 24 credits to include the following. All courses must be completed with a minimum grade of 2.0.

- TGIS 311 Maps and GIS (6)
- TGIS 312 GIS Data and Analysis (6)
- TGIS 313 Advanced GIS (3)
- TGIS 414 GIS Project Design (6)
- TGIS 415 GIS Practicum (3)

Admission
Students must complete a separate application for the GIS Certificate and submit the following:

- GIS Application
- 60 semester or 90 quarter college-level credits to include a course in statistics
- Two letters of recommendation
- Résumé
- Personal statement

Students are admitted to the program in Autumn Quarter only. The priority deadline for admission is August 1. Refer to the GIS Web site for more information.
Nonprofit Management Certificate
Offered by Interdisciplinary Arts and Sciences. Check with an IAS adviser to learn more about this certificate.

The certificate program is designed to meet the needs of postbaccalaureate students who would like to complete training in nonprofit management. The requirements are the same as for the Nonprofit Management minor. The certificate allows students who have already completed a bachelor’s degree to complete the nonprofit management curriculum.

Undergraduate students also earn the certificate when they complete the minor.

Requirements
The Nonprofit Management certificate requires **25 credits** to include:

- TCSIUS 431: Community Organizations and the Nonprofit Sector
- TCSIG 431: Organizational Development
- TCSIUS 451: Essentials of Grant Writing and Fundraising
- TIAS 496: Internship
- TCSIUS 457: Nonprofit Management Capstone

Restoration Ecology Certificate (REC)
Offered by Interdisciplinary Arts and Sciences. Check with an IAS adviser to learn more about this certificate.

The University of Washington Restoration Ecology Network (UW-REN) was established to prepare students to meet the multidisciplinary challenges in the field of ecological restoration. Effective restoration requires the interactive efforts of experts from many disciplines, as illustrated below. UW-REN offers students from any UW program the opportunity to obtain a certificate of academic experience in Restoration Ecology. This program provides students with a substantial background in restoration ecology within the context of their degree program. The REC is not associated with a degree program. It demonstrates to employers and funding agencies that a fundamental training in restoration ecology, including a one-year, team-based restoration project has been completed. Study ranges from theory to practice to provide students with skills necessary to participate as effective team members or to lead challenging restoration projects.

Requirements
The Restoration Ecology certificate requires a minimum of **25 credits**. All courses must be completed with a minimum grade of 2.0.

- TESC 362: Introduction to Restoration Ecology (7 credits)
  This is a 300-level course offered at UW Bothell and UW Tacoma. UW Seattle's equivalent course is EHUF 473.

- Restoration-related courses (10 credits)
  Students must complete 10 credits of restoration-related courses from an approved list of courses that is available on the UW-REN Web site at [http://depts.washington.edu/uwren](http://depts.washington.edu/uwren). Courses not on the list can be petitioned to the UW-REN director.

- UW-REN Senior Restoration Capstone
  TESC 462 (2 credits)
  TESC 463 (3 credits)
  TESC 464 (3 credits)
  The capstone consists of a three-quarter, 10-credit sequence of courses that take place during the fall-winter-spring quarters. In the capstone, students participate in a hands-on restoration project from design, analysis, and implementation to developing a monitoring plan, all within a multidisciplinary teamwork setting.
Admission Requirements

The University of Washington Graduate School determines the requirements for admission to graduate study. Admission to a graduate program at UW Tacoma is contingent upon acceptance by the Graduate School and the program of choice at UW Tacoma. Each graduate student must be admitted into a specific graduate program; the Graduate School does not permit general graduate enrollment.

More information about the UW Graduate School can be found online at:

www.grad.washington.edu

Admission Procedures

Admission to the Graduate School is granted by the Dean of the Graduate School. Application for admission is made to the Office of Graduate Admissions and to the academic program of choice on the Tacoma campus. Contact the specific program of choice for application requirements and procedures. At a minimum, prospective students must:

■ Hold a baccalaureate degree from a regionally-accredited college or university in this country or its equivalent from a foreign institution.

■ Have earned a 3.0 or B grade point average in the most recent two years of study or 90 quarter credits (60 semester credits).

■ Complete online application to the University of Washington Graduate School at:
  
https://www.grad.washington.edu/**\ApplforAdmiss**

■ Arrange for the receipt of scores on the Graduate Record Examination (GRE) or an alternative test if the program requires. Scores must be received directly from ETS.

■ Submit one official transcript from all previously attended colleges, universities and institutions to the program of choice at UW Tacoma. Admitted students will be required to submit a second official transcript from their baccalaureate institution after admission.

Additional materials, such as goal statements and letters of reference, may be required by individual programs. Please see the individual program sections in this catalog for details.

Priority for admission of applicants into a graduate degree program is based upon the applicant’s apparent ability, as determined by the University, to complete the program expeditiously with a high level of achievement and also upon the applicant’s promise for success in his or her subsequent career. In addition, according to Graduate School admission policy:

■ No practice may discriminate against an individual because of race, color, national origin, disability, sex, age, religious preference, creed, sexual orientation, marital status, or background, or status as disabled veteran or Vietnam-era veteran and

■ Sustained efforts must be made to recruit qualified students who are members of groups that have been subject to discrimination or are underrepresented in certain disciplines.

How to Apply for Graduate Admission

Application materials may be obtained from the Web site of the academic program at UW Tacoma in which the student wishes to pursue graduate studies. For detailed information about admission to graduate studies at UW Tacoma, contact the specific program office at UW Tacoma.

Priority Dates for Graduate Applications

The priority dates for application to the graduate programs are listed in the table on the next page. Please note that this is the date that application materials must actually reach the appropriate offices, not the postmark date.

Applying to the UW Graduate School

Applicants must apply both to the UW Graduate School and to their program of choice at UW Tacoma. The Graduate School now requires applicants to apply online at:

(note that the URL begins with "http://")

https://www.grad.washington.edu/**\ApplforAdmiss**

An application fee of $50 must be paid by credit or debit card or electronic check with the online application. Applicants who are unable to apply online should contact their program of choice to discuss other application options.

A printout or copy of the applicant’s UW Graduate School application must be included with application materials sent to their UW Tacoma program of choice.

Applying to a UW Tacoma graduate program

In addition to submitting an application to the UW Graduate School, applicants must complete a separate application and submit additional materials directly to the UW Tacoma program to which they wish to apply. Application procedures and requirements differ by program. Please contact the specific program for details. Early submission of applications is encouraged.

Some programs require additional documentation (letters of recommendation, for example). See the appropriate section of this catalog and check with the program office for current information. All records submitted as part of an admission application become a part of the official file and the property of the University and cannot be returned or duplicated.

These procedures and deadlines apply to new students, visiting students and former students of the University of Washington who have not attended since receiving their baccalaureate degrees. A former student must apply as a new student for admission to the Graduate School. Contact the program of choice for specific procedures.

Notification of admission status

When all required documents have been received, an evaluation is made and the applicant is notified of his or her admission status. An offer of admission is generally valid only for the quarter indicated. Applicants who wish to be considered for a different quarter must file a new application and fee. In some situations, the program office may be willing to update a student’s application to a new quarter. Check with the program of choice for details.

Admission credentials of applicants who do not register for the quarter to which they have been admitted are normally retained for a period of one year from the quarter of application. At the end of this period, credentials on file are discarded unless the applicant has notified the Office of Graduate Admissions and the program of a continued interest in attending the University.

Graduate credits taken as an undergraduate

University of Washington students who are within six credits of completing their undergraduate work and who have met the requirements for admission to the Graduate School may register the quarter immediately preceding admission to the Graduate School for up to six credits in 300-level courses in addition to the last six credits they require of undergraduate work. For example, a student admitted for Autumn Quarter may take graduate credits during the preceding Spring Quarter.

This registration and these arrangements must be approved by the graduate program that the student will enter. However, students so enrolling are not reclassified as graduate students until the baccalaureate degree has been granted and after their official admission. At that point, it is necessary to petition to permit the six credits to apply toward the master’s degree. Only under these circumstances may graduate work taken as an undergraduate be applied toward an advanced degree. Further registration for graduate work is contingent upon completion of the requirements for the bachelor’s degree.

Graduate Nonmatriculated Students

Graduate nonmatriculated (GNM) is a classification for post-baccalaureate students who are not seeking a graduate degree at the time of registration. While a student does not need GNM status to register for a graduate-level class, a student must have it in order to apply the credits to a graduate degree at the University of Washington should the student later be admitted as a matriculated graduate student. GNM status is granted by the individual graduate program. A minimum GPA of 3.0 in the last 90 quarter (60 semester) graded credits is required for consideration. A student who is later admitted to the Graduate School may apply a maximum of 12 applicable GNM credits (or any combination of GNM and up to six approved transfer credits, totaling 12 credits) toward a master’s degree. Admission into the GNM status does not confer priority for or guarantee of later admission into the Graduate School to pursue a degree.

Applicants for GNM status must contact the academic program directly for application information. Not all programs choose to offer GNM status. Programs will advise students regarding the status and provide instructions, application forms and program requirements to appropriate candidates.

Failure to register for any quarter except Summer Quarter will result in loss of GNM status. Once GNM status has been lost, the application process must be repeated in order to be readmitted as a GNM student. The transcripts and other student records from the prior records can be forwarded to supplement the new application, and the new application fee may be waived.

GNM students pay fees and tuition at the regular graduate-student rate based on residency of the student including the Student Services and Activity Fee and the Technology Fee. GNM students are not eligible for financial aid because most financial aid is governed by federal regulations that require students to be enrolled in degree programs. Students will be assigned a UW student number and receive a student identification card that entitles them to all privileges and access to facilities that are extended to matriculated students.

Visiting Graduate Students

A student who wishes to enroll in a graduate program at the University of Washington Tacoma and who intends thereafter to return to another graduate school in which he or she is working toward an advanced degree may be admitted as a visiting graduate student. This admission is contingent on available space and facilities. Such a student must have been officially admitted to another recognized graduate school and be in good standing and currently pursuing a graduate degree. Admission to the University of Washington Tacoma, as a visiting graduate student does not guarantee admission to any particular course of study.

A visiting graduate student is permitted to register only in those courses for which he or she is judged to be eligible by a faculty adviser or the instructor of the course and if space is available to accommodate registration. Further details regarding application and other relevant policies may be obtained from the appropriate program office at UW Tacoma or on the Web at www.grad.washington.edu.

Transfer Credit

A student working toward a master’s degree may petition the Dean of the Graduate School for permission to transfer to the University of Washington the equivalent of a maximum of six quarter credits of graduate level coursework taken at another recognized academic institution. These credits may not have been used to satisfy requirements for another degree. The petition must include a written recommendation from the graduate program coordinator and an official transcript indicating completion of the coursework. Transfer credits are not
entered on the UW transcript.

University of Washington students who are within six credits of completing their undergraduate degree and who have met the requirements for admission to the Graduate School may register the quarter immediately preceding admission to Graduate School for up to six credits in 500-level courses in addition to the last six credits they require of undergraduate work. The graduate program that has admitted the student must approve registration for the courses. The student, after admission to the Graduate School, must file a petition with the Dean of the Graduate School to transfer the six credits. The student must also provide a letter from the Office of Graduation and Academic Records stating that these credits have not been applied toward the undergraduate degree. Contact the specific program for details.

Graduate Student Policies

The following section contains detailed information concerning policies and procedures relating to graduate students and graduate studies. Students should verify all information with the program adviser of the individual academic program or appropriate staff.

For more information on the UW Graduate School and graduate student policies, please visit the Graduate School Web site at www.grad.washington.edu.

Graduate Courses

Graduate courses are intended for, and ordinarily restricted to, either students enrolled in the Graduate School or graduate nonmatriculated students and are given numbers from 500 to 800. Some courses at the 300 and 400 levels are open to both graduates and upper-division undergraduates. Such courses, when acceptable to the supervisory committee and the specific academic program, may be part of the graduate program. The Graduate School accepts credit in approved 300-level courses for the minor or supporting fields only. Courses at the 300 level are not included in the calculation of grade-point average (GPA) and will not apply toward the minimum Graduate School requirement of 18 graded credits for the master’s degree. Approved 400-level courses are accepted as part of the major as well as minor or supporting fields. Courses numbered 490 and titled Special Topics and Special Projects normally are not applicable to a graduate degree program if addressed primarily to introductory content and undergraduate students. Undergraduate research (499) is not accepted as part of the graduate program. Graduate School Memorandum No. 36 offers additional information on graduate courses. With the exception of summer, students are limited to a maximum 10 credits per quarter of any combination of courses numbered 600, 700 or 800.

Graduate Student On-Leave Status

Graduate students who do not maintain continuous enrollment (Summer Quarter excepted) must file a petition for on-leave status with their program office. To be eligible for on-leave status, the student must have registered for, and completed, at least one quarter and be in good academic standing. An on-leave student is permitted to use the University Library but is not eligible for other University privileges. On-leave status forms are available from the program office. A $35 fee is charged for each petition filed. Students who are registered for any portion of a quarter may not go on leave for that quarter unless they officially withdraw at the Office of the UW Tacoma Registrar prior to the first day of the quarter.

On-leave status can be granted for up to four quarters. On-leave graduate students returning to the University on or before the termination of their authorized periods of leave need only register using MyUW for the quarter they want to return.

Re-admission

A student previously registered in the Graduate School who has failed to maintain graduate student status but who wishes later to resume graduate studies must apply online to be re-admitted. If the student has attended any other institution during the period when not registered at the University of Washington, official transcripts in duplicate of the student’s work must be submitted. An application for re-admission carries no preference and is treated in the same manner as an application for initial admission, including the requirement of payment of the application fee. Students are required to meet the program requirements in place at the time they are re-admitted.

The Graduate School normally allows six years to complete requirements for a master’s degree. Periods spent on leave or out of status are included.

Graduation Requirements for the Master’s Degree

It is the responsibility of each graduate degree candidate to meet the following Graduate School minimum requirements (plus any additional requirements that may be specified by the program in which the master’s degree is being earned; see item 7):

1. Under a thesis program, a minimum of 36 quarter credits (27 course credits and a minimum of nine credits of thesis) must be presented. Under a non-thesis program, a minimum of 36 quarter credits of coursework is required.

2. At least 18 of the minimum 36 quarter credits for the master’s degree must be for work numbered 500 and above. (In a thesis program, nine of the 18 must be course credits and nine may be for Master’s Thesis [700].)

3. Numerical grades must be received in at least 18 quarter credits of coursework taken at the University of Washington Tacoma. The Graduate School accepts numerical grades in approved 400-level courses accepted as part of the major and in all 500-level courses. The student must earn a minimum grade of 2.7 in each class in order for it to be counted. A minimum cumulative GPA of 3.0 is required for a graduate degree at the University.

4. The residence requirement for the master’s degree is one year (three full-time quarters). Students registered for fewer than 10 credits per quarter may add part-time quarters together to achieve the equivalent of one full-time quarter (10 or more credits) to be applied toward fulfilling residence requirements. However, excess credits beyond 10 may not be subtracted from one quarter and added to another. Once a student is admitted to a graduate degree program, a full quarter of residence is granted for any quarter in which at least 10 credits in approved courses, research, thesis, or internship are satisfactorily completed.

5. In a thesis degree program, a thesis, approved by the supervisory committee, must be submitted to the Graduate School. A student must register for a minimum of nine credits of thesis (700). With the exception of summer, students are limited to a maximum of nine credits per quarter of thesis (700).

6. A final master’s examination, either oral or written, as determined by the student’s supervisory committee, must be passed if it is a program requirement.

7. Any additional requirements imposed by the graduate program adviser in the student’s major department or by the student’s supervisory committee must be satisfied. A master’s degree student usually takes some work outside the major department. The graduate program coordinator in the major department or the student’s
supervisory committee determines the requirements for the minor or supporting courses.

8. The graduate student must apply for the master's degree within the first seven weeks of the quarter in which he or she expects the degree to be conferred. See Graduate Degree Application Process below.

9. The graduate student must maintain registration as a full- or part-time student at the University for the quarter in which the degree is conferred. A student who does not complete all degree requirements by the last day of the quarter must be registered for the following quarter.

10. All work for the master's degree must be completed within six years. This includes quarters spent on leave or out of status and applicable work transferred from other institutions.

11. A student must satisfy the requirements for the degree that are in force at the time the degree is to be awarded.

Graduate Degree Application Process

Students may submit a request for their master's degree starting from the first day of the quarter they expect to graduate until the Sunday of the seventh week of the quarter they expect to graduate. Students who miss the deadline may submit their request up to the Sunday of the ninth week of the quarter, but will pay a $250 late fee. Requests cannot be accepted after the Sunday of the ninth week.

For students requesting their degree in Summer Quarter, the deadline is the sixth week. The seventh week is considered late and requires the extra fee. Requests after the seventh week of Summer Quarter cannot be accepted.

If degree requirements are not met in the requested quarter or a student neglects to pay the late fee, the student must submit another degree request for the quarter they expect to complete requirements.

Students will be required to have a UW NetID before completing the master's degree application. The degree application is found at: www.grad.washington.edu/stsv/mastapp.htm. Students who cannot complete the master's request online or need to make changes should contact Graduate School Student Services at studentservices@grad.washington.edu. All students should check with their graduate program to ensure they are in compliance with departmental procedures for graduation clearance.

When completing the Master's Degree Request, the system will automatically run a degree audit to inform the student of any unsatisfied Graduate School requirements.

Students will receive an e-mail confirming receipt of their Master's Degree Request and their department is notified that a request has been submitted.

The student's department enters any department contingencies into the MyGradProgram system and can elect to send an e-mail to the student to notify them. The department will print the master's degree warrant and the warrants will be routed to the student's master's committee in a manner determined by the department.

By signing the master's degree warrant, the student's committee certifies that the student has met all departmental requirements for the degree (except the thesis, if one is required) and the warrants must be placed in the student's department file.

Once the warrant has been signed, the department will recommend whether or not the student is to graduate that quarter and these recommendations are conveyed to the Graduate School by the Sunday following the end of the quarter. E-mails are sent to the student notifying them that their department has made a recommendation on their request.

Once the Graduate School receives the degree request recommendation, a final transcript audit and a review to determine if all Graduate School and department contingencies are met, will be completed by the Graduate School staff.

The Graduate School enters the final graduation decision into the MyGradProgram system and e-mail notifications are sent to the student informing them of their graduation status.

A student must be registered as a graduate student and complete a minimum of two credits during the quarter in which degree requirements are met and the degree is conferred.

Commencement

Formal commencement exercises are conducted at the close of Spring Quarter. In April of each year, commencement information is sent to each student entitled to participate (i.e., those who graduated the previous August, December or March and those who anticipate graduating in the June or August of the current year).

Diploma distribution

Diplomas are produced approximately 12 weeks after the end of the quarter in which they are earned and are mailed to the student.
The Master of Business Administration (MBA) degree is designed for working professionals who want to enhance their abilities to respond to, manage and lead change. The 72-quarter-credit program emphasizes the organization as a system and builds an understanding of how each organizational component affects and interacts with others.

