edTPA Elementary Literacy for Washington
Assessment Handbook

edTPA stems from a twenty-five-year history of developing performance-based assessments of teaching quality and effectiveness. The Teacher Performance Assessment Consortium (Stanford and AACTE) acknowledges the National Board for Professional Teaching Standards, the Interstate Teacher Assessment and Support Consortium, and the Performance Assessment for California Teachers for their pioneering work using discipline-specific portfolio assessments to evaluate teaching quality. This version of the handbook has been developed with thoughtful input from over six hundred teachers and teacher educators representing various national design teams and Washington student-voice committees, national subject matter organizations (ACEI, ACTFL, AMLE, CEC, IRA, NAEYC, NAGC, NCSS, NCTE, NCTM, NSTA, SHAPE America), and content validation reviewers. All contributions are recognized and appreciated.

Introduction to edTPA Elementary Literacy for Washington

Purpose

The purpose of edTPA Elementary Literacy, a nationally available performance-based assessment, is to measure novice teachers’ readiness to teach elementary literacy. The assessment is designed with a focus on student learning and principles from research and theory. It is based on findings that successful teachers

- develop knowledge of subject matter, content standards, and subject-specific pedagogy
- develop and apply knowledge of varied students’ needs
- consider research and theory about how students learn
- reflect on and analyze evidence of the effects of instruction on student learning

The Washington version adds a state emphasis of involving students in their own learning process and providing student-voice evidence. As a performance-based assessment, edTPA is designed to engage candidates in demonstrating their understanding of teaching and student learning in authentic ways.

Overview of the Assessment

The edTPA Elementary Literacy for Washington assessment is composed of three tasks:

1. Planning for Instruction and Assessment
2. Instructing and Engaging Students in Learning
3. Assessing Student Learning

For this assessment, you will first plan 3–5 consecutive literacy lessons referred to as a learning segment. Consistent with recommendations provided by the International Reading Association\(^1\) (2010) for literacy professionals, a learning segment prepared for this assessment should reflect a balanced literacy curriculum. This means your learning segment should include learning tasks in which students have opportunities to develop an essential literacy strategy for comprehending or composing text and the related skills that directly support that strategy.

You will then teach the learning segment, making a videorecording of your interactions with students during instruction. You will also assess, informally and formally, students’ learning throughout the learning segment. Upon completion of the three tasks, you will submit artifacts from the tasks (e.g., lesson plans, clips from your videorecording, assessment

\(^1\) The Standards for Reading Professionals can be found at [http://www.literacyworldwide.org/get-resources/standards/standards-for-reading-professionals](http://www.literacyworldwide.org/get-resources/standards/standards-for-reading-professionals).
materials, instructional materials, student work samples), as well as commentaries that you have written to explain and reflect on the Planning, Instruction, and Assessment components of the tasks. The artifacts and commentaries for each task will then be evaluated using rubrics especially developed for each task.

**The edTPA Tasks and the Cycle of Effective Teaching**

The three edTPA tasks represent a cycle of effective teaching (i.e., teaching that is focused on student learning). Planning Task 1 documents your intended teaching, Instruction Task 2 documents your enacted teaching, and Assessment Task 3 documents the impact of your teaching on student learning.

The three tasks and the evidence you provide for each are framed by your understandings of your students and their learning. As you develop, document, and teach your lessons, you will reflect upon the cyclical relationship among planning, instruction, and assessment, with a focus on your students’ learning needs.

**Evidence of Teaching Practice: Artifacts and Commentaries**

An essential part of edTPA is the evidence you will submit of how you planned, taught, and assessed your lessons to deepen student learning in literacy. This evidence includes both artifacts and commentaries:

- **Artifacts** represent authentic work completed by you and your students. These include lesson plans, copies of instructional and assessment materials, video clips of your teaching, student work samples, and student-voice evidence.
- **Commentaries** are your opportunity to describe your artifacts, explain the rationale behind their choice, and analyze what you have learned about your teaching practice and your students’ learning and their understanding of their own learning. Note that although your writing ability will not be scored directly, commentaries must be clearly written and well focused.

When preparing your artifacts and commentaries, refer to the rubrics frequently to guide your thinking, planning, and writing. Refer to the [Elementary Literacy for Washington Evidence Chart](#) for information about how your evidence should be formatted for electronic submission.

**Evaluation Criteria**

The rubrics used to score your performance are included in this handbook, following the sections describing the directions for each task. The descriptors in the five-level rubrics address a wide range of performance, beginning with the knowledge and skills of a novice not ready to teach (Level 1) and extending to the advanced practices of a highly accomplished beginner (Level 5).

**Structure of the Handbook**

The following pages provide specific instructions on how to complete each of the three tasks of the edTPA Elementary Literacy for Washington assessment. After an overview of the tasks, the handbook provides instructions for each task organized into four sections:

1. **What Do I Need to Think About?**
   This section provides focus questions for you to think about when completing the task.

2. **What Do I Need to Do?**
   This section provides specific, detailed directions for completing the task.

3. **What Do I Need to Write?**
   This section tells you what you need to write and also provides specific and detailed directions for writing the commentary for the task.

4. **How Will the Evidence of My Teaching Practice Be Assessed?**
   This section includes the rubrics that will be used to assess the evidence you provide for the task.

Additional requirements and resources are provided for you in this handbook:

- **Professional Responsibilities**: guidelines for the development of your evidence
- **Elementary Literacy Context for Learning Information**: prompts used to collect information about your school/classroom context
- **Elementary Literacy for Washington Evidence Chart**: specifications for electronic submission of evidence (artifacts and commentaries), including templates, supported file types, number of files, response length, and other important evidence specifications
- **Glossary**: definitions of key terms can be accessed by rolling your cursor over each glossary term marked with a dotted underline throughout the handbook or by referring to the [Elementary Literacy for Washington Glossary](#).
You should review the *Making Good Choices* document prior to beginning the planning of the learning segment. If you are in a preparation program, it will have additional resources that provide guidance as you develop your evidence.

Review all instructions carefully before beginning to teach the learning segment to ensure that you are well prepared for all tasks. **Before you record your videos, pay particular attention to the specific content focus of each video clip submission; these foci are described in the What Do I Need to Do? sections in Instruction Task 2 and Assessment Task 3.** Refer to the *Making Good Choices* document to help you prepare for all tasks. Refer to the Professional Responsibilities section of this handbook for important information about permissions, confidentiality, and other requirements.

If your program requires you to submit artifacts and commentaries for official scoring, refer to [www.edTPA.com](http://www.edTPA.com) for complete and current information before beginning your work and to download templates for submitting materials. The website contains information about the registration process, submission deadlines, submission requirements, withdrawal/refund policies, and score reporting. It also provides contact information should you have questions about your registration and participation in edTPA.

Whether submitting directly to [www.edTPA.com](http://www.edTPA.com) or via your program's electronic portfolio management system, follow the submission guidelines as documented in the Evidence Chart and review *edTPA Submission Requirements* to ensure that your materials conform to the required evidence specifications and requirements for scoring.

Planning Task 1: Planning for Instruction and Assessment

What Do I Need to Think About?

In Planning Task 1, you will describe your plans for the learning segment and explain how your instruction is appropriate for the students and the content you are teaching. As you develop your plans, you need to think about the following:

- What do your students know, what can they do, and what are they learning to do?
- What do you want your students to learn? What are the important understandings and core concepts you want students to develop within the learning segment?
- How will you use your knowledge of your students’ assets to inform your plans?
- What instructional strategies, learning tasks, and assessments will you design to support student learning and language use?
- How will your learning segment support students to develop and use language that deepens content understanding?
- How is the teaching you propose supported by research and theory about how students learn?

What Do I Need to Do?

- **Select a class.** If you teach more than one class, select one focus class for this assessment. If your placement for elementary literacy has you responsible for a group rather than a whole class, plans should describe instruction for that group (minimum of 4 students). That group will constitute “the whole class” for edTPA.
- **Provide context information.** The Elementary Literacy Context for Learning Information form is provided later in this handbook and must be submitted in a template. This form provides essential information about your students and your school/classroom. The context information you submit should be no more than 4 pages, including prompts.
- **Identify a learning segment to plan, teach, and analyze.** Review the curriculum with your cooperating teacher and select a learning segment of 3–5 consecutive lessons.
- **Identify a central focus for the learning segment.** The central focus\(^2\) (e.g., retelling, persuasive writing) should include

\(^2\) Click the hyperlinked term to view the complete glossary definition, which includes a diagram of a central focus on persuasive writing. The diagram depicts the relationship among the central focus, essential literacy strategy, related skills, standards/targets, and language function.
an essential literacy strategy for comprehending text (e.g., summarizing a story) OR composing text (e.g., using evidence to support an argument) AND

the related skills needed to develop and apply the strategy (e.g., decoding, recalling, sequencing, writing conventions, writing paragraphs) in meaningful contexts.

