NEGOTIATE WITH CONFIDENCE

WORKSHOP OVERVIEW
// This full-day, virtual workshop will be highly interactive and experiential. In the morning session, participants will dive into the science of negotiation, explore useful negotiation frameworks, and identify best negotiation practices and strategies to achieve better individual and organization outcomes. Women face unique challenges when it comes to negotiating, so too do men. The interactive afternoon workshop will explore the role of gender in negotiations, and will guide students to more effectively project assertiveness and confidence to earn their true value.

Students with diverse backgrounds and perspectives are welcome in this workshop. Class materials and activities will be inclusive and respectful of all identities including but not limited to: gender, ethnicity, race, culture, sexuality, age, disability, and socioeconomic status.

WHO CAN BENEFIT
// This course is appropriate for both beginner and experienced negotiators looking to increase their effectiveness and skill in navigating negotiations. While the afternoon session is designed to explore issues faced by women in negotiations, everyone is welcome and can benefit from the skills learned in the course.