The primary goal of the MBA program is to provide current and future managers with the knowledge necessary to succeed in an increasingly dynamic and complex 21st-century environment. By design, the program integrates leadership, technological, analytical, interpersonal and communication skills. Students will learn to:

- Analyze organizations as complex systems;
- Diagnose organizational problems and design solutions;
- Implement change effectively;
- Support people and build teams;
- Scan the global business environment and identify important trends;
- Make strategic decisions under conditions of risk and uncertainty;
- Choose technologies that support productivity;
- Allocate organizational resources strategically;
- Consider the social, political, ethical and environmental consequences of management decisions.

Accreditation

The Milgard School of Business at the University of Washington Tacoma is accredited by the Association to Advance Collegiate Schools of Business (AACSB) in association with the University of Washington Seattle’s Foster School of Business and UW Bothell’s Business Program.

Admission Requirements

Applicants must simultaneously be admitted to the Milgard School of Business and to the Graduate School of the University of Washington. Application forms are available on the MBA Web site at www.tacoma.washington.edu/mba. Applications must be submitted in time to meet the Milgard School of Business deadline listed on the Web site, as this supersedes the Graduate School admissions deadline. The MBA program admits students for Autumn Quarter only. Admission is competitive.

The following are required for admission to the Master of Business Administration program:

- A baccalaureate degree from an accredited institution.
- An overall grade-point average of 3.0 calculated from the applicant's final 90 graded quarter credits or 60 graded semester credits.
- Competitive scores from the Graduate Management Admissions Test completed within the last five years.
- A minimum of two years of postbaccalaureate managerial work experience.
- One official transcript from each institution attended. If admitted, a second baccalaureate transcript will be requested by the Graduate School.
- One essay. Details about the essay are included in the application packet.
- A résumé and completed Personal Data Form.
- Two confidential professional recommendations.

OVERVIEW

The mission of the Milgard School of Business is to offer high-quality undergraduate and graduate education for citizens of the state of Washington, especially in the South Puget Sound region. We seek to integrate innovative teaching, relevant scholarship and proactive service into our business and academic communities. We also are committed to advancing and disseminating business knowledge and theory and to cultivating collaborative relationships with the community.
Applicants holding Permanent Residence Status and an international baccalaureate degree (or higher) must submit scores for the TOEFL exam. Minimum scores are 580 (paper-based), 237 (computerized TOEFLC), 92 (Internet-based TOEFLIBT).

Applicants with foreign transcripts are encouraged to apply by January to allow extra time for transcript evaluation. Foreign transcripts must be accompanied by an English translation when submitted.

Program Design

The 72-credit, non-thesis MBA degree has two components:

- Core courses
- Elective courses

The choice of electives will depend on students’ career and educational goals. Students can create a profile of elective courses that allows them to gain additional knowledge of management, finance, leadership or marketing. Elective courses also can be taken outside of Business from other UW Tacoma graduate programs.

Enrollment and Classes

The UW Tacoma two-year MBA allows students to continue in their careers while they develop new managerial knowledge and skills. In the average quarter, an MBA student will enroll in two courses (8 credits) of study. Students may complete their degree on a year-round basis in two years (including summers) or extend to three or more years. Classes meet primarily on weekday evenings and some Saturdays; many incorporate Internet components. Online assignments and discussion offer flexibility while keeping students connected to the faculty and their classmates. Courses integrate current conceptual and practical knowledge while building analytical and interpersonal skills. As a result, the curriculum is immediately relevant to practicing managers.

Chartered Financial Analyst (CFA)

The MBA program offers a Chartered Financial Analyst (CFA) option. This series of courses helps students prepare for the Level 1 exam. Students generally sit for the exam in June during their second year of study.

Elective Credits

A minimum of 12 graded elective credits must be completed in Tacoma MBA elective courses numbered 500 and above. The remaining elective credits can be completed via Tacoma MBA elective courses, credits from other UW graduate degree programs, transfer credits, or some combination of these as discussed in the policies below.

No more than eight credits of TBUS 569, Analytical Research, may be applied toward the MBA degree.

Transfer Credits from Other Institutions

An admitted MBA student may petition to transfer up to the equivalent of 12 quarter credits of graduate business coursework from an accredited institution toward the elective portion of the degree. Graduate credits that have been applied toward a completed degree cannot be transferred.

Applicants may petition by sending a letter to the Graduate Program Adviser. The petition should identify the courses requested for transfer credit and, for each course, clearly articulate how the course content contributes to the objectives of the UW Tacoma MBA curriculum. Petition requests will not be evaluated until an official transcript is received by the Milgard School of Business.

Written petitions for transfer credits completed prior to admission to the MBA program must be submitted during the first quarter of enrollment in the MBA program (Autumn quarter).

Enrolled UW Tacoma MBA students who take courses at another institution with the intent of transferring the credits should first seek approval from the graduate program adviser. If approved, these students should submit a written petition to transfer credits within one academic quarter of completing the course at another institution (e.g., petitions to transfer summer credits must be received by the end of Autumn Quarter).

Coursework that duplicates the content of required courses in the MBA curriculum will not be accepted for transfer elective credit.

Petitions are reviewed by the Graduate Committee and a letter is mailed to the address of record indicating how many credits, if any, will transfer. Students who transfer graduate credits from another university may be restricted in the elective courses they may take to complete their elective. Details of such restrictions will be included in the reply letter to the petitioning student. All decisions of the Graduate Committee with respect to transfer credits are final.

UW Credits Earned Outside the Tacoma MBA

A portion of MBA elective credits may be earned at the University of Washington in other degree programs. Students do not need to petition to ensure these credits apply toward their degrees. The following restrictions apply:

1. At least 12 elective credits must be taken from Tacoma MBA courses numbered 500 and above.
2. No more than 12 credits earned in other UW graduate programs (numbered 500 and above) can be applied to the MBA degree.
3. No more than 5 credits of 400-level Tacoma business courses can be applied to the MBA degree.
4. 400-level courses from any other undergraduate program cannot be applied toward the MBA degree.

Ungraded Credits (S/NS)

Core courses in the Tacoma MBA curriculum cannot be taken Satisfactory/Not Satisfactory (S/NS). No more than 12 credits of elective courses may be completed as S/NS.

Minimum Graduation Requirements for the MBA Degree

Along with the Graduate School requirements, courses taken to complete the 72 credits required for the MBA degree must receive a passing grade (2.7 or higher or Satisfactory or Credit).

If a student does not pass a required course, the course must be repeated. Another course cannot be substituted for a failed required course. Students completing a course on a Satisfactory/Not Satisfactory (S/NS) basis must earn at least a 2.7 grade in order to receive a grade of “Satisfactory.”

Students are reminded to read and carefully adhere to the University’s policies. Please refer to the Graduate Admissions, Graduation Requirements for Master’s Degree, and Graduate Student Policies sections in this catalog or refer to the Graduate School web site at www.grad.washington.edu for more information regarding graduate degree requirements.
Course Descriptions

For the most current course information, please consult the Milgard School of Business Web site: www.tacoma.washington.edu/business.

Core Courses

**TBUS 500 Quantitative Methods in Business**
- **4 credits**
  - Examines statistical concepts including probability and probability distributions.
  - Develops an understanding of sampling and estimation procedures, hypothesis testing, and inference. Topics include correlation and regression analysis, and analysis of time series.

**TBUS 501 Financial Theory**
- **4 credits**
  - Examines financial theory including asset valuation, capital markets, and the basic terminology of corporate finance.
  - Focuses on Time Value of Money, Equity Valuation, Cost of Capital and basics of risk management as essential tools.

**TBUS 503 Accounting for Business Decisions**
- **4 credits**
  - Emphasizes selected financial accounting and managerial accounting topics.
  - Cost behavior, activity-based costing, budgeting, and financial accounting and reporting are explored with an emphasis on understanding the information provided and prepared from a managerial perspective.

**TBUS 504 Marketing Management**
- **4 credits**
  - Explores the processes by which organizations create value for customers.
  - Focuses on marketing decision making, including opportunity analysis, positioning strategies, product development/management, distribution channels, pricing tactics, and integrated marketing communications.
  - Enables students to engage in target market selection and marketing program design.

**TBUS 505 Information Systems**
- **4 credits**
  - Examines key management issues related to the effective use of information systems for operational support, tactical decision-making, and strategic activities in various business environments.
  - Computer-based assignments are used to provide an experiential understanding of the issues involved.

**TBUS 506 Strategic Management**
- **4 credits**
  - Focuses on the strategy development process in organizations and on how to create sustainable competitive advantage.
  - Includes developing an understanding of the strategic position of organizations, strategic choices for the future and how one can best translate strategies into action.

**TBUS 507 Individual and Team Dynamics**
- **4 credits**
  - Examines human behavior in organizations in terms of individual, small group, intergroup and the total organization.
  - With an emphasis on managing people, topics include leadership, communication, group dynamics, decision-making, self-awareness, motivation, perception, influence, learning and the management of change and conflicts.
  - Class dynamics serve as significant examples for understanding human behavior.

**TBUS 508 Integrated Systems**
- **4 credits / Prerequisite: Completion of TBUS 500, 501, 503-507 and 520**
  - Integrates material learned in the MBA core through immersion in systems theory.
  - Students learn to view organizations as open systems and evaluate consequences of business decisions.
  - An online simulation is used to demonstrate the interplay of various subsystems in organizations while competitive forces create an environment of ongoing change.

**TBUS 520 Microeconomics for Managers**
- **4 credits**
  - Examines ways to apply tools of intermediate microeconomic theory to issues of interest to managers.
  - Topics include market processes, consumer theory, firm behavior in competitive and imperfectly competitive markets, product pricing, and strategic behavior.

**TBUS 570 Organization Change**
- **4 credits**
  - Provides a multiple perspectives approach to managing change.
  - Examines competing perspectives on change stemming from both change management approaches and organizational development approaches.
  - Considers various change methodologies and explores examples of best practice in change management.
  - Experiential approach encourages the development of skills in change management.

**TACCT 525 Forensic Accounting Seminar**
- **4 credits / Prerequisite: TBUS 503**
  - Explores the nature, detection and prevention of fraudulent financial reporting.
  - Investigates types of fraud, how fraud is committed, and ways to prevent fraud in corporations.

Elective Courses (32 credits)

**TACCT 531 Financial Statement Analysis**
- **4 credits / Prerequisite: TBUS 503**
  - Provides analytical tools and research techniques necessary to understand and interpret financial statements.

**TBUS 560 Tools for Forecasting and Assessing Change**
- **4 credits**
  - Emphasizes research design, data collection and data analysis as critical elements of forecasting and managing change.
  - Provides practical and theoretical insights into gathering information about forthcoming problems and opportunities.

**TBUS 568 Internship**
- **3-5 credits**
  - Allows students to explore new career avenues or to extend their current career experience into new areas.
  - Involves explaining knowledge and skills through on-site project work with an organization.
  - Requires written internship plan and faculty permission prior to registration.

**TBUS 569 Analytical Research**
- **2-4 credits**
  - Provides an opportunity to work independently to explore specific business topics in greater depth.
  - The student must develop a research proposal and make arrangements with a faculty member to supervise the project prior to course registration.
  - Tacoma MBA students only.
  - Permission of faculty is required prior to registration.

**TFIN 521 Macroeconomics for Managers**
- **4 credits**
  - Focuses on the use of intermediate macroeconomic theory to understand how different sectors of the economy are interrelated.
  - Specific emphasis is placed on international markets and how to assess the impact on firms of different macroeconomic policies and events.

**TFIN 522 Investment Valuation**
- **4 credits / Prerequisite: TBUS 501**
  - Examines the valuation of financial assets including stocks, bonds and real assets such as businesses.
  - Focuses on discounted cash flow, risk option pricing theory and models, market efficiency, dividend discount models, and real options theory.

**TFIN 526 Portfolio Management**
- **4 credits / Prerequisite: TBUS 501**
  - Provides an understanding of investor decision making under uncertainty, and how portfolios may be used to reduce risk.
  - Explores the portfolio management process including construction, revision, and protection of both fixed income and equity portfolios.
  - Covers performance evaluation and risk management.

Master of Business Administration 127
TIS 555  
Topics in Managing Technology: Decision Making and Information Technology  
4 credits  
Examines decisional reasoning in information technology. Leverages decision analysis frameworks and issues that contribute to the complexity of decisions; cognitive, social, and political dimensions of decisions; personal, group, and organizational decision making; and IT architectures for decision support.

TMGMT 512  
Business Ethics and Social Responsibility  
4 credits  
Focuses on the ethical and moral challenges that are an everyday part of organizational life for managers. Focuses on the societal consequences of managerial decisions and organizational actions. Considers global variance in ethical standards and impact of ethical behavior on organizational performance.

TMGMT 516  
Business Communication  
4 credits  
Explores the role of communication in attracting customers and meeting management. Also investigates communication issues which are typically controversial in organizations.

TMGMT 518  
Business Law  
4 credits  
Examines legal issues in a business context. Considers law as a strategic tool to help achieve core business objectives, create value, and manage risk. Addresses legal aspects of business management, agreements and relationships including: contracts, torts, product liability, employment, intellectual property, agency and business organizations.

TMGMT 520  
Managing Corporate Responsibility  
4 credits  
Focuses on the use of organizational design to create successful and sustainable organizations. Addresses organizing work, leveraging knowledge, developing processes, and supporting values to achieve the organization's goals. Examines how managers can achieve alignment of structure, culture, people and processes under conditions of change.

TMGMT 532  
Strategic Human Resource Management  
4 credits  
Addresses the design of human resource management systems to create and sustain competitive advantage. Focuses on how managers can diagnose their organization's alignment with competitive realities and develop human resource systems that produce the levels of commitment, coordination and competence required by the organization's competitive strategy.

TMGMT 553  
Leadership in a Changing World  
4 credits  
Concentrates on the knowledge and skills that managers need to lead effectively in today's dynamic business environment. The course examines what it takes to be an outstanding leader under a variety of circumstances. Participants will develop a greater understanding of how change impacts individuals, teams, and organizations. The course requires students to study a "live" case as well as develop an action plan to increase their own leadership competencies.

TMGMT 557  
Negotiation  
4 credits  
Emphasizes the conflict resolution approaches most commonly used by managers to resolve disputes at the individual, group and organizational levels. Students will learn to assess conflict situations and select appropriate resolution techniques as well as hone their skills in negotiation and mediation.

TMKTG 520  
Services Marketing  
4 credits  
Examines the legal, financial, strategic and managerial challenges of creating and operating new businesses. Topics include building an entrepreneurial firm, developing a start-up strategy, creating business plans, obtaining venture financing and managing a growing company.

TMKTG 580  
International Marketing  
4 credits  
Examines marketing strategies and tactics of companies that conduct international business. Explores how firms identify, research and enter international markets and the tools used to develop global marketing strategies that are appropriate for those markets.

Faculty

Shahrokh M. Saudagaran  
Gary E. & James A. Milgard Endowed Dean and Professor, Milgard School of Business

Elizabeth Alexander  
Assistant Professor, Milgard School of Business; Strategic Management and Public Policy, International Business, International Political Economy; Ph.D., George Washington University, 2006.

Zoe I. Barsness  
Associate Professor, Milgard School of Business; Accounting; Ph.D., University of Oregon, 2002.

Vanessa Chio  
Associate Professor, Milgard School of Business; Management, International Business; Ph.D., University of Massachusetts, 2000.

Sergio V. Davalos  
Associate Professor, Milgard School of Business; Management Information Systems; Ph.D., University of Arizona, 1992.

Ehsan Feroz  
Professor, Milgard School of Business; Accounting, International Relations; Ph.D., University of Chicago, 1982.

Altaf Merchant  
Assistant Professor, Milgard School of Business; Marketing; Ph.D., Old Dominion University, 2008.

G. Kent Nelson  
Senior Lecturer, Milgard School of Business; Organizational Management and Strategic Communication; Ph.D., University of Washington, 1994.

Stephen Norman  
Assistant Professor, Milgard School of Business; Economics; Ph.D., Cornell University, 2006.
Gregory Noronha, CFA
Professor, Milgard School of Business;
Finance; Ph.D., Virginia Polytechnic Institute,
1990.

Jill M. Purdy
Associate Professor, Milgard School
of Business; Organizational Behavior,
Organization Theory, Management; Ph.D.,

Gregory M. Rose
Professor, Milgard School of Business;
Marketing; Ph.D., University of Oregon,
1995.

Rommel Salvador
Assistant Professor, Milgard School of
Business; Management; Ph.D., University of

Eugene Sivadas
Associate Professor, Milgard School of
Business; Marketing; Ph.D., University of

Tracy A. Thompson
Associate Professor, Milgard School
of Business; Organizational Behavior,
Strategic Management; Ph.D., Northwestern
University, 1994.

Douglas T. Wills
Associate Professor, Milgard School of
Business; Economics; Ph.D., Texas A&M
University, 1995.
The Master of Science degree in Computing and Software Systems (CSS) prepares graduates for careers as database administrators, project managers, software developers, support specialists and systems analysts. Those with a master's degree in computer science typically earn 25 to 30 percent higher starting salaries than those with bachelor's degrees, according to a report by the U.S. Bureau of Labor Statistics.

The CSS master's program serves a diverse population of students, from those with significant experience and degrees in the field, to those with non-computing-related undergraduate degrees. By broadening the base of students eligible for the program, the Institute encourages a greater number of undergraduate students to continue their education at the graduate level and to attract an increasing number of nontraditional students who have related work experience and a strong interest in the field.

**Curriculum**

The Master of Science in Computing and Software Systems provides a broad overview of the technologies and theories supporting computing and software systems. The master's program advances the theoretical concepts of computer science from the bachelor's program. In addition, it requires that a student demonstrate the ability to synthesize and apply those concepts outside the classroom.

These goals are achieved in three stages:

- Foundational courses to emphasize theoretical (conceptual) as well as practical (embodied) knowledge.
- Theory courses that refine critical thinking skills and breadth of knowledge.
- Thesis, significant capstone design project or course-only option to strengthen confidence, leadership ability and communication skills.

Students completing the M.S. degree will attain the following competencies:

- Familiarity with the software development life cycle, both in theory and application.
- Skill in developing distributed and Web-based applications, along with the ability to learn new technologies rapidly.
- The opportunity to learn additional concepts and technologies in greater depth, through a capstone project.
- A foundation for self-directed learning to stay at the leading edge of this fast-changing field.
Admission Requirements

Applicants must provide evidence of the successful completion of a baccalaureate degree from an accredited institution with at least a 3.0 GPA. A degree in computer science is not required; however, any entering student may be required to take one or more Bridge Courses in order to fill gaps in their undergraduate education. All candidates must demonstrate successful completion of coursework in the following areas:

- Calculus
- Science (physics preferred)
- Object-oriented design and programming (Java preferred)
- Discrete Structures
- Data Structures
- Algorithms

Application Process

Those interested in enrolling in the Master of Science in Computing and Software Systems should make an appointment with an adviser by calling (253) 692-5860. Details about the curriculum and prerequisites along with application materials are available on the Institute’s Web site at www.tacoma.washington.edu/tech.