Determine the content standards and targets for student learning that the essential literacy strategy and related skills will address.

If your teaching placement requires that you teach literacy embedded in another subject area (e.g., social studies or science), your central focus must clearly address literacy, and your standards, targets, and learning tasks must address an essential literacy strategy and skills for comprehending OR composing text. Simply having students read and/or write while learning content in another subject area will not satisfy the requirements for the Elementary Literacy edTPA tasks.

Identify and plan to support language demands. Select a key language function from your learning targets. Choose a learning task that provides opportunities for students to practice using that language function. Identify additional language demands associated with that task. Plan targeted supports that address the identified language demands, including the language function.

Write a lesson plan for each lesson in the learning segment. Your lesson plans should be detailed enough that a substitute or other teacher could understand them well enough to use them.

Your lesson plans must include the following information, even if your teacher preparation program requires you to use a specific lesson plan format:

- State-adopted student academic content standards that are the target of student learning (Note: Please include the number and text of each standard that is being addressed. If only a portion of a standard is being addressed, then only list the part or parts that are relevant.)
- Learning target associated with the content standards
- Informal and formal assessments used for both the teacher and students to monitor student learning, including type(s) of assessment and what is being assessed
- Instructional strategies and learning tasks (including what you and the students will be doing) that support diverse student needs
- Instructional resources and materials that assist students in meeting the learning targets, engage students in learning, and assist them in reaching the learning targets

Each lesson plan must be no more than 4 pages in length. You will need to condense or excerpt lesson plans longer than 4 pages. Any explanations or rationale for decisions should be included in your Planning Commentary and deleted from your plans.

Respond to the commentary prompts listed in the Planning Commentary section prior to teaching the learning segment.

Submit your original lesson plans. If you make changes while teaching the learning segment, you may offer reflection on those changes in the Instruction Task 2 and Assessment Task 3 Commentaries.

Select and submit key instructional materials needed to understand what you and the students will be doing (no more than 5 additional pages per lesson plan). The
Instructional materials might include such items as class handouts, assignments, slides, and interactive whiteboard images.

- Submit copies of all written assessments and/or directions for any oral or performance assessments. (Submit only the blank assessments given to students; do not submit student work samples for this task.)

- Provide citations for the source of all materials that you did not create (e.g., published texts, websites, and material from other educators). List all citations by lesson number at the end of the Planning Commentary. Note: Citations do not count toward the commentary page limit.

See the Planning Task 1: Artifacts and Commentary Specifications in the Elementary Literacy for Washington Evidence Chart for instructions on electronic submission of evidence. This evidence chart identifies templates, supported file types, number of files, response length, and other important evidence specifications. Your evidence cannot contain hyperlinked content. Any web content you wish to include as part of your evidence must be submitted as a document file, which must conform to the file format and response length requirements.

What Do I Need to Write?

In Planning Task 1, you will write

- a description of your Context for Learning (see “What Do I Need to Do?” above for directions)
- lesson plans (see “What Do I Need to Do?” above for directions)
- a commentary explaining your plans (see “Planning Commentary” below for directions)

Planning Commentary

In Planning Task 1, you will write a commentary, responding to the prompts below. Your commentary should be no more than 11 single-spaced pages, including the prompts.

1. Central Focus
   a. Describe the central focus and the essential literacy strategy for comprehending OR composing text you will teach in the learning segment.
   b. Given the central focus, describe how the standards and learning targets within your learning segment address
      - the essential literacy strategy
      - related skills that support use of the strategy
      - reading/writing connections
c. **Explain how your plans build on each other** to help students **make connections** between the essential literary strategy to comprehend OR compose text and related skills that support use of the strategy in meaningful contexts.

d. **Student Understanding of Learning Targets**

   - If not in your lesson plans, provide the learning targets exactly as presented to students.
   - How and when will you introduce the learning targets to students?
   - How and when will you give students opportunities to express their understanding of the learning targets and why they are important to learn?
   - What tools or strategies will students use? How familiar are students with them?

2. **Knowledge of Students to Inform Teaching**

   For each of the prompts below (2a–b), describe what you know about your students with respect to the central focus of the learning segment.

   Consider the variety of learners in your class who may require different strategies/support (e.g., students with IEPs or 504 plans, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students).

   a. Prior academic learning and prerequisite skills related to the central focus and the learning targets—**Cite evidence of what students know, what they can do, and what they are still learning to do.**

   b. Personal, cultural, and community assets related to the central focus—**What do you know about your students’ everyday experiences, cultural and language backgrounds and practices, and interests?**

3. **Supporting Students’ Literacy Learning**

   Respond to prompts 3a–c below. To support your justifications, refer to the instructional materials and lesson plans you have included as part of Planning Task 1. **In addition, use principles from research and/or theory to support your justifications.**

   a. Justify how your understanding of your students’ prior academic learning and personal, cultural, and community assets (from prompts 2a–b above) guided your choice or adaptation of learning tasks and materials. Be explicit about the connections between the learning tasks and students’ prior academic learning, their assets, and research/theory.
b. Describe and justify why your instructional strategies and planned supports are appropriate for the whole class, individuals, and/or groups of students with specific learning needs.

Consider the variety of learners in your class who may require different strategies/support (e.g., students with IEPs or 504 plans, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students).

c. Describe common developmental approximations or common misconceptions within your literacy central focus and how you will address them.

4. Supporting Literacy Development Through Language

As you respond to prompts 4a–d, consider the range of students’ language assets and needs—what do students already know, what are they struggling with, and/or what is new to them?

a. Language Function. Using information about your students’ language assets and needs, identify one language function essential for students to develop and practice the literacy strategy within your central focus. Listed below are some sample language functions. You may choose one of these or another more appropriate for your learning segment:

<table>
<thead>
<tr>
<th>Analyze</th>
<th>Argue</th>
<th>Categorize</th>
<th>Compare/contrast</th>
<th>Describe</th>
<th>Explain</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

b. Identify a key learning task from your plans that provides students with opportunities to practice using the language function in ways that support the essential literacy strategy. Identify the lesson in which the learning task occurs. (Give lesson day/number.)

c. Additional Language Demands. Given the language function and learning task identified above, describe the following associated language demands (written or oral) students need to understand and/or use:

- Vocabulary or key phrases
- Plus at least one of the following:
  - Syntax
  - Discourse

d. Language Supports. Refer to your lesson plans and instructional materials as needed in your response to the prompt.

- Identify and describe the planned instructional supports (during and/or prior to the learning task) to help students understand, develop, and use the identified language demands (function, vocabulary or key phrases, discourse, or syntax).
5. Monitoring Student Learning

In response to the prompts below, refer to the assessments you will submit as part of the materials for Planning Task 1.

a. Describe how your planned formal and informal assessments will provide direct evidence that students can use the essential literacy strategy to comprehend OR compose text AND related skills throughout the learning segment.

b. Explain how the design or adaptation of your planned assessments allows students with specific needs to demonstrate their learning.

Consider the variety of learners in your class who may require different strategies/support (e.g., students with IEPs or 504 plans, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students).

c. Describe when and where you and the students will use tools and/or strategies to identify what they are doing well and what they need to improve to reach the learning targets through a process of reflection, revision, and goal setting.

How Will the Evidence of My Teaching Practice Be Assessed?

For Planning Task 1, your evidence will be assessed using rubrics 1–5, which appear on the following pages, and Student-Voice Rubric 16, which appears after Rubric 15. When preparing your artifacts and commentaries, refer to the rubrics frequently to guide your thinking, planning, and writing.
# Planning Rubrics

## Rubric 1: Planning for Literacy Learning

How do the candidate’s plans build students’ understanding of an essential literacy strategy for comprehending OR composing text and the skills that support that strategy?

