- Title of Request: UWY TV Replacement
- Request Code: 21A0267
- UW Tacoma Affiliation: Staff
- Phone Number: 2536924439
- Type of Request: One Time
- Department Head Approval: ✔️
- Department Head: Patrick Pow

**Annual Request Information**

1. **Background:** Review and discuss the context of the proposed technology in detail. Explain how this proposal will be used in conjunction with an original proposal or existing technology. If applicable, how is the current technology disabled or inadequate?

   This purpose of this proposal is to request funds to purchase a 55” Samsung Display/TV to replace the broken unit on the 1st floor of University YMCA (UWY) weight room area (the display on wall facing east windows). This display is used to show UWT student information regarding classes, events and happenings on campus. It is one of the many similar student displays across campus.

   On 2/8/2021, I discovered the existing display would not power up and after troubleshooting, I was not able to fix display. The display is out of warranty and is an older unit (installed when UWY was first opened), so it is advisable to purchase a new display.

2. **Benefit to Students:** Discuss how students have benefited from the original proposal, if applicable. How will additional funding of the technology benefit students? If this was an unforeseen technology need, discuss how students will benefit from this new proposal and why the need cannot wait for annual allocation funding.

   Students will benefit by having continued upcoming UWT content accessible to them.

3. **Access:** Describe who will be using or will have access to the resources being proposed. If the access has changed since an original proposal, be sure to note that here. In addition, all previous requestors, please provide historic data highlighting the usage and accessibility of technology. All new requestors, please provide user need data.
All UWT students will have access to watch content on the display.

4. Timeline: Provide a timeline showing how the proposed technology can be completed during the requested period. Describe when you would like to see this proposal initiated and completed, and why.

We would like to install the display in summer of 2021, if funding is granted.

5. Resources/Budget: Discuss available financial, personnel and space resources devoted to the proposed technology and level of support. Proposal must detail all the items/resources requested to be purchased. This includes filling out the Item Detail in next section.

UWT IT will handle installation and maintenance of the display. The display quoted is a commercial display that is rated for being always turned on, thus price is a bit higher than TVs you would find on Amazon or big box stores of consumer-quality TVs.