Curriculum

Bridge Courses

A student may be required to take one or more Bridge Courses in order to fill gaps in their undergraduate education. The student will be notified of required Bridge Courses at time of admission.

- TCSS 522 Computer Operating Systems
- TCSS 545 Database Systems Design
- TCSS 560 Software Engineering
- TCSS 572 Computing Systems Design

Core Courses

Core Courses integrate theory and practice in the realm of distributing software systems.

- TCSS 543 Advanced Algorithms
- TCSS 558 Applied Distributed Computing
- TCSS 598 Master’s Seminar in CSS

Electives

Student choose three electives from the list in the course descriptions section below.

Capstone or Additional Course Options

Candidates who elect to take the capstone option will complete a student-defined software project under the supervision of a faculty member, over the course of two quarters. The nature of the project will vary according to the student’s educational goals, but in all cases will broaden or deepen the student’s expertise in an area of computer science. Students with a grounding or interest in industrial or other practical problems may want to undertake an implementation that solves a significant real-world problem, whereas students contemplating future graduate study are encouraged to undertake a more academically oriented masters thesis.

An alternative three-course option is available for students who are primarily interested in a broader education in computer science. Additional 500-level electives are taken from a range of topics in computer science, in lieu of the capstone. A total of 15 additional hours of elective coursework is required.

Course Descriptions

For the most current course information, please consult the Institute of Technology Web site: www.tacoma.washington.edu/tech.

TCSS 522

Computer Operating Systems

5 credits

Examines the advanced concepts of operating systems and how they function. Includes process management, concurrency, inter-process communication, multi-threading, memory management, caching, file systems, graphical interfaces, security and networking. Not available for elective credit.

TCSS 523

Data Compression

5 credits

Covers a broad range of compression techniques, as well as their implementations in today’s compression standards. Techniques include block-based codes, dictionary coding, predictive coding, vector quantization, and transform coding, including wavelets. Covers selected standards for text, image, video and audio compression.

TCSS 540

Theory of Computing

5 credits / Prerequisite: TCSS 543

Covers computational models including finite automata, regular expressions, context-free grammars, pushdown automata, Turing machines and techniques for analyzing them. Basic computability theory and undecidability, computational complexity theory and NP-completeness.

TCSS 543

Advanced Algorithms

5 credits

Prepares students for analysis and use of advanced algorithms. Covers advanced graph, number-theoretic (with applications to cryptography), online, approximation (with performance guarantees) and probabilistic algorithms. Covers Turing machines and NP-completeness. Not available for elective credit.

TCSS 545

Database Systems Design

5 credits

Covers fundamental database concepts, relational databases, conceptual data modeling, entity relational diagrams and UML, logical and physical design, SQL commands and queries, query optimization, Wen database applications development, transaction management, distributed and object-oriented databases, data warehousing and data mining, XML query language, image and text retrieval, data storage and indexing. Not available for elective credit.

TCSS 555

Data Mining

5 credits

Covers methods and systems for data mining and discovering knowledge from data; mining system architectures; concept learning; text and multimedia mining; decision trees; Bayesian and belief networks; neural networks; case-based reasoning; cluster and multidimensional analysis; several application; tools to build new applications; knowledge discovery.

TCSS 558

Applied Distributed Computing

5 credits / Prerequisites: TCSS 545 & TCSS 572 or equivalents

Covers techniques and concepts associated with constructing software that is distributed, reliable, efficient and extensible; programming multi-threaded applications, communication among objects on different computers, creating a server accessed by multiple clients, using common object design patterns, locating and tailoring components and more. Not available for elective credit.

TCSS 559

Web Services

5 credits / Prerequisite: TCSS 558

Investigates a service-oriented computing paradigm for use with the Internet, web services. Includes comparisons of distributed computing paradigms, enterprise application integration, service oriented architecture, web services concepts, web services technologies, service coordination protocols, service compositions and service applications.

TCSS 560

Software Engineering

5 credits

Prepares students for developing software applications within a human and organizational setting. Focuses on the software development life cycle, requires gathering and analysis, design methodologies and notations, verification and validation, software measurement and quality assurance. Not available for elective credit.
TCSS 566 Computer-Mediated Communications
5 credits
Examines the uses of computer and communication technologies, including application implementations, for supporting human-to-human communications in both personal and social contexts. Includes topics from sociological and psychological aspects needed to design effective systems. Involves development of significant collaboration application and research paper.

TCSS 570 Introduction to Parallel Computing
5 credits / Prerequisite: TCSS 543
Covers parallel architectures, interconnection networks, and embeddings; fundamental communication operations; performance and scalability metrics; parallel programming paradigms, message-passing programming in MPI, and shared-address-space programming in threads; parallel algorithms for sorting, searching, matrix problems, graph problems, and dynamic load balancing.

TCSS 572 Computing Systems Design
5 credits
Covers machine organization/architecture, systems software and networking of computers for distributed applications. Includes design of CPU, memory, I/O and assembly language. Network topics include protocols and programming applications distributed over multiple systems. Not available for elective credit.

TCSS 581 Cryptology
5 credits / Prerequisite: TCSS 543
Covers simple ciphers, block and stream ciphers, attacks, public-key ciphers, electronic signature, cryptographic algorithms and real-world examples.

TCSS 588 Bioinformatics
5 credits / Prerequisite: TCSS 543
Covers methods and systems for the application of computer science to biology, medicine, genomics and proteomics, biological domain background, machine learning, statistical learning, hidden markov models, case-based reasoning, neural networks, semantic approaches, evolutionary computing, stochastic grammars and linguistics and grid computing.

TCSS 590 Special Topics in CSS
5 credits (max. 1.5 credits)
Examines current graduate-level topics and issues associated with computing and software systems. Permission of instructor required.

TCSS 598 Master’s Seminar in CSS
5 credits
Surveys the canonical literature pertinent to a master of science in CSS. Readings in research and applied computing are assigned to provide grounding in master’s-level work. Weekly discussions of topics taken from the readings. Not available for elective credit.

TCSS 600 Independent Study in CSS
1-10 credits, max. 10
Examines current topics and issues associated with computing and software systems. Permission of instructor required.

TCSS 700 Master's Thesis in CSS
1-10 credits / Prerequisites: TCSS 543, 558 & 598
Provides an opportunity to demonstrate comprehensive knowledge in CSS. Completes a research project led by a CSS graduate faculty adviser. Permission of instructor required.

TCSS 702 Design Project in CSS
1-10 credits, max. 10 credits / Prerequisites: TCSS 543, 558 & 598
Provides an opportunity to demonstrate comprehensive knowledge in CSS. Develops a significant design and implementation project led by a CSS graduate faculty adviser. Permission of instructor required.

Faculty

Orlando Baiocchi
Director and Professor
Institute of Technology
Electrical Engineering; Ph.D., University College in London, 1976.

Isabelle Bichindaritz
Assistant Professor, Institute of Technology; Computer Science; Ph.D., University Rene Descartes (Paris), 1994.

Donald Chinn
Assistant Professor, Institute of Technology; Computer Science; Ph.D., University of Washington, 1995.

Sam Chung
Associate Professor, Institute of Technology; Computer Science; Ph.D., University of South Florida, 1995.

Larry A. Crum
Professor Emeritus, Institute of Technology; Electrical Engineering; Ph.D., Marquette University, 1971.

Martine DeCock
Associate Professor, Institute of Technology; Computer Sciences; Ph.D., Ghent University, Belgium, 2002.

Steve Hanks
Professor, Institute of Technology; Computer Science; Ph.D., Yale University, 1990.

George Mobus
Associate Professor, Institute of Technology; Computer Science; Ph.D., University of North Texas, 1994.

Moshe Rosenfeld
Professor Emeritus, Institute of Technology; Mathematics; Ph.D., Hebrew University of Jerusalem, 1967.

Josh Tenenberg
Professor, Institute of Technology; Computer Science; Ph.D., University of Rochester, 1988.

Ankur Teredesai
Associate Professor, Institute of Technology; Computer Sciences; Ph.D., University at Buffalo, State University of New York, 2002.

Larry Wear
Professor and Associate Director, Institute of Technology; Electrical Engineering; Ph.D., Santa Clara University, 1970.

Daniel Zimmerman
Assistant Professor, Institute of Technology; Computer Science; Ph.D., California Institute of Technology, 2002.
The Master of Education (M.Ed.) degree is organized under the umbrella of the Education Program at UW Tacoma. Within that framework, prospective teachers may earn a residency certificate. Prospective principals and program administrators may also earn a residency certificate.

For practicing teachers we offer professional certification, as well as study options including:

- At-Risk Learner
- Curriculum and Instruction
- Multicultural Education
- Special Education
- Teaching English Language Learners (TELL)

We have a special advisory process to help teachers become highly qualified, earning new endorsements. This program allows students to embed professional certification and endorsements into degree programs, should they desire to do so.

As you will see, the programs vary in length, focus and requirements. Some are part-time and some are full-time. Upon acceptance, all students are assigned an adviser to find the most reasonable and efficient means of reaching their desired goal.

### Degree Requirements

Each M.Ed. student must satisfy both Graduate School and Education Program minimum degree requirements. It is the responsibility of each graduate student to complete the required coursework as stipulated for each degree option.

#### Graduate School

The Graduate School’s minimum requirements for the Master of Education (M.Ed.) are summarized below. A complete list and explanation of the requirements can be found on the following web page:

- [www.grad.washington.edu/stsv/mastersinfo.htm](http://www.grad.washington.edu/stsv/mastersinfo.htm)

The following information is excerpted from the Web page above.

- A student must satisfy the requirements for the degree that are in force at the time the degree is to be awarded.
- At least 36 credits must be completed.
- A minimum cumulative GPA (grade point average) of 3.00 is required for a graduate degree at the University of Washington.
- The Master’s Degree Request (must be submitted online):
  - [www.grad.washington.edu/student/mastapp.aspx](http://www.grad.washington.edu/student/mastapp.aspx)

- To avoid a late fee the Master’s Degree Request must be filed before the end of the seventh week in the quarter.
- If the Master’s Degree Request is filed during weeks eight and nine it is considered late and the student must pay a late fee.
- If the Master’s Degree Request is filed during weeks ten and eleven it is not accepted. The system is closed.
- In summer quarter, the Master’s Degree Request should be filed during weeks one through six. Week seven is considered late and the student must pay a fee. A request filed in weeks eight and nine is not accepted. The system is closed.

- Must complete all degree requirements within six years.
- The timeframe/clock begins on the first day of the quarter that the Graduate Student uses a course to satisfy degree requirements when he/she is coded as either a Graduate Non-Matriculated student (Department Code with class 6) or as a Graduate Student (Department code with class 8) in the department to which he/she is admitted.

---

**OVERVIEW**

Student learning is our primary goal; we prepare educators to meet the needs of all learners in our diverse communities. The Education Program is dedicated to discovering and teaching the best practices in instruction and school leadership. We strive to be at the forefront in meeting the educational needs of students in the South Puget Sound region.

**Phone:** (253) 692-4430  
**Fax:** (253) 692-5612  
**Office:** WCG 324  
**Campus box:** 358435  
**Web site:** [www.tacoma.washington.edu/education](http://www.tacoma.washington.edu/education)  
**Director:** Kären Landenburger  
**Advisers:** Sara Contreras, Carla Van Rossum, Anne Davis  
**Certification Specialist:** Anne Davis
– UW Graduate Non-matriculated credits used towards the 36 course credit total are counted in the six years.
– Quarters spent On-Leave and out of status are counted in the six years.

Students may:

■ Transfer no more than 6 graduate level quarter credits from other academic institution.
■ Transfer up to 12 Graduate Non-Matriculated credit hours towards the master's degree (masters students who also wish to transfer credit hours from another institution may apply for a combination of GNM and up to six approved transfer credits totaling twelve credits).

**Education Program**
The Graduate School supports all department requirements and will not authorize graduation unless the department has indicated that the student has satisfied the requirements. More information can be found on the following Web page:

www.grad.washington.edu/stsv/mastersinfo.htm

Following is a summary of the Education Program’s degree requirements. Students are encouraged to visit the Education Program office for assistance in understanding the various program requirements, obtaining forms, or locating other services on campus. Each student must meet with an advisor to develop a program plan that will lead to the completion of degree requirements.

Students must:

■ Complete a minimum of 45 quarter credits for the M.Ed. degree. The Education Program offers several program options each varying in length, focus and requirements. It is the student’s responsibility to complete the required coursework as stipulated in the program option he/she is completing.
■ Satisfactorily complete the Comprehensive Examination.
■ Complete a Practicum sequence or a Project sequence if required by the program option requirements.

**K-8 Teacher Certification**

The Master of Education Program with a focus on K-8 Teacher Education features an introduction to teaching in all areas of the elementary and middle school curriculum, preparation for non-curricular aspects of the teacher’s role, reflection on contemporary issues in education and frequent supervision. Cooperating teachers and university faculty work together to provide students with a program that ensures integration of course content with hands-on experience. Field placements begin on the first day of school in September, which usually follows Labor Day, allowing students to experience the beginning of the public school year.

Students may choose to earn certification in K-8 elementary education or K-8 elementary education and special education.

Admitted students progress as a cohort community through four quarters (five quarters for those seeking special education) of full-time study beginning in summer quarter. Upon completion of all certification requirements, one may be recommended to the state for a teaching certificate. The additional credits required to obtain the master’s degree may be taken in the evening and are conducive to a working teacher’s schedule.

This program is based on the most current educational research and theory. Our goal is to ensure that our graduates have a positive impact on student learning. Upon successful completion of all program requirements, students will earn a Master of Education degree and a Washington State Residency Teaching Certificate.

**Admission Requirements**

Admission to the Master of Education program requires that applicants be simultaneously admitted to the UW Tacoma Education program and the UW Graduate Admissions. To qualify for consideration, applicants must:

■ Have earned a bachelor’s degree from a regionally accredited university or college.
■ Have earned a cumulative grade-point average of at least 3.0 calculated from the final 90 graded quarter credits or 60 graded semester credits. Applicants who do not meet this requirement may still be eligible for admission depending on the quality of their academic work and educational experience with children of elementary school age.

■ Submit one official sealed transcript from each collegiate institution attended. If you are admitted and choose to enroll in the program, you must send a second transcript showing the conferral of your bachelor’s degree to the UW Graduate Admissions Office upon their request. (If you received your baccalaureate degree from the University of Washington, you do not need to submit a second transcript.)
■ Have completed courses in the subject areas listed in the chart on the next page. All courses must be 100-level or above and must have a grade of 2.0 or better.
■ Submit a personal goal statement of one or two pages that describes why you would like to teach. The goal statement is an important part of the application because it allows you to share a part of yourself that the admissions committee typically would not see in your GPA.
■ Submit a résumé of professional experience, educational background and other relevant information including volunteer experience.
■ Submit two confidential, sealed letters of recommendation from individuals who can speak to your commitment, academic ability and potential as a teacher.
■ Have experienced a minimum of 40 hours in a public school classroom within the last five years.
■ Have taken the Washington Educator Skills Test-Basic (WEST-B). For more information, go to www.west.nesinc.com.
■ Selected finalists will be invited for a personal interview.
K-8 Certificate and Degree Requirements

In addition to the state of Washington certification requirements, all students must complete the following coursework:

TEDUC 463 Arts in the Schools
TEDUC 483 Health Education and Child Abuse Issues
TEDUC 501 Foundations of Education: Policy, Ethics and Philosophy
TEDUC 506 Seminar in Graduate Writing
TEDUC 515 Science Methods
TEDUC 520 Multicultural Education
TEDUC 538 Classroom Assessment
TEDUC 541 Literacy Instruction for Diverse Students
TEDUC 548 Classroom Management
TEDUC 549 Teaching Students with Special Needs
TEDUC 554 Language Arts
TEDUC 555 Literature and Content Reading
TEDUC 560 Math Methods I
TEDUC 561 Math Methods II
TEDUC 562 Social Studies Methods
TEDUC 566 Education and Technology
TEDUC 587 Field Experience I
TEDUC 588 Field Experience II
TEDUC 589 Field Experience III
TEDUC 590 Reflective Seminar

(The above courses represent four full-time quarters of study beginning in Summer Quarter.)

Additional Degree Requirements

(15 credits required)

■ Complete the following courses:
  TEDUC 502 Learning about Learning
  TEDUC 503 Educational Measurement
  TEDUC 504 Understanding Educational Research

■ Comprehensive Examination (0)

■ Complete a practicum course sequence OR project course sequence:
  TEDUC 593 Practicum Seminar I (3)
  TEDUC 594 Practicum Seminar II (3)
  or TEDSP 593 Practicum Seminar I (3)
  TEDSP 594 Practicum Seminar II (3)
  or TEDUC 599 Culminating Project (3)
  TEDUC 599 Culminating Project (3)
  TEDSP 587 Field Experience I
  TEDSP 588 Field Experience II
  TEDSP 589 Field Experience III
  TEDSP 590 Reflective Seminar

K-8 / Special Education Certificate and Degree Requirements

In addition to the state of Washington certification requirements, all students must complete the following coursework:

TEDUC 463 Arts in the Schools
TEDUC 483 Health Education and Child Abuse Issues
TEDUC 501 Foundations of Education: Policy, Ethics and Philosophy
TEDUC 506 Seminar in Graduate Writing
TEDUC 515 Science Methods
TEDUC 520 Multicultural Issues in Special Education
TEDUC 541 Literacy Instruction for Diverse Students
TEDUC 544 Special Education Assessment and Evaluation
TEDUC 548 Special Education Classroom Management
TEDUC 550 Special Education Principles & Practices I
TEDUC 551 Special Education Principles & Practices II
TEDUC 554 Language Arts
TEDUC 555 Literature and Content Reading
TEDUC 560 Math Methods I
TEDUC 561 Math Methods II
TEDUC 562 Social Studies Methods
TEDUC 566 Education and Technology
TEDUC 587 Field Experience I
TEDUC 588 Field Experience II
TEDUC 589 Field Experience III
TEDSP 590 Reflective Seminar

(The above courses represent five full-time quarters of study beginning in Summer Quarter.)

Additional Degree Requirements

(15 credits required)

■ Complete the following courses:
  TEDUC 502 Learning about Learning
  TEDUC 503 Educational Measurement
  TEDUC 504 Understanding Educational Research

■ Comprehensive Examination (0)

■ Complete a practicum course sequence OR project course sequence:
  TEDUC 593 Practicum Seminar I (3)
  TEDUC 594 Practicum Seminar II (3)
  or TEDSP 593 Practicum Seminar I (3)
  TEDSP 594 Practicum Seminar II (3)
  or TEDUC 599 Culminating Project (3)
  TEDUC 599 Culminating Project (3)
  TEDUC 587 Field Experience I
  TEDUC 588 Field Experience II
  TEDUC 589 Field Experience III
  TEDSP 590 Reflective Seminar

Washington State Certification

Upon successful completion of the Teacher Certification Program and a passing score on the WEST-E exam for Elementary Education, students will be recommended to the Office of the Superintendent of Public Instruction for a Residency Teacher Certificate with an endorsement in Elementary Education. For those interested in an additional endorsement in Special Education, a passing score on the WEST-E exam for Special Education is also required.

