**Project Title:** Tech Study Application

**Faculty Advisor:** D.C. Grant

**Student:** Jordana Thuku

**Abstract:** With the tremendous growth in technology, everything that revolves around it is important. Tech Study Application will allow students to study for information technology courses anywhere, anytime which is very convenient. This app was developed using android studio. The app contains both notes and videos which gives the user a chance to choose the mode of studying they want to use. It also has my contact information so that students can contact me with any questions they may have in regards to the courses.
