Annual Request Information

1. Background: Review and discuss the context of the proposed technology in detail. Explain how this proposal will be used in conjunction with an original proposal or existing technology. If applicable, how is the current technology disabled or inadequate?

In an effort to provide as many personal space study areas on the campus UW WIFI access was added to the UW Cragle parking lot. The UW Cragle parking lot is scheduled to be taken off line in summer of 2021 for the groundbreaking of the new UW academic building, Milgard Hall. Currently the Cragle parking lot is the only close campus UW parking lot to have dedicated WIFI coverage. The most economical option to maintain UW WIFI in a UW Parking Lot is to reinstalling the existing Cragle WIFI Access Point to the TLB Parking Lot.

2. Benefit to Students: Discuss how students have benefited from the original proposal, if applicable. How will additional funding of the technology benefit students? If this was an unforeseen technology need, discuss how students will benefit from this new proposal and why the need cannot wait for annual allocation funding.

This will allow UW WIFI access to be available to students parked in the TLB parking lot during their use of the parking lot.

3. Access: Describe who will be using or will have access to the resources being proposed. If the access has changed since an original proposal, be sure to note that here. In addition, all previous requestors, please provide historic data highlighting the usage and accessibility of technology. All new requestors, please provide user need data.
All UW Students, Faculty, Staff ability to utilize UW WIFI.

4. Timeline: Provide a timeline showing how the proposed technology can be completed during the requested period. Describe when you would like to see this proposal initiated and completed, and why.

UWT-IT would like to schedule the move of the WIFI access point before the Cragle lot is fully taken off line, as soon as possible. The move of the WIFI access point from Cragle to the TLB parking lot will be scheduled to happen within one day.

5. Resources/Budget: Discuss available financial, personnel and space resources devoted to the proposed technology and level of support. Proposal must detail all the items/resources requested to be purchased. This includes filling out the Item Detail in next section.

The projects costs will be used to uninstall and reinstall the existing Cragle parking lot access point. This work will require a lift rental and an expected difficult cable installation, but reusing the existing access point hardware will allow an approximately $2000 equipment cost savings.