Students may qualify for additional endorsements based on a passing score on the WEST-E for their endorsement area. For more information on the WEST-E exam, go to www.west.nesinc.com.

Secondary Science Education

The Master of Education Program with a focus on Secondary Science Education partners with local schools to prepare future teachers to help students in middle and high school gain knowledge and success in science. The preparation of secondary teachers in science education addresses one of the most significant gaps in the teacher corps today.

It is a part-time or full-time program for those who hold a bachelor’s degree. With the exception of the field experience component, the program is offered in the evening and occasional Saturdays. We tailor internships around specific goals and objectives, and previous experience in the field of science. It is a 62-credit program that begins in Summer Quarter.

This program is based on the most current educational research and theory. Our goal is to ensure that our graduates have a positive impact on student learning. Upon successful completion of all program requirements, students will earn a Master of Education degree and a Washington State Residency Certificate with an endorsement in Science, Earth and Space Science and/or Biology for grades 5-12.

Admission Requirements

Admission to the Master of Education program requires that applicants be simultaneously admitted to the UW Tacoma Education program and the UW Graduate Admissions Office. To be simultaneously admitted to the UW Graduate Admissions, applicants must:

- Have earned a cumulative grade-point average of at least 3.0 calculated from the final 90 graded quarter credits or 60 graded semester credits.
- Applicants who do not meet this requirement may still be eligible for admission depending on the quality of their academic work and educational experience with children of secondary school age.
- Submit one official sealed transcript from each collegiate institution attended. If you are admitted and choose to enroll in the program, you must submit a second transcript showing the conferral of your bachelor’s degree to the UW Graduate Admissions Office upon their request. (If you received your baccalaureate degree from the University of Washington, you do not need to submit a second transcript.)
- Have completed a course in adolescent or lifespan development. Course must be 100-level or above and must have a grade of 2.0 or better.
- Submit a personal goal statement of one page that describes why you would like to teach. The goal statement is an important part of the application because it allows you to share a part of yourself that the admissions committee typically would not see in your GPA.
- Submit a resume of professional experience, educational background and other relevant information including volunteer experience.
- Submit two confidential, sealed letters of recommendation from individuals who can speak to your commitment, academic ability and potential as a teacher.
- Have experienced a minimum of 40 hours in a public school classroom within the last five years. The classroom should closely match the subject and age level you wish to teach.
- Submit Graduate Record Exam (GRE) General Test scores. UW Tacoma’s institution code is R4854; the department code is “Education.”
- Have taken the Washington Educator Skills Test-Basic (WEST-B). For more information, go to www.west.nesinc.com.
- Submit WEST-E scores (in content area). For more information, go to www.west.nesinc.com.
- Selected finalists will be invited for a personal interview.

Washington State Certification

Upon successful completion of the Secondary Science Education Program, students will be recommended to the Office of the Superintendent of Public Instruction for a Residency Teacher Certificate with an endorsement in Science, Earth and Space Science and/or Biology for grades 5-12.

Secondary Science Education Degree Requirements

In addition to the state of Washington certification requirements, all students must complete the following coursework:

- TEDUC 511 Secondary Science Methods I
- TEDUC 512 Science Methods II
- TEDUC 539 Principles of Secondary Instruc tion & Assessment

(The above three certification courses must be taken in consecutive quarters.)

- TEDUC 501 Foundations of Education: Policy, Ethics and Philosophy
- TEDUC 506 Seminar in Graduate Writing
- TEDUC 520 Multicultural Education
- TEDUC 523 Culture of Secondary Schools
- TEDUC 524 Secondary Students with Disabilities
- TEDUC 525 Child Abuse Seminar
- TEDUC 533 Classroom Management in Secondary Schools
- TEDUC 535 Literacy in Secondary Schools
- TEDUC 566 Education and Technology (or waiver)
- TEDUC 585 Field Experience I
- TEDUC 586 Field Experience II

Additional Degree Requirements

(15 credits required)

- Complete the following courses:
  - TEDUC 502 Learning about Learning
  - TEDUC 503 Educational Measurement
  - TEDUC 504 Understanding Educational Research
  - Comprehensive Examination (0)

- Complete a practicum course sequence

OR

project course sequence:

- TEDUC 593 Practicum Seminar I (3)
- TEDUC 594 Practicum Seminar II (3)
- or
- TEDSP 593 Practicum Seminar I (3)
- TEDSP 594 Practicum Seminar II (3)
- or
- TEDUC 599 Culminating Project (3)
- TEDUC 599 Culminating Project (3)
Professional Certification

All beginning teachers and most teachers coming from out of state receive the Residency Certificate as their first teaching certificate. Within five years of reaching provisional status, teachers are expected to begin working toward the second-level teaching certificate, the Professional Certificate.

UW Tacoma offers teachers the opportunity to pursue a Professional Certificate with a Master of Education or a Professional Certificate only. For current information visit us online at: www.tacoma.washington.edu/education.

For a complete text on Requirements for Issuance of the Professional Teaching Certificate or Renewal of the Residency Teaching Certificate (CT 35), please go to: www.k12.wa.us/certification.

Admission Requirements

Admission to the Professional Certificate program requires that applicants:

- Have earned a bachelor’s degree from an accredited institution.
- Have a grade-point average of 3.0 calculated from the final 90 graded quarter credits or 60 graded semester credits.
- Submit one official sealed transcript from each collegiate institution attended. If you are admitted and choose to enroll in the program, you must send a second transcript showing the conferral of your bachelor’s degree to the UW Graduate Admissions Office upon your request. (If you received your baccalaureate degree from the University of Washington, you do not need to submit a second transcript.)
- Submit a personal goal statement of two to three pages describing how graduate study will enhance your professional growth. The goal statement is an important part of the application because it allows you to share a part of yourself that we typically would not see in your GPA.
- Submit Personal Data form.
- Submit two confidential sealed letters of recommendation (one of which must come from the sponsoring principal/administrator).
- Submit a copy of teaching certificate.
- Submit Washington state form SPI4421 (available on the Education Web site).

Application Procedures

Professional Certification with Master of Education (option 1)

Applicants must apply online to the UW Graduate Admissions and also submit required documents to the UW Tacoma Education Program. The online application checklist found at: www.tacoma.washington.edu/education

will help to ensure that all materials are submitted. No action can be taken until all materials are received.

Professional Certification Only (option 2)

Applicants must first contact the Education Program office at (253) 692-4430 or e-mail uwted@u.washington.edu to request appropriate Graduate Non-Matriculated application information.

Use the current application packet that will be mailed to you. Applicants pursuing the Professional Certificate only must enroll in the Pre-Assessment Seminar in their first quarter. Please note that the seminar may not be offered every quarter.

Certificate Requirements

In addition to the State of Washington Professional Certificate requirements, students must complete the following coursework (students must choose one option):

Option 1:
Professional Certification with the Master of Education*

TEDUC 550 Pre-assessment Seminar
TEDUC 552 Culminating Seminar
Core Courses
Study Option Courses
Education Electives
Non-Education Electives
Culminating Experience

Option 2:
Professional Certification only**

TEDUC 550 Pre-assessment Seminar
TEDUC 552 Culminating Seminar
Selected coursework in consultation with an adviser

* Minimum of 45 quarter credits required
** Minimum of 17 quarter credits required

Master of Education for Practicing Educators

This degree program is designed to build upon the skills, knowledge and commitment of practicing educators. The focus is on K-12 teachers and their continuing professional development. Underlying is a vision of the teacher as one who is broadly educated and continuing to learn, skilled and committed to the craft of teaching and entrusted to nurture the greatest human potential in every learner.

The program is designed as a full-time or part-time program of study. Generally, the core and study-option courses are completed in the first year; students complete their elective courses and culminating experience the second year. This program allows students to embed professional certification and endorsements into degree programs, should they desire to. To meet the needs of students who are employed during the weekday, courses follow an evening schedule, though some courses may be offered on Saturdays. For current information visit us online at: www.tacoma.washington.edu/education.

Degree Requirements

Students must complete a minimum of 45 quarter credits, 49-50 quarter credits for Special Education. There are seven required program components:

1. The core courses provide the background, perspectives and resources necessary for in-depth work in an area of specialization. They prepare individuals to understand the basics of theory and research in education. All students are required to complete a total of 13 quarter credits as follows:

   TEDUC 501 Foundations of Education: Policy, Ethics & Philosophy (3)
   TEDUC 502 Learning about Learning (3)
   TEDUC 503 Educational Measurement (3)
   TEDUC 504 Understanding Educational Research (prerequisite: TEDUC 503) (3)
   TEDUC 506 Seminar in Graduate Writing (1)

2. The study option provides focused study in one specialized area of education. Students must select one study option below and complete required courses.

   - At-risk learner
   - Curriculum and instruction
   - Multicultural education
   - Special education
Teaching English Language Learners (TELL)

3. Students must complete a technology course selected in consultation with an adviser. Normally, students complete Education and Technology (TEDUC 566).

4. The education electives provide an opportunity to explore areas of individual interest. Courses must be selected from offerings within the Master of Education program and in consultation with an adviser.

5. Students must complete a minimum of three quarter credits (maximum 10 credits) of non-education electives outside of the Master of Education program in consultation with an adviser.

6. The Comprehensive Examination is a written essay exam. The exam consists of four questions—one question from each core course (TEDUC 501, 502, 503 and 504). Four hours are allowed to complete the exam.

7. Each student will participate in a Culminating Experience. This component of the program allows students to gain more applied knowledge of the field and synthesize prior learning. There are two pathways for this experience: Project Pathway and Practicum Pathway. Students select the pathway for their Culminating Experience in consultation with an academic adviser. Students completing the Special Education and At-Risk study options must enroll in the Practicum Pathway option.

Project Pathway

The Project Pathway will provide the student with an opportunity to engage in systematic, reflective inquiry within the context of the current educational setting and broader contemporary issues.

Quarter #1
TEDUC 599 - Culminating Project (3 cr.)
Quarter #2
TEDUC 599 - Culminating Project (3 cr.)

Practicum Pathway

The Practicum Pathway is intended to provide students the opportunity to integrate and apply theory and research in working with at-risk students to an educational setting.

Quarter #1
TEDUC/TEDSP 593
Practicum Seminar I (3 cr.)
Quarter #2
TEDUC/TEDSP 594
Practicum Seminar II (3 cr.)

WEST-E Examination
A passing score on the WEST-E exam is required for any student wishing to add an endorsement to their teaching certificate. For more information on the WEST-E exam, go to www.west.nesinc.com.

Admission Requirements

Admission to the Master of Education program requires that applicants be simultaneously admitted to the UW Tacoma Education program and the UW Graduate Admissions. To qualify for consideration, applicants must:

- Have earned a bachelor’s degree from an accredited institution.
- Have a grade-point average of 3.0 calculated from the final 90 graded quarter credits or 60 graded semester credits.
- Submit one official sealed transcript from each collegiate institution attended. If you are admitted and choose to enroll in the program, you must send a second transcript showing the conferral of your bachelor’s degree to the UW Graduate Admissions Office upon their request. (If you received your baccalaureate degree from the University of Washington, you do not need to submit a second transcript.)
- Submit a personal goal statement of one or two pages describing how graduate study will enhance your professional growth. The goal statement is an important part of the application because it allows you to share a part of yourself that we typically would not see in your GPA.
- Personal Data form.
- Submit two confidential, sealed letters of recommendation.
- Submit a teaching certificate or have equivalent teaching experience.

Application Procedures

Applicants must apply online to the UW Graduate Admissions and also submit required documents to the UW Tacoma Education Program. The application checklist is a helpful document to ensure that all items are complete. No action can be taken until all materials are received.

Educational Administrator

The program is a full-time course of study for potential school leaders. Admitted students progress as a cohort community through four quarters of full-time study beginning in Summer Quarter. Upon successful completion of all certificate requirements, students will earn a Residency Administrator’s Certificate.

Leadership, management and instruction are three distinct components that are emphasized in each of the four quarters. Coursework is taught in synchrony with the school’s administrative calendar. The curriculum is grounded in best practice as determined by theory and research.

Admission Requirements

Admission to the Master of Education program requires that applicants be simultaneously admitted to UW Tacoma Education Program and the UW Graduate Admissions. To qualify for consideration, applicants must:

- Have earned a bachelor’s degree from an accredited institution.
- Have a grade-point average of 3.0 calculated from the final 90 graded quarter credits or 60 graded semester credits.
- Submit one official sealed transcript from each collegiate institution attended. If you are admitted and choose to enroll in the program, you must send a second transcript showing the conferral of your bachelor’s degree to the UW Graduate Admissions office upon their request. (If you received your baccalaureate degree from the University of Washington, you do not need to submit a second transcript.)
- Submit a personal goal statement of two to three pages describing how graduate study will enhance your professional growth. The goal statement is an important part of the application because it allows you to share a part of yourself that we typically would not see in your GPA.
- Submit a résumé of professional experience, educational background and other relevant information including volunteer experience.
- Submit the Internship Agreement form.
- Submit three confidential sealed letters of recommendation (one of which must come from the sponsoring principal/administrator).
- Have a valid teaching or Educational Staff Association certificate (Principal Certificate applicants only).
- Submit Prerequisite Experience Form (Principal Certificate applicants only).
- Participate in a personal interview (by invitation only).

**Educational Administrator Certificate Requirements**

In addition to the State of Washington Residency Administrator’s Certificate requirements, all students must complete the following coursework:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>TEDUC 570</td>
<td>Curriculum and Instruction</td>
</tr>
<tr>
<td>TEDUC 571</td>
<td>Introduction to Leadership</td>

</table>

**Course Descriptions**

For the most current course information, please consult the Education program Web site: [www.tacoma.washington.edu/education](http://www.tacoma.washington.edu/education).

**Special Education**

**TEDSP 520 Multicultural Issues in Special Education**

- **Course Code**: TEDSP 520
- **Title**: Multicultural Issues in Special Education
- **Credits**: 3

Provides an analysis of multicultural and bilingual perspectives in education with an emphasis on issues relevant to special education. Addresses issues and trends affecting the education of diverse students in special education. Emphasized research based practices for serving culturally and linguistically diverse students.

**TEDSP 539 Introduction to Exceptionalities**

- **Course Code**: TEDSP 539
- **Title**: Introduction to Exceptionalities
- **Credits**: 3

Provides an overview of all disabling conditions including low and high incidence disabilities. Examines the nature of various disabilities, program implications, and the continuum of delivery options available to special education students.

**TEDSP 541 Literacy Instruction for Diverse Students**

- **Course Code**: TEDSP 541
- **Title**: Literacy Instruction for Diverse Students
- **Credits**: 3

Theoretical and empirical foundations for designing effective literacy instruction for diverse students. Topics include issues in beginning reading instruction, analysis and modification of instructional materials, and the integration of reading and language arts. For elementary teachers, along with secondary teachers who teach remedial students.

**TEDSP 542 Structuring the Classroom for Success**

- **Course Code**: TEDSP 542
- **Title**: Structuring the Classroom for Success
- **Credits**: 3

Focuses on how to create a well-managed classroom and school environment that supports students’ personal growth and promotes academic success. For teachers of at-risk/mainstreamed students Addresses alternative delivery systems and strategies for meeting individual needs.

**TEDSP 543 Mathematic Challenges for Diverse Students**

- **Course Code**: TEDSP 543
- **Title**: Mathematic Challenges for Diverse Students
- **Credits**: 3

Examines instructional issues in the teaching of mathematics to at-risk/mainstream K-8 students. Topics include the assessment of student performance, the evaluation and modification of instructional curricula, and the design of generalizable problem-solving strategies.

**TEDSP 544 Special Education Assessment & Evaluation**

- **Course Code**: TEDSP 544
- **Title**: Special Education Assessment & Evaluation
- **Credits**: 3

Explores the main purposes for educational assessment of students with disabilities including the social, legal, and ethical considerations involved in educational assessments. Addresses the roles and responsibilities of each member of the assessment team. Discusses various measurements including standardized tests, norm criterion, referenced, and curriculum-based assessment.

**TEDSP 545 Introduction to Emotional Behavioral Disabilities**

- **Course Code**: TEDSP 545
- **Title**: Introduction to Emotional Behavioral Disabilities
- **Credits**: 3

Examines the theories relative to teaching children and youth with emotional behavioral disorders. Discusses factors such as family, biological, school, and other environmental influences. Addresses classroom strategies based on student assessment and evaluation, including functional behavior assessment and positive behavior intervention plans.

**TEDSP 546 Collaborative Consultation**

- **Course Code**: TEDSP 546
- **Title**: Collaborative Consultation
- **Credits**: 3

Focuses on the need for collaboration between general and special educators brought on by current changes in both instructional delivery systems for students with disabilities, and in the law. Overview of the knowledge and skills necessary to become a full participant in school-based collaboration model.

**TEDSP 547 Special Education and the Law**

- **Course Code**: TEDSP 547
- **Title**: Special Education and the Law
- **Credits**: 3

Examines the complex set of laws, regulations, and court cases have built up in recent years that govern the education of students with disabilities. Comprehensive introduction to the legal issues in special education, approached through the larger context of education law.

**TEDSP 548 Special Education Classroom Management**

- **Course Code**: TEDSP 548
- **Title**: Special Education Classroom Management
- **Credits**: 3

Prepares special education teachers with skills in research-based problem prevention and problem-solving strategies that will enable them to promote academic success for students with special needs. Addresses theoretical implications and applications of evidence-based behavior management strategies.

**TEDSP 550 Special Education Principles and Practices I**

- **Course Code**: TEDSP 550
- **Title**: Special Education Principles and Practices I
- **Credits**: 3

Provides in-depth exploration of disabling conditions with emphasis on the etiology of high incidence disabilities. Covers theoretical, conceptual and empirical bases to meet the needs of diverse students. Addresses legislation including the IDEIA, Section 504 of the Vocational Rehabilitation Act, and the Washington Administrative Code: Special Education Rules and Regulations.

**TEDSP 551 Special Education Principles and Practices II**

- **Course Code**: TEDSP 551
- **Title**: Special Education Principles and Practices II
- **Credits**: 3

Provides the knowledge and skills to design research-based program options for students with disabilities and to evaluate the efficacy of a continuum of service delivery options. Includes issues unique to special educators such as development and implementation of individual education and transition plans, scheduling, and working with paraprofessionals.
T EDUC 587
Special Education Field Experience and Reflective Seminar I
1-5 credits, max. 5
Observation and evaluation of research-based practices in assigned public school classrooms under University supervision with accompanying guided inquiry into the nature and social context of teaching and learning. Reflective seminar component draws heavily upon observations and experiences from site placements.