<table>
<thead>
<tr>
<th>Level 1&lt;sup&gt;3&lt;/sup&gt;</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Candidate’s plans for instruction <strong>focus solely on literacy skills</strong> without any connections to an essential literacy strategy for comprehending OR composing text.</td>
<td>Candidate’s plans for instruction <strong>support student learning of skills</strong> with vague connections to the essential literacy strategy for comprehending OR composing text.</td>
<td>Candidate’s plans for instruction <strong>build on each other</strong> to support learning of • the essential literacy strategy for comprehending OR composing text • with clear connections to related skills.</td>
<td>Candidate’s plans for instruction build on each other within <strong>a meaningful context</strong> that supports learning of • the essential literacy strategy for comprehending OR composing text • with clear <strong>AND consistent connections to related skills</strong>.</td>
<td><strong>Level 4 plus:</strong> Candidate’s plans build an authentic connection between reading and writing. Candidate explains how s/he will use learning tasks and materials to lead students to independently apply the essential literacy strategy <strong>AND related skills</strong>.</td>
</tr>
</tbody>
</table>

OR

There are **significant content inaccuracies** that will lead to student misunderstandings.

OR

Standards, learning targets, and learning tasks and materials are not aligned with each other.

<sup>3</sup> Text representing key differences between adjacent score levels is shown in bold. Evidence that does not meet Level 1 criteria is scored at Level 1.
## Rubric 2: Planning to Support Varied Student Learning Needs

**How does the candidate use knowledge of his/her students to target support for students’ literacy learning?**

<table>
<thead>
<tr>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>

## Rubric 4: Identifying and Supporting Language Demands

How does the candidate identify and support language demands associated with a key literacy learning task?

<table>
<thead>
<tr>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
</table>
| Language demands identified by the candidate are not consistent with the selected language function OR task. | Language supports primarily address one language demand (vocabulary, function, syntax, discourse). | General language supports address use of two or more language demands (vocabulary, function, syntax, discourse). | Targeted language supports address use of  
  - vocabulary,  
  - language function, **AND**  
  - one or more additional language demands (syntax, discourse). | Level 4 plus:  
  Language supports are designed to meet the needs of students with different levels of language learning. |

### Notes:

4 Language demands include: language function, vocabulary, syntax and grammar, and discourse (organizational structures, text structure, etc.).

5 Language function refers to the learning outcome (verb) selected in prompt 4a (e.g., analyze, interpret).
Rubric 5: Planning Assessments to Monitor and Support Student Learning

How are the formal and informal assessments selected or designed to monitor students’ use of the essential literacy strategy to comprehend OR compose text and related skills?

<table>
<thead>
<tr>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>The assessments <strong>only provide evidence</strong> of students’ use of skills.</td>
<td>The assessments <strong>provide limited evidence</strong> to monitor students’ use of • the essential literacy strategy <strong>OR</strong> • related skills during the learning segment.</td>
<td>The assessments <strong>provide evidence</strong> to monitor students’ use of • the essential literacy strategy <strong>AND</strong> • related skills during the learning segment.</td>
<td>The assessments provide <strong>multiple forms of evidence</strong> to monitor students’ use of • the essential literacy strategy <strong>AND</strong> • related skills <strong>throughout</strong> the learning segment.</td>
<td>Level 4 plus: The assessments are strategically designed to allow individuals or groups with specific needs to demonstrate their learning.</td>
</tr>
</tbody>
</table>

OR

Candidate does not attend to ANY ASSESSMENT requirements in IEPs and 504 plans.
Instruction Task 2: Instructing and Engaging Students in Learning

What Do I Need to Think About?

In Instruction Task 2, you will demonstrate how you support and engage students in literacy learning. Before you begin your instruction, you need to think about the following:

- What kind of learning environment do you want to develop in order to establish respect and rapport, and to support students’ engagement in learning?
- What kinds of learning tasks actively engage students in the central focus of the learning segment?
- How will you elicit and build on student responses in ways that develop and deepen content understanding?
- In what ways will you connect new content to your students’ prior academic learning and personal, cultural, or community assets during your instruction?
- How will you use evidence from your instruction to examine and change your teaching practices to more effectively meet a variety of student learning needs?

What Do I Need to Do?

- **Obtain required permission for videorecording.** Before you record your video, ensure that you have the appropriate permission from the parents/guardians of your students and from adults who appear in the video. Adjust the camera angle to exclude individuals for whom you do not have permission to film.

- **Examine your plans for the learning segment** and identify challenging learning tasks in which you and students are actively engaged. The video clips you select for submission should provide a sample of how you interact with students to
  - develop an essential literacy strategy and related skills and
  - elicit their understandings of the learning target(s) and communicate what they are doing well and what they need to improve relative to the learning target(s).

- **Identify lessons to videorecord.**

- **Provide 2 video clips (together totaling no more than 20 minutes, but not less than 3 minutes)** that demonstrate how you interact with students in a positive literacy environment to develop an essential literacy strategy and related skills. The two clips can come from the same or two different lessons in the learning segment.
  - **One clip** should show how you actively engage students while modeling the essential literacy strategy.
  - **A second clip** should show how you support students to practice and apply the essential literacy strategy to comprehend **OR** compose text in meaningful contexts.
If the selected video clips do not provide video evidence of the use of tools and/or strategies for students to communicate their understandings of the learning target and/or reflect on what they are doing well and what they need to improve, you may provide an additional clip of no more than 5 minutes with that focus. (If reflections are collected through a written tool, you may just describe the tool in the commentary.)

(Optional) Provide evidence of students’ language use. You may provide evidence of language use with your video clips from Instruction Task 2, an additional video clip of one or more students using language within the learning segment (no more than 5 minutes in length), AND/OR through the student work samples analyzed in Assessment Task 3.

Determine whether you will feature the whole class or a targeted group of students (minimum of 4 students) within the class.

Videorecord your classroom teaching. Tips for videorecording your class are available from your teacher preparation program.

Select video clips to submit and verify that the clips meet the following requirements:

- Check the video and sound quality to ensure that you and your students can be seen and heard on the video clips you submit. If most of the audio in a clip cannot be understood by a scorer, submit another clip. If there are occasional audio portions of a clip that cannot be understood that are relevant to your commentary responses, do one of the following: 1) provide a transcript with time stamps of the inaudible portion and refer to the transcript in your response; 2) embed quotes with time-stamp references in the commentary response; or 3) insert captions in the video (captions for this purpose will be considered permissible editing).

- A video clip must be continuous and unedited, with no interruption in the events.

- If you have inadvertently included individuals for whom you do not have permission to film in the video clips you plan to submit, you may use software to blur the faces of these individuals. This is not considered editing. Other portions of the submitted video clip(s)—including the classroom, your face, and the faces of individuals for whom you have obtained permission to film—should remain unblurred.

- Do not include the name of the state, school, or district in your video. Use first names only for all individuals appearing in the video.

Respond to the prompts listed in the Instruction Commentary section below after viewing the video clips.

Determine if additional information is needed to understand what you and the students are doing in the video clips. For example, if there are graphics, texts, or images that are not clearly visible in the video, or comments that are not clearly heard, you may insert digital copies or transcriptions at the end of the Instruction Commentary (no more than 2 pages in addition to the responses to commentary prompts).
See the Instruction Task 2: Artifacts and Commentary Specifications in the Elementary Literacy for Washington Evidence Chart for instructions on electronic submission of evidence. This evidence chart identifies templates, supported file types, number of files, response length, and other important evidence specifications. Your evidence cannot contain hyperlinked content. Any web content you wish to include as part of your evidence must be submitted as a document file, which must conform to the file format and response length requirements.

What Do I Need to Write?

Instruction Commentary

In Instruction Task 2, you will write a commentary, responding to the prompts below. Your commentary should be no more than 7 single-spaced pages, including the prompts. If needed, insert no more than 2 additional pages of supporting documentation for the videorecordings at the end of the commentary (e.g., digital copies of indiscernible materials or transcriptions of inaudible comments). These additional pages do not count toward the commentary page limit noted above.

1. Which lesson or lessons are shown in the video clips? Identify the lesson(s) by lesson plan number.

2. Promoting a Positive Learning Environment
   Refer to scenes in the video clips where you provided a positive learning environment.
   a. How did you demonstrate mutual respect for, rapport with, and responsiveness to students with varied needs and backgrounds, and challenge students to engage in learning?

