Project Abstract -
For the internship project, our team decided to make a website for the Youth & Family Center with the purpose of promoting, building trust, and creating a bigger impact on the community. The goal was to spread awareness about the Youth & Family Center to help the community know about their services, raise money, and to mobilize volunteers. The website can serve as a hub for the youth to volunteer and interact with each other. It can potentially have a stabilizing effect on the lives of young people by impacting their future aspirations and steering them away from issues within their community.