T EDUC 588
Special Education Field Experience and Reflective Seminar II
1-5 credits, max. 5 / Prerequisite: T EDUC 587
Observation and participation practicum in assigned public school classrooms under University supervision with accompanying guided inquiry into the nature and social context of teaching and learning. Reflective seminar integrates evidence-based practices with experiences from site placements.

T EDUC 589
Special Education Field Experience and Reflective Seminar III
1-12 credits, max. 12 / Prerequisite: T EDUC 588
Culminating classroom internship in assigned public school classrooms under University supervision with accompanying guided inquiry into the nature and social context of teaching and learning. Experiences in the site placements focus on synthesis of planning, management, teaching and assessment of the learning environment.

T EDUC 590
Special Education Reflective Seminar
1-3 credits, max. 3
Provides guided inquiry into the nature and social context of teaching and learning in the special education classroom, as contrasted with the more pragmatic content of other components of the Teacher Certification Program.

T EDUC 591
Special Topics in Education
1-9 credits, max. 9
Graduate course offerings that respond to faculty and students’ needs and interests. Topics will vary. Offered jointly with T EDUC 591.

T EDUC 592
Independent Study
1-9 credits, max. 9

T EDUC 593
Practicum Seminar I
3 credits
The goal of the practicum seminars is the improvement of educational practice. The seminars will provide students with the background, knowledge, and opportunity to explore research-based practices with students in classrooms. Students will normally take six credits of practicum seminars. Offered jointly with T EDUC 593.

T EDUC 594
Special Education Seminar II: Collaboration in the Education Community
3 credits
Explores several avenues to successful collaborative problem-solving approaches to meeting the needs of students with disabilities who are receiving their instruction in the general-education classroom.

General courses

T EDUC 463
Arts in the Schools
3 credits
This course will explore the domain of the arts, particularly music, drawing, painting, and three dimensional expressions such as pottery, sculpture and architecture, to find means of better integrating arts and arts instruction into the school curriculum.

T EDUC 471
Diversity and Equity in Schools and Curriculum
3 credits
Examines the instructional methods and multicultural understandings necessary to address the learning needs of a diverse student population in a globalized society.

T EDUC 482
School and Society
3 credits
Introduces contemporary issues in schools and their historical genesis starting with the successes and challenges in classrooms, schools, and communities today, tracing their roots back in time. Provides an overview for those considering becoming teachers or wishing to become more informed citizens.

T EDUC 483
Health Education and Child Abuse
3 credits
Theoretical and practical foundation for designing and integrating health instruction into the K-8 curriculum using a holistic approach that involves mental, physical, and affective domains. Crucial background information about educators' responsibilities regarding detection and reporting of child abuse and neglect under Washington State law.

T EDUC 490
Service Learning Practicum in Education
3 credits
Service-learning approach introduces undergraduate students to the profession of teaching. Examines experiences and responsibilities in teaching/learning through directed K-8 classroom observations, and university instruction, using individual/group reflection. Required for completing IAS Education Minor. Meets 40 hours of experience, prerequisite for entry into UW Tacoma Teacher Certification Program. Credit/no credit only.

T EDUC 491
Arts in the Schools Seminar
3 credits
Examines the instructional methods and multicultural understandings necessary to address the learning needs of a diverse student population in a globalized society.

T EDUC 501
Foundations of Education: Policy, Ethics, and Philosophy
3 credits
Provides in-depth examination of current issues in public schools focusing on the life and decisions of professional education practice in classrooms, schools, and communities. Describes K-12 schools governance at all levels, ethical decision making in the system, and philosophical issues including the purpose of schools in contemporary society.

T EDUC 502
Learning About Learning
3 credits
Explores three contemporary theories of learning: cognitive science, constructivism, and social constructivism. Analyzes and critiques each theory as it applies to classroom teaching. Focuses on the psychological and socio-psychological contexts within which students conduct the educational process.

T EDUC 503
Educational Measurement
3 credits
Introduces elements of measurement essential to good teaching. Emphasizes critical thinking about assessment instruments, evaluation of assessment instruments, innovative curricula, and other instructional materials. Focuses on initial knowledge and skills in the evaluation of published research (e.g., qualitative, quantitative, action, program evaluation), that is more fully developed in T EDUC 504.

T EDUC 504
Understanding Educational Research
3 credits / Prerequisite: T EDUC 503
Introduction to research in the behavioral and social sciences relevant to study of education. Emphasizes the evaluation of research literature and the applicability of research findings.

T EDUC 506
Seminar in Graduate Writing
1 credit
Teaches writing styles specific to the Publication Manual of the American Psychological Association (APA).

T EDUC 510
Science Methods: K-8
3 credits
Examines how students learn science and explores research-based models of science instruction and assessment. Students design, implement, and evaluate instructional strategies that facilitate students’ learning of the scientific process.

T EDUC 511
Secondary Science Methods I
3 credits
Builds on students’ content knowledge in the sciences and helps them use well researched approaches to teach that content to secondary students. Examines scientific literacy, inquiry as a pedagogical practice, and general best practices with respect to laboratory safety.
T EDUC 512
Secondary Science Methods II
3 credits / Prerequisite T EDUC 511
Uses researched approaches to build on pedagogical content knowledge in the sciences and education to develop grade 5-12 curriculum and teaching skills. Uses the National Science Education Standards to explore scientific literacy, technology, science and society, reading and writing in science education, and equity and inclusion in science education.

T EDUC 513
Current Issues for Teachers of Science
3 credits
Explores current science education reform issues for practicing K-12 teachers. Focuses on current science education research, models of curriculum design, selecting and adopting science curricula, assessing student learning, evaluating science curricula, and opportunities for professional development.

T EDUC 514
Teaching the Science of Flight and Space Travel
3 credits
Explores instructional strategies that facilitate students' learning of science in relation to the Washington Science Standards. Investigates physical concepts in order to transition from flying in air to flying in space. Explores the basics of rocket design, creating moon colonies, and Mars missions.

T EDUC 516
Teaching Science as Inquiry
3 credits
Enhances teachers' pedagogical knowledge and skills in science with a hands-on methods course for practicing K-12 teachers. Explores models of inquiry and instructional strategies that facilitate students' learning of scientific. Addresses the Washington State Essential Academic Learning Requirements.

T EDUC 518
Teaching Science Using Technology
3 credits / Prerequisite: T EDUC 510, 511, or 512, 566 or permission of instructor
Hands-on introduction to technological resources for science instruction. Covers new technology and evaluating how technology is used in classroom instruction. Emphasis on curriculum development using technology as a primary means of instruction. Address the Washington State Essential Academic Learning Requirements.

T EDUC 520
Multicultural Education
3 credits
Explores major theoretical, political, and pedagogical issues in multicultural education. Studies institutional and cultural discrimination such as race, ethnicity, class, sexuality, gender, disability, and language. Examines the relationship between schooling and the reproduction of stratification and discrimination, as well as examines curricular and pedagogical approaches to address these variables.

T EDUC 521
Education and Inequity
3 credits
Builds upon the theoretical principles in T EDUC 520. Examines in more depth the dimensions through which power and oppression operate in American education, such as, race, ethnicity, language background, religion, sexuality, disability, and gender. Develops theoretical and professional knowledge to deepen analytical framework in classroom practice.

T EDUC 522
Instructional Issues in Multicultural Classrooms
3 credits
Explores culturally sensitive, inclusive pedagogical techniques; assessments of racial, ethnic, gender, and class attitudes; insight into ethical and political issues in education and multiculturalism; and skills in creating or gaining access to appropriate curricular and classroom resources.

T EDUC 523
Culture of Secondary Schools
3 credits
Systematic, research-based analysis of current practices in secondary schools, with particular emphasis on the roles and contextual influences of students, staff, parents and communities, and their influence on student achievement.

T EDUC 524
Secondary Students with Disabilities
3 credits
Covers the theoretical, conceptual, and empirical bases for pre-service secondary teachers to meet the needs of students with disabilities. Emphasizes the translation of research into practice.

T EDUC 525
Child Abuse in Schools:
Legal and Ethical Issues
1 credit
Provides knowledge of the Washington Administrative Code on mandatory reporting; advice on preventative and appropriate teacher behaviors. Examines the case law and research on children and adolescents and the impact on school functioning. Credit/no credit only.

T EDUC 528
Advanced Social Studies Methods I:
Civics, Economics, Geography and History
3 credits
Analyzes current social education reform issues for practicing K-12 teachers. Focuses on current social studies education research, models of curriculum design, selecting and adopting social studies curricula, evaluation social sties curricula, and opportunities for professional development. Addresses the Washington State Essential Academic Learning Requirements.

T EDUC 529
Advanced Social Studies Methods II:
Skills and Disposition
3 credits
Analyzes current social education reform issues for practicing K-12 teachers. Focuses on current social studies education research, models of instructional strategies, selecting and implementing social studies instructional strategies, evaluating the effectiveness of the strategies (e.g., student performance on classroom assessments), and opportunities for professional development.

T EDUC 530
Curriculum Inquiry
3 credits
Examines reading, writing, and thinking as it occurs in various specific and integrated content areas of the school curriculum in grades K-12. Focuses on the ideas and strategies needed to enhance instructional effectiveness across the curriculum.

T EDUC 531
Curricular Uses of Children's and Young Adult Literature
3 credits
Examines the issues and strategies in using children's and young adult literature across the curriculum in K-12 classrooms. Analyzes the variety of trade books currently available. Discusses the theory and techniques for creating a literature-based program.

T EDUC 532
Interdisciplinary Design and Instruction
3 credits
Examines pedagogical issues encountered by elementary, junior, and high school teachers who plan to develop interdisciplinary instruction.

T EDUC 533
Classroom Management in Secondary Schools
3 credits
Examines current social education reform issues for practicing K-12 teachers. Focuses on current social studies education research, models of instructional strategies, selecting and implementing social studies instructional strategies, evaluating the effectiveness of the strategies (e.g., student performance on classroom assessments), and opportunities for professional development.

T EDUC 534
Process Writing Across the Curriculum
3 credits
Examines research and theories on writing development in school children, examine the relationships among reading, writing and content knowledge acquisition, and experiment with writing methods for classroom teachers.
T EDUC 535  
**Literacy in Secondary Schools**  
3 credits  
Provides research base for teaching language arts to diverse secondary education students including English language learners and students with disabilities. Integrates writing with literature across content areas. Addresses evaluation and modification of curricular materials. Teaches methods of evaluating student progress.

T EDUC 536  
**Classroom Assessment: Literacy & Numeracy**  
3 credits  
Focuses on how to analyze current curricula and instructional strategies in literacy and numeracy and how to design effective assessment tools which assess students’ achievement in reading, writing, and mathematics.

T EDUC 537  
**Classroom Assessment: Content Area Assessment**  
3 credits  
Examines the curricular standards and methods of inquiry in science, social studies, health, and arts. Emphasizes how to develop curriculum, instruction, and assessment alignment in classrooms.

T EDUC 538  
**Classroom Assessment: Critical Issues**  
3 credits  
Examines critical perspectives on contemporary classroom and student assessment processes by drawing on history, sociology, critical theory, and other academic traditions.

T EDUC 539  
**Principles of Teaching in Secondary Schools**  
3 credits  
Provides an orientation to curriculum, instruction, assessment, classroom environment, social, and other issues for adolescents and young adults in grades 5-12. Readings, activities, and assignments are designed to develop foundational knowledge in issues in secondary teaching and to develop teacher candidates’ consciousness as a teacher.

T EDUC 540  
**At-Risk Students and Students with Disabilities: Critical Issues**  
3 credits  
Examines several perspectives on the education of at-risk students and students with disabilities. Focuses on issues of identification, assessment, and instructional delivery. Emphasizes the role teachers play in reducing academic failure and increasing the opportunity for success in school.

T EDUC 541  
**Literacy Instruction for Diverse Students**  
3 credits  
Examines the theoretical and empirical foundations for designing effective literacy instruction for diverse students. Focuses on issues in beginning reading instruction, analysis and modification of instructional materials, and the integration of reading and language arts. For elementary teachers, along with secondary teachers who teach remedial students.

T EDUC 542  
**Structuring the Classroom for Success**  
3 credits  
For teachers of at-risk/mainstreamed students. Focuses on how a well-managed classroom and school environment supports students’ personal growth and promotes academic success. Examines alternative delivery systems and strategies for meeting individual needs.

T EDUC 543  
**Mathematic Challenges for Diverse Students**  
3 credits  
Examines instructional issues in the teaching of mathematics to at-risk/mainstream K-8 students. Focuses on the assessment of student performance, the evaluation and modification of instructional curricula, and the design of generalizable problem-solving strategies.

T EDUC 544  
**School Law**  
3 credits  
A broad introduction to the laws, regulations, and court decisions that directly affect the actions and decisions made by teachers and administrators, with a special emphasis on the education of students with disabilities.

T EDUC 545  
**Classroom Management**  
3 credits  
Examines research-based strategies that enable pre-service teachers to establish effective management systems and promote academic success for all students. Emphasizes strategies for creating a positive school environment, including preventing and responding to problem behavior, and improving student motivation for learning.

T EDUC 546  
**Teaching Students with Special Needs**  
3 credits  
Covers the theoretical, conceptual, and empirical bases for pre-service teachers to meet the needs of a diverse student population including students with disabilities, and highly capable students. Emphasizes the translation of research into practice.

T EDUC 547  
**Preassessment Seminar**  
3 credits  
Provides students the knowledge and skills needed to demonstrate successfully the standards and criteria required for the individualized Personal Growth Plan (PGP), identifying professional strengths and growth areas for focus during the certification process. Credit/no credit only.

T EDUC 552  
**Professional Certificate Culminating Seminar**  
2 credits  
Provides the knowledge and skills needed to demonstrate successfully the standards and criteria required for the Individualized Personal Growth Plan (PGP). Identifies professional strengths and growth areas on which the student will focus during the certification process. Credit/no credit only.

T EDUC 553  
**Social Contexts of Adolescence: Perspectives on Culturally Diverse Youth**  
3 credits  
Examines several perspectives on the construction of adolescence affects young people and their schooling, the relationship of the problems of adolescence to the construction of at-risk students, and interventions available to educators to provide adolescents with successful transitions through this period.

T EDUC 554  
**Language Arts**  
3 credits  
Provides an evidence base for teaching language arts to diverse K-8 students including English language learners and students with disabilities. Focuses on research based writing instruction. Includes instruction in listening and oral language. Addresses evaluation and modification of curricular materials and progress monitoring methods.

T EDUC 555  
**Literature and Content Reading**  
3 credits  
Prepares prospective teachers to analyze and acquire research-based pedagogy in reading instruction and informational texts. Prospective teachers will develop instructional designs to implement research findings in K-8 classrooms.

T EDUC 556  
**Mathematics Methods I**  
3 credits  
Provides the theoretical and empirical foundation for effective mathematics instruction. Includes issues in mathematics instruction, analysis and modification of instructional materials and the design of generalizable problem-solving strategies. Includes methods for monitoring student progress and adjusting instruction to meet individual student needs. Addresses instructional content in grades K-4.

T EDUC 557  
**Mathematics Methods II**  
3 credits / Prerequisite T EDUC 560  
Provides the theoretical and empirical foundation for effective mathematics instruction. Includes issues in mathematics instruction, analysis and modification of instructional materials and the design of generalizable problem-solving strategies. Includes methods for monitoring student progress and adjusting instruction to meet individual student needs. Addresses instructional content in grades 5-8.

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>T EDUC 562</td>
<td>Social Studies Methods</td>
<td>3 credits</td>
<td>Prepares prospective teachers to teach civics, economics, geography, and history as well as the skills required for and promote dispositions that support full democratic citizenship.</td>
</tr>
<tr>
<td>T EDUC 563</td>
<td>Cultural and Linguistic Contexts for Instructing English Language Learners</td>
<td>3 credits</td>
<td>Examines research on the social contexts of learning and teaching English as a second language. Analyzes multidisciplinary studies on culture in applied linguistics, sociolinguistics, and language policy. Understands how educational environments impact second language learners' attitude and identities as well as teachers' instructional approaches.</td>
</tr>
<tr>
<td>T EDUC 564</td>
<td>Methods and Curricula in Literacy Instruction for English Language Learners</td>
<td>3 credits</td>
<td>Focuses on research findings related to oral language, literacy, and academic achievement for English language learners in the United States. Examines the theoretical underpinnings and research-based principles of various methods and curricula of second language teaching. Emphasizes effective curricula and instructional strategies.</td>
</tr>
<tr>
<td>T EDUC 565</td>
<td>Research and Methods in Mathematics and Science Instruction for English Language Learners</td>
<td>3 credits</td>
<td>Examines mathematics and science instruction for English learners by drawing upon theories and research findings in mathematics/science education, bilingual education, second language acquisition, and multicultural education. Examines, critiques, and develops effective instructional practices (e.g., curriculum, instruction, and assessment) that promote K-12 student advancement in mathematics and science.</td>
</tr>
<tr>
<td>T EDUC 566</td>
<td>Education and Technology</td>
<td>3 credits</td>
<td>Examines the new tools of technology for teachers. Explores issues related to technology in the educational setting and how technology can be used effectively in classroom instruction.</td>
</tr>
<tr>
<td>T EDUC 567</td>
<td>Curriculum Design and Educational Technology</td>
<td>3 credits</td>
<td>This advanced educational technology course will explore the intersections of educational reform, curriculum design, the World Wide Web, virtual community, virtual reality, and distance learning. Using the newest tools in educational technology, the course will focus on designing a curriculum unit in a content area.</td>
</tr>
<tr>
<td>T EDUC 568</td>
<td>Technology Leadership and School Change</td>
<td>3 credits</td>
<td>Examines the nature of technology leadership and the challenges inherent in creating change in schools. Equips participants to assume the role of technology leader in their schools and districts. Includes the nature of leadership, managing school change, and organizational development with respect to technology planning.</td>
</tr>
<tr>
<td>T EDUC 569</td>
<td>Testing and Evaluation for English Language Learners</td>
<td>3 credits</td>
<td>Focuses on the research on language assessment. Examines the debates about the socially situated nature of language and the skill-based individualistic focus in current conceptualizations of language proficiency. Studies how to evaluate various aspects of language and academic performance of English learners in K-12 classrooms.</td>
</tr>
<tr>
<td>T EDUC 570</td>
<td>Curriculum and Instruction</td>
<td>4 credits</td>
<td>Focuses on curriculum: knowledge and strategies for selecting new and/or implementing current district academic programs, and instruction: envisioning and enabling instructional and auxiliary programs for improvement of teaching and learning.</td>
</tr>
<tr>
<td>T EDUC 571</td>
<td>Introduction to Leadership</td>
<td>2 credits</td>
<td>Begins the academic, exploratory, and experiential process of leadership in educational settings. Introduces students to the key components of leadership in academic settings and begins the process of cohort formation that establishes the learning environment for the program.</td>
</tr>
<tr>
<td>T EDUC 572</td>
<td>School Law for Educational Administrator</td>
<td>3 credits</td>
<td>Explores Federal and State law that principals and district administrators are responsible to know and administer, including special education.</td>
</tr>
<tr>
<td>T EDUC 573</td>
<td>Supervision of Instruction</td>
<td>3 credits</td>
<td>Advances the knowledge of curriculum and instruction models into the domain of supervision of individuals and groups of staff in instruction. Assists staff in designing and implementing professional self-improvement goals.</td>
</tr>
<tr>
<td>T EDUC 574</td>
<td>Issues in Educational Leadership</td>
<td>3 credits</td>
<td>Focuses on contemporary issues confronting school building or district educational leaders, such as educating increasing numbers of students who are at-risk, advancing social justice in the schools, ensuring safe and orderly school environments, crisis management, and conflict resolution. Content partially defined by current challenges in the student's internship experiences.</td>
</tr>
<tr>
<td>T EDUC 575</td>
<td>Leadership in a Changing Society</td>
<td>3 credits</td>
<td>Addresses the issue of how one in a position of educational leadership understands and copes with changes in cultures, and socio-political environments as they impact schools.</td>
</tr>
<tr>
<td>T EDUC 576</td>
<td>School-Wide Assessment</td>
<td>3 credits</td>
<td>Surveys breadth of assessment issues in school administration, including the role of assessment in the reform movement and school-wide improvement initiatives, classroom based assessment, the importance of accurate and timely data collection, interpretation and communication about assessment in the school community, and reducing achievement gaps in diverse populations.</td>
</tr>
<tr>
<td>T EDUC 577</td>
<td>School Finance and Educational Policy</td>
<td>3 credits</td>
<td>Addresses issues of school finance from national, regional, and local perspectives. Develops with district and school budgeting, fund raising, levies, ASB and athletic funding issues, as well as legislative relations.</td>
</tr>
<tr>
<td>T EDUC 578</td>
<td>Group Leadership in Educational Administration</td>
<td>3 credits</td>
<td>Focuses on the topics of group dynamics, group facilitation, meeting design, oral communications, and the art of persuasion. Topics include group leadership strategies and skills necessary to lead organizational change efforts, to effectively elicit and manage creativity and diversity, and to manage conflict.</td>
</tr>
<tr>
<td>T EDUC 579</td>
<td>Human Resources</td>
<td>4 credits</td>
<td>Addresses critical role of management of human resources that is key to effective educational administration. Topics include hiring, mentorship, collective bargaining, strategic staff planning, communication patterns, justice issues, and evaluation of staff.</td>
</tr>
</tbody>
</table>
T EDUC 580
Reflective Seminar for Administrators
1-3 credits, max. 3
All interns meet and reflect on field experience, providing insight and support for one another as well as referring to evidence based best practices discovered through the literature.