3. Engaging Students in Learning
   Refer to examples from the video clips in your responses to the prompts.
   a. Describe the tools and/or strategies you used to elicit student expression of their understanding of the learning target(s) and why they are important.
   b. Explain how your instruction engaged students in developing an essential literacy strategy and related skills.
   c. Describe how your instruction linked students’ prior academic learning and personal, cultural, and community assets with new learning.

4. Deepening Student Learning during Instruction
   Refer to examples from the video clips in your explanations.
   a. Explain how you elicited and built on student responses to promote thinking and apply the essential literacy strategy using related skills to comprehend OR compose text.
b. Explain how you modeled the essential literacy strategy AND supported students as they practiced and applied the strategy to comprehend OR compose text in a meaningful context.

c. **Student Understanding of Learning Progress**
   - Explain how you and the students used tools and/or strategies to assist them in reflecting on what they are doing well and/or what they need to improve. Provide time stamp references for examples in the clip(s) or describe the use of written tools.
   - Explain how familiar students are with the use of each tool or strategy.

5. **Analyzing Teaching**

   Refer to examples from the video clips in your responses to the prompts.

   a. What changes would you make to your instruction—for the whole class and/or for students who need greater support or challenge—to better support student learning of the central focus (e.g., missed opportunities)?

   Consider the variety of learners in your class who may require different strategies/support (e.g., students with IEPs or 504 plans, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students).

   b. Why do you think these changes would improve student learning? Support your explanation with evidence of student learning AND principles from theory and/or research.

### How Will the Evidence of My Teaching Practice Be Assessed?

For Instruction Task 2, your evidence will be assessed using rubrics 6–10, which appear on the following pages, and Student-Voice Rubric 17, which appears after Rubric 16. When preparing your artifacts and commentaries, refer to the rubrics frequently to guide your thinking, instruction, and writing.
Rubric 6: Learning Environment

How does the candidate demonstrate a positive literacy learning environment that supports students’ engagement in learning?

<table>

## Rubric 7: Engaging Students in Learning

**How does the candidate actively engage students in integrating strategies and skills to comprehend OR compose text?**

<table>
<thead>
<tr>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students are participating in tasks that are vaguely or superficially related to the central focus.</td>
<td>Students are participating in learning tasks focusing primarily on skills with little attention to the essential literacy strategy for comprehending OR composing text.</td>
<td>Students are engaged in learning tasks that address their understanding of • the essential literacy strategy for comprehending OR composing text AND • related skills.</td>
<td>Students are engaged in learning tasks that integrate their understanding of • the essential literacy strategy for comprehending OR composing text AND • related skills.</td>
<td>Students are engaged in learning tasks that deepen and extend their understanding of • the essential literacy strategy for comprehending OR composing text AND • related skills.</td>
</tr>
<tr>
<td>There is little or no evidence that the candidate links students' prior academic learning or personal, cultural, or community assets with new literacy learning.</td>
<td>Candidate makes vague or superficial links between prior academic learning and new literacy learning.</td>
<td>Candidate links prior academic learning to new literacy learning.</td>
<td>Candidate links prior academic learning AND personal, cultural, or community assets to new literacy learning.</td>
<td>Candidate prompts students to link prior academic learning AND personal, cultural, or community assets to new literacy learning.</td>
</tr>
</tbody>
</table>
### Rubric 8: Deepening Student Learning

How does the candidate elicit student responses to promote thinking and apply the essential literacy strategy AND related skills to comprehend OR compose text?

<table>
<thead>
<tr>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Candidate does most of the talking and the students provide few responses.</td>
<td>Candidate primarily asks surface-level questions and evaluates student responses as correct or incorrect.</td>
<td>Candidate elicits student responses to support use of • the essential literacy strategy OR • related skills to comprehend OR compose text.</td>
<td>Candidate elicits and builds on students’ responses to explicitly portray, extend, or clarify • the essential literacy strategy AND • related skills to comprehend OR compose text.</td>
<td>Level 4 plus: Candidate facilitates interactions among students so they can evaluate their own abilities to apply the essential literacy strategy in meaningful reading or writing contexts.</td>
</tr>
</tbody>
</table>
Rubric 9: Subject-Specific Pedagogy

How does the candidate support students to learn, practice, and apply the essential literacy strategy for comprehending OR composing text in a meaningful context?

<table>
<thead>
<tr>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Candidate does not teach students how to use the essential literacy strategy to support comprehension OR composition of text.</td>
<td>Candidate engages students with the essential literacy strategy without opportunities for students to practice or apply it to comprehend OR compose text.</td>
<td>Candidate models the essential literacy strategy to comprehend OR compose text WITH limited opportunities for practice.</td>
<td>Candidate explicitly teaches students how to apply the essential literacy strategy to comprehend OR compose text AND provides opportunities for guided practice.</td>
<td>Level 4 plus: Candidate explicitly teaches students when to apply the essential literacy strategy to comprehend OR compose text in meaningful contexts.</td>
</tr>
</tbody>
</table>

OR

There is a clear mismatch between or among strategies, skills, and students' readiness to learn.

OR

Materials used in the clips include significant content inaccuracies that will lead to student misunderstandings.
### Rubric 10: Analyzing Teaching Effectiveness

How does the candidate use evidence to evaluate and change teaching practice to meet students’ varied learning needs?

<table>
<thead>
<tr>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Candidate suggests changes unrelated to evidence of student learning.</td>
<td>Candidate proposes changes to teacher practice that are superficially related to student learning needs (e.g., task management, pacing, improving directions).</td>
<td>Candidate proposes changes that address students’ collective learning needs related to the central focus. <strong>Candidate makes superficial connections to research and/or theory.</strong></td>
<td>Candidate proposes changes that address individual and collective learning needs related to the central focus. <strong>Candidate makes connections to research and/or theory.</strong></td>
<td><strong>Level 4 plus:</strong> Candidate justifies changes using principles from research and/or theory.</td>
</tr>
</tbody>
</table>
Assessment Task 3: Assessing Student Learning

What Do I Need to Think About?

In Assessment Task 3, you will analyze both student learning and student use of language. Before you begin the analysis, you need to think about the following:

- How will you gather evidence and make sense of what students have learned and understand about their learning progress?
- How will you provide meaningful feedback to your students?
- How will you use evidence of what students know and are able to do as well as student self-reflections to plan next steps in instruction?
- How will you analyze student self-reflections to improve tools and strategies for developing metacognitive skills?
- How will you identify evidence of and explain students’ use of language that demonstrates the development of content understanding?

What Do I Need to Do?

- Select one assessment from your learning segment you and the students will use to evaluate their progress toward the learning target(s). It should be an assessment that is completed by the whole class featured in the learning segment. (If you are teaching only a group within the class for the learning segment, that group will be “the whole class.”) The assessment should reflect the work of individuals, not groups, but may be individual work from a group task. The assessment should provide opportunities for students to demonstrate:
  - the essential literacy strategy
  - related skills
- Define and submit the evaluation criteria you will use to analyze student learning related to the literacy understandings described above.
- Ask students to reflect on their performances on the chosen assessment by:
  - communicating the learning target in a developmentally appropriate way
  - describing what they did well and/or what they needed to improve
  - identifying tools and/or strategies needed to close any gap between present performance and the learning target(s)
- Collect and analyze student work and related self-reflections from the selected assessment to identify quantitative and qualitative patterns of learning within and across learners in the class. You may submit text files with scanned student work OR, for oral assessments of primary grade students (e.g., reading aloud, dictating text, or
orally demonstrating the essential literacy strategy), a video or audio file. (Note that the oral assessment must be given to the whole class, though not necessarily at the same time.) Student self-reflections may be submitted as either document or video files. For each focus student, a video or audio work sample and/or a video-recorded self-reflection must be no more than 5 minutes in total running time.

- **Select 3 student work samples and related self-reflections** that represent the patterns of learning (i.e., what individuals or groups generally understood and what a number of students were still struggling to understand) you identified in your assessment analysis. Each work sample and self-reflection must come from the same student. These students will be your **focus students** for this task. At least one of the focus students must have specific learning needs, for example, a student with an IEP (Individualized Education Program) or 504 plan, an English language learner, a struggling reader or writer, an underperforming student or a student with gaps in academic knowledge, and/or a gifted student needing greater support or challenge.

- **Document the feedback** you gave to each of the 3 focus students on the work sample itself, as an audio clip, or as a video clip. You must submit evidence of the actual feedback provided to each focus student, and not a description of the feedback.