T EDUC 581
Internship for Administrators
2-4 credits, max. 14
Field-based practicum that focuses on the application of theoretical and research knowledge in instruction, management, and leadership.

T EDUC 587
Field Experience I
1-12 credits, max. 12
Observation and participation in practicum in assigned public school classrooms under University supervision. Includes seminars that provide guided inquiry into the nature and social context of teaching and learning, drawing heavily from observations and experiences in the site placements. Prerequisite: site placement.

T EDUC 588
Field Experience II
1-12 credits, max. 12 / Prerequisite: T EDUC 587
Practicum in public school classrooms under university supervision. Includes group instruction to demonstrate specific skills and understanding. Provides guided inquiry into the nature and social context of teaching and learning, drawn heavily from observations and experiences in the interns’ site placements.

T EDUC 589
Field Experience III
1-12 credits, max. 12 / Prerequisite: T EDUC 588
Full-time teaching practicum in assigned public school classrooms. Includes seminar that provides guided inquiry into the nature and social context of teaching and learning, drawn heavily from observations and experiences in the interns’ site placements.

T EDUC 590
Elementary Education Reflective Seminar
1-3 credits, max. 3
Provides guided inquiry into the nature and social context of teaching and learning, as contrasted with the more pragmatic content of other components of the Teacher Certification Program.

T EDUC 591
Special Topics in Education
1-9 credits, max. 9
Graduate course offerings that respond to faculty and students’ needs and interests. Topics will vary. Offered jointly with T EDSP 591.

T EDUC 592
Independent Study
1-9 credits, max. 9
Faculty-supervised independent study or readings in areas of education of special interest or need to the student. Topics vary.

T EDUC 593
Practicum Seminar I
3 credits
The goal of the practicum seminars is the improvement of educational practice. The seminars will provide students with the background, knowledge, and opportunity to explore research-based practices with students in classrooms. Students will normally take six credits of practicum seminars. Offered jointly with T EDSP 593.

T EDUC 594
Practicum Seminar II
3 credits
This is the second of two practicum seminars designed to improve professional practice normally taken after T EDUC 593.

T EDUC 599
Culminating Project
1-13 credits, max. 13
Final project designed in collaboration with faculty as an application of the program’s theory and research.

Faculty
Kären Landenburger
Director
Professor; RN; Ph.D., University of Washington, 1987.

Julia Aguirre
Assistant Professor, Education; Ph.D., University of California Berkeley, 2002.

Kathleen M. Beaudoin
Associate Professor, Education; Special Education; Ph.D., University of British Columbia, 1999.

Gregory J. Benner
Associate Professor, Education; Special Education/Emotional and Behavioral Disorders; Ph.D., University of Nebraska-Lincoln, 2003.

Laura Feuerborn
Assistant Professor, Education; Special Education; Ph.D., University of Oregon, 2004.

Annette Henry
Professor, Education; Curriculum; Ph.D., Ontario Institute for Studies in Education, 1992.

Robert W. Howard
Associate Professor, Education; Cultural Foundations; Ed.D., Harvard University, 1986.

Diane B. Kinder
Associate Vice Chancellor for Academic Affairs; Professor, Education; Elementary Education; Ph.D., University of Oregon, 1987.

Belinda Y. Louie
Professor, Education; Reading, Language Arts; Ph.D., University of Washington, 1991.

Ginger L. MacDonald
Professor, Education; Counseling/Psychology; Ph.D., University of Washington, 1990.

José M. Rios
Associate Professor, Education; Science Education/Zoology; Ph.D., University of Wisconsin, 1995.

Marcy L. Stein
Professor, Education; Special Education/Learning Disabilities; Ph.D., University of Washington, 1988.

Matthew Weinstein
Associate Professor, Education; Secondary Science Education; Ph.D., University of Wisconsin - Madison, 1995.
What are Interdisciplinary Studies?

The concept of interdisciplinary studies is founded on a recognition that the experience of phenomena—such as the public problems of poverty, violence, social justice or environmental degradation—do not come in neatly bounded, disciplinary or professional packages. While disciplinary divisions of labor are convenient and necessary to the efficient pursuit of in-depth knowledge, the application of that knowledge in the sphere of public action requires its broader re-integration with the rich, multidisciplinary dimensions and complexities of actual, live situations.

The structure of the Master of Arts program is highly flexible, building on the wealth of interdisciplinary expertise among members of the faculty. A required series of four core courses and a capstone course addresses issues of models, problem formation, evidence, and values. The core courses examine the basic foundations of knowing and acting, making them relevant to diverse areas of specific inquiry. Through electives and a thesis (or master’s project), students are encouraged to apply the lessons of the core courses to their own chosen areas of interdisciplinary interest. A broad range of student interests can be accommodated due to the interdisciplinary nature of the program.

The program integrates the sociology of knowledge, philosophy, social and political theory, history, cultural studies, anthropology and systems theory to shed light on domains of public action. Examples of possible areas of interest, broadly defined, might include the environment, education, ethnicity, gender, families, arts policy and administration, children and the media, human rights, labor, immigration, trade, development, urban studies, the role of state and local government or international non-governmental organizations.

Students will learn:

■ How alternative paradigms or models condition our knowledge of the world and how our choice of potential responses connects to how we perceive things to be organized.

■ How to gain insight into the impact of culture and history on the way certain phenomena come to be defined in the public arena as problems, and how they are variously imagined to be caused or solved in relation to diverse professional and disciplinary claims of ownership over them.

■ How evidence can be justified, generated, evaluated and used with varying degrees of validity within diverse frames of application.

■ How to gain insight into the ways in which values are implicitly or explicitly present in every arena socially deemed to be problematic, and how it may be possible to facilitate communication, negotiations, or trade-offs among and across diverse value frames.

What is Public Action?

Public action entails a series of determinations that are reached as a result of the following considerations:

■ What is the nature of the problem to be addressed?

■ What mode of analysis is to be employed?

■ What will count as evidence?

■ What values are considered relevant or irrelevant?

■ What options are included or excluded?

■ What outcomes of the action are anticipated or unanticipated?

OVERVIEW

Building on the success of the undergraduate program, Interdisciplinary Arts and Sciences offers a Master of Arts degree. The graduate courses offer opportunities to pursue questions of interest across a wide range of fields, spanning the humanities, social sciences and environmental sciences, with special emphasis on the relation of knowledge to public action.
By exploring these questions the master’s program becomes a sustained investigation of factors that critically shape actions, procedures and outcomes. The factors to be investigated include:

- Conceptual models, or paradigms
- Social, professional and institutional cultures
- Various types of data used to support alternative perspectives and decisions
- How various value frameworks shape perspectives, decisions and actions

These factors provide a foundation for knowledge and action in the public sphere. The core course of study in this program may therefore apply to virtually any profession or endeavor in our shared public life, whether one works in a large organization or a one-person shop, whether one seeks knowledge for utilitarian ends or to achieve a richer understanding of the world in which everyone must live and act.

Program Design

The Master of Arts program emphasizes foundations of public action and is a 55-credit master’s degree. The curriculum includes:

- Four core courses ............... 24 credits
- Capstone course .................. 6 credits
- Electives .......................... 15 credits
- Final project or thesis ........... 10 credits

Core Courses

The four core courses are closely integrated, constituting a single, extended investigation of how issues and problems are evaluated in the process of taking action. The courses examine analytical tools and how social and organizational cultures influence the work required in moving toward taking action.

- TIAS 501 Models and Critical Inquiry
- TIAS 502 Evidence and Action
- TIAS 503 Culture and Public Problems
- TIAS 504 Values and Action

Capstone Course

Students enroll in the capstone course (TIAS 505) after the completion of the core course series. The capstone provides a forum for re-integrating the separate themes of the four core courses and considering how they can be applied to the students’ areas of interest.

Area of Emphasis

Students will work with a faculty adviser to develop a focus within the student’s chosen area of interest. The required 15 credits of electives are to be chosen carefully in consultation with the academic adviser, as stepping stones toward the substance of the thesis or project. In addition to elective courses developed specifically for the Master of Arts degree, students can select from a wide range of courses offered at UW Tacoma, including some of those offered in other UW Tacoma graduate programs. Undergraduate courses appropriate to the student’s thesis topic can be taken as graduate courses by enrolling in them as TIAS 590 Independent Study courses. This option requires completion of all the undergraduate requirements, as well as additional work to be negotiated with the instructor that will raise the course demands to graduate level.

Thesis or Project

The final product of the graduate program must be a thesis or a scholarly project that demonstrates a level of competence equivalent to a thesis. In consultation with faculty, students negotiate specific thesis questions and plans focused on their own chosen goals and areas of interest. It is the student’s responsibility to recruit a thesis chair and at least one other reader to constitute a thesis committee. The chair may be the academic adviser or may be someone whose area of expertise most overlaps with the focus of the thesis or project.

Enrollment and Curriculum Sequencing

Admission is competitive and is based on space availability in the core courses. Core courses are offered in the evenings, alternating between Monday/Wednesday and Tuesday/Thursday.

Admission Requirements

- Baccalaureate degree from an accredited institution of higher learning with at least a 3.0 GPA for the last two years of academic work
- Competitive GRE scores on a test taken within the last five years
- Completed application form
- Statement of intended area of focus compatible with the aims of the program
- Résumé of relevant experiences describing the candidate’s most significant work, educational background or volunteer experience and how these experiences relate to his or her goals
- Three letters of reference
- Admission to the UW Graduate School

Course Descriptions

**TIAS 501 Models and Critical Inquiry**
6 credits
Introduces role of models in conceptual and analytic processes, with special attention to relative strengths and weaknesses of linear and holistic models. Examines the application of these models and familiarizes students with their selective and combined use across a range of problem areas.

**TIAS 502 Culture and Public Problems**
6 credits
Analysis of how public problems are constructed and preferred solutions defined. Examination of how institutional, professional and political actors make claims about the nature of a problem, its causes and appropriate domains of action—e.g. medical or legal, private or public.

**TIAS 503 Evidence and Action**
6 credits
Examination of the theoretical formulations of public action. Analysis of how different ways of understanding and validating knowledge define the perception of alternative courses of action. Exploration of the practical consequences of theoretical choices.

**TIAS 504 Values and Action**
6 credits
Examine moral grounding of human action in organizational settings. Analyzes how different disciplines understand the framing and weighing of values in public decision-making. Inquiries into the common strategies employed in practice to deal with the inevitable value dimension of action and policy.

**TIAS 505 IAS Master of Arts Capstone**
6 credits / Prerequisites: TIAS 501, 502, 503 and 504
Provides an opportunity to explore the themes of the four core courses to the specific substance of the student’s master’s thesis or project.

**TIAS 513 Teaching Writing as Public Action**
5 credits
Examines writing as a profoundly social act, a means of articulating discoveries for multiple audiences, and a strategy for positioning concepts in organizations. Also examines the teaching of writing as a public action. Explores the way writing instruction is informed by transparent and oblique assumptions about authority, authorship, learning and literacy.

**TIAS 515 Themes in the Interpretation of Culture**
5 credits
Analyzes selected themes in the study of modern culture, such as health and medicine, sexuality, consumption, television, advertising, film, literature, art, music, architecture and social or cultural history.
TIAS 520
Critical Analyses of Foundational Texts
5 credits
Focuses on critical reading of selected great books. Works chosen vary, depending on the expertise of the instructor. Open to undergraduates with permission.

TIAS 590
Independent Study
1-5 credits, max. 20 / Prerequisite: Permission of instructor
Faculty-supervised special projects for graduate students encompassing all requirements of an undergraduate course being currently taught plus additional work. Topics vary.

TIAS 596
Internship
1-10 credits, max. 10 / Prerequisite: Permission of instructor
Faculty-supervised internships for graduate students. Internships and projects vary.

TIAS 598
Directed Readings
1-5 credits, max. 20 / Prerequisite: Permission of instructor
Faculty-supervised readings for graduate students.

TIAS 599
Directed Research
1-5 credits, max. 20 / Prerequisite: Permission of instructor
Faculty-supervised research for graduate students.

TIAS 605
Degree Project
1-5 credits, max. 10 / Prerequisite: Permission of instructor
Faculty-supervised project for graduate students.

TIAS 700
Thesis
1-10 credits / Prerequisite: Permission of instructor
Faculty-supervised thesis for graduate students.

Faculty
Cheryl Greengrove
Interim Director and Associate Professor
Interdisciplinary Arts and Sciences; Geoscience, Oceans, Atmospheres; Ph.D., Columbia University, 1986.

Luther Adams
Assistant Professor, Interdisciplinary Arts and Sciences; History, Ph.D., University of Pennsylvania, 2002.

Dolores Alcaide Ramirez
Assistant Professor, Interdisciplinary Arts and Sciences; Spanish, Ph.D., Purdue University, 2006.

Michael Allen
Professor, Interdisciplinary Arts and Sciences; American History and Folklore; Ph.D., University of Washington, 1985.

Katie Baird
Associate Professor, Interdisciplinary Arts and Sciences; Economics of Social Issues, Public Economics; Ph.D., University of Massachusetts, 2000.

John Banks
Associate Professor, Interdisciplinary Arts and Sciences; Applied Ecology, Agroecology, Mathematical Biology, Plant-Animal Interactions; Ph.D., University of Washington, 1997.

Anne Beaufort
Associate Professor, Interdisciplinary Arts and Sciences; Composition and Writing; Ph.D., Stanford University, 1995.

Bonnie Becker
Assistant Professor, Interdisciplinary Arts and Sciences; Marine Ecology; Ph.D., University of California, San Diego, 2005.

James F. Brown
Professor Emeritus, Interdisciplinary Arts and Sciences; Philosophy; Ph.D., New York University, 1974.

Tyler Budge
Assistant Professor, Interdisciplinary Arts and Sciences; Three-Dimensional Art, Sculpture; M.F.A., Illinois State University, 2002.

Kima Cargill
Assistant Professor, Interdisciplinary Arts and Sciences; Clinical Psychology; Ph.D., University of Texas at Austin, 2002.

Erica Cline
Assistant Professor, Interdisciplinary Arts and Sciences; Microbiology; Ph.D., University of Washington, 2004.

Robert Crawford
Professor, Interdisciplinary Arts and Sciences; American and Cultural Studies; Ph.D., University of Chicago, 1974.

Katherine Siân Davies-Vollum
Associate Professor, Interdisciplinary Arts and Sciences; Geology; D. Phil., St. Peter's College, University of Oxford, 1994.

Anthony D’Costa
Professor, Interdisciplinary Arts and Sciences; Political Economy, International Development; Ph.D., University of Pittsburgh, 1989.

Chris Demaske
Assistant Professor, Interdisciplinary Arts and Sciences; Communication and Society; Ph.D., University of Oregon, 2002.

Steve DeTray
Senior Lecturer, Interdisciplinary Arts and Sciences; Political Science, Third World Development, Nonprofit Studies; Ph.D., University of Washington, 1995.

Cynthia Duncan
Associate Professor, Interdisciplinary Arts and Sciences; Spanish, Portuguese and Latin American Literature; Ph.D., University of Illinois, 1983.

Michael Forman
Associate Professor, Interdisciplinary Arts and Sciences; Modern European Thought and Culture; Ph.D., Rutgers University, 1995.

Kelly Forrest
Assistant Professor, Interdisciplinary Arts and Sciences; Social Psychology; Ph.D., University of Washington, 1998.

James Gawel
Associate Professor, Interdisciplinary Arts and Sciences; Environmental and Aquatic Agroecology, Mathematical Biology, Plant-Animal Interactions; Ph.D., University of Washington, 1997.

Claudia Gorbman
Professor and Director of Global Honors, Interdisciplinary Arts and Sciences; Film Studies, Comparative Literature, Women's Studies; Ph.D., University of Washington, 1978.

Mary Hanneman
Associate Professor, Interdisciplinary Arts and Sciences; Asian History, Pacific Rim Studies; Ph.D., University of Washington, 1991.

Philip Heldrich
Associate Professor, Interdisciplinary Arts and Sciences; Writing, English Literature and Small Press Publishing; Ph.D., Oklahoma State University, 1997.

Michael Honey
Professor, Interdisciplinary Arts and Sciences; American History, Labor and Ethnic Studies; Ph.D., Northern Illinois University, 1988.

Peter Horak
Professor, Interdisciplinary Arts and Sciences; Mathematics; Ph.D., Comenius University, Slovakia, 1980.

Trista Huckleberry
Assistant Professor, Interdisciplinary Arts and Sciences; Educational Psychology; Ph.D., University of Texas at Austin, 2002.
Emily Ignacio
Associate Professor, Interdisciplinary Arts and Sciences; Sociology; Ph.D., University of Illinois at Urbana-Champaign, 1998.