- If you submit a student work sample or feedback as a video or audio clip or submit a student self-reflection as a video clip and comments made by you or your focus student(s) cannot be clearly heard, do one of the following: 1) attach a transcription of the inaudible comments (**no more than 2 additional pages**) to the end of the Assessment Commentary; 2) embed quotes with time-stamp references in the commentary response; or 3) insert captions in the video (captions for this purpose will be considered permissible editing).

- If you submit a student work sample or feedback as a video or audio clip or submit a student self-reflection as a video clip and additional students are present, clearly identify which students are your focus students in the relevant prompts (1f and 2a) of the Assessment Commentary (**in no more than 2 sentences**).

- **Respond to the prompts** listed in the Assessment Commentary section below **after analyzing student work from the selected assessment**.

- **Include and submit the chosen assessment, including the directions/prompts provided to students.** Attach the assessment (**no more than 5 additional pages**) to the end of the Assessment Commentary.

- **Provide evidence of students’ understanding and use of the targeted academic language function and other language demands.** You may choose evidence from the video clips submitted in Instruction Task 2, an additional video clip of one or more students using language within the learning segment (**no more than 5 minutes in length**), AND/OR student work samples submitted in Assessment Task 3.

See the [Assessment Task 3: Artifacts and Commentary Specifications](#) in the Elementary Literacy for Washington Evidence Chart for instructions on electronic submission of evidence. This evidence chart identifies templates, supported file types, number of files, response length, and other important evidence specifications. Your evidence cannot contain hyperlinked content. Any web content you wish to include as part of your evidence must be submitted as a document file, which must conform to the file format and response length requirements.
What Do I Need to Write?

Assessment Commentary

In Assessment Task 3, you will write a commentary, responding to the prompts below. Your commentary should be no more than 12 single-spaced pages, including the prompts. Attach the assessment used to evaluate student performance (no more than 5 additional pages) and, if necessary, a transcription of inaudible portions of a multimedia clip of feedback, a student work sample, or a student self-reflection (no more than 2 additional pages) to the end of the Assessment Commentary. These additional pages do not count toward the commentary page limit noted above.

1. Analyzing Student Learning
   a. Identify the specific learning targets measured by the assessment you chose for analysis.
   b. Provide a graphic (table or chart) or narrative that summarizes student learning for your whole class. Be sure to summarize student learning for all evaluation criteria submitted in Assessment Task 3, Part D.
   c. Provide a graphic (table or chart) or narrative that summarizes student understanding of what they did well and/or needed to improve (student voice).
   d. Use evidence found in the 3 student work samples and student self-reflections, and the whole class summary to analyze the patterns of learning for the whole class and differences for groups or individual learners relative to
      ▪ the essential literacy strategy
      ▪ related skills
   e. What did you learn from student self-reflections on their own learning progress, considering their performance on the assessment?
   f. If a video or audio work sample and/or a video self-reflection occurs in a group context (e.g., discussion), provide the name of the clip and clearly describe how the scorer can identify the focus student(s) (e.g., position, physical description) whose work or self-reflection is portrayed.

Consider what students understand and do well, and where they continue to struggle (e.g., common errors, confusions, need for greater challenge).
2. **Feedback to Guide Further Learning**
   Refer to specific evidence of submitted feedback to support your explanations.
   a. Identify the format in which you submitted your evidence of feedback for the 3 focus students. Choose one of the following:
      - Written directly on work samples or in separate documents that were provided to the focus students
      - In audio files
      - In video clips from Instruction Task 2 (provide a time-stamp reference) or in separate video clips
   If a video or audio clip of feedback occurs in a group context (e.g., discussion), clearly describe how the scorer can identify the focus student (e.g., position, physical description) who is being given feedback.
   b. Explain how feedback provided to the 3 focus students addresses their individual strengths and needs relative to the learning targets measured.
   c. Describe how you will support each focus student to understand and use this feedback to further their learning related to the learning targets, either within the learning segment or at a later time.

3. **Evidence of Language Understanding and Use**
   When responding to the prompt below, use concrete examples from the video clip(s) and/or student work samples as evidence. Evidence from the clip(s) may focus on one or more students.
   
   You may provide evidence of students’ language use from ONE, TWO, OR ALL THREE of the following sources:
   1. Use video clips from Instruction Task 2 and provide time-stamp references for evidence of language use.
   2. Submit an additional video file named “Language Use” of no more than 5 minutes in length and cite language use (this can be footage of one or more students’ language use). Submit the clip in Assessment Task 3, Part B.
   3. Use the student work samples analyzed in Assessment Task 3 and cite language use.

   a. Explain and provide concrete examples for the extent to which your students were able to use or struggled to use the
      - selected language function,
      - vocabulary or key phrases, **AND**
      - discourse or syntax
   to develop content understandings.
4. Using Assessment to Inform Instruction

a. Based on your analysis of student learning and student self-reflections presented in prompts 1b–e, describe next steps for planning and instruction to impact student learning:
   - For the whole class
   - For the 3 focus students and other individuals/groups with specific needs

Consider the variety of learners in your class who may require different strategies/support (e.g., students with IEPs or 504 plans, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students needing greater support or challenge).

b. Provide a rationale for how these next steps follow from your analysis of student learning and self-reflections. Support your explanation with principles from research and/or theory.

c. Identify any proposed revisions in tools/strategies for collecting what students thought they did well and/or needed to improve (student voice), providing a rationale for why revisions were or were not needed.

How Will the Evidence of My Teaching Practice Be Assessed?

For Assessment Task 3, your evidence will be assessed using rubrics 11–15, which appear on the following pages, and Student-Voice Rubric 18, which appears after Rubric 17. When preparing your artifacts and commentaries, refer to the rubrics frequently to guide your thinking, planning, instruction, assessment, and writing.
### Rubric 11: Analysis of Student Learning

**How does the candidate analyze evidence of student learning related to the essential literacy strategy and related skills?**

## Professional Responsibilities

Refer to the following table for an overview of your professional responsibilities in developing evidence for edTPA. If you are submitting artifacts and commentaries for official scoring, refer to [www.edTPA.com](http://www.edTPA.com) for complete and current information before beginning your work. Included here are important information and policies such as submission requirements and deadlines, registration agreements, attestations, permissions, and confidentiality. Whether or not you are submitting for official scoring, you should fulfill the professional responsibilities described below.

<table>
<thead>
<tr>
<th>Responsibility</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Protect confidentiality</td>
<td>To protect confidentiality, please remove your name and use pseudonyms or general references (e.g., “the district”) for your state, school, district, and cooperating teacher. Mask or remove all names on any typed or written material (e.g., commentaries, lesson plans, student work samples) that could identify individuals or institutions. During videorecording, use students’ first names only. To ensure confidentiality of your students and yourself, do not share your video on any publicly accessible platforms or websites (YouTube, Facebook, etc.).</td>
</tr>
<tr>
<td>Acquire permissions</td>
<td>Before you record your classroom instruction, ensure that you have the appropriate permission from the parents/guardians of your students and from adults who appear in the videorecording. Your program will provide you with procedures and necessary forms to obtain these permissions, according to agreements with the school or district in which you are student teaching or completing your internship. If your program does not provide the necessary forms, you may refer to the sample forms found on <a href="http://www.edTPA.com">www.edTPA.com</a>. The release forms are not to be submitted with your materials, but you should follow your campus policy for retaining them.</td>
</tr>
<tr>
<td>Cite sources</td>
<td>Provide citations for the source of all materials that you did not create (e.g., published texts, websites, and material from other educators). List all citations by lesson number at the end of the Planning Commentary. Note: Citations do not count toward the commentary page limit.</td>
</tr>
<tr>
<td>Align instruction with state standards</td>
<td>As part of the assessment, you will document the alignment of your lesson plans with state-adopted academic content standards that are the target of student learning. Refer to the Office of the Superintendent of Public Instruction website for your state to obtain copies of relevant standards for this assessment.</td>
</tr>
</tbody>
</table>
| Follow the guidelines for candidate support at [www.edTPA.com](http://www.edTPA.com) | Follow the guidelines for candidate support found at [www.edTPA.com](http://www.edTPA.com) as you develop your evidence for edTPA. Although you may seek and receive appropriate support from your university supervisors, cooperating/master teachers, university instructors, or peers during this process, the ultimate responsibility for completing this assessment lies with you. **Therefore, when you submit your completed work, you must be able to confirm your adherence with certain statements, such as the following:**  
  - I have primary responsibility for teaching the students/class during the learning segment profiled in this assessment.  
  - I have not previously taught this learning segment to the students/class.  
  - The video clips submitted are unedited (continuous) and show me teaching the students/class profiled in the evidence submitted.  
  - The student work included in the documentation is that of my students, completed during the learning segment documented in this assessment.  
  - I am author of the commentaries and other written responses to prompts in this assessment.  
  - Appropriate citations have been made for all materials in the assessment whose sources are from published text, the Internet, or other educators.  