Beth Kalikoff
Associate Vice Chancellor for Academic Affairs; Director of Core Curriculum; Associate Professor, Interdisciplinary Arts and Sciences; Composition Studies, Writing Pedagogy; Ph.D., Indiana University, 1983.

Michael Kalton
Professor, Interdisciplinary Arts and Sciences; Comparative Religion, East Asian Languages and Civilization; Ph.D., Harvard University, 1977.

Turan Kayaoglu
Assistant Professor, Interdisciplinary Arts and Sciences; International Politics; Ph.D., University of Washington, 2005.

Michael Kucher
Associate Professor, Interdisciplinary Arts and Sciences; History; Ph.D., University of Delaware, 2000.

William Kunz
Associate Professor, Interdisciplinary Arts and Sciences; Broadcast Communication; Ph.D., University of Oregon, 1998.

Rachel May
Associate Professor, Interdisciplinary Arts and Sciences; Latin American Studies; Ph.D., Tulane University, 1993.

Nita McKinley
Associate Professor, Interdisciplinary Arts and Sciences; Developmental Psychology, Ph.D., University of Wisconsin-Madison, 1995.

Divya McMillin
Associate Professor, Interdisciplinary Arts and Sciences; Communications; Ph.D., Indiana University, 1998.

David Morris
Associate Professor, Interdisciplinary Arts and Sciences; American Literature; Ph.D., University of Washington, 1984.

Beverly Naidus
Associate Professor, Interdisciplinary Arts and Sciences; Two-Dimensional Art, Painting, Drawing and Digital Imaging; M.F.A., Nova Scotia College of Art & Design, 1978.

Amós Nascimento
Assistant Professor, Interdisciplinary Arts and Sciences; Philosophy, Dr.Phil., Universität Frankfurt, 2002.

Julie Nicoletta
Professor, Interdisciplinary Arts and Sciences; Art History; Public History; Ph.D., Yale University, 1993.

Samuel Parker
Associate Professor, Interdisciplinary Arts and Sciences; Anthropology, Art History, Asian Studies; Ph.D., University of Chicago, 1989.

Guido Preparata
Assistant Professor, Interdisciplinary Arts and Sciences; Political Economy and Economic History; Ph.D., University of Southern California, 1998.

Deirdre Raynor
Associate Professor, Interdisciplinary Arts and Sciences; American Literature, African-American Literature; Ph.D., University of Washington, 1997.

Johann Reusch
Assistant Professor, Interdisciplinary Arts and Sciences; History of Arts and Culture, European History; Ph.D., University of California, Los Angeles, 1994.

Beth Rushing
Vice Chancellor and Professor, Interdisciplinary Arts and Sciences; Sociology; Ph.D., Duke University, 1988.

Emmett Joseph Sharkey
Associate Professor, Interdisciplinary Arts and Sciences; Comparative Literature; Ph.D., University of California, Davis, 1998.

Carolyn West
Associate Professor, Interdisciplinary Arts and Sciences; Clinical Psychology; Ph.D., University of Missouri-St. Louis, 1994.

Charles Williams
Assistant Professor, Interdisciplinary Arts and Sciences; U.S. Politics, Ph.D., University of California, Berkeley, 2005.
The Master of Nursing program prepares registered nurses for advanced clinical practice in acute, long-term care, ambulatory and community settings. The program offers the following curriculum options:

- **Communities, Populations and Health**
- **Leadership in Health Care**
- **Nurse Educator**
- **Independent Option**

The curriculum has a strong emphasis on mentoring, both in terms of preceptors in fieldwork placements and with faculty. The core courses for all options include research, health systems, health policy leadership, diversity and social issues related to health. All students engage in scholarly inquiry, completing a project or thesis. In addition, students take courses in their curriculum option, and may choose from courses in the other curriculum options to fulfill the requirement of related coursework. Two quarters of fieldwork provide students with an opportunity to participate in advanced practice roles in the setting that assists them to meet their career goals.

The program is designed for both part-time and full-time students. The length of time required to complete the program varies from five quarters on a full-time basis to seven or eight quarters on a part-time basis. While it is possible to enroll during any quarter, beginning in the Autumn Quarter is best for course sequencing.

**Communities, Populations and Health**

The Communities, Populations and Health curriculum option addresses health promotion and protection of communities and populations. The curriculum prepares graduates to collaborate with health care and other professionals and members of the community to address the health care needs of a complex and diverse society.

Students in this curriculum option:

- Focus on improvement of the health of populations, aggregates or communities—such as schools, neighborhoods or those with a common diagnosis, chronic illness or health care problem.
- Span traditional boundaries of governmental agencies, community organizations, and health care settings by working in partnerships.

**Leadership in Health Care**

The Leadership in Health Care curriculum option provides nurses with the skills, knowledge and attitudes to become clinical leaders and change agents in the evolving health care environment. The curriculum focuses on leadership, management and business principles to foster innovation and improve quality and management of care.

Students in this curriculum option:

- Focus on evidence-based clinical outcomes management
- Gain competencies in leadership behaviors, developing a shared vision, collaboration, team building and systems thinking.
- Develop skills related to human and fiscal resource management.
- Develop a deeper understanding of organizations, health care evaluation, business and health care ethics.
Nurse Educator

The Nurse Educator curriculum option prepares nurses to teach in schools of nursing, continuing education programs, staff development, clinical education or patient education. The curriculum focuses on learning theory, teaching methods, curriculum development, and evaluation. Fieldwork experiences are individualized and focus on the nurse educator role in community colleges or universities, hospitals, ambulatory care and community settings.

Students in this curriculum option gain competencies in:
- Applying theories and methods of teaching and learning.
- Teaching diverse learners.
- Identifying learning needs.
- Developing curriculum and educational programs.
- Evaluating learning and performance in clinical and academic settings.
- Using technology in teaching and learning.

Graduates function as advanced practice nurses, educators, and leaders in clinical education, academic institutions, health care settings and community agencies.

Independent Option

It is possible to develop an independent study option. Students who want to individualize their program plan must write a statement identifying their specific study goals and their rationale for the independent study option. A faculty adviser works with the student to help select appropriate courses and develop the plan of study.

Accreditation

As part of the top-ranked University of Washington School of Nursing at the Seattle campus, UW Tacoma’s Nursing program shares accreditation by the Commission on Collegiate Nursing Education (CCNE).

Program Goals

All students in the Master of Nursing program are prepared by the program to meet each of the following goals:
- Evaluate the adequacy of underlying knowledge from nursing science, related fields and professional foundations as it informs nursing practice.
- Competently assess, manage health-related issues with a defined population or care system and evaluate the effectiveness of these nursing practices.
- Utilize knowledge and skills in professional practice among diverse and multi-cultural populations.
- Demonstrates competence in development of inquiry relevant to practice, education or administration.
- Develop and utilize leadership strategies that foster improvement of health care.
- Articulate ethical issues and responsibilities involved in nursing practice.

Essential Behaviors for Admission, Continuation and Graduation

The following amplifies requirements found in the University of Washington Student Conduct Code. For admission, continuation and graduation in their programs, students need to abide by the following specifications for behaviors and abilities. In this document, “students” pertains to all UW Tacoma Nursing students.

Communication

Students must communicate effectively and sensitively with patients and their families as well as with other students, staff, faculty, professionals, agency personnel, community residents and others relevant to their areas of study. Expression of ideas and feelings must be clear and appropriate. Students must demonstrate a willingness and ability to give and receive feedback.

Cognitive

Students must be able to reason, analyze, integrate, synthesize and evaluate in the context of the nursing activities of their programs/areas of study.

Behavioral/Emotional

Students must possess the emotional health required for the full utilization of intellectual abilities, the exercise of sound judgment and the timely completion of responsibilities in their programs/areas of study. Further, students must be able to maintain mature, sensitive, and effective relationships with patients, students, faculty, staff, other professionals and agency personnel under all circumstances including highly stressful situations. Students must have the emotional stability to function effectively under stress and adapt to environments that may change rapidly without warning and/or in unpredictable ways as relevant to their programs or areas of study. Students must be able to demonstrate empathy for the situations and circumstances of others and appropriately communicate that empathy. Students must acknowledge that values, attitudes, beliefs, emotions and experiences affect their perceptions and relationships with others. Students must be able and willing to examine and change behaviors when they interfere with productive individual or team relationships. Students must demonstrate effective and harmonious relationships with the diverse academic, professional and community environments relevant to their chosen programs of study.

Professional Conduct

Students must possess the ability to reason morally and practice nursing in an ethical manner. They must be willing to learn and abide by professional standards of practice as well as regulations for professional licensure. Students must demonstrate the attributes of compassion, integrity, honesty, responsibility and tolerance.

Motor and Sensory Skills

Students need to have sufficient motor function and sensory skills to be able to execute movements and make observations required in the domain of nursing care or nursing activity in their chosen programs/areas of study.

Reasonable Accommodation for Disabilities

The Nursing Program is committed to ensuring that otherwise qualified students with disabilities are given equal access through reasonable accommodations to its services, programs, activities, education and employment for students with disabilities. The Nursing Program works closely with Disability Support Services (DSS) in this process. DSS is the contact point for students with permanent or temporary sensory, physical or psychological disabilities interested in requesting reasonable accommodations due to the effects of a disability.

Students who wish to request reasonable accommodations are encouraged to contact DSS to start the process for documenting their disability and determining eligibility for services prior to the start of the program. While this process can be started at any time, reasonable accommodations may not be implemented retroactively so being timely in requesting your accommodations is very important. The University does have policies regarding the type of documentation required in order to diagnose different...
Admission Requirements

Admission to the Master of Nursing program is competitive and based on acceptance by the UW Graduate School and the Nursing program at the University of Washington Tacoma. The following are required:

- A baccalaureate degree from a nationally-accredited nursing program with a minimum grade-point average of 3.0 on a 4.0 scale for the last 90 graded quarter credits.
- OR
- An associate's degree or diploma from a nationally-accredited RN program and a baccalaureate degree in a field other than nursing with a minimum grade-point average of 3.0 on a 4.0 scale for the last 90 graded quarter credits. The applicant must either take two specific Excelsior Exams or request to petition one or both of the exams.
- Completion of a three-credit basic course in descriptive and inferential statistics with a grade of at least 2.0 on a 4.0 scale.
- Three references: at least one from an academic reference and one from a clinical supervisor or person who can attest to the applicant's competence as an RN
- Professional goal statement relevant to the program objectives.
- Résumé or curriculum vitae describing educational background as well as relevant work, professional, and volunteer experiences.
- Current unrestricted Washington state RN license.

- Criminal background check must be completed online through Verified Credentials, Inc., if admission is offered.
- Agreement to adhere to the Essential Behaviors for Admission, Continuation and Graduation.

Transfer Credit

An admitted MN student may petition to transfer up to the equivalent of 6 quarter credits of graduate coursework earned in graduate status from an accredited institution. Graduate credits that have been applied toward a completed degree cannot be transferred. Written petitions for transfer credit must be submitted to the Graduate Committee within one quarter of acceptance to the MN program.

Graduate Nonmatriculated (GNM) Status

Graduate nonmatriculated (GNM) enrollment is beneficial to those who are interested in professional development or beginning work toward a graduate degree. A graduate nonmatriculated student is a postbaccalaureate student who wants to take graduate courses, but who has not been admitted by the Graduate School to a degree program. GNM status allows qualified students to earn graduate credits in an area of interest. A total of 12 credits can apply toward a graduate degree. This status is not available to international students on F-1 visas. Acceptance as a GNM student does not imply nor does it confer priority for later admission to the Graduate School for pursuit of a degree.

Admission Criteria for GNM Students

Information submitted by the applicant will be evaluated by the Nursing program based on the following criteria:

- Graduation from an approved baccalaureate program with a grade-point average of 3.0 in the last 90 quarter (60 semester) credits.
- Written goal statement referencing the plan for graduate study.
- Current unrestricted licensure as a registered nurse in the state of Washington may be required depending on course requirements.

Petitions will be considered for applicants not meeting the above criteria and should include information documenting the applicant’s capability for graduate study (such as recent graded coursework, GRE scores, résumé and letters of reference).

Satisfactory Progress

Students are required to maintain satisfactory progress meeting the University and program standards relative to scholarship and performance in pursuit of the master’s degree including each of the following:

1. Maintain a 3.00 cumulative GPA.
2. Earn a quarterly GPA of 3.00 or higher.
3. Earn a grade of 2.7 or higher in required courses.
4. Make adequate progress with the scholarly project or thesis as demonstrated by the faculty advisers or supervisory committee chairs, progress notes regarding student demonstration of interest, responsibility in working toward completion of project or thesis, and number of credits taken before a proposal has been approved.
5. Meet all “Essential Behaviors for Admission, Continuation and Graduation” (see page 148).

Graduation Requirements

The minimum requirements for graduation with the Master of Nursing degree from the University of Washington Tacoma are:

Core courses ........................................ 6 credits
Research courses .................................... 6 credits
Study option courses ......................... 9-12 credits
Fieldwork.................................................. 6 credits
Related coursework ......................... 9-12 credits
Scholarly Inquiry ............................. 6-9 credits

Total credits (min.) 45-48 credits

Master of Nursing 153
Course Descriptions

For the most current course information, please consult the Nursing program Web site at www.tacoma.washington.edu/nursing.

T NURS 503 Advanced Fieldwork
2-6 credits, max. 12 / Prerequisite: T NURS 510, T NURS 520, T NURS 521, T NURS 527 and at least three courses in study option or permission of instructor
Provides students with a substantive field experience in their setting of interest. Assists students in delineation of advanced practice nursing roles and application of theoretical concepts in a real-world context.

T NURS 504 Communities, Populations and Health: An Overview
3 credits
Focuses on the conceptualization, analysis and application of the concepts of community, populations and health. Discusses theories and models of current and potential community health practice. Examines sociocultural concepts for their interrelationship with and impact upon communities, populations and health.

T NURS 507 Leadership Behaviors for Evolving Health Care Organizations
3 credits
Covers changes in the health industry that require new ways of leading organizations. Evaluates leadership values and behaviors and identifies new leadership strategies integral to the change-agent role necessary in leading teams and in guiding changes as health care organizations transition from hospital-based structures to interdependent systems.

T NURS 509 Evaluation and Decision-Making in Health Care
3 credits / Prerequisites: T NURS 520, T NURS 521 or permission of instructor
Examines the various strategies in health care services evaluation and identifies frameworks for improved decision-making. Emphasis is on the application of evaluation techniques in leadership/management positions.

T NURS 510 Society, Justice and Health
3 credits
Explores how social factors and context influence health and illness, including concepts of oppression, discrimination, power and privilege. Analyzes how health and illness are socially constructed; effects of social location on health and access to care; and how inequities affect health and illness. Considers relationship between social justice and health.

T NURS 511 Curriculum Development in Nursing Education
3 credits
Theoretical rationale for curriculum development and study of curricular problems in nursing.

T NURS 512 Evaluation of Clinical Performance in Nursing
3 credits / Prerequisite: graduate standing or permission of instructor
For graduate students preparing for faculty or staff development positions in nursing. Theory and principles of evaluation. Instruments to appraise clinical nursing performance developed as part of course requirements.

T NURS 513 Theories and Methods of Teaching and Learning
3 credits
Addresses theories and methods of teaching and learning, tools and resources for teaching, role development, and current issues faced by those who teach in higher education and staff development. Partly Web-based.

T NURS 514 Challenges and Issues in Patient Education
3 credits
Provides overview of selected challenges and issues in patient education: low literacy, patient acuity, health status, early discharge, evolving health policy, cost of health care and staff proficiency. Considers the role of the advanced practice nurse in creating and managing patient education programs for individuals, groups and populations.

T NURS 515 Online Teaching Strategies
3 credits / Prerequisites: T NURS 511 and 513 or permission of instructor
Addresses pedagogical and design issues as well as technical skills required to successfully teach in the online environment by integrating experiential online interactions and face-to-face meetings.

T NURS 520 Scholarly Inquiry for Nursing Practice
3 credits
Research process as it applies to nursing. Use of the literature in building theoretical rationale. Selection of appropriate methods. Presentation of findings.

T NURS 521 Scholarly Inquiry for Nursing Practice II
3 credits / Prerequisite: T NURS 520
Research process as it applies to nursing. Use of the literature in building theoretical rationale. Selection of appropriate methods. Presentation of findings.

T NURS 522 Theory Development for a Practice Discipline
3 credits
Explores the evolutionary development of nursing theory and its contribution to the development of nursing science. Emphasizes the philosophical foundation, the hierarchical structure and the evaluative criteria used in theory development and its practice application.

T NURS 523 Community Health Assessment
3 credits / Prerequisite: T NURS 504 or permission of instructor
Survey of approaches and tools to measure health status and health-care problems in defined communities. Topics include uses and limitations of available data, community surveys, public health surveillance, measurement of community health indices, and research methods specific to health assessment of communities and populations.

T NURS 527 Health Care Systems and Health Policy
3 credits
Analyzes the organizational and financial aspects of clinical services and public health systems with an emphasis on access and resource utilization patterns among diverse populations. Explores health policy development, strategies to affect policy aimed at enhancing quality and population-system fit, and the relationship between policy and health care system change.

T NURS 537 Concepts of Organization
3 credits
Demonstrates how concepts of organizations and the metaphors used to describe them affect the analysis, management, and ethical dimensions of organizational environments. Students analyze their own work environments from a variety of perspectives, both to improve their understanding of work contexts and as a basis for planning managerial action.

T NURS 538 Concepts of Clinical Care
3 credits
Examines theoretical concepts that explain the wide range of human responses to illness. Explores the interrelationship of physiological, psychological, social, and spiritual dimensions of human responses. Addresses the assessment, measurement, management, and evaluation of commonly encountered, prototypical clinical phenomena from a research-based perspective.

T NURS 539 Health Care Business Strategies: Optimizing Resources
3 credits
Explore strategies to address challenges of optimizing resources utilization in a dynamic, changing health care environment that has an increasing business-oriented focus. Examines human and fiscal resource management strategies, focusing on personnel issues relevant in healthcare organization, gaining working knowledge of budgetary processes and fiscal decision-making expertise.
T NURS 540
Concepts of Hospice and Palliative Care
3 credits
Examines models of care and theoretical frameworks that guide and evaluate patient-family centered end-of-life care. Addresses symptoms of distress, psychosocial and spiritual aspects as well as educational, communicative and ethical components of hospice and palliative care.

T NURS 561
Community Planning, Intervention and Evaluation
3 credits / Prerequisites: T NURS 520, T NURS 521, or permission of instructor
Examines community planning, intervention, and evaluation. Emphasizes the importance of negotiation, community development, and partnerships. Discusses integrated models of community planning, implementation, and evaluation for the purpose of facilitating community wide interventions for health.