Elementary Literacy Context for Learning Information

Use the Context for Learning Information to supply information about your school/classroom context.

About the School Where You Are Teaching

1. In what type of school do you teach? (Type an “X” next to the appropriate description; if “other” applies, provide a brief description.)
   - Elementary school: 
   - Middle school: 
   - Other (please describe): 

2. Where is the school where you are teaching located? (Type an “X” next to the appropriate description.)
   - City: 
   - Suburb: 
   - Town: 
   - Rural: 

3. List any special features of your school or classroom setting (e.g., charter, co-teaching, themed magnet, intervention or other leveled small group instruction, classroom aide, bilingual, team taught with a special education teacher) that will affect your teaching in this learning segment.

4. Describe any district, school, or cooperating teacher requirements or expectations that might affect your planning or delivery of instruction, such as required curricula, pacing plan, use of specific instructional strategies, or standardized tests.

About the Class Featured in this Learning Segment

1. How much time is devoted each day to literacy instruction in your classroom?

2. Is there any ability grouping or tracking in literacy? If so, please describe how it affects your class.

3. Identify any textbook or instructional program you primarily use for literacy instruction. If a textbook, please provide the title, publisher, and date of publication.

4. List other resources (e.g., electronic whiteboard, classroom library or other text sets, online professional resources) you use for literacy instruction in this class.

---

8 If you need guidance when making a selection, reference the NCES locale category definitions (https://nces.ed.gov/surveys/ruraled/definitions.asp) or consult with your placement school administrator.
About the Students in the Class Featured in this Learning Segment

1. Grade level(s): ________________________________

2. Number of
   - students in the class: _____
   - males: _____ females: _____

3. Complete the charts below to summarize required or needed supports, accommodations, or modifications for your students that will affect your instruction in this learning segment. As needed, consult with your cooperating teacher to complete the charts. Some rows have been completed in italics as examples. Use as many rows as you need.

Consider the variety of learners in your class who may require different strategies/supports or accommodations/modifications to instruction or assessment. For example, students

- With Individualized Education Programs (IEPs) or 504 plans
- With specific language needs
- Needing greater challenge or support
- Who struggle with reading
- Who are underperforming students or have gaps in academic knowledge

For Assessment Task 3, you will choose work samples from 3 focus students. At least one of these students must have a specified learning need.
### Students with IEPs/504 Plans

<table>
<thead>

<th>Other Learning Needs</th>
<th>Number of Students</th>
<th>Supports, Accommodations, Modifications</th>
</tr>
</thead>
<tbody>
<tr>
<td>Example: Struggling readers</td>
<td>5</td>
<td>Leveled text, targeted guided reading, ongoing reading assessment (e.g., running records, miscue, conferencing)</td>
</tr>
</tbody>
</table>
## Elementary Literacy for Washington Evidence Chart

Your evidence must be submitted to the electronic portfolio management system used by your teacher preparation program. Your submission must conform to the artifact and commentary specifications for each task. This section provides instructions for all evidence types as well as a description of supported file types for evidence submission, number of files, response lengths, and other information regarding format specifications. Note that your evidence cannot contain hyperlinked content. Any web content you wish to include as part of your evidence must be submitted as a document file, which must conform to the file format and response length requirements. If you have materials in languages other than English or Spanish, these must be translated into English as per the edTPA Submission Requirements. Those translations should be added to the original materials as part of the same file or, if applicable, to the end of the commentary template. There is no page limit for required translations into English.

### Planning Task 1: Artifacts and Commentary Specifications

<table>
<thead>
<tr>
<th>What to Submit</th>
<th>Supported File Types</th>
<th>Number of Files</th>
<th>Response Length</th>
<th>Additional Information</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>Min</td>
<td>Max</td>
<td></td>
</tr>
</tbody>
</table>
| Part A: Context for Learning Information (template provided) | .doc; .docx; .odt; .pdf | 1   | 1   | No more than 4 pages, including prompts | Use Arial 11-point type.  
Single space with 1” margins on all sides. |
| Part B: Lesson Plans for Learning Segment | .doc; .docx; .odt; .pdf | 1   | 1   | No more than 4 pages per lesson | Submit 3–5 lesson plans in 1 file.  
Within the file, label each lesson plan (Lesson 1, Lesson 2, etc.).  
All rationale or explanation for plans should be written in the Planning Commentary and removed from lesson plans. |
| Part C: Instructional Materials | .doc; .docx; .odt; .pdf | 1   | 1   | No more than 5 pages of KEY instructional materials per lesson plan | Submit all materials in 1 file.  
Within the file, label materials by corresponding lesson (Lesson 1 Instructional Materials, Lesson 2 Instructional Materials, etc.).  
Order materials as they are used in the learning segment. |
| Part D: Assessments | .doc; .docx; .odt; .pdf | 1   | 1   | No limit | Submit assessments in 1 file.  
Within the file, label assessments by corresponding lesson (Lesson 1 Assessments, Lesson 2 Assessments, etc.).  
Order assessments as they are used in the learning segment. |
| Part E: Planning Commentary (template provided) | .doc; .docx; .odt; .pdf | 1   | 1   | No more than 11 pages of commentary, including prompts | Use Arial 11-point type.  
Single space with 1” margins on all sides.  
Respond to prompts before teaching the learning segment. |
# Instruction Task 2: Artifacts and Commentary Specifications

<table>
<thead>
<tr>
<th>What to Submit</th>
<th>Supported File Types</th>
<th>Number of Files</th>
<th>Response Length</th>
<th>Additional Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Part A: Video Clips⁹</td>
<td>flv, asf, qt, mov, mpg, mpeg, avi, wmv, mp4, m4v</td>
<td>2</td>
<td>3</td>
<td>No more than 20 minutes total running time (but not less than 3 minutes)</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td>If needed for student-voice evidence, an additional video clip no more than 5 minutes</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Min</td>
<td>Max</td>
<td>No more than 20 minutes total running time (but not less than 3 minutes)</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td>If needed for student-voice evidence, an additional video clip no more than 5 minutes</td>

<td>No more than 20 minutes total running time (but not less than 3 minutes)</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td>If needed for student-voice evidence, an additional video clip no more than 5 minutes</td>
</tr>
</tbody>
</table>

- Before you record your video, obtain permission from the parents/guardians of your students and from adults who appear on the video.
- Refer to Instruction Task 2, What Do I Need to Do? for video clip content and requirements.
- When naming each clip file, include the number of the lesson shown in the video clip.

**IMPORTANT**: If your tools and/or strategies to elicit student expression of the following are not evident in the selected video clip(s), submit an additional video clip with that focus:
- Understanding of the learning target and why it is important
- Understanding of what they are doing well and what they need to improve to reach the learning target (if this is done through a written tool for the lesson(s) seen in the clip(s), just describe the tool in the commentary)

(Continued on next page)

---

⁹ **Video file size requirements**: The target file size is 200–300 MB or less. The Pearson ePortfolio System file size limit is 500 MB. Please note that each integrated platform provider portfolio system may have additional constraints or requirements regarding video formats and file sizes. You may need to use video tools to compress or transcode your video into smaller file sizes to facilitate uploading of the video. Refer to Recommended Video Formats and Settings on [www.edtpa.com](http://www.edtpa.com) for the current requirements.
## Instruction Task 2: Artifacts and Commentary Specifications (continued)

<table>

<tr>
<th>What to Submit</th>
<th>Supported File Types</th>
<th>Number of Files</th>
<th>Response Length</th>
<th>Additional Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Part B: Instruction Commentary</td>
<td>.doc; .docx; .odt; .pdf</td>
<td>1</td>
<td>1</td>
<td>No more than 7 pages of commentary, including prompts</td>
</tr>
<tr>
<td>(template provided)</td>
<td></td>
<td>Min Max</td>
<td></td>
<td>If needed, no more than 2 additional pages of supporting documentation</td>
</tr>
</tbody>
</table>

- Use Arial 11-point type.
- Single space with 1" margins on all sides.

**IMPORTANT:**
- Insert documentation at the end of the commentary file if
  - you or the students are using graphics, texts, or images that are not clearly visible in the video
  - you chose to submit a transcript for occasionally inaudible portions of the video
- If submitting documentation, include the video clip number, lesson number, and explanatory text (e.g., “Clip 1, lesson 2, text from a whiteboard that is not visible in the video,” “Clip 2, lesson 4, transcription of a student response that is inaudible”).
### Assessment Task 3: Artifacts and Commentary Specifications

<table>
<thead>
<tr>
<th>What to Submit</th>
<th>Supported File Types</th>
<th>Number of Files</th>
<th>Response Length</th>
<th>Additional Information</th>
</tr>
</thead>
</table>
| Part A: Student Work Samples¹⁰     | For written work samples: .doc; .docx; .odt; .pdf   | 3               | No page limit for written work samples | - For written work samples, use correction fluid, tape, or a felt-tip marker to **mask or remove students’ names, your name, and the name of the school before copying/scanning any work samples.** If your students’ writing is illegible, write a transcription directly on the work sample.  
- On each work sample, indicate the student number (Student 1 Work Sample, Student 2 Work Sample, or Student 3 Work Sample). If more than one focus student appears in a video or audio work sample, upload the same work sample separately for each focus student who is seen/heard and label appropriately. Describe how to recognize each of the focus students in the clip and provide the label associated with the clip in prompt 1f of the Assessment Commentary.  
- When naming each work sample file, include the student number.  
- If you submit a student work sample or feedback as a video or audio clip and comments made by you or your focus student(s) cannot be clearly heard, do one of the following: 1) attach a transcription of the inaudible comments (**no more than 2 additional pages**) to the end of the Assessment Commentary; 2) embed quotes with time-stamp references in the commentary response; or 3) insert captions in the video (captions for this purpose will be considered permissible editing). |
|                                     | For audio work samples: flv, asf, wmv, qt, mov, mpg, avi, mp3, wav, mp4, wma |                 | No more than 5 minutes per focus student for video or audio student work samples                                                                                                                                       |
|                                     | For video work samples: flv, asf, qt, mov, mpg, mpeg, avi, wmv, mp4, m4v                |                 |                                                                                 |                                                                                                                                                                                                                    |

¹⁰ **Video file size requirements:** The target file size is 200–300 MB or less. The Pearson ePortfolio System file size limit is 500 MB. Please note that each integrated platform provider portfolio system may have additional constraints or requirements regarding video formats and file sizes. You may need to use video tools to compress or transcode your video into smaller file sizes to facilitate uploading of the video. Elementary Literacy for Washington
Glossary

Source citations for glossary entries are provided as footnotes in this section.

**academic language:** Oral and written language used for academic purposes. Academic language is the means by which students develop and express content understandings. Academic language represents the language of the discipline that students need to learn and use to participate and engage in the content area in meaningful ways. There are **language demands** that teachers need to consider as they plan to support student learning of content. These **language demands** include **language functions**, **vocabulary**, **discourse**, and **syntax**.

- **language demands:** Specific ways that academic language (vocabulary, functions, discourse, syntax) is used by students to participate in learning tasks through reading, writing, listening, and/or speaking to demonstrate their disciplinary understanding.
- **language functions:** The content and language focus of the learning task, represented by the active verbs within the learning outcomes. Common language functions in the language arts include identifying main ideas and details; analyzing and interpreting characters and plots; arguing a position or point of view; predicting; evaluating or interpreting an author's purpose, message, and use of setting, mood, or tone; comparing ideas within and between texts; and so on.
- **vocabulary:** Includes words and phrases that are used within disciplines, including: (1) words and phrases with subject-specific meanings that differ from meanings used in everyday life (e.g., table); (2) general academic vocabulary used across disciplines (e.g., compare, analyze, evaluate); and (3) subject-specific words defined for use in the discipline.
- **discourse:** Discourse includes the structures of written and oral language, as well as how members of the discipline talk, write, and participate in knowledge construction. Discipline-specific discourse has distinctive features or ways of structuring oral or written language (text structures) that provide useful ways for the content to be communicated. In the language arts and literacy, there are structures for composing, interpreting, and comprehending expository, narrative, poetic, journalistic, and graphic print materials as well as video and live presentations. If the language function is to interpret character development, then appropriate language forms could include written essays (with particular ways of citing textual evidence) or

---

pattern sentences, such as, “The author used (action, dialogue, and/or description) to introduce (main character). One example of (action, dialogue, and/or description) was ____________, which suggested that the character was ______________.”

- **syntax**: The set of conventions for organizing symbols, words, and phrases together into structures (e.g., sentences, graphs, tables).\(^{16}\)

- **language supports**: The scaffolds, representations, and pedagogical strategies teachers provide to help learners understand, use, and practice the concepts and language they need to learn within disciplines (Santos, Darling-Hammond, Cheuk, 2012).\(^{17}\) The language supports planned within the lessons in edTPA should directly support learners to understand and use identified language demands (vocabulary language function, and discourse or syntax) to deepen content understandings.

**aligned**: Consistently addressing the same/similar learning outcomes for students.

**analysis/analyze**: Analysis means to “break apart” and examine the pieces, trends, or patterns. Analysis depends on the interpretations the candidate makes of experience and examines why the elements or events of that experience are the way they are. Analysis must include an interpretation of the evidence submitted and conclusions based on evidence. It shows the scorer the thought processes the candidate used to arrive at the conclusions made about the learning segment. Analysis is called for when a prompt uses words such as how, why, or in what way(s).

**artifacts**: Authentic work completed by you and your students, including lesson plans, copies of instructional and assessment materials, video clips of your teaching, and student work samples and self-reflections. Artifacts are submitted as part of your evidence.

**assessment (formal and informal)**: “[R]efers to all those activities undertaken by teachers and by their students . . . that provide information to be used as feedback to modify the teaching and learning activities”\(^{18}\) for both students and teachers. Assessments provide evidence of students’ prior knowledge, thinking, or learning in order to evaluate what students understand and how they are thinking at a given point in time for the purpose of promoting student learning. Informal assessments may include, for example, student questions and responses during instruction and teacher observations of students as they work or perform. Formal assessments may include, for example, quizzes, homework assignments, journals, projects, and performance tasks.

**assets (knowledge of students)**:

- **personal**: Refers to specific background information that students bring to the learning environment. Students may bring interests, knowledge, everyday experiences, and family backgrounds, and so on, which a teacher can draw upon to support learning.

---

- **cultural**: Refers to the cultural backgrounds and practices that students bring to the learning environment, such as traditions, languages and dialects, worldviews, literature, art, and so on, that a teacher can draw upon to support learning.

- **community**: Refers to common backgrounds and experiences that students bring from the community where they live, such as resources, local landmarks, community events and practices, and so on, that a teacher can draw upon to support learning.

**central focus**: A description of the important understandings and core concepts that you want students to develop within the learning segment. The central focus should go beyond a list of facts and skills, align with content standards and learning targets, and address the subject-specific components in the learning segment. In elementary literacy, the *central focus* is an overarching, big idea for student learning in literacy. The subject-specific components for the elementary literacy central focus also include (a) an essential literacy strategy tied to the central focus and (b) related skills.

For example, the central focus for a primary grade learning segment might be retelling. The learning segment would focus on the essential literacy strategy (e.g., summarizing a story) and related skills (e.g., decoding, recalling, sequencing). The central focus for an upper elementary learning segment might be persuasive writing. The learning segment would focus on the essential literacy strategy (using evidence to support an argument) and related skills (e.g., writing paragraphs, using correct verb tense, or other conventions). The chart below provides ONE example of the relationships among the central focus, essential strategy, related skills, standards/targets, and academic language function.
See the appendix of the Understanding Rubric Level Progressions (URLP) resource for additional guidance on selecting the central focus, essential literacy strategy, and related skills that you plan to teach within the lessons in your learning segment.

**commentary**: Submitted as part of each task and, along with artifacts, make up your evidence. The commentaries should be written to explain the rationale behind your teaching decisions and to analyze and reflect on what you have learned about your teaching practice and your students’ learning. The commentaries will guide the scorers in interpreting the evidence submitted.