T NURS 588
Concepts of Health Promotion and Community Change
3 credits
Provides opportunities to critically examine concepts and theories of health promotion and community change. A wide variety of disciplinary perspectives is presented and discussed within the context of diversity. Gives students the skills needed to critically analyze health promotion and community change.

T NURS 590
Special Topics in Nursing Research
2-3 credits, max. 9

T NURS 598
Special Projects
1-12 credits, max. 12
Scholarly inquiry with in-depth, focused analysis, culminating in a written product/report for dissemination. Credit/no credit only.

T NURS 599
Selected Readings in Nursing Science
1-3 credits, max. 18

T NURS 600
Independent Study or Research
Credits vary

T NURS 700
Master’s Thesis
Credits vary
Credit/no credit only.

Health Electives
T HLTH 501
Race, Racism and Health
3 credits
Examines the roles race and racism play with respect to health outcomes for U.S. populations. Focuses on the way in which racial privilege and racial oppression shape people’s lives. Considers the medical and scientific constructions of categories of race and ethnicity, how race has been used in science, and the health consequences of racism.

T HLTH 505
Participatory Action Research
3 credits
Focuses on how to conduct research with a social action component. Provides an in-depth examination of participatory-action research. Explores theoretical, methodological and practical issues, including historical influences, design and methods, and application of findings.

T HLTH 510
Ethnographic Research Methods
3 credits
Provides a background in ethnographic research methodology emphasizing beginning ethnographic and field research studies. Analyzes the theory underlying qualitative research approaches and pragmatic issues in building skills and knowledge in relation to conducting and evaluating ethnographic research.

T HLTH 520
Health and Human Rights
3 credits
Examines how human rights violations affect the health of populations across the globe. Illustrates the links between public health and human rights. Explores research methods to understand and document human rights violations, as well as strategies to improve health and rights.

T HLTH 525
Violence in Intimate Partner Relationships
3 credits
Examines partner violence as a cumulative interactive experience that must be framed within historical and social contexts. Emphasizes current literature on conceptualizing gendered violence, theoretical perspectives of abuse in intimate relationships.

T HLTH 530
Health and Aging in a Diverse Society
3 credits
Provides an introduction to health and other social issues of members of minority elderly populations in the U.S. Reflects a range of perspectives in the social, behavioral, and health sciences. Emphasizes the importance of situating the life experiences of today’s diverse elders in historical context.

T HLTH 590
Independent Study
Credits vary
Faculty-supervised independent study, readings and special projects for graduate students as developed through faculty-student agreement.

Faculty
Sharon Gavin Fought
Interim Director
Associate Professor, Nursing; RN; Ph.D., The University of Texas, 1983.

Marjorie Dobratz
Professor, Nursing; RN; D.N.Sc., University of San Diego, 1990.

Kathleen Shannon Dorcy
Senior Lecturer, Nursing; RN; M.N., University of Washington, 1991.

Associate Professor, Nursing; RN; Ph.D., University of Washington, 1996.

Karen Landenburger
Professor, Nursing; RN; Ph.D., University of Washington, 1987.

June S. Lowenberg
Professor, Nursing; RN; Ph.D., University of California San Diego, 1985.

Joane Moceri
Assistant Professor, Nursing; RN; Ph.D., University of Washington, 2006.

Sondra Perdue
Senior Lecturer, Nursing; Dr.P.H., University of California, Los Angeles, 1985.

Janet Primomo
Associate Professor, Nursing; RN; Ph.D., University of Washington, 1989.

Ruth Rea
Associate Professor, Nursing; RNC.; Ph.D., University of Texas at Austin, 1987.

Christine Stevens
Assistant Professor, Nursing; RN; M.P.H.; Ph.D., University of Washington, 2004.

Cathy Tashiro
Associate Professor, Nursing; RN; Ph.D., University of California San Francisco, 1998.
The Master of Social Work (MSW) is considered the terminal degree in the social work profession. Content and coursework in the MSW program will prepare graduates to function in professional social work positions in a wide variety of settings, including health care agencies, child and family services, public social service organizations, the criminal justice system and the public schools. The advanced curriculum provides an in-depth education, through the classroom and practicum, to prepare graduates for advanced, specialized practice. Topics include applied research, social policy and advanced content in social work practice models and methods. The intent of this graduate program is to enable learners to develop skills in the concentration area of Children, Youth and Families. This graduate program also prepares learners to collaborate with other human service professionals and with the community. Graduates from this MSW program will be prepared to address the social welfare needs of a complex society.

The Master of Social Work program is designed as a part-time evening program and consists of two program options: a three-year MSW program, which is designed for graduates of baccalaureate programs in any major, and an Advanced Standing MSW program, which is designed for eligible graduates of baccalaureate programs in social work or social welfare. Advanced Standing allows students to enter the advanced level of the MSW curriculum. Pursuant to the achievement of the Social Work program’s mission, the MSW program has been designed as a competency-based curriculum committed to preparing graduate students for practice. As a result of their class and field education, MSW graduates should be able to:

- Understand and interpret the history of social welfare and its contemporary structures and issues
- Understand the forms and mechanisms of oppression and discrimination and apply strategies of advocacy and social change that advance social and economic justice
- Understand and critically analyze current systems of social service organizations and delivery and derive implications for practice
- Articulate the role of policy in framing social work practice and the impact of major social welfare policies on those who are served by social workers, workers themselves, agencies and welfare systems
- Advocate for just, effective and humane policies and policy implementation processes
- Engender the empowerment of disadvantaged individuals, groups and communities through effective, culturally and linguistically appropriate assessment, treatment/intervention and outcomes evaluation
- Demonstrate how people and systems change and how change is facilitated from micro- to macro-systems levels
- Make well-reasoned and well-informed judgments in practice based on values, critical self-reflection and evidence-supported theory and practice research
- Understand and critically assess major social work practice frameworks, including the strengths and empowerment perspectives
- Critically evaluate research, evidence and their own practice
- Contribute to the profession’s knowledge base and practice through disciplined inquiry, including practice evaluation, participatory-action research, efficacy and effectiveness trials and the dissemination and institutionalization of evidence-based practice and policy models

OVERVIEW

Developed in collaboration with and under the auspices of the University of Washington School of Social Work, the Master of Social Work (M.S.W.) program prepares learners for advanced and specialized practice as providers of social services and includes a combination of field experience and classroom learning.

Phone: (253) 692-5820
Fax: (253) 692-5825

Director: Rich Furman
Administrator & Adviser: Terri Simonsen
Understand the value base of the profession and its ethical standards and principles and practice accordingly; engage in mindful and ethical use of self and continual professional development of skills and knowledge.

**Accreditation**

The Social Work program at the University of Washington Tacoma is accredited by the Council on Social Work Education (CSWE) as a program option of the University of Washington School of Social Work in Seattle.

**Admission Requirements**

The Social Work program seeks to enroll well-qualified students with diverse backgrounds. Admission to the MSW program is based on academic performance and potential, clarity and appropriateness of career objectives, understanding of social issues, knowledge of diverse populations and relevant experiences. Academic credit toward the MSW is not given for previous employment or life experience.

Students are admitted to the three-year MSW program for Autumn Quarter only, and the Advanced Standing program for Winter Quarter only. Prospective students should download the official application packet from the Social Work Web site at www.tacoma.washington.edu/social.

Selection is based on academic background and potential, match of student interests with faculty expertise, program resources or priorities, social/human service experience, appropriateness of professional goals and objectives, and experience with diverse populations. All applicants must meet basic qualifications to be considered for the MSW program. Those applicants considered among the most qualified, based on the assessment of their application materials, will be offered admission. There is an enrollment limit placed on the Social Work program, and typically there is not enough space available to accommodate all applicants who meet the basic qualifications for admission.

Applying to the program involves submitting application forms for the UW Tacoma Social Work program and the UW Graduate School, an application fee, one set of official transcripts from every college or university attended, admissions essay, three reference letters, Grade Point Average Worksheet, résumé, and Social Service Experience form.

A background check is a required part of the Social Welfare admissions process. If offered admission, students are required to submit to a background check using an online service, Verified Credentials, for a fee of $69.

**Note:** When considering individuals for admission to the program, conviction/criminal history records are reviewed as they relate to the content and nature of the curriculum and the safety and security of clients and the public. A conviction/criminal history record does not necessarily disqualify an individual for admission.

The successful completion of an approved human biology course and a statistics course with a 2.0 (“C”) grade or higher is also required prior to beginning the MSW program. Specific time limits apply on coursework. Review the program Web site for a list of approved human biology courses. Official documentation verifying completion must be supplied prior to matriculation.

The Social Work program requires strong academic preparation demonstrated by a candidate’s grade-point average (GPA), liberal arts or social welfare undergraduate training, and writing skill. Applicants must have a baccalaureate degree with a minimum GPA of 3.0 on a 4.0 scale for the last 90 graded quarter credits (or 60 graded semester credits). Undergraduate preparation must include at least five credits in each of the humanities, social sciences, and natural sciences and 60 credits of liberal arts.

In addition to these general admission requirements, Advanced Standing applicants must hold a baccalaureate degree in social work or social welfare from an American program accredited by the Council on Social Work Education and have graduated within five years of entry to the MSW program. They must also have passed all social work core courses with a minimum grade of 3.0.

Current knowledge of the social work profession is assessed by the candidate’s use of illustrations and examples from his or her social-service background described in the admissions essay.

**Graduation Requirements**

Along with the Graduate School requirements, students must receive a passing grade (2.7 or higher or Satisfactory or Credit) in the professional foundation and advanced curriculum courses taken to meet the credits required for the MSW.

If a student does not pass a required course, the course must be repeated. Another course may be substituted for a failed selective course. Students electing to take a course on a Satisfactory/Not Satisfactory (S/NS) basis must earn at least a 2.7 grade in order to receive a grade of “Satisfactory.”

The 75-credit MSW program allows each student to determine which courses are taken to fulfill the 18 numerically-graded required credits. The following courses are graded on a credit/no credit basis and may not be used for the 18 credits: Cultural Diversity and Societal Justice, Foundation and Advanced Practicum (TSOCW 504, TSOCW 523, TSOCW 524 and TSOCW 525) and some selectives (indicated by CR/NC in the online time schedule). Some students may need to take additional courses beyond the minimum requirements to fulfill this requirement. A minimum cumulative GPA of 3.0 is required.

Students are reminded to read and carefully adhere to the University’s policies. Please refer to the “Graduate Programs” section in this catalog or refer to Graduate School Web site at www.grad.washington.edu.

**Course Descriptions**

For the most current course information, please consult the Social Work program Web site at www.tacoma.washington.edu/social.

**TSOCW 501**

**Social Policy and Economic Security**

3 credits

This course, presented during the first quarter of the foundation year, is designed to familiarize students with the U.S. social-welfare system and its historical, philosophical and cultural foundations within a social work context. The nature of social policy and economic security is explored in relation to income-maintenance programs, particularly social insurance and social-assistance programs, and the impact upon them of racism, classism and sexism. Attention is directed to issues of poverty, inequality, unemployment, disability and homelessness, as well as to the future of the American welfare state.

**TSOCW 502/503**

**Human Behavior and the Social Environment I & II**

3 credits each

The foundation HBSE courses focus on the person-in-environment across the life span. The sequence utilizes developmental and social-system perspectives in seeking to understand and influence human behavior. The developmental stages are discussed across diverse backgrounds. The dynamics and processes of small-group, family, organization and community systems are addressed from a social-system perspective as socializing forces and as targets of change. Implications for social work practice, especially the assessment process, are highlighted.
**TSOCW 504 Cultural Diversity and Societal Justice 3 credits**
This course provides students with the knowledge needed for social work practice with disadvantaged and oppressed groups overrepresented in public sector practice. The course presents information regarding the history and status of people of color, women, individuals with disabilities, gay men and lesbians, and poor and working-class people. A major theme of the course is to provide an opportunity for exploration of how prejudice, discrimination and exclusion affect the experiences of members of these groups. Another theme is the unique strengths and capacities within each group that should be recognized and utilized in effective social work practice. The course also provides students with a framework for developing a social-change orientation for working toward social justice and equality. *Taken credit/no credit only.*

**TSOCW 505 Introduction to Social Welfare Research 3 credits**
This course provides an overview of research process and methods in social work with a focus on both being able to interpret and perform practice-based research. The course is designed to introduce students to the principles and skills needed to evaluate their own practice. Emphasis is placed on critical understanding of the empirical literature: the development of useful and appropriate questions about social work practice; strategies and techniques for conducting practice research; and application of research findings to practice.

**TSOCW 510 Social Work Practice I: Introduction to Social Work Practice 3 credits**
This is the first of two required micro- or direct-practice courses. The first course provides foundation knowledge and skills in direct practice with individuals, couples, families and small groups. It is designed as the foundation for subsequent practice courses and the first practicum. By the end of the course, students are expected to identify social work values and ethics, discuss their implications in guiding direct practice, and demonstrate the following: an understanding of the person-in-environment perspective in assessment, intervention and evaluation; an understanding of how the social worker, with his or her attendant class, race/ethnicity, gender, sexual orientation, ability status, family of origin, and life experiences, is influenced by and influences direct practice; an understanding of how ethnic/racial minority status, culture, class, gender, sexual orientation and ability status affect the provision of direct services; an understanding of empowerment practice with diverse populations at risk; an understanding of effective communication skills; and an understanding of the importance of self-evaluation and practice-evaluation strategies.

**TSOCW 511 Social Work Practice II: Intermediate Direct Service Practice 3 credits**
This is the second of a two-quarter course sequence providing foundation knowledge and skills in direct practice with individuals, families, and groups. This course focuses on students developing working knowledge of broad perspectives (ecological, strengths-based, empowerment) and specific empirically-based theoretical models of practice. Students begin developing expertise in intervention selection, planning, and evaluation of micro systems (e.g. individuals, couples, families and small groups) with primary focus on individuals and families. Mastery of the application of microskills learned in Practice I is achieved through practicing assessment, goal setting and interventions using the selected theoretical models. The course focuses on empirically-based approaches to direct services intervention, emphasizing various theoretical approaches to practice. The class also addresses monitoring the impact of interventions; and appropriate evaluation strategies.

**TSOCW 512 Social Work Practice III: Community and Organizational Practice 3 credits**
This course is the first of two required macro-practice courses. The first course builds on foundation knowledge of human behavior, cultural diversity, policy and direct services. Topics and assignments are linked to practicum placements. The course focuses on how management activities contribute to service effectiveness for clients, as well as the quality of work conditions for staff. Various managerial roles, functions, and skills are examined. The impact of agency structure, culture and mission on staff, clients and organizational outcomes is discussed, with emphasis on how social work managers can influence change in these critical elements. In addition, the course covers ethical dilemmas associated with management activities, diversity in the workplace and empowerment methods for organizational change. Specific attention is devoted to knowledge and skills needed for leading task groups.

**TSOCW 513 Social Work Practice IV: Community Change Practice 3 credits**
This is the second of the two-course sequence on macro-practice and focuses on community change strategies in social work practice. It builds on other foundation courses and topics, and assignments are linked to practicum placements. The course is designed to provide a frame of reference and the skills needed for community-based social work practice. Theories of social change are examined, with examples drawn from community organizing and policy advocacy. Students are assisted in developing an understanding of how communities affect clients; how individuals can organize to influence communities; how to use organizing strategies for community change; and how to develop tactics for problem-solving and collective action.

**TSOCW 514 Social Work Practice V: Foundation Practice Skills 3 credits**
This course completes the required Foundation Practice sequence. The student selects one of a number of courses associated with key contemporary themes in social work that enhance practice skills at the micro, mezzo or macro levels.

**TSOCW 523 Introduction to Practicum 1 credit**
Workshops for preparation for agency-based placement. Interviewing and orientations occur at agencies. *Taken credit/no credit only.*

**TSOCW 524 The Professional Foundation Practicum 2-3 credits; max. 8 credits**
This agency-based practicum emphasizes the development of knowledge, perspectives, and skills needed for practice with individuals, families, groups, organizations and communities. Opportunities are provided for students to engage in a range of practice activities under the supervision of an experienced social worker. The course awards eight credits over three quarters. *Taken credit/no credit only.*

**TSOCW 525 Advanced Concentration Practicum 3-5 credits; max. 18 credits**
The advanced practicum is an integral part of the Children, Youth and Families concentration curriculum. The practicum is determined by the practicum coordinator in collaboration with the student and is based on an in-depth interview with each student. The advanced practicum may not begin until all foundation requirements are completed. The course awards 18 credits over four quarters. *Taken credit/no credit only.*

**TSOCW 531 Child and Family Policy and Services 3 credits**
This course explores policy issues in selected areas of child, youth and family services and provides a framework for policy analysis, emphasizing the role of values and evidence in policy formulation. Exercises highlight the critical interplay of policy, practice and research.

**TSOCW 532 Children, Youth and Families Practice I 3 credits**
This practice course emphasizes family-centered assessment and intervention within an ecological framework. Specific attention is given to family and community violence, substance abuse, and mental health. Practice frameworks focus on intensive case management, family systems, family-preservation practice and social supports. Students are expected to keep the same instructor for TSOCW 532/533 sequence.
**TSOCW 533**  
Children, Youth and Families Practice II  
3 credits  
This course builds on CYF Practice I. The focus is on the application of values, knowledge and skills emphasized within the practice frameworks of intensive case management, intensive family-preservation services, and social supports. Classroom sessions make extensive use of case materials. **Students are expected to keep the same instructor for TSOCW 532/533 sequence.**

**TSOCW 535**  
Advanced Social Work Research for Children, Youth and Families Practice  
3 credits  
This course promotes the practical application of research concepts and skills to social work practice in community and agency CYF settings: conducting a needs assessment, monitoring individual/group/family outcomes, and evaluating program effectiveness.

**TSOCW 536**  
Children, Youth and Family Methods (Selective)  
3 credits  
To complete the CYF Concentration students must choose at least two approved Selectives. Selective courses may cover topics such as Adult Interpersonal Violence; Chemical Dependency - Drug Effects, Assessment and Treatment Referral Issues; Child Welfare and Permanency Planning; Gerontological Social Work: Health and Mental Health in Older Adults; Group Interventions with Children, Youth and Families; Multicultural Theory and Practice; School Social Work; Social, Emotional, Behavioral Interventions with Children, Adolescents and Adults; and Supervision and Leadership.

**TSOCW 580**  
Aging and American Society  
3 credits / Prerequisite: Permission of instructor  
Covers physical and psychological processes of aging. Includes social aspects of aging related to family roles, cultural, social support and use of health and social services. Reviews home and community-based services and how those services may need to change in the 21st century. **TSOCW 580 is not part of the required MSW curriculum. Open to both undergraduate and graduate students.**

**TSOCW 598**  
Advanced Standing Integrative Seminar  
5 credits  
Integrates the domains of social work practice, research, policy, cultural diversity and human behavior and the social environment.

**TSOCW 599**  
Readings in Social Work  
1-5 credits, max. 10  
Student-originated, individually contracted projects on topics of interest in social welfare/social work not covered by other Social Work program offerings. **TSOCW 599 is not part of the required MSW curriculum. Credit/no credit only.**