**communication**: Expression of understandings through oral, written, or nonverbal means, appropriate to the student’s developmental level and, if applicable, routine use of assistive communication technologies.

**description**: Used when stating, listing, or providing details that are accurate and precise enumeration and/or explanation; clear and logical ordering of the elements or features of the event, person, concept or strategy described; supporting features of elements that would allow an outsider to visualize whatever is provided as evidence.
**developmental approximations**: Include transitional spelling or other attempts to use skills or strategies just beyond a student’s current level/capability.

**engaging students in learning**: Using instructional and motivational strategies that promote students’ active involvement in learning tasks that increase their knowledge, skills, and abilities related to specific learning targets. Engagement in learning contrasts with student participation in learning tasks where students complete the learning tasks but make little meaning because of the design and/or implementation of the task.

**essential literacy strategy**: An approach selected deliberately by a reader or writer to comprehend or compose text. When students are able to select and use strategies automatically, they have achieved independence in using the strategy to accomplish reading and writing goals.

For elementary literacy, the *essential literacy strategy* is the specific strategy for comprehending or composing text that you will teach across your learning segment lessons. It should be clearly tied to your segment’s central focus and stem from that big, overarching idea for student learning in literacy.

Example strategies for reading include summarizing a story, comparing and contrasting firsthand and secondhand accounts of the same event, using evidence to predict, interpreting a character’s feelings, or drawing conclusions from informational text. Example strategies for writing include organizing ideas before writing, note taking from informational text to support drafting a topic, using graphic organizers to organize writing, using a rubric to revise a draft, or using quotes as evidence to support an argument. See the *Making Good Choices* resource for additional guidance.

**evaluation criteria**: Performance indicators or dimensions that are used to assess evidence of student learning. They indicate the qualities by which levels of performance can be differentiated and that anchor judgments about the learner’s degree of success on an assessment. Evaluation criteria can be represented in various ways, such as a rubric, a point system for different levels of performance, or rules for awarding full versus partial credit. Evaluation criteria may examine correctness/accuracy, cognitive complexity, sophistication or elaboration of responses, or quality of explanations.

**evidence**: Tangible proof that verifies an intended outcome. In the context of the edTPA tasks, required assessment responses represent evidence that includes description of the learning context, instructional plans, instructional materials, assessment tools, evaluation criteria, commentary, video clips, work samples, and oral and written feedback to students.

Evidence of edTPA consists of *artifacts* that document how you planned and implemented instruction *AND commentaries* that explain your plans and what is seen in the videorecording(s) or examine what you learned about your teaching practice and your students’ learning. Evidence should demonstrate your ability to design lesson plans with instructional supports that deepen student learning, use knowledge of your students to inform instruction, foster a positive learning environment that promotes student learning, monitor and assess student progress toward learning targets, and analyze your teaching effectiveness. Your evidence must be submitted electronically using the electronic portfolio management system used by your teacher preparation program.
**learning environment:** The designed physical and emotional context, established and maintained throughout the learning segment to support a positive and productive learning experience for students.

**learning segment:** A set of 3–5 lessons that build one upon another toward a central focus, with a clearly defined beginning and end.

**learning targets:** “[D]efines academic success, what we want students to know and be able to do.”\(^1\) Generally written in student-friendly language so the learner can articulate and demonstrate learning.

**learning task:** Purposefully designed activities in which students engage in learning—not just participate—to meet the lesson's learning targets. Includes activities, discussions, or other modes of participation that engage students to develop, practice, and apply skills and knowledge related to a specific learning goal. Learning tasks may be scaffolded to connect prior knowledge to new knowledge and often include formative assessment. A sample literacy learning task for fifth grade focused on writing an essay with an argument structure could be a discussion about a topic for which students have strong opinions (e.g., school uniforms) and draw from their everyday experiences constructing arguments to introduce the features of the genre. Over a unit of instruction, the teacher models the various features, students read and analyze argument text on a variety of topics, and develop their own argument essay.

**lesson plan:** A plan for student learning. Three to five lesson plans comprise a learning segment.

**literacy skills:** Specific knowledge needed for reading and writing including phonemic/phonological awareness; print concepts; decoding; word analysis; sight-word recognition; and spelling, punctuation, or other language conventions.

**misconceptions:** Include confusions about a strategy or skill (e.g., misunderstandings about text purpose and structure, application of a skill, multiple meaning words).

**patterns of learning:** Includes both quantitative and qualitative patterns (or consistencies) for different groups of students or individuals. Quantitative patterns indicate in a numerical way the information understood from the assessment (e.g., 10 out of 15 students or 20% of the students). Qualitative patterns include descriptions of understandings, misunderstandings, and/or developmental approximations that could explain the quantitative patterns (e.g., “given that most students were able to . . . it seems that they understand”).

**planned supports:** Instructional strategies, learning tasks and materials, and other resources deliberately designed to facilitate student learning of the central focus.

**prior academic learning and prerequisite skills:** Includes students’ content knowledge and skills as well as academic experiences developed prior to the learning segment.

**rapport:** A close and harmonious relationship in which the people or groups understand each other’s feelings or ideas and communicate well with each other.

---

**reading/writing connections:** Support students’ literacy development through an explicit understanding that many of the skills that are taught in reading instruction are also beneficial to young writers. Students gain insight on how the processes of reading and writing are interdependent, thereby reinforcing their understanding of the varied purposes of texts, how texts are organized, how to make meaning from text, and how writers develop their craft. Examples of learning tasks that support reading/writing connections include reading or researching informational text to inform an essay; journal writing to make predictions; making personal or text-to-text connections; writing book reviews or alternative endings to stories; or writing in a style that emulates a model.

**related skills:** Literacy skills that students will develop and practice while learning an essential literacy strategy for comprehending or composing text within the learning segment. These skills should help students understand and apply the essential literacy strategy that you are teaching. Not to be confused with prerequisite skills, which are fully developed before the learning segment begins. See the [Making Good Choices](#) resource for additional guidance.

**respect:** A positive feeling of esteem or deference for a person and specific actions and conduct representative of that esteem. Respect can be a specific feeling of regard for the actual qualities of the one respected. It can also be conduct in accord with a specific ethic of respect. Rude conduct is usually considered to indicate a lack of respect, disrespect, whereas actions that honor somebody or something indicate respect. Note that respectful actions and conduct are culturally defined and may be context dependent.

**rubrics:** Subject-specific evaluation criteria used to score your performance on edTPA. These rubrics are included in the handbook following the directions for each task. The descriptors in the five-level rubrics address a wide range of performance, beginning with the knowledge and skills of a novice not ready to teach (Level 1) and extending to the advanced practices of a highly accomplished beginner (Level 5).

**student-based evidence:** Evidence showing the student’s clear and detailed understanding of their own progress toward the learning target. Student-based evidence includes “Student Voice” and student work.

**student voice:** Ongoing reflective self-assessment expressed in the words of the learner for the purpose of improving teaching and learning. Student voice is important evidence, in addition to student work, of student understanding of his/her own learning process and progress toward the learning target(s). Examples of student-voice evidence might include the following:

- Evidence that students know the learning targets and what is required to meet them.
- Students explain the learning target(s) in their own words, written or oral, rather than as worded by the teacher.
- Students express why the learning target(s) are important.
- Students describe how they will demonstrate that they have reached the targets.
- Evidence that students know how to monitor their progress toward the learning target(s) using tools (checklists, rubrics, etc.).
- Students know and discuss the progression of learning that guides their progress.
- Students compare their work with a tool that clarifies the progression of learning.
- Students explain what they are doing well, what they need to improve, and what they need to do to make the identified improvements.
- Evidence that students know how to access resources and additional support when needed.
- Students articulate the range of resources available to them to help them reach the learning target(s).
- Students explain how and why particular resources will help them reach the learning target.

**tools and strategies for student-voice evidence:** Tools and strategies for prompting students to communicate their understanding of either the learning targets or their own learning progress. Tools are artifacts (e.g., graphic organizers, rubrics, checklists). Strategies are plans or methods (e.g., routines for unpacking learning targets or self-monitoring of learning progress, peer review opportunities, teacher or peer feedback, letter to a younger student explaining a learning target) for eliciting student-voice evidence.

**variety of learners:** Students in your class who may require different strategies or support. These students include, but are not limited to, students with IEPs or 504 plans, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students.
